148 SHELBY STREET, - DETROIT, MICH.

TO CANADIAN INVESTORS

Oregon-Idaho Gold Mining Co.

INCORPORATED

Capital $5,000,000. Shares $1.00 Each, Par Value, Fully Paid Up and Non-Assessable.

We have just secured the agency for the above splendid proposition, of which we have been allotted a block of Treasury stock. We can confidently recommend this as a safe and, we believe, exceedingly profitable investment. Every dollar of stock is guaranteed by twenty year, full paid, gold bond, delivered to purchaser of stock, from an investment Company that has no interest whatever in the company, but who are disposing of the debentured bonds to the public, and, under their charter, they are compelled to deposit securities to an equal amount, to the State Treasurer under which they received their charter, there by doubly securing the payment of their gold bonds.

The Company's property, which is now past the project stage, is known to be marvellously rich in gold.

Following is the opinion of G. W. Miller, Mining Engineer, formerly with the Boston and Montana Consolidated Copper and Silver Mining Company, U. S.; Simmer and Jack Mining Co. Limited, Klasfontain South Africa:—

"You have here a most valuable property and one of the strongest fissure veins that can be found in any part of the world.

"With the present development of the Monument Mine, I estimate that 100 tons per day can be extracted, which will mill from $15.00 to $20.00 per ton. The total cost of mining the ore, delivering and milling, I place at about $4.00 per ton. With the crushed milling capacity, it is safe to say that the mine can furnish 100 tons of $15.00 ore, which would yield a clear profit of $11.00 per ton, or $1,100 00 per day (equal to $400,000 00 per annum). Estimated total value of ore in sight, $2,800,000."

During the past summer, a party of the Company Directors visited the property, taking with them, Amos P. Brown, Ph.D., Mining Engineer and Professor of Geology and Mineralogy at the University of Pennsylvania. Mr. Brown writes as follows:—

"In regards to the amount of ore available at the mines at Sinclair, I saw on the dumps several thousand tons, probably 5000 tons would be an under-estimate.

"As to the size of the ore body itself, from what I saw of the geological structure, I think that there is every indication that it will be found to extend underground as far as the out-croppings on the south side of the gulch. This would mean an ore body large enough to keep the present mill running for many years to come.

A write up of the proposition will appear in these columns in a few days. Watch for it. In the meantime we will be pleased to furnish full information to investors.

THOS. PATTERSON & CO.,

FISCAL AGENTS. PETERBOROUGH

25000 SHARES

The above number of shares of stock that is worth to-day on the open market $3,100, will be given to any person that can find in America another mining company that has spent about $600,000 on its properties, that has 7 ton smelter, with sampling mill, dust chambers, hot blast stove, electric power plant, steam power plant, 1000 ton capacity ore bins, 600 ton capacity coke bins, rail road over one mile long, engine on track, office of company with fireproof vaults, boarding houses and dwelling houses. All of the above will be completed by the time you read this ad. Ore in sight to last from 2 to 3 years, averaging $30 per ton, $24 copper, $6 gold and silver. 1800 foot working tunnel, shaft with three levels ore handled by gravity dropping from one level to another through winzes into ore cars on railroad cars, which when then be hauled to the smelter, that will sell or has ever sold their stock

10 CENTS PER SHARE - PAR VALUE $1.00

This is what I am doing with the stock of the

Great Western Gold Company, OF REDDING, CALIFORNIA

I will give the above amount, 25,000 shares to any person that can find its equal in America at this price. We expect to be running in full blast inside of 30 days, and paying dividends on $1 00 stock by the 1st of June.

If you desire a first class, honest, legitimate mining investment, send me your cheque for all you can buy immediately! As this will likely be advanced to $1 00 per share inside of 30 or 60 days. Do not write to me about this proposition unless you mean business as my time is too valuable Your money is what I want for I believe positively I am a return it to you at the rate of 100 per cent. annually on your investment after dividends are once commenced. If you really desire other information looking to an investment, write me immediately, as stock at this price will soon be gone

Address W. P. FIFE,

GRAND DUKES NOW FOR PEACE

If One Victory, Only, Could be Won, Russia Would Gladly Quit

A DIFFICULTY OVER TERMS

The Defeat of Kuropatkin Will Hasten Cecession of Hostilities

St. Petersburg, March 9.—Far more important than the matter of riots in Russia is the arrangement of terms of peace with Japan. In Russia are two great parties, led, respectively, by the grand dukes and by M. Witte. The one was the party of war, the other is the party of peace. M. Witte was removed from his position as Minister of Finance because he opposed war. Associated with him in his ideas was Count Lamsdorff, the Minister for Foreign affairs. Against them were the grand dukes, Monsieur Plesbrassof and the general staff in Manchuria.

War followed. Witte was removed from active position in politics, the grand dukes held the reins of government. The result is to be read in fourteen lost engagements and the dissatisfaction of the people with the burden of the war.

As a consequence the grand dukes have agreed to consider the question of peace as the best means to avoid still graver dangers in the interior of the country, and have listened once more to the voice of M. Witte.

M. Witte considers peace imperative. He is prepared to grant much to the enemy if only the war be brought to a speedy termination Unpalatable as his advice is, the grand dukes realize his importance when the support of a strong man is needed. In such times he holds the policy of Russia.

Such a time is now, and Russia is prepared to make peace with its adversary quickly if only terms to that end can be found, but so far none has been bold enough to take upon himself the odium of proposing peace until the unbroken record of defeat should have been destroyed.

Terms are matters difficult to define, but it may be accepted as the present opinion of Russia that peace would be cheaply bought at the expense of Port Arthur and southern Manchuria, if only the nation were saved the indignity and material disadvantage of indemnity.

Japan needs peace almost as much as Russia, and it needs indemnity more. It is the duty of the peacemakers to find a "modus vivendi" between the nations, and with both countries willing, this should no longer be impossible.

METHODS OF PATENT MEDICINE MEN.

Do The Persons Who Patronize These Concerns Get What They Pay For?

AN IMPORTANT QUESTION.

Are They Rank Frauds, as Has Been Indiscriminately Charged, or Is Truth and Honor Their Basis?

Some one has said that a half truth is worse than a lie, and we all know that a lie travels faster than the truth. A general statement may also be so made as to have all the evil qualities of a lie. This remark is of point at this time in connection with certain attacks which have been made upon the patent medicine business. If one were to believe all that has been said on this score he would be forced to the conclusion that businesses which are the outgrowth of years of effort by the proprietors and which have gained the confidence of the public during that period must be classed as rank frauds. But can any business, whether it be patent medicine or the manufacture of shoe blacking, flourish for many years without solid worth and merit behind it? The question answers itself. And so the attack upon the patent medicine business, to which reference is here made falls to the ground because of its own falsity as applying to all patent medicine concerns. Still, these charges are worth examination and refutation because of the damage they may do to business which have won the confidence of the public by years of honorable and honest dealing.

It is not the purpose of this article to deny that these methods may be pursued by some men, but there is no warrant for implying, as was done, that all patent medicine businesses are conducted on these lines. Such methods are sure to reap their reward in speedy failure, but a business like that of Dr. Ray V. Pierce, of Buffalo, could not exist for 38 years and reach its present mammoth proportions if such practices had been pursued. Dr. Pierce is too well known as a man of honor to rest easy under such an imputation. His business is what it is because he has always done what he promised to do and because his famous remedies are just what he says they are. His establishment, in Buffalo, consisting of a large laboratory and a hospital, is one of the chief points of interest in that city, and he himself enjoys the confidence and the esteem of his fellow townsmen, who have honored him in various ways.

Dr. Pierce is a patent medicine man and he is proud of the good he has done to his fellow men because he long since had the courage to break away from the narrow codes of the medical profession and advertise broadcast the remedies for men and women which have made his name famous.

A brief examination of the methods of handling the immense number of mail inquiries which come into Dr. Pierce's establishment in the course of a day will be of interest and will convince anyone that the general charge of fraud is without basis so far as he is concerned. In the first place it may be said that Dr. Pierce himself does not pretend to read and answer all the mail that comes to him. Neither does any other proprietor of a large business. But he does have a large staff of graduated physicians and surgeons, men who are specialists in many lines of the profession, who do read these letters and who do give them their individual and careful attention.

When an inquiry is received from some sufferer detailing his symptoms and giving a history of his case it is marked with a number. That number thereafter distinguishes that case. It is sent to the proper physician and by him is carefully examined. This physician turns to the phonograph at his elbow and dictates an answer. If he wants further information concerning the case he asks the inquirer for it. If the writer has told him enough to enable him to judge properly of the case he answers the questioner in that light. If the case is one that apparently will be met by either of the famous Pierce Family Medicines the patient is so advised. If it is one that seems to demand some other form of treatment that treatment is advised, and, if the patient agree, a prescription is written and sent to the dispensing department and there filled and the medicine forwarded. Each physician gives close attention to the cases which are presented to him, and the system is such that further reports from a patient go unerringly to the physician who first had charge of the case. Each case is handled in all respects just as it would be if the doctor saw the patient. In cases which present unusual difficulties and do not progress as the doctors feel that they should, the patients are advised to come to the Pierce hospital, known as the Invalids' Hotel, where they undergo a treatment which could not be given in any home. The fact that this hospital is constantly full is proof of the confidence which the public generally has in Dr. Pierce notwithstanding all that is said unfairly against patent medicines and patent medicine methods.

All letters are treated with absolute confidence. They are not made the subject of common comment by the employees of the establishment. They are treated just as secredly as the confessions made to a private practitioner, Neither are the names of the writers or their letters ever sold for any purpose.

As for the medicines, they are compounded from pure roots, herbs and barks, by skilled chemists and on the most scientific basis. They are not cure-alls but are prepared for certain specific purposes, and millions of persons have satisfactorily proved their worth. As for alcohol, there is a standing reward of $3,000 for anyone who will discover any alcohol, opium or other harmful ingredient in either the "Favorite Prescription" or the "Golden Medical Discovery," and that is all that need be said on that point.

On Saturday we will put on sale six double rocking horses, reg. price $1.25, will be sold, while they last, for 89 cents. Times Bookstore.

ALEXANDER MUNROE AND GEO. H. MUNROE

CALL ATTENTION TO

The Marconi Wireless Telegraph Co., of Canada

Capital Stock, $5,000,000. Par Value of Shares, $5.00 Each. Full Paid, Non-Assessable

EVERY STOCKHOLDER ON AN EQUAL BASIS
NO BONDS — NO PREFERRED STOCK

Shares in the above named Company are offered for subscription by Munroe & Munroe at $5 each, in blocks of from one share to 200 shares for a limited period only. Every indication points to the early and rapid advance in value of these shares, and those who are desirous of making a profitable investment of their surplus should lose no time in forwarding their application for as many shares as they can conveniently purchase at this time. No enterprise of modern times offers anything like so good an opportunity for rapid and substantial accretion as the Marconi investment. We demonstrate this to the satisfaction of all investigators in our book entitled "Financial Aspect of the Marconi Investment," which we will send free to all who request it. Facts and figures most convincing are therein cited to prove that the Marconi Wireless Telegraph System will eventually dominate the industry of rapid communication between all nations of the earth. The Canadian Company is one of the most important integers in the world-wide organization which has been planned to control the world's means of rapid interchange of intelligence. You should study the Marconi System thoroughly, and particularly the situation of the Canadian Company with reference to this most important world organization.

THE MARCONI WIRELESS TELEGRAPH CO. OF CANADA

Is the owner by purchase of all the patents of WILLIAM MARCONI and his associates as applied to Wireless Telegraphy for the Dominion of Canada. It is so intimately associated with Marconi's Wireless Telegraph Company, Ltd, of England, the Marconi Wireless Telegraph Company, of America, that it is an essential factor in the progress and development of the System. It is the owner of a high power wireless telegraph station located at Glace Bay, Nova Scotia, shortly to be opened by Mr. Marconi, for the transmission of telegraphic messages between England and the Continent of America. It has equipped nine wireless telegraph stations on the Atlantic Coast and St. Lawrence River within the Dominion, and has equipped three ships of the Canadian Government and five ships of the Allan Line. MESSAGES DESTINED FOR PASSENGERS ON BOARD THE ALLAN LINE STEAMSHIPS OR ANY OF THE SEVENTY-FIVE (75) TRANSATLANTIC SHIPS, CARRYING THE MARCONI EQUIPMENT MAY BE DESPATCHED FROM SHORE, FROM ANY OF THE 30,000 OFFICES OF THE WESTERN UNION OR POSTAL TELEGRAPH COMPANIES THROUGHOUT THE UNITED STATES AND CANADA. Vessels are in constant communication with land throughout the voyage. The business established through this medium is a very large and profitable one, and is constantly growing. The Canadian Company has the support and backing of the Dominion Government which has granted large subsidies for the installation and maintenance of the System, as an aid to navigation and in reaching distant and inaccessible points at the outposts of civilization. The day is rapidly approaching when all other systems of telegraphic communications must give way before the advantages of wireless telegraphy, and those who join in the enterprise at this early stage of its existence will reap the large reward which is due to the pioneer in every enterprise As an investment of $100 in the Bell Telephone Company in 1878 did, in the twenty-five succeeding years, net the investor a profit of over $200,000, so will the investment of a few hundred dollars in the Marconi Wireless Telegraph Company of Canada net the investor thousands of dollars of profit.

Our faith in the destiny of the Marconi Wireless Telegraph Company of Canada is boundless. It will open to Canada its first means of direct communication with the mother country, and will place at the disposal of press and public alike, a medium whereby news and commercial messages may be transmitted direct. It is therefore, to the general as well as to the individual advantage of Canadians to identify themselves with the Company as stockholders.

Further information will be given on application to any of our offices named below. However, in order to be certain that you will procure your full allotment of the stock at the present price; we would advise an immediate remittance for the number of shares you desire to purchase. Address all communications and make all checks payable to

HOTELS

THE QUEEN'S HOTEL
TORONTO

Celebrated for its homelike comforts and the peculiar excellence of its cuisine. Has always been favored by the patronage of the best people

AN OPEN LETTER FROM MR. W. J. GAGE.

Toronto, Can., Dec. 1, 1904.

DEAR FRIEND,

We again come to you with our story of trouble, but a story of surprising and encouraging results.

No apology is necessary; the great work of the National Sanitarium Association, carried on at the Muskoka Cottage Sanatorium and Free Hospital for Consumptives, is now well known.

The 1,500 patients cared for in these two Homes plead for your help.

The large number of lives saved, of those who a few years ago were supposed to be "under sentence of death," gives a right to your sympathy.

In helping to rescue a number great enough to constitute a large prosperous village, the giving back to home and friends a regiment of workers, surely will arouse interest in this work of mercy.

Each patient cared for in our Consumptive Houses, removes a source of danger, so that the life of every citizen in Canada is more secure.

The marvellous decrease of 40 per cent. in three years in the death-rate in Ontario from consumption proves that the fight against this dread disease is no losing one.

The **Muskoka Free Hospital for Consumptives**, for which this appeal is made, without any endowment keeps an open door to all who are poor and sick, as long as a vacant bed remains.

Nearly 400 patients have been cared for in this Hospital since it was opened less than three years ago. This has only been possible because of the continuous stream of gifts that have come to us from every part of Canada.

Remember, too, these were patients that other hospitals as a rule refuse.

Almost every trade and profession has sent its representative, and of every age—from the young schoolboy of 12 to the widowed mother of 60.

$26,000 was received last year by the Trustees of the Free Hospital for Consumptives through contributions and bequests.

$50,000 should be given this year if the Board is to provide for the increased accommodation and maintenance of those pleading for admission.

Where will your money do so much good in bringing health to the sick and protecting the lives of those in your home?

Why should consumption not be stamped out if the needful money and help be forthcoming?

The official Report of the Secretary of the Provincial Board of Health tells a surprising story—a story of a winning fight, showing that from 1897 up to 1900 there was a steady increase in the death-rate from Tuberculosis.

From 1900 there has been a large decrease each year, reducing the death-rate from 3,484 to 2,072 in three years, or over 40 per cent. This is all the more remarkable in view of the increase in population.

You have the joy of knowing that your dollar has helped in this merciful work.

The pitiful part of it all is in knowing how many more lives could have been saved if the needful money had been forthcoming to provide additional beds.

Will you not join in this great life-saving work?

Your dollar will bring gladness.

Fifty dollars will keep a sick one for two months; may save a life. Three hundred dollars will endow a bed for a year.

Yours sincerely

W. J. Gage

LIPTON'S

It is the purity which gains them the preference over other teas. This is an honest statement. Prove it or disprove it by trying a package of

LIPTON'S TEAS

Fine Weather Gives Relief from Catarrh

But Never Cures it Because the Germs are Still Alive. Though Inactive. First Kill the Germs Then You'll be Really Cured.

Catarrh germs are carried into the throat and lungs by the air we breathe. In the same way the remedy must be applied. To be effectual the cure must be breathed, for otherwise it can't get where the germs really are.

Mix your germ-killing medicine with air, breathe it right into all the little air cells where the catarrh really is, then you'll get cured quickly. This is exactly the way Catarrhozone acts. You inhale its medicated vapor to the very source of the disease. It destroys the cause of the inflammation, kills all the microbes that develop when the lining membranes become diseased. Besides this Catarrhozone is a wonderful healer. Every sore spot is rebuilt with new healthy tissue. All the poisonous secretions that have been putrifying the system are driven out. No trace of catarrh remains after Catarrhozone has been used.

Why don't you use Catarrhozone? Its the simplest thing in the world to use, and so sure to cure permanently that you really can't afford to be without it.

MISS E. M. PETERS is known by every resident in the pretty town of Highland Grove. She was cured by Catarrhozone of systematic catarrh and says; "For three years before I commenced using Catarrhozone I was continually bothered by a congested condition of my nose and throat. I was sneezing and coughing all the time and really never felt well. I perservered with Catarrhozone and was rewarded by being entirely cured. My recovery prompted others in this locality to use Catarrhozone, and many of them have had remarkable cures from using it."

MISS LOUISE MURPHY a well known society belle residing at 23 Beaumont St., Medford, writes; "Kindly forward me three outfits of Catarrhozone which I have found most valuable for catarrhal affections of the nose and throat. Catarrhozone cured me of weak lungs and really saved me from consumption. I am recommending Catarrhozone above all other treatments, knowing what great curative powers it possesses. I know others who have also benefitted by Catarrhozone."

Catarrhozone is perfectly harmless and may be used with perfect safety by the most delicate infant. Instead of deadening the stomach with drugs, it sends the healing vapor along with the air you breathe into every air cell and passage of the nose, throat, lungs and bronchial tubes. Catarrhozone can't fail, it's sure to cure. If not satisfied you can have your money back for the asking. Two months' treatment, hard rubber inhaler and extra bottle of liquid costs $1.00, sample size 25c. By mail to any address if price is forwarded to N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont., Can.

larger this year than ever

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 90 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have such prospects

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our correspondence course.

H. W. PATTULLO

A Public Library

—In reference to the steps to be taken to secure assistance from Mr. Carniegie towards a public library in town, we might as well have a share in the wealth that seems to be a burden to him, as other towns. Our children will forgive us for placing ourselves under the obligation, when in years to come they enjoy the fruits of our appeal.

At the Opera House

Another fairly good house saw the Bijou Comedy Company, at the opera house last night. The play was "The Gold King," with Mr. E. Wilmot Young in the quadruple characters of Jack Goodman, Convict 27, Yyman P. Waldsayen, and in the last act, "The Gold King." Miss Adams, with her usual sprightly acting, took the part of Pug Maginty. The audience were as well pleased as ever with both the acting and the specialities. The play for to-night is "Monte Christo."

A School Book Kick

We are in receipt of an unsigned letter, in which the writer most emphatically protests against the present system of the School Board's charging for the temporary use of his, and presumably other, children's school books. He claims that under the old system of purchasing books outright, it was much cheaper, as the books were passed on to younger children, as their former user finished with them. He also claims that the charges for sundries, such as pencils and scribbling books are excessive.

St. Paul's Mission Entertainment

Everyone present on Wednesday evening at the St. Paul's Mission entertainment, was heartily pleased. The program was an attractive one, and those taking part were always loudly applauded. The program was as follows;—Piano solo, Mrs. Torrance; cornet solo, Mr. Miller; recitation, Miss Weir; song, Mr. Crane; song, Miss Moore; violin solo, Mr. Jones; humorous reading, Mr. Ketchen; song, Miss Kendry; recitation, Miss Weir; song, Mr. Lumley, recitation, Mr. Jones. The accompanists of the evening were Mrs. Torrance, Miss Anderson, and Mr. Crane.

Exhibition at the Rink To-night

To-night the public will have an opportunity to see an unusually good exhibition of fancy skating at the Brock street rink by Mr. E. J. Hartley. There are several events during the evening which include a one-mile race for a medal presented by Hon. J. R. Stratton, open to the county; a medal presented by Mr. Ernie Wasson, open to employes of manufacturing concerns in the town; a half-mile race open to hockey players, the prize for which, is a pipe and case, presented by Mr. J. J. Cottingham, and a ladies' race, prize a silver bracket, presented by Mr. Hartley. There will be music during the entertainment. Skating for all.

Runaway Accident

As the funeral cortege of the late Charles Fox, was passing the corner of Rubidge and Charlotte streets, a horse driven by Mr. W. Fitzgerald, of the Fifth Ward, took fright at a street car, which passed through the procession. Fortunately no personal damage was done, although the cutter, driven by Mr. Fitzgerald, was badly smashed, both the crossbar and dash board being smashed. Mr. Fitzgerald feels that some one should be held accountable, and yesterday morning, told his tale of woe to the police. It is fortunate that in such a case as this no other horses took fright.

Mr. Crane Buys Property

The Ullyott property, mentioned in yesterday's issue, as having been purchased by Messrs. J. J. McBain & Son, from Mr. John Craig, was purchased by them for a client, whom it transpired yesterday is Mr. John Crane, the popular manager of the Ontario Bank. The price paid was approximately $6,000, which for such a property as this, is almost a gift. Mr. Craig paid $10,000 for the property shortly after Mr. Ullyott's death, and still retains some of the building lots. Mr. Crane's purchase includes the house, one of the most solidly built, and best planned in Peterborough, with forty feet to the east. He will shortly occupy the house as a residence.

Local Incidents

BY THE TIMES MAN ON THE STREET.

—Weather probs. for to-day, "Unsettled."

—Charlotte street church had a choir practice last night.

—The Y.W.C.A. expect to hold their formal opening on the 1st. April.

—There will be no senior gymnasium class to-night on account of the "Punter Tea."

—The national banquet was held in the Murray street Baptist church yesterday evening.

—The Committee of the Whole Council, and the Supervision Committee met last night.

—Mr. K. G. MacKenzie has purchased the grocery business on Charlotte street, of Walker & Co. This is a old established business.

—The Board of Trade will attend Mr. Allen's lecture in St. John's church this evening to hear that gentleman speak of Russia.

—The boys of the Y.M.C.A. had their annual gymnasium exhibition last night. There was a good attendance of their friends and relatives.

—A congregational meeting of the Charlotte street Methodist church was held yesterday evening to discuss plans for the enlargement of the Sunday school hall.

—The Sturgeon Point Hotel Company have elected directors for the year, and will issue stock for improvement purposes. Col. Dr. Ryerson of Toronto, was elected president.

—The regular meeting of the Peterborough Council of Chosen Friends, will be held in the S.O.E. Hall, this Friday evening, 10th inst, and hereafter on the second and fourth Fridays of each month.

—A petition from the business men of Peterborough against trading stamps was presented at the meeting yesterday of a deputation which waited upon Sir Wilfrid Laurier, who promised his attention to the matter.

—A meeting of the Ladies' Literary Association of the T.A.S. will be held in the hall this evening, March 10th. A paper on "La Salle," by Miss Mamie O'Connor, will be well worth hearing.

—At the residence of Mr. John Deyell, county councillor, Otonabee, his daughter, Jennie, made Mr. Geo. M. Trotter, of Frobisher, Assa., a happy man for life. Rev. J.G. Lewis tied the knot.

—A very large assemblage witnessed the installation of Bishop Scollard in the church of the Sacred Heart at Sault Ste. Marie. A reception was tendered afterwards, when several Catholic organisations presented addresses of welcome.

Botanical Plants

Hold the Secret of Life and Health.

Recent experiments conducted by most eminent scientists, prove that light is a great remedial agent; it is essentially Nature's agent. It may be either sunlight or electric light, but it has a decided effect in helping nature to banish disease and restore health. Other scientific men have proved that oxygen electrifies the heart and can prolong life.

The people on this earth are susceptible to some laws which govern plant life. A plant cannot be successfully grown in the dark. A man is seldom healthy and strong who lives in the dark or in useless rooms. After all, Nature's ways are found to be the best. Nature's remedies are always best for eradicating disease, and by this we mean a medicine made of roots and herbs. They are assimilated in the stomach and taken up by the blood and are, therefore, the most potent means which can be employed for the regaining of lost health. Dr. R. V. Pierce, consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., in many years of extensive practice, found that he could pin his faith to an alterative extract of certain plants and roots for the cure of all blood diseases. This he called Dr. Pierce's Golden Medical Discovery. Containing no alcohol nor narcotics, entirely vegetable, this "Discovery" makes rich red blood and is a powerful tissue-builder, giving the tired business man or woman renewed strength and health. Rapidly growing school girls and boys often show impoverished blood by the pimples or boils which appear on face or neck. To eradicate the poisons from the blood, and feed the heart, lungs and stomach on pure blood, nothing is so good as Dr. Pierce's Golden Medical Discovery.

Don't allow the dealer to insult your intelligence by offering his own blood remedy to you instead of this well-known preparation of Dr. Pierce's. Ten chances to one he will substitute a cheap compound having a large percentage of alcohol in it.

Dr. Pierce's Pellets are the best for the bowels. Use them with the "Discovery."

Personal and Social

Movements of the people in and out of town . . . .

—Mr. W. Duncan, the horse buyer, has recovered from an attack of pneumonia.

—Mrs. Wm. Lord, of Orono, is visiting her aunt, Mrs. Caldwell, McDonel street.

—Mr. Colin Campbell, of Montreal, a well-known member of the Ontario Jockey Club, was in town yesterday.

—Mrs. J. C. Anderson will not receive till April owing to the illness of her little boy, who is suffering from scarlet fever.

—Mr. George Burn, of Ottawa, general manager of the Bank of Ottawa, was in town for a few hours yesterday morning.

—Mr. Jos. Lasleur returned home from St. Joseph's Hospital yesterday. He had been thair to have a finger, which was hurt at the Lock's Works, attended to.

—Messrs. Dr. M. A. Morrison and Harry LeBrun of town, and Mr. Jonathan Griffin, of Lakefield, have been appointed license commissioners for West Peterborough. A good trio.

—Rev. C. E. McLeod, formerly of Gilmour Memorial church, has been appointed pastor of the Baptist church, Port Burwell, appointment to date from the 1st April.

—Bert McCollum, Orillia; J. W. Staunton, Toronto; J. H. Meade, Hamilton; Prof. C. F. Davis, Toronto; A. A. Burbank, Danville; A. T. Caron, Montreal; R. P. Bryson, Montreal, are guests at the Oriental.

—Mr. Fred Roy, of the Roy Photographic studio has returned from a trip in the U.S. During his absence he visited the greatest photograph centers, and brings back many new wrinkles with him.

—Mr. W. H. Isaac has been appointed local agent for the Gerard Heintzman Piano Company, of Toronto. Mr. Isaac is a hustler and will probably place many instruments.

—The Rev. J. C. Davidson, Rector of St. John's Church, has been in Toronto attending the City Chapters of St. Andrew's Brotherhood meeting. He and Canon Cody delivered addresses to a large attendance.

—Mr. James Stevenson, who is now visiting with relatives in Alameda, Cal., writes that as he sets on the verandah, he is shaded by orange and lemon trees, loaded with fruit. This is way ahead of shovelling snow, and wondering how long that coal will last.

A Chance for Good Investment

In another column in the advertisement of Mr. John Thompson, of what appears to us to be a capital opportunity for either small speculators or large investors to get in on the ground floor in a sound proposition. In too many cases of investment in railway securities and stock, the purchaser finds that the cream of the stock has been absorbed by the promoters and original stock holders.

POSTUM

10 days and note how well you feel

Look in each pkg for the famous little book. "The Road to Wellville"

I WISH TO ANNOUNCE!

That I have secured a twenty day option on a fair sized block of stock in one of the most promising industrial enterprises in the United States. It is treasury stock, and there is about 8 per cent. of the same now held by Canadian interests, the balance being equally distributed among the cities of Boston, New York, Philadelphia and Chicago. Texas, as a state, is also represented, and a score or more of conservative investors residing in London have good sized holdings.

In Quebec, my native city, and where I have lived all my life, 90,000 shares of this company's stock is being held, not for speculative purposes, but as an investment, which within a number of months (not less than twelve, nor more than sixteen months) should yield more than ordinary returns in the way of dividends, as well as realizing a large increase of stock value.

The Company is known as The Boston & Texas Corporation, and owns in fee simple 7,300 acres of proven oil land in the only lubricating oil belt yet discovered in the world. It also controls the mineral rights, under twenty-five and fifty year leases of over 80,000 acres immediately surrounding its property, all of which is rich in kaolin, coal and oil. This vast property is located in portions of three counties, Live Oak, Atascosa and McMullen, 61 miles due south of San Antonio, the largest city in the State of Texas. The nearest railroad connection at present is Falls City, on the line of the San Antonio and Aransas Pass Railway, 34 miles distant from the field. Direct transportation from the field to San Antonio is, however, practically guaranteed within a year from date by L. J. Polk, Promoter of a new road, the survey of which crosses the Boston and Texas Corporation property. The St. Louis, Brownsville and Mexico Railroad, now building, should also be in shape within the next thirteen months to handle not only oil, but the kaolin and coal deposits of the Corporation. The Corporation is thus assured of competitive rates, and therefore a minimum cost for transportation.

A thriving town is now rapidly growing up at the field. Independent companies have established an ice plant and a water company. The former has already paid two quarterly dividends at the rate of six per cent. per annum, and the latter will declare its first dividend the first of April next. Since the 31st of last July, four very valuable wells have been brought in as follows; No. 9, naturally flowing from 9 to 12 barrels of the finest lubricating oil; No. 11, in gas, which has been finished off as such, and provides a sufficient quantity of gas for all heating and illuminating needs of the town for the present; Well No. 12, producing both oil and gas, has an extraordinary gas pressure of 475 pounds; No. 13, the last well brought in the 13th day of January last, is the equal, if not the superior, of No. 9 in lubricating oil. Well No. 10 in the illuminating belt is unsatisfactory. Wells Nos. 9 and 13 will yield over 50 barrels each per day under pumping. No. 9, tested for three consecutive days, showed an average of 52 1-2 barrels daily, with strong indications of an increasing yield with regular pumping.

The oil secured from these wells is worth not less than 20 cents a gallon on the field, and small quantities of it are being sold to San Antonio parties, who are using it without refining, and with entirely satisfactory results on machinery; it taking the place of the highest priced compounds.

I have personally visited this field, and spent several weeks in its careful investigation, and I am absolutely convinced that it has a prosperous future, greater than I would dare to state for fear of being charged with exaggeration.

I am satisfied that I have an exceptional opportunity worth the consideration of even the most conservative investor, one free from any and all disagreeable features which are sometimes associated with industrial enterprises of similar scope and magnitude. The par value of this stock which I am offering is $1.00 a share, full paid and non-assessable. I shall sell this stock at 50 cents a share, at which price my entire option should be subscribed for within the next 36 hours. I do not believe that a similar opportunity will ever be offered my relders, for it should be known that there has never been a share of this stock sold to anyone outside of the stockholders of the Boston and Texas Corporation since its organization in December, 1903.

IT PAYS TO PAY FOR THE BEST IN FURS . . .

ESPECIALLY so now, during our great Reduction Alteration Sale. During this month of March the order of the day is—FURS MUST "MARCH." The season is late. Work will commence shortly at the alterations in our store and factory. We must now clear stock out.

Buying direct from trappers and foreign raw fur collectors for spot cash prices, manufacturing these furs in our factory, every article carefully put together by expert furriers, and the direct supervision of the whole by two practical furriers who own this business, means to our patrons absolute protection as to quality and price that no other firm in Canada can surpass. All our Furs are not only guaranteed, but we have reduced their cost to you by saving all go-between profits with which most furs are burdened, and now during this sale.

You can get furs at less than wholesale cost to clear stock out immediately.

MUKDEN HAS FALLEN, AND RUSSIAN ARMY CANNOT ESCAPE ANNIHILATION BY THE JAPANESE.

Thousands of Russian Soldiers and Nearly All the Heavy Guns Captured by Victorious Japanese---Fushun is Also Captured and Russian Army cannot Escape Annihilation, No Word from Kuropatkin.

RUSSIAN GENERAL MAY BE CUT OFF AND SURROUNDED BY THE JAPS

Russians Retreating to the Hill Country Towards the North-East With the Enemy in Hot Pursuit and May Head Them Off.

Tokio, March 11.—The Japanese troops occupied Mukden at 10 o'clock this Friday morning.

THOUSANDS OF PRISONERS TAKEN

Yinkow, March 11.—Mukden fell at 10 o'clock yesterday morning.

The Russians are panic stricken.

Thousands of prisoners and enormous quantities of stores and guns have been captured.

CAPTURE MANY HEAVY GUNS

Tokio, March 11.—It is unofficially reported that the Russian strength west of Mukden consists of two corps. The Japanese who destroyed the railroad are pressing the Russians northward, and the portion of the Japanese center following the Russians along the Mukden road is now engaged six miles north of the Hun River. The extreme Japanese right is within five miles north of Fushun.

Nearly all the Russians' heavy guns and many field guns have been captured. The Russians seem to be moving eastward toward Fushun, with the object of retiring north.

The above reference to the fighting north of the Hun River conflicts with the official reports, but possibly is later news.

IN HOT PURSUIT OF ENEMY

Tokio, March 11.—The following telegram has been received from the Manchurian headquarters in the field;

"In the direction of Singching, for some days our force has been attacking the enemy, who is making an obstinate resistance in strong positions. Finally, in the neighborhood of Tieta, our force at 3 o'clock Thursday morning completely dislodged the enemy, whom they are now pursuing.

"Our force in the vicinity of Machuntan continues in hot pursuit of the enemy towards Fushun.

"In the direction of the Shakhe and east and south of Mukden we entirely pressed the enemy to the banks of the Hun River.

"We stopped on the left bank, attacking the enemy's strong fortifications west and north of Mukden.

"Our attack against the enemy, who is obstinately resisting, is being pushed vigorously.

"A heavy dust storm obscured the sun Thursday, and as a consequence the darkness precluded seeing any distance."

FUSHUN IS ALSO CAPTURED

Washington, March 11.—Fushun has been captured by the Japanese forces, according to the following cablegram, received by the Japanese Legation from Tokio, under to-day's date;

"Our detachments occupied Fushun on the night of March 9, and now are attacking the enemy, who is posted at the angle of the heights north of Fushun."

Newchwang, March 11.—According to reliable information received, the Russians, having been driven out of Mukden and Fushun, and with the railroads cut, are retreating in a demoralized condition to the hill country towards the north-east.

Detached bodies of Russians are roughly entrenching with a view to checking the pursuit, but no great rearguard action is being fought. It will be impossible for the Russians to keep up any sort of resistance for many days, as there are no means of provisioning in the rough country through which they are retreating. It is believed that the Russians may attempt to reach Kirin, 225 miles north-east of Mukden, through the valleys, but a special Japanese corps from the direction of the Yalu River, probably General Kawamura's forces threatens to cut them off. General Kuroki is advancing north-west and is forcing the Russians against General Nogi's armies.

The casualties on both sides have been enormous. The Russian sixteenth army corps was practically annihilated at Tatchekiao. Eight thousand Russians fell at Loukuangeo.

St. Petersburg, March 11.—A despatch received from Gen. Kuropatkin under date of March 9, says;

"At ten a.m., I received a report that the enemy, after a severe engagement, occupied Kiousan, about fifteen miles east of Mukden.

"All the enemy's efforts are concentrated against our north front with the object of cutting the railroad.

"The village of Sintaitse is in the hands of the enemy.

"Fighting continues in the vicinity of Tlaritsung. We have taken two quick-firing guns and a number of prisoners.

"The Japanese continue to move northward.

"Tsiaotoung has been occupied by the Japanese."

WRITE YOUR MEMBER TO-DAY

LET every elector in Eastern Ontario who supports the cause of Provincial freedom make it a matter of duty and conscience to forward a letter to the member who represents his constituency, urging him to uphold the independence of the new provinces over the educational system. Let this be done TO-DAY.

FIERCE BATTLE CONTINUES

Tokio, March 11.—Field Marshal Oyama telegraphs as follows under to-day's date;

"We occupied Mukden at ten o'clock this morning.

"Our surrounding movements, in which we have been engaged for some days past, has now completely succeeded.

"The fiercest fighting continues at several places in the vicinity of Mukden.

"We captured a great number of pieces, enormous quantities of arms, ammunition, provisions, and other war supplies. There is as present no time to investigate the number of these."

GENERAL SPORTING GOSSIP

HOCKEY—THE TURF—BASEBALL—LACROSSE

Victoria Harbor Wins.

The playing season of the Ontario Hockey Association closed last night with the game between Berlin and Victoria Harbor in Berlin, the game resulting in a tie, two all, thereby giving Victoria Harbor the round by three goals, and the intermediate championship.

• • • •

Blame the Referee.

Smith's Falls News; The result was in favor of the Toronto team, and we have to admit that they won it fairly so far as the Marlboros as a team are concerned, the News is not making excuses for the defeat, nor are we blaming the Marlboros for the win. We do believe, however, that the unjust and untruthful reports published by the Toronto papers about the Smith's Falls game had a very prejudicial influence and the ruling of the referee last night, while perhaps just according to his views, was nevertheless unfair to Smith's Falls inasmuch as he seemed to take it for granted that the smallest indication of roughness on the part of Smith's Falls must be penalized, while many more glaring offences on the part of the Marlboros were allowed to go unpunished. Indeed, the Toronto papers have succeeded in creating such a prejudice in the west against the east that it is almost certain that a new hockey league will be formed for the East, and the Czar rule of the Toronto-controlled O.H.A. allowed to work its own sweet will in the west.

• • • •

The Smith's Falls News tell its readers that Referee Fraser put May out of the game on Tuesday night at Peterborough for merely body checking Ridpath. The truth is that May was put off for striking Ridpath across the face with his stick. There was no body checking at all. Ridpath had got by May when the latter reached for his head with the stick.

• • • •

The following from a Smith's Falls paper in regard to the ruling off of May by Referee Fraser is decidedly rich; "His action in this instance was simply an absurdity, a shame-faced imposition, preposterous, and such an ignominous machination cannot be allowed to pass without being subjected to the wholesale and indiscriminate condemnation and criticism of all impartial and unbiased witnesses of the game." The same paper states that the referee was was prompted by Secretary Hewitt in giving the maximum penalty, and that the Smith's Falls cover-point did not slash Ridpath, but only body-checked him. Referee Fraser is alleged to have shown partiality, and in the head lines he is blamed for the loss of the game, although in the story of the struggle the report admits that the Marlboros were too fast for the Smith's Falls team.

• • • •

PROGRAM AT THE RINK

Some Closely Contested and Interesting Events Run Off

A small attendance at the rink last night witnessed some interesting and well contested races, and saw an unique exhibition of fancy and figure skating by the local champion, Mr. E. J. Hartley. The first event was a one-mile race open to the County of Peterborough, in which there were four entries, and which after a spirited race, was won by Mr. Deforge, who won the medal given by Hon. J. R. Stratton. The second event was the one-mile race open to employes of local factories, for a medal given by Mr. Ernie Wasson, of W. A. Sanderson & Co.; this was won by Mr. J. Moore. The ladies race for half a mile was won by Miss Clara Craig, who gets a silver bracelet presented by Mr. E. J. Hartley. The exhibition given by Mr. Hartley next claimed attention and frequent applause; his grapevine combinations and other specialities being very effective. The last event of the evening, was the half-mile race open to hockey players. There were three entries and resulted in a good contest; Mr. Cavanah, who held the lead from first to finish, won by about twenty feet, winning the prize, a pipe and case presented by Mr. Cottingham, the tobacconist.

After the races were over, the well-known local athlete and all-round sport, Mr. Peter Johnston desired the local papers to intimate that that he challenges and is ready to meet any of the winners of the events for a race, over any length course for any old sum up to ten dollars.

THE FEDERAL LIFE

Splendid Report Submitted at the Annual Meeting

The Federal Life Assurance Company has many policy holders in Peterborough; both the policy holders and the insuring public will read with interest the annual statement of this conservative, though progressive company, in another column. At the annual meeting held recently in Hamilton, the directors submitted their yearly report, which is of a most reassuring and encouraging character. Their assets are of a most solid and secure nature, being mainly in mortgages, bonds, debentures and mortgages, bonds, debentures and such guardian of any trust could desire. Their investments are limited to just such an amount as could consistently advance the legitimate business of the company. The total securities of the company, all of which, as intimated above, are of the highest order amount to $3,018,773.37. The insurance, carried by the company, now amounts to $16,047,806.23, on which the company holds a considerable surplus over what is required by law as a guarantee to the policy holders.

As evedincing the trust placed in the company's management, by the shareholders, the President, Mr. David Dexter, and the whole Board of Directors were unanimously re-elected for the current year.

Mr. G. G. Pope, 406 George street, is the District Agent, and will always be glad to impart information to parties who contemplate insuring. Mr. Pope is an old and well posted insurance man, and his company is sound.

MAYOR AGAINST GENERAL TAX.

Animated Discussion in Committee of the Whole Council

An animated discussion arose in the council meeting, as a committe of the whole, on Thursday night, when it was asked that in our application for charter as a city, the present system of making a local tax for pavement extensions, be changed to a general tax. Ald. Adams led the vanguard for general taxation whilst Mayor Best was vehemently in favor of the present system. The vote stood horse and horse, five to five, when the Mayor exercised his balance of power and cast the deciding vote. The First of July will probably be the christening day, when Peterborough will cast aside its swaddling clothes as a town, and don the garb of a full fledged city, on which occasion, Peterborough probably will, and should, have such local attractions and inducements as will bring thousands of visitors from far and near. This town during the past few years seems more bent on celebrating holidays and festivals of all kinds by an outpouring of money and men than by bringing in the thousands of strangers that would help our local merchants, liveries, hotels, and other commercial industries, not to mention letting outsiders see that we have that which would repay either a transient or a permanent visit. The matter of payment for pavements will probably come up again in the Council. The system of levying for watering the streets will be the same this as last summer, viz., by local instead of general tax. Last night the firehall question was discussed, as was the petition of the merchants against the peddlars.

A DISGRACEFUL SCENE

Occurred on George street Yesterday, That Disgusted Onlookers

Yesterday a scene was enacted on George street, at the corner of Simcoe, that disgusted the onlookers, and would tend to give a bad impression to any strangers in our law-abiding and decent town. The genesis of the scene was an attempt, on Thursday, made by a young man from Lindsay, the son of one of that town's leading manufacturers, and a picture canvasser, boarding at a local hotel, to impart an auburn tint to things in general. The two amateur painters forgot that the tangle-leg sold in Peterborough is not diluted by the viscid waters of the Scugog, and became aware that everything looked red, that the telephone poles had increased in population, in short, they were the superlative degree of drunk. On Thursday night, one hotel man, on Charlotte street, refused them liquor and, without ceremony, ejected them. To make up for such summary treatment, the two went elsewhere, and finished their job of painting Peterborough a rich, bright carmine. Yesterday as one of the pair was being brought to his hotel, he collapsed in the centre of George street, falling flat in the street, and lay there, with the blood streaming from his face, until a philanthropic cart driver volunteered to drive him home. Four men lifted the painter, who had painted not wisely but too well, up, and deposited him like a bag of coal on the vehicle. He was then taken to his hotel and carried in. While this journal is temperate on the subject of temperance, we do think that any license holder who would continue selling to a man after he is beyond the control of his reasoning powers, should be held up to the scorn of all decent men, and have his license cancelled.

AFRAID OF MISS ALICE

Russia Fears She may Plunge Into International Politics

Washington, March 10.—Miss Alice Roosevelt's contemplated trip to Japan during the coming summer is causing much comment in diplomatic circles. Secretary and Mrs. Taft have planned to start for the Orient about July 1 and are desirous of having Miss Roosevelt accompany them.

No definite arrangements for her journey have been made. Nevertheless, diplomats are drifting to the conclusion that Russia will not look with much favor on the trip.

EAT LESS; GROW STRONG

Physical Director Says Tests Prove 1-3 Usual Diet Means Gain in Strength

New Haven, Conn., March 10.—Director Russell H. Chittenden, of the Sheffield Scientific School of Yale, in discussing food nourishment, made the announcement that men who cut down their diet about one-third of their ordinary consumption have increased in strength from 33 to 100 per cent. in every case.

He told the men not to drink milk when they ate meat, because the milk showed a tendency to collect little, hard, indigestible masses when brought into contact with the beef. He recommended that each be taken alone.

STRIKE ON SIBERIAN LINE

Reports Indicate That the Men Have Quit Work

London, March 10.—The Telegraph's St. Petersburg correspondent, while admitting that it is impossible to verify the reports that the men employed on the Trans-Siberian Railway are on strike, indicates the probability of the reports being true. He says that almost superhuman efforts of these employes last year enormously increased the carrying capacity of the line, and Prince Khilkoff, Minister of Railways, promised them extra pay, but the local authorities did not fulfill the Minister's promise. Even their wages for the 1904 mobilization have not yet been paid to them.

The correspondent adds that the Archbishop of St. Petersburg is advising the Government to take from the monasteries the money bestowed to procure for the donors' souls forever. The monks are entitled to 5.8 per cent. of this money. The Archbishop suggests that the Government pay interest on the sum taken, or even expropriate the capital together.

RESULTS OF FOOD

Health and Natural Conditions Come From Right Feeding

Man, physically, should be like a perfectly regulated machine, each part working easily in its appropriate place. A slight derangement causes undue friction and wear, and frequently ruins the entire system.

A well-known educator of Boston found a way to keep the brain and the body in that harmonious co-operation which makes a joy of living:

"Two years ago," she writes: "being in a condition of nervous exhaustion, I resigned my position as teacher, which I had held for over 40 years. Since then the entire rest has, of course, been a benefit, but the use of Grape-Nuts has removed one great cause of illness in the past, namely, constipation, and its attendant evils.

"I generally make my entire breakfast on a raw egg beaten into four spoonfuls of Grape-Nuts, with a little hot milk or hot water added. I like it extremely, my food assimilates, and my bowels take care of themselves. I find my brain power and physical endurance much greater and I know that the use of the Grape-Nuts has contributed largely to this result.

"It is with feelings of gratitude that I write this testimonial, and trust it may be the means of aiding others in their search for health." Name given by Postum Co., Battle Creek, Mich.

Look in each pkg. for the little book, "The Road to Wellville."

Should Let People Decide.

"Sooner or Later Canada Must Settle Definetly and Finally the Complex Question of State Aid to Sectarian Schools."--New York Sun.

"Full and Unrestrained Provincial Autonomy is the Only Wise Solution." --New York Sun.

New York, March 11.—The Sun says; "Should the issue upon which Mr. Sifton resigns from the Laurier Cabinet become a subject of national controversy the outcome may well be both serious and important. Sooner or later Canada must settle definitely and finally the complex question of State aid to sectarian schools. It is most doubtful if any wiser solution can be found than that of full and unrestricted Provincial autonomy. This would leave Quebec with its strong Roman Catholic predominance free to maintain sectarian schools if it saw fit to do so, and would not compel a Province in which there is an overwhelming Protestant majority to provide sectarian schools if such provision was disapproved by a sufficient number of the taxpayers. As matters now stand in the Dominion, and as they are likely to stand for many years to come, it would be unwise and probably unsafe to essay by Federal act the suppression of sectarian schools or the prohibition of appropriations in the Provinces disposed to make them."

NEW WIRELESS DIVORCE

Marconi Announces Invention to Write 100 Words a Minute

London, March 10.—William Marconi, the wireless telegraph expert, in a lecture before the Royal institution, announced that he has constructed a magnetic detector which will enable messages to be recorded on tape by an ordinary Wheatstone recorder at the rate of 100 words a minute. Marconi hinted at further improvements in receiving which he is elaborating in conjunction with Prof. Fleming.

OFF TO JERUSALEM

General Booth to Visit the Holy City and Preach on Mount Calvary

London, March 11.—General Booth, of the Salvation Army, started today on his first visit to Jerusalem, where he will hold an open air meeting on Mount Calvary. Thence he will go to Australia and New Zealand on a farewell visit.

Hundreds of Salvationists gathered at Victoria railway station at the time of the general's departure and bade him an enthusiastic good-bye.

WRONG MAN HANGED

Pennsylvanian Admits He Murdered Woman, but Brother is Executed

Washington, Pa., March 10.—"My God, that's my brother! He never killed that woman. I am the murderer. I should have been hanged instead of Eugene!" cried Adolph J. Bloch today in a frenzy of remorse, interrupting a companion at the steel mill at Canonsburg, who was reading to him on account of the hanging of Eugene Bloch at Allentown Tuesday. He is in the Washington county jail tonight, awaiting a hearing on the charge of murder. He is 26 years old and formerly lived in Philadelphia.

Eugene Bloch was hanged for the murder of Mrs. Kate Fahringer, August 6, 1903.

Police Court

OFFICIALS

Chief of Police, G.I. Read
Magistrate, D.W. Dumble

Yesterday was a dead one in the police court, only one case, an infringement of the liquor laws, being on the docket. It was enlarged till this morning.

Yesterday, Chief Constable Sloan, of Bracebridge, took with him John Carney, who will have to answer to a long list of thefts in that place.

AGAINST CHRISTIAN SCIENCE

Ohio Supreme Court Says Healers Cannot Practice Without License

Columbus, Ohio, March 11.—A decision of the Ohio Supreme Court holds that Christian Science healers cannot practice without a State license, but does not affect those who practice the doctrine purely as a religious belief. The court says;

"The giving of Christian Science treatment for a fee, for the cure of disease, is practicing medicine within the meaning of the statutes regulating such practice in this State.

"The statute making it a misdemeanor to give such treatment for a fee is not interference with the rights of conscience and of worship, conserved by Section 7 of the bill of rights, and is not on that ground unconstitutional.

"Legislation prohibiting any one from treating a disease for a fee, excepting such persons as have prescribed qualifications, is a valid exercise of the police power of the State and its constitutional."

VILLAGES TAKEN BY BAYONET

Desperate Hand-to-Hand Fights in Mud—Each Was Like a Fortress

Mukden, March 10.—The chief objects of the bloody combat west of Mukden yesterday were the Villages of Unbuntun, seven miles west of Mukden station, and Tatchekino, where the results practically were a draw, but a further turning movement has developed. The Japanese are extending their forces still further toward Tie Pass.

At dawn yesterday after a night broken by irregular musketry fire and cannonading, the fight began at Unbuntun and Tatchekino, both of which are large villages surrounded by high clay ramparts converting them into fortifications impervous to rifle bullets. Each house had to be taken singly by hand-to-hand combats. The Russians held Ushuntun for a night, but were forced to withdraw at dawn the next day by a fearful fire of shrapnel and Shimose shells. Reinforced by riflemen and reserves, the Russians again advanced to the attack, and recaptured the village.

Opposite Tatchekiao the fighting was of an equally desperate nature. The Russians established themselves in the Villages of Taunhuanche and Liudyaofan, but night fell with Tatchekiao still in the hands of the Japanese.

Towards evening General Kuropatkin rode out of Mukden in an automobile and examined personally the positions of the second army. At the close of the fighting this evening the infantry on both sides were short of ammunition, and the night was devoted to replenishing supplies.

A division of Russian cavalry which was patrolling the Liao Valley, said was cut off March 2 by the rapid advance of the Japanese, succeeded today in rejoining the Russian army without sustaining any losses and taking a number of prisoners.

An attack is expected to-morrow on the Russian center.

PREPARE PLANS FOR CARVING UP RUSSIA

Unless Balkan Troubles Speedily End all Europe Will be at War

TO MAKE TWO DISTRICTS

Ominous Outlook in the Balkan States —A General War Probable

St. Petersburg, March 10.—Information is obtained that Russia and Austria are endeavoring to reach an agreement which will permit Russia to withdraw from the war without loss of prestige and settle the troubles in the Balkans, which will be almost the final stag in the dismemberment of Turkey.

Diplomats conversant with the situation declare that if the trouble in the Balkans is not settled a European war is near.

The proposition will be for Austria and Russia to divide European Turkey, Macedonia, Adrianople, Old Servia and Albania into two spheres, Austria having police supervision of the western area and Russia of the eastern. The gendarmerie will be organized under Russian officers. Turkey already been forced to agree in the principal plans.

The allies propose to collect the taxes of Turkey and pay the reorganized gendarmerie, which will cost $3,000,000 a year, and be practically a part of the Russian and Austrian armies. Turkey is protesting strenuously against this part of the scheme. The sublime Porte's power will be practically done.

Germany, France and Great Britain are said to have consented to the arrangement, recognizing the necessity of representing the Turk, and settling the incessant warfare in the Balkans, realising that Russia and Austria, being near, are intimately interested and the proper nations to conduct the reformation. The diplomats believe Turkey's atrocities will soon be ended.

If the election of the workmen's delegates to Schidlonsky is not completed within the next three days the commission will be annulled.

FERROZONE

A Womanly Tonic that Uplifts, Vitalizes, and Strengthens.

You immediately experience a real gain in power and strength by using Ferrozone, which is a true nerve and blood tonic. It effects permanent cures unparalleled in the history of medicine.

Ferrozone supplies the essentials of life that are exhausted by over-work worry, indigestion or high living. It contains just what every run-down system lacks.

By instilling new strength into the blood, Ferrozone benefits the whole body. Digestion improves, the eyes sparkle, the cheeks glow with girlish beauty. Normal powers are restored to the regenerative organs, the nerves are recharged with energy, making the sufferer conscious that direct benefit is resulting from Ferrozone.

There is no greater boon to suffering women than Ferrozone. It charges the system with the snap and fire of youth, builds up firm tissue, rounds out the form until perfect womanhood is attained.

Ferrozone is the one safe tonic for ladies to use, because it contains no alcohol or dangerous drugs. Growing girls, young women, expectant mothers—every female will derive unquestionable benefit from this grand restorative. Prepared only in tablet form. 50c. for a box of fifty tablets or six boxes for $2.50, at all dealers, or N. C. Poison & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $2 per year, strictly in advance.

PETERBOROUGH, MARCH 11 1905

THE PLAN OF THE CZAR

I am resolved henceforth, with the help of God, to convene the worthiest men, possessing the confidence of the people and elected by them, to participate in the elaboration and consideration of legislative measures. * * * May God bless this good beginning.

These are the essential portions of the remarkable rescript issued by the Czar to his Minister of the Interior on the very heels of the equally remarkable address to his people. The rescript is the latest phase of the Czar's curiously changing view of the needs and possibilities of his terribly tried Government. First we had the plan of the enlarged powers of the Zemstvos, as proposed by Prince Mirsky. When the consequences of this were realized, and it was abandoned amid the alarm caused by the outbreak in January, a policy of stern repression was adopted. Then came the concessions to the strikers and the scheme of a conference between them and the authorities, which in its turn was given up when the delegates demanded the release of their comrades and freedom of speech and of publication, to which demands the Imperial address was taken as ready and refusal. Meanwhile the plan for a great consultative and representative council for the nation on the basis of the Zemstvos was broached, and the Czar's approval was alternately announced and denied. Finally comes the rescript, the significant words of which we have cited.

What will come of the principle avowed will depend necessarily on the manner in which it is applied, and that must to a great extent still depend on the vigor and firmness the Czar may show in controlling the action of the bureaucracy; but the principle itself is of immense importance. It is nothing less than the beginning of the change from an arbitrary, irresponsible autocracy. The "elaboration and consideration of legislative measures," shall proceed with the "participation of the worthiest men, possessing the confidence of the people and elected by them," and the blessing of God is invoked upon "this good beginning." The curse of the poor, says the ancient adage, is their poverty. The curse of the Russian people in their dumb suffering has been the horrible silence imposed upon them. Between them and their Emperor, who alone could help them, stood the impassable barrier of the bureaucracy, behind which he dwelt in ignorance. We do not really know what was his actual disposition, but we know that whatever it was, it was uninformed by any authentic expression of his people's condition or their desires. And we know that he was surrounded by a crowd of advisers, of his family and of his officers, whose vital interest it was that he should remain uninformed. Clearly he now understands the impossible situation to which he has been condemned, and he has taken a bold and what may be a decisive step to put an end to it. He says that he will hear the voice of his people. He can hardly hear it without in some measure heeding it.

Every well-wisher of the Russian people will hope that his policy shall receive the hearty co-operation of the intelligent and moderate leaders of the people. It would be sad folly to reject or neglect this opportunity because it does not offer all that they desire ultimately to obtain. For here at last is the chance for the formation of a public opinion in Russia, and a public opinion that shall reach the Emperor. Nor can it be denied that this, honestly carried out, is all that at present could be rationally asked or granted. The proportion of the Russian people fitted to take a substantial part in administering self-government is very small, and those who are fitted even to advise as to government are not numerous. The partially representative bodies in various parts of the empire and chosen by various classes, afford at once a chance for the work of those best fitted for it and for the cultivation of the capacity for dealing with public affairs. If full and sober use of this opportunity is made, progress is assured, is in fact inevitable. All right-minded men, and especially all British subjects, bred in the atmosphere of free institutions, will join in the prayer of the Czar that "God will bless this good beginning." If the Czar himself should fail to uphold and advance it, a terrible retribution would fall upon him or upon his dynasty.

FOUR MINERS KILLED

Cable Brace ina West Virginia Shaft

Wheeling, W. Va., March 10. — By breaking of a cable in the Shrewsbury coal mine, near Charleston, to-day, four miners were killed and ten others seriously hurt. Four of the injured will probably die. Three cars were conveying the miners from work when the cable parted, and the cars were precipitated to the base of the mountain, 1,600 feet, with lightning rapidity. The cars were badly wrecked, and a number of the miners were frightfully crushed.

SUBMARINE TORPEDO BOATS

United States Makes a Contract for Two Vessels

Washington, D.C., March 10. —The secretary of the United States Navy has made a contract with the Electric Boat Company, for the construction of two submarine torpedo boats, one to cost $250,000, and the other to cost $200,000. The contract calls for the completion of two vessels within eighteen months. With these two vessels the United States Navy will include ten submarine torpedo boats.

FEDERAL LIFE
Assurance Company
OF CANADA

23rd Annual Report and Financial Statement

For the Year Ending December 31, 1904.

The twenty-third annual meeting of the shareholders of this company was held at the head office of the company, in Hamilton, on Tuesday, March 7th, 1905, the President, Mr. David Dexter, in the chair. The following reports and financial statement were submitted:

DIRECTOR'S REPORT

Your directors have the honor to present the report and financial statement of the company for the year which closed on the 31st December, 1904, duly vouched for by the auditors.

The new business of the year consisted of two thousand two hundred and fifty applications for insurance, aggregating $3,144,500, of which two thousand one hundred and seventy-seven applications for $3,019,499.50 were accepted.

As in previous years, the income of the company shows a gratifying increase, and the assets of the company have been increased by $295,-909.52, and have now reached $2,148,773.37, exclusive of guarantee capital.

The security for policyholders, including guarantee capital, amounted at the close of the year to $3,018,773.37, and the liabilities for reserves and all outstanding claims, $1,992,935.56, showing a surplus of $1,025,-837.81. Exclusive of uncalled guarantee capital, the surplus to policyholders was $185,837.81.

Policies on eighty-two lives became claims through death, to the amount of $157,040.00, of which $12,595 was reinsured in other companies.

Including cash dividends and dividends applied to the reduction of premiums, with annuities, the total payment to policyholders amounted to $198,911.34.

Careful attention has been given to the investment of the company's funds, in first-class bonds, mortgage securities, the loans on the company's policies amply secured by reserves. Our investments have yielded a very satisfactory rate of interest.

Expenses have been confined to a reasonable limit, consistent with due efforts for new business.

The results of the year indicate a most gratifying progress. Compared with the preceding year, the figures submitted by the directors for your approval show an advance of thirteen and a half per cent. in assets.

The assurances carried by the company now amount to $16,047,806.23, upon which the company holds reserves to the full amount required by law, and, in addition thereto, a considerable surplus.

The field officers and agents of the company are intelligent and loyal, and are entitled to much credit for their able representation of the company's interests. The members of the office staff have also proved faithful to the company's service.

Your directors are pleased to be able to state that the business of the company for the past two months of the current year has been better than in the corresponding months of last year, and that the outlook for the future is very bright.

DAVID DEXTER, President and Managing Director.

AUDITOR'S REPORT

To the President and Directors of the Federal Life Assurance Company:—

Gentlemen.—We have carefully audited the books and records of your company for the year ending 31st December last, and have certified to their accuracy.

The cash and journal vouchers have been closely examined, and agree with the entries recorded.

The debentures, bonds, etc., in the possession of the company have been inspected, whilst those deposited with the Government or banks have been verified by certificate, the total agreeing with the amount as shown in the statement of assets.

The accompanying statements, viz., revenue and assets and liabilities, show the result of the year's operations, and, also, the financial position of the company.

Respectfully submitted,

H. S. STEPHENS,
CHARLES STIFF,
Auditors.

FINANCIAL STATEMENT FOR 1904

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

2) If the father (or mother, if the father is deceased), or any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

3) If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same town, township, or an adjoining or cornering township.

A settler who avails himself of the provisions of cases [2], [3] or [4] must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Land Agents in Manitoba or the North-west Territories.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

AUTHORS & COX

135 Church St. - Toronto Ont

ADVERTISE IN THE TIMES.

I WISH TO ANNOUNCE!

That I have secured a twenty day option on a fair sized block of stock in one of the most promising industrial enterprises in the United States. It is treasury stock, and there is about 8 per cent. of the same now held by Canadian interests, the balance being equally distributed among the cities of Boston, New York, Philadelphia and Chicago. Texas, as a state, is also represented, and a score or more of conservative investors residing in London have good sized holdings.

In Quebec, my native city, and where I have lived all my life, 90,000 shares of this company's stock is being held, not for speculative purposes, but as an investment, which within a number of months (not less than twelve, nor more than sixteen months) should yield more than ordinary returns in the way of dividends, as well as realising a large increase of stock value.

The Company is known as The Boston & Texas Corporation, and owns in fee simple 7,300 acres of proven oil land in the only lubricating oil belt yet discovered in the world. It also controls the mineral rights, under twenty-five and fifty year leases of over 80,000 acres immediately surrounding its property, all of which is rich in kaolin, coal and oil. This vast property is located in portions of three counties, Live Oak, Atascosa and McMullen, 61 miles due south of San Antonio, the largest city in the State of Texas. The nearest railroad connection at present is Falls City, on the line of the San Antonio and Aransas Pass Railway, 34 miles distant from the field. Direct transportation from the field to San Antonio is, however, practically guaranteed within a year from date by L. J. Polk, Promoter of a new road, the survey of which crosses the Boston and Texas Corporation property. The St. Louis, Brownsville and Mexico Railroad, now building, should also be in shape within the next fifteen months to handle not only oil, but the kaolin and coal deposits of the Corporation. The Corporation is thus assured of competitive rates, and therefore a minimum cost for transportation.

A thriving town is now rapidly growing up at the field. Independent companies have established an ice plant and a water company. The former has already paid two quarterly dividends at the rate of six per cent. per annum, and the latter will declare its first dividend the first of April next. Since the 31st of last July, four very valuable wells have been brought in as follows: No. 9, naturally flowing from 9 to 12 barrels of the finest lubricating oil; No. 11, in gas, which has been finished off as such, and provides a sufficient quantity of gas for all heating and illuminating needs of the town for the present; Well No. 12, producing both oil and gas, has an extraordinary gas pressure of 75 pounds; No. 13, the last well brought in the 13th day of January last, is the equal, if not the superior, of No. 9 in lubricating oil. Well No. 10 in the illuminating belt is unsatisfactory. Wells Nos. 9 and 13 will yield over 50 barrels each per day under pumping. No. 9, tested for three consecutive days, showed an average of 54 1-2 barrels daily, with strong indications of an increasing yield with regular pumping.

The oil secured from these wells is worth not less than 20 cents a gallon on the field, and small quantities of it are being sold to San Antonio parties, who are using it without refining, and with entirely satisfactory results on machinery, it taking the place of the highest priced compounds.

I have personally visited this field, and spent several weeks in its careful investigation, and I am absolutely convinced that it has a prosperous future, greater than I would dare to state for fear of being charged with exaggeration.

I am satisfied that I have an exceptional opportunity worth the consideration of even the most conservative investor; one free from any and all disagreeable features which are sometimes associated with industrial enterprises of similar scope and magnitude. The par value of this stock which I am offering is $1.00 a share, full paid and non-assessable. I shall sell this stock at 50 cents a share, at which price my entire option should be subscribed for within the next 30 hours. I do not believe that a similar opportunity will ever be offered my readers, for it should be known that there has never been a share of this stock sold to anyone outside of the stockholders of the Boston and Texas Corporation since its organization in December, 1903.

VARICOCELE CURED

NO NAMES USED WITHOUT WRITTEN CONSENT.

Confined to His Home for Weeks.

"Heavy work, severe straining and evil habits in youth brought on a double varicocele. When I worked hard the aching would become severe and I was often laid up for a week at a time. My family physician told me an operation was my only hope—but I dreaded it. I tried several specialists, but soon found out all they wanted was my money. I commenced to look upon all doctors as little better than rogues. One day my boss asked me why I was off work so much and I told him my condition. He advised me to consult Drs. Kennedy and Kergan, as he had taken treatment from them himself and knew they were square and skilful. He wrote them and got the New Method Treatment for me. My progress was somewhat slow and during the first month's treatment I was somewhat discouraged. However, I continued treatment for three months longer and was rewarded with a complete cure. I could only earn $18 a week in a machine shop before treatment, now I am earning $31 and never lose a day. I wish all sufferers knew of your valuable treatment.
HENRY C. LOCUST.

HAS YOUR BLOOD BEEN DISEASED?

BLOOD POISONS are the most prevalent and most serious diseases. They sap the very life blood of the victim and unless entirely eradicated from the system will cause serious complications. Beware of Mercury. It only suppresses the symptoms—our NEW METHOD positively cures all blood diseases forever.

TO CANADIAN INVESTORS

Oregon-Idaho Gold Mining Co.

INCORPORATED

Capital $5,000,000. Shares $1.00 Each, Par Value, Fully Paid Up and Non-Assessable.

We have just secured the agency for the above splendid proposition, of which we have been allotted a block of Treasury stock. We can confidently recommend this as a safe and exceedingly profitable investment. Every dollar of stock is guaranteed by twenty year, full paid, gold bond, delivered to purchaser of stock, from an Investment Company that has no interest whatever in the company, but who are disposing of the debentured bonds to the public, and, under their charter, they are compelled to deposit securities to an equal amount, to the State Treasurer under which they received their charter, there by doubly insuring the payment of their gold bonds.

The Company's property, which is now past the project stage, is known to be marvellously rich in gold.

Following is the opinion of G. W. Miller, Mining Engineer, formerly with the Boston and Montana Consolidated Copper and Silver Mining Company, U. S.; Summer and Jack Mining Co:. Limited, Elandsfountain South Africa:—

"You have here a most valuable property and one of the strongest fissure veins that can be found in any part of the world. "With the present development of the Blenkmont Mine, I estimate that 100 tons per day can be extracted, which will mill from $13.00 to $30.00 per ton. The total cost of mining the ore, delivering and milling, I place at about $4.00 per ton. With the increased milling capacity, it is safe to say that the mine can furnish 100 tons of $15 00 ore, which would yield a clear profit of $11.00 per ton, or $1,100 00 per day (equal to $400,000.00 per annum). Estimated total value of ore in sight. $2,500,000."

During the past summer, a party of the Company Directors visited the property, taking with them, Amos P. Brown, Ph.D., Mining Engineer and Professor of Geology and Mineralogy at the University of Pennsylvania. pr. Brown writes as follows:—

"In regards to the amount of ore available at the mines at Sinaloer, I saw on the dumps several thousand tons, probably 6000 tons would be an under-estimate.

"As to the size of the ore body itself, from what I saw of the geological struc ure, I think that there is every indication that it will be found to extend underground as far as the out-croppings on the south side of the gulch. This would mean an ore body large enough to keep the present mill running for many years to come.

A write up of the proposition will appear in these columns in a few days. Watch for it. In the meantime we will be pleased to furnish all information to investors.

THOS. PATTERSON & CO.,
FISCAL AGENTS. PETERBOROUGH

25000 SHARES

The above number of shares of stock that is worth to-day on the open market $2,500, will be given to any person that can find in America another mining company that has spent about $900,000 on its properties, that has ten smelter, with sampling mill, dust chambers, hot blast stove, electric power plant, steam power plant, 1000 ton capacity ore bins, 600 ton capacity coke bins, railroad over one mile long, engine on track, offices of company with fireproof vaults, boarding houses and dwelling houses. All of the above will be completed by the time you read this ad. Ore in sight to last from 3 to 5 years, averaging $30 per ton, $24 copper, $6 gold and silver, 1800 feet works in tunnel, shaft with three levels ore handled by gravity dropping from one level to another through winzes into our own railroad cars, which will then be hauled to the smelter, that will sell or has ever sold their stock

10 CENTS PER SHARE - PAR VALUE $1.00

This is what I am doing with the stock of the

Great Western Gold Company, OF REDDING, CALIFORNIA

I will give the above amount, 25,000 shares to any person that can find its equal in America at this price. We expect to be running in full blast inside of 30 days, and paying dividends on $1.00 stock by the 1st of June

If you desire a first class, honest, legitimate mining investment, send me your cheque for all you can buy immediately! As this will likely be advanced to $1.00 per share inside of 30 or 60 days. Do not write to me about this proposition unless you mean business as my time is too valuable Your money is what I want, for I believe positively I can return it to you at the rate of 100 per cent. annually on your investment after dividends are once commenced. If you really desire other information looking to an investment, write me immediately, as stock at this price will soon be gone

DEADLOCK EXISTS AT THE CAPITAL

Story That Satisfactory Compromise is Being Reached Denied

MR. SIFTON IS OBDURATE

Several Other Ministers are in Hot Water—The Ontario and Western Members

Ottawa, March 10.—The situation with reference to the Autonomy bill seems to have reached the position of a deadlock. There is much talk of a compromise, but there are a number on each side who are not willing to yield anything. The Premier, it is said, has even gone so far as to hint that another general election may become necessary if his followers are not willing to be reasonable.

"Mr. Sifton," said a member last night, "appears to be doing his utmost to drive the Government to the point of abject surrender on the Separate school clauses. He wants victory, not compromise. The feeling in the Government's following is running strongly against him, for he is now considered an outlander, and the influence he is bringing to bear on the Western members is regarded as an open act of aggression."

The Separate school clauses were prepared by Sir Wilfrid Laurier, Hon. R. W. Scott and Hon. Chas. Fitzpatrick. Mr. Sifton was not consulted, and he resigned. Mr. Fielding was not consulted, and he threatened to resign. The probability is that his resignation is in the hands of the Prime Minister, but the latter is not willing to accept it.

A COMPLICATED SITUATION.

The Ontario Liberals were not consulted in the preparation of the bill. They evidently want the schools clause dropped.

But the other side is beginning to move. Mr. Fitzpatrick is in the hottest kind of hot water. Mr. Scott threatens to resign if the schools clause is emasculated. Sir William Mulock is in troubled waters. The Sifton-Fielding sympathizers say Sir Wilfrid must modify the most offensive of all the clauses. The Quebec Liberals say he dare not modify them. Mr. Sifton is undoubtedly in a strong position, for a large section of the Western Liberals seem to be loyal to him.

He is further strengthened by the fact that a successor to the portfolio on the Interior must be chosen from the West, and the choice is from Manitoba or the Territories. Mr. Sifton thinks he can control the election if the Government sees fit to defy him. For reasons best known to himself, Mr. Sifton is, apparently, fighting, and fighting hard, and he is confident that he has the West behind him.

JUST A TEASPOONFUL of Perry Davis' Painkiller in warm water or milk, taken after exposure to cold or wet will quicken the circulation and thus prevent a chill. There is but one Painkiller, Perry Davis.

TO CANADIAN INVESTORS

Thomas Patterson & Co. Have a Fine Copper Proposition

Fifty dollars invested in Granite Mountain Mining Company's stock paid the purchaser $34,500, besides several thousand dollars in dividends. One Landred dollars invested in Boston and Montana Mining stock paid the purchaser $44,000, besides several thousand dollars in dividends. A few dollars invested in shares of the Butte Copper Mining & Smelting Company stock, will not only insure you big returns in dividends, but a handsome profit in an increased value of the stock. Our mine is not a prospect but a copper mine which has produced $150,000 in profits in the last three years.

For the purpose of buying adjoining ground we have placed on the market 50,000 shares of our treasury stock. This stock is fully paid and non-assessable. Par value $1,00 per share. We will sell any part or all of this lot at 60 cents a share; no certificate issued for less than 100 shares. Send us your order for what stock you want and we will reserve it for you, pending your investigation of our company; and when you have received our prospectus and satisfied yourself that the investment is a good one, you can send us the money and we will issue the stock, or have the stock sent through any bank you may designate. References: Any Bank or Mercantile House in Butte, Montana. Write us for particulars. Butte Copper Mining & Smelting Co., Butte, Montana, or to Thos. Patterson & Co., Fiscal Agents, Peterborough, Ontario.

TO BUILD SHIPS FOR RUSSIA

Americans Likely to get Important Orders in the Coming Year

Seattle, March 8.—A. A. Delakoff, a special agent of the Russian Bureau of Finance, is here. He says Russia will order the construction of a battleship, two cruisers, and several torpedo boats in the United States within the next year for delivery after the war in the Orient. His errand here is to visit Moran Brothers' shipyard in order to report to his government.

He states that there is nothing secret about the matter and that the construction of the vessels was decided on two months ago.

ALEXANDER MUNROE AND GEO. H. MUNROE

CALL ATTENTION TO

The Marconi Wireless Telegraph Co., of Canada

Capital Stock, $5,000,000. Par Value of Shares, $5.00 Each. Full Paid, Non-Assessable

EVERY STOCKHOLDER ON AN EQUAL BASIS
NO BONDS —— NO PREFERRED STOCK

Shares in the above named Company are offered for subscription by Munroe & Munroe at $5 each, in blocks of from one share to 200 shares for a limited period only. Every indication points to the early and rapid advance in value of these shares, and those who are desirous of making a profitable investment of their surplus should lose no time in forwarding their application for as many shares as they can conveniently purchase at this time. No enterprise of modern times offers anything like so good an opportunity for rapid and substantial accretion as the Marconi investment. We demonstrate this to the satisfaction of all investigators in our book entitled "Financial Aspect of the Marconi Investment," which we will send free to all who request it. Facts and figures most convincing are therein cited to prove that the Marconi Wireless Telegraph System will eventually dominate the industry of rapid communication between all nations of the earth. The Canadian Company is one of the most important integers in the world-wide organization which has been planned to control the world's means of rapid interchange of intelligence. You should study the Marconi System thoroughly, and particularly the situation of the Canadian Company with reference to this most important world organization.

THE MARCONI WIRELESS TELEGRAPH CO. OF CANADA

Is the owner by purchase of all the patents of WILLIAM MARCONI and his associates as applied to Wireless Telegraphy for the Dominion of Canada. It is so intimately associated with Marconi's Wireless Telegraph Company, Ltd, of England, the Marconi Wireless Telegraph Company, of America, that it is an essential factor in the progress and development of the System. It is the owner of a high power wireless telegraph station located at Glace Bay, Nova Scotia, shortly to be opened by Mr. Marconi, for the transmission of telegraphic messages between England and the Continent of America. It has equipped nine wireless telegraph stations on the Atlantic Coast and St. Lawrence River within the Dominion, and has equipped three ships of the Canadian Government and five ships of the Allan Line. MESSAGES DESTINED FOR PASSENGERS ON BOARD THE ALLAN LINE STEAMSHIPS OR ANY OF THE SEVENTY-FIVE (75) TRANSATLANTIC SHIPS, CARRYING THE MARCONI EQUIPMENT MAY BE DESPATCHED FROM SHORE, FROM ANY OF THE 30,000 OFFICES OF THE WESTERN UNION OR POSTAL TELEGRAPH COMPANIES THROUGHOUT THE UNITED STATES AND CANADA. Vessels are in constant communication with land throughout the voyage. The business established through this medium is a very large and profitable one, and is constantly growing. The Canadian Company has the support and backing of the Dominion Government which has granted large subsidies for the installation and maintenance of the System, as an aid to navigation, and in reaching distant and inaccessible points at the outposts of civilization. The day is rapidly approaching when all other systems of telegraphic communications must give way before the advantages of wireless telegraphy, and those who join in the enterprise at this early stage of its existence will reap the large reward which is due to the pioneer in every enterprise. As an investment of $100 in the Bell Telephone Company in 1878 did, in the twenty-five succeeding years, net the investor a profit of over $200,000, so will the investment of a few hundred dollars in the Marconi Wireless Telegraph Company of Canada net the investor thousands of dollars of profit.

Our faith in the destiny of the Marconi Wireless Telegraph Company of Canada is boundless. It will open to Canada its first means of direct communication with the mother country, and will place at the disposal of press and public alike, a medium whereby news and commercial messages may be transmitted direct. It is therefore, to the general as well as to the individual advantage of Canadians to identify themselves with the Company as stockholders.

Further information will be given on application to any of our offices named below. However, in order to be certain that you will procure your full allotment of the stock at the present price, we would advise an immediate remittance for the number of shares you desire to purchase. Address all communications and make all checks payable to

FRANCIS L. JUDD & CO.,
BANKERS AND BROKERS,
CLEVELAND, OHIO.

W. SAILSBURY,
PETERBOROUGH, ONT.

WHAT DO YOU DO WITH THE MONEY YOU SAVE?

Are you depositing it in bank? If so what interest are you receiving? **NOT MORE THAN 3 TO 3 1-2 PER CENT** we daresay. AND NOW COMES THE VITAL QUESTION. What is the banker doing with your money? The money you have placed with him for safe keeping. For answer read the official bank statement given below of the 1st National Bank of ——, It may be seen at our office as any time. It is as follows:

RESOURCES		LIABILITIES	
Loans and discounts	$666,720 51	CAPITAL STOCK PAID IN	$ 75,000 00
Overdrafts, secured and unsecured	208 66		
U. S. Bonds to secure circulation	50,000 00	Surplus fund	60,000 00
STOCKS, SECURITIES, ETC.	200,000 00	Undivided profit, less expenses and taxes paid	2,161 66
Banking-house furniture and fixtures	12,000 00	National Bank notes outstanding	50,000 00
Due from National Banks (not reserve agents)	1,000 00	Due to other National Banks	1,000 00
Due from approved reserve agents	15,211 66	Due to Trust Companies and Saving Banks	64 10
Checks and other cash items	1,620 71	Due to approved reserve agents	7 000 71
Notes of other National Banks	2 100 00	Dividends unpaid	4,705 00
Fractional paper currency, nickels and cents	200 00	Individual deposits subject to check	560 373 00
Lawful money reserve in bank, viz—Specie $60,710 00		Cashiers' checks outstanding	200 00
Legal tender notes 11,000 00	87 810 00		
Due from U.S. Treasury, other than 5 per cent. redemption fund	1,000 00		
	$720 250 33		$720,250 33

Pay particular attention to the items printed in bold type. They tell you an interesting story. They show a capitalization of $75,000. They show that over four times the amount of the authorized capital of the bank or $300,000 has been and is now invested in stocks.

PONDER OVER THIS STATEMENT If you are a bank depositor doesn't it make you think? It should! Who reaps the benefit of these investments of YOUR MONEY? Do you get it? Not if the bank knows best. You get your little 3 or 3 1-2 per cent and the bank gets the rest. Why cannot you

INVEST YOUR OWN MONEY

Your opportunities for ascertaining the value of your investments are just as good as that of your banker. Why can you not utilize these facilities for your own profit? You owe it to yourself and your family and to the world to assert your own INDEPENDENCE. If you have made bad investments in the past, DON'T BE KILLY enough to let the fact check your ambition to become your own business manager. Profit by your mistakes and GET WISE.

If you desire information regarding your investment—write to us If you desire to dispose of your investment write to us. If you desire a new investment that is ABSOLUTELY SAFE and which will return large PERMANENT DIVIDENDS to you instead of your banker,

Write to us at Once. Keep Your Capital in Action.

That is the only way to make MONEY GROW. We will advise you and we will not charge an exorbitant fee for so doing. WE CAN HELP YOU AND WE WILL.

Fiscal Agents for the CANADA BREWERY COMPANY, Limited

Consumption Can Be Cured

A Powerful and Effective Destroyer of Disease Germs Discovered Which Cures Consumption.

The ravages of consumption which for years have terrorized the modern world will no longer continue to cut off our population by thousands. Science has at last produced a remedy which not only can be readily applied to the lungs, but also kills every trace of bacilli in the throat, bronchial tubes, and air passages of all the breathing organs.

The name of this marvellous antiseptic about which the doctors are talking so much is Catarrhozone, the ozonated air cure. The vapor is more soothing than the air of pine woods, and its healing properties are without limit.

Through a skilfully devised inhaler the sufferer is enabled to breathe this fragrant medicated vapor into the most minute air cells of the lungs. It is so destructive to microbic life that the tubercular germs are rapidly killed and prevented from ever returning. Congestion and inflammation are relieved, coughing stops, all disagreeable symptoms are quickly cured by Catarrhozone.

So simple is Catarrhozone that anyone can use it. So certain to cure lung and throat troubles that it is prescribed by not less than twenty thousand doctors in United States and Canada. One well known authority who has made a life long study of consumption, has the following to say; "Catarrhozone is certainly a true specific for white plague. I find that its healing vapor readily spreads all through all the breathing organs passing over probably not less than one thousand square feet of mucous surface at a single inhalation. It is a perfect germicide and destroys tubercular germs with wonderful certainty. Catarrhozone is entitled to rank among the great medical discoveries of the age."

No matter how often you have been disappointed with other remedies you must not be discouraged. In Catarrhozone you will find new hope. What it has done before it can do again. Your case is not worse than others it has cured. Therefore if properly used you can also be cured by Catarrhozone. Two months treatment $1.00. At druggists or by mail from N. C. Polson & Co., Hartford, Conn., U.S.A., or Kingston, Ont. Refuse any substitute for Catarrhozone—only the genuine can cure.

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 90 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have cash prospects.

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our Correspondence Course.

WM PRINGLE

Board of Education

Last night the School Board met in Committee of the Whole to consider proposed amendments and curtailments of the proposed Collegiate Institute. After being in secret session until about 9.30, the meeting adjourned. It is understood that an amicable arrangement was arrived at.

Lakefield's Big Parade

Thursday was Massey-Harris day in Lakefield. The village was crowded early in the morning, by farmers from the surrounding country. Over one hundred vehicles of all kinds, loaded with farm implements of every description paraded the principal streets. The agent of the Massey-Harris Company, has sold over five car loads of their implements during the past year, amounting in value to nearly $12,000.

The Times to Salt Lak Utah

A leading citizen in town yesterday had a letter from an acquaintance of his who lives in Salt Lake City, Utah. It appears that an old resident of Peterborough, was spending a short visit with friends in the center of bigamy, and this gentleman's correspondent, passing along 6th street, saw a man sitting on the pavement's edge greedily devouring the contents of a newspaper. Curiosity led him to glance over the reader's shoulder. When he read the title "The Morning Times," of Peterborough. This led to self-introductions, and exchange of cards, and an agreeable acquaintance was born.

Settlers Low Rates West

via the Chicago and North Western Railway every day from March 1st to May 15th, 1905, settlers one way second class tickets at very low rates from Chicago to points in Utah, Montana, Nevada, Idaho, Oregon, Washington, California, also to Victoria, Vancouver, New Westminster, Rossland, and other points in the Kootenay District. Correspondingly low rates from all points in Canada. Write for full particulars and folders to B. H. Bennett, General Agent, 2 East King street, Toronto, Ont.

Rev. J. J. Wright Appointed

The Presbyterian church in Canada is about to increase the endowment fund of Queen's University of Kingston, by the sum of $50,000. Rev. J.J. Wright, who is now carrying on the good work of the church in Lindsay, has been appointed representative of Queen's University Endowment Fund. The rev. gentleman, who is calling on the various congregations, in two days this week, by means of small subscriptions from the people raised the goodly sum of $500. He is certainly endorsing the opinion held by his many friends in Peterborough that he is a pushing worker in the good cause. Mr. Wright, is well known here in connection with his Yukon missionary work.

At the Opera House

That old time favorite of Dumas, "Monte Cristo," was the attraction at the opera house last night. Whilst the opera house here is a little short of scenery for a play like this, which should be largely spectacular in effect, the Bijou Comedy Company succeeded in pleasing the large audience present. The vitascope representation of a train robbery was particularly effective, and caught on with the audience. Mr. H. Wilmot Young as "Edmund Dantes" and "Abbe Busoni," and Miss Marie Adams as "Mercedes," with the supporting of their excellent company, kept those present in interested good humor. There will be a matinee this afternoon when the holder of the lucky ticket will receive an order for a ton of coal, gratis.

$500 REWARD, $500

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address, F. J. CHENEY & Co., Toledo, O.

Sold by Druggists, 75c.
Hall's Family Pills are the best.

St. Paul's Church Concert

The following is the program for the concert to be given next Monday evening in St. Paul's church under the auspices of the Young People's Society:

Quartette—Charlotte Street.
Flag Drill—Ten little boys.
Address—"Physical Recreations," by Rev. G. A. McLennan, Norwood.

Quartette—Charlotte Street.
Solo—Rev. G. A. McLennan.
Address — "Mental Recreations."
Rev. Beverly Ketchen.
Solo—Mrs. K. Kardley-Wilmot.
Recitation—Mrs. Dr. Morgan.
Pantomime—Ten little girls.
Quartette—Charlotte Street.
Address — "Spiritual Recreations."
Rev. George Yeo.
Solo—Rev. G. A. McLennan.
"God Save the King."

An Interesting Book on Banking

The Times was handed yesterday by Mr. Hemmitt, Manager of the local branch of the Bank of Nova Scotia a very nicely gotten up and illustrated history of his bank. The book contains portraits of its general officers, including a very good likeness of Mr. R. L. Borden, one of its directors. The book contains a facsimile of the original stock subscribers' names, with the amounts opposite each name. The first subscriber is Mr. William Lawson for 20 shares, valued at £1,000 under date of February 1st, 1832. The work gives a general history of the bank, including its Act of Incorporation, its first meeting of shareholders held in the Exchange Coffee House, Halifax, on May, 1832, the Furman defalcation, whereby its cashier was short nearly $315,000, but afterwards made good by his bondsmen, facsimilies of notes issued for different years when the sterling currency was in vogue, and other matters of interest appertaining to the bank's history, ending with a colored chart showing the increase of the bank's business and assets since its inception.

Personal and Social

Movements of the people in and out of town . . .

—Mr. Harry Calcutt was out for a drive yesterday.

—Mr. T. Dixon Craig, ex-M.P., Port Hope, is seriously ill.

—Mrs. E. J. Lynch and Master Redge, of Westwood, have returned home after visiting friends in town.

—Miss Edith McKee is spending a few weeks the guest of Mrs. C. L. Owen and Mrs. F. Smith, Campbellford.

—S. E. Ryan, Berlin; J. T. Barry, Montreal; A. E. Oliver, Toronto; Geo. L. Adam, Brantford, are guests at the Snowden House.

—Mr. W. V. Haggart, Utica, N.Y., has been visiting his parents at 19 Union street, and left yesterday for Richfield Springs, New York, where he has accepted a position.

—Miss Laura Bellegham has returned from a protracted visit to Dr. and Mrs. T. H. Pruat of Pontiac, Mich. It is a pleasure to state that Dr. Pruat has entirely recovered from his recent illness.

—Mr. R. P. Allan of Hamilton, representing the Birbeck Loan Company is in town interviewing the shareholders of the company with a view to obtaining their sanction to turn such stock as is owned by them over to the Standard Loan Company.

—W. E. Andrews, Brantford; G. E. Shortell, Toronto; J. W. Corcoran, Toronto; E. J. O'Neil, Guelph; J. C. Miller, Orillia; Jas. MacCullum, Hamilton; John S. Cole, jr., Detroit, H. A. Brown, St. John; are registered at the Oriental.

Local Incidents

BY THE TIMES MAN ON THE STREET.

—For bargains in games come to Times Bookstore. All winter games at reduced prices.

—Room for one or two ladies in private family with or without board. Use of piano. Apply at this office for address.

—The Lindsay Post says; Louis B. Doble is suing the Peterborough Canoe Company, for $5,000 damages for the loss of his right hand while working at a planer in the company's factory.

A MARVELLOUS FLESH PRODUCER! This is the statement of those who have used "The D & L" Emulsion. It is said to be rich and sweet as cream and not unpleasant.

—The Primary and Junior Union was held in the Y.M.C.A. hall yesterday evening. The lessons were taken by Miss K. Phillips and Dr. M. A. Morrison.

—A meeting of the Ladies' Literary Association of the T. A. S. was held in the hall yesterday evening. The paper on "La Salle, by Miss Mamie O'Connor, was well worth hearing.

—The Lindsay Post of yesterday's date, notes that the prices for 25c seats at the last hockey match were sold for $2, $3 and $5. Well in live towns, people do not mind a trifle like that.

A NAGGING COUGH drives sleep and comfort away. You can conquer it with Allen's Lung Balsam, which relieves hard breathing, pain in the chest and irritation of the throat. Give it freely to the children.

—The Young Men's Guild of St. Andrew's Church will hold a regular meeting on Monday night next. It will be a Jacobite evening. Rev. J. G. Potter will give an address on the Jacobites and several songs will be rendered.

—Wm. Woodbridge, an employe of the Canadian General Electric Company, who boards at the King Edward restaurant on George Street, while at work yesterday morning dropped an iron casting on his right hand, breaking a bone in the little finger. Dr. Young attended to his injury.

—The Governor-General has been invited, by the directors of the Peterborough Industrial Exhibition to open the annual show this year. Mr. Hughes Charles forwarded the request yesterday, and is expecting a reply in a day or two.

—Mrs. M. E. Dignam, President of the Women's Art Association of Canada will be present for the Private View on Monday evening, March 13th in the Y.M.C.A. Hall and has kindly consented to give a talk to the members and their friends on Tuesday afternoon at 3.30.

—Messrs. J. J. Turner & Sons have placed in position a very handsome gold block-letter sign in front of the Bank of Nova Scotia. It was turned out at the firm's factory and is another example of the workmanship which has done much to establish the firm's enviable record.

—John Stinson, employed at Clinkmaies' sash and door factory, was seriously injured yesterday afternoon by a splinter of wood entering between the thumb and forefinger, passing completely through the hand.

When you want a life-like Portrait in Oil, Crayon, or Water Color, don't fail to come to E. Hudson's Studio, where the work and prices are always rights. Gifts in Pictures, Frames and Fancy Work. Lessons in Painting and Pyrographic Work. Studio, 134 Brock street, Peterborough.

POSTER TEA.

Enjoyable Time Spent at the Y.M.C.A. Last Night

The attendance at last night's Poster Tea at the Y.M.C.A., while fairly good, was not as large as the entertainment deserved. Mr. Williamson occupied the chair, and made a few brief but well timed remarks. The program.—Selection, Y.M.C.A. Orchestra; solo, Mr. Herd; piano solo, Mrs. Mowat; selection, Y.M.C.A. Orchestra; solo, Mr. James Brown; solo, Miss Moore; solo, "Angus Macdonald," Miss Clara Kidd; selection, Y.M.C.A. Orchestra. God Save the King.

WOMEN WHO SUFFER
Listen to What Dr. Hartman Proposes to Do for You Without Charge.

Doubtless hundreds of thousands of women all over the United States have seen Dr. Hartman's offer in the papers—how he has undertaken to treat every woman suffering with any form of female disease who will write to him, free of charge.

To those who have not heard of this it may be said that Dr. Hartman is a physician and surgeon of great renown in medical circles, especially in the treatment of those diseases which women alone have to bear.

He has arranged to answer all letters that are sent to him from women troubled with any form of female weakness, free of charge, giving the benefit of knowledge which has cost him forty years to accumulate.

The medicines he prescribes are within the reach of any woman, and she can get them at any drug store.

All she is required to do is to send her name and address, together with her symptoms, duration of sickness and age. Address Dr. S. B. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

Mrs. Senator Roach, of Larimore, N. Dak.; Mrs. Senator Warren, of Cheyenne, Wyo.; Belva Lockwood and Mrs. General Longstreet, of Washington, D. C., are among the prominent ladies who indorse Peruna.

Miss Helen Rolof, Kaukauna, Wis., writes:

"Several times during the past two years or more my system has been greatly in need of a tonic, and at those times Peruna has been of great help in building up the system, restoring my appetite and securing restful sleep."—Helen Rolof.

Miss Muriel Armitage, 80 Greenwood Ave., Detroit, Mich., District Organizer of the Royal Templars of Temperance, writes as follows:

"I suffered for five years with uterine irregularities, which brought on hysteria and made me a physical wreck. I tried doctors from the different schools of medicine, but without any perceptible change in my condition. In my despair I called on an old nurse, who advised me to try Peruna, and promised good results if I would persist and take it regularly. I kept this up for six months, and steadily gained strength and health, and when I had used fifteen bottles I considered myself entirely cured. I am a grateful, happy woman to-day."—Miss Muriel Armitage.

Miss Lucy M. Riley, 28 Davenport St., Cleveland, Ohio, writes:

"I wish to add my indorsement to thousands of other women who have been cured through the use of Peruna. I suffered for five years with severe backache, and when weary or worried in the least I had prolonged headache. I am now in perfect health, enjoy life and have neither an ache or pain, thanks to Peruna."—Lucy M. Riley.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

RUSSIAN SPIES PAY PENALTY

Beheaded by Chinese Bandits Under Jap Flag—Took Death Coolly

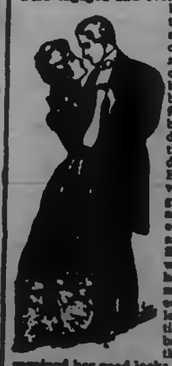
New Chwang, March 10.—With Japanese flag flying, a band of Chinese bandits to-day beheaded two young Russians who were alleged to be spies at Sinmintin. The first one executed was evidently an officer, but he was wearing a Chinese overcoat. He knelt without a murmur while his companion watched the death stroke. The second captive was clothed in Chinese clothing throughout. He whimpered for a moment, but regained his nerve and struggled fiercely. He was thrown and killed while long trumpets fanfared.

The chief of the bandits was a mild mannered old man, wearing a Japanese sword. He watched the executions unmoved. "They are spies," he said, "and we should kill them. Besides, it is difficult to transport them."

A WIFE'S CONFESSION.

Of course every one knew when they were engaged and every one pretended to be surprised when they heard it was suddenly broken off. It was first said she had broken it off, then that his heart had changed, but finally she confessed that she had been so irritable, so depressed and blue that she had fairly driven him away. Her good looks were vanishing. She was getting thin, pale, and hollow-cheeked, with dark circles around her eyes. Suddenly all society was pleased again to hear of the engagement being announced, and it was not long before a beautiful and radiant bride was taken to the altar. She had regained her good looks, her former happy disposition and strong nerve all through a secret a friend gave her. A few bottles of Dr. Pierce's Favorite Prescription is what made two more lives happy and a prettier bride never mantled than she had ever appeared before.

Backed up by over a third of a century of remarkable and uniform cures, a record such as no other remedy for the diseases and weaknesses peculiar to women ever obtained, the proprietors and makers of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay $500 in legal money of the United States, for any case of Leucorrhea, Female Weakness, Prolapsus or Falling of Womb which they cannot cure. All they ask is a fair and reasonable trial of their means of cure.



Frost-bite in Winter, and cracked lips or skin can quickly be cured by using
CALVERT'S Carbolic Ointment.
It is a well-proved remedy for skin ailments, possessing in addition to the properties of an ordinary Ointment, the healing and antiseptic virtues of Carbolic Acid.
25 cents a tin, of Druggists, or by mail from F. C. CALVERT & Co., 627 Dorchester Street, Montreal.
Send 2 cent stamp for mailing of free sample.

BEST ADVERTISING MEDIUM IN EASTERN ONTARIO

VOL XXXIII NO 65 PETERBOROUGH ONTARIO, MONDAY MARCH 13 1905 PRICE TWO CENTS

QUEBEC IS AROUSED.

Every Roman Catholic Church Prepares Petition to Sir Wilfrid Laurier.

Montreal, March 12—Every Roman Catholic in this city as well as in the Province of Quebec, signed a petition this morning to Sir Wilfred Laurier demanding Separate Schools for the North West. The subject was referred to in the Roman Catholic Chambers, and, in several cases in the city, strong language was used in support of sectarian schools in the West. It is believed that every church in the Province has a huge petition ready to be forwarded to Ottawa.

200,000 RUSSIANS, HALF KOUROPATKIN'S LARGE ARMY, FALL AT MUKDEN.

Flower of the Czar's Forces on the Dead Run Northward to Tie Pass, Subjected to Annihilating Fire From Both Flanks and in Danger of Meeting Another Jap Army Near Hoped for Refuge.

The broken Russian army is desperately struggling northward after enormous losses in men, guns and supplies. The rout seems complete and an unofficial report from St. Petersburg says that Kuropatkin has lost at least 60,000 prisoners.

To the east and west of the retreating army the Japanese are closing in and it is apparent that Russia has met with the crowning disaster of the war.

Official reports from Tokio say that thousands of Russians are crowded into the district between the railway and the Mukden road, while the Japanese are pouring an annihilating fire upon the demoralised mass.

On three sides the enveloping Japanese are drawing in their lines, and it seems possible that Oyama's supreme efforts to interpose a strong force between the main Russian army and the north are successful.

JAPAN MUST MOVE.

St. Petersburg, March 13,—The moment might prove opportune, but the question of peace lies with Japan and not with Russia. Russia would welcome peace and peace could be arranged, not through a third power, but by direct negotiations between the two countries if Japan would propose moderate terms. As the victor Japan is in a position to take the first step. Russia cannot and will not sue for peace. Neither could she accept terms which did not recognise Russia as a power in the far east. It is idle to speculate on the concrete terms. The only thing is that Russia's position in the far east must be recognized. Friends of peace throughout the world should use their influence with Japan. The victor should show moderation. Otherwise no end of the war is yet in sight.

WILL CRUSH KUROPATKIN.

Washington, March 13.—With Mukden as his new base Marshal Oyama has determined to push northward in the direction of Harbin with a large part of his army, in the effort to follow up his recent victory as rapidly as possible and accomplish his one great purpose of administering a really crushing defeat to General Kuropatkin. This information has reached Washington from an authoritative source and accurately sets forth the present program of Tokio war office.

After receiving several cablegrams telling of the victories of the Japanese arms around Mukden, Mr. Takahira, the Japanese minister, although the host at a brilliant reception last night, which lasted past midnight, was an early visitor to the state department to-day, where he had half an hour's conversation with Secretary Hay. As he was leaving the minister was asked what effect in his opinion the battle of Mukden would have upon the ultimate issue of the war.

"For us it is but a chapter in the great conflict, though a most important one."

The minister replied. "It is difficult for me to say how much the battle of Mukden will contribute towards peace, for overtures for peace must necessarily come from the other side."

"Will your government suggest peace in the light of Oyama's victory?" the minister was asked as he entered his carriage.

"The initiative, I repeat, can scarcely be looked for from Tokio," he replied.

200,000 LOST.

St. Petersburg, March 13.—It is reported in military circles this evening that General Kuropatkin has lost 300 guns and about 60,000 prisoners, besides about the same number of killed or wounded. This would mean a total loss of 120,000. Other estimates place the loss as high as 200,000 prisoners wounded or killed.

The number of Russians engaged in the present battle is 300,000 infantry, 26,000 cavalry and 1,368 guns. The infantry calculation allows for 376 battalions with an average of 800 men each.

Tokio, March 13.—The Russian forces are now retiring from Mukden north-ward. They are flanked on both sides by the Japanese troops in pursuit, and are suffering heavy losses.

The full extent of the Russian disaster is still unknown here. The casualties and losses in guns and munitions of war are enormous. The prisoners will number many thousands.

By a desperate onslaught, the Japanese drove a wedge through the line of the Hun River, and then, pressing northward, practically isolated a giant cordon aroundd Mukden, bagging a tremendous force of the Russians by the operations completed yesterday.

The wedge droven through the Russian centre on the Hun River continues to advance north. It has already arrived at Hamju, some distance northeast of Mukden. The Russians have been heavily punished during their retreat along the described route, the Japanese shelling the disordered masses of the Russians.

As a result of the operations, if the Japanese army succeeds in contracting the line of retreat between Fushun and Tie Pass but a small fraction of Kuropatkin's army will emerge from the disaster.

A Japanese detachment has reached the Pu River, thirteen miles north of Mukden, and is inflicting considerable damage on the retreating army.

GRIEF AT HOME.

The War Office, this morning had little consolation to offer to the pitiful inquiries for news. The papers are filled with long lists of those killed in the earlier days of the fighting and the churches are crowded with wives, mothers and sisters, praying that their loved ones be spared. At least all classes seem to have joined in the common grief.

All hope of Kuropatkin waiting for an opportune moment to strike and convert defeat into victory has been abandoned even by the military critics and the papers in a dolorous strain chronicle the last and worse reverse to the Russian arms.

WRITE YOUR MEMBER TO-DAY

LET every elector in Eastern Ontario who supports the cause of Provincial freedom make it a matter of duty and conscience to forward a letter to the member who represents his constituency, urging him to uphold the independence of the new provinces over the educational system. Let this be done TO-DAY.

THE ARMING OF ESQUIMALT

Land Fortifications are Being Strengthened

THE WORK UNDER WAY

Signal Hill, a Natural Fortress, Will be Impregnable When the Work is Completed

Victoria, March 11.—Although the the lords of the admiralty in their wisdom have seen fit to abandon Esquimault as a naval base, the war department has no intention of discontinuing the work of increasing the strength of land fortifications. On the contrary, the operations are being pushed forward with all possible dispatch and the present prospects now are that the stronghold will be complete within a year. Only those directly connected with the work have any idea of the magnitude of the task which was undertaken when the imperial authorities decided to fortify Signal hill.

That it should have been decided upon as the site for a fortress is easily conceived as it possesses marked adaptability, in situation and strategical advantages generally, for such a purpose. It commands a wide view of the straits and from its heights the heavy ordnance which is about to be installed can hurl havoc-dealing projectiles for a distance of ten or twelve miles, according to military authorities.

This work has been actively in progress for two years under the supervision of experts in the imperial service, the royal engineers, and the expense and labor involved have been enormous. The first operation after the construction of a substantial waggon road to the summit of the hill and the centre of activity, was the making of a huge chamber by blasting out of the solid rock. The interior had then to be conserved, the site of the magazine selected and the stations of the ordnance determined.

Although more than twenty-four months have been consumed by large squads of men employed in this work, the stage has not yet been reached when the big 9.2 inch guns which have been on hand for some time past, can be mounted.

A great deal of concrete work must be done, particularly in the construction of the foundations on which the guns will be placed. This concrete must be allowed to stand for several months in order that it can properly and firmly settle, for it is realised that the slightest alteration in the foundation would seriously affect the accuracy of the guns.

The magazine will be lined with bricks to prevent dampness reaching the ammunition, while among the other prime essentials to be completed in the construction of the roof. This will consist of heavy steel girders covered with six or seven feet of solid concrete, on this will be about ten feet of earth so that the roof will be shell proof.

At the present time a large force of men from the Royal garrison artillery is employed in drawing the gun materials up the hill to be in readiness for the mounting of the guns, and to secure the latter fifty-six bolts, each of which weighs one hundred and twenty pounds, are required.

Shells will be hoisted from the magazine to the guns by hydraulic engines. These will be utilized even as far as "ramming home" the shell which will practically not be handled by gunners during the entire operation of firing the gun.

By this means, although each shell weighs three hundred pounds, it will be possible to fire three a minute. This however, would only be done under very urgent conditions, as the life of the big ordnance is comparatively short, and the greatest care must be exercised in handling them.

ASSASSINATION WORLD OVER

Bullets, Knives and Bombs are Aimed at the Lives of Dignitaries

APPALING LIST OF KILLING

Last Hundred Years is Full of Tragedies That Shook all Civilization

Paris, March 11.—The assassination of Grand Duke Sergius adds another to the series of Russian tragedies which began on June 16, 1904, with the assassination of General Bobrikoff, Governor-General of Finland, who was fatally shot at Helsingfors by Eugene Schaumann, a Finn. The following tragedies have occurred in quick succession since:

July 17—Vice-Governor of the Government of Elizabetpol, assassinated at Agdebakant.

July 23—M. Plehve, Minister of the Interior, killed in St. Petersburg by a bomb thrown by a young student named Sazonoff.

August 1—Lieutenant-General Bogdanovsky, chief administrator of a district in the Caucasus, murdered at Igdir.

November 5—General Tcherrkoff, Governor of Warsaw, the target for three rifle shots from a troop train. They missed him, but killed a gendarme who was standing near him.

January 9—A charge of case shot fired from a saluting battery at the Czar during the ceremony of blessing the waters on the Neva.

February 6—Solomon Solomon, Procurator-General of Finland, shot and killed in his office at Helsingfors by Karl L. Hoventhal, a political fanatic.

February 17—Grand Duke Sergius at Moscow.

The past century has been remarkable for the great number of assassinations of high dignitaries which have occurred.

The following is a list of these tragedies from 1800 to the present time, supplementing the list given above:

1801—Russia—Czar Paul.
1812—England—Premier Percival.
1820—France—Duc de Berri.
1848—Italy—Count Rossi.
1854—Italy—Duke of Parma.
1857—France—Archbishop Sibour of Paris.
1860—Montenegro—Prince Daniel.
1865—United States—President Lincoln.
1868—Servia—Prince Michael.
1870—Spain—Marshal Prim.
1871—France—Archbishop Darboy of Paris.
1872—India—Governor-General Mayo.
1876—Turkey—The Sultan Abdul Asis and several Ministers.
1878—Turkey—Mahomet Ali Pasha.
1881—Russia—Czar Alexander II.
1881—United States—President Garfield.
1882—Ireland—Lord Cavendish and Secretary Burke.
1887—France—Former Premier Jules Ferry.
1894—France—President Carnot.
1895—Bulgaria—Former Premier Stambouloff.
1896—Persia—The Shah.
1897—Spain—Premier Canovas.
1897—Uruguay—President Bordia diarte.
1898—Austria—Empress Elizabeth.
1899—Hayti—President Hereaux.
1900—Italy—King Humbert.
1901—United States—President McKinley.
1902—Russia—Prince Obotenski, Governor of Kharkoff.
1903—Servia—King Alexander, Queen Drago.

ORANGE GRAND LODGE

A Strong Resolution Adopted on the Autonomy Bill

Midland, March 12.—The Orange Grand Lodge of Ontario West last night re-elected Lieut.-Col. J. H. Scott of Kincardine as Grand Master; passed a very strong resolution denouncing the school clause in the Autonomy Bills; adopted another commending the course of Hon. Clifford Sifton; selected Goderich as the next place of meeting; and voted $500 to the fund for the family of the late Mr. E. F. Clarke, M.P.

—The Children's Shelter wishes to acknowledge from the Mothers' Guild of St. Luke's church, a number of contributions of clothing. This is a good pointer to parties having cast-off clothing to give away.

BOLD LOVER'S MISTAKE

Kidnaps Prospective Mother-in-law Instead of Her Daughter

Rome, March 10.—A young countryman of Bitonto, Francesco, Cajaldo, was much in love with a pretty girl, Elisa Fano, and, although the girl herself was not averse to his suit, her mamma did not see Francesco with a "good eye," as they say here, and so the course of true love did not run smooth. Rendered desperate, the young man decided on heroic measures, and concocted a plot with some friends. The mother and daughter were in the habit of going frequently to some relatives in the evening; so one dark night the conspirators hid in a narrow street, and as the women passed sprang out upon them.

In the confusion which ensued, heightened by the intentional manœuvres of the young men, the gallant Francesco threw a shawl over the head of one of the frightened women, and, in spite of her struggles, bore her off to his house. "I am Francesco," he repeated at intervals, thinking to calm the terror of his lady love, only, however, to be answered by muffles tones from the shawl, struggles, and kicks of such strength as to rouse his wonder and something of resentment that Elisa should treat him so. Meanwhile the other women had fled shrieking to cover, followed by the men, to conceal the doings of Francesco.

The bold lover carefully removed the shawl, dropped on his knees, and raised his eyes to those of — Elisa's mother.

HARRY LINDLEY'S DOUBLE

A Practical Joke Which Nearly Became Serious

The Journal says: Mr. W. Goulding, of Toronto, is in the city after a trip through Ontario to all the principal centres. He is one of the most amusing of the many "drummers" who visit Ottawa during the year. In appearance he is the image of old Harry Lindley, well known in theatrical circles. In fact he is known throughout Ontario as "Harry Lindley," and this has caused many funny episodes.

A short time ago he visited Belleville and went into an hotel with a friend, who introduced him to the bonifice as Harry Lindley. Mr. Goulding smilingly accepted the introduction as Lindley, and was at once faced with a bill for $6. Then the "drummer" repudiated the alias, but the second story would not go.

Finally he invited Mr. Hotelman to leave it to a customer a few doors off, and the party made tracks to the store.

"Who is this man?" asked the hotelman.

"Harry Lindley," promptly replied the merchant.

"I thought so; you can't fool me," said the hotelman.

It took the production of trunks of samples and letters from the house to straighten out the tangle and then the hotelman was only half convinced.

Japan Buys Locomotives

Lond, March. 11.—The Japanese Government has placed a contract with the North British Locomotive Combine, Glasgow, for fifty powerful locomotives. These are in addition to an order for a score of engines at present building for Japan. The contract is for prompt delivery. The Glasgow firm will ship the first order next month.

AN EQUAL FOOTING.

It is argued that for the sake of peace and harmony conscientious scruples should be waived and that this act limit to enable those new provinces with Separate schools should be allowed to pass without protest. But nothing is ever settled until it is settled right and we may as well be faced now and here. The system is one that [illegible] must be buried if we are to have a [illegible] dinnism. It is contrary to the fundamental position of equal rights to all. Our Public school system places all on an equal footing and robs no one of [illegible] rights that he may justly claim, and unless we are compelled by the constitution, we have no right to fasten for all time upon these new provinces a system which is contrary to provincial rights and directly inimical to united citizenship.

St. Luke's Girls' Auxiliary

At the annual meeting of the Girls' Auxiliary the following officers were elected:—

President—Mrs. Walter Boswell
1st Vice-Pres.—Miss M. Rogers
2nd Vice-Pres.—Miss E. Gaskins.
Corres.-Sec.—Miss Alice Dawson.
Rec.-Sec.—Miss Isabel Hay.
Treasurer—Miss Lizzie Stewart.
Dorcas Secretary—Miss M. McWha.
Asst. Dorcas Secretaries — Miss Mabel Scott, and Miss Carrie Whittaker.
Delegates to annual meeting—Miss Isabel Hay and Miss Mabel Scott.
Executive members appointed by Rector—Miss M. Carter and Miss A Revelle.

EASY CHANGE

When Coffee is Being Harm

A lady writes from the land of cotton of the results of a four years' use of the food beverag—hot Postum Coffee:

"Ever since I can remember we has used coffee three times a day. It had a more or less injurious effect upon us all, and I myself suffered almost death from indigestion and nervousness caused by it. I know it was that, because when I would leave it off for a few days I would feel better. But it was hard to give it up, even though I realised how harmful it was.

"At last I found a perfectly easy way to make the change. Four years ago I abandoned the coffee habit and began to drink Postum, and I also influenced the rest of the family to do the same. Even the children are allowed to drink it freely as they do water. And it has done us all great good. I no longer suffer from indigestion, and my nerves are in admirable tone since I began to use Postum coffee. We never use the old coffee any more. We appreciate Postum as a delightful and healthful beverage, which not only invigorates but supplies the best of nourishment as well." Name given by Postum Co, Battle Creek, Mich.

There's a reason.

Look in each pkg. for the little book, "The Road to Wellville."

NEW PARSONAGE

The Murray Street Baptist Church to Have a New Parsonage

The Baptist Church in Peterborough is rapidly forging ahead in the number of its communicants, among whom are many of our leading and wealthy citizens. It has for a long time been a matter of self-reproach to members of the Murray street church, that so influential and prosperous a congregation should not own a more fitting home for their pastor, so, as there is such a suitable location adjacent to the church, it has been decided by some leading members of the congregation to organize committees for the purpose of having a parsonage erected. It is the desire of the promoters of this most excellent scheme to have a handsome residence erected at a cost in the neighborhood of $5,000. The plans will shortly be laid before the congregation, and will show a thoroughly modern and artistic edifice. It is expected that the congregation will unanimously endorse the idea and that funds will be forthcoming so that work can proceed as soon as spring opens up.

CEREAL CO'S. FIRE

News From Cedar Rapids About the Big Blaze

The local superintendent of the American Cereal Company on Saturday informed this journal that they had nothing further for publication about the fire at Cedar Rapids, Iowa. However, in this connection, the Cedar Republican, referring to the destruction of the American Cereal Company's mill by fire states;—Mr. Geo. Stuart, the superintendent of the cereal mills is in Havana and Mr. Robert Stuart was in Chicago. He called up the Republican office and talked for some time over the long distance telephone. When he learned of the magnitude of the fire he was astounded, and his voice, coming over the wires, showed that he was much affected. Chief Engineer McDonald and Acting Superintendent Laird were active in doing the best they could to save the company's property in the presence of such a catastrophe. The question uppermost on the minds of most people who saw the fire last night was "Will the mills be rebuilt?" The probability is that they will, but a definite answer on this point must not be expected for some days.

Police Court

OFFICIALS

Chief of Police, G.I. Reid
Magistrate, D.W. Dumble

Saturday was a very quiet day in police matters. At the morning court, Mr. Tooley, of the Queen's Hotel, admitted to an infraction of the liquor law, as charged by Inspector Cochrane. This little oversight will just take the price of 472 schooners of beers or tanglefoot, as the penalty imposed was $20 and $3.60 costs.

The old moss grown assault case of the restaurant man, whose eye went temporarily into mourning in 1903, was also settled, by the defendant going down into his clothes for $2 fine and a chaser of $4.80 costs.

P.C. Stewart made an arrest on Saturday, and thereon hangs a tail. Mr. Jack Louderville owns a large Newfoundland dog, and the dog is Dingo. Dingo was left attached to a sleigh at the market place whilst his driver, a boy named Fitzgerald went away somewhere on business; when the boy returned Dingo had gone, some other boy having fancied a drive behind him. Dingo and sleigh were found by the officer and brought to the station. Fitzgerald learned, with dismay, that his steed was locked up in a cell, however the Chief allowed Dingo to go, and Fitzgerald with the smile that won't come off drove away rejoicing.

THE CONSERVATORY OF MUSIC.

Interesting Recital by the Pupils of Mr. Gilbert Markle

An interesting recital was given at the Conservatory of Music on Saturday afternoon by the violin pupils of Mr. Gilbert Markle, at which a large number were present to hear the following program; Hermann classics No. 6, A. Wachter; Dante, 4th air, varie opus 89, Miss Doris; Dabelli air, Miss Retta Rountree; Lieu du Ball Gillett, Miss Lenore Sanderson; Danta, 5th air, Miss Ethel Gervin.

The work done by these pupils was highly creditable, and Mr. Markle is to be congratulated upon the success attained through his efforts.

The program was interspersed with a vocal solo by Master Roy Dixon, a talented pupil of Miss Helen Davies and a piano duet cleverly played by Miss Amy and Jean Hill, pupils of Miss Alice Rogers.

The accompanists were Miss Mattie Robertson, Miss Sanderson and Miss Doris.

A BISHOP ON "BRIDGE."

The Anglican Bishop of Quebec Warns Society People Against "Bridge" in Lent Cross on School

Quebec, March 13. — Bridge and euchre playing is reported to have gained quite an ascendency in certain circles of Quebec society, according to an announcement made by His Lordship Bishop Dunn from the pulpit of St. Matthew's Church in the course of an Ash Wednesday sermon. The Bishop was preaching upon the duty of self-sacrifice during Lent, and urged that even innocent pleasure might well be suspended during the solemn season, such as the assembling of pleasure parties, which were often in themselves, at other seasons of the year, not only harmless but desireable enjoyments. Though, continued the Bishop, if what he had heard of some Quebec people who played bridge and euchre was true, he feared that they were guilty of unpardonable waste of time by giving up not only evening after evening, but also afternoons and even mornings to the games. The reference made quite a sensation.

NEW LICENSE INSPECTOR

East Peterborough Liberals Ask for Change

A deputation of prominent Liberals and Conservatives from East Peterborough, waited on the Provincial Secretary a few days ago, asking that a change be made in the license inspectorship in that riding. The position has been held for years by Mr. J. I. Crowe, who will, we understand be asked for his resignation at an early date. Numerous complaints have been made regarding violations of the license law, and it is proposed to have it enforced hereafter by the appointment of an Inspector who will do his duty.

The Times would suggest the name of Mr. H. A. Moore, as a worthy successor to Mr. Crowe. Mr. Moore was the Liberal-Conservative candidate at last local election, and is entitled to consideration from the party. He is highly esteemed, having held the position of Reeve of Dummer. His native township, for several years, and has also sat in the County Council as representative of the Dummer, Dodro and Lakefield district. If Mr. Moore could be induced to accept the position, it would be a popular appointment not only to the people of Dummer, but throughout the entire license district.

COUNCIL IN COMMITTEE

Discuss the Fire Hall Enlargement—Peddlar's Tax not Yet to be Increased

At a meeting of the Council, as a Committee of the Whole, held on Friday night, the chief subject for discussion was the enlargement of the fire hall. As this is a subject of the most vital importance, not only to those desiring a lower rate on fire insurance, but to every man, woman and child, who might lose life or property by fire, the matter was pretty thoroughly discussed. The Fire, Water and Light Committee and Chief Rutherford have been given charge of this question and a report will be presented to the Council at an early date dealing with it in detail and making recommendations with regard to such work as may be deemed adequate under the circumstances.

A number of merchants interested in the fruit business presented a petition to the Committee, asking that more stringent laws be put in force to abate the unfair competition by peddlers. The Committee will recommend to the Council that fees be fixed at $30 for foot pedlars, $40 for push-cart men and $60 for horse and waggon outfit. The fruit men state that the license formerly was $5 and $10 or $20 and $30 with rebates of $15 and $20 in favor of local men.

On the recommendation of Mr. W. H. Hill, one of the Water Commissioners, the Committee rescinded their former action, and agreed to include in the application to the Ontario Legislature, a section asking that the Commissioners be allowed to create a reserve up to $50,000, by retaining the entire surplus each year.

Fine Team of Percherons

Peterborough which has always been noted for the fine strain of its livery horses is richer by the addition of one of the finest spans of heavy French Percherons in Ontario. Messrs. McCollum Bros., the Water street liverymen, have purchased in the neighborhood of Orillia, and brought here a splendidly matched grey team of this well-known strain. Whilst the combined weight of the two greys is 2,750 pounds, there is nothing to suggest heavy draught beasts about the team; their immense breadth of shoulder and chest is on general survey, so well proportioned with the well shaped legs that they are finely adapted for hack or coach use. Over two hundred people, including horse buyers and fanciers, were up at the barns on Water street on Saturday, to see the team, and the general opinion was that they are hard to beat. If Messrs. McCollum do not sell them, the team will drag many a bride and pleasure party during the coming summer. On Saturday the owners were made several enticing bids for the team, but the price at which they value the horses was not reached as yet.

A Chance to Procure Help

Staff Captain Patterson, of the Salvation Army immigration department, Toronto, who is making a tour in the interests of immigration work, called at the office of The Times last week. The Salvation Army is bringing out a large number of desirable immigrants this spring from England, Ireland and Scotland, comprising mechanics and farm laborers, and composed of married and single men. A goodly number of these come from the agricultural districts in the old country and should make good farm hands. The reason the Salvation Army is bringing these people out is owing to the great distress and poverty in the old land at the present time, and the army is anxious to place them with manufacturers and farmers. Those desiring good help this incoming spring cannot do better than apply at The Times for particulars and application forms, which will be sent promptly to Commissioner Coombs of the Salvation Army, Toronto. The immigrants will be sent direct to the applicants' address free of charge. In filling out the forms write in the date when the help is wanted, so that they can be sent out as near the right time as possible.

$500 REWARD, $500

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address, F. J. CHENEY & Co., Toledo, O.

Sold by Druggists, 75c.

Hall's Family Pills are the best.

The Stanley Cup

The Stanley Cup stays with Ottawa. The team of that city administering defeat to the challengers, the Rat Portage team twice in succession. Saturday's score was 5—4.

Thin-Blooded, Tired Nervous, Unhappy

I Was Sick, Broken Down, No Strength, Couldn't Sleep, No Appetite

FERROZONE

Gave Me Energy, Force, Vim, Comfort Made Me Well.

Because Ferrozone gives instant effect and steadily builds up new flesh it is used by thousands in poor health. No other tonic in the world is like Ferrozone. No other medicine accomplishes such marvelous results.

Its wonderful merit in building up and strengthening is acknowledged by every physician.

It makes you feel better at once like Mrs. Chaires Benny, of Cloyne, Ont.

HER STATEMENT:

"I was sick.

"I was broken down, had no strength, couldn't eat, I was sleepless.

"My nerves were irritable. I was thin-blooded and continually unhappy.

"I tried Ferrozone.

"It gave me new energy, force, vim. It brought me comfort, strength —it made me well."

To get new vital energy, renewed youth, use Ferrozone. It makes the blood rich and red, fortifies the system with reserve strength, puts new life into all that use it. Greatest tonic and rebuilder known. 50c. per box or six boxes for $2.50, at all medicine dealers, or Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $2 per year, strictly in advance.

SEPARATE SCHOOLS NOT GUARANTEED

It is contended that people were induced to settle in the Canadian West on the strength of representations that Separate Schools were established there; and that faith will be broken with these settlers unless Separate Schools are provided for and made fixtures in the constitution of the new Provinces. In view of this contention, The News obtained from the proper department at Ottawa samples of the immigration literature, endeavoring to select those publications which best represented the policy of the Department, and have proved most attractive to newcomers. In this literature we have been unable to find any reference to a constitutional or other guarantee of Separate Schools.

The absence of such references is all the more significant, because there is frequent mention of the general facilities for education. In a folder entitled "Western Canada," it is stated that "the Public School system is established all through the country." The "Geography of the Dominion of Canada," an excellent book, has some educational information under the heading of "Free Schools." It is pointed out that in Canada every child may go to an elementary school free of charge. "Every Province and settled Territory provides generously for schools." The Western system is described, and the number of schools in given, but there is no reference to Separate Schools. The publication entitled "Canada" contains a cartoon in which the American settler points to the schoolhouse and says that "Everything looks natural "and homelike even to the little red "schoolhouse that dots the prairie "every few miles." On the opposite side we read: "Educationists as-"sert that the school system of Man-"itoba and the North-West Terri-"tories is equal if not superior to "that of any other country. Schools "with competent teachers are estab-"lished as fast as the settlement "warrants, etc." There is no reference to Separate Schools, and it is significant that no distinction is made between the system in the Territories and in Manitoba, where Separate Schools have been abolished since 1905. The most remarkable passage is contained in a very clever and attractive pamphlet entitled "Farms and Farmers in Western Canada," containing colored illustrations of farms, with facsimiles of letters from the owners:

"Public Schools and Educational "Facilities.—The school system of "Canada is claimed by educationists "to be the equal, if not the superior, "of any on the continent. Speaking "of Western Canada, the rural "schools are about three miles apart "in the settled districts. The school "system is absolutely free. There is "no taxation for attendance, and ten "children in a district are sufficient "to permit of the formation of a "school district, while the average "attendance of six will entitle the "school to the annual grant by the "Government of a considerable sum. "All expenses, teachers' salaries in-"cluded, are paid by this grant and "a general taxation of the land with-"in the district, whether occupied "or owned by parents or those hav-"ing no children. This assures the "advantages of a primary education "for every child. The teachers all "hold certificates. In the graded "schools a still higher education is "given, and in the cities and towns "High Schools are maintained where "students are fitted for the several "colleges at Winnipeg and other "cities. One-eighteenth part of the "whole of Western Canada, that is, "two sections in every township, is "set aside as a school grant for the "maintaining of schools. This will "in a short time provide a very "large school fund, which will as-"sure the maintenance of an adequate "and advanced school system. The "schools are non-sectarian and are "national in character. In connec-"tion with the educational system, "the Government maintains at vari-"ous points throughout the West, ex-"perimental farms, which are re-"garded as among the finest on the "continent."

We have said that the literature contains no reference to a guarantee of Separate Schools, but the passage quoted goes further. It declares that the schools are "non-sectarian and national in character." It is held out as an inducement to settlers that the schools are under State not under Church control. It is probable that a statement that the schools are under Church control would drive away a hundred settlers where it would attract one.

TO CANADIAN INVESTORS

Thomas Patterson & Co. Have a Fine Copper Proposition

Fifty dollars invested in Granite Mountain Mining Company's stock paid the purchaser $34,500, besides several thousand dollars in dividends. One hundred dollars invested in Bonsen and Montana Mining stock paid the purchaser $44,000, besides several thousand dollars in dividends. A few dollars invested in shares of the Butte Copper Mining & Smelting Company stock, will not only insure you big returns in dividends, but a handsome profit in an increased value of the stock. Our mine is not a prospect but a copper mine which has produced $160,000 in profits in the last three years.

For the purpose of buying adjoining ground we have placed on the market 50,000 shares of our treasury stock. This stock is fully paid and non-assessable. Par value $1.00 per share. We will sell any part or all of this lot at 60 cents a share; no certificate issued for less than 100 shares. Send us your order for what stock you want and we will reserve it for you, pending your investigation of our company; and when you have received our prospectus and satisfied yourself that the investment is a good one, you can send us the money and we will issue the stock, or have the stock sent through any bank you may designate. Patterson & Co., Fiscal Agents, Peterborough, Ontario.

THE WAR IN THE EAST

The Extent of the Disaster Not Fully Known Yet at St. Petersburg

St. Petersburg, March 11.—The extent of disaster to General Kuropatkin's army is as yet unknown here, but the most sinister reports receive credence, and the public believes that Field Marshal Oyama has succeeded in closing the iron ring around at least a large portion of the army. Communication with Mukden is apparently cut, as no word has arrived dated later than yesterday at five in the afternoon when the situation of General Bilderling, who commanded the rear guards and thousands who were fighting off the Japanese assaults almost at the walls of the city west and north of Mukden, was desperate.

ONLY A MIRACLE.

Even from the east General Kuroki pushed through until Fu Pass, less than eight miles east, where the Hun heads sharply to the northward, was under the Japanese guns. The opening in the net was then only twelve miles wide and nothing but a miracle in the opinion of many experts could then have saved the situation.

HEAD THEM OFF.

To make matters worse General Nogi's left, west of the railroad, and General Kamamura's army on the east, were reported by forced marching northward, to be ready to throw themselves across the Russian line of retreat. All accounts agree that the battle yesterday must have been fought under dreadful conditions. A dust storm of hurricane violence was blowing, concealing friend and foe, while through the opaque yellow veil the streams of wounded and camp followers plodded northward.

GRIEF AT HOME.

The War Office, this morning had little consolation to offer to the pitiful inquiries for news. The papers are filled with long lists of those killed in the earlier days of the fighting and the churches are crowded with wives, mothers and sisters, praying that their loved ones be spared. At least all classes seem to have joined in the common grief.

All hope of Kuropatkin waiting for an opportune moment to strike and convert defeat into victory has been abandoned even by the military critics and the papers in a dolorous strain chronicle the last and worse reverse to the Russian arms.

A WONDERFUL FOE.

The only consolation the papers find is that the Russian troops have been conquered by a wonderful foe, declaring there is something uncanny about the desperate expedient which the Japanese successfully employed at Diushantun, when, during the storm, the Japanese lines actually faced about, apparently firing into their own reserves, deceiving the Russians and backing into the Russian wire entanglements before the ruse was discovered. History, military men say does not parallel such desperate fanatical valor.

A BISHOP ON "BRIDGE."

The Anglican Bishop of Quebec Warns Society People Against "Bridge" in Lent (From our School)

Quebec, March 13. — Bridge and euchre playing is reported to have gained quite an ascendency in certain circles of Quebec society, according to an announcement made by his Lordship Bishop Dunn from the pulpit of St. Matthew's Church in the course of an Ash Wednesday sermon. The Bishop was preaching upon the duty of self-sacrifice during Lent, and urged that even innocent pleasure might well be suspended during the solemn season, such as the assembling of pleasure parties, which were often in themselves, at other seasons of the year, not only harmless but desireable enjoyments. Though, continued the Bishop, if what he had heard of some Quebec people who played bridge and euchre was true, he feared that they were guilty of unpardonable waste of time by giving up not only evening after evening, but also afternoons and even mornings to the games. The reference made quite a sensation.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

2) If the father (or mother, if the father is deceased), or any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

(4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same town, township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses [2], [3] or [4] must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 40 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the North-west Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Land Agents in Manitoba or the North-west Territories.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

A Complete Explanation..

Of why I am offering 150,000 shares of Boston and Texas Corporation Stock at 50 cents a share is contained in a very few words. I am and have been associated with the management of this Corporation ever since its organization in December, 1903. I am a Director in the Corporation, and have been from the start. A recent meeting of the Board of Directors determined that additional funds were needed for development if the Corporation was to anticipate the completion of the two railroads about to be built in its immediate vicinity. A great deal of further development is necessary if the Corporation is to take a natural advantage of the soon-to-be conditions. Believing that Canadian interests would be better served by larger representation, I solicited a short-term option at the above named low price, for the express purpose of giving Montreal and neighboring investors an opportunity to secure profitable holdings in this Corporation on practically the same terms as those enjoyed by the original shareholders. An important fact, and one to remember, is that the officers of this Corporation hold no promotion stock, every share in their possession being paid for in cash. The price paid was within a few cents of my present offer. If you want to take advantage of this offer write me at once for particulars, or send money by Express, P. O. Order, Draft or Check on any Bank. References: John T. Ross, Vice-President, Quebec Bank, Quebec; John C. Thomson, retired merchant of Quebec, and any banking or commercial institution in Montreal or Quebec.

JOHN THOMSON

Address in care of

DOBELL, BECKETT & CO., QUEBEC.

AN OPEN LETTER FROM MR. W. J. GAGE.

Toronto, Ont., Dec. 1, 1904.

Dear Friend,

We again come to you with our story of trouble, but a story of surprising and encouraging results.

No apology is necessary; the great work of the National Sanitarium Association, carried on at the Muskoka Cottage Sanatorium and Free Hospital for Consumptives, is now well known.

The 1,800 patients cared for in these two Homes plead for your help.

The large number of lives saved, of those who a few years ago were supposed to be "under sentence of death," gives a right to your sympathy.

In helping to rescue a number great enough to constitute a large prosperous village, the giving back to home and friends a regiment of workers, surely will arouse interest in this work of mercy.

Each patient cured for in our Consumptive Homes, removes a source of danger, so that the life of every citizen in Canada is more secure.

The marvellous decrease of 40 per cent. in three years in the death-rate in Ontario from consumption proves that the fight against this dread disease is no losing one.

The Muskoka Free Hospital for Consumptives, for which this appeal is made, without any endowment keeps an open door to all who are poor and sick, as long as a vacant bed remains.

Nearly 400 patients have been cared for in this Hospital since it was opened less than three years ago. This has only been possible because of the continuous stream of gifts that have come to us from every part of Canada.

Remember, too, these were patients that other hospitals as a rule refuse.

Almost every trade and profession has sent its representative, and of every age—from the young schoolboy of 12 to the widowed mother of 68.

$80,000 was received last year by the Trustees of the Free Hospital for Consumptives through contributions and bequests.

$80,000 should be given this year if the Board is to provide for the increased accommodation and maintenance of those pleading for admission.

Where will your money do so much good in bringing health to the sick and protecting the lives of those in your home?

Why should consumption not be stamped out if the needful money and help be forthcoming?

The official Report of the Secretary of the Provincial Board of Health tells a surprising story—a story of a winning fight, showing that from 1897 up to 1900 there was a steady increase in the death-rate from Tuberculosis.

From 1900 there has been a large decrease each year, reducing the death-rate from 3,484 to 2,072 in three years, or over 40 per cent. This is all the more remarkable in view of the increase in population.

You have the joy of knowing that your dollar has helped in this merciful work.

The pitiful part of it all is in knowing how many more lives could have been saved if the needful money had been forthcoming to provide additional beds.

Will you not join in this great life-saving work?

Your dollar will bring gladness.

Fifty dollars will keep a sick one for two months; may save a life. Three hundred dollars will endow a bed for a year.

Yours sincerely

W. J. Gage

Trustees of the Free Hospital for Consumptives through contributions and bequests.

NERVOUS DEBILITY

OUR NEW METHOD TREATMENT will cure you, and make a man of you. Under its influence the brain becomes active, the blood purified so that all pimples, blotches and ulcers heal up; the nerves become strong as steel, so that nervousness, bashfulness and despondency disappear; the eyes become bright, the face full and clear, energy returns to the body, and the moral, physical and sexual systems are invigorated; all drains cease—no more vital waste from the system. The various organs become natural and manly. You feel yourself a man and know marriage cannot be a failure. We invite all the afflicted to consult us confidentially and free of charge. Don't let quacks and fakirs rob you of your hard-earned dollars. WE WILL CURE YOU OR NO PAY.

☞NO NAMES USED WITHOUT WRITTEN CONSENT.

THREATENED WITH PARALYSIS.

Peter E. Summers, of Kalamazoo, Mich., relates his experience:

"I was troubled with Nervous Debility for many years. I lay it to indiscretion and excesses in early youth. I became very despondent and didn't care whether I worked or not. I imagined everybody who looked at me, guessed my secret. Imaginative dreams at night weakened me—my back ached, had pains in the back of my head, hands and feet were cold, tired in the morning, poor appetite, fingers were shaky, eyes blurred, hair loose, memory poor, etc. Numbness in the fingers set in and the doctor told me [illegible]. I took all kinds of [illegible] and tried many first-class [illegible] without relief. Took three months, went to Mt. Clemens for BEFORE TREATMENT baths, but received little benefit. While AFTER TREATMENT at Mt. Clemens I was induced to consult Drs. Kennedy & Kergan, though I had lost all faith in doctors. Like a drowning man I commenced the New Method Treatment and it saved my life. The improvement was like magic—I could feel the vigor going through my nerves. I was cured mentally, physically and sexually. I have sent them many patients and will continue to do so."

CURES GUARANTEED OR NO PAY.

We treat and cure VARICOCELE, STRICTURE, NERVOUS DEBILITY, BLOOD DISEASES, URINARY COMPLAINTS, KIDNEY AND BLADDER DISEASES.

CONSULTATION FREE. BOOKS FREE. If unable to call write for a Question Blank for Home Treatment.

DRS. KENNEDY & KERGAN

148 SHELBY STREET, DETROIT, MICH.

TO CANADIAN INVESTORS

Oregon-Idaho Gold Mining Co.

INCORPORATED

Capital $5,000,000. Shares $1.00 Each, Par Value, Fully Paid Up and Non-Assessable.

We have just secured the agency for the above splendid proposition, of which we have been allotted a block of Treasury stock. We can confidently recommend this as a safe and, we believe, exceedingly profitable investment. Every dollar of stock is guaranteed by twenty year, full paid, gold bond, delivered to purchaser of stock, from an Investment Company that has no interest whatever in the company, but who are disposing of the debentured bonds to the public, and, under their charter, they are compelled to deposit securities to an equal amount, to the State Treasurer under which they received their charter, there by doubly securing the payment of their gold bonds.

The Company's property, which is now past the project stage, is known to be marvellously rich in gold.

Following is the opinion of G. W. Miller, Mining Engineer, formerly with the Boston and Montana Consolidated Copper and Silver Mining Company, U. S.; Simmer and Jack Mining Co., Limited, Elandsfountain South Africa:—

"You have here a most valuable property and one of the strongest fissure veins that can be found in any part of the world.

"With the present development of the Monument Mine, I estimate that 100 tons per day can be extracted, which will mill from $12.00 to $20.00 per ton. The total cost of mining the ore, delivering and milling, I place at about $4.00 per ton. With increased milling capacity, it is safe to say that the mine can furnish 100 tons of $15.00 ore, which would yield a clear profit of $11.00 per ton, or $1,100 00 per day (equal to $400,000 00 per annum). Estimated total value of ore in sight, $2,500,000."

During the past summer, a party of the Company Directors visited the property, taking with them, Amos P. Brown, Ph.D., Mining Engineer and Professor of Geology and Mineralogy at the University of Pennsylvania. Dr. Brown writes as follows:—

"In regards to the amount of ore available at the mines at Stuetzer, I saw on the dumps several thousand tons, probably 6000 tons would be an under-estimate.

"As to the size of the ore body itself, from what I saw of the geological structure, I think that there is every indication that it will be found to extend underground as far as the out-croppings on the south side of the gulch. This would mean an ore body large enough to keep the present mill running for many years to come.

A write up of the proposition will appear in these columns in a few days. Watch for it. In the meantime we will be pleased to furnish all information to investors.

THOS. PATTERSON & CO.,

FISCAL AGENTS. PETERBOROUGH

25000 SHARES

The above number of shares of stock that is worth to-day on the open market $2,500, will be given to any person that can find in America another mining company that has spent about $600,000 on its properties, that has ten smelter, with sampling mill, dust chambers, hot blast stove, electric power plant, steam power plant, 1000 ton capacity ore bins, 600 ton capacity coke bins, railroad over one mile long, engines on track, offices of company with fireproof vaults, boarding houses and dwelling houses. All of the above will be completed by the time you read this ad. Ore in sight to last from 2 to 5 years, averaging $30 per ton, $24 copper, $6 gold and silver, 1800 foot working tunnel, shaft with three levels, ore handled by gravity dropping from one level to another through winzes into our own railroad cars, which when them be hauled to the smelter, that will sell or has ever sold their stock

10 CENTS PER SHARE - PAR VALUE $1.00

This is what I am doing with the stock of the

Great Western Gold Company, OF REDDING, CALIFORNIA

I will give the above amount, 25,000 shares to any person that can find its equal in America at this price. We expect to be running in full blast inside of 30 days, and paying dividends on $1.00 stock by the 1st of June.

If you desire a first class, honest, legitimate mining investment, send me your cheque for all you can buy immediately! As this will likely be advanced to $1 00 per share inside of 30 or 60 days. Do not write to me about this proposition unless you mean business as my time is too valuable. Your money is what I want, for I believe positively I can return it to you at the rate of 100 per cent. annually on your investment after dividends are once commenced. If you really desire other information looking to an investment, write me immediately, as stock at this price will soon be gone.

PREPARE PLANS FOR CARVING UP RUSSIA

Unless Balkan Troubles Speedily End all Europe Will be at War

TO MAKE TWO DISTRICTS

Ominous Outlook in the Balkan States—A General War Probable

St. Petersburg, March 10.—Information is obtained that Russia and Austria are endeavoring to reach an agreement which will permit Russia to withdraw from the war without loss of prestige and settle the troubles in the Balkans, which will be almost the final step in the dismemberment of Turkey.

Diplomats conversant with the situation declare that if the trouble in the Balkans is not settled a European war is near.

The proposition will be for Austria and Russia to divide European Turkey, Macedonia, Adrianople, Old Servia and Albania into two spheres, Austria having police supervision of the western area and Russia of the eastern. The gendarmerie will be organized under Russian officers. Turkey already been forced to agree in the principal plans.

The allies propose to collect the taxes of Turkey and pay the reorganized gendarmerie, which will cost $3,000,000 a year, and be practically a part of the Russian and Austrian armies. Turkey is protesting strenuously against this part of the scheme. The sublime Porte's power will be practically done.

Germany, France and Great Britain are said to have consented to the arrangement, recognizing the necessity of representing the Turk and settling the incessant warfare in the Balkans, realizing that Russia and Austria, being near, are intimately interested and the proper nations to conduct the reformation. The diplomats believe Turkey's atrocities will soon be ended.

If the election of the workmen's delegates to Schidlousky is not completed within the next three days the commission will be annulled.

STRIKE ON SIBERIAN LINE

Reports Indicate That the Men Have Quit Work

London, March 10.—The Telegraph's St. Petersburg correspondent, while admitting that it is impossible to verify the reports that the men employed on the Trans-Siberian Railway are on strike, indicates the probability of the reports being true. He says that almost superhuman efforts of these employes last year enormously increased the carrying capacity of the line, and Prince Khilkoff, Minister of Railways, promised them extra pay, but the local authorities did not fulfill the Minister's promise. Even their wages for the 1904 mobilization have not yet been paid to them.

The correspondent adds that the Archbishop of St. Petersburg is advising the Government to take from the monasteries the money bestowed to procure for the donors' souls forever. The monks are entitled to 5.8 per cent. of this money. The Archbishop suggests that the Government pay interest on the sum taken, or even expropriate the capital together.

VILLAGES TAKEN BY BAYONET

Desperate Hand-to-Hand Fights in Mon Koth Was Like a Fortress

Mukden, March 10.—The chief objects of the bloody combat west of Mukden yesterday were the Villages of Ushuntun, seven miles west of Mukden station, and Tatchekiao, where the results practically were a draw, but a further turning movement has developed. The Japanese are extending their forces still further toward Tie Pass.

At dawn yesterday after a night broken by irregular musketry fire and cannonading, the fight began at Ushuntun and Tatchekiao, both of which are large villages surrounded by high clay ramparts converting them into fortifications impervous to rifle bullets. Each house had to be taken singly by hand-to-hand combats. The Russians held Ushuntun for a night, but were forced to withdraw at dawn the next day by a fearful fire of shrapnel and Shimose shells. Reinforced by riflemen and reserves, the Russians again advanced to the attack, and recaptured the village.

Opposite Tatchekiao the fighting was of an equally desperate nature. The Russians established themselves in the Villages of Taunhuanchs and Liudyaofan, but night fell with Tatchekiao still in the hands of the Japanese.

Towards evening General Kuropatkin rode out of Mukden in an automobile and examined personally the positions of the second army. At the close of the fighting this evening the infantry on both sides were short of ammunition, and the night was devoted to replenishing supplies.

ALEXANDER MUNROE AND GEO. H. MUNROE

CALL ATTENTION TO

The Marconi Wireless Telegraph Co., of Canada

Capital Stock, $5,000,000. Par Value of Shares, $5.00 Each. Full Paid, Non-Assessable

EVERY STOCKHOLDER ON AN EQUAL BASIS
NO BONDS ═══ NO PREFERRED STOCK

Shares in the above named Company are offered for subscription by Munroe & Munroe at $5 each, in blocks of from one share to 200 shares for a limited period only. Every indication points to the early and rapid advance in value of these shares, and those who are desirous of making a profitable investment of their surplus should lose no time in forwarding their application for as many shares as they can conveniently purchase at this time. No enterprise of modern times offers anything like so good an opportunity for rapid and substantial accretion as the Marconi investment. We demonstrate this to the satisfaction of all investigators in our book entitled "Financial Aspect of the Marconi Investment," which we will send free to all who request it. Facts and figures most convincing are therein cited to prove that the Marconi Wireless Telegraph System will eventually dominate the industry of rapid communication between all nations of the earth. The Canadian Company is one of the most important integers in the world-wide organization which has been planned to control the world's means of rapid interchange of intelligence. You should study the Marconi System thoroughly, and particularly the situation of the Canadian Company with reference to this most important world organization.

THE MARCONI WIRELESS TELEGRAPH CO. OF CANADA

Is the owner by purchase of all the patents of WILLIAM MARCONI and his associates as applied to Wireless Telegraphy for the Dominion of Canada. It is so intimately associated with Marconi's Wireless Telegraph Company, Ltd, of England, the Marconi Wireless Telegraph Company, of America, that it is an essential factor in the progress and development of the System. It is the owner of a high power wireless telegraph station located at Glace Bay, Nova Scotia, shortly to be opened by Mr. Marconi, for the transmission of telegraphic messages between England and the Continent of America. It has equipped nine wireless telegraph stations on the Atlantic Coast and St. Lawrence River within the Dominion, and has equipped three ships of the Canadian Government and five ships of the Allan Line. MESSAGES DESTINED FOR PASSENGERS ON BOARD THE ALLAN LINE STEAMSHIPS OR ANY OF THE SEVENTY-FIVE (75) TRANSATLANTIC SHIPS, CARRYING THE MARCONI EQUIPMENT MAY BE DESPATCHED FROM SHORE, FROM ANY OF THE 30,000 OFFICES OF THE WESTERN UNION OR POSTAL TELEGRAPH COMPANIES THROUGHOUT THE UNITED STATES AND CANADA. Vessels are in constant communication with land throughout the voyage. The business established through this medium is a very large and profitable one, and is constantly growing. The Canadian Company has the support and backing of the Dominion Government which has granted large subsidies for the installation and maintenance of the System, as an aid to navigation and in reaching distant and inaccessible points at the outposts of civilization. The day is rapidly approaching when all other systems of telegraphic communications must give way before the advantages of wireless telegraphy, and those who join in the enterprise at this early stage of its existence will reap the large reward which is due to the pioneer in every enterprise. As an investment of $100 in the Bell Telephone Company in 1878 did, in the twenty-five succeeding years, net the investor a profit of over $200,000, so will the investment of a few hundred dollars in the Marconi Wireless Telegraph Company of Canada net the investor thousands of dollars of profit.

Our faith in the destiny of the Marconi Wireless Telegraph Company of Canada is boundless. It will open to Canada its first means of direct communication with the mother country, and will place at the disposal of press and public alike, a medium whereby news and commercial messages may be transmitted direct. It is therefore, to the general as well as to the individual advantage of Canadians to identify themselves with the Company as stockholders.

Further information will be given on application to any of our offices named below. However, in order to be certain that you will procure your full allotment of the stock at the present price, we would advise an immediate remittance for the number of shares you desire to purchase. Address all communications and make all checks payable to

AGAINST CHRISTIAN SCIENCE

Ohio Supreme Court Says Healers Cannot Practice Without License

Columbus, Ohio, March 11.—A decision of the Ohio Supreme Court holds that Christian Science healers cannot practice without a State license, but does not affect those who practice the doctrine purely as a religious belief. The court says:

"The giving of Christian Science treatment for a fee, for the cure of disease, is practicing medicine within the meaning of the statutes regulating such practice in this State.

"The statute making it a misdemeanor to give such treatment for a fee is not interference with the rights of conscience and of worship, conserved by Section 7 of the bill of rights, and is not on that ground unconstitutional.

"Legislation prohibiting any one from treating a disease for a fee, excepting such persons as have prescribed qualifications, is a valid exercise of the police power of the State and its constitutional."

RUSSIAN SPIES PAY PENALTY

Beheaded by Chinese Bandits Under Jap Flag—Took Death Coolly

New Chwang, March 10.—With Japanese flag flying, a band of Chinese bandits to-day beheaded two young Russians who were alleged to be spies at Sinmiutin. The first one executed was evidently an officer, but he was wearing a Chinese overcoat. He knelt without a murmur while his companion watched the death stroke. The second captive was clothed in Chinese clothing throughout. He whimpered for a moment, but regained his nerve and struggled fiercely. He was thrown and killed while long trumpets fantared.

The chief of the bandits was a mild mannered old man, wearing a Japanese sword. He watched the executions unmoved. "They are spies," he said, "and we should kill them. Besides, it is difficult to transport them."

Settlers Low Rates West

via the Chicago and North Western Railway every day from March 1st to May 15th, 1905, settlers one way second class tickets at very low rates from Chicago to points in Utah, Montana, Nevada, Idaho, Oregon, Washington, California, also to Victoria, Vancouver, New Westminster, Rossland, and other points in the Kootenay District. Correspondingly low rates from all points in Canada. Write for full particulars and folders to B. H. Bennett, General Agent, 2 East King street, Toronto.

was patrolling the Liao Valley, and was cut off March 2 by the rapid advance of the Japanese, succeeded today in rejoining the Russian army without sustaining any losses and taking a number of prisoners.

An attack is expected to-morrow on the Russian center.

ALL GOOD THINGS

must win upon their merits. The International Dictionary has won a greater distinction upon its merits and is in more general use than any other work of its kind in the English language.

A. H. Sayce, LL.D., D.D., of Oxford University, England, has recently said of it: It is indeed a marvelous work; it is difficult to conceive of a dictionary more exhaustive and complete. Everything is in it—not only what we might expect to find in such a work, but also what few of us would ever have thought of looking for.

A supplement to the new edition has brought it fully up to date. I have been looking through the latter with a feeling of astonishment at its completeness, and the amount of labor that has been put into it.

Due from U.S. Treasury, other than 5 per cent. redemption fund	1,250 00		
	$759,000 35		$759,000 35

Pay particular attention to the items printed in bold type. They tell you an interesting story. They show a capitalization of $75,000, they show that over four times the amount of the authorized capital of the bank or $300,000 has been and is now invested in stocks.

PONDER OVER THIS STATEMENT If you are a bank depositor doesn't it make you think? It should! Who reaps the benefit of these investments of YOUR MONEY? Do you get it? Not if the bank knows itself. You get your little 3 or 3 1-2 per cent and the bank gets the rest. Why cannot you

INVEST YOUR OWN MONEY

Your opportunities for ascertaining the value of your investments are just as good as that of your banker. Why not you not utilize these facilities for your own profit? You owe it to yourself and your family and to the world to assert your own INDEPENDENCE. If you have made bad investments in the past, DON'T BE BILLY enough to let the fact break our ambition to become your own business manager. Profit by your mistakes and GET WISE.

If you do ire information regarding your investments write to us. If you desire to dispose of your investment write to us. If you desire a new investment that is ABSOLUTELY SAFE and which will return large PERMANENT DIVIDENDS to you instead of your banker,

Write to us at Once. Keep Your Capital in Action.

That is the only way to make MONEY GROW. We will advise you and we will not charge an exorbitant fee for so doing. WE CAN HELP YOU AND WE WILL.

Lung, Throat and Catarrhal Troubles

MARVELLOUS DISCOVERY THAT HAS DELIGHTED ALL CANADA BY ITS PROMPT CURES

The method that has proved successful through its enormous advantages of being pleasant and free from the danger of creating the drug habit employs dry air as the carrying agent.

By this method every part of the breathing apparatus is bathed by a medicated air. Germs which excite this trouble are immediately destroyed. Sore and tender spots are healed and the congested surfaces restored to normal condition.

This method of treatment is known as Catarrhozone, and has obtained a footing never attained by any other remedy for the many diseases affecting the respiratory tract.

Catarrhozone is fragrant, healing, balsamic, pleasant as the air of the pine woods and more active as a healing agent than anything hitherto discovered. It contains neither cocaine nor any of those irritating substances which really increase the congestion and add to the difficulty, instead of curing as Catarrhozone so quickly does.

MRS. BINY BROWN, of Teneaqua, N.S., had lung trouble and catarrh. She took cough mixtures but they made her sick. Then she used an atomiser, but after resorting without benefit to poultices and numerous other remedies, she tried Catarrhozone. "I used Catarrhozone Inhaler," she writes, "five minutes every hour, and soon recognized it was going to cure. I could feel the soothing medicated air spreading through the air passages of the throat, and it touched the sore spots in the lungs that other remedies failed to reach. Catarrhozone seemed to go just where it was needed most, and soon put a stop to my cough. It restored me to perfect health, and I am convinced that no cough, cold or catarrh can exist where Catarrhozone is used."

The complete Catarrhozone outfit contains a large bottle of inhalant, sufficient to keep recharging the inhaler for two months. It costs $1.00 and is guaranteed to cure; sample size 25c. Sold by all druggists or sent direct to your home by mail if "Free Is" forwarded to N. C. Polson & Co., Kingston, Ont., or Hartford, Conn., U.S.A.

CAN'T GET STOCK'S BREAD AT STORES.

The undersigned has ceased supplying stores with his bread. Any person wishing Stock's Bread kindly send us a post card or call at our store, corner Sherbrooke and Stewart streets.

W. STOCK.

Their Post Frozen

The surveyors engaged on the Trent Valley canal north of Cobourg, have had a very trying time during the past few weeks owing to the extreme cold and immense depth of snow. Several of the men have been severely frost bitten about the face and toes, one particularly having his feet badly frozen. He went to Cobourg, thence to his home.

The Examiner's New Addition

The Times would convey congratulations to its evening contemporary, "The Evening Examiner," on their enterprise in installing the new Cox Duplex Web Perfecting Press. We are pleased to see a Peterborough industry so successfully and progressively managed. This journal will, as soon as necessary arrangements are fully completed, move into the premises on Hunter street, it has recently purchased, when a very similar press will be added to our already up to date plant.

larger this year than ever

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 90 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have cash prospects.

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our

Funeral of the Late J. K. Bettis

The late Mr. J. K. Bettis for many years with Mr. Adam Hall, was buried in Hastings last Friday. He died in Waubaushene. Messrs. L. Dayman and L. Mitchell attended the funeral, representing Adam Hall's shop, sent down by the proprietor, and on behalf of Sheet Metal Workers' Union, No. 191 placed a beautiful anchor of flowers upon the coffin. Mr. Bettis leaves a wife and one son to mourn his loss.

Peterborough Talent Appreciated

The Fenelon Falls Gazette says:—Mr. J. A. Halpany, Peterborough's favorite singer and entertainer, who was in town for several days lately tuning pianos and organs, at which work he is an expert, assisted in St. James' church choir on Sunday morning, the 26th ult., and during the offertory rendered in a very pleasing manner that beautiful sacred solo, "The Heavenly Choir." Mr. Halpany has undergone a thorough course of musical training, being a graduate in voice culture of the celebrated Mrs. W. J. Morrow, of Boston. He possesses an excellent bass voice of great range, and his singing on Sunday was highly appreciated by all who heard him.

Sad Death of Miss Middleton

Yesterday the last mortal remains of a highly esteemed young lady were laid to rest in the Little Lake Cemetery. Miss Louisa Middleton, daughter of Mr. James Middleton of 668 Water street, died at the early age of 21 on Friday night at her father's residence, after an illness of some ten months, the immediate cause being tuberculosis. The Rev. Dr. Crothers conducted the funeral service, and the many friends attending the interment showed evidently the deep seated grief they felt at the loss of a young friend. Mr. Middleton only moved from the township of Smith into Peterborough from the country about two years ago. Miss Middleton's mother died about a year and a half ago, and she leaves to mourn her loss, besides her father, four brothers and two sisters.

Up Committee Decline Advice

In conversation with members of the Board of Education this journal is informed that at the meeting Friday night of the Board of Education as a Committee of the Whole, the Special Building Committee of the proposed Collegiate Institute, was requested to make a report of the tenders received on the plans submitted, which tenders had been opened, as per stipulation of the advertisement. The above meeting had been specially called by resolution of the Board at the last regular meeting for this purpose, as well as discussing any modifications or alterations the Special Committee might propose with a view, if necessary of calling for new tenders. The Special Committee refused to submit any report, and expressed their intention of going ahead to ask for new tenders, claiming it was not in the interests of the Board that they should do otherwise.

Lieut. Col. Rogers Trip

Mr. John Carkery, will be the Acting Postmaster for the next two months, as Col. Rogers has obtained leave of absence from his department for that period. The duties of the Postmaster in Peterborough have lately become so complicated and onerous that Mr. Rogers has become a little run down, and required a rest; he has also been suffering from a slight attack of la grippe, so that a protracted rest among his children in British Columbia will do him good. Col. Rogers left on Saturday for Toronto, where he will spend a few days and then go straight through to Victoria, B.C. He will make a round of visits in that city, as his two sons, David and Herbert respectively, practise law and medicine in that city. He also has two daughters living there, Mesdames Barnard and Robertson. Mrs. Rogers has been in Victoria for some time, so that the Colonel will be quite at home there.

Saturday's Market

The farmers were in on Saturday in large numbers, so that there was a better attended market than the Saturday preceding. About the only commodity showing any marked difference in price was eggs, and they showed quite a drop in price. They were offered to-day in large quantities at 20c though some sold a little higher. Butter was also much in evidence, and sold at 24c. and 25c per lb. Very little poultry with the exception of chickens was seen. The usual prices for the latter were 65c. to 90c. A few turkeys were offered at $1.50 and some geese at $1.00 to $1.25. Honey was 10c. lb. Pork still remains at 8c and 9c, and beef at 5c to 6c. Potatoes were 75c and 65c bag and were quite plentiful. Some apples were offered at 50c bag. More hay than usual was seen the price being $8.00 per ton. Very little hardwood was offered. Tamarack sold for $4.25.

PROTECT YOUR SELF AGAINST GERMS

People With Weak Stomachs Most Liable to Catch Disease

When the stomach and digestive organs are weak, the food does not digest, and there is a sour, slimy, fermenting mass, making it an ideal spot for the disease germs to multiply. The only way to protect yourself against disease germs is to strengthen the stomach and digestive organs, and Mi-o-na is the only agent, so far as is known, that will accomplish this.

The ordinary medicine that is taken for indigestion and stomach troubles is advertised to act upon the food alone, and hence can give no more than temporary relief. Mi-o-na is a certain cure in all cases of stomach troubles, excepting cancer, because it enables the stomach and digestive organs to act in the way Nature intended they should. Drugs cannot digest the food; they simply decompose it.

If you suffer with distress after eating, pains in the head, chest, sides and back, belching of gases and undigested food, bad taste in the mouth, dizziness, or vertigo, heartburn, variable appetite, sick headaches, spots before the eyes, and have a general feeling of despondency, weakness, and debility you should at once strengthen the stomach and digestive system by the use of Mi-o-na. There is no liquid, no alcohol, no spoonful dose with Mi-o-na. Just one simple tablet out of a fifty cent box before eating, and your stomach will soon become so strong and healthy that you will be germ proof. Ask Wm. Medill to show you the guarantee under which he sells

Mrs. S. J. Griffen's Funeral To-day

When the noon C.P.R. train leaves for Norwood this morning, it will convey the mortal remains of a very old resident of this county. On Friday night, at 238 Dublin street, Eliza Ann, the wife of Mr. S. J. Griffen, passed away at the venerable age of 82. The late Mrs. Griffin has been ailing for some time and she gradually become weaker, passing peacefully away at six o'clock Friday night, death being caused by old age. The deceased lady had a great many warm friends here who will learn with deep regret of her demise. She and her husband were among the early settlers of Dummer township where they lived for many years prior to their removal to Peterborough. The funeral will take place this morning from the family residence to the C.P.R. station and the remains will be taken to Norwood, where interment will take place this afternoon.

Local Incidents

BY THE TIMES MAN ON THE STREET.

—The Y.M.C.A. held their third "Pop" on Saturday night. It was highly successful.

—To-night is Private View night at the Womans' Art Association, admission being only by invitation.

—Room for one or two ladies in private family with or without board. Use of piano. Apply at this office for address.

—The engineers engaged on the Trent Valley survey are within a few miles of Baltimore. Cobourg Larbor will not be reached until some time next month.

—Ennismore is to "Hello Central." The line, it is understood, will run to the Crone, and from the central office there will be radiated to various lines.

—Mrs. Alex. Morrow spoke at the Y.W.C.A. Gospel meeting yesterday afternoon. Her subject was "Good Gifts Unsought." Special music made the meeting a most interesting one.

—No. 1 Division A.O.H. received Holy Communion in a body at eight o'clock yesterday morning at St. Peters' Cathedral. The members assembled in the Convent hall.

—The Young Men's Guild of St. Paul's Church will meet to-morrow night when Mr. H. B. H. Kenner will give an address on "Rome, the city of the seven hills."

—The Men's Meeting at the Y.M.C.A. yesterday, was one of the best of the season. Rev. H. B. H. Ketchen, spoke on "A Crisis in Two Lives." The music included the Y.M.C.A. orchestra.

—The Rev. Mr. Langfeldt held a successful meeting Saturday night, at the Rectory of the German Conversation Club. The members showed marked improvement under his able tuition.

—The 57th Regt. Band are preparing special music for the second of their series of band concerts which will be given on Friday night, March 24th. This concert promises to surpass any yet given by the band.

—Havelock Village Council has passed a bread by-law which enacts that all bread must be made in two and four round loaves, or if made up into different weights, a label must be affixed stating the weight of each loaf.

—The united counties of Northumberland and Durham have affected a settlement with Mrs. Bessie Nadon, allowing her $800 for the death of her husband, George Nadon, who fell through the railings of a bridge at Campbellford. The widow has three young children to care for.

—The degree team of Otonabee Lodge No. 13, I.O.O.F. will go by special train to-morrow night to Millbrook where the work of the order will be exemplified and several degrees put on. It is expected a large number of Oddfellows will accompany the team.

When you want a life-like Portrait in Oil, Crayon, or Water Color, don't fail to come to H. Hudson's Studio, where the work and prices are always rights. Gifts in Pictures, Frames and Fancy Work. Lessons in Painting and Pyrographic Work. Studio, 134 Brock street, Peterborough.

—Dr. Field has operated, says the Cobourg Sentinel-Star, on Mr. Hoss Robertson, captain of the Cobourg junior hockey club, and removed two loose cartilages in his knee, caused by a fall on the ice, while playhockey in the early part of the winter. Robbie will be forced to give up hockey for the balance of the winter, and will be confined to his room for several weeks.

Personal and Social

Movements of the people in and out of town . . . .

—Mr. W. H. Moore was in Toronto last week.

—Mr. R. J. Kidd, Toronto, spent Sunday in town.

—Mrs. J. A. Frost, of Orillia, is in town, the guest of her son, Mr. G. E. Frost.

—Miss Margaret Hamilton is home from the Toronto University for the Easter vacation.

—Mrs. Duncan McGregor assisted the choir at both services in St. Andrew's church yesterday.

—Mr. F. A. Lount, manager of the Bank of Toronto, Creemore, Ont., was in town Sunday.

—Dr. Meacham, ex-M.P.P., Warsaw, spent a couple of days in Toronto last week on business.

—Mr. A. J. Mills of the firm of Mills & Sparrow, London, Eng., is in town staying with Mr. T. F. Matthews.

—Dr. J. A. Morgan returned Friday night from Walkerton, where he has been attending the funeral of his father.

—Mrs. Willmot G. Botsford is suffering from a severe attack of diphtheria at her home in Toronto. Her many friends will hope for a speedy recovery.

—R. P. Cruickshank, Plainville; G. A. Armstrong, Montreal; J. G. Langtel, Belleville; A. Prink, Buffalo; Mrs. J. E. Bearburg, Norwood, are guests at the Oriental.

—The Lakefield News says; Master Lee Cassidy of Peterborough, is spending a few days this week in the village, the guest of his cousin, Master Robert Quinte.

—Mr. Craig of the Canadian Corundum Co., was in town on Saturday, obtaining some new machinery for their new plant from the William

The Secret of Long Life and How to Overcome Waste.

To "Know thyself," is to take advantage of life's secrets and equip one's self with armor which will successfully resist the attack of disease in the battle of life. The old idea of fate or "kismet," and that a person always dies when his time comes, is now exploded. Every mechanism, whether made by God or man, has a definite amount of wear and its life can be lengthened or shortened according to the care that is given it. If accident or carelessness destroys the works of the watch or the human mechanism an end comes to its usefulness, but it has not actually "worn out." Man's system at times gets rusty like the wheels of the watch and only needs a little cleaning and oiling to put it in shape for life's battles.

An imitation of nature's method of restoring waste of tissue and impoverishment of the blood and nervous force is used when you take an alterative extract of native roots without the use of alcohol, like Dr. Pierce's Golden Medical Discovery. This vegetable medicine cleans the digestive functions and helps in the assimilation of food, or rather enables the organs to take from the food just the nutriment the blood requires.

Prof. J. E. Tourgay, of St. Peter Street, Quebec, writes: "I had been ill for some time with La Grippe and did not regain my strength. Without other advice Dr. Pierce's Golden Medical Discovery, I was able to be around again, and I found that a few bottles completely freed me from any of the effects of La Grippe. I now use a bottle of the Golden Medical Discovery on hand, and when I catch cold take a few doses which keeps me in perfect health. As a tonic up to last strength and vitality I do not believe your 'Discovery' has an equal."

Accept no substitute for "Golden Medical Discovery." There is nothing "just as good" for diseases of the stomach.

Dr. Pierce's Pleasant Pellets, the best laxative for old people. They cure constipation and biliousness.

—S. F. Barrows, Toronto; N. S. Knox, Orillia; Mr. and Mrs. G. Trottar, London; A. J. Bartlett, Chicago; H. E. Smith, Smith's Falls; C. Mills, Galt, are guests of the Snowden House.

—Mr. J. D. Allen, who Friday night gave his lecture on Russia, has promised to return at an early date, and lecture on "General Russian Business Methods." It goes without saying that Mr. Allen will have a large audience, as those hearing his last lecture were delighted.

—When Rev. J. C. Davidson was in Havelock last Friday he found that his new assistant, Rev. A. R. Tandy, had the books, papers and general church business of that village in excellent condition, and the villagers were very loath to part with the rev. gentleman's services. Well, Havelock's loss is Peterborough's gain.

FIVE BIG BARGAINS

IT PAYS TO PAY FOR THE BEST IN FURS . . .

ESPECIALLY so now, during our great Reduction-Alteration Sale During this month of March the order of the day is—FURS MUST "MARCH." The season is late. Work will commence shortly at the alterations in our store and factory. We must now clear stock out.

Buying direct from trappers and foreign raw fur collectors for spot cash prices, manufacturing these furs in our factory, every article carefully put together by expert furriers, and the direct supervision of the whole by two practical furriers who own this business, means to our patrons absolute protection as to quality and price that no other firm in Canada can surpass. All our Furs are not only guaranteed, but we have reduced their cost to you by saving all go-between profits with which most furs are burdened, and now during this sale.

You can get furs at less than wholesale cost to clear stock out immediately.

THOS. BARRIE & CO.,

OYAMA WILL DRIVE FLEEING RUSSIANS TOWARDS HARBIN

LANDING SUPPLIES AT HARBIN

Harbin is about 400 miles from Vladivostock and 600 miles from Port Arthur and is the source of supply for the Czar's troops.

Will Then Try and Force Russians to Abandon It

The Czar's Troops will Likely Make a Stubborn Resistance Here as It is the Base of the Russians' Food Supply.

Harbin, toward which Marshal Oyama is determined to push the fleeing Russians, is practically the geographical centre of Manchuria. It is located on the Sungari River at the point where the Transiberian Railway deflects southward to Mukden and Port Arthur, and is surrounded on all sides for hundreds of miles with a rich agricultural country. Within a dozen years the city practically has been built up by the Russian Government, through the agency of the Manchurian Railway Company, and within five years the population has increased from 10,000 to 65,000.

Great areas of mineral, timber and grazing land are in the immediate vicinity of the city, the leading industry of which is the manufacture of flour. Much of this product is turned into bread to feed the Czar's troops. Hence it will be seen that should the Russians be compelled to abandon Harbin their food supply would be seriously menaced.

Harbin is about 400 miles from Vladivostock and 600 from Port Arthur. It has schools, banks and excellent administrative buildings. In fact, the structures in the place are said to have cost about $16,000,000. It is alleged that its capture would be a great benefit to the world's trade, for it is believed that the Japanese would open the city to general commerce.

AMEND THE CONSTITUTION

Agitation for Entirely Wiping out Separate Schools May Commence.

At the meeting of the Grand Orange Lodge the following resolution was carried unanimously:

"That these frequently recurring irritating and disturbing attempts of the Romish Hierarchy to introduce into the B. N. A. Act meanings that able citizens claim are not there would lead to the asking of the question, does not the ambiguous wording of this instrument call for its recasting. Since the passing of the B. N. A. Act Canada has changed greatly in territorial extent, in population, and sentiment. Things that might have been in accord with public opinion then are out of joint with it now. It may be taken for granted that the vast majority of the people are now in favor of the future of the Dominion being cast in a British Canadian mould, where the flag, the language and the Public Schools will be paramount, and where equal rights to every class, irrespective of origin and creed, shall be the spirit of our nationality, with a view to the elimination of all ambiguity in the B. N. A. Act the time is now ripe for the re-enactment of the organic law of this Dominion on British-Canadian lines, embodying the undying principles of equal rights to all and special privileges to none."

Speaking to the motion the mover, Mr. John Hewitt, said that evers place that he discussed the idea of amending the Act he found it to be acceptable. At the mass meeting on Wednesday evening it roused the audience, in the Grand Lodge his resolution was practically unanimous, and in conversation, the most conservative members of the Order were ready to accept it as good policy. The feeling everywhere is that the Church has been on the offensive long enough, and its position should be changed. At all events in the present temper the Orangemen are ready for such a propaganda.

—The 57th Regt. Band are preparing speciall music for the second of their series of band concerts which will be given on Friday night, March 24th. This concert promises to surpass any yet given by the band.

Royal Baking Powder

45 CENTS a pound can AT ALL GROCERS

25 cents a half pound can

Royal Baking Powder is made from pure grape cream of tartar; is absolutely pure; has received the highest praise from all authorities on food at home and abroad; is used daily in millions of homes throughout the world.

Royal Baking Powder is the most economical thing in the kitchen.

MANIAC'S DRIVER MAD

Man Who Drove a Lunatic Thousands of Miles Becomes Insane

Winnipeg, March 14. — Constable Paine of the Royal Mounted Police is insane and has been confined in the asylum at Brandon. Constable Paine is the man who drove several thousand miles from fort Chippewayan, Athabasca, in a dog sled with a missionary who had become a raving maniac in the solitary waste.

After handing over his charge at Edmonton the constable went mad himself, and it is feared he will never recover his reason. He is confined in the next cell to that in which the missionary has been placed.

AMERICAN'S FIND IN EGYPT

Mr. Davies Unearths a Royal Tomb Containing Rich Treasures

London, March 14.—A correspondent of The Times gives an account of a discovery in Egypt by Theodore M. Davies which, he says, is the most important made by any explorer since Egypt was opened to European research.

Mr. Davies has found a tomb never plundered or visited since the age of the Eighteenth Dynasty, and still filled with royal treasures of the time when Egypt was mistress of the East and the source of its supply of gold.

The tomb was found on February 12, midway between the well-known sepulchres of Rameses IV. and Rameses XII. It proved to be the burial place of Yua and Tua, parents of the famous Queen Teie, wife of Amenhotep III., and mother of Amenhotep IV. of the Eighteenth Dynasty.

The treasures, with which the tomb was packed from end to end, constitute the richest spoil of ancient Egypt it has fallen to the lot of any explorer to unearth.

DIVERGENT VIEWS ON CANCER

Orth and von Hansmann Say It is not Parasitic—Leyden Says It is

Berlin, March 14.—Prof. Orth, the famous pathologist of Berlin University, and Prof. von Hansmann, also a well-known authority, stated last evening at a meeting of the Berlin Medical Society that cancer was neither contagious nor parasitic. They also declared that the supposedly alarming increase in the number of cases was wholly due to the fact that more cases were recognized now than formerly.

Profs. Orth and von Hansmann added that their investigations had failed to show that cancer was epidemic in particular places or prevalent in certain families through heredity. They urged that the public be induced to abandon the theory that the disease was contagious because it caused unnecessary odium to be attached to cancer sufferers.

Prof. von Leyden, an equally high authority, combated the theories of Profs. Orth and von Hansmann. He said the disease was parasitic and that parasites imbedded in the cells caused the inflammation. He declared that chemical researches had demonstrated the parasitic nature of cancer.

A PROSPEROUS COMPANY

Encouraging Returns From the Hamilton Provident and Loan Company

In a town like Peterborough where the exigencies of business and industrial institutions necessarily demand an extensive system of financial credit, it will be of interest to our readers to peruse the Annual Statement of that most successful Corporation, the Hamilton Provident and Loan Company. At their annual meeting, held recently, with Mr. Alexander Turner in the chair, the Directors submitted their reports and statement for the past year. The statement, given in detail in another column, is most assuring and gratifying to the shareholders. In the matter of assets, it is to be noticed that the company has security of the most tangible kind for the sum of $3,697,008.88, largely in sound investments and actual cash in bank. The net profits for the year amount to $90,154.51, out of which, after paying a dividend of 6 per cent. per annum, $29,005.51 was applied to reserve and contingent funds. The contingent fund, after deducting all visible losses and possible shrinkage, amounts to $14,517.73, with a reserve fund of $415,000.00 With such a showing as this, it is no wonder that the Hamilton Provident and Loan Company ranks among the soundest of Canada's corporations.

BALLOT BOX CASE

Grand Jury Has Already Been Empanelled at Belleville

Belleville, March 14. — The grand jury for the spring assizes, which opens here to-day has been empanelled and consists of the following: W. G. Wright, Tyendinaga; R. McTaggart, Tyendinaga; I. Brennan, Tyendinaga; J. M. Bird, Stirling; G. B. Hagerman, Rawdon; S. Green, Rawdon; F. G. B. Allen, Deseronto; F. D. Algorl, Frankford; E. E. Lewis, Belleville; W. A. Denyes, Thurlow; T. Hurley, Thurlow; P. Doran, Hungerford. T. Hurley of Thurlow, is a son of J. M. Hurley, ex-M.P., fishery overseer for Eastern Ontario.

The department of justice evidently thinks that the parties charged with conspiracy will freely exercise their right to challenge jurymen, for the attorney-general has directed the sheriff to empanel an extra number of jurymen, and 96 have been summoned to attend the court. Upwards of one hundred witness have also been subpoenaed, so that the court-room will be pretty well filled with witnesses and jurymen. Outside of the ballot box cases the only criminal case is that of Onslaw Wynn, who is charged with stabbing and breating to kill.

Rielly of Kingston, who gave sensational evidence at the investigation, was here a few days ago, and incon was here a few days ago, and in conversation expressed the opinion that he would get off light. He will, it is said, place his defence in the hands of a well known Conservative lawyer of this city.

It is not likely that the ballot box cases will be reached before Wednesday, as the first day is expected to be taken up with a few civil cases and the grand jury's deliberations.

GENERAL SPORTING GOSSIP

HOCKEY—THE TURF—BASEBALL—LACROSSE

The game on the Brock street rink last night brought out a fair crowd of spectators, who witnessed a very good exhibition of the winter game played on excellent ice. The opposing teams were the Fenelon Falls seven and a team representing the T.A.S. The visitors are a pretty well balanced bunch. They have a speedy forward line, their two wing men, Boyce and Oulette being the most conspicuous. Davey at point, and Gould in the nets also played a very effective game. The locals seemed to be lacking their old time vim and did not arouse from the lethargey they had fallen into until Fenelon had located the nets three times. This seemed to bring the bunch out of it, and three goals were scored in succession. Fenelon scored two more in the first half and Peterborough one, making the score at half time 5—4 in the visitors' favor.

In the last half Peterborough scored two and the visitors one. Score 6—5 in the locals' favor.

Following is the line-up:—

Peterborough.		Fenelon Falls
	Goal.	
Wasson		Gould
	Point.	
Meagher		Davey
	Cover-point.	
Crowley		Burgess
	Rover.	
Cavanah		Deyman
	Centre.	
Morgan		Beteau
	Left Wing.	
Parnell		Oulette
	Right Wing.	
Graham		Boyce

Mr. W. P. Irving, of Lindsay, was a poor excuse as a referee, and seemed to be ignorant of the rules of hockey. He placed local players on the fence for no cause whatever. In fact throughout the season, when opportunity afforded, he has "handed it out," to Peterborough teams. Another case of Lindsay's soreness.

• • • •

A meeting of lacrosse-hockey players is called for Wednesday night at eight o'clock in the Oriental. A movement is on foot to arrange a game of lacrosse on skates to be played before the close of the season.

• • • •

FOOTBALL.

With the close of the hockey season in sight football looms into the foreground, and this coming season will probably see good football played in the Midland League.

Profiting by the experience of last year, there will be only one team from Peterborough in the league this year, and that team will bear the name of the Peterborough Quakers, and will be composed of players from the teams of last year, and with such an aggregation the championship of the league should be brought back to Peterborough, where it belongs.

Friday night the Quakers organized for the season, and judging by present prospects, the team will be in good shape to do honor to itself on the football field during 1905.

The meeting was held in the Y.M.C.A. parlors and was fairly well attended, in view of the fact that the season is yet young and augurs well for the future prospects.

Mr. M. J. Kirn, the president of the club, was chairman of the meeting, and Mr. J. E. Sullivan acted as secretary. In opening the meeting Mr. Kirn congratulated the team on the good showing it made last season, a record of which the members might well be proud. They did not win the championship, but the team had done exceedingly well, and he hoped that during the coming season they would do even better.

The first business transacted was the election of officers for the coming season, which resulted as follows:

Patrons and Patronesses—Hon. and Mrs. J. R. Stratton, Mr. and Mrs. A. P. Macdonald, Mr. and Mrs. T. F. Matthews, Mr. and Mrs. T. H. G. Denne.

Hon. President—Mr. W. H. Denham.
President—Mr. M. J. Kirn.
1st Vice-President—Mr. E. G. Patterson.
2nd Vice-President—Mr. Jas. Hamilton.
Sec.-Treasurer—Mr. I. D. Moore.
Manager—Mr. J. E. Sullivan.
Delegate to the Midland League Meeting—Mr. J. E. Sullivan.

It was decided to leave the selection of the captain to the members of the team, and he will not be chosen until the season opens.

Mr. Sullivan announced that arrangements had been made with the Turf Club for the use of the exhibition park for practice purposes as well as to play the games upon, and the Street Railway Company had also been seen with reference to allowing advertising matter on the games to be placed on the cars of the company.

An informal discussion took place on the policy which the delegate to Midland League meeting should ad- the Midland League meeting should advocate, and it was considered that it would be conducive to increased interest in the league if, in addition to the silver cup, which is emblematic of the championship, and which goes to the club as a whole, the players themselves were given medals, which should become the property of the individual players, and the delegate was instructed to bring the matter up at the annual meeting of the league. The matter of referees was also considered, and the opinion expressed by some of those present was that only non-players should be appointed, though no definite instruction was given to the delegate upon the point.

A committee composed of Messrs. Grant, McFadden and Perdue was appointed to select a coach for the team.

Mr. Sullivan has been on the still hunt for players, and he has succeeded in getting a good number of names attached to his signature list.

All three teams from town in the league last year will be represented on the Quaker team during 1905, and if the championship of the Midland League does not rest somewhere near the Otonabee river this year there will be something strange. Just as soon as the ground is in shape the players will get down to practice and will be in a position to put up a good fight when the time comes.

PETERBOROUGH ABROAD

The Artistic Work of Miss Katherine E. Wallis Admired in Paris

A young lady well known by many of our townspeople is showing the world that she has genius of a high order, and Peterborough will feel proud of its reflected glory, as she is a daughter of the late Capt. Wallis of this town. Miss Katherine E. Wallis has already, in her temporarily adopted home, Paris, shown the world that she has more than the elements of a sculptor.

One of her works, "Mercury," is highly thought of. Rodin, the great sculptor, is particularly appreciative of Miss Wallis' work and the statue "Little Nut Brown Maid," is greatly admired by all who have seen it. "Mercury" ought to find a prominent place in some art gallery and no doubt it will soon find a suitable purchaser. Sir Wilfrid Laurier has expressed the wish to make Ottawa the Washington of the north. This statue would grace any art gallery, and the Government would do well to secure this work of Miss Wallis' as a specimen of Canadian sculpture before it is too late.

Police Court

OFFICIALS

Chief of Police, G.I. Read
Magistrate, D.W. Dumble

Last night the officers on duty at the station had a monologue in a high pitched voice owned by Mrs. Michael Byrnes. The poor woman, who has periodical attacks of dipsomania, got too much of Canada's curse into her system, and made a disturbance at Connell's livery stables during the evening, insisting on hiring a horse. The livery employes seeing her condition, of course, refused one, and tried to persuade the woman to go home. Officer Stewart was called, and after trying hard to get the woman to go home; was compelled to arrest her. Mrs. Byrnes fought and struggled like a thing possessed, however, the officer finally got the handcuffs on, and drove her to the station; but not until she had taken both shoes off, which she flung away into the darkness of the yard. After being locked up in a cell the woman kept up an incessant stream of profanity and abuse, at the top of her voice, trying to convince her unseen audience that she was "A modest woman." The woman will come up before the Magistrate this morning. Right here this journal would point out one weak spot in our police arrangements, although no fault of the police. This woman arrested, in a condition, bordering on insanity, is locked up in a cell alone, there is no woman appointed by the town for such cases. No policeman could search this frantic creature's clothes; suppose when the reaction certain to follow such excessive drinking sets in, what is there to prevent the woman having some deadly weapon, such as a knife or scissors in her clothes, and with such weapon committing suicide? Certainly not the men at the station! A woman might be appointed, and paid for her time, when making such a search, and the town would be saved from a possible scandal, not to mention protecting a poor drunken creature's life.

His Worship had very little to engage his attention yesterday. The only matter before him was a charge of furious driving against Harold Coon. George Bell and Bert Cullen, preferred by Chief Rossel. On the 21st of February last, Coon was sent by Mr. W. Nicholls, of Bridgenorth, into town with a sleigh load of hogs. After disposing of his load of hogs, and apparently taking aboard himself a load of the cup that both cheers and inebriates, Coon started for Chemong at a faster rate than common sense or the city by-laws allow. The evidence of its conductor showed that Coon, and his two companions, had narrowly escaped a collision with a street car on Charlotte street. As the trial developed, it appeared that Coon was responsible for the breach of the law charged, but that Bell and Cullen were only passengers; so the Magistrate fined Coon $2 with $8.55 costs. Next time Coon brings in another load of these sweet singers of Bridgenorth, he will probably moderate his homeward pace.

WRITE YOUR MEMBER TO-DAY

LET every elector in Eastern Ontario who supports the cause of Provincial freedom make it a matter of duty and conscience to forward a letter to the member who represents his constituency, urging him to uphold the independence of the new provinces over the educational system. Let this be done TO-DAY.

ST. PETERSBURG ADMITS POSSIBILITY OF A SEDAN

Near Tie Pass, Owing to Oyama's Magnificent Strategic Positon--The War Office Does Not Know Full Extent of Enemies Losses.

St. Petersburg, March 14.—No further Russian news was received from the front this morning; but the magnitude of the catastrophe is now apparent to all here. The War Office admits that even the remnants of the army are still in danger.

Field Marshal Oyama holds a magnificent strategic position. It is reported that Japanese flanking columns are in touch above Tie Pass, and that here may be a Sedan there. No adequate estimate of the losses has been furnished, but with the units captured on the left unaccounted for, the killed or wounded already total 65,000.

The War Office does not even know accurated what units are captured.

Tie Pass, Manchuria, March 14.—The Russians are nearing their Tie Pass positions.

Japanese detachments continue a north-west movement from Mukden.

St. Petersburg, March 14.—General Kuropatkin, in a despatch dated March 12, says 50,000 Russians were wounded during the last few days' fighting.

St. Petersburg, March 14.—Line additional information was vouchsafed at the War Office to-day. General Linevitch's army, although its units were scattered and confused, got off with the fewest losses. General Kaulbars was the heaviest loser, leaving 28,000 prisoners in the hands of the Japanese. Kaulbars himself with the remnant of his army had a narrow escape. When the Japanese drove their wedge across the railroad above Mukden he just managed to pull clear by withdrawing south of the city and then moving north-eastward into the mountains barely in time to avoid General Kuroki's columns. Which were already at the Hun River, bombarding Fu Pass. According to the latest advices, General Kaulbars is being pursued, and has not succeeded in extricating himself from the mountains.

General Meyendorff, commander of the first army corps, was wounded in the shoulder.

St. Petersburg, March 14.—Emperor Nicholas has summoned a war council for to-morrow, at which the whole situation will be considered.

While France has made no move since the battle of Mukden nor offered her advice officially, the Russian Government has been given to understand clearly that her ally favors peace, and this may make an influence on the Emperor's ultimate decision. Germany has refrained from giving advice either way. Perhaps the attitude of Japan may be judged from the fact that one of the great powers, intimated to be the United States, has strongly urged within a month that the time was opportune to offer terms to Russia, but according to information received the Japanese Government paid no heed to the advice tendered.

There is much talk about the terms Russia would accept, but this is all pure speculation. Japan could probably impose any conditions satisfactory to the powers regarding Manchuria the Liao Tung Peninsula, Korea, and even the Island of Sakhalien, and an arrangement about the maintenance of Russian sea power in the far east which might involve making Vladivostock an open port might be conceded, but Russia probably will hold out against the two propositions—the cession of Russian territory on the mainland and an indemnity.

It is rumored that Kuropatkin already has asked to be recalled, but there is no confirmation of the report.

St. Petersburg, March 14.—A despatch from General Kuropatkin, dated March 12, says;

"The enemy is receiving considerable reinforcements. Examination of the wounded and prisoners shows General Nogi had almost entirely fresh forces. The Japanese are always able to keep their forces up to full fighting strength because of the ease with which they are able to transport troops from Japan."

In a despatch dated March 13, General Kuropatkin says;

"According to reports from the rearguard, a Japanese force, consisting of a division and a half, are within a short distance of the Russian rearguard.

"The second army is marching continually under the fire of the enemy, who is advancing from the east and west."

TWO NEW WHARVES

One To Be Built at Bensfort Bridge, in Monaghan, and One at Street Railway Terminus.

Mr. R. R. Hall, our energetic Member of Parliament in Ottawa, with the tireless interest he has always exhibited in advancing the good of West Peterborough, has succeeded in showing the crying necessity of two long wanted wharves in this county, and in inducing the Hon. Charles Hyman, Minister of Public Works, to consent to their being built. As intimated in a former issue, Mr. W. J. Fuller, Assistant Engineer of the Public Works Department, has been in town on business. The result of his investigations is that he will report favorably on the wharf proposed at the terminus of the street railway, just south of the locks. This wharf is an absolute necessity to the large volume of travel that yearly has been delayed for hours daily by stoppage at the locks, not to mention the great inconvenience to those having baskets or freight to carry or cart by the old route. This will, thanks to Mr. Hall's intelligent forethought and efforts with the Department, now be done away with, as soon as the new wharf is completed.

As the Street Railway, with their usual snap and business shrewdness, intend to make arrangements for the conveyance of freight, this new outlet for their system will be of great service to the mercantile and industrial public intown. The wharf at Bensfort, is also a good move on Mr. Hall's part, and will doubtless gain him many ecomiums from the Monaghan farmers, as it will enable them to bring their produce straight through to the market without a middle handling.

AN INTERESTING ADDRESS

Mr. Hughes Charles Interesting Talk on Banks and Banking at St. Luke's Last Night.

Last night a clear and concise exposition of banks and banking was given at St. Luke's church, by a gentleman well qualified in his subject, Mr. D. Hughes Charles, Manager of the Canadian Bank of Commerce. Mr. Charles began his address by a general historical sketch of banks and banking in England, Ireland and Scotland, comparing their inception and historical points of interest with those of other European countries. The speaker then gave a lucid history of banks and banking in Canada, which proved our system to be quite equal if not superior to those of other countries. He next gave a short, but interesting synopsis of the Banking Act. Mr. Charles also spoke briefly on subjects of immediate interest to those having business with banks, explaining the systems of exchange, deposits, loans, and concluded with a few words of advice to those just beginning or about to begin business relations with a bank. The address was listened to with rapt attention and evident interest by the large audience present. The lecture was given by, and under the auspices of the Young People's Guild of St. Luke's Church, who are to be congratulated on the success of their evening's entertainment.

A SUCCESSFUL ENTERTAINMENT

Under the Auspices of the Young Peoples Society of St. Paul's Church

Last night a very pleasant and interesting evening was spent by the large assemblage who came both for amusement and instruction to St. Paul's church. The evening's entertainment was the fruit of efforts put forth by the Young People's Endeavor Society of St. Paul's church, and was a success both in the eyes of entertained and entertainers. The piece de resistance was a lecture or talk on the subject of "Amusement" by three eloquent reverend gentlemen. The Rev. Mr. MacLennan discussed at some length, and forcibly on the physical benefits derived from proper forms of amusement and Chancellor Rev. Mr. Ketchen touched on the mental aspect and results of amusement, dwelling in a forceful way on the permanent results on the minds of the young from the proper or other forms of amusement, and Rev. George Yule, of Springville, gave a most convincing talk, full of sound argument, on the moral side of the subject under discussion. The Young Peoples Endeavor Society are to be congratulated on the success of their labors. The musical portion of the entertainment was of a high calibre, including solos, by Peterborough's young aspirant for vocal laurels, Miss Helen Davies, and solos, in her inimitable style by Mrs. Bardley Wilmot.

ADVERTISE IN THE TIMES

Sullen, Discontented, Morose, Low Spirited

Brace Up—Vitalize Nerves and Blood With

FERROZONE

The Effect is Instant—Makes You Snap and Dance With Vitality

Your appetite is gone.

What little you eat brings no satisfaction.

You're getting blue and melancholy—you can't rest or sleep.

Nervous prostration is staring you in the face.

Your unstrung nerves can only be nourished back to health by a nerve tonic like Ferrozone. It cures weakness of the inner nerves, gives vitality and strength to the blood and nervous system, makes all the organs work in harmony.

The following experience of Mrs. D. P. Courtland, of Myrtle, proves the prompt action of Ferrozone.

"I had no nerve strength. Every morning I was tired out, for my system was out of order.

"I felt weak and dispirited, was tired out the whole day long.

"Did Ferrozone help me?

"It gave me strong nervous system, a good appetite, and abundance of health."

Ferrozone contains concentrated nourishment you can't get in any other way. No other medicine benefits so quickly. 50c. per box or six boxes for $2.50, at all dealers in Medicine, or Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $2 per year, strictly in advance.

TIMES PRINTING COMPANY, Publishers and Proprietors, Peterborough, Ontario.

UNION LABEL

PETERBOROUGH, MARCH 14 1905

NO COMPROMISE

Compromise is foreshadowed as a possible solution of the Separate School difficulty. The endowment clause of the draft autonomy bill is, we are told, to be eliminated, and the Separate School clauses of the Territories act of 1875 re-enacted and made part of that bill. Instead of the clauses which have aroused so much opposition. But that is no solution. That still rivets Separate Schools on the new Provinces forever, whether they will have them or not. That destroys equally with the old provisions the liberty of the people of those provinces to make their own laws. It invades provincial rights, and raises a temporary and tentative provision into a constitutional requirement. There must be no educational clause of any kind in the bill that erects the Territories into Provinces. It looks now as though the major demand of the powers behind the throne at Ottawa had been purposely made, in order that there might be a giving way in apparent compromise which would yet include a permanent saddling of Alberta and Saskatchewan with Separate Schools. And politicians of a certain calibre are only too eager to jump at compromises for the sake of personal and party expediency. But there must be none in this matter. The thing must be faced now, and fought now, and settled now. There must be no entail of strife and ill-will and division fastened upon these provinces and upon their politicians and people. It is not a question of getting this or that party in a hole. It is a question of keeping these two provinces out of the hole into which this famous and iniquitous policy would plunge them. And Ottawa politicians should be told that very plainly by their constituents.

SHOULD KNOW

A Hamilton contemporary thinks that some Ontario members of the House of Commons ought to take a few days off, visit their constituents and learn what public opinion is. When the members were called to Ottawa they had not the slightest intimation of what was in the wind, and the springing of the coercion bills by Sir Wilfrid Laurier found them all unprepared for the question.

As a matter of fact the whole country was taken by surprise, and is only now beginning to discover where it was "at." But the members who have been in Ottawa all this time know nothing of the feeling at home, and may not appreciate to the fullest extent the nature and strength of the objections which have been raised against the coercion of the people of the West.

If these men think that they can satisfy their constituents, and at the same time vote for some claptrap "modification" or "compromise," they are very much mistaken.

The people are up, and they will consent to nothing but the total freedom of the new provinces to attend to their own educational affairs, from top to bottom, in any manner in which they may think desirable.

MAPLE SUGAR

With the promise of the Canadian Government to stop the adulteration of maple sugar and syrup, and the able advocacy of the Toronto Globe in the same direction, it is quite possible that the Canadians may again enjoy these old-time delicacies. But it will require severe measures. The makers and sellers of bogus maple sugar and bogus maple syrup will have to be punished promptly and severely for a while, in order to induce them to quit the lucrative business of buying sugar at four cents a pound and selling it at ten, twelve, of fifteen cents a pound, according to the gorgeousness of the label.

It is now too late in the day to resurrect the maple sugar business in the old settled portions of Ontario. Adulteration killed the business. Farmers could not boil sap and complete with cheap sugar dumped on maple chips, and they made firewood of their sugar "bushes."

But in the newer parts of the province there is plenty of maple, and the sugar business, protected against the adulterator, can be carried on there to good advantage. The same may be said of many portions of Quebec, and even further east, and it will be well worth while for the Government, even at this late day, to make such arrangements as will give farmers the profitable industry of maple sugar making, and restore to the Canadian table one of its very choicest delicacies.

—The 57th Regt. Band are preparing special music for the second of their series of band concerts which will be given on Friday night, March 24th. This concert promises to surpass any yet given by the band.

BOLD LOVER'S MISTAKE

Kidnaps Prospective Mother-in-law Instead of Her Daughter

Rome, March 10.—A young countryman of Bitonto, Francesco, Gagaldo, was much in love with a pretty girl, Elisa Fano, and, although the girl herself was not averse to his suit, her mamma did not see Francesco with a "good eye," as they say here, and so the course of true love did not run smooth. Rendered desperate, the young man decided on heroic measures, and concocted a plot with some friends. The mother and daughter were in the habit of going frequently to some relatives in the evening; so one dark night the conspirators hid in a narrow street, and as the women passed sprang out upon them.

In the confusion which ensued, heightened by the intentional manœuvres of the young men, the gallant Francesco threw a shawl over the head of one of the frightened women, and, in spite of her struggles, bore her off to his house. "I am Francesco," he repeated at intervals, thinking to calm the terror of his lady love, only, however, to be answered by muffled tones from the shawl. struggles, and kicks of such strength as to rouse his wonder and something of resentment that Elisa should treat him so. Meanwhile the other women had fled shrieking to cover, followed by the men, to conceal the doings of Francesco.

The bold lover carefully removed the shawl, dropped on his knees, and raised his eyes to those of — Elisa's mother.

ORANGE GRAND LODGE

A Strong Resolution Adopted on the Autonomy Bill

Midland, March 13.—The Orange Grand Lodge of Ontario West last night re-elected Lieut.-Col. J. H. Spott of Kincardine as Grand Master; passed a very strong resolution denouncing the school clause in the Autonomy Bills; adopted another commending the course of Hon. Clifford Sifton; selected Goderich as the next place of meeting; and voted $500 to the fund for the family of the late Mr. E. F. Clarke, M.P.

THE THIRTY-THIRD ANNUAL REPORT

Of the Directors of the

Hamilton Provident and Loan Society

FOR THE YEAR 1904

The thirty-third annual meeting of the shareholders of the society was held at the society's head office, at eleven o'clock this forenoon. Among those present were the following:

Col. A. H. Moore,	J. F. Smith,
John H. Cox,	J. T. Gibson,
W. J. Reid,	George Rutherford,
J. J. Greene,	George Sweet,
H. P. Hanning,	H. W. Clarkson,
J. B. Fairgrieve,	Alex. Turner,
H. H. Anderson,	Alex. Main,
George Watson,	W. H. Wardrope,
Rev. George Forneret,	John Eastwood,
Judge Snider,	R. Butler,
Hon. William Gibson,	P. D. Crerar,
George LeRicha,	T. H. Crerar,
W. F. Findlay,	E. G. Payne,
R. R. Ferrie,	Charles Judd,
D. M. Cameron,	John McCoy.

The president, Alexander Turner, in the chair.

C. Ferrie, treasurer, acted as secretary.

The secretary read the report and annual statement as follows:

The directors have much pleasure in presenting to the shareholders the thirty-third annual report of the society's affairs, and accompanying financial statements, duly audited.

The net profits of the year, after paying and providing for all due and accrued interest on borrowed capital, paying cost of management and other charges, amount to $29,254.51, out of which two half-yearly dividends at the rate of 6 per cent. per annum were paid, together with taxes on capital and income, and the balance, $29,005.51, has been applied as follows:

Added to reserve fund	$25,000 00
Credited to contingent fund	4,005 51
	$29,005 51

After writing off all losses, and providing for possible shrinkage in value of securities, there remains at the credit of the contingent fund, $14,547.73.

The reserve fund now amounts to $415,000.

Payments by borrowers have been very satisfactory, and the funds of the society actually employed at profitable rates of interest.

All of which is respectfully submitted.

ALEXANDER TURNER, President.

30th January, 1905.

Financial Statement for the Year ending 31st of December, 1904.

	$205,060 02

By interest earned, rents, etc. $205,060 02

C. FERRIE, Treasurer.

27th January, 1905.

We hereby certify that we have examined the books, accounts and vouchers of the Hamilton Provident and Loan Society, and have found same correct. We have also examined the securities (excepting those relating to Manitoba loans), and find them in perfect order, and correct as set forth in the above statement.

W. F. FINDLAY, F.C.A., MAITLAND YOUNG, Auditors.

Hamilton, 28th January, 1905.

I hereby certify that I have examined the securities and vouchers and audited the books of the Hamilton Provident and Loan society for the year ending 31st December, 1904, as kept in their Brandon office, and have found them correct.

Brandon, Man., Jan. 31st, 1905. H. L. ADOLPH, Auditor.

On motion of the president, seconded by vice-president, the report was adopted.

The following gentlemen were re-elected directors:

Alexander Turner,	George Rutherford,
Hon. William Gibson,	John T. Gibson,
Judge Snider,	George Hope.

At a meeting of the directors, held at the annual meeting, Alexander Turner was re-elected president, and George Rutherford, vice-president.

Did you buy your hair at an auction?

At any rate, you seem to be getting rid of it on auction-sale principles: "going, going, g-o-n-e!" Stop the auction with Ayer's Hair Vigor. It checks falling hair, and always restores color to gray hair. Sold for over sixty years. J. C. Ayer Co., Lowell, Mass.

T. Z. WEBSTER

Box 19, Lobfield, Ont

The Canadian Northwest

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg; or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

1] At least six months' residence upon and cultivation of the land in each year during the term of three years.

2] If the father (or mother, if the father is deceased), or any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same town, township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses [2], [3] or [4] must cultivate 30 acres of his homestead, or substitute 80 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Land Agents in Manitoba or the North-west Territories.

W. W. CORY, Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

A Complete Explanation..

Of why I am offering 150,000 shares of Boston and Texas Corporation Stock at 50 cents a share is compressed in a very few words. I am and have been associated with the management of this Corporation ever since its organization in December, 1903. I am a Director in the Corporation, and have been from the start. A recent meeting of the Board of Directors determined that additional funds were needed for development if the Corporation was to anticipate the completion of the two railroads about to be built in its immediate vicinity. A great deal of further development is necessary if the Corporation is to take a natural advantage of the soon-to-be conditions. Believing that Canadian interests would be better served by larger representation, I solicited a short-term option at the above named low price, for the express purpose of giving Montreal and neighboring investors an opportunity to secure profitable holdings in this Corporation on practically the same terms as those enjoyed by the original shareholders. An important fact, and one to remember, is that the officers of this Corporation hold no promotion stock, every share in their possession being paid for in cash. The price paid was within a few cents of my present offer. If you want to take advantage of this offer write me at once for particulars, or send money by Express, P. O. Order, Draft or Check on any Bank. References: John T. Ross, Vice-President, Quebec Bank, Quebec; John C. Thomson, retired merchant of Quebec, and any banking or commercial institution in Montreal or Quebec.

JOHN THOMSON

Address in care of

DOBELL, BECKETT & CO., QUEBEC.

AN OPEN LETTER FROM MR. W. J. GAGE.

Toronto, Can., Dec. 1, 1904.

Dear Friend,

We again come to you with our story of trouble, but a story of surprising and encouraging results.

No apology is necessary; the great work of the National Sanitarium Association, carried on at the Muskoka Cottage Sanatorium and Free Hospital for Consumptives, is now well known.

The 1,500 patients cared for in these two Homes plead for your help.

The large number of lives saved, of those who a few years ago were supposed to be "under sentence of death," gives a right to your sympathy.

In helping to rescue a number great enough to constitute a large prosperous village, the giving back to home and friends a regiment of workers, surely will arouse interest in this work of mercy.

Each patient cured for in our Consumptive Homes, removes a source of danger, so that the life of every citizen in Canada is more secure.

The marvellous decrease of 40 per cent. in three years in the death-rate in Ontario from consumption proves that the fight against this dread disease is no losing one.

The Muskoka Free Hospital for Consumptives, for which this appeal is made, without any endowment keeps an open door to all who are poor and sick, as long as a vacant bed remains.

Nearly 400 patients have been cared for in this Hospital since it was opened less than three years ago. This has only been possible because of the continuous stream of gifts that have come to us from every part of Canada.

Remember, too, these were patients that other hospitals as a rule refuse.

Almost every trade and profession has sent its representative, and of every age—from the young schoolboy of 13 to the widowed mother of 60.

$30,000 was received last year by the Trustees of the Free Hospital for Consumptives through contributions and bequests.

$60,000 should be given this year if the Board is to provide for the increased accommodation and maintenance of those pleading for admission.

Where will your money do so much good in bringing health to the sick and protecting the lives of those in your home?

Why should consumption not be stamped out if the needful money and help be forthcoming?

The official Report of the Secretary of the Provincial Board of Health tells a surprising story—a story of a winning fight, showing that from 1897 up to 1900 there was a steady increase in the death-rate from Tuberculosis.

From 1900 there has been a large decrease each year, reducing the death-rate from 2,434 to 2,072 in three years, or over 40 per cent. This is all the more remarkable in view of the increase in population.

You have the joy of knowing that your dollar has helped in this marvelous work.

The pitiful part of it all is in knowing how many more lives could have been saved if the needful money had been forthcoming to provide additional beds.

Will you not join in this great life-saving work?

Your dollar will bring gladness.

Fifty dollars will keep a sick one for two months; may save a life. Three hundred dollars will endow a bed for a year.

Yours sincerely

W. J. Gage

VARICOCELE & STRICTURE

No other disease is so prevalent among men as Varicocele. As it interferes with the nutrition of the sexual organs it produces weakness, loss of semen through the urine, decay of the organs, pains in the loins, aching in the back, nervousness, despondency, bashfulness, palpitation of the heart, constipation, and a combination of these results in complete LOSS OF MANHOOD. Thousands of young and middle-aged men are troubled with STRICTURE. If you have reason to believe you are afflicted with it, don't neglect it. It will ruin you. Don't let doctors experiment on you by cutting, stretching or tearing it. Our NEW METHOD TREATMENT dissolves the stricture tissue, hence it disappears and can never return. We cure Varicocele and Stricture without operation or loss of time. The treatment may be taken at home privately. Send for our Free Illustrated Book on VARICOCELE and STRICTURE. WE GUARANTEE TO CURE OR NO PAY.

Kidneys & Bladder

All sexual complaints affect these organs, hence the kidneys are a great source of disease. Have you aching or weakness over the small of the back, tendency to urinate frequently, deposit in urine, coldness of hands or feet, a drowsy feeling in the morning. Don't neglect your kidneys. Our NEW METHOD TREATMENT is guaranteed to cure any disease of these organs or no pay.

☛ No Names Used Without Written Consent.

O. W. Rowe, of Jackson, Mich., says: I had varicocele in the secondary stage and two strictures of 8 years' standing. I was operated on twice, undergoing great suffering, but only got temporary relief. I was finally advised to try the NEW METHOD TREATMENT of Drs. K. & K. The enlarged veins disappeared in six weeks, the stricture tissue was removed in eight weeks and my sexual energy and vitality returned so I was a man in every respect. I recommend you doctors with my whole heart."

CURES GUARANTEED. NO CURE NO PAY.

Before Treatment. After Treatment.

We treat and cure Nervous Debility, Lost Manhood, Varicocele, Stricture, Blood Diseases, Kidney and Urinary Complaints. Consultation Free. Books Free. Write for Question List for Home Treatment.

DRS. KENNEDY & KERGAN

148 SHELBY STREET, DETROIT, MICH.

TO CANADIAN INVESTORS

Oregon-Idaho Gold Mining Co.

INCORPORATED

Capital $5,000,000. Shares $1.00 Each, Par Value, Fully Paid Up and Non-Assessable.

We have just secured the agency for the above splendid proposition, of which we have been allotted a block of Treasury stock. We can confidently recommend this as a safe and, we believe, exceedingly profitable investment. Every dollar of stock is guaranteed by twenty year; full paid, gold bond, delivered to purchaser of stock, from an investment Company that has no interest whatever in the company, but who are disposing of the debentured bonds to the public, and, under their charter, they are compelled to deposit securities to an equal amount, to the State Treasurer under which they received their charter, there by doubly securing the payment of their gold bonds.

The Company's property, which is now past the project stage, is known to be marvellously rich in gold.

Following is the opinion of G. W. Miller, Mining Engineer, formerly with the Boston and Montana Consolidated Copper and Silver Mining Company, U. S.; Simmer and Jack Mining Co., Limited, Klondyke South Africa:—

"You have here a most valuable property and one of the strongest fissure veins that can be found in any part of the world.

"With the present development of the Monument Mine, I estimate that 100 tons per day can be extracted, which will mill from $15.00 to $30.00 per ton. The total cost of mining the ore, delivering and milling, I place at about $4.00 per ton. With the increased milling capacity, it is safe to say that the mine can furnish 100 tons of $15 00 ore, which would yield a clear profit of $11.00 per ton, or $1,140 00 per day (equal to $400,000 00 per annum). Estimated total value of ore in sight, $2,000,000."

During the past summer, a party of the Company Directors visited the property, taking with them, Amos P. Brown, Ph.D., Mining Engineer and Professor of Geology and Mineralogy at the University of Pennsylvania. Dr. Brown writes as follows:—

"In regards to the amount of undevelopable at the mines at Stanton, I saw on the dumps several thousand tons, probably 5000 tons would be an under-estimate.

"As to the size of the ore body itself, from what I saw of the geological structure, I think that there is every indication that it will be found to extend underground as far as the out-croppings on the south side of the gulch. This would mean an ore body large enough to keep the present mill running for many years to come.

A write up of the proposition will appear in these columns in a few days. Watch for it. In the meantime we will be pleased to furnish all information to investors.

THOS. PATTERSON & CO.,
FISCAL AGENTS. PETERBOROUGH

25000 SHARES

The above number of shares of stock that is worth to-day on the open market $5,000, will be given to any person that can find in America another mining company that has spent about $600,000 on its properties, that has ten smelter, with sampling mill, dust chambers, hot blast stove, electric power plant, steam power plant, 1000 ton capacity ore bins, 600 ton capacity coke bins, railroad over one mile long, engines on track, offices of company with fireproof vaults, boarding houses and dwelling houses. All of the above will be completed by the time you read this ad. Ore in sight to last from 2 to 4 years, averaging $30 per ton, $24 copper, $6 gold and silver, 1800 foot works long tunnel, shaft with three levels ore handled by gravity dropping from one level to another through winzes into our own railroad cars, which when then be hauled to the smelter, that will sell or has ever sold their stock

10 CENTS PER SHARE - PAR VALUE $1.00

This is what I am doing with the stock of the

Great Western Gold Company, OF REDDING, CALIFORNIA

I will give the above amount, 25,000 shares to any person that can find its equal in America at this price. We expect to be running in full blast inside of 20 days, and paying dividends on $1.00 stock by the 1st of June

If you desire a first class, honest, legitimate mining investment, send me your cheque for all you can buy immediately! As this will likely be advanced to $1.00 per share inside of 30 or 60 days. Do not write to me about this proposition unless you mean business as my time is too valuable. Your money is what I want, for I believe positively I can return it to you at the rate of 100 per cent. annually on your investment after dividends are once commenced. If you really desire other information looking to an investment, write me immediately, as stock at this price will soon be gone.

THE ARMING OF ESQUIMALT

Land Fortifications are Being Strengthened

THE WORK UNDER WAY

Signal Hill, a Natural Fortress, Will be Impregnable When the Work is Completed

Victoria, March 11.—Although the the lords of the admiralty in their wisdom have seen fit to abandon Esquimault as a naval base, the war department has no intention of discontinuing the work of increasing the strength of land fortifications. On the contrary, the operations are being pushed forward with all possible dispatch and the present prospects now are that the stronghold will be complete within a year. Only those directly connected with the work have any idea of the magnitude of the task which was undertaken when the imperial authorities decided to fortify Signal hill.

That it should have been decided upon as the site for a fortress is easily conceived as it possesses marked adaptability, in situation and strategical advantages generally, for such a purpose. It commands a wide view of the straits and from its heights the heavy ordnance which is about to be installed can hurl havoc-dealing projectiles for a distance of ten or twelve miles, according to military authorities.

This work has been actively in progress for two years under the supervision of experts in the imperial service, the royal engineers, and the expense and labor involved have been enormous. The first operation after the construction of a substantial waggon road to the summit of the hill and the centre of activity, was the making of a huge chamber by blasting out of the solid rock. The interior had then to be concreted, the site of the magazine selected and the stations of the ordnance determined.

Although more than twenty-four months have been consumed by large squads of men employed in this work, the stage has not yet been reached when the big 9.2 inch guns which have been on hand for some time past, can be mounted.

A great deal of concrete work must be done, particularly in the construction of the foundations on which the guns will be placed. This concrete must be allowed to stand for several months in order that it can properly and firmly settle, for it is realized that the slightest alternation in the foundation would seriously affect the accuracy of the guns.

The magazine will be lined with bricks to prevent dampness reaching the ammunition, while among the other prime essentials to be completed is the construction of the roof. This will consist of heavy steel girders covered with six or seven feet of solid concrete, on this will be about ten feet of earth so that the roof will be shell proof.

At the present time a large force of men from the Royal garrison artillery is employed in drawing the gun pedestals up the hill to be in readiness for the mounting of the guns, and to secure the latter fifty-six bolts, each of which weighs one hundred and twenty pounds, are required.

Shells will be hoisted from the magazine to the guns by hydraulic engines. These will be utilized even as far as "ramming home" the shell which will practically not be handled by gunners during the entire operation of firing the gun.

By this means, although each shell weighs three hundred pounds, it will be possible to fire three a minute. This, however, would only be done under very urgent conditions, as the life of the big ordnance is comparatively short, and the greatest care must be exercised in handling them.

LIVE AND LET LIVE

A Roman Catholic From Calgary Who is Willing to Trust to the Fairmindedness the Majority

Ottawa, March 13.—Mr. James Reilly, who has been three times Mayor of Calgary, is in Ottawa at present. As a Roman Catholic Mr. Reilly is in close touch with the sentiments of the minority on whose behalf the Separate School clause is supposed to be inserted in the autonomy bills. Mr. Reilly's position is that he is perfectly willing to trust to the fair dealing of his fellow countrymen in the new Provinces. He had hoped, he said, that the new Provinces would be permitted to glide into their new honors and powers without friction and he added that he hoped that any public agitation would not succeed in setting one part of the people at variance with another part. His position is that he is anxious to see the powers of the Provinces as little abridged as possible. It is the broad-minded purpose of the people of the West to live and let live. The majority fully recognize the pioneer services of the Obiat Fathers and have shown every disposition to be fair to the minority and he is willing to trust to that fairness.

YES, IT IS HUMILIATING to have a skin covered with foul eruptions. It is painful, too, for the burning and itching give you no rest. Why not end the trouble and restore your skin to its natural fairness with

ALEXANDER MUNROE AND GEO. H. MUNROE

CALL ATTENTION TO

The Marconi Wireless Telegraph Co., of Canada

Capital Stock, $5,000,000. Par Value of Shares, $5.00 Each. Full Paid, Non-Assessable

EVERY STOCKHOLDER ON AN EQUAL BASIS
NO BONDS — NO PREFERRED STOCK

Shares in the above named Company are offered for subscription by Munroe & Munroe at $5 each, in blocks of from one share to 200 shares for a limited period only. Every indication points to the early and rapid advance in value of these shares, and those who are desirous of making a profitable investment of their surplus should lose no time in forwarding their application for as many shares as they can conveniently purchase at this time. No enterprise of modern times offers anything like so good an opportunity for rapid and substantial accretion as the Marconi investment. We demonstrate this to the satisfaction of all investigators in our book entitled "Financial Aspect of the Marconi Investment," which we will send free to all who request it. Facts and figures most convincing are therein cited to prove that the Marconi Wireless Telegraph System will eventually dominate the industry of rapid communication between all nations of the earth. The Canadian Company is one of the most important integers in the world-wide organization which has been planned to control the world's means of rapid interchange of intelligence. You should study the Marconi System thoroughly, and particularly the situation of the Canadian Company with reference to this most important world organization.

THE MARCONI WIRELESS TELEGRAPH CO. OF CANADA

Is the owner by purchase of all the patents of WILLIAM MARCONI and his associates as applied to Wireless Telegraphy for the Dominion of Canada. It is so intimately associated with Marconi's Wireless Telegraph Company, Ltd., of England, the Marconi Wireless Telegraph Company, of America, that it is an essential factor in the progress and development of the System. It is the owner of a high power wireless telegraph station located at Glace Bay, Nova Scotia, shortly to be opened by Mr. Marconi, for the transmission of telegraphic messages between England and the Continent of America. It has equipped nine wireless telegraph stations on the Atlantic Coast and St. Lawrence River within the Dominion, and has equipped three ships of the Canadian Government and five ships of the Allan Line. MESSAGES DESTINED FOR PASSENGERS ON BOARD THE ALLAN LINE STEAMSHIPS OR ANY OF THE SEVENTY-FIVE (75) TRANSATLANTIC SHIPS, CARRYING THE MARCONI EQUIPMENT MAY BE DESPATCHED FROM SHORE, FROM ANY OF THE 30,000 OFFICES OF THE WESTERN UNION OR POSTAL TELEGRAPH COMPANIES THROUGHOUT THE UNITED STATES AND CANADA. Vessels are in constant communication with land throughout the voyage. The business established through this medium is a very large and profitable one, and is constantly growing. The Canadian Company has the support and backing of the Dominion Government which has granted large subsidies for the installation and maintenance of the System, as an aid to navigation, and is reaching distant and inaccessible points at the outposts of civilization. The day is rapidly approaching when all other systems of telegraphic communications must give way before the advantages of wireless telegraphy, and those who join in the enterprise at this early stage of its existence will reap the large reward which is due to the pioneer in every enterprise. As an investment of $100 in the Bell Telephone Company in 1878 did, in the twenty-five succeeding years, get the investor a profit of over $200,000, so will the investment of a few hundred dollars in the Marconi Wireless Telegraph Company of Canada net the investor thousands of dollars of profit.

Our faith in the destiny of the Marconi Wireless Telegraph Company of Canada is boundless. It will open to Canada its first means of direct communication with the mother country, and will place at the disposal of press and public alike, a medium whereby news and commercial messages may be transmitted direct. It is therefore, to the general as well as to the individual advantage of Canadians to identify themselves with the Company as stockholders.

Further information will be given on application to any of our offices named below. However, in order to be certain that you will procure your full allotment of the stock at the present price, we would advise an immediate remittance for the number of shares you desire to purchase. Address all communications and make all checks payable to

TO CANADIAN INVESTORS

Thomas Patterson & Co. Have a Fine Copper Proposition

Fifty dollars invested in Granite Mountain Mining Company's stock paid the purchaser $34,500, besides several thousand dollars in dividends. One hundred dollars invested in Boston and Montana Mining stock paid the purchaser $44,000, besides several thousand dollars in dividends. A few dollars invested in shares of the Butte Copper Mining & Smelting Company stock, will not only insure you big returns in dividends, but a handsome profit in an increased value of the stock. Our mine is not a prospect but a copper mine which has produced $160,000 in profits in the last three years.

For the purpose of buying adjoining ground we have placed on the market 50,000 shares of our treasury stock. This stock is fully paid and non-assessable. Par value $1.00 per share. We will sell any part or all of this lot at 60 cents a share; no certificate issued for less than 100 shares. Send us your order for what stock you want and we will reserve it for you, pending your investigation of our company; and when you have received our prospectus and satisfied yourself that the investment is a good one, you can send us the money and we will issue the stock, or have the stock sent through any bank you may designate. References: Any Bank or Mercantile House in Butte, Montana. Write us for particulars. Butte Copper Mining & Smelting Co., Butte, Montana, or to Thos. Patterson & Co., Fiscal Agents, Peterborough, Ontario.

A BISHOP ON "BRIDGE."

The Anglican Bishop of Quebec Warns society People Against "Bridge in Lent (From our own Correspondent)

Quebec, March 13. — Bridge and euchre playing is reported to have gained quite an ascendency in certain circles of Quebec society, according to an announcement made by His Lordship Bishop Dunn from the pulpit of St. Matthew's Church in the course of an Ash Wednesday sermon. The Bishop was preaching upon the duty of self-sacrifice during Lent, and urged that even innocent pleasure might well be suspended during the solemn season, such as the assembling of pleasure parties, which were often in themselves, at other seasons of the year, not only harmless but desireable enjoyments. Though, continued the Bishop, if what he had heard of some Quebec people who played bridge and euchre was true, he feared that they were guilty of unpardonable waste of time by giving up not only evening after evening, but also afternoons and even mornings to the games. The reference made quite a sensation.

ALL GOOD THINGS

must win upon their merits. The International Dictionary has won a greater distinction upon its merits and is in more general use than any other work of its kind in the English language.

A. H. Sayce, LL.D., D.D., of Oxford University, England, has recently said of it: It is indeed a marvelous work; it is difficult to conceive of a dictionary more exhaustive and complete. Everything is in it—not only what we might expect to find in such a work, but also what few of us would ever have thought of looking for.

A supplement to the new edition has brought it fully up to date. I have been looking through the latter with a feeling of astonishment at its completeness, and the amount of labor that has been put into it.

FRANCIS L. JUDD & CO.,
BANKERS AND BROKERS,
CLEVELAND, OHIO.

W. SAILSBURY,
PETERBOROUGH, ONT.

WHAT DO YOU DO WITH THE MONEY YOU SAVE?

Are you depositing it in bank? If so what interest are you receiving? NOT MORE THAN 3 TO 3 1-2 PER CENT we daresay. AND NOW COMES THE VITAL QUESTION. What is the banker doing with your money? The money you have placed with him for safe keeping. For answer read the official bank statement given below of the 1st National Bank of ————. It may be seen at our office as any time. It is as follows:

RESOURCES		LIABILITIES	
Loans and discounts	$300,000 00	CAPITAL STOCK PAID IN	$ 75,000 00
Overdrafts, secured and unsecured	2000 00		
U. S. Bonds to secure circulation	25,000 00	Surplus fund	60,000 00
STOCKS, SECURITIES, ETC.	200,000 00	Undivided profit, less expenses and taxes paid	2,500 00
Banking-house furniture and fixtures	12,000 00	National Bank notes outstanding	24,000 00
Due from National Banks (not reserve agents)	1,000 00	Due to other National Banks	4,000 00
Due from approved reserve agents	12,511 00	Due to Trust Companies and Saving Banks	64 10
Checks and other cash items	1,000 71	Due to approved reserved agents	7 000 71
Notes of other National Banks	2 150 00	Dividends unpaid	4,700 00
Fractional paper currency, nickels and cents	200 00	Individual deposits subject to check	240 272 00
Lawful money reserve in bank, viz—Specie	$46,510 00	Cashiers' checks outstanding	200 00
Legal tender notes	11,000 00		57 510 00
Due from U.S. Treasury, other than 5 per cent. redemption fund	1,000 00		
	$720 000 71		$720,000 71

Pay particular attention to the items printed in bold type. They tell you an interesting story. They show a contemplation of 6% gain. They show that over four times the amount of the authorized capital of the bank or $300,000 has been and is now invested in stocks.

PONDER OVER THIS STATEMENT If you are a bank depositor doesn't it make you think? It should! When reaping the benefit of these investments of YOUR MONEY! Do you get it? Not if the bank knows itself. You get your little 3 or 3 1-2 per cent and the bank gets the rest. Why cannot you

INVEST YOUR OWN MONEY

Your opportunities for ascertaining the value of your investments are just as good as that of your banker. Why do you not utilize these facilities for your own profit? You owe it to yourself and your family and to the world to assert your own INDEPENDENCE. If you have made bad investments in the past, DON'T BE BILLY enough to let the past check your ambition to become your own business manager. Profit by your mistakes and GET WISE.

If you desire information regarding your investment- write to us. If you desire to dispose of your investment write to us. If you desire a new investment that is ABSOLUTELY SAFE and which will return large PERMANENT DIVIDENDS to you instead of your banker.

Write to us at Once. Keep Your Capital in Action.

That is the only way to make MONEY GROW. We will advise you and we will not charge an exorbitant fee for so doing. WE CAN HELP YOU AND WE WILL.

DALY & COMPANY, 440 Old South Building, Boston, Mass.

Consumption is Not Hereditary

It is Not Handed Down From Generation to Generation but is Simply "Caught" by the Germs Getting Into Your Lungs Cured by Catarrhozone

Consumption was formerly believed by some to be due to poverty of the blood. By others it was supposed to be hereditary. Both these beliefs are incorrect.

If the disease passes through several members of the same family it is because the germs get into the clothes, bedding, furniture and carpets that are in general use.

These germs find their way into the air, are inhaled, lodge themselves securely in the throat and lungs, where they rapidly increase, and soon claim another victim.

The only remedy that has cured a genuine case of Consumption is Catarrhozone. Its germ killing vapor is inhaled into every air cell and air passage of the head, throat and lungs, and creates a healthy condition of these organs in which disease germs cannot live.

It is impossible for consumption to make headway in the soothing antiseptic vapor of Catarrhozone is inhaled a few times daily into the lungs. The cause of the disease (germ life) is at once removed, the inflamed mucous surfaces are healed, and a lasting cure effected.

Catarrhozone is breathed right into the lungs. By its soothing influence the soreness caused by coughing is removed. The cough becomes less severe and soon ceases all together. Catarrhozone aids expectoration, quiets the nerves, and lends to the patient a large measure of comfort.

Consumptives are strongly urged to use Catarrhozone as immediate relief always follows. It is a direct method of treatment, and is endorsed by the highest medical authorities everywhere. The balsamic vapor reaches the lungs and respiratory tracts in a speedy manner that no medicine taken into the stomach can do.

Catarrhozone is just as good as a change of climate, equally pleasant and cheaper. It can be used at home at any hour of the day or night and never causes inconvenience or bother.

The complete Catarrhozone outfit contains two months treatment and costs only $1.00. It is a perfect boon to consumptives and their surrounding friends. You cannot afford to miss the benefit of Catarrhozone and should order it today. Sold by all druggists or by mail from N. C. Polson & Co., Kingston, Ont., or Hartford, Conn., U.S.A.

TOWN AND COUNTY NEWS

DASHES HERE AND THERE BY TIMES' REPORTERS

Please Sir! Have a Pass Mister

Something should be done to stop the small boys from hanging around the opera house doors and begging—not for money, but asking everybody, strangers as well as citizens, to take them into the show. It is a very wrong proceeding, and many parents would be horrified if they knew what their boys were up to. There is a show on this week, and every night the same youngsters are whining for admittance. It is a bad lesson for boys at just the time when impressions and habits become a fixed factor in the boy's habits in life.

Death of Mrs. R. Mullen

To-day the mortal remains of Mrs. Mullen, relict of the late Richard Mullen, will take place from the family residence, lot 22, con. 5 of Smith, and proceed to the Little Lake Cemetery for interment. The late Mrs. Mullen died at the age of 61. The deceased came from Ireland with her parents Mr. and Mrs. Ed. Mahood at the age of eight years, they settling in South Monaghan. They afterwards removed to Smith township. She leaves four sons, Messrs. George, Amos, Frederick, and Albert Mullen, all of whom are residents of the township.

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 80 per cent. of these graduating are placed in good positions in Peterborough. Attend school where you have such prospects

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our correspondence course.

W. H. SHAW, PRINCIPAL

Obituary

On Sunday at the venerable age of 80 years, Mr. John Thorp, sr., of South Monaghan, died. He was born in Cavan, but had lived in South Monaghan for a good many years. He was widely known and respected throughout the entire district. His death is mourned by six sons and three daughters. They are John Stephen, Thomas and James of Otonabee; William of Ops; Robert, of South Monaghan, Mrs. W. J. Stewart, Otonabee, and two daughters at home. The funeral will take place from his late residence, lot 16 in 4th concession of South Monaghan at one o'clock this afternoon and proceed to St. Mark's Cemetery, Zion.

"The Course of the Empire."

To-day a large party of farmers from this neighborhood leave, per C.P.R. for the west. They will locate in Assiniboia. The company among others includes J. M. Davidson, Arthur Frankish, D. H. Chamberlain, of Douro, and George Trotter and wife, of Otonabee. Mr. Erastus Davidson and wife, who have been living the last six years at Alameda, Assa., and have been visiting Mr. J. M. Davidson, are returning to the prairies. Messrs. J. M. Davidson, Frankish and Chamberlaine will locate in Alameda, Assa., and Mr. Trotter in Frobisher, Assa. The party will also include several farmers from Norwood, Indian River and other points.

Maple Sugar Soon on Tap

The maple sugar season will soon be on. And indications garnered from the local tin shops, go to show that the outlook for a good supply is bright, as many farmers are buying or procuring more cans and implements for this purpose than for several years. This industry is one that is deserving of enlargement in this section, as the pure article always commands a good price, with a steady demand. Of late years we have purchased the bulk of our maple saccarine products in the eastern provinces, and of a very doubtful nature, as a rule. If the farmers in this section would only give more attention to the possibilities of maple syrup and sugar, they could find a home market at good profit.

$100 REWARD, $100.

The readers of this paper will be pleased to learn that there is at least one dreadful disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address, F. J. CHENEY & Co., Toledo, O.

Hall's Family Pills are the best.

Local Incidents
BY THE TIMES MAN ON THE STREET.

—Charity Board met last night.

—Friday will be St. Patrick's Day.

—The Cereal Company opens on full time next Monday.

—A regular meeting of the Carpentars' Union was held last evening.

—The ice at the Brock street rink is still good, as is that of the Street Railway Rink.

—Rev. R. Seaborn, M.A., Toronto, will deliver the Lenten address in St. John's church to-morrow evening.

—The Fessenden Wireless Telegraphic Company, of Canada, has been incorporated to do business all over Canada.

—The regular quarterly meeting of the officers and teachers of George street Sunday school, will be held this evening.

—The Girls' Guild of George street church will meet this evening. All members are requested to be present.

—The Reds made great gains since Thursday and are certainly on the move. The Blues had a rally in the parlors last night.

—The milliners are busy preparing for spring opening, and the florists in encouraging their sprigs of Shamrocks to sprout.

—A Ladies' Aid Society will shortly be organized in connection with the St. Paul's Church Mission. A number of ladies are interested in the move.

—The Street Railway had half an hour's trouble yesterday evening. The Charlotte street car jumped the track there, however, there was little disturbance of the schedule.

—There is a rumor current that Belmont and Deloro mines will very soon begin operations. How about Myer's Cave Silver Mine in the County of Frontenac?

—Mr. C. O. McHugh, of Orangeville, has been transferred to the C.P.R. telegraph office here as an operator to assist Mr. Rice, who is acting as ticket agent.

—The auction of the tolls for Peterborough market for the coming year will take place in the town council chamber on Thursday, March 23rd at eleven o'clock in the forenoon.

—Mrs. Morrow's chorus class will hold its weekly rehearsal in the T.A.S. rooms Wednesday even. at half-past seven sharp, instead of last night, and it is hoped that all the members will be in attendance.

—Many of the livery stable keepers in town complain that horses, particularly those taken on long back with cut legs and fetlocks, owing to their struggles in the snow when the calks on their shoes do the damage.

—A farmer who undertakes to deliver a load of hay to a town customer these days has a job that requires clever management. The fearful pitchholes have caused many upsets and ruffled the tempers of the most saintly drivers.

—The Globe on Saturday contained an excellent photo of Hon. F. W. G. Haultain, an old Peterborough boy, who has been leader of the Government in the Northwest Territories since 1892 and is probable Premier of one of two new western provinces of Canada.

—The officers and members of the Fire Brigade appreciate the generosity of Mr. Ben. Yelland who recently contributed $10 to the funds of the Brigade in appreciation of the services recently rendered in connection with a blaze at his carriage factory.

—Rev. E. A. Langfeldt has received a letter from Professor Clarke stating that the recent bereavement in his family will not in the least interfere with his course of lectures on Dante, which will be given here from the first to the sixth of May.

—The old three inch main on Water street will shortly be taken up and replaced by a five inch main from London to Dublin. A four-inch main will be laid on Dublin to Harvey and continued along Harvey to connect at London, thus getting rid of the present dead end on Dublin street.

—Mr. Wm. Pringle, principal of the Peterborough Business College has purchased the north-east corner lot of the Dillyett property, the price being $900. The lot has a 40 foot front on Stewart street, and 100 foot on Brock street, and is most desireable for residential purposes. It is understood that Mr. Pringle's object is to build very shortly.

—Mr. Fred Cook, the local sign artist has done himself proud by his latest work of art, the new sign on Mac's cigar store window. This leading cigar emporium however has pretty good attractions on the other side of the window. Mac is a new comer, but is hustling the cigar business.

—Another swindle is being worked in some parts of the province by a man who sells canary birds. They are worth $10, but the owner will accept $1 down, and the remainder when the birds have the ability to sing. With its first bath the bird loses its beautiful yellow and turns into a common sparrow.

When you want a life-like Portrait in Oil, Crayon, or Water Color, don't fail to come to H. Hudson's Studio, where the work and prices are always rights. Gifts in Pictures, Frames and Fancy Work. Lessons in Painting and Pyrographic Work. Studio, 134 Brock street, Peterborough.

—There was a rumor in town for the past few days that the Street Railway contemplated running tracks on Water street. Whilst the manager is non-committal, this hardly seems probable, with George street so near, but if such be the case, the property owners on Water street, will probably forcibly protest against any such vandalism. The street is narrow enough now, and is not a Street adapted to such purposes.

—Fishery Overseer Brady says that if any dead fish come down from Lake Scugog in the spring it will not be because of failure on his part to keep breathing holes open, as directed by the Fishery Department. A good many fishermen are willing to bet long odds that no fish will come down for the all sufficient reason that the lake does not contain any, having been cleaned out last winter.

Personal and Social
Movements of the people in and out of town . . . .

—Miss Lolo Ostrom, of Toronto, is the guest of Miss Ruby Clegg.

—Mr. and Mrs. David Flynn, who have been old residents of Marmora township, have come to town to reside.

—Mr. R. Russell Sparks, late city editor of the Ottawa Free Press is spending a few days with friends in town.

—Dr. Bagshaw, L.D.S., has gone to Toronto as a delegate to the Ontario Dental Association, which is now in session in that city.

—Rev. G. H. Raley of Kitamat, B. C., will occupy the pulpit of George street church on Sunday next and will deliver sermons in the interests of the Women's Missionary Society.

—Dr. Morrison, L.D.S., left last night to attend the annual session of the Ontario Dental Association, which is being held this week in Toronto.

—Mr. Roland Deane is in Kingston. He went there in response to a telegram that his brother-in-law, Mr. Graham, of that city, is in a precarious condition from pneumonia.

—The Rev. E. A. Langfeldt, on Sunday, preached an eloquent sermon against the Separate school question. Though using moderation his arguments were to the point and convincing.

—Mr. Thomas Robson of Fenelon Falls, President of the Skating Rink in that village, and a veteran wielder of the broom is in town. He came down with his hockey team, which played with the T.A.S. team last night.

—Mr. H. T. Strickland left for Toronto yesterday, his niece Katharine Mary, youngest daughter of Mr. J. Percy Strickland, having died in that city on March 12th. The funeral will take place at Lakefield today at 2.30 p.m.

THE INTERCOLONIAL RAILWAY GETS GOLD MEDAL AND DIPLOMA.

Awarded for Its Fine Display at the World's Fair.

(Moncton Daily Transcript, March 2nd, 1905.)

The General Traffic Manager of the Intercolonial Railway has received official notification from the President of the Superior Jury of Awards of the Louisiana Purchase Exposition, to the effect that a gold medal and diploma had been awarded the Railway for the handsomest display made at St. Louis last season.

LOOK to your food.
The Perfect Food is
Grape-Nuts
There's a reason.
Look in each pkg. for the famous little book. "The Road to Wellville"

ONE OF DR. CUPID'S PRESCRIPTIONS.

That Love sometimes cures disease is a fact that has recently been called to the attention of the public by a prominent physician and college professor. In some nervous diseases of women, such as hysteria, this physician gives instances where women were put in a pleasant frame of mind, were made happy by falling in love, and in consequence were cured of their nervous troubles—the weak, nervous system toned and stimulated by little Dr. Cupid—became strong and vigorous, almost without their knowledge. Many a woman is nervous and irritable, feels dragged down and worn out, for no reason that she can think of. She may be ever so much in love, but Dr. Cupid fails to cure her. In ninety-nine per cent. of these cases it is the womanly organism which requires attention; the weak back, dizzy spells and black circles about the eyes, are only symptoms. Go to the source of the trouble and correct the irregularities, the drains on the womanly system and the other symptoms disappear. So sure of it is the World's Dispensary Medical Association, proprietors of Dr. Pierce's Favorite Prescription, that they offer a free reward for women who cannot be cured of leucorrhea, female weakness, prolapsus, or falling of the womb. All they ask is a fair and reasonable trial of their means of cure.

Dr. Pierce's Pleasant Pellets clear the complexion and sweeten the breath, they cleanse and regulate the stomach, liver and bowels and produce permanent benefit and do not re-act on the system. One is a gentle laxative.

"The Common Sense Medical Adviser" is sent free, paper-bound, for 21 one-cent stamps to pay customs and mailing only. Send 50 stamps for cloth-bound copy. Address, World's Dispensary, Buffalo, N.Y.

This is a substantial recognition of the efforts of the I. C. R. to have at the "Greatest of World's Fairs," an exhibit that would attract wide spread attention. The Railway display was one of the leading features in the Forestry, Fish and Game Building, where it was viewed with great interest by thousands of people and made a place of assembly by many sportsmen. The gold medal is awarded for the best collection of mounted animals and mounted fish, in which Department the Railway had certainly the best variety and finest specimens. The diploma is for the general excellence of the exhibit. Both are prizes that were most coveted by exhibitors at the Fair, and are consequently greatly appreciated.

Mr. W. Sallsbury a Good Guesser

Mr. Will Sallsbury of town, took tenth prize in the Mail and Empire's guessing contest as to the number of votes to be cast in the last Provincial election. The exact number cast was 444,497, and Mr. Sallsbury's guess came near enough to win a share in the tenth prize, he getting $10.40, having to share up with thirteen others making a similar guess to his. He also received a special award of $15 for sending in the third nearest prediction on or before Jan. 7th.

Mr. E. F. Mason in a Hustler

Among other notices of incorporation, in the last copy of the Ontario Gazette, is that of the E. F. Mason Company, with a capital of $40,000, and their business that of groceries. Mr. Mason is one of the most progressive merchants in this community. He keeps with one finger on the pulse of the grocery trade, and one eye open for possible extension of his already large business. Since starting only a handful of years ago, Mr. Mason is to-day directing the destines of three different establishments. He will, in all probability, soon acquire more extended premises, and possibly branch out into other places. The newly gazetted concern is what might be called a "close corporation," in that Mr. Mason will probably not sell stock in the company, but keep it among his intimate friends.

KUROPATKIN SAYS ENEMY HAS GIVEN UP PURSUIT.

Japanese Are Only Making Reconnaissances--Foreign Attaches with Russian Army Captured.

St. Petersburg, March 15.—General Kuropatkin, in a despatch dated March 13th, says he has received no further report of any fighting between organised bodies of troops, and announces that the Japanese are making reconnaissances.

In a despatch filed the previous day the Russian Commander-in-Chief notified the Emperor that General Meyendorf fell from his horse on March 10th and fractured his collar bone. He was taken to Harbin and his early recovery is hoped for.

General Kuroki's headquarters in the field, via Fusan, March 15.—The country is swarming with hungry, disheartened Russians, who are surrendering in squads to any pursuing Japanese they meet. Leading Japanese officers have refused to criticise the lack of mobility displayed while driving the Russians beyond Tie Pass. Most of the foreign attaches with the Russian army, including two American and British officers were captured at Mukden.

Japanese left armies, March 9th, via Yinkow, March 14, delayed in transmission.—From noon until darkness yesterday the left column of Gen. Oku's army fought a desperate fight near Likamyu, seven miles north of the River Hun, and five miles west of the railway. The Russian forces outnumbered the Japanese three to one. The Russians, who had been heavily reinforced from the south, rushed out of their trenches to meet the advancing Japanese, and a fierce hand-to-hand fight ensued, the soldiers using their bayonets, and the officers their swords. The Russian casualties were over 10,000 killed and wounded, and the Japanese a little over 3,000. The Russian dead were left on the field in heaps, among them many staff officers. Last night part of the extreme left army reached the railway between Mukden and Tie Pass, destroying it thereby preventing the trains from running north.

The Russians are to-day retiring in large bodies along the main highway. A large Japanese force is holding the main road to cut the Russian retreat.

THE SEPARATE SCHOOL CLAUSE WILL PASS

Many Liberal Members Prepared to Vote for the Clause in an Amended Form.

(Special to The Times.)

Ottawa, March 14.—It is now fairly certain that a large body of Liberal members have decided to vote for the Separate School clause in an amended form, but which, nevertheless, will fasten Separate Schools on the new Provinces for all time to come, unless the people rise in their might and demand a recast of the Act of Confederation. Premier Haultain's argument on the constitutional phase of the educational clause of the Autonomy bill meets with general acceptance on the Opposition side of the House, and will, no doubt, form part of the case that Mr. Borden will present against the Government proposals when the latter come up for second reading. If their judgment is wrong in the matter, it will be, of course, open to the courts to declare that portion of the Autonomy bills ultra vires.

GERMANY MAY FIGHT JAPAN

They Fear the Japanization of China Which They Claim is Being Done

MUST RETAIN KIAOCHOW

Mikado Already Has Great Power on Celestials—Clay in Hands of Mikado

Berlin, March 14.—Sensational demands were put forth at last night's meeting of the German Asiatic Society that the German Government should intervene to avert "the Japanization of China," which, it was alleged, has been in full swing during the past year and has made enormous progress while the world's attention was fixed on the central battlefields of Manchuria.

The meeting was attended by General von Gayl, who was German civil governor of Peking during the occupation of the allies in 1900, and by numerous other military officers and leading representatives of the German export trade in the Far East. Every speaker, including General von Gayl, forecasted that Germany would, sooner or later, have to fight Japan to retain Kiaochow, in the accomplishment of which task, the chief speaker declared, Germany might count on the support of America and France.

Among other statements made in the course of the evening was the allegation that Japan is actively fomenting an anti-dynastic and anti-foreign movement among the Chinese, and even against the English, who, the Japanese are teaching the Chinese to believe, are systematically misleading and enslaving the coolies in South Africa. Japan is said to have bought Yuanshikai, the most powerful viceroy in China, as fully under its control as Li Hung Chang was under Russian control, and intends that he shall be the next Emperor of China. The reorganisation of the Chinese army under Japanese auspices is said to have made extensive progress, while the building of the great Chinese navy, with headquarters at Tien-tsin, is declared to have been mapped out by the Tokyo Navy Department.

Japan's incredible military triumphs in Manchuria have so overawed China that the Chinese are declared to be already as much clay in the hands of the Mikado's scheming diplomats and military men.

"If London, Europe and America refrain from interfering, a stronger will," said the chief speaker in conclusion.

"Japan already has practically an omnipotent hold on China, and we Germans, if nobody else dare, must put down our foot before it is too late, lest our offspring have cause to be ashamed of the cowardice of their forefathers."

Allen's Lung Balsam

The best Cough Medicine.

ABSOLUTE SAFETY

should be rigorously insisted upon when buying medicine, for upon that depends one's life. ALLEN'S LUNG BALSAM contains NO OPIUM in any form and is safe, sure, and prompt in cases of CROUP, COLDS, deep-seated COUGHS. Try it now, and be convinced.

TELLS OF STOESSEL'S PLIGHT

Commander von Essen, at Dinner, Details Surrender—Tank Ship in Open

New York, March 14.—Standing under the intertwined colors of Russia and America last night, the thirteen gaily-dressed Russian naval officers toasted the Czar and the President of the United States in bumpers of champagne, and then chanted the Russian national anthem, "God Protect the Czar," at the reception tendered by the Slavic Alliance of New York at 240 East Seventy-second street.

Commander von Essen of the battleship Sevastopol talked of his experiences at Port Arthur. He said in part:

"I had been ordered by my superior officers to blow up the cruiser. But I have sunk it in the open sea, just outside of Port Arthur. There were 300 aboard, and not a life was lost. We took to the boats and rowed to the hills surrounding Port Arthur.

Besides being commander of the Sevastopol I had charge of the fortifications on one hill, and with my little forces held it until the general capitulation on Jan. 2.

"Port Arthur was in a lamentable condition. There was scarcely any food and but enough ammunition to last a few days longer. Disease was widespread, but through it all the soldiers and officers made no murmur.

"Gen. Stoessel was personally all along against surrender. He yielded to save the lives of non-combatants.

"For eight long months he had received not a bit of ammunition from Russia, nor any food. He made his fight solely on the supplies within the fortress when the siege began. The Japanese were four to one at all our engagements. Russia entered into this war unprepared, but she will win in the end.

CASSINI'S BRAVE FRONT

Russia Ambassador Declares Peace is not Considered

Washington, March 15.— According to Count Cassini, Russian ambassador, the Russian reverses will have no effect in hastening the inauguration of peace measures. He said today:

"After Liao Yang there was talk of peace. Russia's answer was reinforcements. After Liao Yang Mukden is another retreat and Russia will again answer with large reinforcements, but of peace, not a word."

VAST SUBWAY PLANNED

Gotham Making Ready for Work to Cost $200,000,000

New York, March 15.—Plans for new subways to cost between $200,000,000 and $250,000,000 were approved today by the committee on plans and contracts of the board of rapid transit railroad commissioners.

Should the board approve the supreme court will be called upon to decide which roads shall be built, and following the granting of franchises by the rapid transit commissioners the board of aldermen will have to consider these franchises before work can begin.

"IT PAYS TO ADVERTISE"

A Single Firm Handicaps the New York Post Office in Registered Letters

New York, March 13.—There have been until but continued complaints from different sections of the country for the past fortnight because of the fact that registered letters seemed unduly late in arriving at their destination. Few persons, however, realize the volume of registered letters and packages which a large post office, even such as the one at New York City, is called upon to handle in the course of a business day. Each registered parcel has to pass through a number of hands, and the force employed in this department is ordinarily adequate to handle the business.

But under conditions such as have existed for the past few days, no force of reasonable size could handle the business on scheduled time. The single firm of Munroe & Munroe, of New York, has kept the registered mail clerks busy on its shipments for two hours each night for the past week at the main office of the New York post office, and it is not surprising that such a volume of business would cause a delay all along the line. Of course, there are but few firms which have such a volume of registered matter passing into the post office, but such instances serve as a reasonable excuse for a slight delay in the transmission of parcels sufficiently valuable to warrant the payment of the extra charge of registration.

[The above well-known firm are heavy advertisers in the leading papers, including The Times.—Ed.]

IT IS WRONG

It is wrong for Quebec to force the Separate school system upon Alberta and Saskatchewan. In Wiarton the other night a mass meeting of citizens declared in favor of abolishing Separate schools forever throughout the Dominion. This is the only remedy for the present intolerable conditions.

FAVOR TUNNEL UNDER THE STRAIT

How Residents of P. E. I. Would Solve Blockade Difficulty

MET AT CHARLOTTETOWN

A Delegate Appointed to Visit Ottawa to See Government on Subject

Summerside, P. E. I., March 14.—Prince Edward Islanders in a general convention assembled at Charlottetown, protested most vigorously against the failure of the Dominion to fulfill the bond of union and keep up continuous communications. The business of the whole three provinces has been thoroughly paralyzed for forty-six days. The steamers have not crossed to the mainland, and mails have arrived by frail little iceboats pulled by hand. The forage is short and thousands of tons of Quebec hay is held at Pictou. Much suffering and misery is occasioned. The convention declared unanimously and enthusiastically for a tunnel, and pending construction a more powerful icebreaker to make connection with the mainland. A popular public meeting at night was addressed by Father Burke, Hon. Joseph Read, Hon. Mr. Commeraky, Mr. Tidmarsh, Hon. Mr. Hughes and W. S. Stewart. A delegation composed of Father Burke, McCready, Tidmarsh, McQuarrie, Laman, John McLeary, Hon. Joseph Read and three members of the Provincial Government has been appointed to go to Ottawa and wait upon the Government and urge the construction of a tunnel under the Strait.

What do Peterborough Ratepayers Think?

The Presbyterian ministers of Toronto have decided to call a mass meeting, probably on Saturday evening, to discuss the educational clauses in the Autonomy bill. The Methodist ministers have also decided to take a strong stand against the passing of the educational clauses. In what way the stand will be taken is not yet divulged, but a committee was appointed to draft a resolution. Is it not time that Peterborough ministers were doing something? Are they afraid?

WRITE YOUR MEMBER TO-DAY

LET every elector in Eastern Ontario who supports the cause of Provincial freedom make it a matter of duty and conscience to forward a letter to the member who represents his constituency, urging him to uphold the independence of the new provinces over the educational system. Let this be done TO-DAY.

GENERAL SPORTING GOSSIP

HOCKEY—THE TURF—BASEBALL—LACROSSE

Stanley Cup Receipts

Ottawa, March 14.—The figures for the recent Stanley Cup games have been compiled. On Tuesday 2,368 saw the match, 3,119 on Thursday, and 2,698 on Saturday. The total receipts were $5,209. Of this Day Bros., owners of the rink, got one-third. The remainder after expenses are deducted was divided between the competing teams. Rat Portage team received about $1,200 as their share.

* * * *

Much Truth Spoken in Jest.

The following telegram was received on Friday by President Joseph Johnston of Rat Portage from the manager of the team:

"Condition of ice last night a mystery. For Love ways that are dark and tricks that are deep. Ottawa is peculiar."

The following was sent to the team from Rat Portage:

"Put Harry Hook on the hose. Ald. Dellbridge on electric light switch, provide the team with steel helmets, and you may bring the Cup home." —Winnipeg Telegram.

* * * *

Woodstock Got Cold Feet.

Despite the experiences of the past hockey season, several of the dopesters around town got a hunch on a horse called Cornwall. Oh, yes! It looked like a chunk of easy money, and they would all get down on him the first time out. On reconsidering the matter they thought perhaps the O.H.A. might take a hand in the "fixes" races, and put the good thing to the bad. Cornwall copped at 10 to 1, and has been in the money ever since. It was a five bunch, but the bunch got cold feet.—Woodstock Sentinel-Review.

Another Stanley Cup Series.

Ottawa, March 14.—P. D. Ross, trustee of the Stanley Cup, last night finally disposed of all doubts concerning further games for the Stanley Cup by formally accepting the challenge of the Victorias of Montreal, champions of the C.A.H.L., and allotting Thursday and Saturday of the present week, and Monday, if a deciding game be necessary, as the dates for the series of matches.

The Victoria Hockey Club was at once notified of the acceptance of its challenge and of the dates named, the Ottawas, holders of the Stanley Cup, being at the same time instructed that they would be required to again defend the trophy.

Victorias wanted a sudden-death game in the Capital or a series of home-and-home games, majority of goals to count, but to this the trustees would not agree, as it would be manifestly unfair to the cup defenders. Hence the decision to adhere to the customary procedure of best two in three matches.

"We are prepared to defend 'the Stanley Cup against the world,'" said Mr. R. J. Stillington, manager of the Ottawa Hockey Club, "and, abiding by the trustees' decision, will be ready to meet Victorias on Thursday night as directed. Our boys are suffering from the gruelling effects of the Rat Portage series, the hardest trio of games ever played for the Stanley Cup, but nevertheless, we will defend the world's championship against the best that can be sent against us." Accordingly, it is now up to the C.A.H.L. champions, if they think they have the class to turn down the cup holders and carry off the silverware.

BASEBALL.

The annual meeting of the T.A.A. baseball team will be held to-morrow night. Officers for the season will be elected and other business transacted.

* * * *

On Saturday, March 25th the annual meeting of the Midland Football League will be held in the Y.M.C.A. hall.

This is the information given out by the president of the league, Dr J. A. Morgan, to-day and from present prospects, the meeting will be an important one.

The league has been in existence two years, and last year saw a great improvement over the first season of its existence, and it is expected that the season of 1905 will be even more successful than that of 1904.

The meeting will be held at ten o'clock and this will allow all the out-of-town delegates to return home the same night. When it was organized two years ago, the original intention was that the schools would send teams from the immediate vicinity of Peterborough only and that was the idea of Dr. Morgan and when he instigated the movement which resulted in its organization, but the enthusiasm with which the teams entered into it and the success of the first year's operations, influenced the officers last year in extending it to admit teams from other counties and last season there were teams from the Counties of Peterborough, Hastings, Victoria, Durham and Ontario in the league, and the trophy, which the first year was won by the local Y.M.C.A. team, went to Locust Hill, after a series of hard games, in which the champions proved their superiority. The prospects are that this season will see some faster football played, and the local teams, profiting by last year's experience will combine, and only one Peterborough team will be placed in the league. The Quakers have already organized for the season, and upon this team will be found a number of those who figured on the other two local teams last year, so that the porridge-makers should present a pretty formidable team this year.

Locust Hill, last year's winners, will, of course, be in the league again, and in all probability they will bring in some other teams from that district.

One of the strongest teams in the league this season and one which may be counted upon to be up near the top is the Bridgenorth aggregation. They have engaged a coach and will put a strong eleven in the field.

Some important matters will come before the league at its annual meeting. The rules will have to be revised to meet altered conditions, and Mr. A. Noble, the Vice-President of the league, and one of the best informed football players in the province has charge of the revision, and his report will be submitted to the annual meeting, a week from next Saturday.

The question of affiliating with the Ontario Association will also be discussed.

It is probable that this year the Midland League may become identified with that body, and if this is the case, the winners of the Midland League will be allowed to play off with the champions of the Western Association for the Ontario championship.

The delegate of the Quakers will also submit a proposition to the league to give the members of the winning team, medals, in addition to the cup, and for the purpose of providing funds for this, the proposal will be made that the final games shall be in charge of the league and that a certain percentage of the gate receipts shall be taken for the purchase of the medals.

The attendance at the meeting, will in all probability, be large, and the result will be awaited with interest by the large number of football enthusiasts in this part of the province.

ART EXHIBIT

Opening of the Woman's Art Association Monday

After patient waiting, the people of Peterborough, who are interested in matters of art, were admitted on Monday to a private view of the treasures garnered by the local branch of the Woman's Art Association in the Y.M.C.A. Hall. About 150 ladies and gentlemen availed themselves of this opportunity to attend the opening, and without exception, expressed most emphatically their pleasure in the collection, and the debt that art in Peterborough owes to the stimulus given it by the lady promoters of the association. Miss Wallis, at present close mof a Paris, exhibited three pieces, Mignon, La Toilette, and Dachsund, which attracted attention and admiration. The exhibition of old lace was unique and drew the ladies as sugar does flies. Among the Peterborough artists represented were the Misses Amy Bennett, Bertram, Hatton, L. J. Davidson and A. Hall.

FULL TIME WORK.

The American Cereal Company to Resume Work, at Full Time, on March 20th

"It is an ill wind that blows nobody good," is an old and oft time proven adage, and its local bearing is now evinced by the after effect of the burning, at Cedar Rapids, Ia., of the greatest of the Cereal Company's mills. This fifth finger of the great hand that pours out Quaker Oats to every quarter of the Globe, from Cedar Rapids, Ia., Ackron, O., Battle Creek, Mich., Chicago, Ills., and Peterborough, having been amputated by fire, it has been resolved by the American Cereal Company, to help meet the European demand for their products, once more to run this branch of their industry, at full rate, speed and time. The local establishment will, on Monday, March 20th, once more be a bustling, bustling hive of intelligent workmen and women. This will be good news not only to all classes of labor in town, but particularly to those who worked there before, and whom, the exigencies of business policy have either dismissed or only kept at work for a few days a week. All arrangements have been completed to ensure this being done on the date mentioned, so that no unforseen or unprovided for contingency is likely to arise to prevent it. The Cereal Company are desirous that all old employees wanting to return to regular work, should report for instructions and orders before the end of this week. They will be given the preference for all jobs ahead of new men. Indications point to this arrangement as being either permanent or for a considerable time, as the local representatives of the Cereal Company have not, as yet, had any official intimation that the Cedar Rapids plant will be rebuilt. The local plant are experiencing no difficulty, this winter, with their power, either from lack of water or anchor ice.

25 LIVES LOST AND 40 PEOPLE INJURED IN A FIRE

Terrible Scenes as the Victims Tried to Reach Safety Over Fire Escapes Blocked with Rubbish--List of the Dead and Wounded Will Reach 200.

New York, March 15.—At least a score of people were burned to death, several were so badly hurt that they may die, and forty others received slighter hurts in a fire that practically destroyed a five-storey tenement house in Allen street to-day.

The fire had gained great headway before it became known to most of the tenants, and the escape of many of them were cut off until too late to save themselves.

Thrilling rescues and daring leaps for life, marked the fire. Scores were carried from the burning building. Firemen climbed the walls on their scaling ladders, braved the flames and reached the imperilled tenants. Of the badly injured several may died, as they are terribly burned.

TEN ARE IDENTIFIED.

The known dead are:

RACHEL SOLOMON, aged 45.
JACOB SOLOMON, aged 16.
ISAAC SOLOMON, aged 18.
JESSIE COHEN, aged 15.
ROSE WIENER, aged 23.
SANDER WIENER, aged 4.
IDA MUSKOWITZ, aged 10.
HARRY KAUFFMAN, aged 10.
ROSE MILLER, aged 4.
MORRIS MILLER, aged 5 months.

Crowded fire escapes in the rear of the tenement houses were largely responsible for so many deaths and injuries among its population, which approached 200 souls.

The scenes about the building after the fire was over and when the search for the dead was begun were heartrending. Nothing so pitiful of such proportions has been seen in New York City since the Slocum disaster.

CAUSED BY LAMP EXPLOSION.

The fire started in the basement, occupied by Isaac Davis. His wife and three children. Davis had been out last night and returning to his home early this morning, went into store on the same floor just in time to see a kerosene lamp in the rear explode. He awoke his wife and both tried to put out the flaming lamp, but without success, and then gave all their attention to getting their children out of the burning building. A young man passing the house at the time saw the flames and gave the alarm. A policeman who heard the cries rushed to the scene and every effort was made to rouse the sleeping inmates.

FIRE ESCAPES WERE BLOCKED.

The flames had spread with startling rapidity, and when the persons who had been asleep on the upper floors awoke they found themselves confronted by a wall of flames on nearly every side. Scenes of the wildest description followed, when the panic-stricken agees fighting for their lives, rushed to the fire escapes only to find them littered with rubbish of all descriptions and almost impassable. Down through this cluttered narrow passageway flowed a stream of humanity. On some of the escapes the rubbish was so closely packed that it became impossible to pass certain points, and men, women and children stood literally roasting to death as the flames roared through the windows around them.

A POLICEMAN'S HEROISM.

One of the escapes, which ended near the roof of a shed about 20 feet above the ground, had been manned by John Dwan, a policeman, who had run a plank across to the window of an adjoining building. Nearly a dozen persons had been carried across this narrow bridge by the policeman when the flames began to sweep around the lower end of the fire escape. Rushing into the fire the policeman seized a little child and started on the last return trip across the plank of safety. He had made only half the distance, when the plank, burned more than half the way through, broke where it rested on the fire escape, and the rescuer and rescued fell to the stone-paved yard twenty feet below. The man struck fairly on his back and one of his shoulders was shattered by the force of the fall. The child was uninjured.

SPECTATORS WERE HELPLESS.

In the meantime the firemen had run up ladders at other points around the building, and dozens of persons were being taken from the crowded fire escapes and upper windows. By this time the building was a furnace, and the rescues were effected in many cases only after the greatest show of bravery on the part of the firemen.

DEATH OF MR. THOS. EASTLAND

An Old and Esteemed Resident of the County No More

We regret to chronicle the demise of Mr. Thomas Eastland, of Apsley, who passed away on Friday last, at the ripe old age of 86 years. Mr. Eastland was one of Peterborough's foremost business men thirty years ago, having for many years conducted a large livery business on George street, between Charlotte and King streets, and was also owner of considerable real estate in town. He took up his residence in Apsley over a quarter of a century ago where he lived ever since.

Mr. Eastland was highly esteemed by all who knew him. He was the father of Mr. T. G. Eastland, ex-county councillor, of Apsley. The interment took place in Apsley, the remains being followed to their last resting place by a large number of sorrowing citizens.

Police Court

OFFICIALS

Chief of Police, G. I. Reed
Magistrate, D. W. Dumble

Magistrate D. W. Dumble had a somewhat intricate batch of evidence to weigh and sift the truth out of yesterday. The first case before His Worship was that of a weeping, repentant woman, who had been arrested the preceding night when drunk. The Magistrate gave the poor creature a few well chosen words of sound advice, and allowed her to go.

The next case was that of the Italians connected with the stabbing affair of some time ago. These prisoners have for weeks been detained in Castle Nesbitt, their case having had some eight or ten enlargements. Fabriano Mensio, or some such high sounding Italian concurrence of vowels, was charged with having been an accessory to the escape of the man who did the stabbing. Mr. R. E. Wood acted for the Crown, and the prisoner was defended by Mr. D. O'Connell. Mr. O'Connell objected to the prisoner's evidence being taken as it might incriminate himself, however, the Magistrate ruled that the prisoner must give his testimony, but as the lawyers say "Without prejudice," i.e., his evidence could not be used against him, in reference to this case. Through the medium of an interpreter, the prisoner gave an account of his time and actions, during the day of the stabbing, and for the two days following. It appears, from his evidence that he had not gone to his boarding place until the third night after the stabbing, but had wandered the streets all one night. His evidence, although somewhat favoring the fact that he knew of the stabber trying to jump out of town, did not positively show that he knew the deed had been done. After carefully reviewing the whole evidence, His Worship, thought, His Worship, through the interpreter gave the prisoners some wholesome advice, as to not settling their arguments by recourse to a knife, but to throw all knives and other such weapons into the lake. After expressing a, by no means thickly veiled insinuation as to the credibility of the prisoners' evidence, he allowed both of them to go. The whole Italian colony being greatly interested in the result, gesticulations and Italian gibberish filled the air.

John Gilligan, who was recently discharged after doing a three months' sentence in the jail here, for vagrancy, and who, the day following his release, was again re-arrested and sent to the Central Prison for six months as a confirmed vag., has written a long letter, from his present lodging house in Toronto, the Central, to the Minister of Justice, Ottawa, complaining that the sentence was unjust and excessive.

In his appeal for clemency, he affirms that when he was arrested the day following his release, he had $2 in his pocket, that he is a moulder by trade, and has a fully paid-up card in his possession from the Moulders' Union, and that, after looking in vain for work the day released from jail here, was arrested whilst asking an officer, where he could get work. He makes a strong claim for judical clemency, but the Chief maintains that Gilligan only tells part of the story. His case is under consideration by the Department of Justice.

A VICIOUS ACT.

Rev. J. P. Wilson, of Belleville, on the Separate School Question

It will be interesting for many of our readers to learn that Rev. J. P. Wilson, B.A., of Belleville, formerly pastor of the George street church here, is out against Separate schools. In his sermon on Sunday last he said that at present this country was agitated by a serious matter, namely, that of Separate schools. A crisis was virtually at our doors. The Ross Government wanted these schools, but he did not believe that the majority of the Roman Catholics in the country wanted them. It was to his mind truckling to the Roman Catholic vote. We should object to this wedge being inserted. It was a vicious thing to have this law enacted made in Canada, not in Italy. Equal privileges to all should be the motto.

DIED

EASTLAND—At Apsley, on Friday, March 10th, Mr. Thomas Eastland, aged 86 years.

ADVERTISE IN THE TIMES

Limbs Ached With Weakness

Cheeks Were Sunken and Pale—Appetite Poor—Sleep Hard to Obtain

FERROZONE

Made a New Woman of Mrs. Clarence Agustus of Walkerville

When you want to get over weakness and sleeplessness without stopping work, use Ferrozone. It is the one sure remedy that brings bracing health at once.

Try Ferrozone and notice how much better you will feel. Mrs. Clarence Augustus, of Windsor, writes:

"My weakness was chronic.

"It seemed to invade every organ of my body.

"My cheeks were sunken and pale.

"I had no appetite, and slept very poorly.

"Since using Ferrozone I am like a new woman. My nerves have no more aches or weak spells.

"Ferrozone is indeed a grand tonic."

It's the nourishment in Ferrozone that makes you feel good. It puts life into the blood, energy into the nerves, makes you dance and snap with new found health; try Ferrozone, 50c. per box, or six boxes for $2.50; at all dealers in medicine, or Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $2 per year, strictly in advance.

UNION LABEL

PETERBOROUGH, MARCH 15 1905

LOSSES AND COST OF THE WAR

What seems an accurate table of the losses of the first year of the Russo-Japanese war has been compiled by the London Daily Mail. The total casualties on both sides is set down at 340,000. Exclusive of these who have died of disease, 40,000 have been killed. In the Manchurian campaign 57,250 Japanese were killed or wounded, against 110,000 Russians, the prisoners being estimated at 600 and 3,483 respectively. About Port Arthur the Japanese loss in killed and wounded was 55,900, and the Russian 11,400, with 32,000 captured. In addition, 1,700 Japanese and 2,527 Russians were lost at sea. It thus appears that the total loss exclusive of disease in the year 189,410 by the Russians and 115,549 by the Japanese.

How great the loss from disease on the Russian side is not known, although scattered information indicates that it is very great. It may be deemed certain that the number of deaths from disease exceeds the number of wounded able to return to the ranks. If this is so the subtraction from the Russian army has amounted to 100,000, which suggests, with the difficulty of working the Siberian Railroad, why the Russian army has not grown large enough successfully to attack the Japanese. On the Japanese side, because of the perfection of her sanitary arrangements, the disease loss has been trivial, and allowing for the wounded who are again in the ranks, it is not probable that the net loss of the Japanese army has been 75,000, or less than half the Russian net loss.

These loss figures are larger than has been expected by many who followed the war news. In the American civil war, a conflict deemed most bloody, the number of union soldiers killed in battle in four days was 90,000. The number of Russian and Japanese killed in one year, with the two armies combined, not as numerous as the union armies, is at least half as great, and probably more. If the war should last for four years, and the number engaged were to equal that of the civil war, the losses in Manchuria would doubtless be as heavy as the Americans endured, even counting their appalling mortality from disease, which carried off four men to every one who fell in battle.

In the way of materials it appears that the Russians have lost 230 guns, seven battleships, thirteen cruisers, and a quantity of other vessels, of a total value of $80,000,000. The Japanese have lost fifteen guns, one battleship, four protected cruisers, and two coast defence boats. Finally, the total cost of the war so far has been $900,000,000; $535,000,000 has been paid by Russia and $365,000,000 by Japan.

THE WEAK AND DELICATE PEOPLE envy the strong and robust. We are told that "The D & L" Emulsion builds up solid flesh and that it does not disturb the digestion. Why not ask your druggist about it?

ADVERTISE IN THE TIMES.

NO WARRANT FROM THE PEOPLE

One of the bad features of the sectarian autonomy legislation which Sir Wilfrid Laurier is attempting to force through parliament, is that it has no warrant whatever from the people. Sir Wilfrid kept his intentions from the knowledge of the country—from the knowledge even of the bulk of his colleagues in the Cabinet—trusting only to a couple of French-Canadians and the papal ablegate, who was consulted, and is still being consulted by the Premier of Canada in respect of Canadian legislation. The coercion clauses of bills were a surprise. Not many years ago, were such a thing attempted in Canada, there would have been an outcry against it that would have compelled postponement and reconsideration. In an article on this subject the Toronto News says:

There is a suggestion of sinister design in the method in which this legislation has come before parliament. During two or three years Mr Haultain and his colleagues carried on negotiations with Ottawa for territorial self-government. Then, suddenly, just as parliament was dissolved a few months ago, it was announced by Sir Wilfrid Laurier that legislation giving autonomy to the West would be introduced and pressed to a conclusion at the first session of the new parliament. But while there were whispers of a bargain between the government and the Roman Catholic Hierarchy, both political parties were interested in keeping the school issue out of the contest. Hence persons who ventured to suggest that the government's intention in this connection should be clearly stated were violently denounced as meddlers and disturbers, and professional traders in sectarian animosities. Under these circumstances the government secured an overwhelming majority in the constituencies, and Sir Wilfrid Laurier now proposes to take advantage of this majority, obtained upon other grounds, to guarantee and endow Separate schools in the Western territories.

This was sharp and uncandid dealing, and that Sir Wilfrid Laurier should adopt these methods and sanction these proceedings fills the country with amazement.

THE DELINEATOR FOR APRIL

April being an important month in the fashion world, the April Delineator is primarily a fashion number, containing an elaborate portrayal of the Spring styles and the latest fashion news. In the literary portion of the magazine the first instalment of a new serial story by Albert Bigelow Paine is an item of note. It is called "The Lucky Piece; a Story of the Mountains," and promises well from the early chapters. In "The Rights of the Child," a new serial feature, it is announced, Dr. Grace P. Murray will discuss every phase of the care of children; the first paper, on "The Coming of the Child," contains information that has never before been presented in popular form and will be of great assistance to young mothers. Another series, "Little Sketches of Travel," opens with an intimate description of the children of Oberammergau, later to be known to fame as the actors in the Passion Play. Amateur collectors will be able to gain much useful information from an article on lustre ware by N. Hudson Moore, and Gustav Kobbe contributes a very interesting paper, strikingly illustrated, on "The Stage and the Second Self." Short stories by Virginia W. Cloud and Elmore E. Peake are other features, in addition to pastimes and tales for children by Frank L. Baum, Grace MacGowan Cooke and others. The domestic columns are of particular interest and ably edited.

ATHLETIC WORLD

BY OUR SPORTING EDITOR

This week will likely end the most successful curling season in the history of the local club. The executive have decided to have a fitting finale by a big club bonspiel commencing to-night. First, second, third and fourth prizes will be given to the winners and runners-up in the finals and semi-finals. Following is the draw;

To-day at 7.30 the preliminary round of 16 ends will be played, the draw being,—

Ice No. 1—Knapman v. Bellingham.
Ice No. 2—Gilmer v. Mudd.
Ice No. 3—Davidson v. Hall.
Ice No. 4—Frost v. Clegg.
Ice No. 5—Ferguson v. Matthews.
Ice No. 6—Cameron v. Aylmer.

To-night at 9 o'clock, 10 ends, preliminary round—

Ice No. 1—Rutherford v. Stanger.
Ice No. 2—Connal v. Wingh.
Ice No. 3—Edwards v. Morrow.
Ice No. 4—Brown v. Brightman.

To-night at 9 o'clock, 10 ends, first round—

Ice No. 5—Winners of 1 v. winner of 2.
Ice No. 6—Winner of 3 v. winner of 4.

Wednesday at 7.30, first round 10 ends—

Ice No. 1—Winner of 5 v. winner of 6.
Ice No. 2—Winner of 7 v. winner of 8.
Ice No. 3—Winner of 9 v. Giroux.
Ice No. 4—Winner of 10 v. Waddell.
Ice No. 5—Kerr v. Neill.
Ice No. 6—Thompson v. Dixon.

Thursday, second round, 14 ends, at 8 o'clock—

Ice No. 1—Winner of 11 v. winner of 12.
Ice No. 2—Winner of 13 v. winner of 14.
Ice No. 3—Winner of 15 v. winner of 16.
Ice No. 4—Winner of 17 v. winner of 18.

Friday evening at 7.30, semi-finals, 10 ends—

Ice No. 1—Winner of 19 v. winner of 20.
Ice No. 2—Winner of 21 v. winner of 22.

Friday evening at 9 o'clock, 10 ends finals—Ice No. 1, winner of 23 v. winner of 24.

After the finals there will be presentation of the prizes and refreshments.

Rules—1. All games must be played on scheduled time.

2. Unless there are two regular members of a rink on hand, the game will be forfeited.

3. When there are two or more members of a rink present the secretary will have power to fill in the rink from unmatched members and members of other rinks which are not playing at the time.

Skips must arrange to have members of their own rinks.

Want to try an experiment?

Then take any one of the hundreds of new medicines on the market. They come, they go, and are soon forgotten.

Or want to be cured?

Then take a medicine that has been tested and tried, generation after generation. A medicine that has been a household remedy for sixty years. Ayer's Sarsaparilla.

Intelligent, thoughtful people are relying more and more upon this old standard preparation.

WHAT DO YOU DO WITH THE MONEY YOU SAVE?
NOT MORE THAN 3 TO 3 1-2 PER CENT
Are you depositing it in bank? If so what interest are you receiving? We daresay, AND NOW COMES THE VITAL QUESTION. What is the banker doing with your money? The money you have placed with him for safe keeping. For answer read the official bank statement given below of the 1st National Bank of ——————. It may be seen at our office at any time. It is as follows:

RESOURCES		LIABILITIES	
Loans and discounts	$308,299 51	CAPITAL STOCK PAID IN	$ 75,000 00
Overdrafts, secured and unsecured	322 33	Surplus fund	60,000 00
U. S. Bonds to secure circulation	20,000 00	Undivided profit, less expenses and taxes paid	3,161 65
STOCKS, SECURITIES, ETC.	200,000 00	National Bank notes outstanding	20,000 00
Banking-house furniture and fixtures	13,000 00	Due to other National Banks	4,200 45
Due from National Banks (not reserve agents)	1,000 25	Due to Trust Companies and Saving Banks	94 10
Due from approved reserve agents	13,511 48	Due to approved reserve agents	7,200 71
Checks and other cash items	1,630 21	Dividends unpaid	4,784 00
Notes of other National Banks	3,150 00	Individual deposits subject to check	340,373 08
Fractional paper currency, nickels and cents	200 00	Cashiers checks outstanding	200 00
Lawful money reserve in bank, viz—Specie	$44 510 00		
Legal tender notes	11,000 00	57 510 00	
Due from U.S. Treasury, other than 5 per cent. redemption fund	1,000 00		
	$720,830 38		$720,830 38

Pay particular attention to the items printed in bold type. They tell you an interesting story. They show a capitalization of $75,000. They show that over four times the amount of the authorised capital of the bank or $300,000 has been and is now invested in stocks.
PONDER OVER THIS STATEMENT If you are a bank depositor doesn't make you think? It should! Who are the benefit of these investments of YOUR MONEY! Do you get it? Not if the bank know itself. You get your little 3 or 3 1-2 per cent and the bank gets the rest. Why cannot you
INVEST YOUR OWN MONEY
Your opportunities for ascertaining the value of your investments are just as good as that your banker. Why do you not utilize these facilities for your own profit? You owe it to yourself and your family and to the world to assert your own INDEPENDENCE. If you have made bad investments in the past, DON'T BE FILLY enough to let the fact check your ambition to become your own business manager. Profit by your mistakes and GET WISE.
If you desire information regarding your investment—write to us. If you desire to dispose of your investment write to us. If you desire a new investment that is ABSOLUTELY SAFE and which will return large PERMANENT DIVIDENDS to you, write to us at once.
Write to us at Once. Keep Your Capital in Action.
That is the only way to make MONEY GROW. We will advise you and we will not charge an exorbitant fee for so doing. WE CAN HELP YOU AND WE WILL.

Figure it out for Yourself

FORTUNES ARE BEING MADE IN KANSAS OIL

Here's a fortune for you. Not 10% but 100% and no risk of loss. Giant of the Oil Fields.

The Midland Oil and Gas Company

has over 160 acres of oil land and has put down 10 wells, so the land is proved up. An adjoining additional 80 was secured yesterday, making over 260 acres all in the proven belt. Just read this:

The U. S. report on the oil industry places the average daily production of Pennsylvania wells at only one-half a barrel each per day. The Midland wells are pumping

Sixty Barrels a Day Each.

The pumping plant has just been started and this is the surprising result. Nothing like it in the world. The officers and directors of this company are bank men and do not believe in debts, so the company is free from debt. They have nearly $20,000 in cash and bills receivable in the treasury and everything paid for—property, wells, pumping plant, oil tanks, well cleaning machine and everything connected with the company. Have two drilling rigs working night and day sinking wells. Have abundance of gas, which runs the drills and pumping plant, so it only costs about $5.00 a day to produce and market the oil.

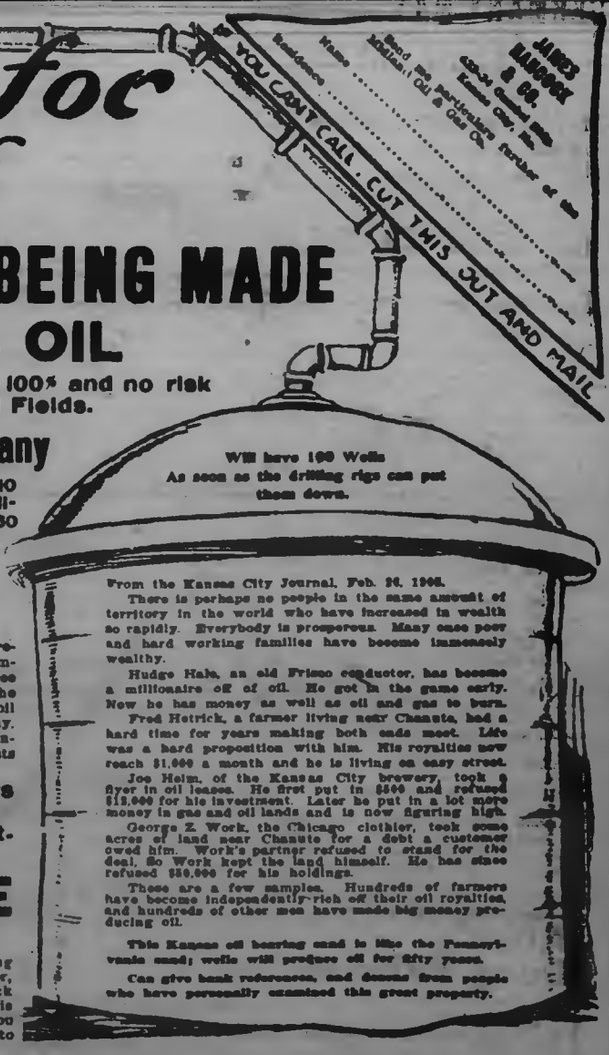
The Company has about 33 per cent of its stock in the treasury as a reserve.

For a short time the Company will sell a little more of its stock at only

7½ CTS. A SHARE

Buy all you can raise money to pay for.

We could talk all day about it and not cover all the strong points. But as the company has its grand property paid for, there is only one side to it, and that is profit. Don't buy stock in a company that tells you what they will do, but buy in this company, that has proved its property, and every dollar you put in makes it better. Send for particulars or mail check to



JAMES HANCOCK & CO.
YOU CAN'T CALL. CUT THIS OUT AND MAIL
Will have 160 Wells
As soon as the drilling rigs can put them down.
From the Kansas City Journal, Feb. 24, 1905.
There is perhaps no people in the same amount of territory in the world who have increased in wealth so rapidly. Everybody is prosperous. Many once poor and hard working families have become immensely wealthy.
Hudge Hale, an old Frisco conductor, has become a millionaire off of oil. He got in the game early. Now he has money as well as oil and gas to burn.
Fred Hetrick, a farmer living near Chanute, had a hard time for years making both ends meet. Life was a hard proposition with him. His royalties now reach $1,000 a month and he is living on easy street.
Joe Heim, of the Kansas City brewery, took a flyer in oil leases. He first put in $500 and refused $12,000 for his investment. Later he put in a lot more money in gas and oil lands and is now figuring high.
George Z. Work, the Chicago clothier, took some acres of land near Chanute for a debt a customer owed him. Work's partner refused to stand for the deal, so Work kept the land himself. He has since refused $50,000 for his holdings.
These are a few samples. Hundreds of farmers have become independently rich off their oil royalties, and hundreds of other men have made big money producing oil.
This Kansas oil bearing sand is like the Pennsylvania sand; wells will produce oil for fifty years.
Can give bank references, and dozens from people who have personally examined this great property.

K&K NOT A DOLLAR NEED BE PAID K&K

ESTABLISHED 25 YEARS.

UNLESS CURED

THE MASTER SPECIALISTS OF AMERICA

We know the diseases and weaknesses of men like an open book. We have been curing them for 30 years. We have given our lives to it, and thousands upon thousands of men restored to Vigorous Vitality are today living monuments to the skill, knowledge and success of Drs. Kennedy & Kergan. We never hold out false hopes, we never undertake a case we cannot cure. We have made so thorough a study of all the diseases of men—of Varicocele, Stricture, Blood Poisons, Hydrocele, Nervous Debility, Paralysis, Bladder, Urinary and Kidney Diseases, General Weakness, Loss of Vitality, and have cured so many thousands of cases that if there is a cure for YOUR disease you will find it here. When we undertake a case there is no such thing as failure. We charge nothing for consultation and our knowledge, skill and experience are at your service. We will explain to you How and Why We Can Cure You; why the diseases of men require the knowledge and skill of Master Specialists. We do not require to experiment with your case as we know from experience in treating thousands of cases exactly what to prescribe for your symptoms. Don't be discouraged if you have treated without success with Quacks, Faith, Electric Belts, Free Trials, etc. You must get cured—and Doctors alone can cure you. Our New Method System of treatment has stood the test for 25 years—why should it fail in your case. Should your case prove incurable you need not pay us a dollar. We refer you to any Bank in this city as to our financial standing. If you cannot call write for a Question Blank for Home Treatment. Consultation Free. Booklets sent Free.

DRS. KENNEDY & KERGAN

148 SHELBY STREET, DETROIT, MICH.

TO CANADIAN INVESTORS

Oregon-Idaho Gold Mining Co.

INCORPORATED

Capital $5,000,000. Shares $1.00 Each, Par Value, Fully Paid Up and Non-Assessable.

We have just secured the agency for the above splendid proposition, of which we have been allotted a block of Treasury stock. We can confidently recommend this as a safe and, we believe, exceedingly profitable investment. Every dollar of stock is guaranteed by twenty year, full paid, gold bond, delivered to purchaser of stock, from an investment Company that has no interest whatever in the company, but who are disposing of the debentured bonds to the public, and, under their charter, they are compelled to deposit securities to an equal amount, to the State Treasurer under which they received their charter, there by doubly securing the payment of their gold bonds.

The Company's property, which is now past the project stage, is known to be marvellously rich in gold.

Following is the opinion of G. W. Miller, Mining Engineer, formerly with the Boston and Montana Consolidated Copper and Silver Mining Company, U. S.; Simmer and Jack Mining Co., Limited, Klandafontain South Africa:—

"You have here a most valuable property and one of the strongest fissure veins that can be found in any part of the world.

"With the present development of the Monument Mine, I estimate that 100 tons per day can be extracted, which will mill from $18.00 to $30.00 per ton. The total cost of mining the ore, delivering and milling, I place at about $4.00 per ton. With the present milling capacity, it is safe to say that the mine can furnish 100 tons of $15.00 ore, which would yield a clear profit of $11.00 per ton, or $1,100.00 per day (equal to $400,000.00 per annum). Estimated total value of ore in sight, $2,500,000."

During the past summer, a party of the Company Directors visited the property, taking with them, Amos P. Brown, Ph.D., Mining Engineer and Professor of Geology and Mineralogy at the University of Pennsylvania. Dr. Brown writes as follows:—

"In regards to the amount of ore available at the mines at Sinclair, I saw on the dumps several thousand tons, probably 5000 tons would be an under-estimate.

"As to the size of the ore body itself, from what I saw of the geological structure, I think that there is every indication that it will be found to extend underground as far as the out-croppings on the south side of the gulch. This would mean an ore body large enough to keep the present mill running for many years to come.

A write up of the proposition will appear in these columns in a few days. Watch for it. In the meantime we will be pleased to furnish full information to investors.

THOS. PATTERSON & CO.,

FISCAL AGENTS. PETERBOROUGH

25000 SHARES

The above number of shares of stock that is worth to-day on the open market $3,500, will be given to any person that can find in America another mining company that has spent about $800,000 on its properties, that has ten smelter, with sampling mill, dust chambers, hot blast stove, electric power plant, steam power plant, 1000 ton capacity ore bins, 600 ton capacity coke bins, railroad over one mile long, engine on track, offices of company with fireproof vaults, boarding houses and dwelling houses. All of the above will be completed by the time you read this ad. Ore in sight to last from 2 to 3 years, averaging $30 per ton, $24 copper, $6 gold and silver. 1200 foot working tunnel, shaft with three levels are handled by gravity dropping from one level to another through winzes into our own railroad cars, which when then be hauled to the smelter, that will sell or has ever sold their stock

10 CENTS PER SHARE - PAR VALUE $1.00

This is what I am doing with the stock of the

Great Western Gold Company, OF REDDING, CALIFORNIA

I will give the above amount, 25,000 shares to any person that can find its equal in America at this price. We expect to be running in full blast inside of 30 days, and paying dividends on $1.00 stock by the 1st of June.

If you desire a first class, honest, legitimate mining investment, send me your cheque for all you can buy immediately! As this will likely be advanced to $1.00 per share inside of 30 or 60 days. Do not write to me about this proposition unless you mean business as my time is too valuable. Your money is what I want, for I believe positively I can return it to you at the rate of 100 per cent. annually on your investment after dividends are once commenced. If you really desire other information looking to an investment, write me immediately, as stock at this price will soon be gone

BALLOT BOX CASE

Grand Jury Has Already Been Empaneled at Belleville

Belleville, March 14. — The grand jury for the spring assizes, which opens here to-day has been empanelled and consists of the following; W. G. Wright, Tyendinaga, R. McTaggart, Tyendinaga; I. Brennan, Tyendinaga; J. M. Bird, Stirling; G. B. Hagerman, Rawdon; S. Green, Rawdon; F. G. B. Allen, Deseronto; F. D. Alport, Frankford; E. E. Lewis, Belleville; W. A. Denyes, Thurlow; T. Hurley, Thurlow; P. Doran, Hungerford. T. Hurley of Thurlow, is a son of J. M. Hurley, ex-M.P., fishery overseer for Eastern Ontario.

The department of justice evidently thinks that the parties charged with conspiracy will freely exercise their right to challenge jurymen, for the attorney-general has directed the sheriff to empanel an extra number of jurymen, and 96 have been summoned to attend the court. Upwards of one hundred witness have also been subpoenaed, so that the court-room will be pretty well filled with witnesses and jurymen. Outside of the ballot box cases the only riminal case is that of Onslaw Wynn, who is charged with stabbing and hreating to kill.

Rielly of Kingston, who gave sensational evidence at the investigation, was here a few days ago, and incon was here a few days ago, and in conversation expressed the opinion that he would get off light. He will, it is said, place his defence in the hands of a well known Conservative lawyer of this city.

It is not likely that the ballot box cases will be reached before Wednesday, as the first day is expected to be taken up with a few civil cases and the grand jury's deliberations.

DIVERGENT VIEWS ON CANCER

Orth and von Hansmann Say it is not Parasitic—Leyden Says it is

Berlin, March 14.—Prof. Orth, the famous pathologist of Berlin University, and Prof. von Hansmann, also a well-known authority, stated last evening at a meeting of the Berlin Medical Society that cancer was neither contagious nor parasitic. They also declared that the supposedly alarming increase in the number of cases was wholly due to the fact that more cases were recognised now than formerly.

Profs. Orth and von Hansmann added that their investigations had failed to show that cancer was epidemic in particular places or prevalent in certain families through heredity. They urged that the public be induced to abandon the theory that the disease was contagious because it caused unnecessary odium to be attached to cancer sufferers.

Prof. von Leyden, an equally high authority, combated the theories of Profs. Orth and von Hansmann. He said the disease was parasitic and that parasites imbedded in the cells caused the inflammation. He declared that chemical researches had demonstrated the parasitic nature of cancer.

TO CANADIAN INVESTORS

Thomas Patterson & Co. Have a Fine Copper Proposition.

Fifty dollars invested in Granite Mountain Mining Company's stock paid the purchaser $34,500, besides several thousand dollars in dividends. One hundred dollars invested in Boston and Montana Mining stock paid the purchaser $44,000, besides several thousand dollars in dividends. A few dollars invested in shares of the Butte Copper Mining & Smelting Company stock, will not only insure you big returns in dividends, but a handsome profit in an increased value of the stock. Our mine is not a prospect but a copper mine which has produced $160,000 in profits in the last three years.

For the purpose of buying adjoining ground we have placed on the market 50,000 shares of our treasury stock. This stock is fully paid and non-assessable. Par value $1.00 per share. We will sell any part or all of this lot at 60 cents a share; no certificate issued for less than 100 shares. Send us your order for what stock you want and we will reserve it for you, pending your investigation of our company; and when you have received our prospectus and satisfied yourself that the investment is a good one, you can send us the money and we will issue the stock, or have the stock sent through any bank you may designate. References. Any Bank or Mercantile House in Butte, Montana. Write us for particulars. Butte Copper Mining & Smelting Co., Butte, Montana, or to Thos. Patterson & Co., Fiscal Agents, Peterborough, Ont.

AMERICAN'S FIND IN EGYPT

Mr. Davies Unearths a Royal Tomb Containing Rich Treasures

London, March 14.—A correspondent of The Times gives an account of a discovery in Egypt by Theodore M. Davies which, he says, is the most important made by any explorer since Egypt was opened to European research.

Mr. Davies has found a tomb never plundered or visited since the age of the Eighteenth Dynasty, and still filled with royal treasures of the time when Egypt was mistress of the East and the source of its supply of gold.

The tomb was found on February 12, midway between the well-known sepulchres of Rameses IV. and Rameses XII. It proved to be the burial place of Yua and Tua, parents of the famous Queen Tyie, wife of Amenhotep III., and mother of Amenhotep IV. of the Eighteenth Dynasty.

The treasures, with which the tomb was packed from end to end, constitute the richest spoil of ancient Egypt it has fallen to the lot of any explorer to unearth.

All those suffering with

Boils, Scrofula, Eczema

will find

Weaver's Syrup and Cerate

invaluable to cleanse the blood

David & Lawrence Co., Ltd., Montreal.

SEALED TENDERS addressed to the undersigned, and endorsed, "Tender for Stable, Royal Military College, Kingston, Ont.," will be received at this office until Wednesday, March 29, 1905, inclusively, for the erection of a brick stable at the Royal Military College, Kingston, Ont.

Plans and specifications can be seen and forms of tender obtained at the office of Mr. Arthur Ellis, Architect, Kingston, Ont., and at this Department.

Persons tendering are notified that tenders will not be considered unless made on the printed form supplied, and signed with their actual signatures.

Each tender must be accompanied by an accepted cheque on a chartered bank, made payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the tender, which will be forfeited if the party tendering decline to enter into a contract when called upon to do so, or if he fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,

FRED. GELINAS,

Secretary.

Department of Public Works,

Ottawa, March 11, 1905.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

ADVERTISE IN THE TIMES.

ALEXANDER MUNROE AND GEO. H. MUNROE

CALL ATTENTION TO

The Marconi Wireless Telegraph Co., of Canada

Capital Stock, $5,000,000. Par Value of Shares, $5.00 Each. Full Paid, Non-Assessable

EVERY STOCKHOLDER ON AN EQUAL BASIS

NO BONDS —— NO PREFERRED STOCK

Shares in the above named Company are offered for subscription by Munroe & Munroe at $5 each, in blocks of from one share to 200 shares for a limited period only. Every indication points to the early and rapid advance in value of these shares, and those who are desirous of making a profitable investment of their surplus should lose no time in forwarding their application for as many shares as they can conveniently purchase at this time. No enterprise of modern times offers anything like so good an opportunity for rapid and substantial accretion as the Marconi investment. We demonstrate this to the satisfaction of all investigators in our book entitled "Financial Aspect of the Marconi Investment," which we will send free to all who request it. Facts and figures most convincing are therein cited to prove that the Marconi Wireless Telegraph System will eventually dominate the industry of rapid communication between all nations of the earth. The Canadian Company is one of the most important integers in the world-wide organization which has been planned to control the world's means of rapid interchange of intelligence. You should study the Marconi System thoroughly, and particularly the situation of the Canadian Company with reference to this most important world organization.

THE MARCONI WIRELESS TELEGRAPH CO. OF CANADA

Is the owner by purchase of all the patents of WILLIAM MARCONI and his associates as applied to Wireless Telegraphy for the Dominion of Canada. It is so intimately associated with Marconi's Wireless Telegraph Company, Ltd., of England, the Marconi Wireless Telegraph Company, of America, that it is an essential factor in the progress and development of the System. It is the owner of a high power wireless telegraph station located at Glace Bay, Nova Scotia, shortly to be opened by Mr. Marconi, for the transmission of telegraphic messages between England and the Continent of America. It has equipped nine wireless telegraph stations on the Atlantic Coast and St. Lawrence River within the Dominion, and has equipped three ships of the Canadian Government and five ships of the Allan Line. MESSAGES DESTINED FOR PASSENGERS ON BOARD THE ALLAN LINE STEAMSHIPS OR ANY OF THE SEVENTY-FIVE (75) TRANSATLANTIC SHIPS, CARRYING THE MARCONI EQUIPMENT MAY BE DESPATCHED FROM SHORE, FROM ANY OF THE 30,000 OFFICES OF THE WESTERN UNION OR POSTAL TELEGRAPH COMPANIES THROUGHOUT THE UNITED STATES AND CANADA. Vessels are in constant communication with land throughout the voyage. The business established through this medium is a very large and profitable one, and is constantly growing. The Canadian Company has the support and backing of the Dominion Government which has granted large subsidies for the installation and maintenance of the System, as an aid to navigation and in reaching distant and inaccessible points at the outposts of civilization. The day is rapidly approaching when all other systems of telegraphic communications must give way before the advantages of wireless telegraphy, and those who join in the enterprise at this early stage of its existence will reap the large reward which is due to the pioneer in every enterprise. As an investment of $100 in the Bell Telephone Company in 1878 did, in the twenty-five succeeding years, net the investor a profit of over $200,000, so will the investment of a few hundred dollars in the Marconi Wireless Telegraph Company of Canada net the investor thousands of dollars of profit.

Our faith in the destiny of the Marconi Wireless Telegraph Company of Canada is boundless. It will open to Canada its first means of direct communication with the mother country, and will place at the disposal of press and public alike, a medium whereby news and commercial messages may be transmitted direct. It is therefore, to the general as well as to the individual advantage of Canadians to identify themselves with the Company as stockholders.

Further information will be given on application to any of our offices named below. However, in order to be certain that you will procure your full allotment of the stock at the present price, we would advise an immediate remittance for the number of shares you desire to purchase. Address all communications and make all checks payable to

MUNROE & MUNROE

Canada Life Bldg., Montreal. Broad Exchange Bldg., New York. State Mutual Bldg., (50 Congress St.) Boston.

Sure Investment

While I have already given the readers of this paper a fairly decent outline of the present and prospective value of the Boston & Texas Corporation stock, which I have been offering at the ridiculously low price of 50 cents the share, there are, nevertheless, a great many things of a favorable nature of a necessity left unsaid owing to the limitation and expense of newspaper space. I should like to tell you of the town buildings, the hotel, the store, the compounds, the barns, the sheds, the rotary and cable drilling rigs, the pipe, the engines, the boilers, etc.; in fact, all about the outfittings necessary for the developing of the Corporation's great property; the whole constituting an equipment that cannot be duplicated short of $75,000. I should like to tell you in detail of the independent ice and water companies, newly established there, and the profits that they are making for their stockholders; also of the many opportunities in kaolin, coal and other minerals for independent operation. I would like to show you photographs, maps, blue prints, and literature of authority, all of which have importance and weight in enabling one to arrive at an intelligent decision. I have also the reports of the San Antonio Daily Express the Kansas City Citation, and the Pleasanton Monitor, newspapers published within a few miles of the Corporation's property and which deal with its most recent oil discoveries, fresh from the pens of the reporters, who, visiting the field in search of sensational news, found it, and having found it wrote of it as the facts presented themselves. Particularly would I like to have you see the reproduction of the U.S. Government map as it appeared in the San Antonio Daily Express of last August, whereon is shown the railway line that is soon to directly connect the Boston & Texas Corporation properties with San Antonio, the great distributing centre and the largest city in the State of Texas. I also want you to write me and ask me questions. Then I can give you information at first hand. I am thoroughly acquainted with the property. I have travelled all over it. I have made every investigation that a careful, conservative man could make. I have got my own money invested in the enterprise to such an extent that I am one of its directors. I am kept in close touch with everything that is done in regard to its development, and I advise with my associates on all points concerning its policy and the expenditures necessary thereunto. I am in a position to keep all investors in this section fully posted on all of the Corporation's work at all times and I pledge myself to do so. I have stated my position thus frankly and at length, because I want your assistance in this great work of development, and to secure your co-operation I offer you stock in the same at less than one-half of its real value, I honestly believe. Fifty cents for stock that is morally certain to pay six, eight or ten per cent. on a par value of $1.00 in less than 15 months is worthy the serious consideration of every man and woman who has "idle money," that is, money deposited in savings bank, where only three per cent per annum is being earned, and where the security is no greater, even if it be as great in the latter as in the former. Again I say WRITE. Take up this investment with me in the manner which it deserves. References Mr. John C. Thompson, retired merchant, of Quebec, and any banking or any commercial institution in Montreal or Quebec.

Powerful Healing Effective Cure

FOR COLDS, COUGHS, CATARRH BRONCHITIS AND ASTHMA

Simply Inhale Catarrhozone; it Cures Because it Goes where the Disease Actually Is.

Three diseases cannot be cured by stomach medicines; they must be treated locally. Catarrhozone is inhaled to the very source of the trouble, and gives the diseased membranes local treatment with the strongest, most-healing antiseptics known.

After one trial of Catarrhozone you will wonder how you ever lived without it. Nasty colds in the head it cures in an hour; coughs are stopped in two hours, and catarrh and bronchitis are relieved at once. Nothing could be simpler or more pleasant than to inhale the fragrant vapor of Catarrhozone. Nothing is half so certain to cure your trouble permanently.

Nor is proof of Catarrhozone's merit lacking, for it is endorsed more strongly by the medical profession than any other remedy. Its superiority to-day is unquestioned, and its sales for cures throughout the world are two remedies on the market. Why? Because it does what is claimed for it—cures permanently those who use it for any disease of the breathing organs.

Mr. S. E. MacAuley, the well-known attorney of Portland, endorses Catarrhozone in the following letter. "I am anxious to make known that after three years' suffering from weak throat and catarrh, I have been cured by Catarrhozone. I was treated by many doctors of wide reputation. I have used scores of different remedies. I have suffered everything catarrh entails, and I am convinced that no medicine is so sure to cure as Catarrhozone, which did me untold good and completely eradicated this awful disease from my system."

Complete outfit, guaranteed to cure costs $1, sample size 25c. At all druggists or N. C. Polson & Co. Kingston, Ont., or Hartford, Conn. U.S.A. Beware of substitutes and insist on getting Catarrhozone when you ask for it.

SHOOT SO MATCH.

On Friday, March 17, commencing at 1 o'clock, there will be a shooting contest at Chemong Park, open to all comers, when some valuable prizes will be offered for competition. Lovers of that pastime invited. Roads are in fairly good condition.

Mr. Boyce Recovered

Mr. Arthur Boyce, the forward of Fenelon Falls' Hockey team, who, as noted in yesterday's issue, was hurt in the match on Monday night, between Fenelon Falls and the T.A.S. left for home at noon yesterday. Mr. Boyce, was so badly injured as to be laid up for some hours in the National Hotel, and the services of Dr. F. J. Bradd, were called in. The doctor however, tixed him up so that he was enabled to go home.

Mr. Samuel McCabe Laid to Rest

This morning an old and respected citizen of Peterborough, will be laid to rest in the tomb. On Monday morning, after a long illness, Mr. Samuel McCabe, at the age of 70, passed away, at his residence corner of Lock and Lansdowne streets. Besides a long list of friends the deceased leaves a wife and three nephews, Messrs. Daniel, James and John McCabe, to mourn his loss. The funeral will take place from the family residence this morning at nine o'clock, and proceed to St. Peter's cathedral, where requiem mass will be sung, thence to St. Peter's cemetery for interment.

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 80 per cent. of these graduating are placed in good positions in Peterborough. Attend school where you have cash prospects.

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our correspondence courses.

W. H. PRINGLE

Matched Race for 24th May

This journal has it on good authority that Mr. Johnston's famous mare Donna Belle, will be matched in a race at the Driving Park, for the 24th May, against Mr. Martin Connor's Lady Gothard. Mr. Callahan, it is said, is willing to back Lady Gothard for a considerable amount. The race, if the match is definitely arranged will be mile heats, three in five. It is also said that Doc. Johnston is willing to put up.

Next Saturday's Pop

The Y.M.C.A. intend henceforward, in view of the success attending the Pops that have already popped, to hold them weekly until the end of the season. On Saturday, March 18, "Early Canada" will be illustrated by stereoptican views. The slides will be presented by the lecturer, Mr. E. Serigley, commercial master of the Collegiate Institute. The program will also include musical selections and other interesting features. The public is cordially invited.

The Canal Survey

The Government party which is surveying the route for the Trent Valley Canal between Rice Lake and Trenton, arrived at Hastings last week. They will first sound Rice Lake to get the depths, after which they will work as far as Hastings. Owing to the lake being frozen over at present, the work will be easily accomplished. Good progress is also being made on the Rice Lake, Cobourg route. The surveyors are near Cobourg, and should be here in another week or so. When the reports of the three surveys are in the best route will be chosen.

Artistic Specimens of Photography

As noted in a former issue, Mr. J. W. Greene, the well-known Hunter street photographer, has sold out his gallery to Mr. J. Le Roy Richmond. The purchaser has taken full control of his recent purchase, and samples of work done by him, since coming to Peterborough, fully justify the reports that were current as to his unusual superiority in photographic art. A representative of this journal has had the pleasure of seeing some of Mr. Richmond's work, some beautifully toned photographs of well known townspeople. Mr. Richmond has gained the benefit of experience among some of the best known galleries in the Dominion and evidently has put his experience to a good use. He reports that he is receiving a good share of the town's business.

The Deadly Tussock Moth

A gentleman of this town, well versed in arboriculture, recently called the attention of this journal to one great enemy that threatens our numerous shade trees. He says that the Tussock moth has done great damage to shade trees, and that precautions should be taken to exterminate the pest. The cocoons should be stripped off and destroyed whenever seen. This gentleman says that one or two cannot successfully cope with this enemy of the trees unless citizens in general co-operate with them. He further states that there are thousands of cocoons of this moth on houses, and trees situated on private property including fences; unless these are cleaned off and destroyed, our shade trees are in danger of extermination.

Local Incidents

BY THE TIMES MAN ON THE STREET.

—The Ontario Legislature will open on Wednesday of next week.

—St. Luke's Parish Work has entered upon its 28th year of publication.

—Rev. Geo. Warren will be the special preacher at St. Luke's tonight.

—The Oriental Hotel's omnibus was out on wheels yesterday, a sign of spring.

—Mr. Geo. Fax, the well-known humorous delineator will appear at the T.A.S. concert on St. Patrick's Day.

—Brigadier Howell, of Toronto, is expected to conduct special services in the Salvation Army Hall on Sunday next.

NO; YOU CANNOT SELL "any old thing" merely by advertising. Many liniments are advertised. Only one, Perry Davis' Painkiller, has stood the test for sixty years. Today it is more popular than ever. 25 & 50c.

—To-day the time for receiving tenders for the supply of cement for the Board of Works Department will expire.

—The 57th Regimental Band will hold the third of their series of popular concerts in the opera house on Friday, March 25th. A good program is in course of preparation.

—Last night the members of Dan Spence Council, R.T. of T. held an open meeting in their hall, George street. In addition to a good program, Rev. F. J. Scott, of Murray St. church gave an address. Refreshments were served at the close.

SCALD HEAD is a disgusting and obstinate disease, unfortunately frequently in children. The proper treatment includes perfect cleanliness and a generous application of Weavers Cerate. Mothers will be glad to learn this.

—An unusual sight for Peterborough, was yesterday to be seen, a United States cavalry uniform. Mr. Rollie Clinkmaale, son of Mr. Robert Clinkmaale, is home for a time on leave from his regiment, the 8th U. S., Cavalry, now stationed in Oklahoma. He was dressed in all the splendor of the uniform.

—Bricks are in great demand with a supply that is short.

—Mr. B. Gliddon, director of the Peterborough Conservatory of Music has been appointed choir leader in the George street Methodist church, appointment to date from April 1st. and Mr. Milner, the present organist, will be retained in that position.

—Mr. H. R. H. Keener delivered an address "A Ramble through the City of Seven Hills," at the meeting of St. Paul's Young Man's Guild last night. His lecture was very entertaining, and listened to with much interest by a large audience.

—The marriage is announced of Miss Dollie Irwin, daughter of Mr. Thos. C. Irwin, Stewart street. Miss Irwin has been successful in pursuing her duties as professional nurse in Chicago, and vicinity for several years past. Peterborough friends will congratulate her on her new affiance which she has formed with a well-to-do resident physician of large experience in Montreal near Chicago.

Personal and Social

Movements of the people in and out of town . . . .

—Capt Maurice Lane, of Bobcaygeon, is in town.

—Miss Jean Fraser, of Norwood, was in town yesterday.

—A. Rose, D.D.S., of Toronto, is in town on a short visit.

—Mr. Patrick McCauley, of Trenton, was in town yesterday.

—Miss Eva Firth, of Toronto, is in town, the guest of Mrs. C. G. Graham.

—Mr. W. S. Given, editor of the Millbrook Reporter, was in town yesterday.

—Miss Rene Coulter of Bethany, is the guest of Mrs. J. T. C. Lang, Rubidge street, for a few days.

—Mr. Frank Mercer, of London, is in town for a few days, the guest of his brother-in-law, Mr. R. Neill.

—Senator McCue and wife, of Lindsay, were in town yesterday, guests at the Snowden House.

—Ald. T. H. Gemmell, of Guelph, formerly of Peterborough, is spending a few days in town.

—Mr. George Bickle, well known here, has been appointed housekeeper of the Toronto Parliament Buildings.

—Mr. H. C. Cook, arrived in town yesterday morning, with a fine colt by Direct Hal, who has a mark of 2.04, dam Miss Paisley.

—Mrs. Frank Campbell, Wescott street, accompanied by her friend, Mrs. Crowe, are spending a few days at the former's home in Springville.

—Mr. J. Jeffries, the language master at the Collegiate Institute has been too ill to attend the school for two days.

—Mr. Adam Davidson, a member of the A.O.H. has been confined to his house, 35 Sheridan street, for about two weeks. He has been seriously ill, but is somewhat improved.

—Mr. A. J. Mills, of London, England, a member of the firm of Mills & Sparrow, is the guest of Mr. T.F. Matthews. Mr. Mills is the British agent of the Matthews Company.

—Mr. Robert Weir, P.G.M., of the R.B.K., of B.N.A., left Monday evening accompanied by his son Maxwell E. Weir, D. P., to attend the Grand Lodge of Ontario East, now in session at Ottawa.

—Master Floyd Sager, son of Mr. Sager, left yesterday morning in company with his father to resume his studies at the Institute for the Blind at Brantford. Miss Laura Sager accompanied them as far as Toronto.

—Rev. J. G. Potter is in Toronto attending a meeting of the General Assembly Home Missionary Committee of the Presbyterian church, which is arranging for the supply of mission stations in the North-West for the coming summer.

—The Lindsay Post says; Mr. Robt. Cunningham, who has been in charge of the carpet department of Dundas & Flavelle, Limited, for the past six months, moved to Peterborough with his wife and daughter to-day, having been offered a more lucrative position with the Robert Turnbull firm of that town. Mr. Cunningham will be greatly missed by the members of the D. & F. staff and also by the Cambridge street Methodist Sunday school, where he was a capable teacher. The Y.M.C.A. will also be deprived of a valuable supporter. Mr. Cunningham having been a member of the Association male quartette. His many friends will wish him success in our sister town.

THERE IS NO SUCH THING as a harmless cough. The trouble goes from bad to worse unless checked. Allen's Lung Balsam cures the worst of colds. It allays inflammation and clears the air passages.

Rev. H. H. Ketchen for Norval

The Rev. Mr. Ketchen, has not been in the best of health of late, and has found the burden of work in his present charge very onerous, so has decided to make a change. The departing assistant of St. Paul's some time ago preached at Norval and he has been asked to return there early in April and deliver another sermon. From private sources it has been learned that he is likely to be invited to the pastorate there. The work is not heavy and it would afford him plenty of time for study and exercise. Mr. Becket of Queen's College, Kingston, a theological student, will it is expected, preach in St. Paul's church and mission next Sunday. Mr. Ketchen expects to leave town for Toronto next week.

When you want a life-like Portrait in Oil, Crayon, or Water Color, don't fail to come to B. Hudson's Studio, where the work and prices are always right. Gifts in Pictures. Frames and Fancy Work. Lessons in Painting and Pyrographic Work. Studio, 134 Brock street, Peterborough.

BEFORE THE WORLD

The Peterborough Cereal Company's Unique Advertising Methods

One of our largest, and our most recent industry, is the fine new mills of the Peterborough Cereal Company. This new industry, which owes its inception to the minds and methods of Messrs. W. H. Meldrum, W. H. Collier, of Kingston, and other leading capitalists of Peterborough, are now completing arrangements for a world wide system of advertising their products. The company are taking such steps as will lead to the names of "Canada Flakes," and Peterborough incidentally, being household words with every dweller in Great Britain and Ireland, Australia, South Africa, and, in short, every country that rears men, women and children with a fondness for what is good to eat. The motto of the company's products is "Just a little better than the best." They now have the proofs of an immense poster, which is, in itself, a veritable work of art, and will, when the finishing colors and semi-tone tints are added, be as attractive an advertising sheet as the world has seen. The poster, of course, gives most prominence to the company's chief product, "Canada Flakes," and has, standing out well in relief, the figure of a stalwart Canadian, standing in a wheat field, with the waving grain waist high about him. In a kind of cartouche, beside the main picture, is an admirable reproduction of the world's greatest lift lock, with a description in a few words of the scene, and in large type, the words "The Food of Quality and Quantity." These beautifully colored, and artistically designed posters, spread broadcast throughout the world cannot but make business for the Peterborough Cereal Company, and attract universal attention to this town.

The company will have a varied list of cereal products, but will make a speciality of "Canada Flake," a delicious food somewhat like Force and Orange Food. No expence or chemical analysis of the company's products are to be spared to put on the markets of the world, an article that will be a little better than the heretofore best. The company have already ordered ten thousand of these artistic posters for their Canadian advertising.

TYPHOID GERMS.

The microscope shows that in the blood of every person suffering from typhoid the little germs can be found as shown above. They are supposed to get into the water or milk we drink. The germs multiply so that one germ is capable of producing about one hundred trillion germs in twenty-four hours. That is why if they ever get into the water supply of a town they multiply so fast that nearly everybody drinking the water comes down with the disease. There are exceptions, however, and they are the persons whose health is perfect, whose blood is pure, and liver active. When the germs get into a healthy body they are thrown off with the other poisons. Recent Chicago statistics show that one-eighth of all the deaths in the past two years in that city have resulted from pneumonia.

The best advice we can give is to put the body into a perfectly sound, healthy condition. Be assured that you have rich, red blood and an active liver.

Many years ago Dr. R. V. Pierce, who is consulting surgeon to the Invalids' Hotel and Surgical Institute at Buffalo, N. Y., found certain herbs and roots which, when made into a concentrated extract (without the use of alcohol), seemed to be the very best means of putting the stomach, blood and vital organs into proper condition.

This seemed to him as close to nature's way of treating disease as it was possible to go. For over a third of a century Dr. Pierce's Golden Medical Discovery has had a wonderful sale and the cures resulting from its use are numbered by thousands. It is a tissue-builder, better than cod liver oil because it does not sicken the stomach, or offend the taste. It strengthens or renews the assimilative or digestive processes in the stomach and puts on healthy flesh when the weight of the invalid is reduced below the normal.

Accept no substitute for "Golden Medical Discovery." Nothing else is "just as good."

Dr. Pierce's Pellets cure biliousness.

NOTICE

NOTICE is hereby given that a By-law was passed by the Council of the Corporation of the Town of Peterborough on the 14th day of December, A.D., 1904, providing for the issue of Debentures to the amount of $3,000 for the purpose of paying for alterations in the heating apparatus of the Central Public School, and that such By-law was registered in the Registry Office of the County of Peterborough on the 14th day of March, A.D., 1905.

Any motion to quash or set aside the same or any part thereof, must be made within three months after the first publication of this notice, and cannot be made thereafter.

Dated the 14th day of March, 1905.

S. B. ARMSTRONG

IT PAYS TO PAY FOR THE BEST IN FURS . . .

ESPECIALLY so now, during our great Reduction Alteration Sale During this month of March the order of the day is—FURS MUST "MARCH." The season is late. Work will commence shortly at the alterations in our store and factory. We must now clear stock out.

Buying direct from trappers and foreign raw fur collectors for spot cash prices, manufacturing these furs in our factory, every article carefully put together by expert furriers, and the direct supervision of the whole by two practical furriers who own this business, means to our patrons absolute protection as to quality and price that no other firm in Canada can surpass. All our Furs are not only guaranteed, but we have reduced their cost to you by saving all go-between profits with which most furs are burdened, and now during this sale.

You can get furs at less than wholesale cost to clear stock out immediately.

THOS. BARRIE & CO.,

Furriers, Hats and Furnishings.

JAPAN IS GENEROUS TO VANQUISHED FOE IN HOUR OF VICTORY

Peace and Not Pursuit to the End is to be the Spirit of the Islanders' Attitude

AMERICA TO BE MEDIARY.

Prominent Diplomat Says Intimation of Readiness to Negotiate will be Made in a Few Days.

Washington, March 16.—When the smoke shall have lifted from the terrible battlefield of Mukden and fully revealed the extent of the disaster that has overtaken the Russian nation, the world will be surprised and glad to discover that the Japanese attitude as to the future is one of moderation and even of generosity to a fallen foe.

While all the world is wondering how much will remain of Kuropatkin's great army by the time the insurgent Japanese have finished with them, and while military authorities everywhere are sounding the praises of Marshal Oyama, the modern Napoleon, the official and diplomatic world is speculating as to the immediate future and the prospects for peace.

Obviously the current talk of peace negotiations must be more or less conjectural. The many and conflicting reports that come out of St. Petersburg throw no satisfactory light upon the intentions of the Czar. Nor is it expected that the Russian Emperor will seriously take up the great program of what he and his Government are going to do till after the veil shall have been lifted from Mukden and the surrounding country and it be ascertained whether or not Kuropatkin has even the remnant of an army left to form the nucleus of a new fighting force.

One man's guess that the Czar will now be forced to conclude peace may be no more valuable than another's guess that the damaged pride and latent patriotism of the Russian people will now be so roused that the Government simply must continue the war to the bitter end.

But in this hour of crisis in the history of the Russian nation, and, indeed, in the history of the whole Euro-Asiatic continent, one most important phase of the situation is open to pertinent inquiry and satisfactory response. That is as to the attitude, intensity, of the Japanese Government, and on this score your correspondent is fortunate to have definite information.

The general attitude of the Japanese Government is known in Washington, and probably in the higher official circles of other national capitals. Instead of being drunk with victory, instead of planning to destroy Russian power throughout all eastern Asia, instead of indulging dreams of a mighty advance to the westward toward European Russia itself, with the payment of enormous war indemnity as the price to be paid for staving the feet of the irresistible invader, the Japanese attitude is one of extreme moderation and fairness. If the Czar is finally convinced that his cause is a hopeless one and that peace must be had there is high authority for the statement that Japan will smooth his way as much as possible and make it as easy as circumstances admit for the Russians to swallow their pride and stop the horrible butchery.

It is premature to talk of terms in detail. Even the Japanese have not come to that. There is no substantial evidence that the Czar and his counselors have reached the point where they are willing to inquire what terms may be had from the victor, but it is important to know that the conqueror is in no truculent or voracious mood. If the vanquished nation will but take the trouble to learn the truth it will find that Japan is now as ever ready to open the door to peace negotiations and to assure the inner that behind the door a reasonable man will be found to deal with.

This is precisely what Japan conveyed to the Czar, through Berlin and Washington, after the fall of Port Arthur. Within a few days I have reason to believe, a similar intimation will be conveyed, probably through the same governments, as to the situation created by the fall of Mukden and the virtual destruction of Kouropatkin's army as a fighting force.

Of prime importance in the fact that at the present time Japan's demands are not likely to be much more onerous upon Russia than they were two months ago. We are now able to get an accurate and trustworthy account of what happened after the surrender of that fortress. The Japanese Government decided it would be the part of wisdom and honor for it to intimate in some manner to the Czar that peace might be had on reasonable terms provided the Czar were to seek it. Arrangements were made to convey these intimations in a manner that would neither put Japan in the false attitude of suing for peace nor impinge too sharply upon Russia's pride. Both President Roosevelt and the Emperor of Germany were taken into the secret. The United States was selected as Japan's "next friend" and the Kaiser as the guide and counsellor of the Czar. With their usual tact the Japanese did not call upon the British Government, as the relations between St. Petersburg and London are not as cordial as between the Russian capital and Berlin.

NO PEACE WITHOUT HONOR.

Copenhagen, March 15.—A despatch has been received at the Danish court from Tsarskoe-Selo, in which the Czar is reported to have said that recent events do not make it necessary for Russia to seek peace. No peace, the Czar says, will be made so long as the Japanese are unbeaten and unless it can be made with honor for Russia. The terms that Japan is reported to be ready to accept will never be accepted by the Czar.

MAKES FOR PEACE.

Cologne, March 15.—The Cologne Gazette publishes a despatch from Berlin which may be taken as expressing the views of the German Foreign Office. It says that the impression of the German officials is that the final result of the Battle of Mukden and the strategical consequences of it are still undetermined. The enormous losses on both sides will probably stimulate a desire for peace in both belligerent nations.

A despatch from St. Petersburg to the Gazette says that further mobilization of troops will be impossible in Russia if the people declare against a continuation of the war. The Viedomosti, of St. Petersburg, urgently advises the Government to take a popular vote upon the plain question. Shall it be war or peace as the only way out of a critical situation.

NO HOPE OF WINNING.

London, March 15.—The Standard's St. Petersburg correspondent says that the Zeitung of that city declares that the Battle of Mukden completes a chain of reasoning compelling the conclusion that Russia has no chance of winning, and the sooner this is honestly conceded the better.

MESSAGE FROM THE GRAVE

Joseph Kennedy Left a Note "Setting Right Some Details of the Evidence

London, Ont., March 14.—On Saturday the remains of Joseph Kennedy were brought to this city, to be given to the Medical College. This morning a statement was found in one of the pockets of his coat. He does not confess that he murdered Irene Cole, nor does he deny the crime. Evidently all that he wishes to do is to set right some details of the evidence. He says that he did not have a chicken on the day that Irene Cole was murdered; but that it was on the day previous that he purchased the fowl and devoured it. When he was arrested on the first occasion, he stated that the police led him to believe that he was wanted for sleeping in a barn.

WEATHER NOTES

Fair and mild.

WILL BE SUBMITTED TO THE SUPREME COURT?

To Test the Constitutionality of the Educational Clause in the North West Autonomy Legislation in English Courts--Nothing will be Done in Parliament with Reference to the Bill Before Next Year.

Ottawa, March 16.—A well-defined impression exists that the Government has agreed to submit the question of the education clause in the autonomy legislation to judicial interpretation, thereby postponing the legislation to next session.

The constitutional positions of Sir Wilfrid Laurier and Mr. Haultain contain widely different interpretations of the British North America Act, and Mr. Haultain's argument has evidently had a powerful effect upon public opinion and upon a large portion of the Liberal party.

It is reported on good authority that Mr. Fitzpatrick has made the statement that the question which involves the interpretation of clause 93 of the British North American Act will be submitted to the Supreme Court, and that the session will be finished by Easter.

The Supreme Court will be busy for some time, and an appeal to the Privy Council may be expected, so that if the case is to be the decision of the Government, a somewhat indefinite postponement of the whole issue will ensue.

Montreal, March 16.—Le Canada, the organ of Hon. Mr. Prefontaine, publishes a despatch from Ottawa this morning, which states that it is rumored in the corridors of the House of Commons that the whole question of the creation of the new Northwest Provinces will, in all probability, not be discussed any further during the present session. The representatives from the Territories are generally of the opinion that the important clauses of the Bill will have to be examined from a purely legal standpoint, and that the Privy Council in England will be called upon as a last resort to pronounce respecting the bearing of the British North American Act on this legislation. If this news rests on any serious foundation nothing will be done in Parliament before next year.

WRITE YOUR MEMBER TO-DAY

LET every elector in Eastern Ontario who supports the cause of Provincial freedom make it a matter of duty and conscience to forward a letter to the member who represents his constituency, urging him to uphold the independence of the new provinces over the educational system. Let this be done TO-DAY.

RETURNED FROM THE INAUGURATION

Hon. Peter McSweeney Passed Through the City

VERY IMPOSING CEREMONIAL

Canadian Visitors Shown Every Courtesy and Kindness by Washington Authorities

Montreal, March 15.—Hon. Peter McSweeney, of Moncton, was at the Queen's Hotel, yesterday, on his way back from Washington, where he attended the ceremonies connected with the inauguration of President Roosevelt. The Senator was very much impressed with the ceremonial used on that occasion.

Senator Dandurand, speaker of the Senate, was head of the party which officially visited the capital of the United States on that occasion. Hon. Sir Mackenzie Bowell and Hon. Peter McSweeney were the other members of the senatorial party. Mrs. Dandurand and her daughter, who attends school at Washington, together with Mr. F. H. Clergue and Mrs. Clergue, were the other members of the Canadian party.

"We were shown every possible courtesy by the authorities at Washington," remarked Senator McSweeney. We were even given the right to seats on the floor of the Senate. This is a more important privilege in Washington, than it is in Ottawa. With us any ex-cabinet minister, a judge, or any distinguished visitor is, as a matter of course, given a seat on the floor of the Senate or the House of Commons. At Washington, however, it is different. It is necessary there that there should be a vote or a resolution of the House.

"We were invited to luncheon at the White House. Unfortunately, however, we were unable to accept the invitation. Sir Mackenzie and I had to leave for New York, the evening before, and Senator Dandurand had to leave that day.

One thing I remarked while in Washington and New York was the absence of Canadian newspapers. I tried both in Washington and New York to get some news of what was going on in Canada. The local papers published nothing of our affairs, and though I tried several news stands, I could not get a single Canadian paper. This surprised me all the more, because I have been at Los Angeles and other points on the Pacific coast, and there I could get Canadian news. Senator McSweeney left for Ottawa.

THE CANADIAN MANUFACTURERS

Programme for Their Entertainment While in London

HALIFAX AND ESQUIMALT

Statement in British House by War Secretary—Lord Roberts is Coming

London, March 16.—Mr. Crombie, member for Kincardine, late in the House of Commons, last night asked the First Lord of the Treasury, Hon. A. J. Balfour, whether in the event of a Colonial conference meeting in 1906, before a general election, the question of Imperial unity on the basis of preferential duties for Colonial produce would be submitted to the conference.

Premier Balfour said: "I have over and over again stated in the course of this Parliament that we propose to take no steps as regards fiscal reform."

Mr. Crombie persisted in his request for an answer as to whether instructions for a Colonial conference would be given by Parliament or by the Government but Mr. Balfour's only reply was that the honorable gentleman should wait till the date for such conference was rather nearer.

ENTERTAINMENT OF MANUFACTURERS.

Provisional arrangements have been made by a committee of the London Chamber of Commerce for entertaining the Canadian manufacturers during their week's stay in London. On Monday Mr. S. B. Bolton will probably give a garden party at Lottridge, at which Royalty is expected to be present. On Tuesday the manufacturers will visit the Royal Ordnance Factory at Woolwich. On Wednesday will be held the official banquet at Hotel Cecil. Thursday is left open. Friday there will be a special entertainment at the Botanic Gardens by the Industrial Club and on Saturday Lord Brassey will probably give a garden party at Battle Abbey, at which provision will be made for 250 guests.

HALIFAX AND ESQUIMALT.

In the course of the debate on the army estimates in the House of Commons, the Secretary of State for War, said the Dominion Government had offered to assume at an early date the entire responsibility for garrisoning Halifax and Esquimalt, and for providing Canadian troops for the purpose, and until these troops were ready paying the cost of the Imperial troops retained at those stations. "Arrangements for this are not yet complete, but I have no doubt a satisfactory conclusion will soon be reached."

COL. HUGHES' RESOLUTION.

The Evening Standard and St. James's Gazette, referring to Colonel Hughes' proposal for a full partnership between Great Britain and the Colonies, says: "It would be well in some respects, if we could copy the alertness and rapidity of the Colonial mind. We have hardly begun to dream such dreams here, while Canadians are not only seeing the vision, but looking on its realisation. The time is not yet, but we must be prepared for it if the Mother Country is to keep pace with her sons."

LORD ROBERTS' VISIT.

The Canadian Associated Press has learned that at a dinner Saturday night at one of the London clubs, Mr. Colonial Secretary Hon. Alfred Lyttelton, mention to Lord Roberts that in a provincial papers he had seen a cable from Canada that Lord Roberts intended visiting Canada.

Lord Roberts replied: "Yes, yes, I am going to Canada, and I think I am to open the Canadian National Exhibition at Toronto."

ENGLISH VIEW RE SCHOOL QUESTION

The London Chronicle Hopes for Lord Strathcona's Mediation

FORMER SERVICE RECALLED

The Chronicle Instances Lord Strathcona's Share in Riel Rebellion Peace Negotiations

London, March 16. — The interest with which Englishmen are following Lord Strathcona's doings in Canada is evidenced by an article in the Daily Chronicle today, indicating with what effect he could, if asked, intervene in the school crisis.

The Chronicle instances the benefits arising in 1870 and in 1894 from Lord Strathcona's intervention as a pacificator in the North-West crisis and recalls the dramatic incident when at the height of the Riel negotiations Lord Strathcona allowed his right foot to be frozen rather than break the thread of the negotiations, and also how very near settlement he succeeded in bringing the Manitoba school negotiations with Premier Greenway.

It Sir Wilfrid Laurier seeks Lord Strathcona's aid in a purely non-party spirit, with the intent only to avert a dangerous revival of the racial problem, the Chronicle anticipates an honorable way of escape from the most thorny situation.

EVIDENT SUICIDE

Mr. Thos. Blute Shoots Himself at Campbellford

On Tuesday the quiet little village of Campbellford was thrown into excitement by the tragic death of a man well known there for years. Mr. Thomas Blute. The rash act was committed, by Mr. Blute, who tired of life's troubles, took a gun out into the woodshed, to the rear of his residence, in Campbellford, and, judging by the position of the remains, and the relative direction in which the gun was found, he must have placed the gun's butt on the woodshed floor, and with the gun pointed towards his stooping body, pulled the trigger. He was discovered by his daughter, lying in the woodshed with a double-barreled shotgun beside him. One barrel had been discharged, the shot entering the lower part of his body.

The deceased had been for some years in Campbellford, and had formerly been proprietor of the Windsor Hotel. Mr. Blute was a man about 55 years of age, and has not been feeling well for some time.

Y.M.C.A. DEBATING CLUB

A well attended meeting was held last night by the Y.M.C.A. Debating Club. After roll call was held, and had been answered by questions, the following program was gone through;

A short talk on "Current Events," by Mr. Orr, followed by a five minute talk on a favorite author. Impromptus address by Mr. W. C. Downey, and a spirited debate on the subject, "Resolved that the World is Growing Better, rather than Worse," took place; some very plausible and pointed arguments were adduced.

The affirmative was upheld by Mr. McLaren and Mr. Vowls, and the negative by Mr. Snook and Mr. Hardwyck. The judges, Messrs. Armstrong, Coleman, and Orr, decided in favor of the affirmative.

The Goat Ridden to Millbrook

On Tuesday night about sixty members, including Noble Grand Breckenridge and Past D.D.G.M. Lieut.-Col Miller, of Otonabee Lodge, No. 13, I.O.O.F., chartered a special car, and went to Millbrook. The local brethern met them at the station there, whence they proceeded to Millbrook Lodge, No. 308. The Peterborough brethren who took the paraphrenalia and costumes for degree work with them, formed a good degree team, and assisted in conferring the Initiatory, 1st, 2nd, and 3rd degrees. It was about 2.30 a.m. before the Lodge closed, when after refreshments, the Peterborough contingent returned home. Millbrook Lodge is in a very flourishing condition, the present membership being 92, and the Lodge has been installed eleven years. The members are progressive and make excellent entertainers.

THE TRAP REMAINS

Aldermann Mason Gets Expert Advice as to Proposed Plumbing By-law

Ald. Mason has returned from Toronto, from a long consultation with Dr. Sheard, the medical health officer of that city. The subject under their discussion was the by-law, by which inspection of our towns plumbing would be necessary. The gentlemen took the by-law, clause by clause, and thoroughly weighed the merits of each.

A number of changes were advised by Dr. Sheard, some of which are of importance. Among the more important details, was that referring to the proposed abolition of the outside trap, which had been suggested as admitting of a free course of ventilation from the main sewer, through the house system to the top of the stack, but Dr. Sheard did not approve of this, claiming that it would be impracticable in a small town, where frost during winter months would cause difficulties. He favored the use of a trap as tending to more sanitary conditions in a place like Peterborough.

A number of other minor changes were made. Ald. Mason states that the interview lasted from 9 until 12 o'clock and that one of the plumbing inspectors was present so that expert advice was available. The by-law will be introduced at a Council meeting to be held very soon.

A.O.U.W. ANNUAL MEETING

Mr. J. J. Turner, Sr., a Delegate from the Local Lodge.

There is in progress in Toronto a meeting that will draw the attention of all members of the Ancient Order of United Workmen throughout all Ontario. Mr. J. J. Turner, Sr., has gone as a delegate to the 27th annual meeting of the A.O.U.W. Grand Lordge, and will be one among 500 present, including five ladies. The meeting is being held in the Temple Building.

The question under discussion by the Executive, and which will be the feature of the Grand Lodge is the question of insurance rates. The Canadian Grand Lodge separated from the American Grand Lodge and instituted an assessment rate according to the age of the member at the time of his initiation. This, in some cases was higher than the former rate and in others lower; but it was hoped that by a fixed rate there would be no extra assessments. The Order has found itself unable to meet the death claims without extra assessments, and there is little doubt but that the executive will recommend an increased rate.

A special Committee of five is giving this question their consideration, and they will report to-day. Tomorrow the result of their deliberations, as presented by the executive, will be the first order paper for Grand Lodge to discuss.

P. W. A. A.

The Exhibition Given by the Peterborough Woman's Art Association a Great Success.

Mesdames J. R. Stratton, D. Hughes Charles, R. M. Dennistoun, H. D. Burnett, G. Dunsford, Misses J. Bertram, Hutton, A. K. Brenet, Executive Committee of the local Woman's Art Association, must feel proud, and they deserve great commendation for the most successful result that has crowned their preliminary labors in the cause of art. To judge by the tone and subject of general conversation throughout the town, this Association has done much to awaken the hitherto too dormant interest of the public in things beautiful and artistic. The committee has certainly met with success and practical endorsation of their views on making the soul of the townspeople soar higher than the sordid everyday affairs that seems to have dwarfed it before. The articles on exhibition, as before noted in this journal, are of a high standard and worthy the view of any connisseur.

The address delivered at the Y.M.C.A. Hall to the Woman's Art Association of Peterborough, by Mrs. Dignam, president of the Toronto branch of the Association, was largely attended. The speaker's remarks upon artistic subjects, particularly those pertaining to the work of the Association, contained much information, and were listened to with close attention. The chair was occupied by Mr. D Hughes Charles, who, in a brief opening address, complimented the members of the Association upon the splendid result of their efforts.

The speaker prefaced her remarks by relating the experience of the W.A.A. at its inception and organization. She explained the aims of the association, and touched upon the various branches of art included in its scope. After referring to expansion of the association, she told how an alliance was also formed with the society in Rome and Womens Institute of Great Britain. The society is also in close personal touch with the societies in Berlin and Holland. The success scored by the Canadians in Arts and Crafts Exhibitions at the St. Louis Exposition, was also commented upon. Mrs. Dignam spoke at some length and touched on almost every point of interest to artists and their work.

A vote of thanks to the speaker was moved by Mrs. K. Eardley-Wilmot, seconded by Mrs. J. R. Stratton.

The exhibition was well patronized, and expressions of pleasure were rife.

Mr. Connors Denies the Race for the 24th

Mr. Martin Connors, owner of the fast mare Lady Gothard, denies that a race has been arranged between his mare and Dr. Johnston's Donna Bell, for the 24th May, for mile heats best three in five. This journal was informed yesterday by a leading member of the Peterborough Turf Club that arrangements were as good as completed. Mr. Connors seems to think that it was only talk on the part of our informant. He says that it would be absurd to fix such a race for this date, as there could be no guarantee that the track would be in condition. He adds that if parties who only talk because they like to hear their own voices, will come to him, as true sports, when the conditions are favorable to all concerned, he will give them action for their talk, by medium of the "Long Green." not wind.

REPULSED JAPANESE SOUTH OF THE TIE PASS.

Fierce Attack on the Russian Position at the Fan River Failed.

JAP CRUISERS ARRIVED.

Four Reached Singapore from the Coast—Loan to Russia is Witheld.

St. Petersburg, March 16.—Gen. Kuropatkin, in a despatch dated March 14, says;

"A fierce Japanese attack on the center of our positions at the Fan River, about thirteen miles south of Tie Pass, has been repulsed. More than a thousand corpses remain in front of our positions."

JAP CRUISERS THERE.

London, March 16.—A despatch to the Star from Singapore, Straits Settlements, says, that four Japanese cruisers arrived there to-day from the eastward.

A YANKEE SEIZED.

Tokio, March 16. — The American steamer Tacoma was seized by the Japanese guardship yesterday. The Tacoma is an iron screw vessel of 2,812 tons register. She is owned by the North-Western Commercial Steamship Company of Seattle, from which port she sailed January 6, with a cargo of barrel beef for Vladivostock, it is said, although ostensibly for Shanghai. When last reported the Tacoma was fast in the ice north at Hokkaido Island, with Japanese ships lying in wait to pick her up when she was worked clear.

CARGO FOR RUSSIANS.

Portland, Ore., March 16.—The British steamship Ras Elba will leave here to-day for Tangtau, China, with 9,888 bales of hay and 91,000 bushels of oats. While the steamer is going to Tangtau there is little doubt that the forage she carries is intended for the Russian forces.

A FORCE FOR PEACE.

Paris, March 16.—The postponement of the Russian loan is definitely confirmed. This is likely to exert powerful influence towards peace, as it is the first time the French financiers have shown an indisposition to advance funds while the uncertainties of war continue. The following details of the postponement are from an authentic source.

A committee, representing the syndicate of French underwriters, went to St. Petersburg to arrange the conditions with the Minister of Finance, and a contract was drawn up for a $120,000,000 loan, taking the form of treasury bonds, running seven years, at 5 per cent. The contract was then brought back to Paris for the approval of all the underwriters. In the meantime, the disastrous events in Manchuria naturally aroused doubts on the part of the financiers as to whether Russia should make peace or pursue the war."

JUSTICES OF THE PEACE

The Whitney Cabinet Said to Contemplate a Re organization

Toronto, March 15.—It is learned that the Whitney Government has decided to cancel the commissions of all justices of peace in the province, with a view to reorganization. With a clean slate before them, the Government would be in a position to make the new appointments to suit themselves. The position of J.P. is honorary other than financial.

ROYAL TEMPLARS

Enjoyable Evening Spent by the Dan Spence Council R. T. of T.

The open meeting of the Dan Spence Council of the Royal Templars was a great success, and all present were loud in praise of the way the affair went off. The program was excellent and the report of the past fifteen months, read by Mrs. Gurney, was most gratifying to the members.

Mr. J. W. Carey, Past Councillor, presided, and in a few, but well chosen words, expressed the pleasure he felt in the large representation of friends present.

The George Street Orchestra, under the leadership of Mr. W. Cunningham, rendered a selection, which was highly appreciated, and encored.

The next number was a vocal solo by Miss Roxy Edmondson, which also was well received, and she was compelled to respond with a recall number.

The Misses Chesty were then heard in a delightful vocal duet which the audience evidently appreciated, judging by the applause with which its presentation was greeted.

Rev. F. J. Scott, pastor of Murray street Baptist church was present and gave a short address. The society's medical examiners are Drs. McClelland and McFall, and the officers for the present term are:—

Past Councillor—Bro. J. W. Carey.
Select Councillor—Bro. T. Fife.
Vice Councillor—Sis. L. Smith.

Royal Baking Powder

45 CENTS a pound can AT ALL GROCERS

25 cents a half pound can

Royal Baking Powder is made from pure grape cream of tartar, and is absolutely pure.

Royal Baking Powder assures wholesome food; it makes the best biscuits, cakes and all hot-breads; it protects the family from the danger of alum and other injurious substitutes.

Royal Baking Powder saves time, saves butter, flour and eggs; saves health.

Awful Palpitation, Dizzy, Faint, Weak

You Have a Weak Heart and Poor Nerves — Instant Death May Overtake You.

With weak heart and exhausted nerves, you are living in the very shadow of death.

Think what it would mean to your family if you were to be taken today!

You can't afford to risk it any longer. Get Ferrozone at once and make your heart strong and well.

Ferrozone has helped many a man to live a strong, useful life, and will do likewise for you.

Mrs. B. J. Brooks, of Berlin, says: "My nerves were weak and I was irritable and cross.

"My heart palpitated like an engine and everything faded away.

"I was subject to dizziness and fainting.

"After using Ferrozone I gained strength. My appetite improved. I slept well. The heart trouble disappeared.

"Ferrozone made me well."

You will never know what real good health means until you take Ferrozone. It gives strength and vitality to every organ of the body; try Ferrozone, 50 cents per box or six for $2.50, at all dealers in medicine, or Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $2 per year, strictly in advance.

NAVAL LESSONS OF THE WAR

In a recent article in the Monthly Review, Mr. H. W. Wilson, author of "Ironclads in Action," and a recognized authority on naval questions, sums up what he considers to be the lessons to be gathered from Russo-Japanese war so far as it has gone. The first lesson is the importance of a prompt offensive. The Russian fleet at Port Arthur had been warned of the imminence of hostilities, but does not appear to have been taken the warning seriously. They neither put out nets, nor constructed booms, nor kept their crews at quarters. The only wonder is that more damage was not done by the Japanese attack. Twenty-three torpedoes were fired, of which only a very few took effect. Nevertheless on that fatal night Russia lost command of the sea in the Far East. Mr. Wilson is of the opinion that, if the blow had been instantly followed up by the occupation of Dalny, Port Arthur would have fallen within the first three weeks of the war. The reason why the attack was not pressed was doubtless because Admiral Togo was not allowed to risk his ships.

The second lesson is the value of a perfect co-ordination of political and naval action. The training which the Japanese navy underwent in the winter of 1903-4, that is to say for some months before the outbreak of hostilities, rendered possible the exertion of the maximum of force in the minimum of time. The training in question consisted of the constant firing in heavy guns at long ranges under war conditions, torpedo work at night in bad weather; manoeuvring at night without lights, etc. Hence the immense self-confidence the Japanese displayed when the hour for action arrived.

The third lesson—quite recently taken to heart by the British Admiralty—is the importance of concentration. Russia might have placed in the East a fleet quite equal to the Japanese, but failed to do so. Not only so, but three vessels were left at the mercy of the Japanese in Chemulpo harbor. That the Japanese did not accomplish more with their fleet was due to the fact that their margin of superiority over even the crippled Port Arthur fleet and the smaller one at Vladivostok was not sufficient to enable them effectually to blockade or attack both those places; yet that margin of superiority, the writer asserts, was greater than the British Navy possesses against one exciting and possible naval combination.

Turning from strategical to tactical lessons, the writer finds that the torpedo boat has done far less than might have been expected. In Port Arthur harbor the Japanese destroyers are allowed to five or six knots, and closed to within a short distance of the enemy; and yet only made three hits out of twenty-three shots. During the subsequent course of the war the torpedo has accomplished nothing worth mentioning. Against ships in action, we are told, the generalisation holds good that the torpedo is useless. Not one hit upon a vessels in motion was made throughout the war. At the same time the accuracy, range and size of this weapon are being steadily increased, and it may assume greater importance before long. The largest heavy guns before in use have been of 16 inches diameter, but 21 in. tubes are being designed for the newest vessels. On the other hand, the larger the torpedo the larger must be the vessel using it, and the more exposed, therefore, to destruction. But if torpedoes have proved comparatively inefficient, mines have been most deadly. The mine is plainly one of the most serious perils of the future. The writer is of the opinion that, considering how terribly dangerous it is to neutral shipping, its use ought to be restrained by the laws of war. In an European struggle the risk to the neutrals would be far greater than in the East, on account of the much greater volume of shipping passing through the waters in which mines might be placed.

Another lesson is the increased need for long-range guns. At the ranges at which battles have been fought in this war, the six-inch guns with which most battleships and cruisers are largely armed have proved almost useless. Mr. Wilson regrets that the British Admiralty should have clung longer than any other power to the 6-inch gun, "the demise of which had been foreseen by every intelligent critic." At the present moment, it seems, England has still eight battleships and eight large armored cruisers completing, in which a large number of these guns are mounted. In the newest battleships, however, nothing smaller than the heavy 9.2-inch gun will be carried, and in the newest cruisers nothing less than the 7.5-inch weapon.

Finally the writer claims that the war has conclusively demonstrated the supreme value of the battleship. The battleship Tsarevitch, in the battle of August, was the target of the whole Japanese fleet, and was hit all over by 12-in. and 6-in. shells, but without material injury. The only fault he has to find with the Japanese naval strategy is that they did not, on different critical occasions, press their advantages home, as Nelson in like circumstances would have done. Nelson, too, he remarks, fought with the certainty that, if he were beaten, it was all up with his country. There is no doubt that the war has been a very timely one for all countries that are bent on perfecting the naval organization, and particularly for Great Britain. In the Boer war Britain gave some important lessons to the world at great cost to herself; this time she is getting some valuable hints free of charge.

THE RUSSIAN MOTHERS' PRAYER

If you would get some fearful glimpses of the situation of things in Russia read carefully the prayer of the Russian mothers to the Czar-ina begging her to use her influence with the Czar to end the war. It is not a long petition, but it is full of awful revelations and of heart agony.

"Oh, sovereign," the petition says, "we believe your mother's heart feels all the horrors of war as we do. Peace is violated not only beyond the frontiers, but even in the heart of the fatherland. We see in the recent troubles the beginning of calamities that may crush all Russia.

"All the bases of life are shaken and all the moral foundations are trembling. Mothers who have to bring up the young generation are saddened by seeing that it is impossible to train up children on the basis of truth, love and duty, when the social life of the country does not rest thereon. Our best forces are perishing.

"Mothers whose hearts are breaking cannot remain silent. More lives will be sacrificed, because what is happening is not spasmodic, but the results of earlier calamities. The Emperor can still save Russia by his paternal will. Be our pleader. Pray the Emperor to listen to the voice of the country. If the Emperor leads the country in paths of greatness its women will help in the work of organization by guiding their brothers and children into the new way and a life of light."

The intuition of woman goes direct to the crux of Russia's troubles. There is war "in the heart of the fatherland." Peace has left the hearthstone of the Slav. It is no mere clash of capital and labor. It is a fight of people against authority. The people are fighting for they know not what. There are countless issues on both sides. What grand dukes do not see, or seeing, ignore, is the internecine war—the war of Russia's own members. And vacant lands are being laid on the ark of the covenant. exiles may cry peace, but there is no peace. The war likes clear-eyed mothers sue, and fear, is civil war.

CURE CATARRH, ETC.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address, F. J. CHENEY & Co., Toledo, O.

ADVERTISE IN THE TIMES.

The jar, jar, jar of constant coughing!

Hammer blows, steadily applied, break the hardest rock. Coughing, day after day, jars and tears the throat and lungs until the healthy tissues give way. Ayer's Cherry Pectoral stops the coughing. Nature repairs the damage. You are cured. J. C. Ayer Co., Lowell, Mass.

JAPAN WILLING TO TALK PEACE

Ready to State Conditions if Russia Assents —Retention of Port Arthur

Washington, D.C., March 15.—When the Czar calls his war council tomorrow he will be able to inform them that Japan will welcome peace on reasonable terms, and will promptly name her conditions providing she receives trustworthy assurances that they will be seriously considered. This the Emperor has learned from friendly Chancelleries in Europe, as well as the general terms acceptable to Japan. These, it is said, include the retention by Japan of Port Arthur, a Japanese protectorate over Korea, and an indemnity. From high official the Associated Press learns that Russia has recalled her second Pacific squadron.

An attache of a Russian Embassy in Europe is quoted as expressing the belief that General Kuropatkin's recent defeat will force Russia to ask for peace.

Briefly these were reports current in the Diplomatic Corps to-day, and as a result of this important information official Washington believes to-night that Russia and Japan are on the verge of peace. If it be true that the second Pacific squadron has been recalled, even the most optimistic of Russia's friends admit that this is a strong indicaton that Ojama's might blow has made for peace.

FRANCIS L. JUDD & CO.,
BANKERS AND BROKERS,
CLEVELAND, OHIO.

W. SAILSBURY,
PETERBOROUGH, ONT.

WHAT DO YOU DO WITH THE MONEY YOU SAVE?

Are you depositing it in bank? If so what interest are you receiving? NOT MORE THAN 3 TO 3 1-2 PER CENT we daresay. AND NOW COMES THE VITAL QUESTION. What is the banker doing with your money? The money you have placed with him for safe keeping. For answer read the official bank statement given below of the 1st National Bank of ———. It may be seen at our office as may time. It is as follows:

RESOURCES		LIABILITIES	
Loans and discounts	$308,980 51	CAPITAL STOCK PAID IN	$ 75,000 00
Overdrafts, secured and unsecured	250 85	Surplus fund	80,000 00
U. S. Bonds to secure circulation	20,000 00	Undivided profit, less expenses and taxes paid	2,341 66
STOCKS, SECURITIES, ETC.	200,000 00	National Bank notes outstanding	18,000 00
Banking-house furniture and fixtures	13,000 00	Due to other National Banks	4,200 85
Due from National Banks (not reserve agents)	1,200 25	Due to State Banks and Bankers	64 10
Due from approved reserve agents	13,241 45	Due to approved reserve agents	7 980 71
Checks and other cash items	1,620 5.	Dividends unpaid	4,704 00
Notes of other National Banks	3,150 00	Individual deposits subject to check	140 573 05
Fractional paper currency, nickels and cents	280 10	Cashiers checks outstanding	286 50
Lawful money reserve in bank, viz—Specie	$46,510 00		
Legal tender notes	11,000 00	$57 510 00	
Due from U.S. Treasury, other than 5 per cent. redemption fund	1,000 00		
		$730,559 39	$730,559 39

Pay particular attention to the items printed in bold type. They tell you an interesting story. They show a capitalization of $75,000. They show that over four times the amount of the authorized capital of the bank or $300,000 has been and is now invested in stocks.

PONDER OVER THIS STATEMENT If you are a bank depositor doesn't make you think! It should! Who reaps the benefit of these investments of YOUR MONEY? Do you get it? Not if the bank knew itself. You get your little 3 or 3 1-2 per cent and the bank gets the rest. Why cannot you

INVEST YOUR OWN MONEY

Your opportunities for ascertaining the value of your investments are just as good as that your banker. Why can you not utilize these facilities for your own profit? You owe it to yourself and your family and to the world to assert your own INDEPENDENCE. If you have had bad investments in the past, DON'T BE FILLY enough to let the first check your ambition to become your own business manager. Profit by your mistakes and GET WISE.

If you do for information regarding your investments. Write to us. If you desire to dispose of your investment write to us. If you desire a new investment that is ABSOLUTELY SAFE and which will return large PERMANENT DIVIDENDS to you instead of your banker.

Write to us at Once. Keep Your Capital in Action.

That is the only way to make MONEY GROW. We will advise you and we will not charge an exorbitant fee for so doing. WE CAN HELP YOU AND WE WILL.

FORTUNES ARE BEING MADE IN KANSAS OIL

Here's a fortune for you. Not 10% but 100% and no risk of loss. Giant of the Oil Fields.

The Midland Oil and Gas Company

has over 180 acres of oil land and has put down 10 wells, so the land is proved up. An adjoining additional 80 was secured yesterday, making over 260 acres all in the proven belt. Just read this:

The U. S. report on the oil industry places the average daily production of Pennsylvania wells at only one-half a barrel each per day. **The Midland wells are pumping**

Sixty Barrels a Day Each.

The pumping plant has just been started and this is the surprising result. Nothing like it in the world. The officers and directors of this company are bank men and do not believe in debts, so the company is free from debt. They have nearly $20,000 in cash and bills receivable in the treasury and everything paid for—property, wells, pumping plant, oil tanks, well cleaning machine and everything connected with the company. Have two drilling rigs working night and day sinking wells. Have abundance of gas, which runs the drills and pumping plant, so it only costs about $5.00 a day to produce and market the oil.

The Company has about 33 per cent of its stock in the treasury as a reserve.

For a short time the Company will sell a little more of its stock at only

7½ CTS. A SHARE

Buy all you can raise money to pay for.

We could talk all day about it and not cover all the strong points. But as the company has this grand property paid for, there is only one side to it, and that is profit. Don't buy stock in a company that tells you what they will do, but buy in this company, that has proved its property, and every dollar you put in makes it better. Send for particulars or mail check to

YOU CAN'T CALL. CUT THIS OUT AND MAIL.

JAMES HANCOCK & CO. Gentlemen: Send me particulars of the Midland Oil & Gas Co.
Name .....
Residence .....

WILL have 100 Wells
As soon as the drilling rigs can put them down.

From the Kansas City Journal, Feb. 26, 1905.

There is perhaps no people in the same amount of territory in the world who have increased in wealth so rapidly. Everybody is prosperous. Many once poor and hard working families have become immensely wealthy.

Hudge Hale, an old Frisco conductor, has become a millionaire off of oil. He got in the game early. Now he has money as well as oil and gas to burn.

Fred Hetrick, a farmer living near Chanute, had a hard time for years making both ends meet. Life was a hard proposition with him. His royalties now reach $1,000 a month and he is living on easy street.

Joe Heim, of the Kansas City brewery, took a flyer in oil leases. He first put in $500 and refused $12,000 for his investment. Later he put in a lot more money in gas and oil lands and is now figuring high.

George K. Work, the Chicago clothier, took some acres of land near Chanute for a debt a customer owed him. Work's partner refused to stand for the deal, so Work kept the land himself. He has since refused $50,000 for his holdings.

These are a few samples. Hundreds of farmers have become independently rich off their oil royalties, and hundreds of other men have made big money producing oil.

This Kansas oil bearing sand is like the Pennsylvania sand; wells will produce oil for fifty years.

Can give bank references, and dozens from people who have personally examined this great property.

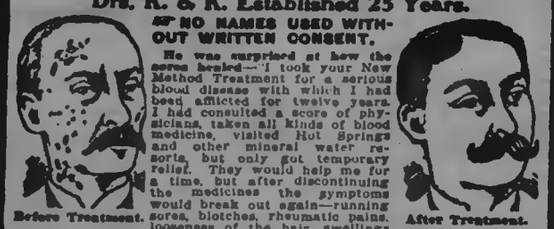
BLOOD DISEASES CURED

Drs. K. & K. Established 25 Years.

NO NAMES USED WITHOUT WRITTEN CONSENT.



Before Treatment. After Treatment.

He was surprised at how the sores healed—"I took your New Method Treatment for a serious blood disease with which I had been afflicted for twelve years. I had consulted a score of physicians, taken all kinds of blood medicine, visited Hot Springs and other mineral water resorts, but only got temporary relief. They would help me for a time, but after discontinuing the medicines the symptoms would break out again—running sores, blotches, rheumatic pains, looseness of the hair, swellings of the glands, palms of the hands scaling, itchiness of the skin, dyspeptic stomach, etc. I had given up in despair when a friend advised me to consult you, as you had cured him of a similar disease 8 years ago. I had no hope, but took his advice. In three weeks' time the sores commenced to heal up and I became encouraged. I continued the New Method Treatment for four months and at the end of that time every symptom had disappeared. I was cured 7 years ago and no signs of any disease since. My boy, three years old, is sound and healthy. I certainly can recommend your treatment with all my heart. You can refer any person to me privately, but you can use this testimonial as you wish."

INCORPORATED

Capital $5,000,000. Shares $1.00 Each, Par Value, Fully Paid Up and Non-Assessable.

We have just secured the agency for the above splendid proposition, of which we have been allotted a block of Treasury stock. We can confidently recommend this as a safe and, we believe, exceedingly profitable investment. Every dollar of stock is guaranteed by twenty year, full paid, gold bond, delivered to purchaser of stock, from an investment Company that has no interest whatever in the company, but who are disposing of the debentured bonds to the public, and, under their charter, they are compelled to deposit securities to an equal amount, to the State Treasurer under which they received their charter, there by doubly securing the payment of their gold bonds.

The Company's property, which is now past the project stage, is known to be marvellously rich in gold.

Following is the opinion of G. W. Miller, Mining Engineer, formerly with the Boston and Montana Consolidated Copper and Silver Mining Company, U. S.; Simmer and Jack Mining Co., Limited, Klandsfountain South Africa:—

"You have here a most valuable property and one of the strongest fissure veins that can be found in any part of the world.

"With the present development of the Monument Mine, I estimate that 100 tons per day can be extracted, which will mill from $15.00 to $20.00 per ton. The total cost of mining the ore, delivering and milling, I place at about $4.00 per ton. With increased milling capacity, it is safe to say that the mine can furnish 100 tons of $15.00 ore, which would yield a clear profit of $11.00 per ton, or $1,100 00 per day (equal to $400,000.00 per annum). Estimated total value of ore in sight, $2,500,000."

During the past summer, a party of the Company Directors visited the property, taking with them, Amos P. Brown, Ph.D., Mining Engineer and Professor of Geology and Mineralogy at the University of Pennsylvania. Dr. Brown writes as follows:—

"In regards to the amount of ore available at the mines at Sinclair, I saw on the dumps several thousand tons, probably 8000 tons would be an under-estimate.

"As to the size of the ore body itself, from what I saw of the geological structure, I think that there is every indication that it will be found to extend underground as far as the out-croppings on the south side of the gulch. This would mean an ore body large enough to keep the present mill running for many years to come.

A write up of the proposition will appear in these columns in a few days. Watch for it. In the meantime we will be pleased to furnish full information to investors.

THOS. PATTERSON & CO.,
FISCAL AGENTS. PETERBOROUGH

25000 SHARES

The above number of shares of stock that is worth to-day on the open market $5,100, will be given to any person that can find in America another mining company that has spent about $900,000 on the properties, that has ten smelter, with sampling mill, dust chambers, hot blast stove, electric power plant, steam power plant, 1000 ton capacity ore bins, 600 ton capacity coke bins, rail road over one mile long, engine on track, offices of company with fireproof vaults, boarding houses and dwelling houses. All of the above will be completed by the time you read this ad. Ore in sight to last from 2 to 3 years, averaging $30 per ton, $24 copper, $6 gold and silver, 1800 foot working tunnel, shaft with three levels ore handled by gravity dropping from one level to another through winzes into our own railroad cars, which will then be hauled to the smelter, that will sell or has ever sold their stock

10 CENTS PER SHARE - PAR VALUE $1.00

This is what I am doing with the stock of the

Great Western Gold Company, OF REDDING, CALIFORNIA

I will give the above amount, 25,000 shares to any person that can find its equal in America at this price. We expect to be running in full blast inside of 30 days, and paying dividends on $1.00 stock by the 1st of June

If you desire a first class, honest, legitimate mining investment, send me your cheque for all you can buy immediately! As this will likely be advanced to $1.00 per share inside of 30 or 60 days. Do not write to me about this proposition unless you mean business as my time is too valuable. Your money is what I want, for I believe positively I can return it to you at the rate of 100 per cent. annually on your investment after dividends are once commenced. If you really desire other information looking to an investment, write me immediately, as stock at this price will soon be gone

GERMANY MAY FIGHT JAPAN

They Fear the Japanization of China Which They Claim is Being Done

MUST RETAIN KIAOCHOW

Mikado Already Has Great Power on Celestials—Clay in Hands of Mikado

Berlin, March 14.—Sensational demands were put forth at last night's meeting of the German Asiatic Society that the German Government should intervene to avert "the Japanization of China," which, it was alleged, has been in full swing during the past year and has made enormous progress while the world's attention was fixed on the central battlefields of Manchuria.

The meeting was attended by General von Gayl, who was German civil governor of Peking during the occupation of the allies in 1900, and by numerous other military officers and leading representatives of the German export trade in the Far East. Every speaker, including General von Gayl, forecasted that Germany would, sooner or later, have to fight Japan to retain Kiaochow, in the accomplishment of which task, the chief speaker declared, Germany might count on the support of America and France.

Among other statements made in the course of the evening was the allegation that Japan is actively fomenting an anti-dynastic and anti-foreign movement among the Chinese, and even against the English, who, the Japanese are teaching the Chinese to believe, are systematically misleading and enslaving the coolies in South Africa. Japan is said to have bought Yuanshikai, the most powerful viceroy in China, as fully under its control as Li Hung Chang was under Russian control, and intends that he shall be the next Emperor of China. The reorganization of the Chinese army under Japanese auspices is said to have made extensive progress, while the building of the great Chinese navy, with headquarters at Tsun-tsin, as declared to have been mapped out by the Tokyo Navy Department.

"Japan's incredible military triumphs in Manchuria have so overawed China that the Chinese are declared to be already so much clay in the hands of the Mikado's scheming diplomats and military men.

"If London, Europe and America refrain from interfering, a stronger will," said the chief speaker in conclusion.

"Japan already has practically an omnipotent hold on China, and we Germans, if nobody else dare, must put down our foot before it is too late, lest our offspring have cause to be ashamed of the cowardice of their forefathers."

TO CANADIAN INVESTORS

Thomas Patterson & Co. Have a Fine Copper Proposition.

Fifty dollars invested in Granite Mountain Mining Company's stock paid the purchaser $34,500, besides several thousand dollars in dividends. One hundred dollars invested in Boston and Montana Mining stock paid the purchaser $44,000, besides several thousand dollars in dividends. A few dollars invested in shares of the Butte Copper Mining & Smelting Company stock, will not only insure you big returns in dividends, but a handsome profit in an increased value of the stock. Our mine is not a prospect but a copper mine which has produced $100,000 in profits in the last three years.

For the purpose of buying adjoining ground we have placed on the market 50,000 shares of our treasury stock. This stock is fully paid and non-assessable. Par value $1.00 per share. We will sell any part or all of this lot at 60 cents a share; no certificate issued for less than 100 shares. Send us your order for what stock you want and we will reserve it for you, sending your investigation of our company; and when you have received our prospectus and satisfied yourself that the investment is a good one, you can send us the money and we will issue the stock, or have the stock sent through any bank you may designate. References. Any Bank or Mercantile House in Butte, Montana. Write us for particulars. Butte Copper Mining & Smelting Co., Butte, Montana, or to Thos. Patterson & Co., Fiscal Agents, Peterborough, Ont.

VAST SUBWAY PLANNED

Gotham Making Ready for Work to Cost $200,000,000

New York, March 15.—Plans for new subways to cost between $200,000,000 and $250,000,000 were approved today by the committee on plans and contracts of the board of rapid transit railroad commissioners.

Should the board approve the supreme court will be called upon to decide which roads shall be built, and following the granting of franchises by the rapid transit commissioners the board of aldermen will have to consider these franchises before work can begin.

ALEXANDER MUNROE AND GEO. H. MUNROE

CALL ATTENTION TO

The Marconi Wireless Telegraph Co., of Canada

Capital Stock, $5,000,000. Par Value of Shares, $5.00 Each. Full Paid, Non-Assessable

EVERY STOCKHOLDER ON AN EQUAL BASIS
NO BONDS —— NO PREFERRED STOCK

Shares in the above named Company are offered for subscription by Munroe & Munroe at $5 each, in blocks of from one share to 200 shares for a limited period only. Every indication points to the early and rapid advance in value of these shares, and those who are desirous of making a profitable investment of their surplus should lose no time in forwarding their application for as many shares as they can conveniently purchase at this time. No enterprise of modern times offers anything like so good an opportunity for rapid and substantial accretion as the Marconi investment. We demonstrate this to the satisfaction of all investigators in our book entitled "Financial Aspect of the Marconi Investment," which we will send free to all who request it. Facts and figures most convincing are therein cited to prove that the Marconi Wireless Telegraph System will eventually dominate the industry of rapid communication between all nations of the earth. The Canadian Company is one of the most important integers in the world-wide organization which has been planned to control the world's means of rapid interchange of intelligence. You should study the Marconi System thoroughly, and particularly the situation of the Canadian Company with reference to this most important world organization.

THE MARCONI WIRELESS TELEGRAPH CO. OF CANADA

Is the owner by purchase of all the patents of WILLIAM MARCONI and his associates as applied to Wireless Telegraphy for the Dominion of Canada. It is so intimately associated with Marconi's Wireless Telegraph Company, Ltd, of England, the Marconi Wireless Telegraph Company, of America, that it is an essential factor in the progress and development of the System. It is the owner of a high power wireless telegraph station located at Glace Bay, Nova Scotia, shortly to be opened by Mr. Marconi, for the transmission of telegraphic messages between England and the Continent of America. It has equipped nine wireless telegraph stations on the Atlantic Coast and St. Lawrence River within the Dominion, and has equipped three ships of the Canadian Government and five ships of the Allan Line. MESSAGES DESTINED FOR PASSENGERS ON BOARD THE ALLAN LINE STEAMSHIPS OR ANY OF THE SEVENTY-FIVE (75) TRANSATLANTIC SHIPS, CARRYING THE MARCONI EQUIPMENT MAY BE DESPATCHED FROM SHORE, FROM ANY OF THE 30,000 OFFICES OF THE WESTERN UNION OR POSTAL TELEGRAPH COMPANIES THROUGHOUT THE UNITED STATES AND CANADA. Vessels are in constant communication with land throughout the voyage. The business established through this medium is a very large and profitable one, and is constantly growing. The Canadian Company has the support and backing of the Dominion Government which has granted large subsidies for the installation and maintenance of the System, as an aid to navigation and in reaching distant and inaccessible points at the outposts of civilization. The day is rapidly approaching when all other systems of telegraphic communications must give way before the advantages of wireless telegraphy, and those who join in the enterprise at this early stage of its existence will reap the large reward which is due to the pioneer in every enterprise. As an investment of $100 in the Bell Telephone Company in 1878 did, in the twenty-five succeeding years, net the investor a profit of over $200,000, so will the investment of a few hundred dollars in the Marconi Wireless Telegraph Company of Canada net the investor thousands of dollars of profit.

Our faith in the destiny of the Marconi Wireless Telegraph Company of Canada is boundless. It will open to Canada its first means of direct communication with the mother country, and will place at the disposal of press and public alike, a medium whereby news and commercial messages may be transmitted direct. It is therefore, to the general as well as to the individual advantage of Canadians to identify themselves with the Company as stockholders

Further information will be given on application to any of our offices named below. However, in order to be certain that you will procure your full allotment of the stock at the present price, we would advise an immediate remittance for the number of shares you desire to purchase. Address all communications and make all checks payable to

SEALED TENDERS addressed to the undersigned, and endorsed, "Tender for Stable, Royal Military College, Kingston, Ont.," will be received at this office until Wednesday, March 29, 1905, inclusively, for the erection of a brick stable at the Royal Military College, Kingston, Ont.

Plans and specifications can be seen and forms of tender obtained at the office of Mr. Arthur Ellis, Architect, Kingston, Ont., and at this Department.

Persons tendering are notified that tenders will not be considered unless made on the printed form supplied, and signed with their actual signatures.

Each tender must be accompanied by an accepted cheque on a chartered bank, made payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the tender, which will be forfeited if the party tendering declines to enter into a contract when called upon to do so, or if he fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order.
FRED. GELINAS,
Secretary.

Department of Public Works,
Ottawa, March 11, 1905.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

ADVERTISE IN THE TIMES.

Sure Investment

While I have already given the readers of this paper a fairly decent outline of the present and prospective value of the Boston & Texas Corporation stock, which I have been offering at the ridiculously low price of 50 cents the share, there are, nevertheless, a great many things of a favorable nature of a necessity left unsaid owing to the limitation and expense of newspaper space. I should like to tell you of the town buildings, the hotel, the store, the compounds, the barns, the sheds, the rotary and cable drilling rigs, the pipe, the engines, the boilers, etc.; in fact, all about the outfittings necessary for the developing of the Corporation's great property; the whole constituting an equipment that cannot be duplicated short of $75,000. I should like to tell you in detail of the independent ice and water companies, newly established there, and the profits that they are making for their stockholders; also of the many opportunities in kaolin, coal and other minerals for independent operation. I would like to show you photographs, maps, blue prints, and literature of authority, all of which have importance and weight in enabling one to arrive at an intelligent decision. I have also the reports of the San Antonio Daily Express the Kansas City Citation, and the Pleasanton Monitor, newspapers published within a few miles of the Corporation's property and which deal with its most recent oil discoveries, fresh from the pens of the reporters, who, visiting the field in search of sensational news, found it, and having found it wrote of it as the facts presented themselves. Particularly would I like to have you see the reproduction of the U. S. Government map as it appeared in the San Antonio Daily Express of last August, whereon is shown the railway line that is soon to directly connect the Boston & Texas Corporation properties with San Antonio, the great distributing centre and the largest city in the State of Texas. I also want you to write me and ask me questions. Then I can give you information at first hand. I am thoroughly acquainted with the property. I have travelled all over it. I have made every investigation that a careful, conservative man could make. I have got my own money invested in the enterprise to such an extent that I am one of its directors. I am kept in close touch with everything that is done in regard to its development, and I advise with my associates on all points concerning its policy and the expenditures necessary thereunto. I am in a position to keep all investors in this section fully posted on all of the Corporation's work at all times and I pledge myself to do so. I have stated my position thus frankly and at length, because I want your assistance in this great work of development, and to secure your co-operation I offer you stock in the same at less than one-half of its real value, I honestly believe. Fifty cents for stock that is morally certain to pay six, eight or ten per cent. on a par value of $1.00 in less than 15 months is worthy the serious consideration of every man and woman who has "idle money," that is, money deposited in savings bank, where only three per cent per annum is being earned, and where the security is no greater, even if it be as great in the latter as in the former. Again I say WRITE. Take up this investment with me in the manner which it deserves. References, Mr. John C. Thompson, retired merchant, of Quebec, and any banking or any commercial institution in Montreal or Quebec.

Deadly "La Grippe"

Or Epidemic Influenza is Caused by an Air Germ. The Most Scientific Remedy is Catarrhozone.

Two years ago, the medical journals commented widely on the marvellous success of Catarrhozone, which assisted very largely in stamping out this epidemic raging at that time. Cases that had resisted all other treatment were at once relieved and through the great healing powers of Catarrhozone further progress of the malady was arrested.

It is doubtful whether in the whole range of medicine a more lasting cure can be found. If a patient has any warning of the approach of La Grippe his has only to inhale the germ killing vapor of Catarrhozone a few times daily and escape entirely.

Even as a preventive of colds and catarrh it is a wise precaution to always carry a Catarrhozone Inhaler in your pocket. At the first shiver or sneeze you can ward off an impending attack by merely inhaling a few breaths of Catarrhozone. Fatal consequences can often be avoided in this way. The inhaler is beautifully finished and made entirely of hard rubber. It can be conveniently carried in the vest pocket, ready for use in church, at work, in the theatre, street car, anywhere, at any time. The complete Catarrhozone outfit contains a large bottle of inhalant, sufficient to keep recharging the inhaler for two months. It costs $1.00 and is guaranteed to cure. Sold by all druggists or sent direct to your home by mail if the price is forwarded to N. C. Polson & Co., Kingston, Ont., or Hartford, Conn. U.S.A.

DASHES HERE AND THERE BY TIMES' REPORTERS

SHOOTING MATCH.

On Friday, March 17, commencing at 1 o'clock, there will be a shooting contest at Chemong Park, open to all comers, when some valuable prizes will be offered for competition. Lovers of that pastime invited. Roads are in fairly good condition.

Memorial of Salvationists

The special meeting in the Salvation Army, Thursday night, will be a service of Song, entitled "The Memorial of a Salvationist and what came of it." These services have been very interesting, and well attended. This promises to be one of the best given by the brigade, and will no doubt draw a large crowd. All are invited, admission free.

Dr. Ferguson Leaves for Scotland

Dr. Fred Ferguson, son of the late Mr. Bruce Ferguson, for some years Superintendent of the Midland Division, G.T.R., leaves to-day for Scotland. Dr. Ferguson will stay about a year, taking a post graduate course in Edinburg University, where he proposes taking the "Triple Degrees." He will also visit the leading hospitals in Glasgow, London, and probably some of the more noted seats of medical learning on the continent. It is his present intention, on expiration of his time abroad to take up practice in Peterborough. He has for the past few years been carring on a successful practice in Claboygan, Mich.

Bell to Stony Lake!

In addition to the proposed extension contemplated by the Bell Telephone Company to Ennismore, and which is somewhat dependent on the result of a meeting to be held in Ennismore to-day, by leading farmers along the proposed route, the company have in hand a proposition to build a line which will connect Hall's Glen and Stony Lake, via the present Warsaw system. This would be a great convenience to the hundreds of citizens who spend several months every summer in that neighborhood. The Bell Company deserves the thanks of people in this town for the promptness with which they comply with all needs of their subscribers and the public in general.

A Local Jewellery Change

Mr. R. J. Frost, who has worked up quite a successful business in the jewellery trade has disposed of his interests to his brother, Mr. Charles E. Frost, of Orillia. The store at 349 George street, has always been noted for a choice and artistic collection of bijouterie and china ornaments. The new proprietor has for some years been travelling representative of one of Canada's largest wholesale jewellery stores; he is, by trade, a practical and expert watchmaker. Mr. Frost states that he intends to add an art room to the present establishment, which will make his business most complete and up to date. The new addition to Peterborough jewellery trade is well and favorably known here.

—One of the attractions for St. Patrick's Day is a shooting contest at Chemong Park, open to all comers, when some valuable prizes will be offered for competition. Lovers of that pastime invited. Roads are in fairly good condition.

Why Kick at Butchers' Prices

A comparison of prices between those we pay for meat and what the Lindsayites have to dig up, ought to be pleasing salve to our supposedly injured feelings. The Lindsay Post says: The highest price for steak in Peterborough is 13c., or 2 lbs. for 25c.; in Lindsay the best beef sells at 15 cents per pound straight; best beef roasts in Peterborough 10 cents to 13 cents; in Lindsay 15 cents; boiling piece in Peterborough, 8 cents per pound, in Lindsay 8 cents; Peterborough, shoulder steak 10 cents a pound; Lindsay, shoulder steak, 15c. At last Saturday's market in Peterborough, beef was 8c. per pound for fronts and 6 cents for hinds; in Lindsay beef sold at 5 1-2 and 6 1-2c., and some at 7c. Pork at Peterborough market last Saturday sold at 8c., and 9c., at Lindsay it sold at 8cs 9c. and 10c.

Evangelist May Has Left

It will be a matter of regret to the many hundreds who have recently listened to the eloquent and heart touching addresses given by Evangelist May in the Gospel Hall, to learn that he has finished his course of special meetings, last night being the last opportunity of hearing him. He is leaving to-day for other fields of spiritual conquer. However, those who attend the Gospel Hall meetings will be pleased to learn that Mr. Irving will continue for the rest of the week his addresses on the dispensational charts showing the seven dispensations of the world from eternity to eternity. These lectures are proving a source of blessing to all Bible students, who have had the privilege of listening to them.

Preparatory for Next Winter

Messrs. Allen Monroe, Garnet Greer, Hubert Conroy, Kenneth Shook, Harry Edmonson, Wm. Sheffield, Harry Hall, John Davidson, Harold Hall, Durham Collins, of the Collegiate Institute have formed a Snowshoe Club, in connection with the Institute. They expect to shortly have a large membership, and are taking great interest in this bone and muscle forming exercise. The club meets every Saturday afternoon and take quite a long country tramp. The members have formed this club, so as to arouse interest and enthusiasm for next winter's enjoyment. It is such clubs as this that makes a manly man out of raw material, and that have been the groundwork of England's greatness on land and sea.

Peterborough Couple Married in Toronto

A very pretty wedding was celebrated in Toronto on Tuesday, when at the residence of Mrs. Elsley, Woodbine avenue, Miss Edith A. Potter, who formerly resided with her grandmother, Mrs. A. Foley, 418 Water street, was married to Mr. Herman H. Gray, son of Mr. William Gray, of town. The happy man is Assistant Superintendent of the Orillia district of the Metropolitan Life Insurance Company. Only a number of the near relatives of the young couple being present. The ceremony was performed by Rev. John J. Ferguson, and the bride was given away by Mr. Elsley. The couple were the recipients of many very handsome wedding favors which evidenced the good wishes of friends, not only here, but in other places. Mr. and Mrs. Gray will take up their residence in Orillia after spending a few days in Peterborough.

An Old Landmark Gone.

One of the oldest houses in Peterborough is going the way of all obsolete buildings in a progressive community. The house is at 196 Simcoe street, and is being torn down by Mr. Allen McCarty, who intends using the timbers in two houses he is building in Ashburnham, near Mr. W. Irwin's residence. The house was built about 1845, and was, in years gone by, at that time considered quite a building, was rented by Mr. W. Cluxton to Mr. Phelan as a hotel. The property was, in more recent years, used by the late Mr. George McComb, as a temperance hotel. It is interesting to compare the class of planks and timbers taken out of this old structure, with what we get now-a-days for three times the cost. The property is owned by Mr. Snowden, who may erect a more modern building on the vacated ground.

Personal and Social

Movements of the people in and out of town . . . .

—Mrs. W. E. Lech will not receive during Lent.

—Mr. Ed. Manning is confined to his room by illness.

—Mr. Wm. Weir of Lakehurst, was in town yesterday.

—Miss Gertie Northey, of Smith, is visiting friends in town.

—Mr. Thomas Deforge is spending a week at his home in Deseronto.

—Mr. Jeffries is still too ill to attend to his duties in the Collegiate Institute.

—Mr. R. A. Dutton was in Toronto yesterday purchasing new lines of groceries and fruits.

—Mr. A. L. Scott left yesterday for Spokane, Wash., where he is likely to reside in future.

—Mr. G. H. Brown, proprietor of the Chemong Hotel, was in town yesterday on business.

—Miss John Nugent gave a very successful "At Home," at her residence on Brock street yesterday.

—Miss Aura Caldwell, McDonnell street, has returned home after a pleasant visit with friends in Orono.

—Mr. A. W. Greenman, the George street dry goods merchant, has returned from a business trip to Ottawa.

—Miss Garvey, a graduate of the Peterborough Business College, will go to Campbellford to accept a position.

—Rev. W. R. Tandy, M.A., of Havelock, was in town yesterday on his way to Millbrook, where he lectured last night.

—Miss M. Stewart, who has been visiting her aunt, Mrs. Leary, for the past two months, left Tuesday for her home in Toronto.

—Dr Wightman has returned from Toronto, where he has been attending the annual convention of the Ontario Dental Association.

—Mr. A. G. Dickson was able to get down to business for the first time yesterday, after a week's confinement to the house from an attack of la grippe.

—Mr. E. R. Wand, who had his arm broken whilst returning home from his work at the Lock Company on Monday, is getting on well, the bones setting fast.

—Miss Katie M. Garvey, who has been attending the Peterborough Business College, is leaving for Campbellford, where she has secured a position.

—Mrs. R. E. Wood and Mrs. John McPherson were in Toronto yesterday attending the annual meeting of the Home Mission Society of the Presbyterian church.

—Mr. Fred Wilkins of the local staff of the Bank of Toronto, has been moved to Toronto. He leaves this morning. Mr. Willie Harper, also on the local staff of this bank, has been promoted to Mr. Wilkin's place.

—Miss Alberta Gooding entertained her young friends to a sleighing party last night, and finished up with a supper at Long's Palm Parlors. Miss Alberta celebrated her thirteenth birthday yesterday.

—Mr. Wm. Kemp is representing Peterborough Circle at the sessions of the Supreme Circle of the Order of Canadian Home Circles in Guelph. There are some 350 representatives present.

Local Incidents

BY THE TIMES MAN ON THE STREET.

—The 57th Band was at the Brock street rink last night.

—The Peterborough Light and Power Company have put a new and tasty sign on their office windows.

—The second issue of Collegiate Echoes, the excellent monthly publication of the P.C.I. has made its appearance.

—Mr. H. Rust will take Lt.-Col. Rogers' place as church warden of St. John's church during that gentleman's absence.

—On Sunday next Brigadier and Mrs. Howell and Capt. Debow of Toronto, will be the special speakers at the S.A. Barracks.

—The regular meeting of Court Stanley, A.O.F., on Tuesday night was well attended. Three applications for membership were received.

—The thermometer early yesterday morning sank down to 10 below zero, the spirits of the coal merchants go the other way.

—Alderman Johnston, chairman of the Fire, Water and Light Committee, will go to Toronto to-day to purchase new hose for the Fire Department.

—An enjoyable evening is looked forward to on Thursday, March 30, when "An Evening with Dickens" will be given at St. Paul's Mission. Addresses will be delivered by Rev. H. B. A. Ketchen and Sheriff Hall.

—The members of the Y.W.C.A. are cordially invited to attend the fine arts exhibition now being held in the Y.M.C.A. Hall under the auspices of the W.A.A., this evening from 7 to 10.

—Last night at St. John's church Rev. R. Seaborn, of Toronto, delivered the second of the Lenten addresses. Rev. Mr. Seaborn was here last year, and his sermon was much appreciated as it was last year.

—Belleville Intelligencer — Peterborough people are thinking of asking Carnegie for money to build a library. Don't do it. Don't throw away your independence by begging from a galvanized Yankee who hates Britain and sneers at Canada.

—A service will be held this evening at 7.30 at All Saint's, commencing a series of sermons throughout Lent on "God's Call to His People." The subject of to-night's sermon will be "Zacharish's Vision of the Golden Candlestick."

—Mr. P. G. Demetre, of Montreal, who will soon open up an elaborate and artistically fitted up confectionery and fruit store in the stand recently occupied by Mr. George Carlton, is in town for a few days on business.

—There will be a euchre tournament at the Young Conservative club rooms to-night when a contest will take place between sides captained by President Layfield and Vice-President Morgan. Some eighteen tables have been placed in position for the fray, and a pleasant time is expected.

When you want a life-like Portrait in Oil, Crayon, or Water Color, don't fail to come to B. Hudson's Studio, where the work and prices are always right. Gifts in Pictures, Frames and Fancy Work. Lessons in Painting and Pyrographic Work. Studio, 134 Brock street, Peterborough.

—In addition to other protests against the Rice Lake fishing monopoly, the C.G.E. Angling Club is preparing a petition which will be sent to the Commissioner of Crown Lands, protesting against the twenty-one years lease granted to certain Toronto fishery parties.

—That Peterborough industries lead the Province is proved by an order placed recently by the Star of the East Gold Mining Company, with The William Hamilton Manufacturing Co., for an additional five stamp mill. The first stamp mill has been at work for some weeks in the gold mine in Barrie township, Frontenac county, and is giving good satisfaction.

—The special meeting to be given in the Salvation Army to-night will be a service of song, entitled "The Memorial of a Salvationist, and what came of it." These services have been well attended and very interesting. This one promises to be one of the best given by the brigade and will no doubt draw a large crowd. All are invited. Admission free.

—Mr. Fred T. Butters the Hunter street plumber, had a narrow escape from serious injury to his eye Tuesday afternoon. He was working with molten lead and a portion of the fiery metal splashed up and struck Mr. Butters in the face just below one eye. His face was burnt but fortunately his eye escaped without injury.

—Word has been received in Norwood, of the death of Mrs. John Hurley, of Johnville, N.B., formerly a resident of the township of Asphodel. She was a daughter of the late Daniel O'Keefe, sr., and forty-five years ago she moved with her husband to Johnsville. Of eleven children, five survive her. She was a sister of Mr. Michael O'Keefe, Asphodel, Mr. John and Miss Kate O'Keefe, of Peterborough, and Mrs. B. Healy, of Montreal.

These they Capsules correct in 48 hours without fail the Discharges, or Inflammations, Irritations, Catarrhs and Affections of the Genito-Urinary Organs.

Application to Parliament

Notice is hereby given that an application will be made on behalf of the Town of Peterborough to the Legislative Assembly of the Province of Ontario at the next session thereof for an Act for the following purposes:

1. That the said Town of Peterborough may be incorporated as a City, with all the rights, powers and privileges of cities under the provisions of The Consolidated Municipal Act.

2. To authorize the Council of said Town to purchase from The Roman Catholic Episcopal Corporation for the Diocese of Peterborough certain lands in the Town of Peterborough required for the site of an Armory and Collegiate Institute and to convey such portions thereof as may be necessary to the Crown and the Board of Education for the said purposes.

3. To authorize the Town and County of Peterborough to convey Lot Number Three, south of McDonnell Street and west of George Street, in the Town of Peterborough, to the Board of Education for school purposes, and to ratify and confirm By-Law Number 863 of the County of Peterborough, passed to authorize such conveyance by the said County.

4. To authorize the Council of the said Town to change the method of paying for the construction of granolithic or concrete sidewalks from the local improvement system to a general tax.

5. To amend section 2 of chapter 4 of 3 Edward VII. so as to authorize the Water Commissioners to retain the whole of the surplus annual revenue derived from the Waterworks, to form a contingent fund for the purposes in said section mentioned until said contingent fund amounts to $50,000.

6. To ratify and confirm the following By-Laws passed by the Council of the said Town, namely:

BY-LAW No. 1077—To provide for borrowing $50,000 for the purchase of a site and pay for the erection and equipment of a Collegiate Institute;

BY-LAW No. 1079—To provide for borrowing money to pay the cost of the construction of granolithic sidewalks on certain streets in the said Town secured by local special rates;

BY-LAW No. 1080—To provide for borrowing money to pay the Town's proportion of the cost of the construction of granolithic sidewalks on certain streets in the said Town;

BY-LAW No. 1081—To provide for borrowing money to pay the Town's proportion of the cost of sewers on certain streets in the said Town;

BY-LAW No. 1082—To provide for borrowing money to pay the cost of the construction of sewers on certain streets in the said Town secured by local special rates;

BY-LAW No. 1100—To provide for borrowing the sum of $10,000 for the purchase of a site for an Armory in the said Town;

BY-LAW No. 1112—To provide for borrowing the sum of $3,000 required by the Board of Education to pay for alterations in the heating apparatus in the Central Public School;

BY-LAW No. 1117—To provide for borrowing $20,000 for the purpose of making extensions, improvements and alterations in the Waterworks system of the said Town;

BY-LAW No. 1119—To provide for borrowing the sum of $12,000 for reconstructing and repairing bridges and for purchasing land for and opening new streets in the said Town;

BY-LAW No. 1126—To aid The Peterborough Cereal Company (Limited) by a grant of land and a fixed assessment of $10,000 for ten years;

BY-LAW No. 1127—To aid The Peterborough Shovel and Tool Company (Limited) by a grant of land and a fixed assessment of $4,000 for ten years;

Dated at Peterborough this 14th Day of February, 1905.

GIRL'S SECRET.

"Aunt Cassie came to visit us and she saw I was nervous, had the fidgets all the time, and she asked me many questions, and finally said, 'Why, you dear, sweet girl, it's not your temper that's bad, it's your constitution that's out of kilter. You sit right down now and write a letter to Dr. Pierce, at Buffalo, N. Y., tell him all your symptoms'—and so I did. It wasn't long before I had a long reply, carefully going over my case and telling me just what to do. I date my present happiness and little Cupid's return to the very day I sat down to write that letter to Dr. Pierce, for his advice was so good and his 'Favorite Prescription' worked such a complete change in me that my former cheerfulness and good health—not to say anything of good looks—are restored to me. I have summoned Tom back to my side and we are to be married in June."

The proprietors and makers of Doctor Pierce's Favorite Prescription now feel fully warranted in *offering to pay $500* for any case of Leucorrhea, Female Weakness, Prolapsus, or Falling of the Womb, which they cannot cure. All they ask is a fair and reasonable trial of their means of cure.

It is natural that a woman who has been cured of womanly disease by "Favorite Prescription" should believe that it will cure others. It is natural too that she should recommend to other women the medicine which has cured her. It is such commendation which has made the name of Dr. Pierce's Favorite Prescription a household word for the past thirty-eight years.

SPOILS OF WAR ARE INCREASING

Japanese Will Have 50,000 Russian Prisoners

KUROPATKIN'S MISTAKE

The Mistake in Tactics Which Produced the Japanese Victory at Mukden

With General Oku's Headquarters, March 16, via Fusan.—Delayed in transmission—Reports received up to last night show that over 40,000 Russian prisoners have been captured by all the Japanese armies, and that over 50 Russian guns have been taken.

Reports still coming in say that the Russians are still surrendering. There are many villages within the Japanese lines unoccupied, and it is probable that they contain many more prisoners.

The total number of prisoners, it is said, will reach 50,000.

The Chinese are enthusiastically welcoming the Japanese into Mukden and flags are waving from all buildings.

WHERE KUROPATKIN ERRED.

The Russians have no stores between Tie Pass and Harbin.

At the last stations of battle Gen. Linevitch's army became completely separated from the remainder of the forces.

Captured prisoners report that General Kuropatkin believed that he was winning the battle up to March 7, when General Nogi pressed him strongly on the northwest. General Kuropatkin ordered the troops on the Shakhe to fall back and defend Mukden, thus forfeiting an opportunity to utilize the Hun River, which affords a stronger and more natural line of resistance than the Shakhe. Ranges of hills command the plain and the crossing of the wide river bed is dangerous on account of the partially melted ice. The hills are strengthened by a series of earth works, connected by deep trenches. This position was lost on account of General Kuroki's rapid march.

Some of the foreign military observers criticise General Kuropatkin's generalship severely. Field-Marshal Oyama's original plan seems to have been to hold the Russians along the Shakhe while working around them with both wings, but the Japanese right was fought to a standstill. The Russian retreat from the Shakhe, rapidly pursued, gave the Japanese an opening to cut the Russian center, surround Mukden, and isolate the Russian left.

A MIXED LOT OF PRISONERS.

One thousand prisoners are being marched to Liao Yang for shipment to Japan. They are a mixed lot, including Poles, Mongols, Buriats, and Kirgis. Their clothing and equipment is much inferior to that of the Japanese. The Siberians who fought in the early months of the war were the finest men that Russia has had. The Russians that are voluntarily surrendering make an abject spectacle. The Japanese are treating them most kindly.

STILL PURSUING THE ENEMY.

London, March 16.—The correspondent of the Times at Tokio cables: Although it was feared at Tokio that the Japanese troops would be too fatigued to continue the pursuit north of Mukden, an official report received this morning shows that they had pushed last night to a point twenty-five miles north of that city, inflicting heavy losses on the bodies of the enemy who attempted to resist, and the pursuit is still continuing. One result of the rapid pursuit was to compel the enemy to abandon 15 miles north of Mukden 15 immense train of carts, extending some twelve miles, laden with ammunition and war material. One of the flags taken belonged to the 163nd Regiment of the 41st Division, 16th Army Corps.

WHAT THE RUSSIANS SAY.

New York, March 16.—A St. Petersburg despatch to the Times says: According to the latest news from Tie Pass the Japanese are within a few miles of that position, and a resumption of fighting is hourly expected. The General Staff, however, declares that the enemy is too much exhausted for an immediate attack.

According to General Kuropatkin, the Russians are fast re-organizing their forces and are on the alert. According to General Maslioff, the extent of the losses of the Third Army is still unascertained. General Kuropatkin is highly commended for leading the onslaught against General Nogi near Hsaltai on March 10, which is believed to have prevented the complete loss of the second and Third Armies. There is no news of General Rennenkampff. It is feared that his division of Trans-Baikal Cossacks shared the fate of the Caucasian cavalry brigade. Two officers, Albrecht and Hartmann, report that they are the only survivors of that brigade who remain to tell the tale of the fighting of Friday and Saturday, when the cavalry were sacrificed in order to cover the retreat of the rear guard.

MOVING ON VLADIVOSTOK.

A Japanese force of infantry and artillery is reported to be approaching Vladivostok. This gives rise to the belief that a siege is contemplated.

KUROPATKIN'S DEFENCE.

In connection with the announcement of General Kuropatkin's offer to resign comes a statement from an equally authoritative source that General Kuropatkin attributes his failure to the inadequacy of his reinforcements, and that he points out the impossibleness of achieving any constructive result until overwhelming forces are concentrated in the far east.

INCIDENTS OF THE RETREAT.

St. Petersburg, March 16.—General Kuropatkin has assumed full responsibility for accepting a battle at Mukden, but has complained to the Emperor that his plans miscarried largely through the failures of two generals whose names cannot be learned, to execute his orders. He also throws blame on some of the troops, which failed to respond properly at the critical moment.

Eye-witnesses of the retreat after the Battle of Mukden describe with pitiless realism how the panic-stricken condition of the troops reached its climax. When the Russians were near the village of Pethko shells burst among the confused procession of infantry and artillery and thousands of carts. The suffering of the wounded in the course of the pursuit

It is unfair to accuse the entire army of this panic. General Linevitch entered Tie Pass, with his regiments in perfect order, colors flying, music playing and the men singing, and scarcely a straggler was lost in the long difficult march. Other organizations made equally praiseworthy retreats, and especially the rear-guards of all the armies, who performed their difficult task steadily and resolutely. There is much to be said also in excuse for the panic-stricken condition of the troops. They were largely composed of young, undisciplined men and wagon drivers were mingled with the soldiers, who for fifteen days were under constant fire, crowded together in a mass, from whence egress was impossible.

St. Petersburg, March 15.—The unrest among the peasantry is fast extending throughout Central Russia. The news is daily becoming more alarming. The peasants are murdering landlords, as well as pillaging and burning. Nine proprietors have been brutally slaughtered in the province of Kursk. A mob of 8,000 surrounded the country seat at Vitobsky, half killed the inmates, and sacked and burned the house. An official who remonstrated was beaten and imprisoned in the local jail. A feeling are on the verge of peace. If the towns and cities.

The alarm has even reached Moscow and Nijni Novgorod. The threatened cities propose to form town guards, fearing that the police and soldiers will not protect them. It is idle to deny that the movement is assuming the character of a general rising against landlords and officials, but it is not directed against the autocracy. The peasants are firmly convinced that the Czar, equally with themselves, is the victim of foreigners, and as the manufacturers are mostly foreigners, the moujiks' hatred of the capitalists is patriotic. The recent imperial manifesto, which was read in the churches, impressed the villages with the idea that the Czar wants help against internal as well as external enemies.

WORK OR MANCHURIA.

St. Petersburg, March 15.—The Government notified the army and navy reservists among the striking employes of the State factories that they would be immediately sent to Manchuria if they did not resume work. The result was that these men at once returned to work. The Government will hereafter regard all striking employes of works executing State orders as reservists, and will act accordingly.

JAPAN SEIZES BRITISH SHIP

Was Bound for Vladivostok With Cargo of Steel Rails

Tokio, March 17.—The British steamer Saxon Prince, bound for Vladivostok with a cargo of steel rails, was seized March 9 by the Japanese in the Tsu Straits and taken to Sasebo for trial.

MRS. CHADWICK TO APPEAL CASE

Her Attorney Claims Jury Was Prejudiced Against Her From the Start

Cleveland, O., March 17. — J. P. Dawley, Mrs. Chadwick's attorney, stated last night that the case would be taken into the court of appeals in Cincinnati as soon as possible. Mr. Dawley said that his client had a very unfortunate jury, and that most of them were prejudiced.

Mr. Dawley visited Mrs. Chadwick in her cell yesterday, and cheered her with the assurance that her case would be probably reversed by the court of appeals. Mrs. Chadwick seemed to recuperate rapidly after his visit. No one but her son and her attorney are permitted to visit Mrs. Chadwick.

OLDEST WOMAN LIVING

REMARKABLE CLAIM OF A CHINESE VISITOR TO MONTREAL

She Affirms That She is one Hundred and Seventy-one Years old, and Her Appearance Bears Her out—Going Back to China to end Her Days

Montreal, March 16.—A Chinese woman passed through Montreal today, who claimed to be 171 years old. She had nothing to prove her age, only the word of her friends added to her own; but her appearance was most eloquent, and certainly tended to confirm her remarkable statement. She was on her way home from Demerara to China, in order to make her last resting place in the Celestial kingdom, because she feared she had not many more years to live. This seemingly incredible person was so frail that it was necessary to have her carried about; but her faculties were good, and she insisted on the truth of her statement as regarding her age. She was bent nearly double and her face looked like crinkled yellow parchment. Details concerning her were secured from members of her party. It appears that she left China when seventy years old, and resided in Demerara for the last hundred years. She arrived at Halifax a few days ago from the West Indies and came to Montreal yesterday over the Intercolonial Railway.

RUSSIANS DRIVEN OUT OF THEIR POSITIONS AT TIE PASS AT MIDNIGHT.

Flanking Movement by Jap Army Causes a Hasty Evacuation---Russians Caught North of the Pass and a Desperate Bloody Battle is Now in Progress---Kuropatkin May Meet Final Defeat---The Japs Occupy Singching --- Kuropatkin Saw No Fighting.

Tokio, March 17.—The Japanese occupied Tie Pass at midnight, March 15. Details of the occupation have not yet been received at Imperial army headquarters.

An official bulletin reports the actions and that the Japanese are in hot pursuit of the retreating Russians, but it does not mention any particulars about the fight.

Santoupu, eight miles north of Tie Pass, Manchuria, March 16. — The Russians have abandoned their advanced positions on the Fan River, where the desperate attack of the Japanese on Tuesday, was repulsed, and have fallen back upon the defences at Tie Pass. Previous to the retirement the supplies of wood, etc., collected there were set on fire.

A desperate bloody battle is now waging north of Tie Pass.

Tokio, March 17.—The Japanese occupied Sinching, March 14. Sinching or Yenden, is situated about eighty miles almost due east of Mukden.

A report received in Tokio, March 15 from the Japanese headquarters in the field, said;

'In the direction of Singking our forces have been dislodging the enemy from Yingtsu, eighteen miles east of Fushun, and on March 12, occupied that place."

St. Petersburg, March 17.—The following despatch has been received by Emperor Nicholas from General Kuropatkin, dated March 16;

"The troops are traversing Tie Pass in good order. I have inspected the 44th Division of Infantry. The men seemed in good spirits.

"Up to the time of my departure from Tie Pass fighting had not commenced.

'During my progress northward I saw many troops and trains in good order. I also inspected the regiments recently from Russia, who presented an excellent appearance."

King Edward is Indisposed.

But His Indisposition is Said to be Trivial--Considered Advisable That He Should Rest Awhile--The Prince of Whales Represented His Father at Yesterday's Levee at St. James' Palace.

London, March 17.—King Edward is suffering from a slight cold and consequently the Prince of Wales, in behalf of His Majesty, held yesterday's levee at St. James' Palace.

The King's indisposition, it is asserted at Buckingham Palace, is trivial. He received the Foreign Secretary, Lord Lansdowne, the Brazilian Minister and others in audience this morning, but it was considered advisable that he should remain indoors for a day or two.

CZAR'S TROUBLES ARE DAILY INCREASING

London, March 17.—Lord Rothschild regards the postponement of the Russian loan as tantamount to a refusal on the part of the French syndicate to treat any further.

"After all," he said, "it cannot be a matter of surprise. It is owing to the force of circumstances and not, I think, to the result of pressure on the part of the French Government in the interests of peace. Between $2,500,000,000 and $3,000,000,000 of French money is invested in Russia. There is nothing more natural than, at the present time with the affairs of Russia in the state they are both in at home and abroad, that it should become difficult at last to find subscribers in France to another Russian loan. That is all. I think it is the force of circumstances and not pressure tending to peace on the part of the French Government. The French know that to continue the war means a revolution in Russia and that to cease it now under the present conditions means a revolution."

Lord Rothschild thought it was difficult to say where Russia would find the money to continue the war.

GERMANY AND RUSSIA.

Berlin, March 16.—Chancellor von Buelow, speaking in the Reichstag, today, in reply to Herr von Vollmar (Socialist), who criticised the Government for its complaisant attitude toward Russia in regard to the sale of merchant ships and the expulsion of refugees, the Chancellor said in part:

"Herr von Vollmar, who watches foreign events with close attention, must have seen that the French Republicans and the French Democrats still give the greatest care to the alliance between France and Russia. The English Liberals have a lively wish that good relations should exist between Great Britain and Russia and others in other lands believe that the position of Russia as a great power will continue beyond the incident of the war and internal disquiet.

This statement was greeted with cries of "No, No," from the left party.

POPES GREAT INTEREST IN INVENTIONS

Pope Pius X. has given indisputable evidence of his interest in modern inventions since his election to the Papacy. He has recently ordered new linotype machines for the Vatican printing office and made other improvements to facilitate the work which the printers must do. He has just ordered two of the best approved makes of automobiles for his personal use and has made himself familiar with all the details of these intricate products of the mechanists art.

He has installed new dynamos for lighting the Vatican palace, and to supply the church of St. Peter's on solemn occasions, such as the December festivities in honor of the immaculate conception. The great Basilica was then ablaze with a myriad of electric lights and the effect was simply bewildering.

He is an enthusiastic follower of the latest improvements in photography. On many occasions, he has submitted to the request of amateur as well as professional photographers for an opportunity to take his picture and his motive in simply to encourage what he looks upon as an invention of great possibilities.

He has lately made an exhaustive study of the latest developments in connection with the telegraph, both with and without wires. He has notified William Marconi that a visit from the great inventor would be very acceptable, and has signified his intention of immediately equipping the Vatican Observatory with a complete Marconi service for all forms of message transmission. This expression of confidence in his work has been one of the most gratifying episodes in Mr. Marconi's whole career for His Highness has given the invention his endorsement without solicitation and because of his conviction that it merits full recognition.

NO PROSPECTS OF PEACE

Counsels of Desperation May Prevail in Russia

London, March 17. — Downing Street is at its wit's end to follow the phases of the official mind at St. Petersburg. Two weeks ago it was known that the Russian Government was seeking peace. Today it is learned that the thoughts of peace have been temporarily abandoned. It can be said truthfully that Lord Lansdowne and his confidents feel great sympathy for the rulers of Russia, in their peculiarly anxious and painful dilemma. The Czar cannot forget his European position. He sees that with the waning of Russian prestige there is a growing danger that the Slav power will lose its status in the councils of the west and even run the risk of violation of its European frontier. "Under these circumstances," said a foreign official to a correspondent, "it is easy to understand the all-absorbing desire of St. Petersburg to retrieve the reputation of Russian arms. It is probably too much to expect statesmen so beset to realize facts and adopt wise policies. Possibly the signs of the tottering of Russian credit so conspicuous this morning may enablet the autocrat to put aside sentiment in handling the crisis. But the probabilities seem rather the other way. Counsels of desperation are likely to prevail. This time it may be sufficient to invole the Romanoff regime in irreparable ruin."

Police Court

OFFICIALS

Chief of Police, G.I. Reed
Magistrate, D.W. Dumble

P.C. Adams left for Lindsay yesterday morning to get a prisoner held by the authorities in that burg. The prisoner, by name, William Brooks, is wanted here for stealing a ring from Miss Myrtle Reynolds, away back in 1903. When the officer brought his charge to Peterborough at noon Brooks surrendered the jewellery. He was brought before Magistrate Dumble yesterday afternoon at five o'clock, and pleaded guilty. His ring fancy gives him one week on the hill.

It is to be noted that the police in Lindsay, give a man against whom there is a warrant out, a better chance than our Peterborough force would. Brooks on his way from the station to take up his quarters in Castle Nesbitt, told the officer accompanying him, that he had been for a long time in Lindsay, and last fall he met Night Constable Reeves, of Lindsay, and was told by the latter that there was an order from Peterborough for his arrest, and further that "sometime" he would have to arrest him. He and Reeves have frequently, since his warning, met on on the streets, but he was only arrested yesterday, when P.C. Adams went to Lindsay for him. Truly, if his tale is true, the way of the transgressor in Lindsay is easy.

The Chief yesterday morning was honored, as he has been before, by a call from Mrs. Lonergan. This old lady boards on Reid street with a gentleman of German descent and his wife. The Chief's caller has a wheel or two buzzing under her bonnet, in fact there is quite a stock of eccentric machinery constantly humming in the grey matter of her thinking machine. She assured The Times, who happened to be included among those in the station when she called, that the people with whom she boards put poison, strychnine to wit, in all her food: not only that, but the fell destroyers of her peace of mind squirt chloroform over the transom of the door at her. The poor old woman whilst burdened with this monomania, is quite harmless, and, though telling one quite earnestly about these attempts at her destruction, laughs at it as though more of a joke on those who fail to kill her.

A young man was arrested last night on a warrant sworn out by Mr. Cook, the well known horse dealer. The warrant charges misappropriation of funds. The warrant is according to the prisoner, the outcome of a horse deal, in which, he claims, each party, himself and the complaintant, paid $25 apiece for the horse. The result of this morning's police court will probably unravel the tangled skein of this alleged horse deal.

CORRUPTION IN TURKEY

High Ottoman Officials in Hurried Flight

Constantinople, March 16.—Another palace intrigue, so common in the Sultan's entourage, has resulted in the sudden flight of a trio of high Ottoman officials, Generals Ahmet Pasha and Riza Pasha, aides de camp of the Sultan, and Arif Bey, His Majesty's chamberlain. It is said that the three officials fled abroad to escape the machinations of a secret police cabal at the Yildiz Kiosk, who were said to be bent on their destruction. Riza Pasha was recently attacked and wounded in a street by a gang of men. The assault is said to have been instigated by the chief of the secret police.

PEASANT RISINGS ARE SERIOUS

Disorder in Many Sections--Three Sugar Refineries Burned

St. Petersburg, March 17.—Events yesterday drew attention to the seriousness of the peasant risings, the latest of which is near Kieff. Here three sugar refineries were burned, including one belonging to Grand Duke Michael Alexandrovich and one belonging to Baron Meyendorff. At Kosaka the property of Prince Baratinsky has been pillaged. At Tamboff also the peasants are rising.

REILLY HAS SKIPPED OUT?

Another Sensation in the Bogus Ballot-Box Case at Belleville--Principal Witness in Case Who is Charged with Conspiracy Has Disappeared.

Belleville, March 17.—Francis J. Reilly is missing and there is every evidence that he has left the country. He is the star defendant in the conspiracy charges arising out of the bogus ballot box frauds.

The Grand Jury having returned a true bill against him yesterday, his case was presented to Mr. Justice McMahon this morning at 10 o'clock for hearing. By 10.30 certain objections taken to the indictment against Reilly by Mr. E. F. B. Johnston, K.C., had been heard, and the defendant was called to plead to the charge. He did not answer, and subsequent search for him did not reveal his whereabouts. It was ascertained at the Quinte Hotel that Reilly left there last night at 12 o'clock in company with Hoge McGinnis, a well-known Belleville man, and about 15 minutes thereafter McGinnis returned without Reilly, who has not been seen since. He did not pay his board bill. That would have aroused suspicion. No person has since volunteered to do so.

HE FEARED THE PENITENTIARY.

That the Grand Jury's action in returning a true bill against him added fresh fear to Reilly was very apparent to many who conversed with him in the hotel. Unquestionably his great fear was the penitentiary, and those who knew him best affirm that had he been sentenced to the penitentiary he would not have gone there if opportunity had presented itself for him to end his life. The disgrace on his mother and brothers that would result from such committal haunted him, and was the chief cross he had to bear.

HE DECEIVED EVERYBODY.

He concealed very successfully his intentions to leave the country, for in conversation with persons at the Quinte Hotel last night near the midnight hour, he feigned great cheerfulness. "He talked very confidently to me," said Mr. Johnston, his counsel, to a press representative. "He had every hope of winning. He had been talking to several persons in Belleville, and they gave him every encouragement.

T. E. Whalen, who was standing by when Mr. Johnston was speaking, added that Reilly was apparently confident of acquittal. It is known, however, that serious doubts were lurking in his mind as to the outcome, for to several at the Quinte yesterday evening, he addressed the question: "What do you think of it?" meaning his chances. The opinions he received were varied.

There is no train scheduled to leave Belleville at midnight, the nearest times being 12.45 and 1.30, to Montreal, and 2.47 and 4.02 for Toronto. From inquiries made, no person at the station at those times saw him, and the presumption is that he was driven to some outside point and there took the train for the other side.

SHOULD HAVE BEEN IN CUSTODY.

Needless to say the escape of Reilly has caused more than a flutter of excitement in court circles. The sheriff, Mr. G. A. Hope, said that the moment a true bill was found against Reilly he should have been taken into custody by the prosecuting authorities.

"He does not come into my hands," said the sheriff "until he appears in court to be tried on the true bill."

OTHER ACCUSED ARE

The latest sensation was more than interesting to the other three defendants, E. G. Ruttan, T. E. Whalen and Samuel Harryett. A true bill was returned against Ruttan last evening, but he is around town to-day, but will, it is understood, be under strict surveillance until his trial to-morrow morning. Whalen and Harryett were in court when Reilly was announced missing. Their faces turned ashen pale, and in a few minutes they retired to an ante room where they were in consultation subsequently with Mr. E. F. B. Johnston.

At two o'clock this afternoon there will be an interesting argument before Justice MacMahon as to the estreating of Reilly's bonds. It was whispered at noon that the contention will be urged that Reilly was not obliged to appear in the High Court, but should have been tried in the General Sessions Court of the county.

INDICTMENT OBJECT TO.

Mr. E. F. B. Johnston, K.C., representing Reilly, objected to the indictment against the defendant on the ground that the conspiracy was committed "in the county of Hastings and elsewhere." He held that the word "elsewhere" should be limited to the "Province of Ontario," and that the Crown prosecutor must confine the evidence to this Province, and not refer to the United States. Mr. Johnston evidently referred to the Watertown, N.Y., end of the case. "The crime of conspiracy must have taken place in this Province," he said.

"There is no doubt whatever about that," said His Lordship, who quoted from the statue however, showing that evidence from outside might be admitted.

A second objection of Mr. Johnston was that section 3 of the indictment could not be upheld, in that the destruction or diversion of ballots had nothing whatever to do with the free exercise of the franchise by the electors.

Mr. Johnston also contended that as the alleged conspiracy took place in Frontenac and Hastings, two different ridings, two different conspiracies should be charged.

"We are not trying any Frontenac cases here at all," said his Lordship. "We are merely admitting evidence from that riding to give scope to the West Hastings trial."

Mr. Hamilton replying briefly to Mr. Johnston, contended that the indictment held good on the points objected to.

"Do you plead to the indictment?" asked his Lordship.

"We plead not guilty subject to the objections," said Mr. Johnston.

LOSS 900,000

The Cereal Company's Losses Being Adjusted

—Mr. Henry A. Dike, representing the Western Adjustment Company, accompanied by Mr. W. L. Templeton, the American Cereal Company's assistant Secretary, are at present in Cedar Rapids, Ia., trying to adjust and settle the amount of the company's loss by the late fire. This work is somewhat handicapped by the confused conditions resulting from such a tremendous conflagration, but large numbers of workmen are striving hard to get things into such shape that a decision can be speedily attained.

The citizens of Cedar Rapids are somewhat disturbed by the fact that several leading American cities are supposed to be holding out inducements to the Cereal Company to remove the works from that city to some other locality. It has been found that the foundations of the mill are in remarkably good condition, under the circumstances, being built on a solid bed of rock many feet deep. The Gazette states that the aggregate insurance on the American Cereal plant, destroyed by the fire, will reach the enormous figures of $900,000.

DASTARDLY DEED

False Alarm of Fire Interrupts the Firemens' Hockey Match

Last night about nine o'clock a vigorously executed alarm was pealed out, just as the firemen were warmed up in their hockey match, in Brock street rink, between the Inside and Outside men. The brigade turned out in their usual prompt manner, most of them in their hockey clothes and skates, and after a hasty gallop up George and down Hunter streets, as far as Mr. D. Belleghem's furniture emporium, found that the alarm was a hoax. It was currently said, when the bell rang, and the telephone central informed this journal, that the fire was in a blacksmith's shop on Hunter street, however, either this was a mistake or some miscreant with a larger bump of mischief than sense, and with a distorted idea of fun succeeded in temporarily breaking up the firemen's game. Had he been discovered it would have been excellent training for the brigade to have used him as a target, and had a little heavy artillery practice with the cold water hose. The new Team was out, attached to two wagon, for the first time and did well, though there was a little trouble in getting them to back the wagon in on returning.

NO INQUEST NECESSARY

Over the Death of Mrs Brough, Who Expired Suddenly on Wednesday

Dr. Gray, of Sherbrook street, the coroner, has decided that no inquest is necessary over the death of Mrs. Brough, who will be buried this afternoon in the Little Lake cemetery. It will be remembered by our readers that Mrs. Brough, mother of Mr. Brough, died suddenly at his home, 141 George street on Wednesday afternoon. Mrs. Brough lived at 178 Antrim street, with her daughter, Mrs. Sidney Crouter, with whom she was paying a visit at her son's house. She suddenly fell to the floor, and crying for assistance, immediately expired. The deceased had been in her usual good health up to the time of her death, and had eaten a hearty dinner. She was a strong, robust woman of 62 years, and had been in splendid health. This fact made the circumstances connected with her death, mysterious. She was the widow of the late Jas. Brough, and leaves to mourn her loss two married daughters, Mrs. Sidney Crouter and Mrs. R. Butcher, both of town, five unmarried daughters, Maude, Gertrude, Minnie, Rose and Madeline, in town, and two sons, William and Alexander, also of town. Three other children reside out of town.

ONLY IN NAME

"Elijah" Dowie Claims Balance of $21,000,000

Chicago, March 16.—John Alexander Dowie, head of the Christian Catholic church, who is now in the City of Mexico, in a communication to his people, denies the report that he will never return to Zion City, the headquarters of the church. Dr. Dowie says:

"I would say that the rumor that I will never return to Zion City permanently is untrue, if by that is meant that Zion City will cease to be my headquarters. My present intention is to remain continuously in Zion City until I pay my next visit to Mexico. Zion City will continue to be the headquarters of the Christian Catholic Church. The estate of Zion shows a balance of $21,000,000 over all present and future liabilities."

Weary Shop Girls Pale, Tired Women

You Feel "Draggy," Lifeless, Nervous, Never Rested

FERROZONE

Will Make You Feel Like New—It Vitalizes, Tones and Strengthens

The best medicine for restoring vitality and strength is Ferrozone.

The time to take Ferrozone is when you first feel tired, and when appetite fails, when nerves get irritated.

Its record is marvelous—it makes you feel strong and sturdy, brings health that outlasts old age. Mrs. Mary Moloney, of Harbor Bouche, Nova Scotia, writes:

"Ferrozone built me up.

"Before using it I scarcely knew what good health meant.

"I was just as miserable and weak as any woman could be.

"Tired from morning till night, bothered by trifles, unceasingly nervous.

"The first box of Ferrozone improved my blood, gave me appetite. In a short time I was like a new person. Now I rejoice in abundant good health."

Get Ferrozone. It will make an unexpected improvement in your looks, your feeling, your health. 50c. per box, or six for $2.50. By mail from N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $5 per year, strictly in advance.

UNION LABEL

PETERBOROUGH, MARCH 17 1905

LIBERALISM AND PROVINCIAL RIGHTS

The late Hon. David Mills was undoubtedly one of the best constitutional authorities who ever sat in the House of Commons. He was always friendly to minorities — so friendly in fact to the minority of Manitoba in 1895 that his speeches were quoted in favor of the Remedial Bill. He said, however, in the House of Commons in 1891: "When the "people of the Territories or any "portion of the Territories, are sufficiently numerous to constitute a "Province—when, in fact, they attain their majority in regard to "local matters and when they propose to set up for themselves—this "Parliament has no right to exercise control over them. It can give "good advice, but it has no right "to give commands. When the Territories have a sufficient population to entitle them to become a "Province, they must decide for "themselves whether they will have "Separate Schools or not. I have "my view as to what will be the "best decision for them to arrive at, "but I must not impose on them my "view as to how they should be governed after they have attained "their majority."

In the same debate Sir Louis Davies, then leader of the Maritime Liberals, and who is now on the Supreme Court Bench, said; "My "opinion is now, and has been for "years, that when that times comes "(the time to erect the Territories "into Provinces) you cannot withhold from the Provinces so erected "the right to determine for themselves the question of education in "one way or the other. I would be "the last to favor this Parliament "imposing upon the people there any "system of education, either free or "Separate. I only claim that when "a bill is introduced to erect those "Territories into Provinces that bill "should contain a provision enabling the people of the different Provinces so created to decide what "system of education they will "have." It seems impossible that a Canadian Liberal can logically occupy any other position.

ST. PATRICK'S DAY

With the dawn of St. Patrick's Day there comes irresistibly to every person of Irish blood some thrill from the spirit of a day that is enriched with a multitude of memories.

There is a new lilt in the hearts of Irish men and women when they take up their sprigs of green—the mystical emblem of Erin. The gleam of the Shamrock met on all sides that day means much to them. It has a tale to tell of St. Patrick and the victory he won over the stately Druids. It whispers of the long centuries through which Ireland has cherished the memory of the saint and his teachings.

In the dark famine days its roots and leaves have served the Irishman as food, and, wreathed about banners of Red-Branch Knights and carried to the hottest point of the battle field, where every man fell with his face to the foe.

It is subtly eloquent of Mother Erin—now the sparkling "dark Rosaleen" of the Irish poet—and where is the Irishman without a touch of poetry in his nature? And, again, the broken-hearted old mother dreeing the weird of her children's woe.

She is battle-scarred and worn with a long night of struggle. She is fresh as the morning on Slievena-Mon, laughing in the face of the sun, for old Druids worshipped.

She is old, but always young—this Erin of contradictory surface moods, as variable as the tides, with the immovable rock of her own hills beneath. No wonder her sons worship her and have gone to death with a jaunty step, wearing her colors.

She is April-like—"O, dhar dheelish! the tearful; she's ready to laugh when she cries." She flouts grief with a wave of her hand, and dances while her heart is breaking.

The Milesian strain is strong in Erin and she loves with the passion of the South, she hates—for a moment. She is proud, fiercly proud, even when she walks in patched. She is poor as the world counts wealth, but has the riches beyond rubies in the spirit of her children. "Sir Knight, they love honor and virtue more," said the maiden of the wand, we are told in a tradition that was interwoven with the lives of the Irish.

And as Erin, so are her children. Blessed wherever they are with some of her characteristics—generous and tolerant, hopeful and loyal — leal to the death. It is the heritable of character wrested for them from the ages by their forefathers, fostered in them by the atmosphere of the past, that a child of Irish blood breathes in from infancy.

Erin is rich in memories, though her golden age went out in the fourteenth century. It had lasted for 2,000 years—with interruptions of war among the Milesian lords—from the day of Ollam Fobla, the lawmaker, seven centuries before the birth of Christ. Even the war did not greatly disturb Erin, for battle was a pastime then, and when the lords went out to seek adventure with their warriors they took only some of their lords leaving their castles and lands in the care of the brehon or judges, the physicians and poets, also men who were held in high respect at each little court.

Perhaps no other race dwells quite as much in the past as the Irish do, but Erin's glory still lies there, and the inspiration and faith they derive from it make the retrospection comprehensible. It in no way hinders their hopeful outlook to the future; on the contrary, it strengthens their hands. It has helped to make Irishmen the world over better men—this devotion to the memory of a high-minded past, of material things sacrificed for principle's sake.

Since the traditions of a country are the surest revelation of its real spirit and aims, then Irishmen have reason to celebrate year after year with pride the feast of their national saint.

KUROPATKIN

It is a significant incident of the tremendous struggle going on in Russia as well as in Manchuria that a chief topic of discussion in St. Petersburg is the personal fate of Gen. Kuropatkin. He is the centre at once of intrigue and curiosity, and in the military class, which is largely responsible for the present disastrous war, there is evidently more interest as to his rise and fall than there is in the effect upon the fortunes of the Russian Empire of the terrible battle he is waging.

From the first the gallant General has had to contend with obstacles imposed at home more serious, in some ways, that those the enemy could offer. He started with the hatred of the Alexieff faction, and he has been compelled to encounter it at every step. Practically this means that all the resources of corruption at the capital were united against him, for Alexieff was the favorite and the agent of the Ducal Ring the sordid traffic of whom in the "privileges" of the whole Manchurian scheme was one of the chief causes of the war. At best Kuropatkin had a hard task set for him, since the Russian Government was stupidly ignorant of the forces they would have to meet in a real conflict with Japan. He was doomed to a defensive campaign until the armies could be reinforced and supplied, and the activity and dash of the Japanese taxed his resources and his military ingenuity to the utmost. But it is notorious that in the sending forward of reinforcements and supplies he was very badly served, the unconquerable confusion of the War Department being aggravated by the prevailing corruption and favoritism. The situation was one to try the nerve and cloud the judgment of any but the most highly gifted commander. It is the apparently united judgment of the military experts that the Russian General has done all that could have been expected of him, save in his futile offensive movement from Liao-Yang, which it is believed was dictated to him from St. Petersburg, and possibly in his failure to support the attack of Gripenberg. Certainly in the long and melancholy record of defeat and failure no one has seriously questioned his loyal courage and his splendid firmness.

10 Parents if Deaf or Dumb or Blind

This journal is in receipt of a communication from Mr. B. Mathison, Superintendent of the Ontario Institution for the Deaf and Dumb, in which the writer asks for general or specific information about children who are deaf, dumb, or blind. This admirable and philanthropic school will be glad to get word from the parents or friends of any children afflicted with any of the troubles mentioned. They take in any deaf or dumb persons of sound mind, and with no contagious disease, who are between the ages of seven and twenty, for instruction in general education, or teach them a trade suitable to the individual or sex. Parents who are unable to pay will have their children, thus afflicted, admitted and taught free. All expenses for books, medical attendance and tuition are paid by the institution, only their clothing being a charge on parents; in the case of indigent orphans the Province clothes them. The blind receive about similar treatment at the Institute for the Blind at Brantford. These are institutions worthy of encouragement and practical assistance at the hands of every man or woman in this Province. For all information or papers address Mr. R. Mathison, Superintendent of Ontario Institution for the Deaf and Dumb, Belleville, Ont.

Hello Stony Lake!

In addition to the proposed extension contemplated by the Bell Telephone Company to Enniamore, and which is somewhat dependent on the result of a meeting to be held in Enniamore to-day, by leading farmers along the proposed route, the company have in hand a proposition to build a line which will connect Hall's Glen and Stony Lake, via the present Warsaw system.

Hello REWARD Hello

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

FORTUNES ARE BEING MADE IN KANSAS OIL

Here's a fortune for you. Not 10% but 100% and no risk of loss. Giant of the Oil Fields.

The Midland Oil and Gas Company

has over 180 acres of oil land and has put down 10 wells, so the land is proved up. An adjoining additional 80 was secured yesterday, making over 260 acres all in the proven belt. Just read this:

The U. S. report on the oil industry places the average daily production of Pennsylvania wells at only one-half a barrel each per day. The Midland wells are pumping

Sixty Barrels a Day Each.

The pumping plant has just been started and this is the surprising result. Nothing like it in the world. The officers and directors of this company are bank men and do not believe in debts, so the company is free from debt. They have nearly $20,000 in cash and bills receivable in the treasury and everything paid for—property, wells, pumping plant, oil tanks, well cleaning machine and everything connected with the company. Have two drilling rigs working night and day sinking wells. Have abundance of gas, which runs the drills and pumping plant, so it only costs about $5.00 a day to produce and market the oil.

The Company has about 33 per cent of its stock in the treasury as a reserve.

For a short time the Company will sell a little more of its stock at only

7½ CTS. A SHARE

Buy all you can raise money to pay for.

We could talk all day about it and not cover all the strong points. But as the company has this grand property paid for, there is only one side to it, and that is profit. Don't buy stock in a company that tells you what they will do, but buy in this company, that has proved its property, and every dollar you put in makes it better. Send for particulars or mail check to

IF YOU CAN'T CALL, CUT THIS OUT AND MAIL

Will have 100 Wells
As soon as the drilling rigs can put them down.

From the Kansas City Journal, Feb. 26, 1905.

There is perhaps no people in the same amount of territory in the world who have increased in wealth so rapidly. Everybody is prosperous. Many once poor and hard working families have become immensely wealthy.

Hudge Hale, an old Frisco conductor, has become a millionaire off of oil. He got in the game early. Now he has money as well as oil and gas to burn.

Fred Hetrick, a farmer living near Chanute, had a hard time for years making both ends meet. Life was a hard proposition with him. His royalties now reach $1,000 a month and he is living on easy street.

Joe Helm, of the Kansas City brewery, took a flyer in oil leases. He first put in $500 and refused $12,000 for his investment. Later he put in a lot more money in gas and oil lands and is now figuring high.

George K. Work, the Chicago clothier, took some acres of land near Chanute for a debt a customer owed him. Work's partner refused to stand for the deal. So Work kept the land himself. He has since refused $50,000 for his holdings.

These are a few samples. Hundreds of farmers have become independently rich off their oil royalties, and hundreds of other men have made big money producing oil.

This Kansas oil bearing sand is like the Pennsylvania sand; wells will produce oil for fifty years.

Can give bank references, and dozens from people who have personally examined this great property.

STRICTURE AND KIDNEY DISEASE CURED.

G. E. WRIGHT.

"I had stricture for eleven years. It finally brought on Bright's Disease of the Kidneys. I had an uncomfortable shooting pain in the groin and feeling as though something was in the urethra. My back was weak and I could scarcely stoop over. Urine was full of sediment. Had a desire to urinate frequently. Family doctors, so-called specialists, patent medicines, electric belts, all failed. I was discouraged. I had spent hundreds of dollars in vain. Finally I consulted Drs. Kennedy & Kergan as the last resort. I had heard a great deal about them and concluded from the fact that they had been established over 25 years that they understood their business. I am delighted with the results. In one week I felt better and in a few weeks was entirely cured. Have gained sixteen pounds in weight." G. E. WRIGHT, Lansing.

ESTABLISHED 25 YEARS.

CURES GUARANTEED OR NO PAY.

Cor. Michigan Ave. and Shelby St., Detroit, Mich.

TO CANADIAN INVESTORS

Oregon-Idaho Gold Mining Co.

INCORPORATED

Capital $5,000,000. Shares $1.00 Each, Par Value, Fully Paid Up and Non-Assessable.

We have just secured the agency for the above splendid proposition, of which we have been allotted a block of Treasury stock. We can confidently recommend this as a safe and exceedingly profitable investment. Every dollar of stock is guaranteed by twenty year, full paid, gold bond, delivered to purchaser of stock, from an Investment Company that has no interest whatever in the company, but who are depositing of the debentured bonds to the public, and, under their charter, they are compelled to deposit securities to an equal amount, to the State Treasurer under which they received their charter, there by doubly securing the payment of their gold bonds.

The Company's property, which is now past the project stage, is known to be marvellously rich in gold.

Following is the opinion of G. W. Miller, Mining Engineer, formerly with the Boston and Montana Consolidated Copper and Silver Mining Company, U. S.; Stimmer and Jack Mining Co., Limited, Elandsfountain South Africa:—

"You have here a most valuable property and one of the strongest fissure veins that can be found in any part of the world.

"With the present development of the Monument Mine, I estimate that 100 tons per day can be extracted, which will mill from $15.00 to $30.00 per ton. The total cost of mining, ore, delivering and milling, I place at about $4.00 per ton. With the present milling capacity, it is safe to say that the mine can furnish 100 tons of $15.00 ore, which would yield a clear profit of $11.00 per ton, or $1,100.00 per day (equal to $400,000.00 per annum). Estimated total value of ore in sight, $2,000,000."

During the past summer, a party of the Company Directors visited the property, taking with them, Amos P. Brown, Ph.D., Mining Engineer and Professor of Geology and Mineralogy at the University of Pennsylvania. Dr. Brown writes as follows:—

"In regards to the amount of ore available at the mines at Sinclair, I saw on the dumps several thousand tons, probably 2000 tons would be an under-estimate.

"As to the size of the ore body itself, from what I saw of the geological structure, I think that there is every indication that it will be found to extend underground so far as the out-croppings on the south side of the gulch. This would mean an ore body large enough to keep the present mill running for many years to come.

A write up of the proposition will appear in these columns in a few days. Watch for it. In the meantime we will be pleased to furnish full information to investors.

THOS. PATTERSON & CO.,

FISCAL AGENTS. PETERBOROUGH

CONSERVATIVE INVESTORS WILL FIND

The Twentieth Century Mining and Power Co., Ltd.

—OFFERS—

A HIGH GRADE INDUSTRIAL AND MINING INVESTMENT

We have thoroughly investigated it and found it to be right in every respect Did you ever have a chance to invest in a straight legitimate money making proposition? If not,

THIS IS YOUR OPPORTUNITY

We own a monopoly of the water right privileges in the Thunder Mountain mining district, State of Idaho, U.S.A.; seven water rights in all; one developed and in use. The property of the Company consists of over 1400 acres, with plenty of timber for building and mining purposes, a saw mill fully equipped and in operation, a 10-stamp mill now on its way from the B. R. Station to the property, and 40 additional stamps to be purchased at once and installed during the coming summer. This is the largest and most favorably situated property in the district. Some of the tunnels have been driven over 400 ft., cross-cutting many dikes, demonstrating that we have an inexhaustible body of ore. The ore bodies are sampled by an assayer every 10 ft., and assays run from 40c. to $900 per ton. The ore is free milling, and can be mined and milled for about $1.00 per ton.

The Company is now on a sound financial basis; have no debts, and when the present allotment of stock is sold, it will be withdrawn from the market. The work is progressing steadily on the property, and for the last 52 weeks $1000 per week has been expended in the development of the mine. If you want a winner that promises large dividends, write for full information to Messrs.

Thos. Patterson & Co. Peterboro, Ont.

We want to tell you more about it. It will pay you to investigate. You had better not wait too long, or the allotment of stock will be sold, as it is being taken up rapidly. Within the last 90 days 300,000 shares have been subscribed for. Only 100,000 shares remain at 50c. par share.

RETURNED FROM THE INAUGURATION

Hon. Peter McSweeney Passed Through the City

VERY IMPOSING CEREMONIAL

Canadian Visitors Shown Every Courtesy and Kindness by Washington Authorities

Montreal, March 15.—Hon. Peter McSweeney, of Moncton, was at the Queen's Hotel, yesterday, on his way back from Washington, where he attended the ceremonies connected with the inauguration of President Roosevelt. The Senator was very much impressed with the ceremonial used on that occasion.

Senator Dandurand, speaker of the Senate, was head of the party which officially visited the capital of the United States on that occasion. Hon. Sir Mackenzie Bowell and Hon. Peter McSweeney were the other members of the senatorial party. Mrs. Dandurand and her daughter, who attends school at Washington, together with Mr. F. H. Clergue and Mrs. Clergue, were the other members of the Canadian party.

"We were shown every possible courtesy by the authorities at Washington," remarked Senator McSweeney. We were even given the right to seats on the floor of the Senate. This is a more important privilege in Washington, than it is in Ottawa. With us any ex-cabinet minister, a judge, or any distinguished visitor is, as a matter of course, given a seat on the floor of the Senate or the House of Commons. At Washington, however, it is different. It is necessary there that there should be a vote or a resolution of the House.

"We were invited to luncheon at the White House. Unfortunately, however, we were unable to accept the invitation. Sir Mackenzie and I had to leave for New York, the evening before, and Senator Dandurand had to leave that day.

One thing I remarked while in Washington and New York was the absence of Canadian newspapers. I tried both in Washington and New York to get some news of what was going on in Canada. The local papers published nothing of our affairs, and though I tried several news stands, I could not get a single Canadian paper. This surprised me all the more, because I have been at Los Angeles and other points on the Pacific coast, and there I could get Canadian news. Senator McSweeney left for Ottawa.

A.O.U.W ANNUAL MEETING

Mr. J. J. Turner, Sr., a Delegate from the Local Lodge.

There is in progress in Toronto a meeting that will draw the attention of all members of the Ancient Order of United Workmen throughout all Ontario. Mr. J. J. Turner, Sr., has gone as a delegate to the 27th annual meeting of the A.O.U.W. Grand Lordge, and will be one among 300 present, including five ladies. The meeting is being held in the Temple Building.

The question under discussion by the Executive, and which will be the feature of the Grand Lodge is the question of insurance rates. The Canadian Grand Lodge separated from the American Grand Lodge and instituted an assessment rate according to the age of the member at the time of his initiation. This, in some cases was higher than the former rate and in others lower; but it was hoped that by a fixed rate there would be no extra assessments. The Order has found itself unable to meet the death claims without extra assessments, and there is little doubt but that the executive will recommend an increased rate.

A special Committee of five is giving this question their consideration, and they will report to-day. Tomorrow the result of their deliberations, as presented by the executive, will be the first order paper for Grand Lodge to discuss.

TO CANADIAN INVESTORS

Thomas Patterson & Co. Have a Fine Copper Proposition.

Fifty dollars invested in Granite Mountain Mining Company's stock paid the purchaser $34,500, besides several thousand dollars in dividends. One hundred dollars invested in Boston and Montana Mining stock paid the purchaser $44,000, besides several thousand dollars in dividends. A few dollars invested in shares of the Butte Copper Mining & Smelting Company stock, will not only insure you big returns in dividends, but a handsome profit in an increased value of the stock. Our mine is not a prospect but a copper mine which has produced $180,000 in profits in the last three years.

For the purpose of buying adjoining ground we have placed on the market 50,000 shares of our treasury stock. This stock is fully paid and non-assessable. Par value $1.00 per share. We will sell any part or all of this lot at 60 cents a share; no certificate issued for less than 100 shares. Send us your order for what stock you want and we will reserve it for you, pending your investigation of our company; and when you have received our prospectus and satisfied yourself that the investment is a good one, you can send us the money and we will issue the stock, or have the stock sent through any bank you may designate. References: Any Bank or Mercantile House in Butte, Montana. Write us for particulars. Butte Copper Mining & Smelting Co., Butte, Montana, or to Thos. Patterson & Co., Fiscal their Representatives."

SEALED TENDERS addressed to the undersigned, and endorsed, "Tender for Stable, Royal Military College, Kingston, Ont.," will be received at this office until Wednesday, March 29, 1905, inclusively, for the erection of a brick stable at the Royal Military College, Kingston, Ont.

Plans and specifications can be seen and forms of tender obtained at the office of Mr. Arthur Ellis, Architect, Kingston, Ont., and at this Department.

Persons tendering are notified that tenders will not be considered unless made on the printed form supplied, and signed with their actual signatures.

Each tender must be accompanied by an accepted cheque on a chartered bank, made payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the tender, which will be forfeited if the party tendering decline to enter into a contract when called upon to do so, or if he fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
FRED. GELINAS,
Secretary.

Department of Public Works,
Ottawa, March 11, 1905.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

ALEXANDER MUNROE AND GEO. H. MUNROE

CALL ATTENTION TO

The Marconi Wireless Telegraph Co., of Canada

Capital Stock, $5,000,000. Par Value of Shares, $5.00 Each. Full Paid, Non-Assessable

EVERY STOCKHOLDER ON AN EQUAL BASIS
NO BONDS — NO PREFERRED STOCK

Shares in the above named Company are offered for subscription by Munroe & Munroe at $5 each, in blocks of from one share to 200 shares for a limited period only. Every indication points to the early and rapid advance in value of these shares, and those who are desirous of making a profitable investment of their surplus should lose no time in forwarding their application for as many shares as they can conveniently purchase at this time. No enterprise of modern times offers anything like so good an opportunity for rapid and substantial accretion as the Marconi investment. We demonstrate this to the satisfaction of all investigators in our book entitled "Financial Aspect of the Marconi Investment," which we will send free to all who request it. Facts and figures most convincing are therein cited to prove that the Marconi Wireless Telegraph System will eventually dominate the industry of rapid communication between all nations of the earth. The Canadian Company is one of the most important integers in the world-wide organization which has been planned to control the world's means of rapid interchange of intelligence. You should study the Marconi System thoroughly, and particularly the situation of the Canadian Company with reference to this most important world organization.

THE MARCONI WIRELESS TELEGRAPH CO. OF CANADA

Is the owner by purchase of all the patents of WILLIAM MARCONI and his associates as applied to Wireless Telegraphy for the Dominion of Canada. It is so intimately associated with Marconi's Wireless Telegraph Company, Ltd., of England, the Marconi Wireless Telegraph Company, of America, that it is an essential factor in the progress and development of the System. It is the owner of a high power wireless telegraph station located at Glace Bay, Nova Scotia, shortly to be opened by Mr. Marconi, for the transmission of telegraphic messages between England and the Continent of America. It has equipped nine wireless telegraph stations on the Atlantic Coast and St. Lawrence River within the Dominion, and has equipped three ships of the Canadian Government and five ships of the Allan Line. MESSAGES DESTINED FOR PASSENGERS ON BOARD THE ALLAN LINE STEAMSHIPS OR ANY OF THE SEVENTY-FIVE (75) TRANSATLANTIC SHIPS, CARRYING THE MARCONI EQUIPMENT MAY BE DESPATCHED FROM SHORE, FROM ANY OF THE 30,000 OFFICES OF THE WESTERN UNION OR POSTAL TELEGRAPH COMPANIES THROUGHOUT THE UNITED STATES AND CANADA. Vessels are in constant communication with land throughout the voyage. The business established through this medium is a very large and profitable one, and is constantly growing. The Canadian Company has the support and backing of the Dominion Government which has granted large subsidies for the installation and maintenance of the System, as an aid to navigation and in reaching distant and inaccessible points at the outposts of civilization. The day is rapidly approaching when all other systems of telegraphic communications must give way before the advantages of wireless telegraphy, and those who join in the enterprise at this early stage of its existence will reap the large reward which is due to the pioneer in every enterprise. As an investment of $100 in the Bell Telephone Company in 1878 did, in the twenty-five succeeding years, net the investor a profit of over $200,000, so will the investment of a few hundred dollars in the Marconi Wireless Telegraph Company of Canada net the investor thousands of dollars of profit.

Our faith in the destiny of the Marconi Wireless Telegraph Company of Canada is boundless. It will open to Canada its first means of direct communication with the mother country, and will place at the disposal of press and public alike, a medium whereby news and commercial messages may be transmitted direct. It is therefore, to the general as well as to the individual advantage of Canadians to identify themselves with the Company as stockholders.

Further information will be given on application to any of our offices named below. However, in order to be certain that you will procure your full allotment of the stock at the present price, we would advise an immediate remittance for the number of shares you desire to purchase. Address all communications and make all checks payable to

MUNROE & MUNROE

Canada Life Bldg., Montreal. Broad Exchange Bldg., New York. State Mutual Bldg., (50 Congress St.) Boston.

Sure Investment

While I have already given the readers of this paper a fairly decent outline of the present and prospective value of the Boston & Texas Corporation stock, which I have been offering at the ridiculously low price of 50 cents the share, there are, nevertheless, a great many things of a favorable nature of a necessity left unsaid owing to the limitation and expense of newspaper space. I should like to tell you of the town buildings, the hotel, the store, the impounds, the barns, the sheds, the rotary and cable drilling rigs, the pipe, the engines, the boilers, etc.; in fact, all about the outfittings necessary for the developing of the Corporation's great property; the whole constituting an equipment that cannot be duplicated short of $75,000. I should like to tell you in detail of the independent ice and water companies, newly established there, and the profits that they are making for their stockholders; also of the many opportunities in kaolin, coal and other minerals for independent operation. I would like to show you photographs, maps, blue prints, and literature of authority, all of which have importance and weight in enabling one to arrive at an intelligent decision. I have also the reports of the San Antonio Daily Express the Kansas City Citation, and the Pleasanton Monitor, newspapers published within a few miles of the Corporation's property and which deal with its most recent oil discoveries, fresh from the pens of the reporters, who, visiting the field in search of sensational news, found it, and having found it wrote of it as the facts presented themselves. Particularly would I like to have you see the reproduction of the U. S. Government map as it appeared in the San Antonio Daily Express of last August, whereon is shown the railway line that is soon to directly connect the Boston & Texas Corporation properties with San Antonio, the great distributing centre and the largest city in the State of Texas. I also want you to write me and ask me questions. Then I can give you information at first hand. I am thoroughly acquainted with the property. I have travelled all over it. I have made every investigation that a careful, conservative man could make. I have got my own money invested in the enterprise to such an extent that I am one of its directors. I am kept in close touch with everything that is done in regard to its development, and I advise with my associates on all points concerning its policy and the expenditures necessary thereunto. I am in a position to keep all investors in this section fully posted on all of the Corporation's work at all times and I pledge myself to do so. I have stated my position thus frankly and at length, because I want your assistance in this great work of development, and to secure your co-operation I offer you stock in the same at less than one-half of its real value, I honestly believe. Fifty cents for stock that is morally certain to pay six, eight or ten per cent. on a par value of $1.00 in less than 15 months is worthy the serious consideration of every man and woman who has "idle money," that is, money deposited in savings bank, where only three per cent per annum is being earned, and where the security is no greater, even if it be as great in the latter as in the former. Again I say WRITE. Take up this investment with me in the manner which it deserves. References, Mr. John C. Thompson, retired merchant, of Quebec, and any banking or any commercial institution in Montreal or Quebec.

You Take It Mixed With Air

A Powerful Destroyer of Disease Germs Which Cures Every Type of Catarrh Bronchitis and Throat Trouble.

Ever since Adam the air of the Pine woods has been known to possess marvellous healing properties. In fact doctors claim that people living in the balsamic atmosphere of the woods never contract consumption or catarrh.

A new remedy that embraces all the healing curative powers of the pine woods has at last been realized. It contains the balsams, the ozone and many other antiseptics that make it an absolute cure for all catarrhal diseases.

For years doctors have been seeking for just such a remedy and claim the newly discovered Catarrhozone is the most effectual, the most scientific cure for catarrh, bronchitis and winter ills, they have ever met.

So powerfully healing is Catarrhozone that simple colds in the head and coughs can be cured in less than an hour. Chronic catarrh is eradicated from the system in the most thorough manner. It doesn't matter whether the catarrh affects the nose, throat or stomach, it can be completely relieved from the system by using fragrant healing Catarrhozone.

The remotest parts of the lungs and air passages often contain germs of catarrh and consumption which cannot be reached by ordinary treatments. But the overriding vapor of Catarrhozone carries its antiseptic healing power direct to those isolated spots. So thoroughly does Catarrhozone reach all diseased surfaces that it cures for all time, and no relapse need ever be feared.

"My nose was so stuffed up from catarrh that I could not breathe except through my mouth," writes John D. Perkins, a well known merchant in Hamburg. "My breath was horribly offensive and my digestion was completely knocked out. I used Catarrhozone and was cured in two weeks. I wouldn't take five thousand dollars for the benefit and good health I received from Catarrhozone which I can recommend as a certain, absolute cure for catarrh."

Two months treatment costs $1.00; sample size, 25c. At druggists or by mail from N. C. Polson & Co., Hartford Conn., U.S.A., and Kingston, Ont. Catarrhozone always cures—refuse substitutes, and insist on getting Catarrhozone when you ask for it.

TOWN AND COUNTY NEWS

DASHES HERE AND THERE BY TIMES' REPORTERS

Woman's Art Association Exhibition

By special request the Woman's Art Association exhibition now being held at the Y.M.C.A., will be open to the public to-night from seven to ten.

St. Mark's Church, Otonabee

On Sunday next, March 19th, a memorial service and funeral sermon for the late John Thorn, esq., will be held at three o'clock at St. Mark's. The Rev. Mr. Langfeldt will preach.

Crown Prosecutor Appointed

Mr. John O'Meara, of Ottawa, formerly of Peterborough, has been offered and has accepted the position of Crown Prosecutor for the L'Original Assizes. Mr. W. J. Mikel, of Belleville, will act in a similar capacity at the Whitby and Lindsay assizes.

SHOOTING MATCH.

On Friday, March 17, commencing at 1 o'clock, there will be a shooting contest at Chemong Park, open to all comers, when some valuable prizes will be offered for competition. Lovers of that pastime invited. Roads are in fairly good condition.

Sugar Company Moribund

At 11 o'clock in the Judges' Chambers, on March 29th, the now apparently moribund Sugar Company will be wound up. Judge Weller has issued notices to the creditors, contributors and shareholders, of the Peterborough Sugar Company, Limited, calling a meeting for the purpose of appointing a permanent liquidator of the company, and fixing the security to be given by him. All interested in the affairs of the company, are asked to be present.

Peterboro' Business College
larger this year than ever
WHY?
Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.
Over 90 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have such prospects.
NOW IS THE TIME TO ENTER
If you cannot attend our School write for particulars regarding our correspondence course.
WM PRINGLE

Death of Mrs Joseph Fisher

Mrs. Joseph Fisher, a lady who had a large circle of friends in Peterborough, was laid to rest in St. Paul's cemetery, Cavan, on March 14th. Mrs. Fisher was a sister of Mrs. David Knox, Queen street, and died at her residence in Baillieboro, on March 12th. She was a good mother and an ardent supporter of the church. Her death is mourned by a husband and two children—Master Douglas and Miss Florence, who have the sympathy of a host of friends in their bereavement.

Presbyterian Home Mission Committee

Rev. Mr. Goodwill, Messrs. A. Long, J. McQuarrie, G. C. Taylor, Peterborough; and Rev. J. McMillan, Messrs. J. Davidson, P. G. McPherson, Lindsay, have been appointed by the Home Mission Committee of the Presbyterian church, in session in Toronto. Over fifty new fields will be opened this year. The work, as mapped out, will require an income of $135,000, which is $7,000 in advance of the receipts from ordinary sources for the past year. The decision to increase salaries $50 will also have to be provided for.

Mr. John Kylie's Brilliant Nephew

Mr. John Kylie, of Hunter street, is to be congratulated on the brilliant record made by his nephew, Mr. E. J. Kylie, B.A., at the Toronto University. Mr. Kylie in his double course of classics, and English and history, took a very high stand, carrying off the Mary Mulock Scholarship, the McCaul medal and also the Flavelle travelling scholarship. His course at Oxford, from which he graduated in 1904 with honors in history, was exceedingly creditable to him. During the last year he has been lecturing with great acceptance in the department of history, and is deservedly popular with the student body. During his stay at Oxford he was a member of the Executive Committee of the "Union," and won distinction as a debater.

Sad Death of Mr. T. H. Gillies

Mr. Thomas W. Gillies, a highly respected citizen, and a member of the Canadian Order of Chosen Friends succumbed on Wednesday night, at his residence, corner of George and Perry streets, to the dread scourge Bright's disease, at the age of 35. He has for some years been an employee of the Canadian General Electric Company. The late Mr. Gillies was born in Bethany, and removed to this town in 1895. He was married five years ago to Miss Emma Gillespie, of Cavan, who survives him, his father, Mr. Samuel Gillies, and mother, as well as one brother, are also left. Mr. Robert Gillies, of the Model School staff, Port Hope, is a brother, and Mrs. Henry Henders, of Yelverton, Ont., a sister. The funeral will take place this afternoon, at two o'clock, from his late residence, and proceed to Little Lake cemetery. Rev. Dr. Torrance, of St. Paul's church, will conduct the services.

Interesting Chorus Class Program

The pleasant exception to the general rule that choral practices are dull and uninteresting, was afforded in the last practice of the chorus class in the T.A.S. Hall. Amist the routine of practice work Miss Ruth Dawson, in her clear soprano voice, in which the higher notes were remarkably penetrating, but rich, and Mr. Thos. Dawson contributed several vocal numbers which were appreciated by all present. In the "Wedding Song," her voice was particularly effective. Mr. Dawson, her brother's song "Admiral Tom," was well rendered, his enunciation and articulation being markedly distinct. The duet "Father in Heaven all Glorious," was specially adapted to make a euphonious blending of the two voices. At subsequent meetings short lectures will be given on musical matters.

Doc. Johnston Means Business

In our yesterday's issue, we noted a denial made by Mr. Martin Commora that a race had been arranged between his mare Lady Gothard and Mr. Johnston's Donna Bell. As this journal always makes a point of sifting the truth out of all matters in doubt, we yesterday interviewed Doc Johnston. Whilst Mr. Johnston speaks in the highest terms of Mr. Commora, both as a man and a sport, he claims, in no doubtful language, that Mr. Kelcher came three different times to his place of business and tried to get up a match between Lady Gothard, and Donna Bell, offering to put up $100 on Lady Gothard, as a forfeit to bind the match. Doc did not have the change handy just at the time the gentleman called, but eventually went out and borrowed $500. When, with this money in his jeans he next saw Kelcher, Doc. offered to make good. Kelcher said he would go and get the $100 from Mr. Commora, but has not since shown up. This is the other side of the question, so our readers can take their choice until someone comes to the scratch. It might be added that this journal has since spoken to a party who was present at the interview when Doc Johnston was approached by Kelcher, and he corroborates Mr. Johnston's side of the case.

BIRTHDAY HONORS

Mr. Evans Presented with Valuable Furniture as Birthday Gift

A good old fashioned birthday party was held at the residence of Mr. Booth, on Chamberlain street, a couple of evenings since, when as the climax of a very merry evening of songs and music, Mr. N. Evans, as a birthday girft, was presented, by his many friends present, with a valuable set of six dining chairs, a rattan rocker, and a parlor table. A very complimentary address, accompanied the gifts, to which Mr. Evans made a suitable and feeling reply.

PETITIONING OUR MEMBER

Largely Signed Petition to be Sent to Mr. R. R. Hall, M.P.

Petitions are in circulation, and are largely signed, to Mr. R. R. Hall, M.P., asking him to "take all proper and legitimate means in his power to assist in having the educational clauses in the Autonomy Bill amended, so as to allow the proposed new Provinces to decide for themselves whether they will have Separate schools or not, instead of forcing Separate schools upon them for all time to come."

It is needless to say that the petition is likely to be a very large one.

All who are opposed to coercing the new Provinces are requested to call at the Y.M.C.A. or at The Times office, and append their names to the petition without delay.

EUCHRE CONTEST

Interesting Game at the Young Conservative Rooms

The euchre contest at the Young Conservative Club rooms last night between sides chosen by the President, Mr. R. E. Layfield and Vice-President, Mr. Harry Morgan, was won by the vice-president by the narrow margin of two points, the score being 928 to 918. There was a large crowd of the members present who took a deep interest in the game. Fourteen tables were in use and up until the last the result was in doubt.

Refreshments were served after the game by the club's caterer in the handsomely fitted rooms.

The club is meeting with the greatest success and is in a flourishing condition. New members are constantly coming in.

Local Incidents
BY THE TIMES MAN ON THE STREET.

—There was a meeting of the Board of Works last night.

—The Peterborough Base Ball team met last night at the Oriental.

—There will not be a meeting of the Primary and Junior Union in the Y.M.C.A. this evening.

—The barnyard songsters have returned to regular business, eggs sold at 20 cents yesterday.

—Take out your tablet and jot down the pop in the Y.M.C.A. on Saturday night. The "Pops" are free.

—A number of sales are being made at the W.A.A. exhibition now being held in the Y.M.C.A.

—The George street Methodist church has donated $25 towards the Sick Children's Hospital, Toronto.

—The Blues lead by nine points in the Y.M.C.A. membership contest which closes on Monday night, April 3rd.

—On Saturday, March 25th, the annual meeting of the Midland Football League will be held in the Y.M.C.A. Hall.

—Mr. Ernest H. Mann's sash and door factory is rushed with work preparatory to an anticipated boom in local building operations.

—Copies of the petition to Mr. R. R. Hall, M.P., which protest against Separate schools in the North-West, are open for signature at the Y.M.C.A., and the Times Bookstore.

—Peterborough is sending hogs to Hogtown. 176 hogs weighing 29,790 pounds, at $5.75 per cwt., were shipped from the Peterborough stockyards to Toronto, on Wednesday.

—The Inside members of the Firemen, defeated the Outside members by 10—7 in the hockey match last night.

—Mr. George Graham has issued invitations to the Peterborough Hockey Club to an informal supper to take place in the Oriental Hotel on the night of March 23rd.

—In the catalogues issued by the W.A.A., describing the exhibits, the prices of the exhibits are not all given, but these may be had on application to the secretary.

—Mr. C. R. Sayer, Prov. Sec'y of the Y.M.C.A. will be the speaker at the Popular Man's Meeting at the Y.M.C.A. on Sunday. Mr. Mark Wilson of St. Andrew's choir, will sing.

—We must congratulate our good Hibernian friends, Messrs. H. Le Brun and Jos. Picord on the beautiful display of Shamrocks, celebrating St. Patrick's Day, that grace their window.

—Brigadier Howell, S.A. Army Immigration Agent for Canada, and Mrs. Howell, will conduct special meetings in the Salvation Army barracks on Saturday and Sunday next, assisted by Captain Debow.

—Mr. R. M. Roy is exhibiting at his Hunter street window, two excellent photographic views of the spring delivery of the Massey-Harris implements which took place in Lakefield last week. The pictures are well worth seeing.

—Mr. J. V. Jenkins, who until now has been lessee of the Quinte House, Belleville has purchased the property the price being about $45,000. The hotel was formerly owned by a stock company, and is one of the best hotels between Toronto and Montreal.

—Joshua Smithson, Oconahee, J. Knox, Havelock, and John Ross, Warsaw, are, it is understood, the names recommended to the department at Toronto, as the new liquor license commissioners, for East Peterborough.

—The Bowmanville Statesman says: Mr. Harry Lawson, Hope, a newly appointed License Commissioner for East Durham, has sent in his resignation to the Provincial Secretary. Harry does not believe in hotels and states that if licenses were not granted until his signature appeared upon them, we would soon have prohibition.

—During the coming session there will be some amendments to the game law act, chiefly in the way of the extension of closed seasons for certain kind of game. After the amendments have been made, a revised edition of the act will be issued in pamphlet form for the benefit of sportsmen and others interested.

MARRIED

STINSON—REID. — On Wednesday March 15, by the Rev. Dr. Torrance, Miss Lena May Stinson, to Mr. Asa Melville Reid, formerly of Beaverton.

OTHER WORLDS.
Our sole knowledge of the people on other worlds and how far the people there differ from our inhabitants, can only be guessed by comparison with animal nature on this small sphere of ours. More important to us is a knowledge of ourselves. "KNOW THYSELF" was an old Greek thought. How to take care of one's own body is not so simple as some think; the human mechanism is a wonderful thing and requires watching.

One man who has done more to teach the American people how to care for their bodies than almost any other, is Dr. R. V. Pierce, of Buffalo, N. Y., the Author of the "Common Sense Medical Adviser." He says: It is not the quantity of the food eaten which produces strength and health (for some people can keep strong on a very meagre diet), but it is how much food is absorbed and assimilated by the blood and carried to nourish every organ of the body. It is, therefore, vitally necessary for the body that the stomach be in a healthy state. If disease of the stomach, or what is called "stomach trouble," prevents proper nutrition then the heart, liver, lungs, and kidneys do not get proper food—they are not fed on rich red blood, and in consequence, begin to show signs of distress. Outwardly these signs may be pimples and eruptions on skin, pale face, sleepless nights, irregular feelings, or, by reason of the nerves not being properly fed, they become starved, and we receive a warning in the pain we call neuralgia. Rheumatism, too, is a blood disease. After years of practice and study Dr. Pierce found that an Alterative Extract, which he named "Dr. Pierce's Golden Medical Discovery," made from the extracts of several plants, invariably produced a tonic effect upon the system. It helped the process of absorption of the healthy elements in the food and increased the red corpuscles of the blood, as well as eliminated the poisons from the system.

Business is business. No time for headaches. Constipation causes them. Doctor Pierce's Pleasant Pellets cure them by curing the cause. Laxative and mild.

Personal and Social
Movements of the people in and out of town . . . .

—Ald. Johnston is in Toronto on business.

—Mrs. Joseph Fisher, of Baileboro, is dead.

—Mr. Samuel Harris, of Montreal, is in town to-day on a business trip.

—Mr. Wm. Fair, Toronto, is in town on business.

—Mrs. Thomas Barrie is the guest of friends at Warren, Ont.

—Miss Aura Caldwell, town, is the guest of Miss Violet Jackson, Orono.

—Ex-Mayor G. M. Roger has returned from a business trip to Ottawa.

—Mr. Thos. Leplante left this morning for ten miles beyond Buckhorn. A rough drive.

—Mr. Bert Cunniff, who left for Toronto last week, has secured a position on the Toronto Telegram.

—The Lindsay Post says; Mr. W. C. Austin, of Peterborough, was in town yesterday on business.

—Mr. William Johnston, of Belleville, district inspector of weights and measures, is in town on business.

—Mr. Arthur Perks, of town, has accepted a situation in the Bank of Montreal at Moncton, N.B. Mr. Parks leaves Peterborough to-day.

—The Hastings Star says; Mr. D. Carter, of Peterborough, was the guest of Mr. and Mrs. Jos. Carter, Sr., during the past few days.

—Mr Charles Kane, who left Peterborough 24 years ago, was buried in Orillia on Wednesday. He was 54 years of age, and previous to his decease a member of the firm of Kane Bros., Orillia.

—Messrs. James Lundy and Jas. Dolan, yesterday, received tokens of remembrance from friends in Ireland in the shape of boxes of Shamrock. These two gentlemen have for years each received this pretty memento every 17th of March.

—Lindsay Post; Mr. B. J. Gough left Monday morning for Atlantic City, N.J., where he will spend a week with his brother, Mr. R. P. Gough, who joined him in the city Monday morning. They have the Post's best wishes for a pleasant holiday.

Dr. R. W. Bell, who practised medicine many years, and who has since been appointed a member of the Provincial Board of Health, has just returned from an inspecting tour in New Ontario. The health of the lumbermen, miners and railway work men is excellent.

THE RUSSIAN ARMY IN A BAD FIX---KOUROPATKIN DISMISSED IN DISGRACE

Pressed Hard on All Sides, Russian Army is Said to be in as Bad a Condition as Napoleon After Moscow---Can Linevitch, the New Commander, Save the Remnants of the Army from the Jap Pursurers.

Tokio, March 18.—A telegram received to-day from army headquarters in the field says:

"The railway station at Tieling is a splendid structure, and its arrangements equal those of the station at Liaoyang.

"The enemy's provisions and fodder, piled around this station, were set on fire and two-thirds of the material was destroyed. We have captured numerous spoils, but have had no time to investigate them.

"A great number of prisoners have been taken in the direction of the right wing, but the details of their capture have not yet been received."

With the Japs Left Army, March 17, via Fushun, March 18.—The pursuing armies fully occupied Tie Pass at midnight after a severe fight, the Russians retiring north in confusion after setting fire to the railroad station and supplies. The successful conclusion of the armies' mission makes the movement the greatest of modern history. The armies covered almost 90 miles in a fortnight, fighting practically every inch of the way.

It is not probable that the Russians will make another stand south of Harbin.

St. Petersburg, March 18.—There is a persistent report that railroad communications have been cut behind the Russian army. No official despatches have been given out up to this hour, and no private despatches have been received. News is awaited with intense anxiety.

Quebec Cannot Continue Calm If Attacks Continue

Montreal, March 18.—Le Canada editorially says this morning that the wisdom of its course in advising the public not to sign petitions to be forwarded to Ottawa in connection with the Seperate School question is apparent now when it is discovered that these were circulated by the Conservative clubs of this city notably the Club Jacques Cartier. The object of the latter in acting as they have done was not to obtain the rights desired by the Catholics of the Northwest, but to embarrass Sir Wilfrid, and they are trying to place him between two fires, the Orangemen of Ontario, and the Conservatives of Quebec.

"The hidden purpose is to inflame Protestant opinion in Ontario, to install the idea that Catholics are revolting against the constitution, already liberal to Catholic citizens. In order to preach an anti-Catholic and anti-French campaign it is necessary to stir up some movement in Quebec to give it color."

Le Canada, continuing, states that Quebec can not long continue calm unless these denunciations of her in Ontario cease. The News, The World, and the Mail and Empire have about arrived at the end of their tether. They have focused the Hierarchy of intriguing, and have stirred the passions of the Protestant divines to fever heat.

Le Canada, in parting throws a warning to the Quebec Conservatives. They have acted foolishly in the past, and are going to say what little influence they have left if they persist in endeavoring to embarrass Sir Wilfrid at this juncture.

NOT DEPENDANT UPON RUSSIA

Chancellor Von Buelow Declares Germany is Neutral

Berlin, March 17.—Chancellor von Buelow, speaking in the Reichstag to-day, in reply to Herr von Vollmar, Socialist, who criticised the Government for its attitude towards Russia in regard to the sale of merchantships and the expulsion of refugees. The Chancellor said in part; "Herr von Vollmar, who watches foreign events with close attention, must have seen that the French Republicans and the French Democrats still give the greatest care to the alliance between France and Russia. The English Liberals have a lively wish that good relations should exist between Great Britain and Russia, and others in other lands believe that the position of Russia as a great power will continue beyond the incidents of war and internal disquiet."

The statement was greeted with cries of "No, no!" from the Left party.

The Chancellor further said; "The Social Democrats desire war with Russia. I regret to say that they have the intention to set such a conflict about also, and cook their party soup over the flames."

He read a clipping from a Socialist paper, the Schwaebische Tagwasht, saying that if the Socialists controlled the Government, armed forces would cross the frontier and free their Russian brothers.

Chancellor von Buelow continued; "For the second time Herr von Vollmar has spoken of Germany's dependence on Russia. He repeats this reproach, although I have so often declared we are not dependent on Russia and that we do not go after her, but that we have also no occasion to be unpleasant toward her, as many persons wish. Twenty and forty years ago these same attacks were made on Prince Bismarck. I remember Bismarck once said in debate that he had learned from such attacks on the foreign policy how dangerous it was for persons who were not exactly informed upon foreign questions to speak of them. I will not say to-day," added the Chancellor, looking toward Herr von. Vollmar, "to whom this might apply."

A SLANDER REFUTED

(To the Editor of The Times.)

Dear Sir,—An article entitled "The Reign of the Business man."

"A merchant in charge of the Trent Canal.

"A tailor in charge of the Cornwall Canal.

"A plumber in charge of the Grenville Canal.

"There's a record for business men in the higher flights of political graft, position and emolument. Truly the Liberal Government at Ottawa is calling for its friends," etc., etc.

I would like to ask the editor of the Review, why this complaint? Now, if my memory serves me right, the present Government is simply carrying out in the same department, and under the same Deputy, Mr. Collingwood Schreiber, the policy inaugurated by Sir John A. Macdonald's Government, in the appointment of business men to look after the business interests of the canals. The Conservative Government appointed Mr. Conway as superintendent of the Lachine Canal, formerly a bridge tender. John Conway was in the electric light business before his appointment. Mr. Macdonald's late superintendent of the Cornwall canal was a merchant before his appointment. Mr. Ross, the late superintendent of the Morrisburg canal, was a farmer and merchant before his appointment. Surely the Conservative Government took care of its friends; I will not say in the higher flights of political graft, but in the ordinary course of party government, a business man as superintendent of canals is what is essential in the best interests of the country, and it unquestionably was needed in Peterborough. The very fact that Mr. McClellan has been appointed superintendent of the Trent Valley Canal, is an evidence that the present Government has sized up the possibilities of the Trent Valley Canal System, and the desire of the people in the county of Peterborough for the early completion of the same.

They have discarded the swaddling clothes in which it has been wrapped for years under the management of the present engineer, Mr. R. B. Rogers. So far as the fun the editor of the Review would like to enjoy in seeing Mr. McClellan directing the operation of the lift lock, he is quite welcome to it although Mr. Rogers does not stay at the lift lock to direct its operations. This is done by the man in charge of the lock, but Mr. McClellan, as superintendent, has at his command the services of Mr. Francis, who after all is most conversant with both the building and operating of the lift lock and is quite as capable as Mr. Rogers.

Mr. McClellan is easily the equal of any of the appointees made by either government on any of the canal systems of Canada. The writer has never been a political supporter of Mr. McClellan, yet feels that it is only due to a man who so far has shown particular ability in this respect. The owners of the different dams say that it is the first time in twenty years that any common sense effort has been made to handle the head waters on the canal system so that manufacturers and power users could get what Nature intended they should get, and in which the manufacturing interests of Peterborough, and the working man are so vitally interested.

Mr. Roger's engineering ability and time will find full scope in looking after the building of the canal, and if he has spent his life on the canal, and has given his energy and ability with unstinted hand, it is to his credit that he has tried to earn his salary, but lots of others would have gladly done the same for $3,000 per year.

A MANUFACTURER.

Peterborough, March 17.

Police Court

OFFICIALS

Chief of Police, G.I. Reed
Magistrate, D.W. Dumble

The first case interesting the Bench yesterday, was that of Thomas Kerns; although the Chief called loudly for him, Thomas did not reply. A warrant has been issued for his arrest.

The case of a young man, charged by Mr. Cook, the horse dealer, with obtaining money from him illegally was enlarged, on request of Mr. R. E. Wood, County Crown Attorney, till this morning. The young man is defended by Mr. Kerr. He was allowed to go on bail given by two sureties of $100 each, and the prisoner himself for $100.

The morning session was ended by a case of assault charged by Samuel Innes against Frank Murphy. Innes in his evidence swore that, as he stood in the bar of a local hotel, the prisoner accused him of being the man who was instrumental in the police lately entering the hotel.

This charge was followed up by bad language and names which were highly disrespectfull to deponent's parentage. A clinch followed, and hence his case. The prisoner admitted that his condition, at the time of the affair, was such to render his memory unreliable, having emptied too many schooners. The Magistrate in commenting on the case, said prisoner had become too frequent a guest there and, to convince him of mending his ways, inflicted a fine of $5 with $2.60 costs, payable forthwith, or 30 days on the hill. Murphy dug up the $7.60 and left.

RUSSIA NOW MENACING INDIA

Large Bodies of Troops Being Sent to Frontier

IS CZAR SEEKING WAR?

Looks as Though Fresh Trouble is Near at Hand

London, March 18.—The story that Russia has designs on our Indian frontier is again revived. This time the story is told on the authority of a traveller who has just returned to St. Petersburg from Kashkend in Turkestan, which is under Russian influence. This traveller states that the railways in the Russian sphere in Central Asia have been congested for the last two months with the transportation of Russian troops, artillery and munitions of war, which have been sent to garrison and provided with works of defence and offence. The city of Kashgar in Eastern Turkestan which is under the nominal sovereignty of China, is situated on the northern border of India, and has been considered rather outside of at least on the extreme edge of Russia's sphere of influence.

The despatch which brought word of the movement of these troops also contained a statement by a Russian official, though the official was nameless. This statement purported to reveal the object of Russia in these seemingly warlike movements, and disclaimed at the outset any Russian designs on India, "as England is so loud of alleging." The official, on the contrary, made the allegation of Great Britain was taking advantage of Russia's occupation with the little Jap, to strengthen her interests in Afghanistan, in Persia, in Thibet, and even in Arabia, where he asserted there was a British plan for the extension of the British hinterland at Aden and the establishment of an autonomous Arabia under British influence. This official concluded by saying:

"Great Britain has been making hay while the sun shone. But Russia cannot hold her hand and see Thibet and Afghanistan converted into Bhutans or Nepals, nor Persia placed completely under British influence. I have no personal knowledge of what, if any, steps have been taken in Turkestan, but Great Britain will find Russia is not so engrossed or helpless as to be obliged to relinquish border states to her mercy without a struggle."

The end of this declaration sounds very much like a threat, but fortunately it is merely the statement of an "official" who probably was feeling a bit sore over the way things were going in Manchuria and the somewhat obvious sympathy of the average Englishman with the victorious Jap, and not the official declaration of the Russian Government. On the other hand, the Russian Government has also denied that it has any designs on India, and has done so in a statement that has no sting in the tail. The explanation of Russia is that troops were taken from Turkestan to be sent to the Far East and that these troops which have been sent down into that region have gone to replace the garrisons called to the aid of Kuropatkin.

Russia's hands ought just now to be quite full enough in Manchuria without her making a move against India. However, Lord Curzon is wise to take all proper measures for strengthening British interests at Lhassa, at Kabul, and at Teheran, and for building up the border states as buffers to Russian ambition. The reorganization of the Indian army under Lord Kitchener—which is another British activity that excited the ire of the Russian official quoted—is also necessary and useful work for the permanent interests of Great Britain in India. Friends of humanity everywhere still hope that Russian and British interests in that part of the world will not clash in armed struggle, but, in addition to the awakening of Afghanistan and the other border states and their erection into strong, independent Governments, there can be no better guarantee of peace than a strong Indian army.

Of course, the charge on the part of the Russian official that Great Britain is seeking to make tributary states of or to annex Afghanistan or Thibet, is quite gratuitous. The recent action of the Balfour Government in repudiating the extreme terms of the Thibetan treaty is sufficient proof of that. The British Government is merely seeking to secure her own interests against encroachments, and unless Russia makes such encroachments, these measures of defence will in no way interfere with Russian development.

Try go in a Troop Ship to India

The members of the chorus who are to assist in the presentation of the grand descriptive selection "Voyage in a Troopship to India," at the Band concert on Friday evening, March 24th, are requested to meet at the band hall this evening at 8 o'clock sharp.

BRITISH POSTAL RATES TO CANADA

Lord Stanley Declines to Make Reduction

RHODES SCHOLARS' DINNER

The First of Series of Annual Functions to be Held at Oxford

London, March 18.—Replying to a deputation of members of Parliament this afternoon, which was introduced by Sir Gilbert Parker, Lord Stanley disposed of all hope of a reduction of postage on British newspapers and magazines to Canada, at least while he remained Postmaster-General.

Sir Gilbert Parker said that the deluge of American magazines, many containing from 50 to 75 per cent. of advertisements, did a great deal to divert trade from Great Britain to the United States. He referred to resolutions passed in Canada, and read a petition signed by the president of the Canadian Press Association, the president of the British Empire League, and the late Premier of Ontario, amongst others and also commented upon the people becoming imbued with American ideas. Sir Gilbert asked that the rate should be reduced from fourpence to a penny per pound.

Mr. Ammott, M.P., said it was an important question to Imperial solidarity. At present facilities were allowed for a non-British atmosphere to exist in Canada.

LORD STANLEY'S REPLY.

Lord Stanley had great sympathy with the sentimental side of the proposal, but his department was run on a business basis. The only method to which the matter could be remedied would be to equalize British rates with those of the United States. That, he calculated would mean a loss of revenue of three million pounds sterling, which was impossible.

He suggested that at the time of the convention with the United States, in 1875, Canada was not so friendly towards Great Britain as now. The best remedy was for Canada to raise the rates on American matter, which he thought the American authorities would not object to.

In answer to General Laurie, he refused to consider the question of reducing postage on newspapers to the domestic rate.

RHODES SCHOLARS' DINNER.

The Canadian Associated Press has learned that the first annual dinner of the Rhodes scholars will be held at Oxford to-morrow. The Canadian Associated Press understands that the dinner will be confined to the trustees eighty scholars, the joint secretaries and Dr. Parkin.

CONSIDERS IT IMPRACTICABLE.

The Yorkshire Post, commenting on Col. Hughes' resolution, re Imperial unity, says that it is impracticable for if there were a commercial union, there could not possibly also be individual control of tariffs and finance.

THE SIMPLE LIFE

Ways That are Pleasant and Paths That Are Peace

It is the simple life that gives length of days, serenity of mind and body and tranquility of soul.

Simple hopes and ambitions, bounded by the desire to do good to one's neighbors, simple pleasures, habits, food and drink.

Men die long before their time because they try to crowd too much into their experiences—they climb too high and fall too hard. A wise woman writes of the good that a simple diet has done her:

"I have been using Grape-Nuts for about six months. I began rather sparingly, until I acquired such a liking for it that for the past three months I have depended upon it almost entirely for my diet, eating nothing else whatever, but Grape-Nuts for breakfast and supper, and I believe I could eat it for dinner with fruit and be satisfied without other food, and feel much better and have more strength to do my housework.

"When I began the use of Grape-Nuts I was thin and weak, my muscles were so soft that I was not able to do my work. I weighed only 108 pounds. Nothing that I ate did me any good. I was going down hill rapidly, was nervous and miserable, with no ambition for anything. My condition improved rapidly after I began to eat Grape-Nuts food. It made me feel like a new woman; my muscles got solid, my figure rounded out, my weight increased to 126 pounds in a few weeks, my nerves grew steady and my mind better and clearer. My friends tell me they haven't seen me look so well for years.

"I consider Grape-Nuts the best food on the market, and shall never go back to meats and white bread again." Name given by Postum Co., Battle Creek, Mich.

There's a reason.

Look in each pkg. for the little book, "The Road to Wellville."

RATE 18 MILLS

Reduction of Half a Mill on the Dollar in Taxes

The Committee of the Whole Council met last night, when Mr. Mason, Chairman of the Finance Committee submitted the rate of taxation struck by the committee for the current year. The general rate this year will be 18 mills, and including water fronts, 18 1-2 mills. This is a reduction of half a mill from last year, which will be very satisfactory to the ratepayers.

WOMAN'S ART ASSOCIATION

Much Interest Manifested in the Exhibits of the Association.

Although it had been decided by the Woman's Art Association of Peterborough, to close their art exhibition, that has attracted so much interest during the past week, last night at six o'clock, and notwithstanding the fact that this decision had been published in all the local papers, so great an interest has been aroused by this very successful plunge into education of both classes and masses in matters of art and beauty, that a special request was made by several leading citizens to have the time for closing postponed a few hours. In compliance with this evident appreciation of their efforts, the management graciously allowed the exhibition to remain open yesterday evening. Very many took advantage of the opportunity, and had there not been so many counter attractions, the hall would have been crammed to repletion. On all sides were heard evident proofs of the interest that the exhibit has aroused in public mind. The old lace exhibit and paintings were especially admired. When the association repeats this form of bringing the beautiful before the public eye, they may rest assured that their efforts will meet with practical encouragement. During the evening the association added a last leaf to their crown of laurels by serving refreshments gratis to their patrons.

A GRAND SUCCESS.

The T. A. S. Concert, in the Opera House Last Night, Exceeds All Records.

The T.A.S. have reason to feel proud of the manner in which Ireland's National Saint was remembered in Peterborough last night in the opera house, and of the result rewarding their efforts to make the concert on the 17th of March, a success. Peterborough always sends out tremendous crowds to any entertainment held on this day, so dear to all true Irish hearts, but last night showed that the people of every race and sect in Peterborough, recognize the 17th of March as a day for celebration. By the evening of Thursday, every seat in the opera house had been sold, and before eight o'clock last night, scores of people were unable to secure even standing room.

The T.A.S. do not do things by halves, whatever they take hold of goes, whether it be in the form of amusement, athletics, music or any other form of endeavor. They have worked hard and intelligently towards making this year's St. Patrick's Day concert a success, and they succeeded. The program presented to the crowded opera house, was uniquely good, and those present showed, in well marked fashion their enjoyment and appreciation.

A leading feature of the evening's entertainment was the selection played by the T.A.S. Band, who occupied twenty seats, on the main floor, fronting the stage. The band has improved wonderfully under their able bandmaster, and would rank high in competition with any musical organization anything similar to them in numbers; their instruments are of the best and most modern type, and when played by the talent musicians sent forth a most perfect symphony of sweetest strains. The society had decorated the stage in perfect taste and in a manner pleasing to the most captious critic. To the right of the stage, as seen by the audience, was a Bowmanville upright piano, specially placed for the occasion, for the accompanists. The floor of the stage was covered by beautiful rugs of fur and carpet, and was just comfortably filled with artistic chairs for those taking part. In center of the stage was a table covered by flowers.

The decorative draping of both stage and boxes, showed the true national and Canadian loyalty of those in charge, the most prominent factor in all the drapings being the Union Jack, with just a sprinkling of the Emerald flag adorned with the Irish harp. As a background to the stage was a huge Union Jack, with the legend T.A.S. inscribed thereon. It would be invidious to make comparison on the merits of those taking part in the evening's entertainment, each and every one contributing his or her share towards the pleasure of their hearers, and those present displaying emphatically their appreciation of every number on the program. Of course, in their own specialities, Messrs. Fax and McDonald, and Miss Pearl O'Neil are inimitable, and do not require criticism, their reputation being a household word throughout the Dominion. The program was as follows;

PART ONE.

Irish Airs ... ... T.A.S. Band.

Solo, "There Never Was a Coward Where the Shamrock Grows," ... ... Feeney
Mr. H. Ruthven McDonald.

Solo, "St. Patrick's Day," ... ... Mrs. C. H. McAllister.

Recitation, "Mose Grigg's Christmas Present" ... ... Mr. Geo. Ellis Fax.

Solo, "The Harp that Once Thro' Tara's Hall" ... ... Moore
Miss L. Hallihan.

Song, "An Irishman's Home Sweet Home" ... ... Mr. Geo. Ellis Fax.

Solo, "The Minstrel Boy" ... Moore
Miss Lillian Bell.

Presentation to T.A.S. Hockey Team of City League Championship Locals, by Mr. Yokoman, Hon. Mr. Stratton being unable to be present.

PART TWO.

Song, "Bury Darlin'" ... ... Temple
Mr. H. Ruthven McDonald.

Recitation, "Glencoe" A Transvaal Incident.
Mr. Geo. Ellis Fax.

Solo, selected ... ...

MOTHERHOOD WEAKNESS

Is Promptly Overcome — Health and Vigor Permanently Restored

FERROZONE

Cures all Ailments From which Women Suffer

Many women suffer untold torture from nervous debility caused by disorders of the feminine organs. Day by day they grow worse, but from a false sense of modesty they shrink from using a good remedy like Ferrozone. And it would cure them.

Nothing renews weak women like Ferrozone. It brings back lost nerve force, supplies new vital energy, increases the blood supply.

No restorative so potent and prompt as Ferrozone has ever been discovered. You feel its uplifting effect at once. Your spirits rise, you gain in power and cheerfulness, feelings of weakness and despondency disappear.

No woman can remain sick or miserable if she uses Ferrozone. It goes direct to the seat of trouble, puts a stop to functional irregularities, and so establishes buoyant, robust health. Being free from alcohol, and dangerous drugs, Ferrozone can be used by young and old with absolute safety. Prepared in tablet form, fifty to the box; price 50c., or six boxes for $2.50, at all dealers, or N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ontario.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $4 per year, strictly in advance.

RUSSIA AFTER THE WAR

The Czar's Minister of the Interior, a typical bureaucrat, was reported as having said to his Imperial master at a council called to discuss the draft of the recent reform guarantee internal peace and safety under the no-concession and autocratic policy. Only a promise of substantial political improvement, he had become convinced, could avert agrarian and other disorders on a scale spelling anarchy if not revolution.

This significant warning was uttered before the battle of Mukden, and Kuropatkin to Russia, was fairly begun. The rescript which followed, according to all accounts, produced an irritable and profound impression that in the joy of the anticipated emancipation from bureaucratic tyranny the bad news from Manchuria was almost overlooked. If the reactionaries harbored any intention of nullifying the reform promised in the rescript the issue of the tremendous battle should put an end to their design.

Kuropatkin's crushing defeat—and it is crushing even if we make plenty of allowance for exaggeration—by convincing even men in the ruling circles of St. Petersburg that Russia is beaten in this war, will inevitably give an impetus to the liberal movement. Autocracy, served by an irresponsible bureaucracy, has been weighed in the balance and found wanting. Had it proved itself tolerably efficient in war, its corruption and obscurantism and despotism might have been condoned. But it has not even the plea of military efficiency and greatness to fall back on, morally speaking. It is rotten to the core, and even its severest western critics are amazed at the exhibition. How the Japanese were approached, even by British experts, after their naval successes, to be aware of the "elephant" on land, to refrain from following him into the interior of Manchuria and trying conclusions with him on his own ground, as it were!

It is not Kuropatkin who has failed; it is not the Russian soldier who has failed. It is the Russian bureaucratic system that has failed. This the Russian great, defiant at this moment of its censor, boldly and bitterly tells the Emperor. It is the system which means illiteracy, ignorance, irresponsibility, secrecy, suppression of honest opinion and criticism, that has failed so miserably.

The Crimean war led to the freeing of the serfs. That was an indispensable reform dictated by a defeat infinitely less overwhelming and humiliating than that inflicted upon military Northern Empire by a people it chooses to call barbarous, effete, decadent and "impotent." Will defeat and bankruptcy lead the people of the Orient that all that they required was a little gunpowder and float on seas as an army of Napoleons have been gathered in Manchuria the keenest and readiest has shown he taught his pluck and discipline as he deserved. How do these lessons sound today? Whatever happens to the Far East, the disaster at Mukden must usher in an era of reorganization and reform at home. The bureaucracy is too discredited to resist further the demands of enlightened Russia.

A PRESBYTERIAN VIEW

The Presbyterian touches upon a phase of the western province question which has attracted too little attention. It says:

Under the most favorable conditions possible the task of Canadianizing the heterogeneous population that is flowing into the western prairies will be a difficult one. It is not by the separation of the future citizens during their plastic period by artificial barriers that the process of unification will take place. This is not merely a local question. It is one in which every lover of Canada is deeply interested and it is one that is big with issues of good or ill to the future of the country. We desire a united Canada. And this is not a time for any weak compromise. It is a time when the voice of the sovereign people through the press, on the platform and in every legitimate way shall make itself heard in defense of the things that make for national unity. It is a question which must be faced, not from any ecclesiastical or political standpoint, but from the standpoint of the best interests of the nation, whose making has been entrusted to our care.

Separate schools, and other special treatment of peoples going into the western provinces to take up homes, will delay, indefinitely, the time when the whole mass of the people will be Canadianized, as the people of Ontario have been. It is most desirable in the interests of the Dominion at large, and of the localities affected, in particular, that the Canadianization of peculiar peoples should be accomplished as soon as possible. But with Separate schools in which the peculiar religion and language of certain settlers are taught, the work of Canadianization will proceed very slowly.

The Hamilton Spectator truthfully asks us to look at Quebec. How much have the people of that province progressed toward Canadianism—as we understand it—since the days of Gen. Wolfe? Is there a true Canadian who does not sincerely regret that Quebec has been held back by just such treatment as its masters now propose to inflict upon the new provinces? Is there a true Canadian who would not infinitely prefer to have Quebec populated by an English-speaking people?

With the lesson of Quebec in full view is it possible that any Canadian desires to repeat the curse of Canada in the west?

EDITORIAL COMMENT.

A despatch from St. Petersburg says that the reverse suffered by the Russians makes any question of peace impossible. If that be the case, and the Japanese are anxious for peace, why not let Russia gain one unimportant battle, when they should be ready to sue for peace.

AN UGLY FAMILY of skin diseases is the one generally described by the word Eczema. In all its forms it repels ordinary treatment but is completely cured by Weaver's Cream used in connection with Weaver's Syrup.

IN MEMORIAM

To Mr. and Mrs. James Condon, on the death of their beloved son, Denis, who departed this life November 11, 1904, aged 23 years.

Death has called another loved one,
Left another vacant chair;
Sent another bud to blossom,
Within Heaven's garden fair.

Dear parents, why do you weep?
When you saw he hands crossed on his breast,
And his soul ascend to Heaven,
And his body went to rest.

Death to us seems so much sadder,
When it claims one of our own,
But why and when we remember,
He dwells in his happy home.

Dear parents, brothers and sisters,
Little did you think,
That soon the chain would be broken,
By the loss of one golden link.

A mother's joy, a father's pride,
A brother kind and dear,
Has bid farewell to all his friends,
And left this world of care.

No more we'll hear his footsteps keen,
Among the other ones.
No more we'll hear his merry voice,
Which was enjoyed by all.

Now, dear friends, dry up your tears,
And let these fall no more,
For we know that Den is safe forever,
On God's eternal shore.

—A cousin, J. C.

Peterborough, March 9, 1905.

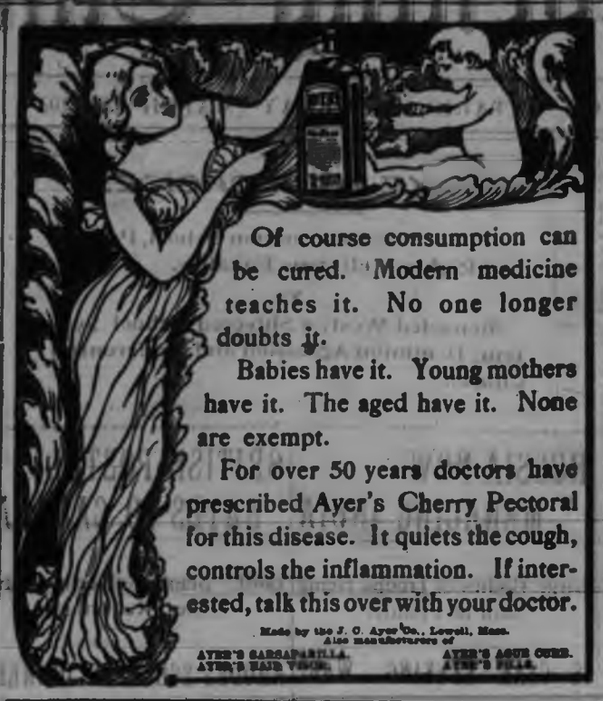
SOME NEW, NO DOUBT

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address, F. J. CHENEY & Co., Toledo, O.

Sold by Druggists, 75c.

Hall's Family Pills are the best.



Of course consumption can be cured. Modern medicine teaches it. No one longer doubts it.

Babies have it. Young mothers have it. The aged have it. None are exempt.

For over 50 years doctors have prescribed Ayer's Cherry Pectoral for this disease. It quiets the cough, controls the inflammation. If interested, talk this over with your doctor.

Figure it out for ourself

FORTUNES ARE BEING MADE IN KANSAS OIL

Here's a fortune for you. Not 10% but 100% and no risk of loss. Giant of the Oil Fields.

The Midland Oil and Gas Company

has over 160 acres of oil land and has put down 10 wells, so the land is tied up. An adjoining additional 80 was secured yesterday, making over 200 acres all in the proven belt. Just read this!

The U. S. report on the oil industry places the average daily production of Pennsylvania wells at only one-half a barrel each per day. **The Midland wells are pumping**

Sixty Barrels a Day Each.

The pumping plant has just been started and this is the surprising result. Nothing like it in the world. The officers and directors of this company are bank men and do not believe in debts, so the company is free from debt. They have nearly $20,000 in cash and bills receivable in the treasury and everything paid for—property, wells, pumping plant, oil tanks, well cleaning machine and everything connected with the company. Have two drilling rigs working night and day sinking wells. Have abundance of gas, which runs the drills and pumping plant, so it only costs about $5.00 a day to produce and market the oil.

The Company has about 33 per cent of its stock in the treasury as a reserve.

For a short time the Company will sell a little more of its stock at only

7½ CTS. A SHARE

Buy all you can raise money to pay for.

We could talk all day about it and not cover all the strong points. But as the company is this grand property paid for, there is only one side to it, and that is profit. Don't buy stock in a company that tells you what they will do, but buy in this company, that has proved its property, and every dollar you put in makes it better. Send for particulars or mail check to

From the Kansas City Journal, Feb. 26, 1905.

There is perhaps no people in the same amount of territory all the world who have benefited in wealth as quickly. Everybody in practically, many other poor and hard working families have become immediately wealthy.

Hudson Hale, an old farmer, particular, has become a millionaire, all of oil. He got in the ... early ... by ... money ... and ... and ... to Iowa.

Fred Hetrick, a farmer living near Chanute, had a hard time for years making both ends meet. Life was a hard proposition with him. His royalties now reach $1,000 a month and he is living on easy street. ... Kansas City brewer, ... $17,000 for his investment. Later he put in $40,000 more money in gas and oil lands and is now figuring high.

George E. Work, the Chicago capitalist, took some acres of land ... Work's ... a customer owed him. Work's partner refused to stand for the deal, so Work kept the land himself. He has since refused $50,000 for his holdings.

These are a few examples. Hundreds of farmers have become independently rich off their oil royalties, and hundreds of other men have made big money producing oil.

This Company oil leasing stand in like the Pennsylvania sand; wells will produce oil for fifty years.

Can give bank references, and depend from people who have personally examined this great property.

TO CANADIAN INVESTORS

Oregon-Idaho Gold Mining Co.

INCORPORATED

Capital $5,000,000. Shares $1.00 Each, Par Value, Fully Paid Up and Non-Assessable.

We have just secured the agency for the above splendid proposition, of which We have been GIVEN a block of Treasury stock. We can confidently recommend this as a safe and, we believe, exceedingly profitable investment. Every dollar of stock is guaranteed by twenty year, full paid, gold bond, delivered to purchaser of stock, from an independent Company that has no interest whatever in the company, but who on deposit of the debentured bonds to the public, and, under their charter, they are compelled to deposit securities to an equal amount, to the Bond Trustee under which they received their charter, there by doubly insuring the payment of their gold bonds.

The Company's property, which is now past the project stage, is known to be exceedingly rich in gold.

Following is the opinion of G. W. Miller, Mining Engineer, formerly with the Boston and Montana Consolidated Copper and Silver Mining Company, U. S.; Simmer and Jack Mining Co. Limited, Eloendsfountain South Africa:—

"You have here a most valuable property and one of the strongest fissure veins that can be found in any part of the world.

"With the present development of the Monument Mine, I estimate that 100 tons per day can be extracted, which will mill from $15.00 to $20.00 per ton. The total cost of mining the ore, delivering and milling, I place at about $4.00 per ton. With the present milling capacity, it is safe to say that the mine can furnish 100 tons of $15.00 ore, which would yield a clear profit of $11.00 per ton, or $1,100 00 per day (equal to $400,000.00 per annum). Estimated total value of ore in sight, $2,800,000."

During the past summer, a party of the Company Directors visited the property, taking with them, James P. Brown, Ph.D., Mining Engineer and Professor of Geology and Mineralogy at the University of Pennsylvania. Dr. Brown writes as follows:—

"In regards to the amount of ore available at the mines at Sinaloa, I saw on the dumps several thousand tons, probably 2000 tons would be an under-estimate.

"As to the size of the ore body itself, from what I saw of the geological stone men, I think that there is every indication that it will be found underground as far as the cut-croppings on the south side of the gulch. This would mean an ore body large enough to keep the present mill running for many years to come.

A write up of the proposition will appear in these columns in a few days. Watch for it. In the meantime we will be pleased to furnish full information to investors.

THOS. PATTERSON & CO.,

FISCAL AGENTS, PETERBOROUGH

CONSERVATIVE INVESTORS WILL FIND

The Twentieth Century Mining and Power Co., Ltd.

—OFFERS—

A HIGH GRADE INDUSTRIAL AND MINING INVESTMENT

We have thoroughly investigated it and found it to be right in every respect Did you ever have a chance to invest in a straight legitimate money making proposition? If not,

THIS IS YOUR OPPORTUNITY

We own a monopoly of the water right privileges in the Thunder Mountain mining district, State of Idaho, U.S.A.; seven water rights in all; one developed and in use. The property of the Company consists of over 1400 acres, with plenty of timber for building and mining purposes, a saw mill fully equipped and in operation, a 10-stamp mill now on its way from the R. R. Station to the property, and 40 additional stamps to be purchased at once and installed during the coming summer. This is the largest and most favorably situated property in the district. Some of the tunnels have been driven over 400 ft., cross-cutting many times, demonstrating that we have an inexhaustible body of ore. The ore bodies are sampled by an assayer every 10 ft, and assays run from $5c. to $800 per ton. The ore is free milling, and can be mined and milled for about $1.00 per ton.

The Company is now on a sound financial basis; have no debts, and when the present allotment of stock is sold, it will be withdrawn from the market. The work is progressing steadily on the property, and for the last 52 weeks $1000 per week has been expended in the development of the mine. If you want a winner that promises large dividends, write for full information to Messrs.

Thos. Patterson & Co. Peterboro, Ont.

We want to tell you more about it. It will pay you to investigate. You had better not wait too long, or the allotment of stock will be sold, as it is being taken up rapidly. Within the last 90 days 700,000 shares have been subscribed for. Only 100,000 shares remain at 50c. par share.

NO PROSPECTS OF PEACE

Counsels of Desperation May Prevail in Russia

London, March 17. — Downing Street is at its wit's end to follow the phases of the official mind at St. Petersburg. Two weeks ago it was known that the Russian Government was seeking peace. Today it is learned that the thoughts of peace have been temporarily abandoned. It can be said truthfully that Lord Lansdowne and his confidents feel great sympathy for the rulers of Russia in their peculiarly anxious and painful dilemma. The Czar cannot forget his European position. He sees that with the waning of Russian prestige there is a growing danger that the Slav power will lose its status in the councils of the west and even run the risk of violation of its European frontier. "Under these circumstances," said a foreign official to a correspondent, "it is easy to understand the all-absorbing desire of St. Petersburg to retrieve the reputation of Russian arms. It is probably too much to expect statesmen so hemmed in to realise facts and adopt wise policies. Possibly the signs of the tottering of Russian credit so conspicuous this morning may enablet the autocrat to put aside sentiment in handling the crisis. But the probabilities seem rather the other way. Counsels of desperation are likely to prevail. This time it may be sufficient to invoke the Romanoff regime in irreparable ruin."

CORRUPTION IN TURKEY

High Ottoman Officials in Hurried Flight

Constantinople, March 16.—Another palace intrigue, so common in the Sultan's entourage, has resulted in the sudden flight of a trio of high Ottoman officials, Tevfik's Ahmet Pasha and Riza Pasha, aides de camp of the Sultan, and Arif Bey, His Majesty's chamberlain. It is said that the three officials fled abroad to escape the machinations of a secret police cabal at the Yildiz Kiosk, who were said to be bent on their destruction. Riza Pasha was recently attacked and wounded in a street by a gang of men. The assault is said to have been instigated by the chief of the secret police.

PEASANT RISINGS ARE SERIOUS

Disorder in Many Sections—Three Sugar Refineries Burned

St. Petersburg, March 17.—Events yesterday drew attention to the seriousness of the peasant risings, the latest of which is near Kieff. Here three sugar refineries were burned, including one belonging to Grand Duke Michael Alexandrovich and one belonging to Baron Meyendorff. At Kouska the property of Prince Bariatinsky has been pillaged. At Tamboff also the peasants are rising.

A TREACHEROUS WIND hits you in the back and the next morning you have lumbago. Rub well and often with Perry Davis' Painkiller, and you will be astonished to find out how quickly all soreness is banished.

TO CANADIAN INVESTORS

Thomas Patterson & Co. Have a Fine Copper Proposition.

Fifty dollars invested in Granite Mountain Mining Company's stock paid the purchaser $34,500, besides several thousand dollars in dividends. One hundred dollars invested in Boston and Montana Mining stock paid the purchaser $44,000, besides several thousand dollars in dividends. A few dollars invested in shares of the Butte Copper Mining & Smelting Company stock, will not only insure you big returns in dividends, but a handsome profit in an increased value of the stock. Our mine is not a prospect but a copper mine which has produced $180,000 in profits in the last three years.

For the purpose of buying adjoining ground we have placed on the market 50,000 shares of our treasury stock. This stock is fully paid and non-assessable. Par value $1.00 per share. We will sell any part or all of this lot at 60 cents a share; no certificate issued for less than 100 shares. Send us your order for what stock you want and we will reserve it for you, pending your investigation of our company; and when you have received our prospectus and satisfied yourself that the investment is a good one, you can send us the money and we will issue the stock, or have the stock sent through any bank you may designate. References: Any Bank or Mercantile House in Butte, Montana. Write us for particulars. Butte Copper Mining & Smelting Co., Butte, Montana, or to Thos. Patterson & Co., Fiscal their forgetthers."

ALEXANDER MUNROE AND GEO. H. MUNROE

CALL ATTENTION TO

The Marconi Wireless Telegraph Co., of Canada

Capital Stock, $5,000,000. Par Value of Shares, $5.00 Each. Full Paid, Non-Assessable.

EVERY STOCKHOLDER ON AN EQUAL BASIS

NO BONDS —— NO PREFERRED STOCK

Shares in the above named Company are offered for subscription by Munroe & Munroe at $5 each, in blocks of from one share to 200 shares for a limited period only. Every indication points to the early and rapid advance in value of these shares, and those who are desirous of making a profitable investment of their surplus should lose no time in forwarding their application for as many shares as they can conveniently purchase at this time. No enterprise of modern times offers anything like so good an opportunity for rapid and substantial accretion as the Marconi investment. We demonstrate this to the satisfaction of all investigators in our book entitled "Financial Aspect of the Marconi Investment," which we will send free to all who request it. Facts and figures most convincing are therein cited to prove that the Marconi Wireless Telegraph System will eventually dominate the industry of rapid communication between all nations of the earth. The Canadian Company is one of the most important integers in the world-wide organization which has been planned to control the world's means of rapid interchange of intelligence. You should study the Marconi System thoroughly, and particularly the situation of the Canadian Company with reference to this most important world organization.

THE MARCONI WIRELESS TELEGRAPH CO. OF CANADA

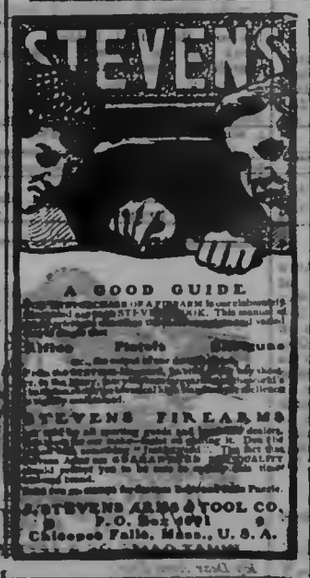
Is the owner by purchase of all the patents of WILLIAM MARCONI and his associates as applied to Wireless Telegraphy for the Dominion of Canada. It is so intimately associated with Marconi's Wireless Telegraph Company, Ltd., of England, the Marconi Wireless Telegraph Company, of America, that it is an essential factor in the progress and development of the System. It is the owner of a high power wireless telegraph station located at Glace Bay, Nova Scotia, shortly to be opened by Mr. Marconi, for the transmission of telegraphic messages between England and the Continent of America. It has equipped nine wireless telegraph stations on the Atlantic Coast and St. Lawrence River within the Dominion, and has equipped three ships of the Canadian Government and five ships of the Allan Line. MESSAGES DESTINED FOR PASSENGERS ON BOARD THE ALLAN LINE STEAMSHIPS OR ANY OF THE SEVENTY-FIVE (75) TRANSATLANTIC SHIPS, CARRYING THE MARCONI EQUIPMENT MAY BE DESPATCHED FROM SHORE, FROM ANY OF THE 30,000 OFFICES OF THE WESTERN UNION OR POSTAL TELEGRAPH COMPANIES THROUGHOUT THE UNITED STATES AND CANADA. Vessels are in constant communication with land throughout the voyage. The business established through this medium is a very large and profitable one, and is constantly growing. The Canadian Company has the support and backing of the Dominion Government which has granted large subsidies for the installation and maintenance of the System, as an aid to navigation, and in reaching distant and inaccessible points at the outposts of civilization. The day is rapidly approaching when all other systems of telegraphic communications must give way before the advantages of wireless telegraphy, and those who join in the enterprise at this early stage of its existence will reap the large reward which is due to the pioneer in every enterprise. As an investment of $100 in the Bell Telephone Company in 1878 did, in the twenty-five succeeding years, net the investor a profit of over $200,000, so will the investment of a few hundred dollars in the Marconi Wireless Telegraph Company of Canada net the investor thousands of dollars of profit.

Our faith in the destiny of the Marconi Wireless Telegraph Company of Canada is boundless. It will open to Canada its first means of direct communication with the mother country, and will place at the disposal of press and public alike, a medium whereby news and commercial messages may be transmitted direct. It is therefore, to the general as well as to the individual advantage of Canadians to identify themselves with the Company as stockholders.

Further information will be given on application to any of our offices named below. However, in order to be certain that you will procure your full allotment of the stock at the present price, we would advise an immediate remittance for the number of shares you desire to purchase. Address all communications and make all checks payable to

MUNROE & MUNROE

Canada Life Bldg., Montreal. Broad Exchange Bldg., New York. State Mutual Bldg., (50 Congress St.) Boston.



SEALED TENDERS addressed to the undersigned, and endorsed, "Tender for addition, Printing Bureau," will be received at this office until Monday, April 3, 1905, inclusively, for the construction of an additional story to the Printing Bureau, Ottawa, Ont.

Plans and specifications can be seen and forms of tender obtained at this Department.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures.

Each tender must be accompanied by an accepted cheque on a chartered bank, made payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the tender, which will be forfeited if the party tendering decline to enter into a contract when called upon to do so, or if he fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

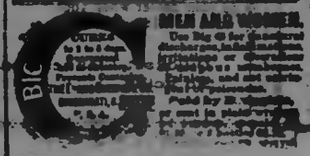
By order.

FRED. GELINAS.

Secretary.

Department of Public Works, Ottawa, March 15, 1905.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.



Sure Investment

While I have already given the readers of this paper a fairly decent outline of the present and prospective value of the Boston & Texas Corporation stock, which I have been offering at the ridiculously low price of 50 cents the share, there are, nevertheless, a great many things of a favorable nature of a necessity left unsaid owing to the limitation and expense of newspaper space. I should like to tell you of the town buildings, the hotel, the store, the compounds, the barns, the sheds, the rotary and cable drilling rigs, the pipe, the engines, the boilers, etc.; in fact, all about the outfittings necessary for the developing of the Corporation's great property; the whole constituting an equipment that cannot be duplicated short of $75,000. I should like to tell you in detail of the independent ice and water companies, newly established there, and the profits that they are making for their stockholders; also of the many opportunities in kaolin, coal and other minerals for independent operation. I would like to show you photographs, maps, blue-prints, and literature of authority, all of which have importance and weight in enabling one to arrive at an intelligent decision. I have also the reports of the San Antonio Daily Express the Kansas City Citation, and the Pleasanton Monitor, newspapers published within a few miles of the Corporation's property and which deal with its most recent oil discoveries, fresh from the pens of the reporters, who, visiting the field in search of sensational news, found it, and having found it wrote of it as the facts presented themselves. Particularly would I like to have you see the reproduction of the U S. Government map as it appeared in the San Antonio Daily Express of last August, whereon is shown the railway line that is soon to directly connect the Boston & Texas Corporation properties with San Antonio, the great distributing centre and the largest city in the State of Texas. I also want you to write me and ask me questions. Then I can give you information at first hand. I am thoroughly acquainted with the property. I have travelled all over it. I have made every investigation that a careful, conservative man could make. I have got my own money invested in the enterprise to such an extent that I am one of its directors. I am kept in close touch with everything that is done in regard to its development, and I advise with my associates on all points concerning its policy and the expenditures necessary thereunto. I am in a position to keep all investors in this section fully posted on all of the Corporation's work at all times and I pledge myself to do so. I have stated my position thus frankly and at length, because I want your assistance in this great work of development, and to secure your co-operation I offer you stock in the same at less than one-half of its real value, I honestly believe. Fifty cents for stock that is morally certain to pay six, eight or ten per cent. on a par value of $1.00 in less than 15 months is worthy the serious consideration of every man and woman who has "idle money," that is, money deposited in savings bank, where only three per cent per annum is being earned, and where the security is no greater, even if it be as great in the latter as in the former. Again, I say WRITE. Take up this investment with me in the manner which it deserves. References, Mr. John C. Thompson, retired merchant, of Quebec, and any banking or any commercial institution in Montreal or Quebec.

Lung, Throat and Catarrhal Troubles

MARVELLOUS DISCOVERY THAT HAS DELIGHTED ALL CANADA BY ITS PROMPT CURES.

The method that has proved successful through its enormous advantages of being pleasant and free from the danger of creating the drug habit employs dry air as the carrying agent.

By this method every part of the breathing apparatus is bathed by a medicated air. Germs which excite this trouble are immediately destroyed. Sore and tender spots are healed and the congested surfaces restored to normal condition.

This method of treatment is known as Catarrhozone, and has obtained a leading record, attained by any other remedy for the many diseases affecting the respiratory tract.

Catarrhozone is fragrant, healing, pleasant as the air of the pine woods and more active as a healing agent than anything hitherto discovered. It contains neither cocaine nor any of those irritating substances which really increase the congestion and add to the difficulty, instead of curing as Catarrhozone so quickly does.

MRS. RINY BROWN, of Tancoape, N.S., had lung trouble and catarrh. She took cough mixtures but they made her sick. Then she used an atomizer, but after resorting without benefit to poultices and numerous other remedies, she tried Catarrhozone. "I used Catarrhozone Inhaler," she writes, "five minutes every hour, and soon recognized it was going to cure. I could feel the soothing medicated air spreading through the air passages of the throat, and it touched the sore spots in the lungs that other remedies failed to reach. Catarrhozone seemed to go just where it was needed most, and soon put a stop to my cough. It restored me to perfect health, and I am convinced that no cough, cold or catarrh can exist where Catarrhozone is used."

This complete Catarrhozone outfit contains a large bottle of inhalant, sufficient to last two months. It costs $1.00 and is guaranteed to cure; samples size 25c, sold by all druggists or sent direct to your home by mail if price is forwarded to N. C. Polson & Co., Kingston, Ont., or Hartford, Conn., U.S.A.

TOWN AND COUNTY NEWS

DASHES HERE AND THERE BY TIMES' REPORTERS

Gospel Boy Makes a V.

Late last night an owner turned up at the police station, and claimed a sum of money that had been found by an honest boy. The lad found the tidy sum of $25 on the street and immediately put it into the Chief's hands. His name is O. Green, corner of London and Downey, and the grateful owner, rewarded his honesty by a gift of $5.

Park St. Baptist Church

Rev. A. H. Brace, the pastor, will preach special sermons for to-morrow. Morning, "The Churches Hydrangelia." Evening, "The Question of the Hour."

The Ordinance of the Lord's Supper will be observed at close of evening sermon, preceded by a short recognition service, when those recently baptised, will receive the hand of fellowship.

Sunday school anniversary on Thursday, including supper for the children, and choice program of drills, etc.

Strangers made welcome. Hymn books provided.

Sunday School Extension

Now is the appointed hour in which to put your surplus cash into an investment that will yield you a harvest of good. The sum of $3,000 is required for the building and extension fund of the Charlotte street Sunday school, and cards will be distributed on Sunday asking for contributions payments to be made in three annual installments. Building operations will proceed as soon as the necessary funds are forthcoming. The cards bear the names of R. J. Kidd, superintendent and Percy Hamilton, secretary-treasurer.

Branch of St. Luke's W. A. Meet

An interesting event was held in the residence of Mrs. Mark Curtis, Dunre. on Wednesday afternoon, when the Sunnyside Branch of St. Luke's church Women's Auxiliary, had their annual meeting there. The following officers were elected for the year:

President—Mrs. Chas. Curtis.

Vice-President — Mrs. John Nicholls.

Secretary-Treasurer—Miss Ada Curtis.

Delegates to the annual meeting of the Diocesan W.A. held at Toronto, Mrs. Albert Curtis and Miss Ada Curtis. Two new members were received yesterday and after the business had been concluded, refreshments were served. The Branch is in a most flourishing condition and the prospects for the future are very bright.

S. A. Special Meeting

Brigadier and Mrs. Howell, of Toronto will conduct special meetings in the S.A. Hall, Saturday and Sunday next, assisted by Captain DeBow. The Brigadier is the head of the Immigration Department in Canada. He is an interesting speaker, a good singer, and a first-class concertina player, he has visited Peterborough several times before, and his many friends will be glad to see him again. Captain DeBow is a good tenor singer, the Brigadier and Captain will sing together in all the meetings. Mrs. Howell is an able speaker, and will give a short address at each of the meetings. A hearty invitation is extended to all to come and hear these specials. The party will arrive on the 7.20 train, and go straight to the meeting.

St. Patrick's Day in Town

Yesterday the 1,534nd. anniversary of St. Patrick, the Patron Saint of Ireland, was observed, and celebrated by thousands of people in town in many ways. The day was remarkedly quiet as far as celebration by intoxicants was concerned, not a drunk was to be seen during daylight hours. This is not impossible in part due to the example shown by the T. A.S., but whatever was the cause, it is of great credit to both town and townsmen that such a holiday should be so fittingly and sensibly celebrated. During the day, hundreds of men, boys, maids and matrons were out with Ireland's national colors affixed. Special services were held in St. Peter's Cathedral; a gun shooting match at Chemong, and four different concerts were the principal forms of amusement.

A Douro Residence Burnt

At 11 o'clock last Wednesday a disastrous fire broke out in the house of Mr. Edward McCarty, Douro. The origin of the fire was an attempt to clean the stove pipes by burning them out; however owing to the large quantity of soot present, the fire got beyond control, the pipes becoming red hot, so they could not be handled. Soon the walls and ceilings caught, resulted in the whole house being destroyed. Very little of the contents was saved. It threatened for a time to prove fatal to life as well as property, as Mrs. McCarthy, who was confined to her room by a serious illness, and had to be carried to a place of safety, and it was only by the utmost difficulty that this was accomplished. Mr. McCarthy lived about one mile north of the Douro town hall.

Steamer Beaver Changes Hands

A very familiar face seen during the season of navigation, for years past every Saturday, in that of Captain Harris, former owner of the steamer Beaver. This steamer has done quite a large and successful passenger and freight business, between Gore's Landing and other Rice Lake and intermediate points and Peterborough for many years. Capt. Lee. White, of Lakefield, is now the owner. He will make some improvements in the boat, and run her this coming season. The new proprietor is an able and experienced boatman. The prospects for navigation this year are very bright. An authority has it that the attractive point for excursionists this summer will be Stony Lake, that is, to a larger extent probably than Rice Lake. The popularity of all of the inland waters, however, is increasing, and it is likely that from Hanley's Falls to the farthest limits of the Kawartha Lakes there will be great activity in the special excursion business.

Death of Mrs. Nicholls

Mrs. Raymond B. Nicholls, a daughter-in-law of the late Mr. J. B. Nicholls, and niece of the Misses Nicholls, McDonel street, has died at La Porte, Texas. She died at her home in La Porte, February 24, 1905, aged 30 years, and leaves behind to mourn her untimely demise, a husband and one little son, baby Harold, also an aged mother and two sisters. Her sisters were with her the last few days of her sickness. She was a member of the Baptist church of La Porte, and took an active part, and will be sorely missed. But why should we mourn for her when she has gained such a beautiful crown in Heaven. On February 24th her remains were carried to the Baptist Church where a large gathering of sorrowing friends were waiting to pay homage to the one much beloved. The funeral services were conducted by Rev. J. H. Ellis, assisted by Rev. Hagy of the Methodist church and Rev. Hall of the Presbyterian church.

Local Incidents

BY THE TIMES MAN ON THE STREET.

—Did you wear shamrocks yesterday?

—Street Commissioner Evans has a gang of men digging drains.

—The Committee of the Whole, and the Fire, Water and Light Committee met last night.

—The snow is rapidly departing to the sweet subsequently. Good riddance of bad shovelling.

—Wheels are replacing runners, a concomitant of crows, perambulators, marbles, and spring.

—Divine service was held and study of the Sunday school lesson was engaged in at St. Luke's last night.

—The parks yesterday morning were a scene of beauty. The trees laden with congealed mist being a sight worth travelling miles to see.

—A fur muff was left in Charlotte street Methodist church a week ago last Sunday. The owner may have it by calling at the parsonage.

—The Sunday School Anniversary of the Park Street Baptist Church which was announced for Thursday night has been postponed till Thursday, March 23rd.

—The Public Library concert Tuesday evening was well patronized, and the program furnished by Mr. Stubbs, of Peterborough, was quite interesting.—Millbrook Mirror.

—Rev. Mr. Irving, addressed a large audience in the Gospel Hall again last night. His subject was on the time from John till Pentecost and was of especial interest to Bible students.

—There were three entertainments yesterday evening; the T.A.S. concert in the opera house; the Shamrock concert in George street church and the entertainment in St. Andrew's church school house.

NO REASONABLE MAN expects to cure a neglected cold in a day. But time and Allen's Lung Balsam will overcome the cold and stave off consumption. Cough will cease and lungs be eased as a new dollar.

—All those who would seek glory at the cannon's mouth, should join the 57th Regiment at once, as the new militia regulations require that company service rolls must be returned to the Militia Department by the first of May.

—The Peterborough Cereal Company have received some handsome articles of plateware, as samples of those they will give as premiums with their products. The goods are of a high standard, and will doubtless make a keen demand.

—Rev. H. V. Mounteer, of Cavanville, has received and accepted an invitation to Orono. The Methodists of Orono are to be congratulated upon their selection, while the Cavanville Circuit is parting with one of the ablest preachers and most successful pastors in the conference.

—An Evening with Dickens, will be given in St. Paul's Mission, on Thursday, March 30th. Addresses will be delivered by Sheriff Hall and Rev. Mr. Ketchen in lieu of one. What three poets' names naturally suggest themselves? Dickens, Hewitt, Burns!

—The Fire Brigade is now somewhat better equipped, as Ald. Johnston, chairman of the Fire, Water and Light Committee, purchased, when in Toronto this week, 500 feet of fire hose, as well as rubber boots, coats, etc., for the use of the firemen.

—The Lakefield News says: At a business meeting of the members of the Presbyterian Church choir, held in the Manse on Thursday evening of last week, Mrs. G. B. Miller, of Peterborough, was re-engaged director of the choir.

—Mr. John Craig who, some months ago, purchased the Ullyott property, for $10,000, and sold the residence to Mr. John Crane, Manager of the Ontario Bank for $5,000 informs this journal that he is selling the remaining lots, and will make a fair profit on his venture.

When you want a life-like Portrait in Oil, Crayon, or Water Color, don't fail to come to B. Hudson's Studio, where the work and prices are always rights. Gifts in Pictures, Frames and Fancy Work. Lessons in Painting and Pyrographic Work. Studio, 134 Brock street, Peterborough.

—The Lakefield News says: The population of Lakefield was increased by ten able-bodied men on Tuesday last. The men are in the employ of the Bell Telephone Company, and are engaged in making extensive changes in the local equipment. They are putting in new long distance instruments, metallic lines, cables, etc., and when completed, Lakefield exchange will be second to none in this district.

—The ubiquitous small boy stood yesterday gazing with protruding eyes, and dribbling mouth, into Mr. T. Hooper's candy store, corner of Brock and George streets, watching an envied youngster make candy cotton, a thin, gauzy, fleecy substance which is made from pure granulated sugar by means of centrifugal force.

—Mr. H. B. Collier of the Peterborough Cereal Company, has leased that handsome residence at the corner of Charlotte and Rubidge streets, formerly occupied as a residence by the late Mr. R. B. McKee. Mr. Collier will shortly bring his family from Kingston and occupy the house as a residence.

NERVOUS, IRRITABLE people are very trying to live with, we speak feelingly! to all such we recommend "The D & L" Emulsion. It is prescribed by the leading physicians and used in the principal hospitals.

SPECIAL MEETING

A special meeting of the County Orange Lodge of West Peterborough will be held in the Orange Hall, Peterborough, on Tuesday, the 21st inst, at 8 o'clock, p.m. A large attendance is requested.

By order of the Worshipful County Master.

W. H. G. ARMSTRONG,
County Secretary.

Settlers Low Rates West

via the Chicago and North Western Railway every day from March 1st to May 15th, 1905, settlers one way second class tickets at very low rates from Chicago to points in Utah, Montana, Nevada, Idaho, Oregon, Washington, California, also to Victoria, Vancouver, New Westminster, Rossland, and other points in the Kootenay District. Correspondingly low rates from all points in Canada. Write for full particulars and folders to B. H. Bennett, General Agent, 2 East King street, Toronto, Ont.

Personal and Social

Movements of the people in and out of town . . . .

—Miss Bertha Hopkins, of Kinmount, is the guest of her cousin, Miss Lottie Hetherington.

—Mr. G. S. Mackay returned to Regina, yesterday after spending a vacation at his home here.

—The Havelock Standard says: Mrs. E. A. Boyce, of Peterborough, visited friends in town last week.

—Mr. Wm. Anderson, M.L.A., is registered at the Palmer House, Toronto.

—Yesterday, Mr. and Mrs. W. J. Martin celebrated the 43rd anniversary of their wedding day.

—Miss Pearl O'Neil, who took part in St. Andrew's concert last night, is the guest of Mrs. Hugh Waddell.

—The Lakefield News says: Mr. Con. Young of Peterborough, was visiting in the village this week, and Mr. C. W. Cox of Peterborough, was in the village on Wednesday.

—The Lindsay Post says; R. Arnot & Company, of Peterborough, are busy hauling timber to be shipped from Franklin to their cheese-box factory in Peterborough.

CHEMICAL ANALYSIS

Reveals That "Pe-ru-na is Calculated to Tone up the System, Restore the Functions and Procure Health."

SO SAYS PROF. L. J. MILLER, CHEMIST.

Prof. L. J. Miller, late Professor of Chemistry and Botany of the High School of Ypsilanti, Mich., writes from 3327 N. Clark Street, Chicago, Ill., as follows:

"As several of my friends have spoken to me of the favorable results obtained through the use of Peruna, especially in cases of catarrh, I examined it most thoroughly to learn its contents.

"I found it composed of extracts of herbs and barks of most valuable medicinal qualities combined with other ingredients, delicately balanced, calculated to tone up the system, restore the functions and procure health.

"I consider Peruna one of the most skillfully and scientifically prepared medicines, which the public can use with safety and success."—PROF. L. J. MILLER.

—Miss Steen, of Baillieboro, and Miss Robertson, of town, have returned after spending a few days at the home of Miss Pryce, Keene.

—Mr. R. B. Rogers, superintending engineer of the Trent Valley canal, returned yesterday from a business trip to Montreal and Ottawa.

—Mr. James S. Potter of Kingston, arrived in town to-day on a visit to his son, Rev. J. G. Potter. He will speak in the Omemee Presbyterian church on Sunday afternoon.

—Mr. E. T. Williams, who for several years has been principal of the Marmora Public school has accepted a similar position in Stirling.

—The Rev. J. H. Locke, of Omemee, formerly pastor of the George Street Methodist church, will preach at both services in Charlotte street Methodist church to-morrow.

WHAT CAME OF A LETTER.

My Dear Aunt Kate:

I must tell you the good news. Right after receiving your letter, the day before New Year's I started in with new resolutions on the first of the year. I wrote to Dr. R. V. Pierce, at Buffalo, N. Y., as you requested me to do. I gave him all my symptoms, which were that I was tired—so tired—all the time and did not care to go anywhere, depressed and sad, and all ambition gone, backache and a dragged-out feeling, could not sleep, limbs feeling sore and aching. I followed the doctor's advice, which he went to considerable pains to make plain to me—to rest every day—a nap after lunch—complete relaxation—cultivate repose of mind, try not to worry, get as much outdoor air as possible, and practice long, deep breathing, expanding the lungs. Then for a uterine tonic, Dr. Pierce's Favorite Prescription, coupled with a wash he told me of. I must say that after following his advice for four months I feel perfectly cured and like a new woman.

Yours affectionally, JEWEL.

Letters like the above are not unusual.

Mrs. Kosmos, of the Grant Ave., Schenectady, N. Y., says: "I continued with the medicine and had taken five bottles, also two vials of Dr. Pierce's Pellets, and I was cured. I always recommend Dr. Pierce's medicines to my friends when they are not well."

"My daughter is in quite good health, thanks to Dr. Pierce's medicines. My wishes are that all who are ailicted will try them and see what good one is done for the sick," writes Mrs. Elizabeth McConnell, of Rochester, Ind.

Send 21 one-cent stamps to Dr. R. V. Pierce, Buffalo, N. Y., for his Common Sense Medical Adviser, 1008 pages.

Celebrated for its homelike comforts, and the peculiar excellence of its cuisine, has always been favored by the patronage of the best people

"Builds up the System."

Joseph Ridgeway.

Hon. Joseph H. Ridgeway, Secretary of the American Anti-Treat Society, writes the following letter from the Grand Central Hotel, St. Paul, Minn.:

"It is with great pleasure that I endorse Peruna as an honest medicine, competent to do all it claims. I have used it several times and know of nothing that cures so completely, and at the same time builds up the system.

"I have recommended it to a number of my friends and always feel that I do them a service for I know how satisfactory the results invariably are. I only wish every family had a bottle—it would save much sickness and doctor bills."—Joseph H. Ridgeway.

"Feel Better Than for Five Years."

Mr. James B. Taylor, Roberts, Ind., writes:

"I am at the present time entirely well. I can eat anything I ever could. I took five bottles of Peruna, and feel better now than I have for five years. I have doctored with other doctors off and on for fifteen years, so I can recommend your medicine very highly for stomach troubles. I take great pleasure in thanking you for your free advice and Peruna."—James B. Taylor.

"I Enjoy my Meals as I Used to."

Mr. J. W. Pritchard, Wolf Lake, Ind., writes:

"I am pleased to say that I have been cured of catarrh of the stomach by Peruna. I could hardly eat anything that agreed with me. Before I would get half through my meal my stomach would fill with gas causing me much distress and unpleasant feelings for an hour or two after each meal. But, thanks to your Peruna, I am now completely cured, and can eat anything I want to without any of the distressing symptoms. I can now enjoy my meals as I used to do, and it is all due to Dr. Hartman and his wonderful medicine, Peruna.

"It has been one year since I was cured, and I am all O. K. yet, so I know I am cured."—J. W. Pritchard.

Dyspepsia is a very common phase of summer catarrh. A remedy that will cure catarrh of one location will cure it anywhere. Peruna cures catarrh wherever located. That it is a prompt and permanent cure for catarrh of the stomach the above letters testify.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

The Latest Compromise Not Acceptable.

The Opponents of the Bill as Drafted Could Not Endorse Amendment Offered—The Ottawa Crisis Flares Up Again.

Ottawa, March 19.—The crisis, which is establishing a record for the regularity with which it see-saws from compromise to tension, it is understood to have flared up again.

Yesterday it was asserted with confidence that all was settled, and it was fully expected that Sir Wilfrid Laurier would make an official announcement at the opening of the House. But no announcement came, and it was noted as a coincidence that several Quebec members introduced a flood of petitions in favor of "the Bill, the whole Bill, and nothing but the Bill." These petitions numbered 70 against 60 against the educational clauses.

Report has it that those members have been holding these petitions in their desks for days, and the question is asked, Why did they choose yesterday to present them?

Common talk is that a hitch occurred at the Council meeting which preceded the sitting of the House. The version is that the Northwest members agreed upon a clause, and that when they came to scrutinize the clause as passed by the Government they found phraseology in it to which they could not assent.

So far as known the tension still exists.

A DANGEROUS HABIT

Gladstone's Physician Gives Warning Against a Growing American Custom

The growing habit amongst Americans of taking a mint tablet or some other so called digestive after eating a hearty meal, is something that Sir Andrew Clarke, Mr. Gladstone's physician, advises strongly against, saying: "It is absolutely dangerous to take into the stomach remedies which are popularly supposed to aid in the digestion of food."

There is nothing known to the science of medicine that can perform the work of the human stomach. Drugs do not and cannot digest the food. They simply decompose it. What can be more revolting or disgusting than the thought of taking something into the stomach that is going to turn the food food you have eaten into a mass of corruption.

The only way to overcome indigestion and its evil effects is to remove all irritation, congestion and inflammation of the stomach, liver and intestines, and Mi-o-na is the only agent known that will do this.

When a Mi-o-na tablet is taken before each meal every trace of irritation and inflammation is removed from the stomach and digestive system, and these organs will extract from the food all that goes to make good, rich blood, firm muscle, steady nerves and a sound healthy body. If you suffer with headache, indigestion, flatulency, spots before the eyes, vertigo, or dizziness, palpitation of the heart, sleeplessness, or any stomach trouble, get a fifty cent box of Mi-o-na from Wm. Medill, one of the most reliable Druggists, whose faith in the remedy is shown by his offer to return the money if Mi-o-na does not give complete satisfaction.

SECTARIAN STRIFE WITH INEVITABLE BUSINESS STAGNATION

Winnipeg, March 18.—Editorially, The Free Press, the Liberal organ, says this morning: "This agitation will do harm every day that it lasts; it will embitter the relations between the provinces and between the Catholics and the Protestants, while its effects upon the development of the west cannot but be injurious. The sooner it is stopped the betterfor all parties.

"It can be stopped in only one way, by the passage of a measure which will simply continue the privileges at present enjoyed by the minorities in the territories. Any proposition to give more or less means years of political turmoil and sectarian strife with inevitable business stagnation."

THE PLAIN DUTY BEFORE THE DOMINION GOVERNMENT.

"The legal competency of the Dominion Parliament to continue the existing conditions may safely be assumed; if the Dominion exceeds its powers in passing such legislation the courts can be trusted to throw it out as ultra vires.

"The plain duty before the Dominion Government as to amend the educational clause in the manner suggested, and then to put the Northwest bills through Parliament with the least possible delay. — Winnipeg Free Press.

LUMBER VS. FACTORY

Log Driving Act to Be Amended in the Near Future

A matter of interest to Peterborough, with its large lumber and manufacturing interests, each of which is directly affected by the act governing log driving and the control of the waters, will be the request shortly to be made to the Provincial Crown Lands Department. This request is made to change and amend the log driving acts and, in particular, that one referring to the Moira River and its tributaries. The law governing such subjects was made many years ago, when very different conditions existed. Then the lumbermen were at the helm or control of most all waters now the industrial interests conflict, so that amendments will have to be enacted as impartial as possible towards both interests.

The Toronto News commenting on the subject says;

The movement for a change has grown out of a dispute regarding rights on the Moira River, which is to be tried before Judge McMahon at Belleville. Joseph James has an asbestos mill and actinolite works on the Scootamatta River, a tributary of the Moira. To supply power to these industries he erected a dam across the river. To accommodate the raftsmen he provided a "slide" in the dam, down which the logs could be taken. According to his story, the freshets last spring injured the dam and slide, and before he could make repairs a raft of logs of several thousand pieces came sweeping down the Scootamata, and was allowed to form a regular blockade at the injured dam.

Finally, he says, the Rathbun Company blew up the dam with dynamite, 31 1-2 sticks of it being used at one point. The report from that explosion on June 1st last was terrific and was heard, he says, at great distances. The dam material and logs were thrown to a great height, and the buildings nearby somewhat damaged. However, the logs were released, and went surging down stream to be collected at a point near the Moira. The company, it appears, claims that Mr. James had no right to place any obstruction on the river. Mr. James, on the other hand, contending that the dam was constructed in strict accordance with the requirements of the law. Negotiations for a settlement out of Court failing, Mr. James entered action against the company for unstated damages. These include the cost of the dam, and the loss of business owing to the works having been closed since the explosion. There are forty witnesses in the case.

NOTHING WILL BE GAINED

How Russian General Will not Make Things Better

Tokio, March 20.—Japanese military experts are of the opinion that the Russians will gain nothing by displacing Kuropatkin. Indeed they suspect that the change will harm the enemy. They hold that the Russians' only salvation lies in retreat, and that Kuropatkin has shown himself, when not interfered with by St. Petersburg, a past master of retreating movements. The agonizing position of Kuropatkin's troops awakens the sympathy of the Japanese nation in the midst of the rejoicing over the country's victory

TO DEVELOP POWER

Sir Van Horn and Others Canadians to Big Company

New York, March 20.—Sir William Van Horne, of Montreal; William Mackenzie, K. D. Wood, and Z. A. Lash, of Toronto; William L. Bull, Dr. F. S. Pearson and Percival Farquhar, of New York, have organized the Rio de Janiero Tramway, Light and Power Company. It is said to have a capitalization of $25,000,000, and authority to issue bonds to same amount, and will undertake to do in neighborhood of Rio de Janiero what the companies that are developing the water power of Niagara Falls are doing there. There is a large amount of water power available in the neighborhood of Rio de Janiero, and fuel is scarce and expensive.

The main part of the capital appears to be coming from Canadian sources, a number of Toronto and Montreal banks being interested.

W'NDOW UNVEILED

A Grateful and Graceful Token of the Gratitude to the Late Mrs. Nicholls.

Yesterday afternoon an interesting ceremony was performed in St. John's church Sunday school, when a beautifully stained window commemorative of the late Charlotte Jane Nicholls' kindness was unveiled.

Mrs Nicholls whose broadcast charities have assisted so many worthy objects of such remembrance, in her will left the sum of $500 to each Protestant Sunday school in town. St. John's church was the gainer by $1,000 to its original Sunday school, and $500, which was used as a nest egg for the fund which built All Saints Church and Sunday school. The $500 returned by St. John's was deposited in the Bank, and became a starter and nucleus of a fund, which persistent work and sleepless energy, soon amounted to the sum of $3,000.

Some months ago it was decided by prominent members of St. John's congregation that a fitting and only proper recognition of Mrs. Nicholls' kindness should assume a tangible and permanent form, and so the memorial window was decided on. Mr. R. M. Denniston, assisted by his class, undertook to raise sufficient funds to attain this most laudable object, and success crowned their efforts.

The window, in the north end of the Sunday school, is a very large one of artistic design and the highest class of workmanship. It is divided into four panels, each of which bears an appropriate design, viz., a lamb, a pelican feeding her young, a chalice and a lamb. The inscription, indicative of its being, reads "In memory of the late Charlotte Jane Nicholls, a benefactress of this school. There were many members of the congregation present to see this beautiful addition to the Sunday school, unveiled by Mrs. J. C. Davidson, wife of the Rector. It is a graceful and proper recognition of the kindness shown by a Christian woman, herself a communicant at the altar of a different denomination, and worthy of emulation by other beneficiaries of Mrs. Nicholls' gifts.

Amongst those present at this interesting ceremony were:—Mr. Richard Hall, executor, with Mr. C. McGill of the late Mrs. Nicholls' will; Rev. J. G. Potter, of St. Andrew's church; Mayor Henry Best, the wardens of St. John's and All Saints' churches and Mr. Adam Dawson.

REINFORCEMENTS FOR LINEVITCH

Army Corps at Harbin Marching to Meet Him

JAPS MUST PRESS ADVANCE

Grave Fears for Army in St. Petersburg—Kouropatkin's Disgrace —Has Left for the Capital

St. Petersburg, March 20.—It is announced that, notwithstanding his recall, Gen. Kuropatkin will be made aide-de-camp general to the Czar. The news of the recall of Gen. Kuropatkin was received at Harbin with despair. The town is overcrowded with wounded men. Many Chinese and Koreans have been arrested.

There is a persistent report that railroad communications have been cut behind the Russian army.

Decided anxiety is felt regarding the fate of the army under its new commander, no news of military developments the last two days having been received here. The only despatches from the front are the brief announcement yesterday that Gen. Linevitch had assumed command and that Gen. Kuropatkin was departing for St. Petersburg, which disposes of a rumor that the latter had committed suicide, and a Chungtufu despatch filed the morning of March 16 and written at the station of Kaiyuan, which was then held by the Russians. In this correspondent's opinion no pause in the Japanese advance is possible for some time. The Russians are losing heavily in the rear-guard action, and the Japanese columns are reported to be pushing northward as fast as possible to complete the envelopment of the Russian forces. Gen. Linevitch, however, will have a considerable accession of fresh troops in a day or two, the Fourth European Corps being now at Harbin and departing southward. Military officials here declare there are now 268,000 men at Gen. Linevitch's disposal in Manchuria, and it is supposed this force will be sufficient to cause the Japanese to exercise greater caution in their pursuit.

The announcement of Gen. Kuropatkin's recall, as published in the Official Messenger, is made in the coldest terms. It does not mention his distinguished services, and no thanks are accorded to him. The terms in which the announcement is made entirely disprove the assumption that he resigned.

Police Court

OFFICIALS

Chief of Police, G.I. Rorke
Magistrate, D.W.Dumble

There was a crowded room at Saturday's police court; after evidence and arguments lasting about two hours, involving two cases, one of alleged cruelty to a horse, and one over an entangled skein of horse dealing accounts, both cases were dismissed.

The first case was one in which Mr. Macklem Pousette was complainant, acting on behalf of the S.P.C.A. It was alleged that a man named Cooney, had driven an animated conveyard, yclept a horse, belonging to Mr. Stevens, the Ashburnham dealer in junk, rags, bones, rattletraps and such like bric-a-brac, and that said horse was rendered by sores, age and general lack of vitality a more fit candidate for the glue pot than the stable. Mr. E. H. D. Hall carried on the prosecution, and cross-examined the several witnesses. After a searching inquiry into the horse's pedigree, age, wounds, general physical condition, and the reasons for miserable existence, as adduced from the evidence of several witnesses, which was provocative of merriment among the audience, the case was dismissed.

While Mr. Ashley was giving evidence that affected the horse's sores, Mr. Dumble asked if the wounds were "bad sore," in summing up the evidence. His Worship said, that whilst the horse had evidently come to an age that should win respect rather than work, the prosecution had not made out a strong enough case to convict of actual cruelty and dismissed the case.

The next case was one that affected a horse deal. The prisoner had bought a charger for the sum of $23, and the complaintant had purchased a half interest for $11.50, on the understanding that said charger was to be the nucleus of a future fortune to be made by trading him, and in which said fortune he was to be half owner. Several trades had been effected, which added some $30 to the capital originally invested. Charles Pogue, the defendant, swore he had made the several trades, but that he had boarded and groomed the horses involved at his own expense. Mr. Cook, the complaintant, after a long cross-examination could not bring order out of the chaos of the deals to his Worship's satisfaction, so the case was dismissed. Mr. Kerr acted for the defendant, and Mr. R. E. Wood acted for the Crown.

Hero di Fiore on a Steak

Last Thursday night a few local sports met in a room over a George street store, and, about nine o'clock began a little game of draw poker. The game went on with fortune first smiling on one player, and then, in fickle mood, changing her favors to another. The hours also sped by, as hours will when the seductive game of draw engages one's attention. About eleven o'clock, one of the party getting hungry, suggested a postponement for an hour to visit a nearby restaurant. This resolution was vetoed by those behind in the game, and they, as will often happen, were in the majority. The hungry man introduced an amendment, in place of the original motion, to the effect that the restaurant man be instructed to bring a lunch to the room, for which the "Kitty" was to pay. This passed. The time had still been rolling along. When the porterhouse steaks appeared on a tray, hot and steaming, the clock warned those present that it was ten minutes to twelve. In about five minutes it occured to a member in the game that in those five minutes, Thursday would be dead, and Friday would be born. "Holy Smoke," says a player "I am going to eat that steak before Friday or die in the attempt, for I will not eat meat on Friday in Lent, even if it is St. Patrick's Day." It reported that never did a succulent porter house steak disappear faster.

THE JAPANESE READY TO FALL ON LINEVITCH AND ANNIHILATE HIS LARGE ARMY--JAPS CAPTURE 20,000

Japs Cut Telegraph Wires and are Pressing in on The Russians From All Sides—St. Petersburg Admits Its Manchurian Army Will Have to Be Sacrificed.

Tokio, March 20.—Formerly the conservative element in the high councils of Japan favored setting a limit to the Manchurian advance. It opposed advancing to Harbin, but the results of the victory at Mukden are removing opposition and the bulk of opinion and judgment now favors pressing advantages and carrying the war to the utmost limits possible.

HEAVY ACTION ON.

Yinkow, Manchuria, March 20.—It is reported that the Russian rear-guard is fighting a heavy action in the vicinity of Kaiyuan, about 20 miles north of Tie Pass.

St. Petersburg, March 20.—Telegraphic communication with the retreating Russian army has been cut for over twenty-four hours, but the authorities hope it is only temporarily, declaring that they have no information that the Japanese have reached the railroad in General Linevitch's rear. Nevertheless, with the curtain down, the war office naturally is the prey of the direst forebodings.

The last word from the front was contained in a telegram from one of the Associated Press Russian correspondents, the only correspondent with the retiring army. It presaged an attack from the rear. The telegram, although dated Changtunfu, forty miles north of Tie Pass, at four o'clock Thursday afternoon, was sent from Kaiyuan, thirty miles north of Tie Pass, and reached St. Petersburg only this morning.

BRIEF, BUT SIGNIFICANT.

It was very brief, saying simply that the army was retiring in good order and destroying the railroad as it went, but was constantly pressed by the Japanese, the rear-guard action being continuous. There were ominous words in the concluding sentence, as follows;

"We believe the Japanese are making a wide turning movement north, and that they are ready to fall upon us when we get out of the ring-like group of Mountains which surround the Tie Pass Gorge."

OBITUARY

Sad Death of Miss Helen Burnham Yesterday Morning

Yesterday morning as the bell of St. Luke's pealed out a summons to service in the church that the late Mr. John Burnham was a leading factor in building, Miss Helen Burnham, his youngest daughter, was dying at the family residence, Ashburnham. Miss Burnham has been in failing health for some years, and about six weeks ago, contracted a cold, which developed into pneumonia, and proved fatal at 11 o'clock yesterday morning. She was 25 years of age, and besides a long list of personal friends she leaves to mourn her loss, her mother, her sisters, Mrs. Gael of Toronto, Miss Edith, at home, and her brothers Frank, at home, and Harold in St. Catharines. The funeral will take place on Tuesday from the family residence.

NOW GAZETTED

Ontario Gazette of the 18th inst., Contains Names of License Commissioners

In a former issue we mentioned the names of several gentlemen who had been appointed as License Commissioners. There has been a hitch in the license question in Peterborough, during the past week owing to the fact that, whilst these gentlemen had been appointed, they could not act until gazetted, and the old board refused to act. In the case of the C.P.R. Hotel, on Simcoe street, this difficulty arose. Mr. Allen had sold out the hotel business to Rickerby Brothers, but the old board refused to transfer the license, preferring to leave all responsibility to the new board. The latter could not act until they were officially gazetted, but the stumbling block in the way of this class of business is now removed. The Ontario Gazette contains the official announcement of the License Commissioners for East and West Peterborough.

West Peterborough—Dr. M. A. Morrison, Mr. H. LeBrun, Peterborough; Jonathan Griffin, Lakefield.

East Peterborough—Joshua Smithson, Otonabee; J. Knox, Havelock and J. Rose, Warsaw.

250 DELEGATES

Peterborough Home Circle No. 168 Gets Next Annual Meeting for This Town

Peterborough Home Circle, No. 168, are patriotic towards their own town. During the session of the Supreme Circle held in Guelph last week, the local circle, through their representative, Mr. William Kempt, have succeeded in convincing his fellow representatives that Peterborough offers sufficient inducements to deserve that the annual session be held here next year. This will make quite a stir in the town as there will be about 250 delegates present. This is an excellent pointer for delegates to annual meetings of other societies, held throughout the Province, as it will not only advertise the importance of our town and its exceptional attractions for pleasure seekers and promoters of industries, but brings many dollars to the town.

Another cause for congratulating the Home Circle is that it has won the prize of $50 for having increased its membership by the largest number during the year. A prize of $30 was won last year when the local Circle came second on the list. The present triumph was the outcome of a special effort and those who took part in it are to be congratulated on their success.

Over the Phone

The following telephone conversation is reported to have been heard between a certain well-known young Peterborough business man and a prominent society woman:

"Is this Mr. ——?"

"Yes."

"This is Mrs. ——. Won't you give us the pleasure of your company at dinner on Monday?"

"I'm so sorry, Mrs. ——, but I have an engagement for Monday."

"Can you come Tuesday, then?"

"Why, it is more unfortunate, but I have a partial engagement for Tuesday also."

"Well, how about Wednesday?"

"Oh, hang it! I'll come Monday."

Settlers Low Rates West

via the Chicago and North Western Railway every day from March 1st to May 15th, 1905, settlers one way second class tickets at very low rates from Chicago to points in Utah, Montana, Nevada, Idaho, Oregon, Washington, California, also to Victoria, Vancouver, New Westminster, Rossland, and other points in the Kootenay District. Correspondingly low rates from all points in Canada. Write for full particulars and folders to R. H. Bennett, General Agent, 2 East King street, Toronto, Ont.

WILL NOT CREATE NEW WINTER PORT

The G. T. P. Will Choose Either Halifax or St. John

SPEECH ON A STEAMSHIP

Chairman of the Allen Company Says Great Terminal Port is Contemplated

Montreal, March 20.—There is no probability whatever of the Grand Trunk Pacific creating a new winter port on the Atlantic.

A choice will be made between either St. John or Halifax. Possibly both may be used.

That was the information given in the president's office this morning, apropos of a speech made by Mr. Nathaniel Dunlop, the chairman of the Allen Company, during a luncheon on board the Victorian, while on a trial trip on the Clyde.

While the brief cable despatches of Mr. Dunlop's remarks are not very clear as to the idea which he wished to convey, it is obvious that he was speaking of the Grand Trunk Pacific scheme, in its relation to future trans-Atlantic trade.

Mr. Dunlop is reported to have said that the Grand Trunk Pacific contemplated having a great terminal port nearer the ocean than the St. Lawrence, when, viewing it from a European standpoint, the Canadian route would be the great waterway to the American continent with steamers running at unequalled speed and safety.

Enquiries at both the head offices of the steamship and the railway company, resulted in a reporter being assured that it would be impossible to establish any port other than those presently in existence with any degree of success. It was comparatively easy to establish a centre on a railway in the interior, but the conditions were altogether dis-similar on the coast, where the prime requisite was a harbor, and these were extremely difficult to find.

Although the railway officials would give no hint as to the choice that will likely be made among the ports now existing for the Grand Trunk Pacific, it will most probably be Halifax.

Montreal, as the commercial center of Canada, will be the summer terminal of the Grand Trunk Pacific, as it is for the Grand Trunk Railway, and the Canadian Pacific Railway, with the city of Quebec as a port of call.

Ground to the Dust With Weakness—Too Nervous to Sleep —A Pitiable Wreck

FERROZONE

Braced—Invigorated, Toned and Strengthened

Men and women, married or single, whether old or young, will find abundance of health in Ferrozone. It completely vitalized Mrs. F. Levine, a well-known resident of Point Alexander, [illegible]

"I was on the verge of nervous prostration. When I got up in the morning I had to force myself to go to work.

"I felt blue and depressed, took no real comfort out of life.

"Dragging weakness and lack of spirit seemed to be killing me.

"How I wished for strength!

"Kind Providence brought Ferrozone to my notice and I commenced to take it. The change was wonderful. I picked up every day. Strength developed, appetite increased. I grew cheerful and strong. Ferrozone made me feel like a woman. My cure is complete and I recommend it as an unsurpassed."

The one medicine that's sure to lift you from a weak, miserable condition is Ferrozone. 50c. per box, or six for $2.50, at all dealers in medicine, or Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock. The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $4 per year, strictly in advance.

THE SAVINGS HABIT

Have you a bank account? If not, why not?

Your wants are small? Demands are large? Saving is impossible?

Pardon me, saving is not impossible. The saving may not be large, it may be pitifully small at the first trial; but the saving will be a beginning, and it will grow. There are several reasons why you should have a bank account, however modest it may be.

First of all, some day you will need some ready money. Sickness, loss of work, a slight turn in the wheel of fortune — what will you do?

Another reason may be found in content and peace of mind. He who has some savings feels more secure than does the spendthrift. Discontent and worries dog the footsteps of the man who lives up all his income.

But the big reason is this: The savings habit is reflex in its action. It is an index of character. It is easy to spend money. It requires effort to save it. The flabby-minded man lets go his money recklessly. The strong man resists the strong temptation to spend more than he can afford and, in resisting this temptation, grows stronger.

No need to grow stingy and hard-hearted. There are many investments for a young man, especially, to let go his money. He is urged in a hundred ways to squander his hard-earned dollars foolishly. He who resists is laying the foundation for a strong business character.

There are thousands, especially in the cities, who, drawing good salaries gauge the outgome by the income. They do not save a cent. And it is usually those who envy the successful and point to the latter as lucky ones, whereas it is true that the foundation of every fortune has been laid in the habit of small savings.

Go to the savings bank and start an account, however small it may be. It is the habit of saving that is more important than the saving itself. Get the habit.

MORE ABOUT THE CZAR

Evidence continues to come in that the Czar is not a strong man. An account is given of some remarks made by M. Demolinsky, the well-known "meteorologist," whose influence was supposed to have induced the Czar to publish the decentralization manifesto of February 26 (March 11) 1905. M. Demolinsky is reported as speaking of the Czar with remarkable freedom. "The Czar," he said, "is well read and of great intelligence. He is always animated by the best desires, but is, unfortunately, totally without will. No one has lasting influence over him, and when he hears that any one is supposed to influence him he at once libels him at a distance. So it was with me. As soon as it was stated in the European press, which he reads diligently, that I was his most influential adviser, he sent back to me my passiimate memorandum with the remark, 'Everything is known to me.' I was given to understand that it would be wise for me to hold my peace for the future. So I did, and meanwhile Plehve had me arrested, though I was released at the Czar's command. Now I believe the time to have come when the Czar will listen to his old adviser again, and therefore I handed in my last memorandum. I do not think I am wrong, for some days have passed and it has not yet been handed back to me." This is the memorandum arguing that the summoning of the Zemsky Sobor would not necessarily lessen the autocracy of the Czar.

A ruler totally without will is not a very safe man for himself or others. But perhaps the Czar has more will than he seems to have. There are times when he seems to have enough strong will.

RUSS HOPES TO WIN THRO' FOE'S POVERTY

Convinced That Japan's Resources Will Soon be Exhausted

WILL RAISE ANOTHER ARMY

Peace Proposal Failed Because Japan Wanted Indemnity and a Guarantee as to the Pacific

St. Petersburg, March 17.—In spite of the signal defeat of the Russian arms at Mukden there is no disposition to talk of peace. The Russian Government stand committed to the war, and the people have not yet found the voice bestowed on them by the Czar's rescript.

I learn on the best authority that Japan has twice approached Russia through informal channels on the subject of peace negotiations, but in each case the proposal failed because Japan demanded an indemnity and a pledge from Russia not to keep warships in the Pacific for twenty-five years.

The Japanese insistence on an indemnity convinced the Russian Government that Japan's pecuniary resources were exhausted and that by continuing the war only a few months longer Russia would be able to compel Japan to accept better terms.

BATTLE NEAR IN INDIAN OCEAN

Big Japanese Squadron is Near Singapore—Four Cruisers in Harbor

Singapore, March 17.—Four Japanese cruisers arrived here to-day.

A score of Japanese warships are twenty miles east of this port. The vessels here are commanded by Admiral Dewa. The officers refuse to talk. The warships will sail hence almost immediately. It is believed they are bound for the Straits of Sunda.

TOGO WAITING.

London, March 17.—The breaking up of the ice in the northern area of the Japanese and Chinese seas, together with the appearance of a Japanese fleet at Singapore, and the reported departure of Admiral Rojestvensky from Madagascar for the far east, again calls attention to the naval side of the war. It is known, of course, that the Japanese have been for a long time scouting the channels of the East Indies, but the appearance of a numerous squadron so far west as Singapore has not been previously reported. It is not thought probable that Admiral Togo is with this squadron.

Nothing has been heard of Admiral Togo since he left Japan early in January, but it is asserted that he is at the Pescadores, where he receives reports ethereally from his scouts, ready to concentrate his forces when definite deductions as to Admiral Rojestvensky's movements are possible.

GOOD NEWS TO ALL

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

FRANCIS L. JUDD & CO.,
BANKERS AND BROKERS,
CLEVELAND, OHIO.

W. SAILSBURY,
PETERBOROUGH, ONT.

WHAT DO YOU DO WITH THE MONEY YOU SAVE?

Are you depositing it in bank? If so what interest are you receiving? **NOT MORE THAN 3 TO 3 1-2 PER CENT** we daresay. AND NOW COMES THE VITAL QUESTION. What is the banker doing with your money? The money you have placed with him for safe keeping. For answer read the official bank statement given below of the 1st National bank of ————, it may be seen at our office at any time. It is as follows:

RESOURCES		LIABILITIES	
Loans and discounts	$308,789 51	CAPITAL STOCK PAID IN	$ 75,000 00
Overdrafts, secured and unsecured	356 98	Surplus fund	60,000 00
U. S. Bonds to secure circulation	20,000 00	Undivided profit, less expenses and taxes paid	2,161 53
STOCKS, SECURITIES, ETC.	300,000 00	National Bank notes outstanding	20,000 00
Banking-house furniture and fixtures	13,000 00	Due to other National Banks	5,280 40
Due from National Banks (not reserve agents)	7,200 25	Due to Trust Companies and Saving Banks	90 20
Due fr. m approved reserve agents	13,511 48	Due to approved reserve agents	7,000 71
Checks and other cash items	1,639 2.	Dividends unpaid	2,764 00
Notes of other National Banks	3 150 00	Individual deposits subject to check	466 273 08
Fractional paper currency, nickels and cents	280 00	Cashiers checks outstanding	365 53
Lawful money reserve in bank, viz—Specie	$46,519 00		
Legal tender notes	11,000 00	$57 519 00	
Due from U.S. Treasury, other than 5 per cent. redemption fund	1,000 00		
	$730 939 38		$730,939 38

Pay particular attention to the items printed in bold type. They tell you an interesting story. They show a capitalization of $75,000. They show that over four times the amount of the authorised capital of the bank or $300,000 has been and is now invested in stocks.

PONDER OVER THIS STATEMENT If you are a bank depositor doesn't it make you think? It should! Who reaps the benefit of these investments of YOUR MONEY? Do you get it? Not if the bank knows itself. You get your little 3 or 3 1-2 per cent and the bank gets the rest. Why cannot you

INVEST YOUR OWN MONEY

Your opportunities for ascertaining the value of your investments are just as good as that of your banker. Why see you not utilize these facilities for your own profit? You owe it to yourself and your family and to the world to assert your own INDEPENDENCE. If you have made bad investments in the past, DON'T BE BILLY enough to let the fact check your ambition to become your own business manager. Profit by your mistakes and GET WISE.

If you desire information regarding your investments write to us. If you desire to dispose of your investment write to us. If you desire a new investment that is ABSOLUTELY SAFE and which will return large PERMANENT DIVIDENDS to you instead of your banker.

Write to us at Once. Keep Your Capital in Action.

That is the only way to make MONEY GROW. We will advise you and we will not charge an exorbitant fee for so doing. WE CAN HELP YOU AND WE WILL.

Name .....

Residence .....

FORTUNES ARE BEING MADE IN KANSAS OIL

Here's a fortune for you. Not 10% but 100% and no risk of loss. Giant of the Oil Fields.

The Midland Oil and Gas Company

has over 160 acres of oil land and has put down 10 wells, so the land is proved up. An adjoining additional 80 was secured yesterday, making over 240 acres all in the proven belt. Just read this:

The U. S. report on the oil industry places the average daily production of Pennsylvania wells at only one-half a barrel each per day. **The Midland wells are pumping**

Sixty Barrels a Day Each.

The pumping plant has just been started and this is the surprising result. Nothing like it in the world. The officers and directors of this company are bank men and do not believe in debts, so the company is free from debt. They have nearly $20,000 in cash and bills receivable in the treasury and everything paid for—property, wells, pumping plant, oil tanks, well cleaning machine and everything connected with the company. Have two drilling rigs working night and day sinking wells. Have abundance of gas, which runs the drills and pumping plant, so it only costs about $5.00 a day to produce and market the oil.

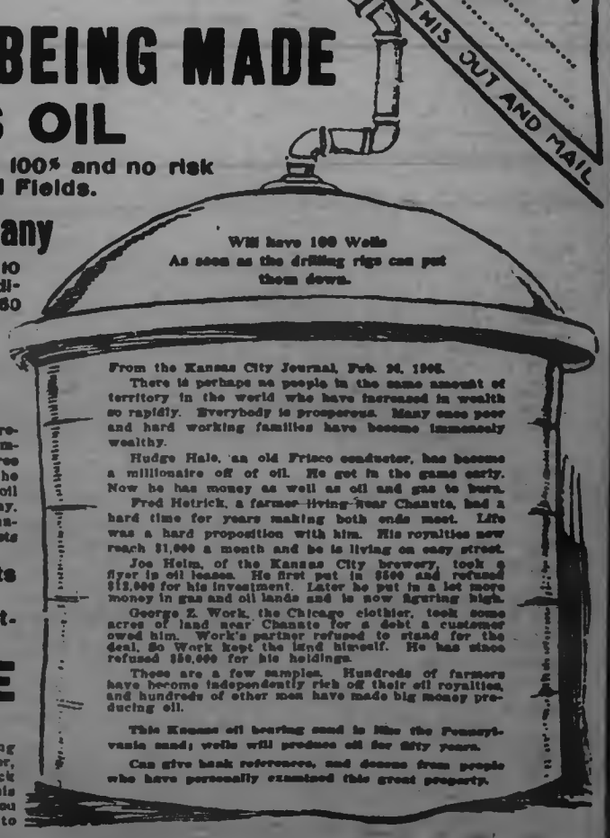
The Company has about 33 per cent of its stock in the treasury as a reserve.

For a short time the Company will sell a little more of its stock at only

7½ CTS. A SHARE

Buy all you can raise money to pay for.

We could talk all day about it and not cover all the strong points. But as the company has this grand property paid for, there is only one side to it, and that is profit. Don't buy stock in a company that tells you what they will do, but buy in this company, that has proved its property, and every dollar you put in makes it better. Send for particulars or mail check to



Will have 100 Wells
As soon as the drilling rigs can put them down.

From the Kansas City Journal, Feb. 26, 1905.

There is perhaps no people in the same amount of territory in the world who have increased in wealth so rapidly. Everybody is prosperous. Many once poor and hard working families have become immensely wealthy.

Hudge Hale, an old Frisco conductor, has become a millionaire off of oil. He got in the game early. Now he has money as well as oil and gas to burn.

Fred Hetrick, a farmer living near Chanute, had a hard time for years making both ends meet. Life was a hard proposition with him. His royalties now reach $1,000 a month and he is living on easy street.

Joe Helm, of the Kansas City brewery, took a flyer in oil leases. He first put in $500 and refused $12,000 for his investment. Later he put in a lot more money in gas and oil lands and is now figuring high.

George Z. Work, the Chicago clothier, took some acres of land near Chanute for a debt a customer owed him. Work's partner refused to stand for the deal, So Work kept the land himself. He has since refused $50,000 for his holdings.

These are a few samples. Hundreds of farmers have become independently rich off their oil royalties, and hundreds of other men have made big money producing oil.

This Kansas oil bearing sand is like the Pennsylvania sand; wells will produce oil for fifty years.

Can give bank references, and dozens from people who have personally examined this great property.

TO CANADIAN INVESTORS

Oregon-Idaho Gold Mining Co.

INCORPORATED

Capital $5,000,000. Shares $1.00 Each, Par Value,

Fully Paid Up and Non-Assessable.

We have just secured the agency for the above splendid proposition, of which we have been allotted a block of Treasury stock. We can confidently recommend this as a safe and, we believe, exceedingly profitable investment. Every dollar of stock is guaranteed by twenty year, full paid, gold bond, delivered to purchaser of stock, from an Investment Company that has no interest whatever in the company, but who are depositing of the debentured bonds to the public, and, under their charter, they are compelled to deposit securities to an equal amount, to the State Treasurer under which they received their charter, there by doubly assuring the payment of their gold bonds.

The Company's property, which is now past the project stage, is known to be marvellously rich in gold.

Following is the opinion of G. W. Miller, Mining Engineer, formerly with the Boston and Montana Consolidated Copper and Silver Mining Company, U. S.; Simmer and Jack Mining Co:. Limited, Klandsfountain South Africa:—

"You have here a most valuable property and one of the strongest fissure veins that can be found in any part of the world.

"With the present development of the Monument Mine, I estimate that 100 tons per day can be extracted, which will mill from $15.00 to $20.00 per ton. The total cost of mining the ore, delivering and milling, I place at about $4.00 per ton. With increased milling capacity, it is safe to say that the mine can furnish 100 tons of $15 00 ore, which would yield a clear profit of $11.00 per ton, or $1,1 0 00 per day (equal to $400,000 00 per annum). Estimated total value of ore in sight, $2,500,000."

During the past summer, a party of the Company Directors visited the property, taking with them, Amos P. Brown, Ph.D., Mining Engineer and Professor of Geology and Mineralogy at the University of Pennsylvania. Dr. Brown writes as follows:—

"In regards to the amount of ore available at the mines at Sinclair, I saw on the dumps several thousand tons, probably 5000 tons would be an under-estimate.

"As to the size of the ore body itself, from what I saw of the geological structure, I think that there is every indication that it will be found to extend underground as far as the out-croppings on the south side of the gulch. This would mean an ore body large enough to keep the present mill running for many years to come.

A write up of the proposition will appear in these columns in a few days. Watch for it. In the meantime we will be pleased to furnish full information to investors.

THOS. PATTERSON & CO.,

FISCAL AGENTS. PETERBOROUGH

CONSERVATIVE INVESTORS WILL FIND

The Twentieth Century Mining and Power Co., Ltd.

—OFFERS—

A HIGH GRADE INDUSTRIAL AND MINING INVESTMENT

We have thoroughly investigated it and found it to be right in every respect Did you ever have a chance to invest in a straight legitimate money making proposition? If not,

THIS IS YOUR OPPORTUNITY

We own a monopoly of the water right privileges in the Thunder Mountain mining district, State of Idaho, U.S.A.; seven water rights in all; one developed and in use. The property of the Company consists of over 1400 acres, with plenty of timber for building and mining purposes, a saw mill fully equipped and in operation, a 10-stamp mill now on its way from the R. R. Station to the property, and 40 additional stamps to be purchased at once and installed during the coming summer. This is the largest and most favorably situated property in the district. Some of the tunnels have been driven over 400 ft., cross-cutting many dikes, demonstrating that we have an inexhaustible body of ore. The ore bodies are sampled by an assayer every 10 ft., and assays run from 40c. to $600 per ton. The ore is free milling, and can be mined and milled for about $1.00 per ton.

The Company is now on a sound financial basis; have no debts, and when the present allotment of stock is sold, it will be withdrawn from the market. The work is progressing steadily on the property, and for the last 52 weeks $1000 per week has been expended in the development of the mine. If you want a winner that promises large dividends, write for full information to Messrs.

Thos. Patterson & Co. Peterboro, Ont.

We want to tell you more about it. It will pay you to investigate. You had better not wait too long, or the allotment of stock will be sold, as it is being taken up rapidly. Within the last 90 days 300,000 shares have been subscribed for. Only 100,000 shares remain at 50c. par share.

BRITISH POSTAL RATES TO CANADA

Lord Stanley Declines to Make Reduction

RHODES SCHOLARS' DINNER

The First of Series of Annual Functions to be Held at Oxford

London, March 18.—Replying to a deputation of members of Parliament this afternoon, which was introduced by Sir Gilbert Parker, Lord Stanley disposed of all hope of a reduction of postage on British newspapers and magazines to Canada, at least while he remained Postmaster-General.

Sir Gilbert Parker said that the deluge of American magazines, many containing from 50 to 75 per cent. of advertisements, did a great deal to divert trade from Great Britain to the United States. He referred to resolutions passed in Canada, and read a petition signed by the president of the Canadian Press Association, the president of the British Empire League, and the late Premier of Ontario, amongst others and also commented upon the people becoming imbued with American ideas. Sir Gilbert asked that the rate should be reduced from fourpence to a penny per pound.

Mr. Ammott, M.P., said it was an important question to Imperial solidarity. At present facilities were allowed for a non-British atmosphere to exist in Canada.

LORD STANLEY'S REPLY.

Lord Stanley had great sympathy with the sentimental side of the proposal, but his department was run on a business basis. The only method to which the matter could be remedied would be to equalize British rates with those of the United States. That, he calculated would mean a loss of revenue of three million pounds sterling, which was impossible.

He suggested that at the time of the convention with the United States, in 1875, Canada was not so friendly towards Great Britain as now. The best remedy was for Canada to raise the rates on American matter, which he thought the American authorities would not object to.

In answer to General Laurie, he refused to consider the question of reducing postage on newspapers to the domestic rate.

RHODES SCHOLARS' DINNER.

The Canadian Associated Press has learned that the first annual dinner of the Rhodes scholars will be held at Oxford to-morrow. The Canadian Associated Press understands that the dinner will be confined to the trustees eighty scholars, the joint secretaries and Dr. Parkin.

CONSIDERS IT IMPRACTICABLE.

The Yorkshire Post, commenting on Col. Hughes' resolution, re Imperial unity, says that it is impracticable for if there were a commercial union, there could not possibly also be individual control of tariffs and finance.

TO CANADIAN INVESTORS

Thomas Patterson & Co. Have a Fine Copper Proposition.

Fifty dollars invested in Granite Mountain Mining Company's stock paid the purchaser $84,500, besides several thousand dollars in dividends. One hundred dollars invested in Boston and Montana Mining stock paid the purchaser $44,000, besides several thousand dollars in dividends. A few dollars invested in shares of the Butte Copper Mining & Smelting Company stock, will not only insure you big returns in dividends, but a handsome profit in an increased value of the stock. Our mine is not a prospect but a copper mine which has produced $160,000 in profits in the last three years.

For the purpose of buying adjoining ground we have placed on the market 50,000 shares of our treasury stock. This stock is fully paid and non-assessable. Par value $1,00 per share. We will sell any part or all of this lot at 60 cents a share; no certificate issued for less than 100 shares. Send us your order for what stock you want and we will reserve it for you, pending your investigation of our company; and when you have received our prospectus and satisfied yourself that the investment is a good one, you can send us the money and we will issue the stock, or have the stock sent through any bank you may designate. References: Any Bank or Mercantile House in Butte, Montana. Write us for particulars. Butte Copper Mining & Smelting Co., Butte, Montana, or to Thos. Patterson & Co., Fiscal their foregothers."

Sunday School Extension

Now is the appointed hour in which to put your surplus cash into an investment that will yield you a harvest of good. The sum of $3,000 is required for the building and extension fund of the Charlotte street Sunday school, and cards will be distributed on Sunday asking for contributions payments to be made in three annual installments. Building operations will proceed as soon as the necessary funds are forthcoming. The cards bear the names of R. J. Kidd, superintendent and Percy Hamilton, secretary-treasurer.

A PERSONAL TALK

BY ALEXANDER MUNROE AND GEORGE H. MUNROE.

If we could meet each one of you individually, and tell you all that we know about the Marconi Wireless Telegraph System, you would become as enthusiastic about the future of this magnificent scientific achievement as we are.

If we could discuss the question with you in person, there is no doubt but that you would become as thorough and firm a believer in the financial possibilities of the Marconi Wireless Telegraph Company of Canada as we are.

Do you know what William Marconi is doing to-day in the development of this most wonderful of all modern business inventions?

Do you know that the Dominion Government has given its unquestioning support to his Canadian Company, and that by generous endowment, the future of the Company is assured?

Do you know that it is but a matter of a few days when wireless communication between the continent of America and England will be accomplished, and it will have become as much a matter of every day routine to send wireless messages to the old country as it is now to send cablegrams, and the cost will be reduced full 50 per cent.?

Do you realize that even with this reduced cost the earnings of the Company, in the transaction of its business, will be enormous.

If you are not convinced of the extraordinary profits that will result from an investment in the stock of the Marconi Company of Canada, will you not write to us for our booklet entitled "The Financial Aspect of the Marconi Investment." which gives earnest consideration to the questions involved?

The prime object in thus addressing you is to bring to your attention the opportunity that is offered to make an investment of your surplus in a stock which offers you absolute security, combined with certainty of large profits, and we have an array of facts and figures carefully compiled with a view to giving you a most thorough and comprehensive view of the situation, one that cannot fail to convince you of the advantages of this investment, which we strongly recommend.

We want every one of our clients to make money out of this Marconi investment. We would not be contented unless you made extraordinary profits. It would not satisfy us that you should make a mere 10 or 20 per cent., but it is our hope and expectation that from the Marconi investment YOU WILL MAKE HUNDREDS, EVEN THOUSANDS PER CENT. THROUGH THE NATURAL GROWTH IN VALUE OF THE SECURITIES which we sell. The expectation is not an extravagant one, for we have the history of dozens of similar enterprises which have resulted in great fortunes to those who were shrewd enough to recognize their opportunity and make their investments while the enterprise was young. THE MARCONI WIRELESS TELEGRAPH SYSTEM IS YOUNG TO-DAY, BUT IS A GIANT IN ITS YOUTH. What it has accomplished within the short history of its existence, is the marvel of the world. No other like enterprise was ever so rapidly developed, and no other so strongly entrenched both by organization and governmental favor, as this one. THE PATENTS UPON WHICH THE MARCONI SYSTEM RESTS ARE BASIC AND FUNDAMENTAL, and notwithstanding the claims of other inventors, no other has made such gigantic strides towards perfection, and all OTHERS MUST AS CERTAINLY PAY TRIBUTE TO IT AS ALL OTHER TELEPHONE INVENTIONS WERE COMPELLED TO PAY TRIBUTE TO THE BELL SYSTEM. NOWHERE IN THE FINANCIAL WORLD TO-DAY IS THERE A LIKE OPPORTUNITY PRESENTED.

100 WORDS A MINUTE

The Directors of Marconi's Wireless Telegraph Company, Ltd., of London, England, in their annual report to the stockholders, stated that TWENTY-FOUR WORDS A MINUTE WAS THE AVERAGE WORKING SPEED OF THE MARCONI SYSTEM IN DAILY COMMERCIAL USAGE, AND USING THIS AS A BASIS ESTIMATED THAT THE REVENUE OF ONE TRANS-ATLANTIC SET WOULD BE $280,000 PER ANNUM. Since that statement was issued, Mr. William Marconi has announced in a lecture before the Royal Institution, that he has so improved his wireless instruments, that he can accomplish AN AVERAGE WORKING SPEED OF ONE HUNDRED (100) WORDS PER MINUTE.

MR. MARCONI SAYS:

"I have recently constructed a magnetic detector which will work a relay and record messages on a tape by the regular Wheatsone recorder, and thus eliminate the telephone receiver. The new receiver excels anything heretofore produced in connection with wireless telegraphy, for it combines extreme simplicity with absolute reliability. But the greatest gain results from the fact that the receiving speed is increased from 24 to 100 words per minute."

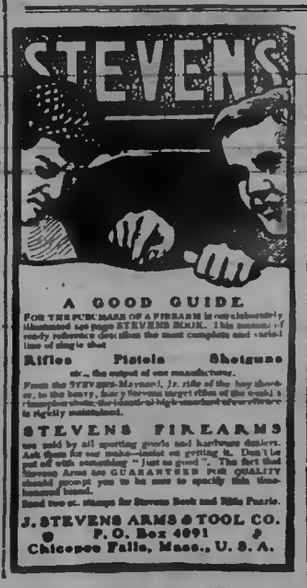
Using this statement of Mr. Marconi as a basis, it may easily be computed that the estimated EARNINGS OF ONE SET OF TRANS-ATLANTIC WIRELESS INSTRUMENTS, instead of being $280,000 per annum, will in reality reach THE STUPENDOUS SUM OF $1,200,000 PER YEAR. This sum will be further increased by every addition to the number of stations in operation.

If you desire further information concerning the organization of the Company, and its prospects, send to us at once; but we would advise you not to delay your action, but send your check at once for as many shares as you can buy, not to exceed 500, that being the largest number sold to any one person, for the price of the Canadian stock is liable to advance any day.

Address all communications and make all checks payable to

MUNROE & MUNROE

Canada Life Bldg., Montreal. Broad Exchange Bldg., New York. State Mutual Bldg., (50 Congress St.) Boston.



SEALED TENDERS addressed to the undersigned, and endorsed, "Tender for addition, Printing Bureau," will be received at this office until Monday, April 3, 1905, inclusively, for the construction of an additional story to the Printing Bureau, Ottawa, Ont.

Plans and specifications can be seen and forms of tender obtained at this Department.

Persons tendering are notified that tenders will not be considered unless made on the printed form supplied, and signed with their actual signatures.

Each tender must be accompanied by an accepted cheque on a chartered bank, made payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the tender, which will be forfeited if the party tendering decline to enter into a contract when called upon to do so, or if he fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

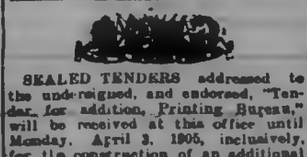
By order,

FRED. GELINAS,

Secretary.

Department of Public Works,
Ottawa, March 15, 1905.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.



MEN AND WOMEN.

Oil Stock as an Investment

Stands unrivalled and in a class by itself.

Will you kindly bear with me and read the following carefully and see if you will not agree with me.

Gold mines are very uncertain for the reason that one can never tell how much ore there is, and even if ore is obtainable in large quantities the cost of smelting is so great that it takes away large proportion of the profit, also the mining of the ore is a great expense. These remarks apply to silver and copper mining, etc. Many lines of business might be worked out as above, but will leave reader to do so himself.

OIL might be divided into three classes, viz:

First—Common petroleum or fuel oil, worth from 15 cents to 25 cents per barrel. At the well this oil gushes so that it flows sometimes several thousand barrels per hour. But there is not always a market for it.

Second—Illuminant oil, worth at the well about $1.50 per barrel.

Third—Lubricating Oil, which is worth over $4 per barrel.

THE BOSTON & TEXAS has illuminating oil on its territory, but it has not developed this to any extent yet.

The oil which we are developing is LUBRICATING OIL, found at a depth of 523 feet to 540 feet. Of this oil we have three wells which are producers.

No 9 well produces in natural flow 9 to 12 barrels per day, and in pumping on a three day test averaged 53¾ barrels per day.

No, 13 well is the equal, if not the superior to No, 9, in every respect.

No. 12, producing both oil and gas, has an extraordinary gas pressure of 75 pounds to the inch. This well should produce at least 20 barrels per day.

TOTAL FOR THREE WELLS say 125 barrels per day.

This quanity at the lowest valuation will work out to about $180,000 a year, or enough to pay 12 per cent. dividend on the issued capital stock.

These are not theoretical calculations such as are made by GOLD AND OIL companies but actual calculations based on actual results from tested wells.

The price is correct, as we have never sold for less than $5.65 per barrel. The cost of sinking a well may amount to several thousand dollars and you may not always strike oil, but when you do the cost is very little, as one gas engine will operate 12 to 15 wells, and as we have natural gas this cost will be reduced to a minimum.

Does Oil commend itself to you as the best investment?
If it does send your order for stock.
If it does not, buy not.

I speak from a personal experience, having examined the property. I know all the directors and am convinced of their integrity, and several of them have also a personal knowledge of the property.

Have you $10,000 to invest for 20,000 shares of Capital Stock in the Boston & Texas? If you have not $50 will buy 100 shares. Will sell in lots of 100 shares or over, so that no one can honestly say I had no opportunity to invest.

If unable to pay the whole amount down will arrange to hold the stock and give you 30 to 60 days for the balance. Our property is open to investigation. We are not afraid of light. Have made this offer for 20 days. If not subscribed for by that date cannot promise that it will be any longer under offer.

Lung, Throat and Catarrhal Troubles

MARVELLOUS DISCOVERY THAT HAS DELIGHTED ALL CANADA BY ITS PROMPT CURES

The method that has proved successful through its enormous advantages of being pleasant and free from the danger of creating the drug habit employs dry air as the carrying agent.

By this method every part of the breathing apparatus is bathed by a medicated air. Germs which excite the trouble are immediately destroyed. Sore and tender spots are healed and the congested surfaces restored to normal condition.

This method of treatment is known as Catarrhozone, and has obtained a lasting power attained by any other remedy for the many diseases affecting the respiratory tract.

Catarrhozone is fragrant, healing, balsamic, pleasant as the air of the pine woods and more active as a healing agent than anything hitherto discovered. It contains neither cocaine nor any of those irritating substances which really increase the congestion and add to the difficulty, instead of curing as Catarrhozone so quickly does.

MRS. BINY BROWN, of Tenecape, N.S., had lung trouble and catarrh. She took cough mixtures but they made her sick. Then she used an atomizer, but after resorting without benefit to poultices and numerous other remedies, she tried Catarrhozone. "I used Catarrhozone Inhaler," she writes, "five minutes every hour, and soon recognized it was going to cure. I could feel the soothing medicated air spreading through the air passages of the throat, and it touched the sore spots in the lungs that other remedies failed to reach. Catarrhozone seemed to go just where it was needed most, and soon put a stop to my cough. It restored me to perfect health, and I am convinced that no cough, cold or catarrh can exist where Catarrhozone is used."

The complete Catarrhozone outfit contains a large bottle of inhalant, sufficient to keep recharging the inhaler for two months. It costs $1.00 and is guaranteed to cure; sample size, 25c. Sold by all druggists or sent direct to your home by mail if price in forwarded to N. C. Polson & Co., Kingston, Ont., or Hartford, Conn., U.S.A.

Gospel Meeting in Y.W.C.A.

The Y.W.C.A. gospel meeting held yesterday afternoon was of unusual interest. Different phases of the subject, "Spiritual growth and how to attain it" were discussed as follows —Power of example, by Miss Coleman, of St. Paul's; Power of influence, by Mrs. G. K. Martin, Murray street Baptist. The solo "In the secret of His Presence" rendered most effectively by Miss Effie Best. Quite a number of ladies were present, and all were deeply interested.

Accident to Mr. Gibb's Livery Barn

Too much snow on the roof of Mr. R. Gibbs' livery stables, caused it to crumb under the excessive weight on Saturday. Under this roof were six buggies and a two seated carriage, and all were badly damaged. They will all need new tops and shafts before they can be used again. One of the buggies belonged to Dr. Morgan. The damage is estimated at between $400 and $500. There is no insurance so Mr. Gibbs will be a heavy loser.

Death of Mr Thomas Wilson

Thomas Wilson, aged 84, died at the residence of his son, Robert Wilson, 214 Mark street, Fifth Ward, on Sunday afternoon. The funeral will take place from the residence of his son, 214 Mark street at 3 o'clock Monday afternoon, 20th, to Little Lake Cemetery. Mr. Wilson is survived by one son and four daughters. He had a great many friends, particularly among the oldest members of the community, who will regret to hear of his death.

Peterboro' Business College

larger this year than ever

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 90 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our correspondence course.

WM PRINGLE

Rev Mr Langfeldt's Experience

Yesterday the Rev. Mr. Langfeldt had a very unpleasant experience in his drive to St. Mark's church, Otonabee, where he preached in the afternoon. The roads were in a dreadful condition; the horse many times getting up to the shafts in water and slush. On one occasion, Mr. Langfeldt, to save himself, had to jump from the cutter up to his knees in water. It was with the greatest difficulty that he reached his destination. The trip home was a repetition of the trip going.

Blaze at Robinson's Livery Stopped

The fire bell called out the brigade about 4.30 Saturday afternoon, to extinguish an incipient fire at Doctor Fred Robinson's livery barn. The brigade, as usual, turned out promptly, and after a gallop down Simcoe street through slush and snow, which flew in all directions, found that a little was penetrating the insulation covering of the electric light wires, and causing the boards to which they were attached, to catch fire. The services of a Babcock fire extinguisher were called into operation, and in five minutes, all fear was over. No damage of any account was done.

Mr. Charles' St. Patrick's Dinner

Mr. Hughes Charles is an advocate of the celebration, in proper style, of St. Patrick's Day. This year he was the recipient of a box of genuine shamrock from the South of Ireland sent by friends on the old sod. As a fitting tribute to the day, he invited about twenty friends to dinner, and all responded with alacrity. The dinner was a most successful social and friendly event, and those present carried away a lasting impression of an enjoyable hospitality. The toast list, though short, was good, including toasts to the King, St. Patricks Day, Canada, and others in which sentiment commingled with fun. The party broke up at a late hour after a most pleasant evening.

Canon Dixon at St John's Church

There was a very large and representative gathering at both morning and evening services in St. John's church yesterday. Rev. Canon Dixon of Toronto, at the morning service, preached an eloquent and convincing sermon, taking Jonah as the subject of his address. The rev. gentleman held the attention of his audience spell bound. His contention that the story of Jonah should be taken literally, was backed by sound argument delivered in persuasive terms. He regretted that so few young men now enter the Ministry, and hoped that this paucity of candidates would soon be augmented, although he warned the young man that the Ministry was not the profession for the man after the almighty dollar, and that it entailed hard work and persistent application.

Toronto Officers at S. A. Barracks

Brigadier and Mrs. Howell, also Captain DeBow, of Toronto, arrived on the local Saturday night at 7.35, and went straight to the meeting in the S.A. Hall. The Brigadier and Capt. DeBow sang a duet; Mrs. Howell spoke, and the Brigadier played a fine concertina solo. These officers conducted meetings on Sunday at 11 a.m., 3 and 7 p.m. Brigadier Howell and Captain DeBow are good singers as well as speakers, and they sang a duet at each of the meetings. Mrs Howell is an able speaker, and gave an address in the afternoon. The Brigadier has a wide experience in Salvation Army work, having filled important positions from Halifax to Spokane, and is now at the head of the Immigration Department, at Toronto. The band played special music for the occasion. The extra interesting attraction filled the spacious hall to overflowing, and all present, both army members and the laity enjoyed the services immensely.

Obituary

Mrs. Donald Lillico, of Chester, Ont., aged 51, died last week from pneumonia. The late Mrs. Lillico was a daughter of the late Samuel Fry, of Cavan. She leaves a husband and three daughters—Misses Mary, Jessie and Bella, all residing at home. Mrs. John Whitting, of Chatham, Ont. Mrs. Joseph Foster and Mrs. Wm. Fowler, town, are sisters of Mr. Donald Lillico, the bereaved husband.

Another pioneer of Emily township passed away recently in the person of Mrs. E. Hogan at the residence of her son, Mr. J. J. Hogan, aged 86 years. She was born in County Cork, Ireland, in the year 1819, coming to America with her parents in 1823, and settling in Smithtown, near Peterborough, where she remained till she married George Winn, of the township of Emily. The husband died in 1845. She was afterwards united to Michael Hogan, who died after a long union of thirty-eight years leaving her a large family of whom among others, are Daniel, Robert and George, residing in Emily, William and John in Ops, also Mrs. Peter Murphy in Ops.

Lindsay Seems in Bad Shape

The Lindsay Evening Post, per one of the leading citizens of that burg, conveys the sad intelligence that there is not much doing there. The paper says; "Have you noticed lately the number of families that are leaving town? There are lots of vacant houses now. The main reason why these people are leaving town is that Lindsay has got nothing to hold them — no manufacturers or anything. If our Lead men don't hurry up and get some new industries to bring men to town pretty soon we shall go backward instead of forward. That Board of Trade ought to get a hustle on." Now Lindsay why not do the graceful and withdraw from an impossible competition with Peterborough. An amicable arrangement might be carried out whereby Peterborough would help pay freight on the industries you have, and move them to a live town like this! Of course some bonus might be given to compensate lovers of the truly beautiful, who would miss the scenery of Sougog river, and the feet of living in a town whose local papers don't have to bemoan its stagnation would add ten years to the lives of all your people.

—The 4th Y.M.C.A. Pop on Saturday night was a success.

When you want a life-like Portrait in Oil, Crayon, or Water Color, don't fail to come to B. Hudson's Studio, where the work and prices are always right. Gifts in Pictures, Frames and Fancy Work. Lessons in Painting and Pyrographic Work. Studio, 134 Brock street, Peterborough.

ORILLIA CHURCH BURNED

Destruction of English Church in Orillia Yesterday Morning.

Orillia, March 19.—St. James' church, of this town, of which Canon Green is the rector, was totally destroyed by fire this morning. The building was a very fine one, and cost about $20,000. The loss will be partly covered by insurance.

Local Incidents

BY THE TIMES MAN ON THE STREET.

—See the value for only $1.50 per thousand in business envelopes at Times Bookstore.

—The yearly confirmation classes in connection with St. John's church begin on Thursday.

—Number 340 1-2 Water street is the address of an experienced nurse having good references.

—Rev. Canon Dixon, of Toronto, was in town over Sunday, and will deliver an illustrated lecture in St. John's school house to-night.

—Messrs. Hughes Charles and John Belcher each received reminders of St. Patrick's Day from friends in Ireland in the shape of boxes of shamrocks

—The Intermediate O.H.A. Hockey Club were photographed Saturday afternoon by Mr. R.M. Roy, who expects to turn out a fine sample of group work.

—A special meeting of the County Orange Lodge of West Peterborough will be held in the Orange Hall, Peterborough to-morrow, March 21st, at eight o'clock p.m.

—People living near Victoria and Central parks e.m.l.in the, th.e.ow are sounding the reveile too early in the morning these days. There complaint is because, by cawa, seef

—Rev. Mr. Langfeldt held another German Conversation Class at St. Luke's Rectory, Saturday night. Gutterals, jaw-breakers flew apace. The rev. gentleman's pupils are making rapid progress.

—At the band concert on Friday evening next, March 24th, Mr. Gilbert Markle, will be the violin soloist, and will play the second and last movements of the military concerto, De Beriot.

—During the last few days of last week sand was sprinkled on the sidewalks on several streets. This enables the ordinary pedestrian to pass along without having recourse to the slang dictionary, or filling the air with sulphur fumes as he falls.

—Lindsay Post says; Peterborough teamsters have decided to demand from the town, and presumably from other employers as well, $3.50 per day for teams drawing a cubic yard and a half of gravel, sand, earth or stone every load.

—Ten o'clock, Saturday night, the brigade was called out to a fire, started by a live wire, over the new shoe-shining parlor on George street, across from the Times Bookstore. About ten minutes work did the business.

—Saturday's Globe says; Magistrate Denison yesterday issued a warrant for P. H. McGuire, who failed to appear in the police court to answer the charge of obtaining money by false pretences. The last heard of the accused was two weeks ago, when Mr. E. V. McBrady, K.C., appeared in court, and said that McGuire was in Lakefield. He was at that time quite ill.

Poor Market on Saturday

Wet weather, combined with bad roads caused a thin attendance at the market Saturday. There was less dressed meat on the market than usual, but prices showed no appreciable advance, pork selling for 8 and 9 cents, and beef at 5 and 6 cents. There were few apples at from 60 cents for russets to 90 cents for Northern spys. Potatoes were 70 and 75 cents. Butter was very scarce on the inside market and sold at 20 and 21 cents per pound. Eggs were a little cheaper and could be had for 17 cents per dozen. Chickens were all that were offered in the way of poultry and sold for 80 cents per pair.

AT HIGH WATER

The Flood Plays Many Pranks

Rev. William Alexander Smith, prominent as the author of many works on Oriental travel, has written an entertaining account of his experience in Kansas during the floods in 1903. He says;

"We lived a full mile from the nearest point of the Saline river but when the river overflowed it sent a flood clear into our dooryard and we had to go about in boats, many of our neighbors suffering sad experience both from loss of life and property.

"We—wife and myself—had an experience quite unique and thereby hangs a tale. My Wife for years past, and myself as well, had been annoyed pained and worried so greatly at times by dyspeptic trouble as to take much of the joy of living out of life.

"I had read Postum so liberally spoken of and we suffered so much from coffee that one day, some months ago, I decided to try some Postum for ourselves. We liked its aroma and taste so we were satisfied from the start and we quit coffee.

"Gradually my digestive organs have grown healthier and stronger, my sick headache left and we both could eat almost what we pleased without discomfort.

"But was this a result of the discontinuance of tea and coffee?

"The flood came and found us out of Postum and shut off from all supplies in the village for eight days. But we got hold of some left-over tea and a little coffee and this we used as long as it lasted. This was the only respect in which our meals were different from what we had been using but a change came over us. My wife thought I had more temper than grace while I, in my turn, thought—well, never mind, only she did not seem to appear to be the jolly creature she was before flood days. She said she did not rest well and that made her irritable and on my part I suffered pains in my digestive organs night and day that would have caused the meekest man 'to speak unadvisedly with his lips.'

"Well, the clouds cleared away, the flood abated, dry land appeared and we made ready to visit the grocery store and my wife suggested that we need more Postum. To tell the rest in a few words, when Postum came back the domestic atmosphere became more genial, in fact about normal. Our troubles and sick feelings disappeared and there can be no doubt they were due to tea and coffee for they quickly yielded when Postum was used in their place.

Look in each pkg. for the little book, "The Road to Wellville."

MILLIONS FOR A NEW STOMACH

One of the greatest American millionaires once said to his physician, "A million dollars, Doctor, for a new stomach," and then the sick man groaned and turned away. One of a man's greatest pleasures is that born of a keen appetite, vigorous digestion and a good dinner, and this belongs to many a good fellow who is living on small wages, but the rich man without a stomach has to forego the good things of the table because his stomach rebels. Without a healthy stomach and a good digestion, our blood is thin, watery and poor, our heart action is weak, our liver does not do its duty, and man is miserable and unhappy. In this condition man is prey to the germs of influenza, consumption, malaria and all the ills that he is heir to. Consumption can be treated by natural methods which are as close to nature as possible.

Dr. R. V. Pierce, chief consulting physician of the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., years ago understood this disease, and after a long period of experiment discovered certain roots and herbs which were named, combined, and succeeded in putting them up in a form that would be easily procured and ready to use. This he called Dr. Pierce's Golden Medical Discovery. It gives no false stimulation because it contains no alcohol and no narcotic. It helps digestion and the assimilation of such elements in the food as are required for the blood. Instead of a cod liver oil, against which the already sensitive stomach will declare open rebellion, this tonic has a pacifying action upon the sensitive stomach and gives to the blood the food elements the tissues require. It maintains the patient's nutrition by enabling him to eat, retain, digest and assimilate nutritious food. It overcomes gastric irritability and symptoms of indigestion, and in this way fever, night-sweats, headaches, etc., are done away with. It fortifies the body against the germs of consumption, grip and malaria, and it builds up the tissues and puts on healthy flesh.

When the druggist says he has something that is "just as good" as Dr. Pierce's Golden Medical Discovery, he says so because he hopes to make a better profit, but his own mixtures have not stood the test of long experience nor had the success that Dr. Pierce's medicines have had.

Personal and Social

Movements of the people in and out of town . . . .

—County Councillor Shaw, of Lakehurst, was in town Saturday.

—Rev. W. J. Jolliffe preached educational sermons yesterday in Omemee.

—Mrs. Harry Price, of Bonnevain, Man., is visiting in Peterborough.

—Belleville Intelligencer.

—Miss Addie Armstrong, left on Saturday to enter on a three years' course of training in the Jackson Sanatarium, New York.

—The Port Hope Guide says; Mr. R. Gillies was called to Peterborough yesterday on account of the death of his only brother, Mr. Thomas Gillies.

—The many friends of Mrs. Botsford, of Toronto, nee Miss Mabel Routley, will be glad to learn that she has recovered from an attack of tonsilitis

—Miss Estelle Foy, of the Peterborough Conservatory of Music staff, will give a Kindergarten demonstration in the Y.M.C.A. Hall on Wednesday evening, March 22nd.

The many friends of Mr. George V. Clementi, who as noted some time ago in this journal, had been ill in St. Anthony's Hospital, Oklahoma City, O.T., will regret to hear that he was, after leaving the hospital, suffered a relapse, and is compelled to return to it again.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at [illegible] the land to be taken is situate, or if the homesteader desires, by mail, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

1] At least six months' residence upon and cultivation of the land in each year during the term of three years.

2] If the father (or mother, if the father is deceased), or any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

[3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same town, township, or an adjoining or corresponding township.

A settler who avails himself of the provisions of [illegible] [2], [3] or [4] must cultivate 20 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Offices in Winnipeg, or at any Dominion Lands Office in Manitoba or the North-west Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Land Agents in Manitoba or the North-west Territories.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

IT PAYS TO PAY FOR THE BEST IN FURS . . .

ESPECIALLY so now, during our great Reduction Alteration Sale During this month of March the order of the day is—FURS MUST MARCH! The season is late. Work will commence shortly at the alterations in our store and factory. We must now clear stock out.

Buying direct from trappers and foreign raw fur collectors for spot cash prices, manufacturing these furs in our factory, every article carefully put together by expert furriers, and the direct supervision of the whole by two practical furriers who own this business, means to our patrons absolute protection as to quality and price that no other firm in Canada can surpass. All our Furs are not only guaranteed, but we have reduced their cost to you by saving all go-between profits with which most furs are burdened, and now during this sale.

You can get furs at less than wholesale cost to clear stock out immediately.

BEST ADVERTISING MEDIUM IN EASTERN ONTARIO

VOL XXXIII NO 67 PETERBOROUGH ONTARIO, TUESDAY MARCH 21 1905 PRICE TWO CENTS

FIFTY PERSONS BLOWN TO PIECES IN BROCKTON, MASS

Twenty-Five Bodies Already Recovered in an Awful Catastrophe in R. B. Grover's Shoe Factory—200 Lives Reported Lost.

Brockton, Mass, March 21.—At noon yesterday, City Fire Marshal Boyden issued a statement saying that reports made to him up to that hour indicated that the number of dead might reach 50.

Lists of the employes in the different departments of the factory, have been posted at the fire station, and calls have been sent out for every person who escaped to indicate the fact on the list. In this way it is hoped a fairly accurate estimate of the number of dead may be obtained.

Brockton, Mass., March 21.—Within an hour after the six hundred or more employes at the R. B. Grover shoe factory had begun work today a boiler blew up in the factory engine room, wrecking a section of this building and starting a fire which destroyed the ruins and to other buildings near by. Owing to the nature of the accident, and the speed with which the flames seized upon the section which fell after the explosion, and the excitement, any accurate estimate of the loss of life was impossible. It was understood that upwards of two hundred persons were at work in the departments near the boiler room, and the first indications were that hardly one could have escaped. Later, however, it was learned that about fifty were unaccounted for, and it was believed that many of this number might be dead or injured.

ROJESTVENESKY'S TERRIBLE PERIL

Russian Baltic Fleet Must Fly or Fight

NO CHANCE TO ESCAPE

Either Cowardly Retreat or Face Japanese Squadron

London, March 21.—Probably we may accept as true the announcement, which reaches us from two sources, that a Japanese squadron of some twenty ships is off Singapore. That is where we should expect them to be if they had come down the Asiatic coast, without hurrying, from the time when they were reported south of Hong Kong. They are now in a position to intercept Rojestvensky if he comes through the Straits of Malacca, or which Singapore stands at the outlet. They are also in a position to intercept him if he steams through the Straits of Sunda at the eastern end of Sumatra, and between it and Java, since it is to be presumed that they will receive timely notice of his movements by the east of their await mouth, and it is certain that the speed of the Russian squadron is that of the slowest Russian ship.

It is of course not certain that the Japanese squadron will stay at the place from which it is reported for the Russian admiral to come out onto the Pacific. His original destination, Port Arthur, is now in the hands of the enemy, and to make for Vladivostok, past Japan, would be a fairly direct form of suicide. The path of safety would undoubtedly be to return to Aden. The Suez Canal, if it could be reached without a battle, would be an asylum for the Russian vessels. The run from Madagascar to Aden is only about 2,000 miles, and the chance of Japanese interception does not seem to be great. But of course such retreat would be a confession of failure. If the "third squadron" amounted to anything as a fighting force, Rojestvensky must await it, and, in conjunction with it, have a fighting chance with his gunners, and at worst perish gloriously. But there is no reason to believe that the third squadron is anything but a collection of precariously floating junk. The best of the Russian ships were in Far Eastern waters a year ago, and are now at the bottom of those waters. All that was left of any fighting value Rojestvensky has with him. For that reason the sacrifice of his ships, on the chance of disabling some of the Japanese ships, would do Russia no good. On the other hand, a return to Europe would be ignominious and ridiculous. Admiral Rojestvensky is a subject for profound commiseration. A Japanese admiral in his place would probably choose hara-kiri as the most dignified way out of his troubles. A sailor of any other navy who was particularly sensitive to ridicule would probably, in the absence of express orders, make for the Japanese squadron and sell his ships and the lives of his crews as dearly as possible. But there does not seem to be any contingency in which the unfortunate admiral can render any substantial service to his country.

18 MILLS ON THE DOLLAR

Committee of Whole Council Consider the Estimates and Strike Rate of 18 Mills

As noted in our issue of Saturday, the Council sitting in Committee of the Whole, on Friday night, considered the estimates furnished by Ald. F. E. Mason, Chairman of Finance Committee, and on that basis struck a rate of 18 mills on the dollar for the year. As full information was impossible to be obtained for Saturday's issue, we could only give the important detail of the rate fixed. Those living in the business portion of the town, and enjoy the benefits of street watering, will have to pay one half mill additional. The present Council are to be congratulated in hauling down last year's rate half a mill. The estimates are: Administration of Justice is $7,200, and the rate for that purpose is 1.37; the town requires $437.78, the rate being 7.56 mills; public schools require $24,000, on which the rate will be 4.60 mills. The estimate for the Separate schools has not yet been received, but last year's rate for this purpose was 6.66 mills and it is not thought that it will be largely increased. The Collegiate Institute requires $9,000, the rate being 1.55; Town Trust Commissioners for town debentures, $6,164.42, rate 1.44; for Public school debentures $3,376.13, rate .67; town's share local improvements $3,791.66, rate .67. Assuming that the demand for Separate schools will bear the same proportion as Public schools, this rate will be reduced from 19 1-2 to 18 mills.

The estimated revenue of the town amounts to $15,132. The licenses from the Commissioners produces $4,400, from other sources $1,250, the police court, $950. A surplus from last year amounted to $4,472, and miscellaneous items go to make the total. Following is a statement of the estimated expenditure provided for by general rate;—

Assessment and taxes	$2,100
Charity	2,100
Chairman's expenses	100
Dog tax	35
Elections and by-laws	250
Fire department	6,500
An increase of $500 over last year.	
Heating	800
Health	1,200
Insurance	125
Interest	600
Law	1,400
Light	7,550
Market	100
Miscellaneous	1,300
Municipal Government	2,800
Parks	100
Property	1,000
Printing and stationery	700
Refunds	100
Streets and bridges	13,000
An increase of $2,000 over last year.	
Snow ploughing, shovelling	1,525
Special grants	2,800
Sewer maintenance	200
Sidewalk maintenance	100
Voters' lists	250
Water Commissioners	7,625
Losses on taxes	3,450
	$57,910

The general debenture debt of the town amounts to $657,156.65 which is made up as follows.—

Public schools	$61,900.00
Waterworks	262,000.00
Town's share in connection local improvement	45,956 81
Frontage portion	93,099.84
General, for all purposes	195,200.00

Ald. Johnston presented some detailed information with reference to the construction of a new fire hall. The majority of the committee are in favor of the construction of a new hall, and last evening the matter was again referred back to the committee with instructions to secure further details.

DO NOT SEEM TO LIKE IT

FRENCH-CANADIAN LAMB WILL BE SACRIFICED

Le Nationaliste Announces That Sir Wilfrid Laurier Has Completely Backed Down on the Autonomy Bills and Comments on the Situation

Montreal, March 20.—Le Nationaliste says today that Sir Wilfrid Laurier has completely backed down and that the victory remains with Mr. Bourassa and the race. It adds:

"Poor Laurier. His authority seems to count for nothing now, as the amendments will bear no resemblance to the bill introduced by Sir Wilfrid with such a flourish of trumpets. The Government will, of course, put their best front forth, but the French-Canadian lamb will be sacrificed all the same."

Le Nationaliste says, however, that the half measure embraced in the amendments will satisfy neither party, for the Orangemen of the west will still consider them excessive while the Catholics will not be satisfied.

Mr. Asselin's paper pretends that this shameful back-down has been imposed upon Sir Wilfrid by the fanaticism of his colleagues and the cowardice of his followers. "This is what has ruined a great many public men, besides being the cause of many political crimes."

AGAINST A COMPROMISE

Former Peterborough Pastor on Separate Schools

Rev. M. L. Pearson, Toronto, formerly pastor of the George street Methodist church, is out strong against Separate schools. In speaking of the Separate school clause in the Autonomy Bill, he says that it is not a matter so much of Roman Catholic [illegible] but a question of Provincial liberty. On a former occasion when the same question had agitated the public mind in Canada, he had not been so much excited over it as many others, and had not been so strong in denunciation of certain persons. But he had never been able to get over the idea that there had been a deep underlying scheme to make certain surrenders for the present, with a view to ultimate victory. But there must, he reiterated, be no compromise now. The time was coming in in Ontario when Separate schools would be done away with. The people would not stand for their continuation. The indications were that the hierarchy as represented in this country was not wise enough to keep its hands off cherished institutions. The men who were expelled from France, Germany and other countries were coming here and acting in such a way that the people would eventually rise up and demand that there should be no schools but such as those in the United States, namely, National schools. All attempts to reach such a compromise in the present crisis should be defeated and the battle fought out now to the very end.

HOSTILITIES WITH THE MAD MULLAH WILL NOW CEASE.

Special to The Times

Rome, March 21.—In concluding peace with Great Britain through the mediation of Italy, the Mad Mullah has obtained permission definitely to occupy Illig, a village on Italian territory 160 miles from Obbia, which was the base of operations in the last campaign led by General Manning. Coast rights are granted the Mullah, qualified by a prohibition of trade in arms and slaves.

FRENCH GOVERNMENT SEND WARSHIPS TO VENEZUELA.

Special to The Times

Washington, March 21.—The French cable complications have reached a crisis, and U.S. Minister Bowen has informed the State Department that the French Minister at Caracas, by instructions of his Government, has notified the Venezuelan Government that there must be no further proceedings on its part toward the cancellation of the company's franchise, or interference with its property. Further, Mr. Bowen reports that two French warships have been ordered post-haste to Venezuela, to act in accordance with the instructions of the French Minister. These are the Jurid de la Gravier and the Lupleix, now in the Carribean Sea.

PREMIER PARENT HAS PUT IN RESIGNATION.

Premier of Quebec Reported on Good Authority to Have Placed it in the Hands of the Lieut-Governor.

Special to The Times

Quebec, March 21.—There is the best of authority for the statement that Premier Parent's resignation is already in the Lieutenant-Governor's hands, and that it will be formally announced to the Legislature either to-day or to-morrow.

All the stories set afloat about his having his foes now at his mercy and having public opinion here and a majority of the House with him are entirely unfounded, and emanate only from those who are interested in the perpetuation of the present strife among the Liberals over Mr. Parent, and in creating what might be an irreparable split in the Liberal ranks should his further clinging to office force his opponents to a vote in order to compel his resignation.

BRITAIN'S FLEET LEADS

BUT MIGHT COPY VESSELS BUILT FOR ITALY AND GERMANY

Lord Brassey Lectures on Naval Engineering—Vessels Become Obsolete Rapidly—Future Construction Should Receive Careful Attention

New York, March 21.—A special cable to the New York Herald from London today says: Lord Brassey, in the course of a lecture at the Institution of Civil Engineers on naval ship-building, said that the latest official statistics showed that England held a commanding position in the numerical strength of her fleet, but the rapidity with which vessels became obsolete made it imperative that the designs and principles of construction of future vessels should receive very careful attention.

Lord Brassey thought they should carefully watch the work in progress for foreign navies, and he instanced four vessels of the Vittorio Emanuel type now building for the Italian navy.

ENGLAND ALWAYS LEADS THE WAY.

In the growth of dimensions England has always led the way, he said, and in the hands of her skillful navy architects growing dimensions had given more than a proportionate gain to fighting efficiency, but on the other side various arguments could be advanced. In naval battles numbers must tell, and if the units were less costly more of them could be built. Increase of size gave no immunity from the dangers of darkness, nor from the ram or torpedo, or submarine mines. Conning towers could give no protection to commanders.

MIGHT COPY ITALY AND GERMANY.

Lord Brassey was of opinion that it should not be difficult to design a high-speed vessel of the torpedo-boat destroyer class, heavily armored and armed with torpedo tubes and with a heavy gun in the bow. Many of these could be built for the cost of one battleship, and they might do more than heavy ships to decide the issue of a hard-fought day. He also suggested that some British battleships might with advantage be similar to those now being built for Italy and Germany, with a displacement of about thirteen thousand tons.

THE CANADIAN WIRELESS STATIONS

Government Has Authorized Company to Begin Operations at Once

The Marconi Wireless Telegraph Company of Canada is making the final preparations for starting its construction force to work building the new stations contracted for by the Canadian Government along the Gulf of St. Lawrence. One of these stations will be erected on the coast of Labrador at Whittle Rocks, and the second will be located at Point Rich, in Newfoundland.

It is the opinion of the Government officials that these two stations will, in conjunction with the stations previously established, afford every facility for the absolute safety of all shipping interests along the St. Lawrence route. It should be recalled in this connection that the older stations have so completely proved their worth that their capacity, in many instances, is to be greatly increased. They can then handle, without delay of any kind, all the commercial messages which may be sent through them in addition to the routine or Government work which must be taken care of with all dispatch.

The completion of the service in the St. Lawrence Gulf will leave the Company free to continue the development of the service by the establishment of stations further inland and at central points until the entire needs of the country are met.

Police Court

OFFICIALS

Chief of Police, G.I. Read
Magistrate, D.W. Dumble

There was peace and quietness in the Court yesterday. Nothing doing!

There is more than possibility that a certain painter in town may, before the robins nest again, face his worship on a charge of disorderly conduct. This worker of the brush rented a shop recently from a gentleman in business here, said shop to be used as a paint shop: but the artistic manipulator of turps and colors has an eye for the female form divine, and the landlord objected to the shop being used at such late hours to entertain his lady friends in. Yesterday the landlord asked for the keys. These keys were, in all innocence, handed over, the painter thinking it being only wanted temporarily. When in possession of the keys, the owner of the property told Michael Angelo Don Juan that he could not have the shop longer. An altercation followed, in which it is said the painter used language that was far, very far, from parliamentary or polite. The landlord took his former tenant carefully and gingerly by the coat collar and west end of his nether garments and transferred him to the pavement. Don Juan returned to finish his arguments, and by the second time he was deposited on the pavement concluded it was time for the house to adjourn. A Police Court case may be the outcome.

The Chief has in his possession a counterfeit five dollar bill, and would be pleased if the artist who made it would kindly call at headquarters. The description of said bill is in another column.

OLD SETTLER GONE.

Mr. Wm. Fitzgerald, of Otonabee, Died Yesterday Morning

A gentleman well known to, and beloved by many people, both in town and in the township of Otonabee, in the person of Mr. William Fitzgerald passed away yesterday morning at the residence of his son Edward, lot 30, concession 8, Otonabee. The deceased was 89 years old, and had been ill for about a year.

The deceased was born in County Limerick, Ireland, in 1816, and in 1847 came to Canada. He lived in Peterborough for eight years, being employed with Mr. Thos. Chambers, and afterwards moved to Otonabee, where he has since resided, an honored and respected gentleman. His wife died 17 years ago, since which time he has lived with his son. He leaves eight sons to mourn his loss; Patrick, John, Edward, Michael, Thomas, Otonabee; Maurice and William, Indian River, and Francis, of Peterborough; James Joseph, another son, died some years ago.

The late Mr. Fitzgerald was a member of Father Matthew's Total Abstainers.

The funeral will take place on Wednesday morning at 8.30 to St. Peter's Cathedral and the Roman Catholic Cemetery.

OPERATIONS BEGUN

Peterborough Shovel and Tool Company Have Begun Practical Operations by Ordering a Rolling Mill.

Yesterday was a red-letter day in the Peterborough Shovel and Tool Company's history. At a meeting held yesterday morning the Board of Directors placed an order with the William Hamilton Manufacturing Company, for a large and latest designed rolling mill. This important part of the new company's plant is to be pushed ahead as rapidly as possible, and it is expected it will be completed in the near future. The Board authorized the erection of a new storehouse, and the large building in which the handles will be made. Plans and specifications for this work are being prepared. The company will strain every nerve to rush on all work to completion as quickly as possible, as the remainder of their machinery has arrived. It is quite possible that the company may be in shape to begin manufacturing their goods early in May.

A meeting of the shareholders has been called for April 3rd to authorize the increasing of the paid-up capital stock from $40,000 to $50,000.

The position of general manager of the Company was considered by the Board, and was offered to a Peterborough man, who has the matter under consideration, and an announcement will probably be made in the near future.

SEPARATE SCHOOLS WITH PUBLIC SCHOOL STANDARD

Compromise on Autonomy Bill Provides That Public Grants to Separate Schools Shall Depend on the Text Books, Teachers' Qualifications, and Inspection Equalling Public School Standard.

The following is taken from the Toronto Star;—

Ottawa, March 2.—The Cabinet held a Council meeting on Saturday, which lasted from eleven o'clock in the morning till six at night, and finally settled the school question arising out of the Autonomy bill. The compromise is one that guards the rights of the minority without giving them excessive privileges, while, at the same time, it eases the consciences of those who took their stand on the unfettered freedom of the new Provinces to govern themselves. The compromise is such as can be supported by Mr. Sifton, the Western members, the Quebec Liberals, and Sir Wilfrid Laurier's following in Ontario and the Maritime Provinces. It gives the North-West the system of Separate schools which has existed there for North-west the system of Separate schools which, in regard to text books, qualifications of teachers, and Government inspection, must measure up to the standard of Public schools before they can receive grants from the public funds.

SIGH OF RELIEF.

Everybody breathes a sigh of relief now that the crisis is over. A compromise that Mr. Sifton can vote for will save the faces of nearly all the members of the Liberal party. It leaves the Opposition questing for a ground of attack, and the "Sifrouleistes" in a position of unreasonable hostility. The Roman Catholic Conservative members from Quebec are deploring a lost opportunity. Obviously it was their cue when Sir Wilfrid introduced the bill to declare themselves in favor of the educational clauses and compliment the Premier on having at long last acted as a good Catholic might be expected to do. Any modification of the clause they could have refused to accept, and perhaps have made some political capital out of Sir Wilfrid's backdown, but the chance has passed, and another example of the lack of alert leadership in the Conservative party is furnished.

DEPENDED ON HIM.

Great satisfaction at the settlement is expressed by the western members, who looked on the crisis as more particularly their own. Mr. Greenway is well pleased at the result of the negotiations. He has a record on the question of Separate schools which was in danger. On him has been imposed the main burden of the pourparlers between the western members and Mr. Sifton, and also between the western members and the Government. There was a double object to accomplish.—first to get Mr. Sifton into the same boat with the western members, and then to get the Premier and his colleagues to pull with Mr. Sifton and the western members. It was a delicate, difficult and intricate embassage, but Mr. Greenway displayed great gifts as a diplomat, and likewise great patience and perseverance. His sparing speech and his stolid manner may have had something to do with it, for when a man gives his ultimatum and wraps himself in silence, the only thing that remains is for the other fellow to come to him. Mr. Greenway is, no doubt, thankful that his anxious two weeks are over, and that the last cloud that lowered on the horizon has disappeared.

ALL A MISTAKE.

What a great fire a little matter kindleth. Mr. Fitzpatrick has given his word that clause three was intended to give the minority only what they had already enjoyed for three decades. As Mr. Haultain says, it was unfortunate that the clause should convey so much more than was meant. The mistake seems to have been in mentioning the school fund so explicitly. Certainly the western members were aware that the Separate schools of the North-west had been receiving grants from this fund for years. They did not receive the money, perhaps, as Separate schools, but rather as schools which had in all respects complied with the Government standards of efficiency, and so were entitled to share with the others. The fact remains, however, that Separate schools were partaking of the fund, and that the West itself did not complain of a condition of affairs which could show for its fruit in 30 years eleven hundred Public schools and fourteen Separate schools.

COUNTERFEITS IN TOWN

Bogus $5 Bills are Being Circulated in Peterborough

It would be wise for all citizens to look through the first roll of bank bills they find, as there is, or has lately been, some one unloading counterfeits of the series D. Bank of Montreal bills in Peterborough. The bill is a rank poor counterfeit, and a child with quick eyesight and wits could detect it. It is dated January 2nd, 1896, and, unfortunately, there are many good bills of this bank, and the same issue and series current in town. The paper is not bad and could easily deceive anyone not looking for bogus bills, but the workmanship is badly executed. The portrait of Sir Donald Smith, is very poorly done, and the etching about his picture, in particular, is slovenly and carelessly applied. On the reverse side the picture of the Bank of Montreal in Montreal, also is palpably a counterfeit and slovenly. The whole bill is evidently a wood cut, but still any one, off guard, might take it in a hurry. The counterfeit now in possession of Chief Read was deposited in the Ontario Bank by Mr. W. C. Forman, a George street grocer. When the Bank discovered the the bogus the Chief traced it through the merchant to a woman who had spent it with him. The woman claims that her husband got it, on Saturday, with his wages from a leading manufacturing establishment; they in town claimed to have got it from the Bank of Ontario. However, the Chief has it in hand, so there is every probability that there will be some interesting developments before long. Another of the same counterfeit series on the same bank and denomination was passed Saturday on a Hunter street Hotel.

Just watch out for $5 Bank of Montreal bills, series D, January 2nd, 1895, with poor workmanship and bad color.

GENERAL SPORTING GOSSIP

HOCKEY—THE TURF—BASEBALL—LACROSSE

BASEBALL.

Last night a well attended organization meeting of the Peterborough Baseball Club, was held in the Oriental Hotel. Many matters of interest to this clean branch of sport, were brought before the meeting. Judging by the enthusiasm of those present, Peterborough will this year have a club, and baseball games that will be in every respect of greatest credit to the town. Before anything definite will be done, in the way of program for this season, there will be a meeting of the Midland League.

The club will try to arrange with the Peterborough Turf Club, for the use of their grounds for practice and a series of matches. Among those present were,—M. J. Hutchinson, A. A. Hollingshead, M. Connors, A. Gillespie, R. Gibbs, Mr. McWilliams, K. Bellegham, C. Scott, J. Sheridan, S. Hutchinson, H. Morgan, J. Cookson, T. Glover, R. McKeown, R. E. Layfield, J. Hamilton, C. Graham, H. Clegg.

Following were the officers elected;—

President—R. E. Layfield.
Vice-Pres.—J. W. Kelly.
Secretary—T. Glover.
Treasurer—M. J. Hutchinson.
Board of Directors—M. Connors, C. Scott, C. Graham, Mr. Olle, Manager R. P. McKeown.

Berlin to Play Senior O.H.A.

One thing is apparent — Berlin should be in senior instead of intermediate company. After the game the St. Georges freely expressed that opinion. They said Berlin could hold its own with any of the senior teams and had no license to play intermediate. If Berlin should be in the senior ranks naturally the Victoria Harbor team should too. Next season these teams, Stratford, Galt, and several other Western Ontario teams should go into the senior series.

Pension Falls won the T.V.L. championship last night defeating Cobourg on Lindsay ice by a score of 11 to 2.

St. John's Guild defeated All Saints' by 8 to 0 in a game last night.

HYPNOSIS FOR RHEUMATISM

Chicago University Professors Hear of Trend of the Treatment

Chicago, March 21.—Hypnotism as a cure for rheumatism has been brought to the attention of University of Chicago medical professors by the demonstrations of Otto W. Greenberg, a young medical student, who says he is able to cure the most chronic case of the ailment by hypnotic power. Greenberg's theory led a trial in a physiology class conducted by Prof. Anton J. Carlson.

A helpless cripple from the Home for Incurables was brought to the class room on a stretcher and put into the hypnotic state by Greenberg. Then the patient was told he was able to move his lower limbs, a feat which he had not accomplished for a long time.

Royal Baking Powder

45 CENTS a pound can (AT ALL GROCERS

25 cents a half pound can

Royal Baking Powder is made from pure grape cream of tartar, and is absolutely pure.

Royal Baking Powder assures wholesome food; it makes the best biscuits, cakes and all hot-breads; it protects the family from the danger of alum and other injurious substitutes.

Royal Baking Powder saves time, saves butter, flour and eggs; saves health.

U. S. Colonel Cured of Rheumatism

So Crippled He Couldn't Walk—Absolutely Helpless Till He Took the One Sure Cure.

FERROZONE

elieved at Once—Cured Permanently—Well Ever Since

Colonel H. M. Huss, of Edwards, St. Lawrence county, N.Y., is one of the fine old heroes of the Civil war.

"I couldn't get around without a cane, and then only with difficulty.

"Rheumatism took complete control of my limbs.

"The suffering was more intense than the hardships on the battlefield.

"I had tried doctors and medicine, but got no relief.

"Then came a quick change.

"Ferrozone gave me comfort at once, eased the pain and took the stiffness out of my muscles.

"I am well to-day. Ferrozone cured me completely. I can jump and run like I did forty years ago."

No matter how long you have suffered Ferrozone will bring you prompt relief. It will increase your strength, renew your vitality, drive out every trace of rheumatic pain. Never known to fail; 50c. per box, or 5 for $2.25, at all medicine dealers, or Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock. The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $4 per year, strictly in advance.

THE SETTLERS' KICK

Several times The Times has pointed out that, if Sir Wilfrid Laurier succeeds in fastening the Separate school business upon the people of the West, it will be bad for immigration, that the best people will not come to a country in which a church has the management of the educational institutions; in which church and state are mixed together. And now we find that twenty residents of the Buffalo Lake district, Alberta—settlers who came from the United States—have written a letter to the papers in which they express unalterable opposition to coercion. They say that one of the strongest inducements to come to Canada was the promise that they would have a system of self-government, similar to that of the States from whence they came.

This is a portion of the letter:

"Our central Government at Washington would as soon think of declaring war on another nation without cause as they would of committing such a coercion of State rights as proposed by our Ottawa Government." Elsewhere the settlers say: "In the different States that we came from, Roman Catholic children sat beside us in our Public schools, and nothing was ever heard in our State Legislature of an absurd Roman Catholic minority."

It is the Quebec hierarchy's game to keep these good settlers out of Canada, and save the country for its own peculiar kind.

ROME'S INFLUENCE AT OTTAWA

The Monetary Times, in speaking of the school clauses of the Autonomy Bills, says: "There are signs that the Church of Rome has had too much influence in the preparation of the irritating bills, and strong apprehensions have arisen lest Sir Wilfrid Laurier should endeavor to force them upon the country by means of his large majority, consisting largely of a solid Roman Catholic vote. Such a thing as this would be nothing short of a calamity. If persisted in the chances are that he and his government would be swept from power. It is significant of the strength of the existing feeling that so influential a paper as the Christian Guardian declares that "the very boldness of the attempt upon personal and social liberty . . . is enough to close the ranks and marshal the forces of the Protestantism of this Dominion as a unit, in defence of Provincial rights and Public schools, and in resistance to priestly intolerance and ecclesiastical domination in Alberta and Saskatchewan. And in the fight there is only one watchword possible for all who love personal and religious freedom, and that watchword is: No Compromise and No Surrender."

MR. HAULTAIN'S LETTER

When Sir Wilfrid Laurier sprung the Autonomy Bills upon the House of Commons, the people of Ontario wondered why the West was so silent, and it was understood that the Westerners were so fully occupied with the location of the Provincial capitals, and the formation of the new governments, that they had not time to look after such "minor" things as education and Separate schools. But Mr. Haultain's letter explained the whole business. He was at Ottawa. Premier of the North-West Territories and official head of the North-West delegation—entitled by virtue of his position to know all that was being done in respect of the establishment of the new Provinces.

And yet Mr. Haultain tells us that he was entirely unaware of the school provisions in the Autonomy Bills until noon of the day upon which Sir Wilfrid Laurier introduced the bills!

Neither Mr. Haultain nor the people of his Territories ever dreamed that the bills were to contain any such clauses. They were taken completely by surprise, and it was some days before the Western people began to understand the solution. Since that there has been no lack of protest from the people most concerned.

A DEMORALIZED NAVY

The demoralization of the Russian navy has been illustrated in the actions at Port Arthur and the panicky manoeuvres of the Baltic fleet in the North Sea. But the late exhibition of the Black Sea fleet has caused a yet more painful sensation at St. Petersburg.

The admiral's verdict pronounced on his own fleet is crushing. He found that Russian naval officers were entirely without love for their profession or interest in their work. Incompetence prevailed throughout the fleet. When manoeuvring ships were unable to maintain their positions. The most appalling muddles occurred.

Sometimes, when the ships of the fleet were supposed to be in close formation, several would be found to be missing altogether, and cruisers had to be detached to search for them. The signals from the flagship were either not understood or probably disobeyed.

On the fifth day of the manoeuvres Admiral Tchoukin signalled to the effect to perform certain evolutions at a speed not to exceed ten knots. Most of the battleships were unable to keep up even this speed and could not be handled with sufficient dexterity to participate in fleet drill, which proved to be an utter fiasco.

The admiral concludes his report by saying that "if the Black Sea fleet ever has the misfortune to face the enemy it will be completely wiped out."

WHAT WAS ITS ORIGIN?

The Toronto News remarks of the Separate school clause in the Autonomy Bill: "The people of the new Provinces did not ask for it. The Minister of the Interior, the minister having special supervision over Western affairs, resigns rather than assume responsibility for the measure. The Minister of Finance was not consulted. The Premier of the Territories protests against it in the strongest language. What was its real origin? And it has no basis in the constitution, in justice, in common sense, in Western opinion anywhere, is it surprising that people attribute to it an ecclesiastical origin, and began to inquire into the complexion of the sub-committee of the Cabinet by which it was framed."

AN APSLEY PROTEST

Strong Resolution Against Separate Schools by L. O. L. No. 1072

At a largely attended meeting of Apsley L. O. L., No. 1072, held at Apsley on Monday, March 14th, 1905, the following resolution was passed unanimously:

WHEREAS, we believe in the Provinces having the right to control their own school system, subject to the right to appeal to the Federal Parliament, and

WHEREAS, we believe that Separate schools have a very strong tendency to divide the Canadian nation;

Be it resolved: That we, the members of Loyal Orange Lodge, No. 1072, respectfully protest against the proposed Legislation to force Separate schools on the new Provinces of Alberta and Saskatchewan.

Be it further resolved: That a copy of this resolution be forwarded to the Member of this Constituency, The Peterborough Times, and Orange Sentinel.

WM. JAMES, Master,
THOMAS LEVOIR, Rec. Sec.

THE NEW THEORY

Asbury Park, N.J., March 21.—The members and board of trustees of the First Methodist Episcopal Church at Bradley Beach, have applied Dr. Osler's theory regarding the age of usefulness, and have signed a petition protesting against the appointment as their pastor of Rev. J. E. Swan. Rev. Mr. Swan was instructed by Bishop Cranston, at the Methodist Conference, at Atlantic City, to occupy the pastorate. The church declares it will not accept a pastor who is more than thirty-five years old.

$500 REWARD $500

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

WHAT DO YOU DO WITH THE MONEY YOU SAVE?

Are you depositing it in bank? If so what interest are you receiving? we daresay. AND NOW COMES THE VITAL QUESTION. What is the banner doing with your money? The money you have placed with him for safe keeping. For answer read the official bank statement given below of the 1st National bank of ———. It may be seen at our office as any time. It is as follows:

RESOURCES		LIABILITIES	
Loans and discounts	$305,190 51	CAPITAL STOCK PAID IN	$ 75,000 00
Overdrafts, secured and unsecured	258 29	Surplus fund	60,000 00
U. S. Bonds to secure circulation	50,000 00	Undivided profit, less expenses and taxes paid	3,161 83
STOCKS, SECURITIES, ETC.	200,000 00	National Bank Notes outstanding	47,000 00
Banking-house, furniture and fixtures	12,000 00	Due to other National Banks	4,200 65
Due from National Banks (not reserve agents)	1,205 25	Due to Trust Companies and saving Banks	64 16
Due from approved reserve agents	12,811 48	Due to approved reserved agents	7 260 71
Checks and other cash items	1,830 31	Dividends unpaid	4,764 00
Notes of other National Banks	3,150 00	Individual deposits subject to check	346 373 08
Fractional paper currency, nickels and cents	200 50	Cashiers checks outstanding	205 50
Lawful money reserve in bank, viz—Specie	$46,819 00		
Legal tender notes	11,000 00	57 819 00	
Due from U.S. Treasury, other than 5 per cent. redemption fund		1,500 00	
		$720,330 33	$720,330 33

Pay particular attention to the items printed in bold type. They tell you an interesting story. They show a capitalization of $75,000. They show that over four times the amount of the authorized capital of the bank or $300,000 has been and is now invested in stocks.

PONDER OVER THIS STATEMENT If you are a bank depositor doesn't it make you think? It should! Who reaps the benefit of these investments of YOUR MONEY? Do you get it? Not if the bank knows itself. You get your little 3 or 3 1-2 per cent and the bank gets the rest. Why cannot you

INVEST YOUR OWN MONEY

Your opportunities for ascertaining the value of your investments are just as good as that of your banker. Why do you not utilize these facilities for your own profit? You owe it to yourself and your family and to the world to assert your RIGHTS AND PRIVILEGES. If you have money lend it yourself on the gilt EDGE SECURITY, or BUY the BEST stock, your ambition to become your own business manager. Profit by your mistakes and GET WISE.

If you desire information regarding your investments write to us. If you have a gas investment that is ABSOLUTELY SAFE and which will return BIG PERMANENT DIVIDENDS to you instead of your banker,

Write to us at Once. Keep Your Capital in Action.

That is the only way to make MONEY GROW. We will advise you and we will not charge an exorbitant fee for so doing. WE CAN HELP YOU AND WE WILL.

FORTUNES ARE BEING MADE IN KANSAS OIL

Here's a fortune for you. Not 10% but 100% and no risk of loss. Giant of the Oil Fields.

The Midland Oil and Gas Company

has over 160 acres of oil land and has put down 10 wells, so the land is proved up. An adjoining additional 80 was secured yesterday, making over 260 acres all in the proven belt. Just read this:

The U. S. report on the oil industry places the average daily production of Pennsylvania wells at only one-half a barrel each per day. The Midland wells are pumping

Sixty Barrels a Day Each.

The pumping plant has just been started and this is the surprising result. Nothing like it in the world. The officers and directors of this company are bank men and do not believe in debts, so the company is free from debt. They have nearly $20,000 in cash and bills receivable in the treasury and everything paid for—property, wells, pumping plant, oil tanks, well cleaning machine and everything connected with the company. Have two drilling rigs working night and day sinking wells. Have abundance of gas, which runs the drills and pumping plant, so it only costs about $5.00 a day to produce and market the oil.

The Company has about 33 per cent of its stock in the treasury as a reserve.

For a short time the Company will sell a little more of its stock at only

7½ CTS. A SHARE

Buy all you can raise money to pay for.

We could talk all day about it and not cover all the strong points. But as the company has this grand property paid for, there is only one side to it, and that is profit. Don't buy stock in a company that tells you what they will do, but buy in this company, that has proved its property, and every dollar you put in makes it better. Send for particulars or mail check to

JAMES HANCOCK & CO.

YOU CAN'T CALL. CUT THIS OUT AND MAIL

From the Kansas City Journal, Feb. 26, 1905.

There is perhaps no people in the same amount of territory in the world who have increased in wealth so rapidly. Everybody is prosperous. Many once poor and hard working families have become immensely wealthy.

Hudge Hale, an old Frisco conductor, has become a millionaire off of oil. He got in the game early. Now he has money as well as oil and gas to burn.

Fred Hetrick, a farmer living near Chanute, had a hard time for years making both ends meet. Life was a hard proposition with him. His royalties now reach $1,000 a month and he is living on easy street.

Joe Heim, of the Kansas City brewery, took a flyer in oil leases. He first put in $500 and refused $10,000 for his investment. Later he put in a lot more money in gas and oil lands and is now figuring high.

George E. Work, the Chicago clothier, took some acres of land near Chanute for a debt a customer owed him. Work's partner refused to stand for the deal, so Work kept the land himself. He has since refused $50,000 for his holdings.

These are a few samples. Hundreds of farmers have become independently rich off their oil royalties, and hundreds of other men have made big money producing oil.

This Kansas oil bearing sand is like the Pennsylvania sand; wells will produce oil for fifty years.

Can give bank references, and dozens from people who have personally examined this great property.

BLOOD DISEASES

If you inherited or contracted any Blood Disease you are never safe unless the virus or poison has been eradicated from the system. At times you see alarming symptoms, but live in hopes no serious results will follow. Have you any of the following symptoms? Sore throat, ulcers on the tongue or in the mouth, hair falling out, aching pains, itchiness of the skin, sores or blotches on the body, eyes red and smart, dyspeptic stomach, sexual weakness—enlarged glands. Don't trust to luck. Don't ruin your system with the old fogy treatment—mercury, potash and patent medicines, which suppress the symptoms for a time only to break out again when happy in domestic life. Don't let quacks experiment on you. Our NEW METHOD TREATMENT is guaranteed to cure you. OUR GUARANTEES ARE BACKED BY BANK BONDS that the Blood or Skin disease will never return. Thousands of patients have been already cured by our NEW METHOD TREATMENT for over 20 years, and no return of the disease. No experiment, no risk—not a "patch up," but a positive cure. The worst cases solicited.

W. H. PATTERSON NO NAMES USED WITHOUT WRITTEN CONSENT. W. H. PATTERSON

HAD BLOOD POISON 12 YEARS

The New Method Treatment Cured Him after Drugs, Mercury, Hot Springs, &c. all failed.

Before Treatment

After Treatment

Wm. H. Patterson, of Saginaw, Mich., relates his experience: "I do not like notoriety and especially of this kind, but I feel I owe this much to Dr. Kennedy & Kergan for the great good they have done me. I had been afflicted with a terrible blood disease when 24 years of age. The skin and blood specimens gradually developed. Pimples and ulcers formed, running sores broke out, hair became loose, pains in the bones and joints, dyspeptic stomach, foul breath, itchy skin, etc. It is needless for me to say I tried doctors. I grew to hate the looks of one. I visited Hot Springs twice for four months each time. It helped me temporarily, but in six months after returning home I was as bad as ever. Finally a Doctor friend of mine advised me to see Drs. Kennedy & Kergan. He said he had known of them for over 20 years, and as they made a specialty of these diseases and treated the worst cases by the hundred they ought to be expert in curing them. I was afraid of advertising doctors, but I took his advice. They agreed to treat me under a guarantee or no pay. I investigated their financial standing and found they were perfectly responsible, so I commenced the new method Treatment. The eruptions disappeared in two weeks, the bone pains in four weeks and in four months I was entirely cured. Yes, sir, I can recommend the New Method Treatment for Blood and Skin Diseases."

TO CANADIAN INVESTORS

Oregon-Idaho Gold Mining Co.

INCORPORATED

Capital $5,000,000. Shares $1.00 Each, Par Value, Fully Paid Up and Non-Assessable.

We have just secured the agency for the above splendid proposition, of which we have been allotted a block of Treasury stock. We can confidently recommend this as a safe and, we believe, exceedingly profitable investment. Every dollar of stock is guaranteed by twenty year, full paid, gold bond, delivered to purchaser of stock, from an Investment Company that has no interest whatever in the company, but who are disposing of the debentured bonds to the public, and, under their charter, they are compelled to deposit securities to an equal amount, to the State Treasurer under which they received their charter, there by doubly securing the payment of their gold bonds.

The Company's property, which is now past the project stage, is known to be marvellously rich in gold.

Following is the opinion of G. W. Miller, Mining Engineer, formerly with the Boston and Montana Consolidated Copper and Silver Mining Company, U. S.; Simmer and Jack Mining Co., Limited, Elandsfountain South Africa:—

"You have here a most valuable property and one of the strongest fissure veins that can be found in any part of the world.

"With the present development of the Monument Mine, I estimate that 100 tons per day can be extracted, which will mill from $18.00 to $20.00 per ton. The total cost of mining the ore, delivering and milling, I place at about $4.00 per ton. With increased milling capacity, it is safe to say that the mine can furnish 100 tons of $15.00 ore, which would leave a clear profit of $11.00 per ton, or $1,100.00 per day (equal to $400,000.00 per annum). Estimated total value of ore in sight, $2,500,000."

During the past summer, a party of the Company Directors visited the property, taking with them, Amos P. Brown, Ph.D., Mining Engineer and Professor of Geology and Mineralogy at the University of Pennsylvania. Dr. Brown writes as follows:—

"In regards to the amount of ore available at the mines at Stanley, I saw on the dumps several thousand tons, probably 5000 tons would be an under-estimate.

"As to the size of the ore body itself, from what I saw of the geological structure, I think that there is every indication that it will be found to extend underground as far as the out-croppings on the south side of the gulch. This would mean an ore body large enough to keep the present mill running for many years to come.

A write up of the proposition will appear in these columns in a few days. Watch for it. In the meantime we will be pleased to furnish full information to investors.

THOS. PATTERSON & CO.,
FISCAL AGENTS, PETERBOROUGH

CONSERVATIVE INVESTORS WILL FIND

The Twentieth Century Mining and Power Co., Ltd.

—OFFERS—

A HIGH GRADE INDUSTRIAL AND MINING INVESTMENT

We have thoroughly investigated it and found it to be right in every respect Did you ever have a chance to invest in a straight legitimate money making proposition? If not,

THIS IS YOUR OPPORTUNITY

We own a monopoly of the water right privileges in the Thunder Mountain mining district, State of Idaho, U.S.A.; seven water rights in all; one developed and in use. The property of the Company consists of over 1400 acres, with plenty of timber for building and mining purposes, a saw mill fully equipped and in operation, a 10-stamp mill now on its way from the R. R. Station to the property, and 40 additional stamps to be purchased at once and installed during the coming summer. This is the largest and most favorably situated property in the district. Some of the tunnels have been driven over 400 ft., cross-cutting many dikes, demonstrating that we have an inexhaustible body of ore. The ore bodies are sampled by an assayer every 10 ft., and assays run from 40c. to $800 per ton. The ore is free milling, and can be mined and milled for about $1.00 per ton.

The Company is now on a sound financial basis; have no debts, and when the present allotment of stock is sold, it will be withdrawn from the market. The work in progressing steadily on the property, and for the last 52 weeks $1000 per week has been expended in the development of the mine. If you want a winner that promises large dividends, write for full information to Messrs.

Thos. Patterson & Co. Peterboro, Ont.

We want to tell you more about it. It will pay you to investigate. You had better not wait too long, or the allotment of stock will be sold, as it is being taken up rapidly. Within the last 90 days 300,000 shares have been subscribed for. Only 100,000 shares remain at 50c. par share.

APPEARANCE

Is such an important feature on the table It makes a heap of difference to the pleasure of the meal whether you have a good or a poor looking Sugar on the table

St. Lawrence Extra Granulated Sugar

is the whitest and best looking Sugar to be had and besides, it has the advantage of being the best quality and greatest strength.

WILL NOT CREATE NEW WINTER PORT

The G. T. P. Will Choose Either Halifax or St. John

SPEECH ON A STEAMSHIP

Chairman of the Allen Company Says Great Terminal Port is Contemplated

Montreal, March 20.—There is no probability whatever of the Grand Trunk Pacific creating a new winter port on the Atlantic.

A choice will be made between either St. John or Halifax. Possibly both may be used.

That was the information given in the president's office this morning, apropos of a speech made by Mr. Nathaniel Dunlop, the chairman of the Allen Company, during a luncheon on board the Victorian, while on a trial trip on the Clyde.

While the brief cable despatches of Mr. Dunlop's remarks are not very clear as to the idea which he wished to convey, it is obvious that he was speaking of the Grand Trunk Pacific scheme, in its relation to future trans-Atlantic trade.

Mr. Dunlop is reported to have said that the Grand Trunk Pacific contemplated having a great terminal port nearer the ocean than the St. Lawrence, when, viewing it from a European standpoint, the Canadian route would be the great waterway to the American continent with steamers running at unequalled speed and safety.

Enquiries at both the head offices of the steamship and the railway company, resulted in a reporter being assured that it would be impossible to establish any port other than those presently in existence with any degree of success. It was comparatively easy to establish a centre on a railway in the interior, but the conditions were altogether dis-similar on the coast, where the prime requisite was a harbor, and these were extremely difficult to find.

Although the railway officials would give no hint as to the choice that will likely be made among the ports now existing for the Grand Trunk Pacific, it will most probably be Halifax.

Montreal, as the commercial center of Canada, will be the summer terminal of the Grand Trunk Pacific, as it is for the Grand Trunk Railway, and the Canadian Pacific Railway, with the city of Quebec as a port of call.

TO DEVELOP POWER

Sir Van Horne and Other Canadians in Big Company

New York, March 20.—Sir William Van Horne, of Montreal; William Mackenzie, E. D. Wood, and Z. A. Lash, of Toronto; William L. Bull, Dr. F. S. Pearson and Percival Farquhar, of New York, have organized the Rio de Janeiro Tramway, Light and Power Company. It is said to have a capitalisation of $25,000,000, and authority to issue bonds to same amount, and will undertake to do in neighborhood of Rio de Janeiro what the companies that are developing the water power of Niagara Falls are doing there. There is a large amount of water power available in the neighborhood of Rio de Janeiro, and fuel is scarce and expensive.

The main part of the capital appears to be coming from Canadian sources, a number of Toronto and Montreal banks being interested.

TO CANADIAN INVESTORS

Thomas Patterson & Co. Have a Fine Copper Proposition.

Fifty dollars invested in Granite Mountain Mining Company's stock paid the purchaser $34,500, besides several thousand dollars in dividends. One hundred dollars invested in Boston and Montana Mining stock paid the purchaser $44,000, besides several thousand dollars in dividends. A few dollars invested in shares of the Butte Copper Mining & Smelting Company stock, will not only insure you big returns in dividends, but a handsome profit in an increased value of the stock. Our mine is not a prospect but a copper mine which has produced $160,000 in profits in the last three years.

For the purpose of buying adjoining ground we have placed on the market 50,000 shares of our treasury stock. This stock is fully paid and non-assessable. Par value $1.00 per share. We will sell any part or all of this lot at 60 cents a share; no certificate issued for less than 100 shares. Send us your order for what stock you want and we will reserve it for you, pending your investigation of our company; and when you have received our prospectus and satisfied yourself that the investment is a good one, you can send us the money and we will issue the stock, or have the stock sent through any bank you may designate. References: Any Bank or Mercantile House in Butte, Montana. Write us for particulars. Butte Copper Mining & Smelting Co., Butte, Montana, or to Thos. Patterson & Co., Fiscal Agents thereof."

A PERSONAL TALK

BY ALEXANDER MUNROE AND GEORGE H. MUNROE.

If we could meet each one of you individually, and tell you all that we know about the Marconi Wireless Telegraph System, you would become as enthusiastic about the future of this magnificent scientific achievement as we are.

If we could discuss the question with you in person, there is no doubt but that you would become as thorough and firm a believer in the glorious commercial destiny of the Marconi Wireless Telegraph Company of Canada as we are.

Do you know what William Marconi is doing to-day in the development of this most wonderful of all modern business inventions?

Do you know that the Dominion Government has given its unquestioning support to his Canadian Company, and that by generous endowment, the future of the Company is assured?

Do you know that it is but a matter of a few days when wireless communication between the continent of America and England will be accomplished, and it will have become as much a matter of every day routine to send wireless messages to the old country as it is now to send cablegrams, and the cost will be reduced full 50 per cent.?

Do you realize that even with this reduced cost the earnings of the Company, in the transaction of its business, will be enormous.

If you are not convinced of the extraordinary profits that will result from an investment in the stock of the Marconi Company of Canada, will you not write to us for our booklet entitled "The Financial Aspect of the Marconi Investment," which gives earnest consideration to the questions involved?

The prime object in thus addressing you is to bring to your attention the opportunity that is offered to make an investment of your surplus in a stock which offers you absolute security, combined with certainty of large profits, and we have an array of facts and figures carefully compiled with a view to giving you a most thorough and comprehensive view of the situation, one that cannot fail to convince you of the advantages of this investment, which we strongly recommend.

We want every one of our clients to make money out of this Marconi investment. We would not be contented unless you made extraordinary profits. It would not satisfy us that you should make a mere 10 or 20 per cent., but it is our hope and expectation that from the Marconi investment YOU WILL MAKE HUNDREDS, EVEN THOUSANDS PER CENT. THROUGH THE NATURAL GROWTH IN VALUE OF THE SECURITIES which we sell. The expectation is not an extravagant one, for we have the history of dozens of similar enterprises which have resulted in great fortunes to those who were shrewd enough to recognize their opportunity and make their investments while the enterprise was young. THE MARCONI WIRELESS TELEGRAPH SYSTEM IS YOUNG TO-DAY, BUT IS A GIANT IN ITS YOUTH. What it has accomplished within the short history of its existence, is the marvel of the world. No other like enterprise was ever so rapidly developed, and no other so strongly entrenched both by organisation and governmental favor, as this one. THE PATENTS UPON WHICH THE MARCONI SYSTEM RESTS ARE BASIC AND FUNDAMENTAL, and notwithstanding the claims of other inventors, no other has made such gigantic strides towards perfection, and all OTHERS MUST AS CERTAINLY PAY TRIBUTE TO IT AS ALL OTHER TELEPHONE INVENTIONS WERE COMPELLED TO PAY TRIBUTE TO THE BELL SYSTEM. NOWHERE IN THE FINANCIAL WORLD TO-DAY IS THERE A LIKE OPPORTUNITY PRESENTED.

100 WORDS A MINUTE

The Directors of Marconi's Wireless Telegraph Company, Ltd., of London, England, in their annual report to the stockholders, stated that TWENTY-FOUR WORDS A MINUTE WAS THE AVERAGE WORKING SPEED OF THE MARCONI SYSTEM IN DAILY COMMERCIAL USAGE, AND USING THIS AS A BASIS ESTIMATED THAT THE REVENUE OF ONE TRANS-ATLANTIC SET WOULD BE $280,000 PER ANNUM. Since that statement was issued, Mr. William Marconi has announced in a lecture before the Royal Institution, that he has so improved his wireless instruments, that he can accomplish AN AVERAGE WORKING SPEED OF ONE HUNDRED (100) WORDS PER MINUTE.

MR. MARCONI SAYS:

"I have recently constructed a magnetic detector which will work a relay and record messages on a tape by the regular Wheatstone recorder, and thus eliminate the telephone receiver. The new receiver excels anything heretofore produced in connection with wireless telegraphy, for it combines extreme simplicity with absolute reliability. But the greatest gain results from the fact that the receiving speed is increased from 24 to 100 words per minute."

Using this statement of Mr. Marconi as a basis, it may easily be computed that the estimated EARNINGS OF ONE SET OF TRANS-ATLANTIC WIRELESS INSTRUMENTS, instead of being $280,000 per annum, will in reality reach THE STUPENDOUS SUM OF $1,200,000 PER YEAR. This sum will be further increased by every addition to the number of stations in operation.

If you desire further information concerning the organization of the Company, and its prospects, send to us at once; but we would advise you not to delay your action, but send your check at once for as many shares as you can buy, not to exceed 200, that being the largest number sold to any one person, for the price of the Canadian stock is liable to advance any day.

Address all communications and make all checks payable to

SEALED TENDERS addressed to the undersigned, and endorsed, "Tender for addition, Printing Bureau," will be received at this office until Monday, April 3, 1905, inclusively, for the construction of an additional story to the Printing Bureau, Ottawa, Ont.

Plans and specifications can be seen and forms of tender obtained at this Department.

Persons tendering are notified that tenders will not be considered unless made on the printed form supplied, and signed with their actual signatures.

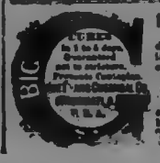
Each tender must be accompanied by an accepted cheque on a chartered bank, made payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the tender, which will be forfeited if the party tendering decline to enter into a contract when called upon to do so, or if he fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order.
FRED. GELINAS.
Secretary.

Department of Public Works.
Ottawa, March 15, 1905.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.



Story of the Boston & Texas Oil Property,

Continued

Chapter 2-Sam Crowther's Three Years Wandering

Let me say at the start that honest Sam, as he is familiarly called in Texas, was a man that was able to keep things to himself, and this quality helped him wonderfully in getting control of one of the most wonderful oil fields yet discovered. Preparation was made for his work, but of course he knew not the length of time that would be required to accomplish that which he was about to undertake. Everything had to be gotten ready, his tent which was destined to be their dwelling place during the search for oil, provisions of all kinds, as it would not be always convenient to go perhaps 15 miles for a few pounds of tea, or other necessities. A start is made the caravan consisting of several mules to draw the drilling machine with its many additions, tents luggage, furniture, cooking utensils etc. The party was composed as follows: Sam Crowtner and his wife and their two boys, aged respectively about 5 and 7 years. A start was made with likely many misgivings, but he had a brave heart and was strengthened by the quiet Christian counsel of his wife. They at last reached a place where it was decided to make a start, the derrick was put up, the drilling machine gotten ready, steam up and a well begun, going down to various depths to find something more precious than gold or diamonds, when found in the right quality and quantity. These were all experimental days. As soon as he finished at one well he withdrew his piping, filled the hole in, leaving practically no trace behind to raise suspicion in the minds of those who might be lurking behind looking for information. His surmise in this line was correct, as he found out afterwards, one oil ranger at least, belonging to one of the big oil companies of the world, was prowling around, and it is more than likely that Sam would have been done out of his prize if he had not maintained absolute silence as to his discovery. Well after well was sunk, with varying success, sometimes their hopes being raised other times human endurance almost seeming to come to an end. At last a well was put down and complete success seemed to be his, if his pipe had held out; but it did not, becoming twisted in the well to such an extent that with money exhausted as well, he was forced to get some way out of his dilemma, in order to preserve the property for himself and for those who he might get interested in it, and not allow it to fall into the hands of a big trust This will be continued containing the story of the company which he formed at this time.

MY ADDRESS IS

JOHN THOMSON

BOX 243, QUEBEC.

If you are interested send for a little booklet which I have had printed with conditions as they are in the field of the Boston & Texas Field to-day. Some day, possibly soon, these ads. will cease to appear and no more stock offered. The company will stand investigation. Send your application for stock, terms of payment can be satisfactorily arranged.

Price 50 cents a Share. Par Value $1.00

Do not forget all money is to be made payable to JOHN THOMSON.

Consumption is Not Hereditary

It is Not Handed Down From Generation to Generation but is Simply "Caught" by the Germs Getting Into Your Lungs Cured by Catarrhozone

Consumption was formerly believed by some to be due to poverty of the blood. By others it was supposed to be hereditary. Both these beliefs are incorrect.

If the disease passes through several members of the same family it is because the germs get into the clothes, bedding, furniture and carpets that are in general use.

These germs find their way into the air, are inhaled, lodge themselves smearly in the throat and lungs where they rapidly increase, and soon claim another victim.

The only remedy that has cured genuine cases of Consumption is Catarrhozone. Its germ killing vapor is inhaled into every air cell and air passage of the head, throat and lungs, and creates a healthy condition of these organs in which disease germs cannot live.

It is impossible for consumption to make headway in the soothing antiseptic vapor of Catarrhozone is inhaled a few times daily into the lungs. The cause of the disease (germ life) is at once removed, the inflamed mucous surfaces are healed, and a lasting cure effected.

Catarrhozone is breathed right into the lungs. By its soothing influence the soreness caused by coughing is removed. The cough becomes less severe and soon ceases all together. Catarrhozone aids expectoration, quiets the nerves, and leads to the patient a large measure of comfort.

Consumptives are strongly urged to use Catarrhozone as immediate relief always follows. It is a direct method of treatment, and is endorsed by the highest medical authorities everywhere. The balsamic vapor reaches the lungs and respiratory tracts in a speedy manner that no medicine taken into the stomach can do.

Catarrhozone is just as good as a change of climate, equally pleasant and cheaper. It can be used at home at any hour of the day or night and never causes inconvenience or bother.

The complete Catarrhozone outfit contains two months treatment and costs only $1.00. It is a perfect boon to consumptives and their surrounding friends. You cannot afford to miss the benefit of Catarrhozone and should order it today. Sold by all druggists or by mail from N. C. Polson & Co., Kingston, Ont., or Hartford, Conn., U.S.A.

Writ Against Canoe Company

A writ was issued in the High Court yesterday by Mr. R. F. McWilliams, acting on behalf of Mr. Thomas J. Ritchie, Queen street, against the Peterborough Canoe Company. The plaintiff asks for $1,000 damages as compensation for injuries sustained by him in December last while working at a shaping machine in the company's factory. Mr. Ritchie lost three fingers of the left hand.

Rev. Dr. Torrance Delivers an Address

Last night a well attended meeting of the Ladies' Christian Endeavor Society of St. Paul's church listened to an able and eloquent address given by the Rev. Dr. Torrance. The rev. gentleman took as his text, Matthews V., 13 to 16, and his subject "How ought we to glorify God in our daily life." The address was listened to with keen interest and several of those present afterwards remarked on the excellence of his arguments, and the clear, concise manner in which Dr. Torrance brought out his points.

larger this year than ever

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 90 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our Correspondence courses.

WM PRINGLE

Improvements to Calcutt's Brewery

The Calcutt Brewing and Malting Company, have just completed extensive alterations and improvements in their Ashburnham Brewery. The main floors have been raised about two feet, to enable better handling of their machinery and plant. They have added a huge steel tank, made by the William Hamilton Manufacturing Co. which will contain two thousand gallons of water to be boiled in it; this tank is to replace the obsolete one of wood, which plays out in a few years. The company has added a fine new cooling plant, which will facilitate and quicken operations in cooling the beer, this was made to order by Messrs. Booth & Company, Toronto. The old office has been replaced by a commodious suite of offices, enlarged to meet the requirements of a rapidly growing business.

Lock Company Directors Met

Yesterday morning a matter was discussed, by the directors of the Peterborough Lock Manufacturing Company, in their office on Simcoe street, that is of vital interest to the citizens of Peterborough. For some months the company contemplate erecting new, and more commodious premises on their recently acquired property, and yesterday's meeting was for the purpose of looking over the specifications and plans of the proposed buildings. The architect in charge however, had not fully completed the details, so the meeting was adjourned until Saturday, when the plans and specifications will, it is hoped, be ready for examination and approval. Tenders will be then be let and work proceeded with as soon as the weather conditions will permit.

Sad Death of Mrs. Chapman

Her many friends will regret to hear that, On Sunday evening, Mrs Sarah Chapman, widow of the late Mr. William Chapman died at the residence of her daughter, Mrs. Benjamin Johnston. The deceased was a lady highly respected by a large circle of friends. She was born in Perth, Lanark county, and was 55 years of age. She has lived in Peterborough for 15 years. She leaves to mourn her loss, three daughters, Mrs. Benjamin Johnston, of town, Mrs. Fred Taylor, of Regina, N.W.T., and Mrs. George Meyers, of Buffalo, N.Y. The funeral will take place this afternoon at four o'clock from the residence of her daughter, Mrs. Johnston, 156 London street, to the Little Lake Cemetery. Rev. F. J. Scott, pastor of the Murray street church, will conduct the service. The funeral will be private. No flowers.

Yesterday's Fire on Lake Street

It is a toss-up between the deadly live wire and a defective stove pipe as to responsibility for the fire of yesterday morning that totally destroyed the premises occupied by Messrs. James Tranter, Robert Watt and James Askey, at 95 to 95 1-2 Lake street. That portion of the house occupied by Mr. Watt is a total wreck, Mr. Tranter's portion was almost completely destroyed in the rear, whilst the front part of the house and furniture is greatly damaged by water. It is no reflection on the brigade that so much damage was done, as they turned out with their usual prompt alacrity, and worked hard and continuously, had they been less in earnest or slower, everything in sight would have gone. Mr. Watt's loss on his furniture will be total, as it was uninsured. Mr. Tranter's loss, as nearly as can be estimated, will approximate $500, upon which the insurance was $300. The building, which is the property of Mr. A. Letellier, was insured with Messrs. Davis and Thompson, in the Royal, for $800.

A Peebob From Wingham

Some of those disgruntled men who would always find fault with our excellent local police force, might read a few of the Wingham, Ont. Chief of Police's duties and titles. These people in town who want an officer to be everywhere at all times might like to see the Wingham Peebah's duties loaded onto our local Chief. The by-law of the town of Wingham, Ont., outlines the duties as follows; The chief constable of the town of Wingham besides performing the duties of chief constable, shall perform the duties of sanitary inspector, caretaker of town hall, captain of fire brigade, caretaker of waterworks and fire protection apparatus, fire inspector, bread inspector, weigh clerk, street inspector, tax collector, including the collection of dog tax, poll tax, license fees, imposed by by-law, and all hall rents due the corporation. As Chief Constable he shall perform the duties of peace officer within the municipality, and shall enforce all by-laws of the town and prosecute all infringements thereto.

INTERESTING LECTURE

Rev. G. H. Raley Missionary to the Indians in B. C., Lectures in George Street Church.

Last night, a large, intelligent and deeply interested meeting in the George street church heard Rev. G. H. Raley, the Methodist Missionary to the Kalamaat Indians, deliver an address, descriptive of his life and labors among his dusky charge in far-away British Columbia. The rev gentleman is quite convincing in his appeal for aid in his western territory. The lecture is not a thread of dry statistical facts strung together for a purpose, but is like reading an interesting and illustrated book. He had many curiosities brought with him from British Columbia. A vote of thanks was tendered to the eloquent speaker. Rev. Dr. Crowtlers and his flock deserve thanks from the community for the instructive and intellectual treat given last night.

—The annual meeting of the Women's Auxiliary in connection with St. John's church will be held this afternoon.

Local Incidents

BY THE TIMES MAN ON THE STREET.

—A bunch of keys was found yesterday morning in the post office, and handed in at the wicket, where the owners may obtain them.

—At the band concert on Friday next, March 24th, Mr. Gilbert Markle will play the 2nd and last of the four movements of Delleriot's Military Concerto.

—Evangelistic services will be held to-day, Wednesday, and Thursday and Friday evenings in George street church. They will begin at eight o'clock.

—Rev. W. C. Allen, of Millbrook, once curate of St. Luke's church, will conduct the Wednesday evening Lenten service in St. Luke's church to-morrow.

—Messrs. Thos. Jos. Wallace and Ernest Maurice Boat, have been by regimental orders from Ottawa, made provisional lieutenants in the 57th Regt.

—The first robin of the season has been seen by Mr. Frank Bradburn, North Monaghan, the locality. Mr. William Davidson, of Dixon street, has also seen one of these harbingers of spring.

—The American Cereal Company opened up on full time yesterday. The officers of the company report that they were fairly deluged with applicants, both male and female, for work.

—The St. John's Women's Auxiliary will hold their annual meeting this afternoon, at three o'clock in the Guild room. A cordial invitation is extended to all women of the congregation to attend.

—The Times was yesterday in receipt of several San Francisco, Cal. papers, sent by the kindly remembrance of Mr. James Stevenson, who is visiting that city and Alameda, Cal.

Rev. S. J. Broughall, M.A., of Toronto, will deliver the third special Lenten address in St. John's to-morrow evening. Last night Rev. Canon Dixon gave a lecture illustrated by magnificent lime-light re-productions of paintings.

—The executive of the Women's Art Association wish to express their grateful appreciation to Messrs. Rickard Hall & Son, H. H. Edmison, Ormond & Walsh, A. Comstock, J. D. Craig, and others for what they loaned during the exhibition.

—The annual roll call of the members of the Murray street Baptist church, will be held on Wednesday March 29th. As this is one of the most important functions of the church during the year it is important that all the members should be present.

—Rev. Geo. H. Raley gave a most interesting lecture before a large audience in the George street church last night. The rev gentleman took "The Hiawatha of the Pacific Coast," for his subject, and that large assemblage listened with keenest interest.

—The new Liquor license Board for West Peterborough composed of Messrs. M. B. Morrison, Henry Lemon and Jogeshua Griffin will meet this morning at eleven o'clock in Inspector Cochrane's office for organization purposes. A chairman will be elected and other business attended to.

—P.C. Joseph Stewart is this week, moving to the new fifth Ward, where he will in future reside. The Ashburnham people express great satisfaction, at having an officer living in their midst, as, since the amalgamation they have been practically without a sufficient police representation.

When you want a life-like Portrait in Oil, Crayon, or Water Color, don't fail to come to B. Hudson's Studio, where the work and prices are always rights. Gifts in Pictures, Frames and Fancy Work. Lessons in Painting and Pyrography Work. Studio, 134 Brock street, Peterborough.

—A meeting of the Girls' Guild of George street church, is called for at half-past seven this evening, and all those who sold tickets for the Shamrock entertainment are asked to make their returns this evening, as the secretary-treasurer wishes to hand in her report. Other matters will be discussed, and it is hoped that the members will be on hand promptly.

—This is the time of year that Paterfamilias, with frowning face and lowering brow, grips the axe in one hand, his shovel in the other, and after furtive glances to see if any cops are in sight, looks and hews a drain across his pavement, to carry off the surface water. Poor Paterfamilias how you used to envy a Householder when you were a bachelor! Such are the joys of wedlock and spring thaw!

—The Lindsay Post says Peterborough has accepted the challenge made by Fenelon Falls, but want to play at Port Hope. Peterborough evidently don't cherish a friendly feeling towards Lindsay, or perhaps they think the farther they get the Cataract boys away from their own town, the greater the chance that they will take fright and let Peterborough trim them. Oh! no! Brother Post. Do not let jealousy supplant veracity.

Personal and Social

Movements of the people in and out of town . . . .

—Frank Hodgins, K.C., of Toronto, was in town over Sunday.

—Mr. James Keadry is in Montreal and New York City on business.

—Mr. William Swanston returned home yesterday from Hall's Bridge.

—Port Hope Guide says; Mrs. Jas. Pilling and son, Roy, Peterborough, are in town visiting friends.

—Miss Lundy, who has been the guest of Mrs. Cockburn Clarnow, Ottawa, for some weeks has returned home.

—Mr. Charles Malloy of Tuston, Ontario, agent Sunday in town the guest of Mr. and Mrs. T. J. Biola, 249 Stewart street.

—Miss Mollie Meldrum has returned to Branksome Hall, Toronto, after spending some time in Peterborough to resume her course of studies.

—Mr. W. Salisbury, formerly in the book trade on George street, left for Toronto yesterday. He has accepted a position in that city

—Mr. T. E. Bradburn, M.L.A., leaves for Toronto this morning to attend the opening of the Provincial Legislature, which takes place to-day.

—Mr. J. S. Knapman has returned from a trip to Hamilton. While there he met Rev. J. A. Wilson, formerly of Peterborough, now pastor of St. Andrew's church.

—Mr. J. W. Hutchinson of Idylwild, was in town yesterday looking up the prospects for next summer's business. If everything goes all right he will have the popular island summer resort again.

—Miss Estella Foy, of the staff of the Peterborough Conservatory of Music will give a kindergarten demonstration with her pupils in the Y.M.C.A., hall on Monday evening next, March 27th at 8 o'clock.

—Rev. J. C. McConachie, M.A., of Queen's University, Kingston, preached in St. Paul's mission Sunday morning, and in St. Paul's church in the evening. He is a gentleman of deep thought, and has the faculty of unburdening his mind of great depths of learning, in an instructive and interesting manner.

Keep your harness looking like new. York Metal Polish (10c. size and upwards) is the quickest, cleanest and best polish made. No acids. Get it from your grocer, hardware dealer or harness shop.

YORK METAL POLISH

OTHER WORLDS.

Our sole knowledge of the people on other worlds and how far the people there differ from our inhabitants, can only be guessed by comparison with animal nature on this small sphere of ours. More important to us is a knowledge of ourselves. "KNOW THYSELF" was an old Greek thought. How to take care of one's own body is not so simple as some think; the human mechanism is a wonderful thing and requires watching.

One man who has done more to teach the American people how to care for their bodies than almost any other, is Dr. R. V. Pierce, of Buffalo, N. Y., the Author of the "Common Sense Medical Adviser." He says: It is not the quantity of the food eaten which produces strength and health (for some people can keep strong on a very meagre diet), but it is how much food is *digested* and assimilated by the blood and carried to nourish every organ of the body. It is, therefore, vitally necessary for the body that the stomach be in a healthy condition. Indigestion, dyspepsia, sometimes called "stomach trouble," prevents proper nutrition then the heart, liver, lungs, and kidneys do not get proper food—they are not fed on rich red blood, and in consequence, begin to show signs of distress. Outwardly these *signs* may be pimples and eruptions on skin, pale face, sleepless nights, tired, languid feelings, or, by reason of the nerves not being fed on pure blood, they become starved, and we receive a *warning* in the pain we call neuralgia. Rheumatism, too, is a blood disease. After years of practice and study Dr. Pierce found that an Alterative Extract, which he named "Dr. Pierce's Golden Medical Discovery," made from the extracts of several plants, invariably produced a tonic effect upon the system. It helped the process of absorption of the healthy elements in the food and increased the red corpuscles of the blood, as well as eliminated the poisons from the system.

Business is business. No time for headaches. Constipation causes them. Doctor Pierce's Pleasant Pellets cure them by curing the cause. Laxative and mild.

The Canadian Northwest

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

1] At least six months' residence upon and cultivation of the land in each year during the term of three years.

2] If the father (or mother, if the father is deceased), or any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same town, township, or an adjoining or cornering township.

A settler who avails himself of the provisions of [2], [3] or [4] must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 30 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Land Agents in Manitoba or the Northwest Territories.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

IT PAYS TO PAY FOR THE BEST IN FURS . . .

ESPECIALLY so now, during our great Reduction Alteration Sale During this month of March the order of the day is—FURS MUST "MARCH." The season is late. Work will commence shortly at the alterations in our store and factory. We must now clear stock out.

Buying direct from trappers and foreign raw fur collectors for spot cash prices, manufacturing these furs in our factory, every article carefully put together by expert furriers, and the direct supervision of the whole by two practical furriers who own this business, means to our patrons absolute protection as to quality and price that no other firm in Canada can surpass. All our Furs are not only guaranteed, but we have reduced their cost to you by saving all go-between profits with which most furs are burdened, and now during this sale.

You can get furs at less than wholesale cost to clear stock out immediately.

BEST ADVERTISING MEDIUM IN EASTERN ONTARIO

VOL XXXIII NO 63 PETERBOROUGH ONTARIO, WEDNESDAY MARCH 22 1905 PRICE TWO CENTS

THREAT OF WAR IS MADE BY THE UNITED STATES AGAINST VENEZUELA

Venezuela Notified by U. S. Minister Bowen That She Must Arbitrate or States will Take Such Steps as are Necessary to Secure Justice.

Williamstadt, Curracacao, March 21.—The Venezuelan Government, it is understood, has received a note from the American Minister, Mr. Brown, requiring an answer as to whether Venezuela will arbitrate the questions pending and saying that in case of a refusal, the United States will feel free to take the steps which may be necessary to secure justice.

The Charge d'Affaires of the Netherlands has advised the Venezuelan Government that Holland will use coercive measures in view of the fact that she has been unable to secure the release from imprisonment in Venzuela of five Dutch sailors, who have been illegally kept in prison for seven months.

The dispute between the United States and Venezuela was over the seizure of the New York and Bermudez Asphalt Company by the Venezuelan Government, which alleged that the company had aided the Matos rebellion. The Venezuelan Government sued the company for damages in its National courts, and was awarded a big judgment. When this was not paid the Government seized the company's plant and put a receiver in charge. Recently, President Castro moved away into the capital in order to escape negotiating direct with the United States authorities.

TALES OF OIL IN THE WEST

Great Lakes of It Said to Have Been Found in the Northwest

St. Paul, Minn., March 22.—Parties arriving from Egg Lake and Oil City, Alberta, North-West Territory, bring stories of marvellous oil wells discovered there.

Practically all the country to the north of Moutana in one vast oil well, they say. In the extreme south-western section of Alberta, five miles from the American boundary line, a town has sprung up within the past two weeks, populated almost entirely by oil prospectors. The valley in which these wells lie is described as an immense crivice caused by volcanic eruption cross cutting the formation of the Rocky Mountains and forming a basin into which the oil has seaged until it has formed great lakes underlying the rock formation at a depth of 1,000 feet.

Several years ago, it appears, a farmer named William Aldrich used to gather the oil in barrels from the surface seepages, and sell it to his neighbors for lighting and lubricating purposes, often gathering as much as a dozen barrels a day. In 1901 John Linhan, a wealthy lumberman of Okotokos, Alberta, heard of Aldrich gathering oil in the crude way, and determined to investigate. The result was that he formeda company of his friends, and they purchased this tract of oil land in the mountains. All the latest oil appliances were purchased and operations were commenced in the spring of 1902. Almost at the start a 200-barrel well was struck at a depth of 1,020 feet, but the "bore-hole" was plugged and the find kept as quiet as possible.

More wells were struck and suddenly the people of Canada were aware that their country was producing something richer than wheat in the great North-West. Roads were being made, machinery brought in, bridges built over the mountain streams, while houses and shanties were going up in all directions. The country was oil crazy.

Further north it is the same story. Everywhere oil and gas are gushing from the ground. Town after town reports the discovery of oil or gas. Companies are being formed and land, it is said, commands an enormous price all through the oil belt.

BIG PAPER MILL

Company Organized at the Soo With Capital of $100,000

Sault Ste. Marie, Mich. March 22.—The St. Mary's Falls Paper company with a capital of $100,000, has been organized here. B. J. Clergue, of the Ontario Soo, holds a majority of the stock. A mammoth mill, employing a large number of men, will be built early this coming summer. Only print paper will be manufactured. The mill will handle all the pulp from the Canadian Soo pulp mill, which has an almost limitless supply of raw material in the forests in this part of the country.

HIS WIFE INJURED

Man Shooting Wolves Dropped his Gun and Charge Went Through Ceiling

Portage la Prairie, March 22.—A peculiar and distressing accident happened near Reaburn, W. C. Prichard, living not far from the village, is worried by the presence of wolves, and on Saturday fired with a gun at a band through the window of his house. Reloading, he let the butt end of the gun fall to the floor rather heavily, when it went off, the charge going through the ceiling and striking his wife, shattering her left wrist, and also the baby's lower limb. The injured woman was taken to the hospital here, where it was found necessary to amputate her hand at the wrist. Shot was taken from the baby, who is not much the worse for the adventure. He is three years of age.

CARNEGIE GIFT TO TUFTS

Massachusetts College is to Get a $100,000 Library

Boston, March 22.—Tufts College is to have a new library, owing to the munificence of Andrew Carnegie. The building will cost $100,000, and will be [illegible] books and many more pamphlets. The gift was arranged through the efforts of Mr. Carnegie's pastor, the Rev. Frank O. Hall of New York, a graduate of Tufts.

The present library building was formerly used as a dormitory, and when the new library is ready for occupancy, it will be restored to its original use.

A CORRECTION

Rev. Mr Langfeldt's Lecture in St. Paul's Church Attributed to Rev Dr. Torrance in Mistake

In our issue of yesterday's date we noted that that the Rev. Dr. Torrance delivered an address, on Monday night before the Y.P.S.C.E. in St Paul's church. This was a mistake what the item should have said was, that Rev. Dr. Torrance presided at the meeting and that the Rev. E. A. Langfeldt of St Luke's delivered the admirable address, that interested the audience. The address has since been commented on very favorably.

ANOTHER INDUSTRY

A Chicago Capitalist Here Seeking a Location

Yesterday a, prominent capitalist from Chicago, was in town, interviewing some of our leading citizens as to a large industry he intends locating in Canada. Mayor Best drove the gentleman about town, showing him the principal points of interest and introducing him to leading local capitalists. The gentleman expressed himself as highly pleased with Peterborough, both as a town and as a likely spot for locating a factory such as he is interested in. It might be said that the Chicago gentleman was very reasonable and moderate in his requests. Above, he finally decide to locate in Peterborough. He left for Chicago last night to consult with his partners and discuss the desirability of fixing on Peterborough for their location.

He will return to Peterborough in the course of two or three weeks when, in all likelihood, final arrangements will be completed and building operations will be begun at the earliest date possible. This new factory will be of great aid to all the community, as they will employ from 75 to 100 hands, and it will also be of general benefit, including the farmers, as it will be the only large glue factory in Canada.

WHAT WILL OPPOSITION DO?

Winnipeg, March 22.—The morning newspapers make no comment on the Autonomy Bill amendments. The Territorial press to hand in Winnipeg continue to take the same ground as Premier Haultain, which opposes any interference whatever with the question of education.

The Tribune, which has declared repeatedly its unbelief in any sincerity on Mr. Sifton's part, says; "Mr. Sifton, after his resignation bluff, has gone over, bodys and boots, to the coercion side, and he has hauled over with him the string of so-called representatives elected in Western Canada. The only apparent hope for freedom now lies with the Opposition. Under determined, faithful leadership, the Opposition is in a position to [illegible] the designs of the Liberal-Grant [illegible] Will they do it?"

An Ottawa special to the Free Press says, "It is believed that the Western Liberals, including Mr. Sifton, will assent to the compromise and support the measure in its new form."

NOT ANY BETTER THAN THE ORIGINAL CLAUSES

Amended Educational Clause Forces Recognition of Separate Schools, but Under Territorial Ordinance Government Inspection is Required---Also Certificated Teachers---Not at all Satisfactory to the Country.

Ottawa, March 21.—Clause 16, the education clause of the North-West Autonomy Bill, as amended, is as follows:

Section 93 of the B. N. A. Act, 1867, shall apply to the said province, with a substitution for sub-section 1 of said section 93 of the following sub-section: (1) Nothing in any such law shall prejudically affect any right or privilege with respect to Separate schools which any class of persons have at the date of the passing of this Act under the terms of chapters 29 and 30 of the ordinances of the North-West Territories, passed in the year 1901.

(2) In the appropriation by the Legislature or distribution by the Government of the province of any money for the support of schools organised and carried on in accordance with said chapter 29, or any Act passed in amendment thereof, or in substitution therefor, there shall be no discrimination against schools of any class described in the said chapter 29.

(3) Where the expression "by law" is employed in sub-section 3 of the said section 93, it shall be held to mean the law as set out in the said chapters 29 and 30, and where the expression "at the union" is employed in said sub-section 3, it shall be held to mean the date at which this Act comes into force.

The sub-section of the B. N. A. Act which is replaced by the above sub-sections is as follows,

"Nothing in any such law shall prejudically affect any right or privilege with respect to denominational schools which any class of persons have by law at the union."

After one month of mighty wrestling, of caucusing, of caballing and intriguing, the mountain has labored and brought forth a mouse. Just as the House adjourned Mr. Fielding, who was leading for the Government, handed to the clerk the proposed amendment, as given above, and at the same time furnished a copy to Mr. Foster, who, in the absence of Mr. Borden, was temporarily leading the Opposition. Members on both sides who had been on the qui vive all evening, quickly knew what had transpired, and eagerly scrutinized the terms of the latest proposal of the Government. To say that disappointment prevails among the members is but a mild way of expressing their feelings. That the western members can be satisfied with the Government's proposals passes comprehension.

The amendment, to quote Mr. Blair's famous phrase, is "the same red-headed child," Instead of leaving absolutely to the new provinces the right to determine a purely constitutional question, as provided by the B. N. A. Act, it will be observed that Parliament calls upon the new provinces to recognise Separate schools, and to endow them out of the public funds. Practically, the only difference between the amendment and the original clause is that the amendment under the territorial ordinance involves Government inspection of Separate schools and the employment of certificated teachers in them. One of the most extraordinary features of the amendment consists in the fact that it essays to amend the B. N. A. Act. That Parliament should be called upon to enact such a provision is regarded as incomprehensible in the highest degree.

The only body that can legally do this is the High Court of Parliament of the Empire, and the Government, in suggesting a provision of this kind is simply courting, in the opinion of many members, the Imperial veto. The second sub-section proposes to endow Separate schools in the new provinces practically in the same manner as the original clause 16 of the Autonomy Bills, while sub-section 3 once again backs at the B. N. A. Act and seeks to give it a new interpretating, grafting on the Constitution of the two new provinces created in 1905 provisions made to apply only to the four original provinces which entered into the Confederation in 1867.

In the opinion of many members, the amendment is worse than the original clause. Parliament and the country have not yet done with it.

The Free Press, Government organ, stated that the amendment had been submitted to Mr. Haultain, Premier of the North-West, and that he had approved of it. Your correspondent has Mr. Haultain's authority to say that this statement is absolutely untrue. In the negotiations which have taken place between the Government and the two contending factions of his own supporters, the North-West representatives have been entirely ignored.

The Mail and Empire correspondent was the first to show Mr. Haultain a copy of the proposed amendment. Asked what he thought of it, the North-West Premier said he did not care to make a statement until he had carefully scrutinized the different sub-sections, but his opinion after the first perusal was that it was no better than the original clause.

A GOOD MOVE

Grand Lodge I. O. O. F. for Peterborough in 1906.

There is some considerable talk among the local Independent Order of Oddfellows, of making a fierce effort to have the Grand Lodge of their order, meet here in 1906. If this can be managed, by all means let every man, whether bound by the mystic union of the three links or not do everything that is in his power to accomplish this. Those of us, who remember the last time Peterborough was honored by being the meeting place of the Grand Lodge, I.O.O.F., will remember the large numbers of well behaved and well to do strangers, who, as members of the Canton, Encampments or representatives of the subordinate lodges, visited the town. The Grand Lodge meets in Brockville in August next, and is attended by 500 or 600 delegates from all parts of the province. It is twenty years since the Grand Lodge assembled in Peterborough.

Let us do our best to get them here for 1906.

ANNUAL MEETING

Woman's Auxiliary of St John's Church Met Yesterday Afternoon

A largely attended, and very harmonious meeting of the Woman's Auxilliary of St. John's Church was held yesterday afternoon in the Sunday School. The usual routine business was transacted, and the various officers tendered their reports. The tone of the members present was most encouraging and everything points to a successful year ahead for this admirable adjunct of the church. Mrs. Nesbitt, the President in few but feeling terms expressed her satisfaction over the work accomplished during the past year, and, to the regret of all members, felt compelled to retire from the burden of office this year. Mrs. Kardley-Wilmot was unanimously elected president. Miss Errett, secretary, and Mrs. Peter Campbell, treasurer, were re-elected to the same offices for the current year.

Hold Bridge To Save Army.

General Linevitch's Headquarters Have Been Established for the Present at Chenchiawatzu, Where He is Directing the Armies.

St. Petersburg, March 22.—General Linevitch's headquarters have been established for the present at Chenchiawatzu, situated at the crossing of the Sungari River, whence he is directing the [illegible] and disposing of the fresh troops of the Fourth Corps just arrived from European Russia. The protection of the Sungari bridge is vital to the salvation of the army, as the river is not fordable below Kirin, and once the line of the river is passed and the bridge blown up the Japanese pursuit will be effectually checked.

At the same time the second army is falling back of the line of the railroad, while the first and third, with the [illegible] are operating along the Mandarin road to Kirin, both destroying bridges and roads, and denuding the country behind them, and making it impossible for the Japanese to live in the immediate wake of the retreat, without their own commissariat.

THE BOGUS BILLS

Many are Still in Circulation About the Town

Yesterday another counterfeit Bank of Montreal $5 bill came into circulation in town. Whilst this counterfeit series of bogus bills is crude in workmanship, a local bank yesterday accepted one of them. It was only when this illegitimate issue of the Bank of Montreal was transferred to that bank, that the counterfeit was discovered. To protect our readers we might reiterate our discription given in yesterday's issue of this bill. It is a $5 Bank of Montreal imitation, the coloring is four, the etching about Sir Donald Smith's portrait is slovenly executed, as is the picture on the back of the bill showing a view of the bank's head office in Montreal. It is series D. of Jan. 25, 1895, and is countersigned Plunket, and the serial number is preceded by the figure 0. The paper whilst as good as in most bogus bills, has a distinctly greasy feel. A comparison, for one minute, with a genuine bill of the same series and date will detect the bad one.

In respect of the bills mentioned yesterday, investigation has been made which has resulted in tracing them through the hands of several parties, and in every case, but possibly one, which is now being investigated—and perhaps also in this—they have been passed innocently and in good faith.

ANOTHER PROTEST.

County Orange Lodge Pass Resolution of Protest Against Educational Clauses—Resolution of Condolence

Whereas, the spirit and intention of the British North America Act concede to the Provincial Legislatures full control of their educational affairs, subject to the right of the Federal Parliament, in a specified case, to enact remedial legislation.

And, whereas, the Dominion Legislation of 1875, securing the establishment of Separate schools in the Territories does not make it obligatory on Parliament, now that a Provincial constitution is being granted, to enact that the establishment of Separate schools shall be a permanent obligation on the new Provincial Legislatures. So long as these communities remained under territorial government the Dominion Parliament had the right to dictate their educational policy, but when a Provincial constitution is granted it must conform to the provisions of the British North America Act, regardless of any preliminary enactments during territorial status.

And, whereas, the educational clause of the Autonomy Bill now before Parliament, is ultra vires of the Dominion Parliament and is, therefore, a violation of the fundamental constitutional principle of Provincial autonomy, and a scheme fraught with danger to the assimilation and unification of the divers races and classes composing our population. Be it therefore,

Resolved—That this County Orange Lodge of West Peterborough, in special session assembled, respectfully request that the new Provinces of Alberta and Saskatchewan be given full control over education within their respective jurisdictions without any restrictions whatever.

Be it further resolved—That we call upon the member of Parliament for this constituency to oppose the Bill, unless the educational clause be expunged therefrom, and the educational policy of the proposed new provinces be left to themselves to determine, who are more particularly concerned in it.

RESOLUTION OF CONDOLENCE

Whereas, it has pleased the great "I Am," in His Heavenly wisdom to remove from our midst by death, our esteemed and worthy Brother E. F. Clarke, M.P., P.D.G.M., B.A., thus reminding us of the uncertainty of this life. Be it

Resolved—That this County Orange Lodge of West Peterborough, at the earliest opportunity, hereby express our sympathy with the widow and family of our late brother in the great loss which they have sustained.

Although personally unknown to many of our members, yet their feelings bear witness to the high esteem and affection in which he was held by them.

His death is an irreparable loss to the Orange Association and to the whole Dominion of Canada, especially at the present time, stands in need of men of his ability and fidelity.

We realize how helpless human sympathy is to bring relief to the stricken heart, and we, therefore, commend the bereaved family to Him who shares all our affliction and sorrows, praying that He may strengthen and sustain them until the day of the happy reunion in a better and brighter world.

Signed on behalf of the County Lodge,

J. W. STUART,
County Master.

W. H. G. ARMSTRONG,
Recording Secretary.

LICENSE TRANSFERRED

The C. P. R. Hotel Transferred Yesterday from Mr. Allen to Rickerby Bros.

At the first official meeting of the new Board of License Commissioners held yesterday morning, the license formerly in the name of Mr. James Allen, for the C.P.R. Hotel, on Simcoe street, was transferred to Messrs. Rickerby Brothers. The new proprietors intend to run this new venture strictly according to all laws governing hotels and the sale of liquor. They assert most emphatically, that no person will be admitted to the bar, or served with liquor, during prohibited hours. They intend to place a large cluster of electric lights in front of the hotel on Simcoe street, and thus, backed up by their asserted intention of doing that it is done, will prevent people loafing about on the pavement in front of the hotel. Mr. George Rickerby, junior partner in the firm, will leave shortly for an extended visit in San Diego, Cal. During his absence, Mr. Michelhargy will act as manager of the hotel. This hotel has always done a good local trade, and, under the new management and proposed observance of the liquor laws there is no reason why these young men should not enjoy a fair share of the town's patronage.

Police Court

OFFICIALS

Chief of Police, G.I. Read
Magistrate, D.W. Dumble

Yesterday was quiet in police circles. Only one case was brought before the notice of his Worship.

An hotel employe was charged with sending in a false fire alarm on the night of the firemen's hockey game. He pleaded not guilty. The Magistrate thought that he had given the alarm in good faith and discharged him.

However, he said that if the charge were proven against anyone he would inflict the most serious punishment in his power.

In our police news of yesterday's issue, we noted that a certain property owner had taken away a shop from a painter, his former tenant, because there were scenes of revelry by night that said proprietor did not approve of. The painter, whose name we withheld yesterday for his own sake, and which for the same purpose, we do not mention to-day, was at this office yesterday, asking that a contradiction of the item be inserted. The gentleman tells us that as far as the ladies being present in the shop, was concerned, it was simply a case of burglary, and breaking in the door by someone else to entertain his (the burglar's) lady friends. We would not venture to cast the smallest shadow of doubt on what the gentleman tells us. It is too bad that he should be suspected of being a gay Lothario, and should he have the burglar, who to entertain a couple of ladies, risked a long sentence in Kingston, arrested, we trust that justice will be done.

ATHLETIC WORLD

BY OUR SPORTING EDITOR

LACROSSE.

The Shamrock Lacrosse Club will hold an organization meeting at the C.P.R. Hotel on Thursday evening at 8 o'clock.

CURLING.

The curling season came to a very exciting finish last night when Mr. D. Hall's Rink of Veterans went down to ignominous defeat before the invincible B.A.C. The victors were unmercifully handicapped by the "mellow" condition of the ice, but the brilliant generalship of the B.A.C. skip, together with the fact that his lead and vice never landed where they were asked to, was sufficient to ensure a glorious victory. The B.A.C. moreover threw the first end, and were never headed, the final score being 8—7.

The rinks were,

VETERANS	B.A.C.
A. McIntosh	N. Jolliffe
W. Smith	M. J. Hutchinson
J. Bogue	S. S. Moore
D. Hall, skip—7	E. M. Best—8

Food Authority

A FAMOUS ENGLISH PHYSICIAN (WHO REQUESTS THAT HIS NAME BE WITHHELD FROM PUBLICATION) SAYS OF

GRAPE-NUTS

"In cases of slow digestion, lack of stomach tone, and debility, this food is invaluable."

Now for the Reason:

The great bulk of human food is starch in some form—bread, pastry, potatoes, rice, cereals such as oats, wheat, rye, barley, etc.;

This class of food supplies "energy" if it be properly digested, but there's the rub. Starch and sugar in food are digested by the liver and intestines. When these organs are overworked or become weak, then the food is not entirely digested and lies in the warm moisture of the body until it decays, producing gas, and therefore disturbance and incipient disease of the liver and intestines and frequently appendicitis.

To meet this trouble Grape-Nuts food was invented. In it the starch part of wheat and barley is transformed by long soaking, warmth, and time into sugar—just the same method as the body employs in digestion. Hence when one eats Grape-Nuts he eats a pre-digested food, ready for immediate digestion and assimilation, supplying the body with the needed food elements in a soluble and delicious form.

The London "Lancet" says:

"The features worthy of note in our analysis are the excellent proportion of proteid, mineral matters, and soluble carbo-hydrates per cent. The mineral matter was rich in phosphoric acid 'Grape-Nuts' is described as a brain and nerve food, whatever that may mean. Our analysis, at any rate, shows that it is a nutritive of a high order, since it contains the constituents of a complete food in very satisfactory and rich proportion and in an easily assimilable state."

The food is naturally pre-digested by heat, moisture and time. The diastase is thus produced and the transformation of starch into sugar accomplished.

A perfect food for persons with weak intestinal digestion and who need, but cannot fully digest ordinary bread and starchy food.

For athletes, brain-workers, or the weakest babe.

(For infants, pour hot water over three or four teaspoonfuls of the food. Use that water with trifle of the food dissolved in it)

"There's a reason."

ALLEN'S LUNG BALSAM

will positively cure deep-seated COUGHS, COLDS, CROUP.

A 25c. Bottle for a Simple Cold.
A 50c. Bottle for a Heavy Cold.
A $1.00 Bottle for a Deep-seated Cough.

UNION LABELLED

PETERBOROUGH, MARCH 22 1905

THE NORTHWEST AUTONOMY BILL

This is how St. Luke's Parish Church Work deals with the Separate School matter:

"This Bill, which provides for two new Provinces, attempts to force upon the people of these Provinces Separate Schools. Without wishing to enter into a political consideration of this Bill, which might lead me to attack it for merely political reasons, let me plainly refer to the educational clauses alone.

"The Separate School clauses of the Autonomy Bill are nothing more nor less than an attempt to establish a State Church—an effort to endow the Roman Catholic Church with public moneys—and it is the Hierarchy of Quebec, of which Sir Wilfrid Laurier is a willing tool, which demands that this injustice be perpetrated in open defiance of the rights and beliefs of the vast majority of the people of the Dominion. The Laurier Government first came into power as the opponent of the proposal to force Separate Schools on Manitoba. Therefore the people, naturally, regard the Government as the foe of coercion and the protector of Provincial rights. Now Laurier "has swallowed himself," and today supports what in 1896 he opposed, and which opposition brought him into power then.

"It is quite unnecessary and misleading to speak of the Separate School question as a question of race and religion. What else could it be? Who is responsible for it but a man who is himself a Frenchman and a Roman Catholic, and whose consultations with the Roman Hierarchy on this question prove beyond a doubt that now he is willing to go "to Canossa." It is sheer hypocrisy to discuss the question as it were purely academic or constitutional. It is not a constitutional question, for the constitution offers no excuse that can satisfy anyone in bringing Separate Schools up for discussion at all. Is it unnatural that bitterness should be so strong that it would penetrate to the church and race, the clergy of which attempts to play the highwayman in this case? Pious prayers for peace and good-will are entirely ineffective as a blind. The question to be answered is: Shall the Church of Rome be established as a Government institution, supported by Government funds, with the Hierarchy of that Church forming the real Government by which the affairs of the country are conducted. If such a question can be answered without arousing race or religious feelings, well and good—but no fear of arousing any kind of feeling must be permitted to induce the people of Canada to decline to face the question fairly, and to speak in unmistakable terms the inevitable answer. Protestants everywhere will do well to watch the conduct of their representatives in Parliament should this nefarious measure ever be voted on, and govern themselves for the next election accordingly. It seems to me that so long as the arrogant claims of the Roman Church are not assailed, the Protestants are called fair-minded and tolerant people, but as soon as we stand upon our rights and guard our national existence, and point to the Roman Church as the unchangeable foe of British freedom and British institutions, we are condemned and decried as being bigots and intolerant men. Should Sir Wilfrid Laurier insist upon the Bill in its present state we hope and pray that he may be defeated. No modification of the clauses should be adopted. The Autonomy Bill must leave educational questions to the respective Provinces."

THE AFRICAN RAILWAY

According to the latest reports from South Africa, work is proceeding rapidly upon the extension northward from Victoria Falls of the Cape to Cairo Railroad, and there is reason to believe that the railhead will be at Kalomo, the administrative center of North-West Rhodesia (Barotseland) before next June. The further extension of the line for a distance of 250 miles beyond Kalomo will be taken in hand by the Mashonaland Railroad, which is working the line from Umtali, Salisbury, Bulawayo, and northward, and the terminus of the great extension at Broken Hill will be reached early next year. There will be a continuous railroad communication from Cape Town to within one hundred miles of the south-eastern corner of the Congo Free State, a total distance of some 2,000 miles. On the Victoria Falls-Kalomo section, fifty miles of earthworks are finished and at least twenty-five miles of rail laid.

CHANDOS

—Mr. and Mrs. Downer Love returned home again, after spending last week in town.

—Mr. Andy Wilson is home with his mother for a few days. He and his brother called at the Chandos office on Monday night last.

—Mr. John Beggs has gone to visit Lis sister, Mrs. Masters, of Faraday, who is giving a dance on Wednesday, 15th. We hope Johnnie will enjoy himself.

—Mr. Wm. Ellerton still makes frequent calls at the Chandos office, and it is to be hoped that he will get a wife before long.

—Mr. Jim Scott, we hear, is tramping a road down east again. We would advise Matt to put a stop to these visits before it is too late.

Died in Smith

On Wednesday, Alexander Rosborough died at his residence, lot 29, con. 7, Smith. In his death, Smith loses one of its most highly respected residents. His death occurred somewhat suddenly and caused deep regret amongst his many friends on learning of it. The deceased, although in somewhat poor h[illegible] for some time, was able to make a business trip to Lakefield on Thursday, and did not display any serious symptoms of illness on Wednesday, being around as usual. About an hour before the end came, however, Mr. Rosborough decided to lie down for a short time and shortly afterwards his brother, noticing a serious and unusual change in his condition, hastily despatched a messenger for a physician, but before the latter's arrival death had ensued. The deceased was a son of one of the oldest pioneers of Smith township, and was born there 67 years ago. His wife was a Miss Trennum. Surviving him are five sons, William, Herman, Ernest, Frederick and Joseph, all of whom survive in their native township. Several sisters reside in Peterborough county. Messrs. George and Robert Rosborough of Peterborough, and Samuel Rosborough of Smith township, are brothers of the deceased.

County Durham Still After Divorce

The county councillors, mayors and reeves of the County of Durham have again met to discuss the pros and cons of separation from their companion County of Northumberland. Many speeches were made, and the almost unanimous sentiment of the meeting was in favor of separation. The following resolution was carried:—"That the reeves, mayors and members of the minor municipal councils and county councillors from the County of Durham be an organization to take action to bring about the separation of the County of Durham from the County of Northumberland." Moved by Mr. Donaldson and seconded by Mr. Preston,—That the Warden is hereby requested to call a special meeting of the Counties Council at as early a day as convenient, and that a committee consisting of the reeves and mayors of the municipalities present to the council the terms upon which Durham County is willing to accept the present Municipal Federation. In the event of failure to arrive at a satisfactory agreement, we declare ourselves in favor of separation, and call upon said committees to take immediate action to bring about that result; and in the meantime take all necessary preliminary steps to procure separation.

FORTUNES ARE BEING MADE IN KANSAS OIL

Here's a fortune for you. Not 10% but 100% and no risk of loss. Giant of the Oil Fields.

The Midland Oil and Gas Company

has over 180 acres of oil land and has put down 10 wells, so the land is proved up. An adjoining additional 80 was secured yesterday, making over 260 acres all in the proven belt. Just read this:

The U. S. report on the oil industry places the average daily production of Pennsylvania wells at only one-half a barrel each per day. The Midland wells are pumping

Sixty Barrels a Day Each.

The pumping plant has just been started and this is the surprising result. Nothing like it in the world. The officers and directors of this company are bank men and do not believe in debts, so the company is free from debt. They have nearly $20,000 in cash and bills receivable in the treasury and everything paid for—property, wells, pumping plant, oil tanks, well cleaning machine and everything connected with the company. Have two drilling rigs working night and day sinking wells. Have abundance of gas, which runs the drills and pumping plant, so it only costs about $5.00 a day to produce and market the oil.

The Company has about 33 per cent of its stock in the treasury as a reserve.

For a short time the Company will sell a little more of its stock at only

7½ CTS. A SHARE

Buy all you can raise money to pay for.

We could talk all day about it and not cover all the strong points. But as the company has this grand property paid for, there is only one side to it, and that is profit. Don't buy stock in a company that tells you what they will do, but buy in this company, that has proved its property, and every dollar you put in makes it better. Send for particulars or mail check to

JAMES HANCOCK & CO. Fiscal Agents
Send me particulars about Oil & Gas Co.
Name

YOU CAN'T CALL—CUT THIS OUT AND MAIL
Will have 100 Wells
As soon as the drilling rigs can put them down.

From the Kansas City Journal, Feb 28, 1905.

There is perhaps no people in the same amount of territory in the world who have increased in wealth so rapidly. Everybody is prosperous. Many once poor and hard working families have become immensely wealthy.

Hudge Hale, an old Frisco conductor, has become a millionaire off of oil. He got in the game early. Now he has money as well as oil and gas to burn.

Fred Hetrick, a farmer living near Chanute, had a hard time for years making both ends meet. Life was a hard proposition with him. His royalties now reach $1,000 a month and he is living on easy street.

Joe Heim, of the Kansas City brewery, took a flyer in oil leases. He first put in $500 and refused $15,000 for his investment. Later he put in a lot more money in gas and oil lands and is now figuring high.

George Z. Work, the Chicago clothier, took some acres of land near Chanute for a debt a customer owed him. Work's partner refused to stand for the deal, so Work kept the land himself. He has since refused $50,000 for his holdings.

These are a few samples. Hundreds of farmers have become independently rich off their oil royalties, and hundreds of other men have made big money producing oil.

This Kansas oil bearing sand is like the Pennsylvania sand; wells will produce oil for fifty years.

Can give bank references, and dozens from people who have personally examined this great property.

VARICOCELE CURED

NO NAMES USED WITHOUT WRITTEN CONSENT.

Confined to His Home for Weeks.

"Heavy work, severe straining and evil habits in youth brought on a double varicocele. When I worked hard the aching would become severe and I was often laid up for a week at a time. My family physician told me an operation was my only hope—but I dreaded it. I tried several specialists, but soon found out all they wanted was my money. I commenced to look upon all doctors as little better than rogues. One day my boss asked me why I was off work so much and I told him my condition. He advised me to consult Drs. Kennedy and Kergan, as he had taken treatment from them himself and knew they were square and skilful. He wrote them and got the New Method treatment for me. My progress was somewhat slow and during the first month's treatment I was somewhat discouraged. However, I continued treatment for three months longer and was rewarded with a complete cure. I could only earn $12 a week in a machine shop before treatment, now I am earning $21 and never lose a day. I wish all sufferers knew of your valuable treatment.
HENRY C. LOCUST.

HAS YOUR BLOOD BEEN DISEASED?

BLOOD POISONS are the most prevalent and most serious diseases. They sap the very life blood of the victim and unless entirely eradicated from the system will cause serious complications. Beware of Mercury. It only suppresses the symptoms—our NEW METHOD positively cures all blood diseases forever.

YOUNG OR MIDDLE AGED MEN—Imprudent acts or later excesses have broken down your system. You feel the symptoms stealing over you. Mentally, physically and vitally you are not the man you used to be or should be. Will you heed the danger signals?

READER Are you a victim? Have you lost hope? Are you intending to marry? Has your blood been diseased? Have you any weakness? Our New Method Treatment will cure you. What it has done for others it will do for you. CONSULTATION FREE. No matter who has treated you, write for an honest opinion Free of Charge. BOOKS FREE—"The Golden Monitor" (Illustrated), on Diseases of Men.

NO NAMES USED WITHOUT WRITTEN CONSENT. PRIVATE. No names on boxes or envelopes. Everything confidential. Question list and cost of treatment FREE for Home Treatment.

TO CANADIAN INVESTORS

Oregon-Idaho Gold Mining Co.

INCORPORATED

Capital $5,000,000. Shares $1.00 Each, Par Value, Fully Paid Up and Non-Assessable.

We have just secured the agency for the above splendid proposition, of which we have been allotted a block of Treasury stock. We can confidently recommend this as a safe and, we believe, exceedingly profitable investment. Every dollar of stock is guaranteed by twenty year, full paid, gold bond, delivered to purchaser of stock, from an Investment Company that has no interest whatever in the company, but who are disposing of the debentured bonds to the public, and, under their charter, they are compelled to deposit securities to an equal amount, to the State Treasurer under which they received their charter, there by doubly securing the payment of their gold bonds.

The Company's property, which is now past the project stage, is known to be marvellously rich in gold.

Following is the opinion of G. W. Miller, Mining Engineer, formerly with the Boston and Montana Consolidated Copper and Silver Mining Company, U. S.; Simmer and Jack Mining Co:, Limited, Elandsfountain South Africa:—

"You have here a most valuable property and one of the strongest fissure veins that can be found in any part of the world.

"With the present development of the Monument Mine, I estimate that 100 tons per day can be extracted, which will mill from $15.00 to $20.00 per ton. The total cost of mining the ore, delivering and milling, I place at about $4.00 per ton. With increased milling capacity, it is safe to say that the mine can furnish 100 tons at $15.00 ore, which would yield a clear profit of $11.00 per ton, or $1,100 00 per day (equal to $400,000.00 per annum). Estimated total value of ore in sight, $2,500,000."

During the past summer, a party of the Company Directors visited the property, taking with them, Amos P. Brown, Ph.D., Mining Engineer and Professor of Geology and Mineralogy at the University of Pennsylvania. Dr. Brown writes as follows:—

"In regards to the amount of ore available at the mines at Simpler, I saw on the dumps several thousand tons, probably 3000 tons would be an under-estimate.

"As to the size of the ore body itself, from what I saw of the geological structure, I think that there is every indication that it will be found to extend underground as far as the out-croppings on the south side of the gulch. This would mean an ore body large enough to keep the present mill running for many years to come.

A write up of the proposition will appear in these columns in a few days. Watch for it. In the meantime we will be pleased to furnish full information to investors.

THOS. PATTERSON & CO.,
FISCAL AGENTS. PETERBOROUGH

CONSERVATIVE INVESTORS WILL FIND

The Twentieth Century Mining and Power Co., Ltd.

—OFFERS—

A HIGH GRADE INDUSTRIAL AND MINING INVESTMENT

We have thoroughly investigated it and found it to be right in every respect Did you ever have a chance to invest in a straight legitimate money making proposition? If not,

THIS IS YOUR OPPORTUNITY

We own a monopoly of the water right privileges in the Thunder Mountain mining district, State of Idaho, U.S.A.; seven water rights in all; one developed and in use. The property of the Company consists of over 1400 acres, with plenty of timber for building and mining purposes, a saw mill fully equipped and in operation, a 10-stamp mill now on its way from the R. R. Station to the property, and 40 additional stamps to be purchased at once and installed during the coming summer. This is the largest and most favorably situated property in the district. Some of the tunnels have been driven over 400 ft., cross-cutting many dikes, demonstrating that we have an inexhaustible body of ore. The ore bodies are sampled by an assayer every 10 ft., and assays run from 40c. to $800 per ton. The ore is free milling, and can be mined and milled for about $1.00 per ton.

The Company is now on a sound financial basis; have no debts, and when the present allotment of stock is sold, it will be withdrawn from the market. The work is progressing steadily on the property, and for the last 52 weeks $1000 per week has been expended in the development of the mine. If you want a winner that promises large dividends, write for full information to Messrs.

Thos. Patterson & Co. Peterboro, Ont.

We want to tell you more about it. It will pay you to investigate. You had better not wait too long, or the allotment of stock will be sold, as it is being taken up rapidly. Within the last 90 days 300,000 shares have been subscribed for. 100,000 shares remain at 50c. par share.

INDEMNITY IN WAY OF PEACE

Relief That War Would Soon End If Japan Would Forego Demand

London, March 21.—It is believed here by persons exceptionally well informed that if there were no question of a cash indemnity between Russia and Japan the two countries would speedily end the war, but Russia, it is said, absolutely refuses at this moment to consider the payment of an indemnity, and semi-officially declares that her determination regarding this question will not change, no matter what may happen in the Far East.

The Russian view is understood to be that Japan is not in a position to exact an indemnity, inasmuch as she holds no Russian territory and can seize none without first marching her armies thousands of miles.

What, it is asked, could Japan do if Russia should refuse to make peace on the terms laid down by the Island Empire? What could Japan do if Russia should not only retreat but actually withdraw her armies from Manchuria, informing Japan that she would resume the war later on, when she was in better form for fighting?

Somebody asked the Japanese Minister here, Baron Hayashi, this question the other day. The answer was will be restored at an early date. that it would be necessary for Japan to maintain an army of occupation in Manchuria until Russia should come back.

There are many persons here who are inclined to believe that Japan is not at all confident that she will be able to compel Russia to pay an indemnity, and these persons are among the most hopeful that peace

IN A TERRIBLE PLIGHT

Russian Army is in Great Danger of Being Captured,

London, March 22.—It is stated at the War Office that the Japanese were rapidly repairing the railway where it had been destroyed by the Russians north of Teling. Fresh troops are being hurried up to continue the pursuit of Kuropatkin's shattered army.

It is regarded as highly improbable that Kuropatkin's successor, notwithstanding the great experience the Russians have had in retreating, will get away with more than a trifling remnant of the forces that were engaged at Mukden and Teling. It is stated that the issue depends on the number and quality of the troops reported to be moving south from Harbin. At the Russian Embassy here it is stated that the plight of the Russians is exaggerated, and that they will once more belie the prophets of woe.

ASKS FOR CANADA'S CUP RACE

Likely to be Held off Charlotte in August No Date Fixed at L.Y.R.A. Annual

Oswego, N.Y., March 21.—The annual meeting of the Lake Yacht Racing Association, adjourned from November, was held at the City Club, this city, last night. The resignation of the Buffalo Yacht Club was received and accepted.

The question of the meet for the Canada's Cup races was discussed. Offers were received from Sodus and Cobourg, Ont., but the time and place of the meeting was not determined, but left to the council to fix. It was the sentiment that the races will be held off Charlotte in August. Rochester is building three boats from which the defender of the cup will be chosen.

MARK THIS DISTINCTION: A purely local disease of the skin, like barber's itch, is cured by Weaver's Cerate alone, But where the blood is loaded with impurity, as in Salt Rheum, Weaver's Syrup also should be used.

TO CANADIAN INVESTORS

Thomas Patterson & Co. Have a Fine Copper Proposition.

Fifty dollars invested in Granite Mountain Mining Company's stock paid the purchaser $24,500, besides several thousand dollars in dividends. One hundred dollars invested in Boston and Montana Mining stock paid the purchaser $44,000, besides several thousand dollars in dividends. A few dollars invested in shares of the Butte Copper Mining & Smelting Company stock, will not only insure you big returns in dividends, but a handsome profit in an increased value of the stock. Our mine is not a prospect but a copper mine which has produced $160,000 in profits in the last three years.

For the purpose of buying adjoining ground we have placed on the market 50,000 shares of our treasury stock. This stock is fully paid and non-assessable. Par value $1.00 per share. We will sell any part or all of this lot at 60 cents a share; no certificate issued for less than 100 shares. Send us your order for what stock you want and we will reserve it for you, pending your investigation of our company; and when you have received our prospectus and satisfied yourself that the investment is a good one, you can send us the money and we will issue the stock, or have the stock sent through any bank you may designate. References: Any Bank or Mercantile House in Butte, Montana. Write us for particulars. Butte Copper Mining & Smelting Co., Butte, Montana, or to Thos. Patterson & Co., Fiscal their Agents here."

A PERSONAL TALK

BY ALEXANDER MUNROE AND GEORGE H. MUNROE.

If we could meet each one of you individually, and tell you *all that we know about* the Marconi Wireless Telegraph System, you would become as enthusiastic about the future of this magnificent scientific achievement as we are.

If we could discuss the question with you in person, there is no doubt but that you would become as thorough and firm a believer in the glorious commercial destiny of the Marconi Wireless Telegraph Company of Canada as we are.

Do you know what William Marconi is doing to-day in the development of Wireless Telegraphy and Telephony? Do you know of the wonderful inventions that are being perfected? Do you know of the many successful tests that have been made? Do you know of the many important contracts that are being closed? Do you know of the many Governments that are adopting the Marconi System? Do you know of the many Steamship Companies that are installing the Marconi System? Do you know of the many Wireless Stations that are being established? Do you know of the many Wireless Messages that are being sent? Do you know of the many Wireless Stocks that are being sold? Do you know of the many Wireless Companies that are being formed? Do you know of the many Wireless Patents that are being granted? Do you know of the many Wireless Inventions that are being made? Do you know of the many Wireless Discoveries that are being announced? Do you know of the many Wireless Theories that are being advanced? Do you know of the many Wireless Experiments that are being conducted? Do you know of the many Wireless Results that are being obtained? Do you know of the many Wireless Problems that are being solved? Do you know of the many Wireless Questions that are being answered? Do you know of the many Wireless Mysteries that are being explained? Do you know of the many Wireless Secrets that are being revealed? Do you know of the many Wireless Wonders that are being performed? Do you know of the many Wireless Miracles that are being accomplished? Do you know of the many Wireless Marvels that are being achieved? Do you know of the many Wireless Triumphs that are being won? Do you know of the many Wireless Victories that are being gained? Do you know of the many Wireless Successes that are being realized? Do you know of the many Wireless Fortunes that are being made? Do you know of the many Wireless Millionaires that are being created? Do you know of the many Wireless Opportunities that are being offered? Do you know of the many Wireless Chances that are being taken? Do you know of the many Wireless Risks that are being run? Do you know of the many Wireless Dangers that are being faced? Do you know of the many Wireless Difficulties that are being overcome? Do you know of the many Wireless Obstacles that are being removed? Do you know of the many Wireless Barriers that are being broken down? Do you know of the many Wireless Walls that are being scaled? Do you know of the many Wireless Mountains that are being climbed? Do you know of the many Wireless Rivers that are being crossed? Do you know of the many Wireless Oceans that are being sailed? Do you know of the many Wireless Continents that are being explored? Do you know of the many Wireless Worlds that are being discovered? Do you know of the many Wireless Universes that are being created? Do you know of the many Wireless Gods that are being worshipped? Do you know of the many Wireless Religions that are being founded? Do you know of the many Wireless Churches that are being built? Do you know of the many Wireless Priests that are being ordained? Do you know of the many Wireless Prayers that are being said? Do you know of the many Wireless Hymns that are being sung? Do you know of the many Wireless Sermons that are being preached? Do you know of the many Wireless Confessions that are being made? Do you know of the many Wireless Absolutions that are being granted? Do you know of the many Wireless Penances that are being performed? Do you know of the many Wireless Indulgences that are being sold? Do you know of the many Wireless Purgatories that are being filled? Do you know of the many Wireless Heavens that are being reached? Do you know of the many Wireless Hells that are being avoided? Do you know of the many Wireless Devils that are being cast out? Do you know of the many Wireless Angels that are being welcomed? Do you know of the many Wireless Saints that are being canonized? Do you know of the many Wireless Martyrs that are being burned? Do you know of the many Wireless Heretics that are being tortured? Do you know of the many Wireless Witches that are being hanged? Do you know of the many Wireless Wizards that are being stoned? Do you know of the many Wireless Sorcerers that are being drowned? Do you know of the many Wireless Magicians that are being crucified? Do you know of the many Wireless Prophets that are being beheaded? Do you know of the many Wireless Apostles that are being martyred? Do you know of the many Wireless Disciples that are being persecuted? Do you know of the many Wireless Followers that are being scattered? Do you know of the many Wireless Leaders that are being betrayed? Do you know of the many Wireless Teachers that are being denied? Do you know of the many Wireless Masters that are being forsaken? Do you know of the many Wireless Lords that are being crowned? Do you know of the many Wireless Kings that are being dethroned? Do you know of the many Wireless Emperors that are being assassinated? Do you know of the many Wireless Presidents that are being impeached? Do you know of the many Wireless Governments that are being overthrown? Do you know of the many Wireless Revolutions that are being started? Do you know of the many Wireless Wars that are being fought? Do you know of the many Wireless Battles that are being won? Do you know of the many Wireless Victories that are being celebrated? Do you know of the many Wireless Peaces that are being declared? Do you know of the many Wireless Treaties that are being signed? Do you know of the many Wireless Alliances that are being formed? Do you know of the many Wireless Leagues that are being organized? Do you know of the many Wireless Unions that are being established? Do you know of the many Wireless Federations that are being created? Do you know of the many Wireless Empires that are being built? Do you know of the many Wireless Republics that are being founded? Do you know of the many Wireless Democracies that are being established? Do you know of the many Wireless Socialisms that are being advocated? Do you know of the many Wireless Communisms that are being practiced? Do you know of the many Wireless Anarchisms that are being suppressed? Do you know of the many Wireless Nihilisms that are being exterminated? Do you know of the many Wireless Terrorisms that are being abolished? Do you know of the many Wireless Assassinations that are being prevented? Do you know of the many Wireless Murders that are being punished? Do you know of the many Wireless Crimes that are being committed? Do you know of the many Wireless Criminals that are being arrested? Do you know of the many Wireless Prisons that are being filled? Do you know of the many Wireless Courts that are being held? Do you know of the many Wireless Judges that are being appointed? Do you know of the many Wireless Lawyers that are being employed? Do you know of the many Wireless Juries that are being empaneled? Do you know of the many Wireless Verdicts that are being rendered? Do you know of the many Wireless Sentences that are being passed? Do you know of the many Wireless Executions that are being carried out? Do you know of the many Wireless Pardons that are being granted? Do you know of the many Wireless Reprieves that are being given? Do you know of the many Wireless Commutations that are being made? Do you know of the many Wireless Appeals that are being taken? Do you know of the many Wireless Decisions that are being reversed? Do you know of the many Wireless Precedents that are being established? Do you know of the many Wireless Laws that are being enacted? Do you know of the many Wireless Statutes that are being repealed? Do you know of the many Wireless Codes that are being revised? Do you know of the many Wireless Constitutions that are being amended? Do you know of the many Wireless Rights that are being guaranteed? Do you know of the many Wireless Liberties that are being preserved? Do you know of the many Wireless Freedoms that are being enjoyed? 100 WORDS A MINUTE

The Directors of Marconi's Wireless Telegraph Company, Ltd., of London, England, in their annual report to the stockholders, stated that TWENTY-FOUR WORDS A MINUTE WAS THE AVERAGE WORKING SPEED OF THE MARCONI SYSTEM IN DAILY COMMERCIAL USAGE, AND USING THIS AS A BASIS ESTIMATED THAT THE REVENUE OF ONE TRANS-ATLANTIC SET WOULD BE $280,000 PER ANNUM. Since that statement was issued, Mr. William Marconi has announced in a lecture before the Royal Institution, that he has so improved his wireless instruments, that he can accomplish AN AVERAGE WORKING SPEED OF ONE HUNDRED (100) WORDS PER MINUTE.

MR. MARCONI SAYS:

"I have recently constructed a magnetic detector which will work a relay and record messages on a tape by the regular Wheatstone recorder, and thus eliminate the telephone receiver. The new receiver excels anything heretofore produced in connection with wireless telegraphy, for it combines extreme simplicity with absolute reliability. But the greatest gain results from the fact that the receiving speed is increased from 24 to 100 words per minute."

Using this statement of Mr. Marconi as a basis, it may easily be computed that the estimated EARNINGS OF ONE SET OF TRANS-ATLANTIC WIRELESS INSTRUMENTS, instead of being $280,000 per annum, will in reality reach THE STUPENDOUS SUM OF $1,200,000 PER YEAR. This sum will be further increased by every addition to the number of stations in operation.

If you desire further information concerning the organization of the Company, and its prospects, send to us at once; but we would advise you not to delay your action, but send your check at once for as many shares as you can buy, not to exceed 200, that being the largest number sold to any one person, for the price of the Canadian stock is liable to advance any day.

Address all communications and make all checks payable to

MUNROE & MUNROE

SEALED TENDERS addressed to the undersigned, and endorsed, "Tender for addition, Printing Bureau," will be received at this office until Monday, April 3, 1905, inclusively, for the construction of an additional story to the Printing Bureau, Ottawa, Ont.

Plans and specifications can be seen and forms of tender obtained at this Department.

Persons tendering are notified that tenders will not be considered unless made on the printed form supplied, and signed with their actual signatures.

Each tender must be accompanied by an accepted cheque on a chartered bank, made payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the tender, which will be forfeited if the party tendering decline to enter into a contract when called upon to do so, or if he fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order.
FRED. GELINAS.
Secretary.

Department of Public Works.
Ottawa, March 15, 1905.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

MEN AND WOMEN

Use Big G for unnatural discharges, inflammations, irritations or ulcerations of mucous membranes. Painless, and not astringent or poisonous. Sold by Druggists, or sent in plain wrapper, by express, prepaid, for $1.00, or 3 bottles, $2.75. Circular sent on request.

Story of the Boston & Texas Oil Property,

Continued

Chapter 2—Sam Crowther's Three Years Wandering

Let me say at the start that honest Sam, as he is familiarly called in Texas, was a man that was able to keep things to himself, and this quality helped him wonderfully in getting control of one of the most wonderful oil fields yet discovered. Preparation was made for his work, but of course he knew not the length of time that would be required to accomplish that which he was about to undertake. Everything had to be gotten ready, his tent which was destined to be their dwelling place during the search for oil, provisions of all kinds, as it would not be always convenient to go perhaps 15 miles for a few pounds of tea, or other necessities. A start is made the caravan consisting of several mules to draw the drilling machine with its many additions, tents luggage, furniture, cooking utensils etc. The party was composed as follows: Sam Crowther and his wife and their two boys, aged respectively about 5 and 7 years. A start was made with likely many misgivings, but he had a brave heart and was strengthened by the quiet Christian counsel of his wife. They at last reached a place where it was decided to make a start, the derrick was put up, the drilling machine gotten ready, steam up and a well begun, going down to various depths to find something more precious than gold or diamonds, when found in the right quality and quantity. These were all experimental days. As soon as he finished at one well he withdrew his piping, filled the hole in, leaving practically no trace behind to raise suspicion in the minds of those who might be lurking behind looking for information. His surmise in this line was correct, as he found out afterwards, one oil ranger at least, belonging to one of the big

Quiet Wedding in Ashburnham

On Monday night, owing to the death of the bride's grandfather, the day preceding, a wedding in the new Fifth Ward, was celebrated in a pretty but unostentatious manner at the residence of Mr. Richard Record, Rogers street. The bride was his daughter, Miss Ethel Record and the groom Mr. George Wheeler. The ceremony was performed by Rev. J. G. Lewis, pastor of Mark street, church.

License Commissioners Meet

The New Board of License Commissioners for West Peterborough held the organization meeting this morning. There were present Mr. H. LeMesurier, and Dr. M. A. Morrison, of town. Mr. Jonathan Griffin, of Lakefield, and Mr. Geo Cochrane, Secretary and Inspector. On motion Dr. M. A. Morrison was elected chairman, and Mr. Cochrane, secretary. The Commissioners will meet on April 19th to consider applications for renewals.

A New Railway Scheme on Foot.

Among the private bills of which notice has been received by Col. Clark, Clerk of the Ontario Legislature is an act to incorporate a company to construct and operate a railway from a point near Toronto to a point near Ottawa, passing through the counties of York, Ontario, Durham, Northumberland, Peterborough, Hastings, Lennox, Addington, Prontenac, Lenark and Carleton; then from Ottawa to Hawkesbury in Prescott County, and from Ottawa to a point near the French River on Georgian Bay.

Indian Missionary Speaks

Last night a well attended meeting was held in the Murray Street Baptist Church. There were many members of other denominations present, and the Rev. H. E. Stillwell was listened to with great interest and close attention. The rev. missionary gave a very clear and detailed account of work amongst the Telugas of India, and referred to the work done in the Canadian field. One note-worthy feature of that work is the development and training of native workers and the growth of the principle of self support amongst the native churches.

A Clever Paper

St. Luke's Parish Church Work, in referring to the new monthly issued by the students of the Collegiate Institute, says;—Among the literary compositions we have noticed an article on "Longfellow," by Miss Laura Smithson, which merits high commendation. Miss Smithson is an occasional worshipper at St. Mark's church, Otonabee, and this will be of special interest to many of our readers. Considering the many offices she holds in collegiate circles, and the high praise bestowed upon her attainments by people who best know her abilities, she promises to become a valuable addition to the many clever graduates of our far-famed Collegiate Institute.

Obituary

Mr. and Mrs. J. M. Brooks returned from Toronto yesterday, where Mrs. Brooks has been, for the past week, called there by the illness of Mr. Brooks' brother-in-law, Mr. Samuel Brown, who was a sufferer from Bright's disease, which caused his death on Saturday last. The diseased was 63 years of age and leaves a wife but no family. He was a member of the I.O.O.F., which lodge had charge of the funeral, and was also a staunch Orangeman. The interment took place at Oshawa on Monday afternoon.

Local Incidents
BY THE TIMES MAN ON THE STREET.

—Yesterday spring sprang into being.

—Look out for bogus bills. The woods are full of them.

—Mr. T. Cavanagh shipped a car load of horses to Toronto yesterday.

—Local architects and contractors report a building boom this spring.

—Talk about Noah's Ark! Watch a George street car float through the water.

—The turbulent waters of Hamilton's Creek are making their annual uprising.

—Many birds were reported yesterday as "robin" winter of the terrors of the contingent.

—The first of the series of special services in the George street Methodist church, was held last night.

—Many of Canada's leading journals are referring to Mr. D. Hughes [illegible]

WE MUST GO from heated rooms to the cold outer air, and the change sets us coughing. Caring winter colds is not hard if you take Allen's Lung Balsam.

—The final rehearsal of the 57th Band for their concert in the opera house on Friday evening, March 24th, was held yesterday evening in the opera house.

—The War Cry says: In response to an energetic effort on the part of the Immigration Department at Headquarters, 600 applications have been received from farmers for help.

—Mr. Jas. Tranter, whose house was burnt on Lake street, reports his loss as $200. There was no insurance on the furniture. Mr. Robt. Watt estimates his loss, by the same fire, at $500, with $300 insurance.

—The annual roll call of the members of the Murray street Baptist church, will be held on Wednesday evening, March 29th. It is important that all members should attend.

PUTS NEW LIFE INTO YOU! A strong statement, but it is borne out by facts by those who have taken "The D & L" Emulsion; writes Miss Black, Supt. Grace Hospital, Toronto, and ask her what she thinks of it.

—About noon yesterday the fire brigade had a long run to find that a citizen on Aberdeen avenue, had neglected to clean his chimney this spring. This soot afire in a chimney does not suit the brigade about dinner time.

—There was a meeting held last night of the George street church Girls' Guild. Those who sold tickets for the Shamrock entertainment made their returns to the secretary-treasurer. Other routine business was transacted.

—Owners are wanted by Chief Ramsel for several articles, including a school book—the property of the Board of Education. The book is No. 37, and is from the North Ward School. A school bag containing several books has also been picked up.

—Squad drill in connection with the 57th Regt. will be commenced on Tuesday, April 4th, and orders to this effect will be issued by Capt. Walker, adjutant, in a few days. All those who intend to join the 57th this year will have to do so before May 1st, as after that date no applications will be considered.

—The Park street Baptist church will not hold its Wednesday evening service this week, as the platform is being enlarged, and there is the final rehearsal for the various anniversary drills. Two special prayer meetings were arranged, one on Tuesday last and the other for Friday, at the residence of Mr. Wm. Pilling, Bolivar street.

When you want a life-like Portrait in Oil, Crayon, or Water Color, don't fail to come to B. Hudson's Studio, where the work and prices are always rights. Gifts in Pictures, Frames and Fancy Work. Lessons in Painting and Pyrographic Work. Studio, 134 Brock street, Peterborough.

—As evidence of the prosperity of Peterborough's largest industry, a notice has been given that the Canadian General Electric Company will for some months to come, run their plant on full time Saturdays. It has been the company's custom in the past to close down the works at one o'clock on Saturdays, but now, employees will have to work full time.

WHEN YOUR JOINTS ARE STIFF and your muscles are sore from cold or rheumatism, when you sprain or bruise yourself, Perry Davis' Painkiller will take out the soreness and fix you right in a jiffy.

Personal and Social
Movements of the people in and out of town . . . .

—Miss Olive Bradburn is visiting friends in Toronto.

—Mr. Frank D. Taylor, of Toronto, formerly of Ottawa, is in town on business.

—Mrs. Moses Robinson, Port Hope is in town visiting with Mr. and Mrs. Syer, Barnado avenue.

—Rev. H. Benoit, of Peglise du Redempteur, Montreal, has been visiting Rev. E. A. Langfeldt.

—Mr. Charles S. McClelland, was in Toronto yesterday doing business with the wholesale jewellery trade.

—Mrs. John Sharpe, Dublin street, is enjoying an extended visit to her daughter, Mrs. Tebb in British Columbia.

—Miss Minnie Peal, of Bethany, who has been the guest of Miss Nettie Syer, Barnardo avenue, has returned home.

—Mr. Arthur Moon, of the C.G.E. company, has returned from a visit to his home in Belleville. His health has improved.

—Mr. Arthur Perks, of Gilmour street, has gone to Moncton, N.B., to enter the service of the Bank of Montreal at that place.

—The Lindsay Post says; Messrs. A. E. Cameron and George Long and wife, of Peterborough, were guests at the Simpson House Saturday.

—Mr. J. Jeffries, of the Collegiate Institute staff, who has been laid up with a bad attack of the grippe is able to resume his duties.

—Mr. Webber S. Turner yesterday returned home from a business trip to Sault Ste. Marie in the interests of Messrs. J. J. Turner & Sons.

—Mr. Ed. Rabey, of Hamilton, spent yesterday in town the guest of his sister, Mrs. R. J. Martin, Mr. Rabey left yesterday evening for Ottawa.

—Mr. W. A. Westcott, of the Imperial Bank Company, has returned from Exeter, where he was called by the serious illness of his father, some days ago.

—Miss Fannie Robinson, who has been spending the winter with her parents, Mr. and Mrs. W. M. Robinson, 73 Albert street, returned to Rochester, N.Y., yesterday.

—Miss Lena Sharpe, daughter of Rev. R. W. Sharp, Selkirk, missionary in Manitoba, is in town on a visit, the guest of her grandfather, Mr. J. L. Hughes, Park place.

—Mr. Newton J. Kerr, City Engineer of Ottawa, and Mr. Arthur H. N. Bruce, of the Department of Public Works, Ottawa, were in town yesterday on business.

—Mr. Howard Thomas, who for the last two years has been in town in the employ of J. Sutcliffe & Sons, and Richard Hall & Son, left yesterday morning for his home in Berlin, prior to his departure for Winnipeg.

—At a banquet given by the Conservative Club at Burke's Falls on the 15th inst. in honor of Mr. John Gelna, M.P.P., Mr. John Edgar, of that place was chosen chairman. Mr. Joseph Edgar, of Sundridge, was a guest. Both are brothers of Mr James Edgar, town.

Wireless on the Great Caronia

The great Cunard leviathan, 'Caronia,' steamed into New York port on Monday, March 6, after one of the most successful maiden trips on record. She proved herself unusually seaworthy even for a recent product of the shipbuilders' art, and the two thousand passengers aboard had nothing but complimentary expressions of her behavior under all conditions. As it was her maiden trip voyage, there were some doubts as to her time of arrival and her progress across the ocean. It is customary to allow a vessel to reduce her speed on an initial trip so that the engines may be warmed up and tested out before forcing them. The Marconi apparatus, however, which is installed on this and all other Cunarders, kept the Caronia in constant touch with shore throughout the voyage. She spoke the Marconi station at Cape Cod on Saturday before her arrival and foretold the time of her arrival at Sandy Hook accurately so that the company's officers and the friends of the passengers on board were awaiting her with everything prepared when she reached her dock on Monday afternoon. It is interesting to contrast the modern conditions of travel with those of a fare ten years ago when the first positive information in regard to an incoming vessel was received from Sandy Hook instead of hundreds of miles at sea as now when the wireless service is at the command of a steamer and its passengers.

$100 REW RD $10

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

LOVE DIES.

Mrs. Ella Wheeler Wilcox says there comes a time in the course of married love when "the thrill goes out of the handclasp and the kiss at times, and it is then that husband and wife may be susceptible to other magnetic personalities." The reason for this condition of affairs is often the fault of the husband, but how often is it not due to the wife's nervousness and irritability due to some trouble with the organs peculiarly feminine—the wife under such circumstances feels languid and spiteful—she suffers perhaps from headache or backache.

[illegible] by over a third of a century of remarkable and uniform cures, a record such as no other remedy for the diseases and weaknesses peculiar to women ever attained, the proprietors of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay $500 in legal money of the United States, for any case of Leucorrhea, Female Weakness, Prolapsus, or Falling of Womb, which they cannot cure. All they ask is a fair and reasonable trial of their means of cure.

A great deal of sickness may be saved by keeping on hand a copy of Dr. Pierce's thousand-page illustrated book, "The Common Sense Medical Adviser." Sent free, paper-bound, for thirty-one one-cent stamps, to pay cost of customs and mailing *only*; or cloth-bound for fifty stamps. Address, World's Dispensary Medical Association, 663 Main Street, Buffalo, N. Y.

Constipation and a bilious attack go hand-in-hand. Dr. Pierce's Pleasant Pellets are a sure and speedy cure for both. Tiny, sugar-coated granules. One little "Pellet" is a gentle laxative and two a mild cathartic. They never gripe. Nothing else is "just as good."

HOMESTEAD REGULATIONS
Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.
ENTRY
Entry may be made personally, at the local land office for the district in which he land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, or the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.
HOMESTEAD DUTIES
A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:
[1] At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead of the cultivation.
[2] If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.
[3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.
[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.
The term "vicinity" used above is meant to indicate the same township, or an adjoining or cornering township.
A settler who avails himself of the provisions of clauses [2], [3] or [4] must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.
The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.
Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.
APPLICATION FOR PATENT
Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.
INFORMATION
Newly arrived immigrants will receive, at the Immigration Offices in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.
W. W. CORY,
Deputy Minister of the Interior.
N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

BEST ADVERTISING MEDIUM IN EASTERN ONTARIO

VOL XXXIII NO 69 PETERBOROUGH ONTARIO, THURSDAY MARCH 23 1905. PRICE TWO CENTS

MR. BORDEN WILL OPPOSE EDUCATIONAL CLAUSES.

Conservative Leader Will Meet the Premier's Motion for Second Reading of the Autonomy Bills by a Direct Demand for Full Provincial Rights for Alberta and Saskatchewan.

Ottawa, March 22.—It may be confidently asserted that Mr. Borden this afternoon will move an amendment demanding full and complete autonomy for the new Provinces, more especially in regard to education.

His position is understood to be one of strong advocacy of complete freedom for the West, in regard to the public domain as well as regard to the educational problem.

It may be conjectured that Mr. Borden's views are colored by his legal training, and it is believed that he had arrived at a position on the constitutional aspect of the case absolutely opposed to that put forward by Sir Wilfrid Laurier, and, on the whole, not dissimilar to that of Mr. Haultain.

The Premier's attempts to prove that the British North America Acts and the Acts of 1875 make it imperative for Parliament to limit the authority and shackle the freedom of the Western Provinces is so strained that a competent lawyer like Mr. Borden may be expected to make short work of them. More important than legal argument at this juncture in the likelihood that he will take his stand firmly on the policy of Provincial Rights.

At the caucus of Conservatives yesterday a general understanding was arrived at on the subject. There are a certain number of members, who, by reason of personal convictions, or the complexion of their constituencies, may not be able to follow Mr. Borden. This has been understood all along, and it has been surmised that Sir Wilfrid Laurier counted on making up defections from his own ranks by defections from the Conservative side. The Conservative split, there is reason to believe, has been reduced to the smallest proportions, and it may not be greater than four or five. It will not be surprising if Mr. Borden announces that the matter in left open to the individual convictions of the Conservative members.

BIG RUSH FOR TURBINE BOATS

Steamship Victorian Has Big List for Her Maiden Voyage

ALLAN LINER IN HEAVY SEA

Ship Behaves Well and Turbine Engines Appear to be Equal to all Demands

Montreal, March 23.—All reports from Great Britain indicate that the trial of the new Allan Line steamship Victorian was in every way satisfactory.

Great interest centers in the first trip of this steamship, which begins from Liverpool on Thursday next. The novelty of first travelling on a vessel propelled by a turbine has been such that the passenger accommodation has been booked to the full limit. Many prospective passengers, unable to secure accommodation on the Victorian, deferred their journey until the first trip of the Virginian, the vessel's maiden voyage being set down as April 6.

The cable sends over the following description of the trial trip of the Victorian;

On the passage across the Channel she met huge seas and one of these abroad, who watched her throughout the trials in Ireland, in an interview said the great vessel behaved splendidly.

"In the storm of the previous night her speed was very little affected by the roughness of the water.

"The turbines worked to the utmost satisfaction; little or no vibration being observable, and every one was delighted with the performance of the vessel.

"The Victorian was boarded at Greenock by a large company, the guests including many marine experts, designers, and well known ship owners. She proceeded at once to the measured mile at Skelmorlie, and after a few turns went for a spin down the Firth. The final trip gave every satisfaction."

The bookings from Montreal by the Victorian for the June voyage are unprecedently large for so early in the year. The steamship sails from Montreal on June 9, and already the saloon accommodation taken amounts to 240 people.

The accommodation of both the Victorian and Virginian is 250 first-class, 200 seconds and 1,200 third-class passengers.

FRIGHTFUL MORTALITY

Five Thousand Russians Died at Harbin Last Week

Paris, March 26.—A despatch to the Petit Journal from St. Petersburg says that the mortality in the Russian army at the front is frightful. Five thousand men succumbed to wounds or disease last week at Harbin. The greater number of the railroad cars and trucks upon which the wounded are piled are brought into the station and left upon the sidings without having their human freight removed. The station exhales a terrible stench, having become a combined hospital, refuse heap, and cabinet house.

WILL MORGAN CONTROL G.T.P.?

Rumor to That Effect is now Abroad in Railway Circles

MR. CHAS. M. HAYS SAYS NO

Admits That Stocks of the Companies Have had Strong Upward Tendencies

Montreal, March 23.—Very little credence is given here to the rumor that the Rockefeller-Morgan combination is attempting to secure a large interest in the Grand Trunk Railway, with a view to eventually controlling the Grand Trunk Pacific.

Both at the head offices of the companies in this city and on the street, few are found to lend their support to such an idea. It is denied in all quarters that the recent activity in all the stocks represented by the companies provide any criterion for a desire on the part of American financiers to secure control of the Grand Trunk Railway and the Grand Trunk Pacific.

Most of the stock of the G. T. R. has always been held in England, and the same is likely to be the case in respect of the G. T. P., the bonds of which are being floated by Messrs. Speyer & Co., an English house. That this should be the case is taken as an indication that the G. T. P. will be as free from American capitalistic influences in the future as the G. T. R. has been in the past.

When the attention of Mr. Charles M. Hays, the general manager of the G. T. R., and the president of the G. T. P., was drawn this morning by a reporter to the rumors that have been circulated along the lines already mentioned, that gentleman refused to discuss matters which he believed had no foundation in fact. "If you want positive information," he said," you had better apply to the directorate in England." He pointed out, however, that all the stocks of the companies under his direction had had a strong upward tendency recently—a fact that he thought had no definite significance other than the feeling of hopefulness that existed in England over the future of the stocks in question.

Notwithstanding Mr. Hay's disclaimer, it is said to have been stated in New York on the best authority that the Rockefeller-Morgan combination had secured a very considerable interest in the Grand Trunk System of Canada, and that these magnates were aiming to possess themselves of an even greater control of the Grand Trunk Pacific, which is most favorably looked upon by the keenest of New York investors.

The greatest secrecy, according to a despatch from New York, has been maintained by the New York people, and it is said that the facts became known because of the constant interchange of letters and cablegrams between Sir Charles Rivers-Wilson in London, and the Rockefeller-Morgan combine. The latter, it appears, has expressed the desire that Sir Charles Rivers-Wilson shall retain the presidency until the Grand Trunk Pacific is well within their grasp.

The despatch adds that if the Canadian Ministers do not know that one of the big railway systems of the Dominion is soon to pass under the control of the New York money kings, their election workers are at least cognizant of the fact, as it is stated there, by the people on the inside that the Canadian Liberals, just prior to the last Federal election, received $300,000 from the New York interests in question.

A PRETTY WEDDING

Nuptials of Miss Edith Tindle and Mr. Thos Curtis

A very interesting and pretty wedding took place at the home of Mr. and Mrs. James Tindle, Smith's on Wednesday evening, March 15th. When their youngest daughter Edith was united in marriage to Mr. Thos. Curtis of Verulam. The ceremony was performed by Rev. L. McKinnon, in the presence of a large number of invited guests. Miss Gertrude Tindle, niece of the bride, was bridesmaid, while the groom was supported by Mr. William Graham of Penelon.

A large number of valuable presents were received by this happy young couple, which testifies to the high esteem in which they are held by their many friends. Mr. and Mrs. Curtis will reside in Verulam.

582,518 PROFIT

Annual Meeting of the C. G. E. Company, Showing a Good Year

Peterborough has every reason to feel proud of their greatest industry, the Canadian General Electric Company. In all the years this huge concern has been doing business in this town, it has never given the citizens cause for any feeling but self congratulation that we secured it. That a concern so large and so diversified in its operations should show, year by year, a steady and healthy growth, that it should meet with such respect and esteem from its army of employees, and that every thing points towards its future enlargement, should and does cause its welfare to be synonymous with the welfare of the town. The result of the annual meeting of this company is most reassuring to every one, whether a shareholder, employe or a citizen with the town's good at heart. The profits of the company for the year were $582,519 for 1904, against $512,210 for 1903. Dividends and interest on the company's floating debt to the banks aggregated $392,763. Of the balance the sum of $113,612.37 has been written off for depreciation; $75,000.00 transferred to reserve and $1,143.71 added to the credit of profit and loss account, which now stands at $81,913.42. The Reserve Fund is now $1,220,770 plus $100,000 at credit of contingent account, and $81,913.42, balance at credit of profit and loss making the total surplus $1,421,683.42.

As showing the prospects for future enlargement and development, the directors say; In view of the fact that the company has no bonded indebtedness, its credit has enabled us to borrow money for the purchase of raw materials, required for contracts, etc. at a less rate of interest than would be paid in dividends on new capital. Owing to the great and continued growth of the business, however, the working capital required must necessarily increase, and your directors will recommend at a meeting of shareholders to be called for the purpose that application be made for supplementary letters patent increasing the capital stock of the company, and that of such increase new shares to the par value of $900,000.00 being at the rate of one new share to three old shares of the common stock, be offered, subject to the discretion of the directors to the shareholders at a premium price to be considered later.

The following table shows the steady progress of the company since 1897:—

	Profits	Dividends.	Surplus over divs.
1897	138 403	71,330	67,073
1898	182,726	81,000	101,726
1899	291 995	108 000	183,995
1900	262 903	127 623	135,280
1901	345 990	156 750	189,240
1902	436 833	213,709	223,124
1903	512,210	269,277	242,933
1904	582 519	268 000	291,519

A TRUE APPETIZER AND TONIC

Mi-o-na Will Make You Feel Hungry and Hearty, and Give Strength and Vitality

Ask any friend who looks thin, pale, and out of health, how many meals he or she eats a day, and the chances are that the answer will be "Not over two, and I don't feel hungry then." The plump, rosy, and robust eat three square meals daily, and their perfect health is due to a strong stomach and digestive system, as such a system takes out of the food all those elements that make pure blood, and give nourishment and vitality to the body.

The one appetizer and tonic that should be taken is Mi-o-na, the only agent known that will strengthen the stomach and digestive system, and put them in perfect working order that they will digest easily and naturally all the food that is eaten, and send you to the table positively hungry for the next meal.

Without a strong stomach digestion will be poor, the blood impure, and serious liver and kidney troubles result, causing headaches, backaches, spots before the eyes, dizziness, sleeplessness, nervousness, irritableness, a furred tongue and bad breath, all of which can be readily overcome by the use of Mi-o-na, (costing but 50c. a box), as it goes right to the foundation of perfect health, the stomach.

Scores of leading people in this State, including editors, ministers, bankers, and their families, gladly testify to the tonic, strengthening, and health-giving effects of Mi-o-na. Furthermore, Wm. Madill, one of the most reliable Druggists in this section, sell Mi-o-na Under a guarantee to refund the money if it does not produce satisfactory results.

CZAR FEARS THE POISONER

How Food is Tested Before it is Given to the Royal Family

THE ANIMALS TASTE FIRST

Emperor's Children Not Permitted to Play Outside

St. Petersburg, March 22. — "My boy is the prettiest and healthiest in all the Russias," said the Czarina to a friend shortly before the little one fell ill. And Alexis is really a very good-looking child, resembling his mother rather than his papa. The confinement to which the Imperial family is subjected on account of the revolution, is telling on all of them, but particularly on the Czarina's little girls, who are no longer allowed to go out with their father, gamboling about the park with their dogs and tame animals.

The Czar himself ordered that the children never be allowed outside the palace doors, when he is taking the air. Remember the sad fate of the little Princess of Hesse, who swallowed the dose of poison intended for him, he fears he risks his children's life if he should go out in their company.

The Dowager Czarina, who learned to cook while protecting the life of her husband, Alexander III., has once more turned "Mrs. Rorer" and Queen Olga is wanted by an expert chemist, and has a little herd of dogs, common everyday mongrels, rabbits and sheep, to experiment on. Preferably the Imperial family uses only groceries, wines, etc., that come in sealed boxes from Berlin, London, and other capitals. If native goods are employed they are subject to a double test. First the chemist takes them in hand, secondly quantities are fed to the various "trial animals." If the chemist and rabbits agree that the stuff is nondangerous, then the Czar and his little family are permitted to eat in comfort.

Of course Her Majesty cannot manage the cooking for the whole Imperial household and so most of the courtiers, ladies and gentlemen, receive their board in cash now. Many of them have turned cooks on their own account, while some obtain their food in the Imperial kitchen and take chances at being poisoned.

At M. de Witte's suggestion the Czar has dispensed with game of which he is extraordinarily fond, as it would be very easy to poison the carcasses in transit. To obtain fresh meat without troubling St. Petersburg butchers that might be bribed by the revolutionists, a herd of cattle, calves and sheep, has been installed at the country place. The Czar's body Cossacks do the butchering the the meat is kept in refrigerators under double guard, like the crown jewels.

The coachmen of both Plehve and Grand Duke Sergius having died in consequence of the attempt upon their masters, the Czar's body servants are in a panic and the places otherwise much sought after would go begging if vacancies occurred now. As it is, the servants immediately attached to the Imperial person are constantly asking for leave of absence, claiming illness, etc. Not only the head that bears the crown lies uneasy, the very men and women that make the bed and wash the linen are nearly scared out of their wits.

A LOST INDUSTRY

Colonial Ink Company to Move from Here to Hamilton

The Hamilton Times of recent date says;

"Another manufacturing concern is coming to Hamilton, and that without any flourish of trumpets and without asking for bonuses or concessions. The Colonial Ink Company, now doing business in Peterborough. The company has acquired a suitable manufacturing building on Wellington St. north between King and King William streets, from the Hamilton Distillery Company. The building is the one formerly used as a vinegar factory, but which is not now required for the company's purposes as its large new building gives it all the accommodation required. The Colonial Ink Company is a young but prosperous concern and those interested in it are confident that it will continue to grow and become more important. Several Hamilton men of prominence are on its Board of Directors. The Company manufactures writing and other inks, carbon papers, etc."

Now this industry born and bred in Peterborough, has, it must be admitted tangible reasons for moving. The chief stockholders are Hamilton men, the building referred to as having been acquired by the company, is owned by shareholders in the company and further the power used by the concern could be obtained under tempting conditions. Nothing definite has been yet arranged, but a meeting of the shareholders is called for the 28th of March, when the question will be discussed, and a decision arrived at.

Let us hope that no extraordinary precedent will be established as any industry leaving Peterborough.

Police Court

OFFICIALS

Chief of Police, G.I. Read
Magistrate, D.W. Dumble

Mr. Walter Guy has a cellar under his residence, this cellar has communication with the cellar next door, and this is why Mr. Guy only appeared before his Worship yesterday morning. There has been a warrant for his arrest out for some weeks but this handy cellar communication frustrated the former attempts to serve the paper. When a member of the force went, some time ago to secure the pleasure of Mr. Guy's person at the Magistrate's "at home," the party wanted was on the watch and, as the policeman entered his front door, Mr. Guy was taking the underground route to freedom via the friendly next door cellar. However, Officer McGinty, when looking after the peace and morals of our new Fifth Ward, yesterday morning, at nine o'clock, found his man in our eastern addition, and, fearing there might be an underground passage from the station, hauled him before the Magistrate at ten o'clock. The charge against Guy is that of non-support of his wife and family. The case was enlarged until this morning.

ORIGINAL SCHOOL CLAUSE AND THE AMENDMENT

THE ORIGINAL CLAUSE

The educational clause of the Autonomy bill, in its original form, was as follows:

The provisions of section 93 of the B. N. A. Act, 1867, shall apply to the said Province as if, at the date upon which this Act comes into force, the territory comprised therein were already a Province, the expression "the union" in the said section being taken to mean the said date.

2. Subject to the provisions of the said section 93, and in continuance of the principles heretofore sanctioned under the N. W. Territories Act, it is enacted that the Legislature of the said Province shall pass all necessary laws in respect of education, and that it (A) that a majority of the ratepayers of any district or portion of the said Province, or of any less portion or sub-division thereof, by whatever name it is known, may establish such schools therein as they think fit, and make the necessary assessments and collection of rates therefor, and (B) that the minority of the ratepayers therein, whether Protestant or Roman Catholic, may establish Separate Schools therein, and make the necessary assessment therefor, and (C) that in such cases the ratepayers establishing such Protestant or Roman Catholic Separate Schools shall be liable only to assessment of such rates as they impose upon themselves with respect thereto.

3. In the appropriation of public moneys by the Legislature in aid of education, and in the distribution of any moneys paid to the Government of the said Province arising from the school fund established by the Dominion Lands Act, there shall be no discrimination between the Public Schools and the Separate Schools and such moneys as shall be applied to the support of the Public and Separate Schools in equitable shares or proportion.

PROPOSED AMENDMENT

The proposed amendment is as follows:

Section 93 of the B. N. A. Act, 1867, shall apply to the said Province, with a substitution for sub-section 1 of said section 93 of the following sub-section:

(1) Nothing in any such law shall prejudically affect any right or privilege with respect to Separate Schools which any class of persons have at the date of the passing of this Act, under the terms of chapters 29 and 30 of the ordinances of the North-West Territories, passed in the year 1901.

(2) In the appropriation by the Legislature or distribution by the Government of the Province of any money for the support of schools organised and carried on in accordance with said chapter 29 or any Act passed in amendment thereof or in substitution therefor, there shall be no discrimination against schools of any class described in the said chapter 29.

(3) Where the expression "by law" is employed in sub-section 3 of the said section 93, it shall be held to mean the law as set out in the said chapters 29 and 30, and where the expression "at the union" is employed in said sub-section 3 it shall be held to mean the date at which this Act comes into force.

ONTARIO LEGISLATURE OPENED YESTERDAY.

Important Announcement Made in the Speech from the Throne---For the First Time in History Conservative Party Sit at the Right of Mr. Speaker.

Toronto, March 22.—The first session of the eleventh Legislature of the Province of Ontario was opened with all due ceremony this afternoon. Long before three o'clock, the hour set for the opening, the chamber was literally packed. The scene on the floor was brilliant, the ladies as usual occupying the most prominent places. The galleries were crowded just a little beyond their capacity.

Not only were the Conservatives of the city represented on the floor and in the galleries, but prominent Conservatives from all over the Province, with their wives and daughters, were present.

His Honor the Lieutenant-Governor, Mr. Mortimer Clark, arrived just at three o'clock, accompanied by his secretaries, Captain James Fraser Macdonald and Captain Magee, and several officers of the city regiments. A squadron of cavalry from the Royal Canadian Dragoons escorted the carriages from the Government House to the legislative buildings. The Royal salute was fired by a squad of 35 men from the Hamilton Field Battery, under Major W. O. Tidawell.

He was met at the door of the chamber by Premier Whitney, who escorted him to the Speaker's throne.

SPEECH FROM THE THRONE.

THE speech from the throne at the opening of the Ontario Legislature to-day, was as follows,

Mr. Speaker and Gentlemen of the Legislative Assembly:

It affords me great pleasure to welcome you to the performance of your duties at this the first session of the Eleventh Legislature of this Province.

As the result of the labors of the husbandman affords the foundation on which the prosperity of the Province mainly rests, our earnest thanks are due to Almighty God for the bounteous harvest of the past year.

In all sections of the Province are to be seen evidences of steadily increasing activity and enterprise on the part of our people which constitute cause for hearty congratulation.

THE MINTOS' DEPARTURE.

Since the last meeting of the Legislature the term of the Earl of Minto as Governor-General of the Dominion of Canada came to a close. The severance of the relations which had existed between the retiring Governor-General and the people of Canada was sincerely regretted by the people of this Province. During his term of office, Lord Minto strengthened the attachment of the Canadian people to the Empire, and to the principles of constitutional government under which we live, and which we so highly prize, alike by the great interest which he manifested in everything relating to and affecting the progress and development of the Dominion, and by the wisdom and statesmanship which distinguished his administration of public affairs.

The part taken by the Countess of Minto, and the interest which she displayed in philanthropic movements, as well as her evident concern for the happiness and comfort of the people, were sources of great satisfaction. Her departure was, therefore, a matter of sincere regret.

A hearty welcome has been extended by the people of Canada to Earl Grey, as the successor of the Earl of Minto, and I have every confidence that he will represent his Majesty the King with ability and dignity in every duty that pertains to his great office.

THE GOVERNMENT RAILWAY.

You will be pleased to learn that the Temiskaming and Northern Ontario Railway, as originally planned, has been practically completed, and has for some time been carrying passengers and freight. Owing to the uncertainty of the location of the route of the Grand Trunk Pacific Railway, and for other reasons, further legislation will be required with reference to this important Provincial work.

Among the measures to be submitted for your consideration are; a bill making certain amendments to the Education Act, a bill relating to the Forest Reserves Act; bills changing the destination respectively of the heads of the Crown Lands' Department from Commissioner to Minister; a bill to create a Department of Mines, with a Minister at its head; a bill relating to the County Councils' Act; and a bill amending the Ontario Elections Act and abolishing the numbering of the ballot.

TO EXPAND NORTHWARD.

A short time ago it was brought to the notice of my Ministers that the Government of the Province of Manitoba had made application to the Dominion Government for the extension of the boundaries of that Province northward to the shore of Hudson's Bay, and also that the Federal Government might possibly be willing to divide between and transfer to the contiguous Provinces the territory lying west, south and east of Hudson's Bay and James Bay. My Ministers at once put themselves in communication with the Federal Government, and respectfully urged that before the details of any such division of territory should be decided upon, or even considered, the Government of this Province should be allowed to submit for consideration, with reference to such proposed division, its claim to that portion of the territory which the Province might 'fairly price should be allotted to it. I am pleased to inform you that a satisfactory answer has been received from the Premier of Canada, and that we are now, perhaps, entitled to hope and expect that a very large portion of the vast territory lying north of the present northern boundary of Ontario, believed to be rich in minerals, and extending to the southerly and westerly shores of Hudson's Bay, will be included within the boundaries of our Province.

AS TO NIAGARA POWER.

The extraordinary possibilities which the future may have in store with reference to electric power are attracting increased attention on the part of both scientific and practical men. The resources of the Province in this respect at Niagara Falls and elsewhere should be carefully husbanded in the interests of the people of Ontario.

The report of the Commission on Railway Taxation will be laid before you. It is to be hoped that from information derived from this report, and from other sources, the very important matter of railway taxation will receive your attention in the near future.

The Public Accounts will be laid before you for your consideration at the earliest moment, and the estimates for the coming year will also be submitted to you for your approval at an early date.

JUDAS SHEKEL STOLEN

COIN IS SAID TO HAVE FIGURED IN THE BETRAYAL OF CHRIST

Only Five of These Coins in Existence so far as Known

New York, March. 23.—"The mysterious 'fifth shekel' has again disappeared. The shekel is said to be one of the thirty pieces which were paid by the high priests of the synagogue of Jerusalem to Judas Iscariot for the betrayal of Christ.

The coin came into the possession of Marx Fischer, of 220 West Thirty-sixth street many years ago, and it was his prize possession. With the discharge last Monday of Margaret Wallner from custody on a charge of stealing ancient coins from Fischer to the value of $50,000, the oft-disappearing shekel was again lost track of.

THOUGHT SCRUB WOMAN TOOK IT.

Fischer was negotiating with Mrs. Wallner to do housework with him, and after one of her visits he missed his box of coins. He had the woman arrested, but as her trunks and personal belongings were searched and no evidence could be found, she was discharged by Magistrate Whitman of the West side court.

It was ascertained during the first crusade that there were but five shekels of the ancient Hebew currency in existence, and these were reputed to be part of the payment to Judas.

All the other shekels have presumably been melted centuries ago. Four of the existing shekels are owned by the British museum, the National museum of Paris, the Museum of Munich and the Imperial museum of Vienna.

LOST FOR CENTURIES.

The shekel which Fischer has just lost was, it is said, once owned by Godfrey of Jerusalem, and was lost for centuries. Louis XI. of France was among its alleged owners. It was many times lost or stolen.

Fischer asserts that he refused some years ago $25,000 for the shekel, offered by one of the London Rothschilds.

An ancient Greek coin called "Adam and Eve," bearing representations of Jupiter and Venus, was part of the collection which disappeared.

GOOD FINANCIAL SHOWING.

The Central Milling Company Held Their Annual Meeting

The Central Milling Company, Limited, one of Peterborough's progressive concerns, held their annual meeting on Tuesday, when the directors' report for the past year was presented.

It showed that the profits of the last six months had been more than double those of any previous year, and it was evident that the concern is being most successfully operated. Those were present at the meeting; Mr. John Stothart, of Smith, president; Messrs. Wm. Reid of Otonabee; George Taylor, of Otonabee; William Carter of town; and Peter Dawson of Bailieboro. It was decided to pay the yearly dividend of eight per cent. Allowing for this there will still be a fair surplus to be placed to the credit of profit and loss account.

When Baby Comes You'l Need Strength

No Mother Can Rear a Healthy Child Unless She is Stronger Herself.

FERROZONE

mparts New Vigor—Braces Nourishes Strengthens Weak Women.

A woman's anxieties multiply ten-fold about the time the new baby is expected. If her strength is exhausted and her blood weak, it goes hard in the hour of trial. Ferrozone should be used because it makes the blood nutritious and rich. By instilling new strength into every part of the body, it uplifts your spirits at once.

Chilsworth is certainly made easier by Ferrozone. The following statement expresses the earnest gratitude of Mrs. M. E. Duckworth, of Durham. It is a woman's story—of her own case—told that other women may profit by her experience:

"Before baby was born I was in a miserable, weak, nervous state. I had no reserve strength. I tried to build up, but nothing helped me. I looked upon the coming day with dread, knowing I was unequal to the occasion.

"Ferrozone braced me up at once. It gave me strength and spirits, brought back my nerve and cheerfulness. From my experience with Ferrozone I recommend it to all expectant mothers.'

There is more concentrated nourishment in Ferrozone than you can get from anything else. It supplies what weak systems need. Simply take one tablet at meals and you'll feel uplifted at once. Ferrozone makes healthy, virile, vigorous women; try it. 50c. per box of fifty tablets, or six boxes for $2.50, at all dealers, or by mail from N. C. Polson & Co., Kingston, Ont., and Hartford, Conn., U.S.A.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $4 per year, strictly in advance.

UNION LABEL

PETERBOROUGH, MARCH 23 1905

THE AMENDED CLAUSES

The amended education sections of the Autonomy Bills differ from the old in setting forth in detail the kind of Separate Schools that are to be perpetuated in the West. According to The News they are precisely the same as the old in their constitutional aspect and in their infringement of Provincial rights. They do not merely comply with the constitution, or leave the constitution in its operation. Like the original clauses, they declare that the territory annexed to Canada in 1870, for which Parliament has been making laws for thirty-four years, is now for the first time brought within the union. They declare that the Territories are now independent Provinces, although the very purpose of the legislation is to create Territories into Provinces. They are open to all the objections set forth in Premier Haultain's letter. Mr. Haultain says: "The first sub-section of "section sixteen of the bills is "drawn in direct contradiction of "this principle. It is an attempt to "create a Province retrospectively. It "declares Territorial school laws "passed under the restrictions im-"posed by the North-West Territories "Act to be Provincial school laws. "It clothes laws imposed by the Fed-"eral Parliament with all the at-"tributes of laws voluntarily made "by a free Province. It ignores "Territorial limitations and condi-"tions. It denies facts and abolishes time. It declares what was not "to have been and seeks to perpetu-"ate as existing what never was nor "is."

The new sections do these things in different language, and like the Manitoba Act and the Act of 1875, they are not Acts done in obedience to the constitution, but Acts of legislation, done in obedience to the champions of Separate Schools. The B. N. A. Act protected the rights enjoyed by the minority by law in the province at the time of the Union. In the case of Manitoba, there being no Separate Schools by law, the words "or practice" were inserted for the benefit of the champions of Separate Schools, those institutions whose merits and demerits The Globe forbids us to discuss. The Privy Council decided that there were no Separate Schools in Manitoba at the Union, either by law or practice. Consequently, at the bidding of the champions of Separate Schools, it became necessary to juggle with the constitution again. There were certainly no Separate Schools in the Territories at the Union, either by law or practice. Consequently, it became necessary to juggle with the words "at the Union," and to say that they mean thirty-four years after the Union. In this respect the new sections are precisely the same as the old. For the words "at the Union," they substitute "at the date "of the passing of this Act."

The proposed legislation is not, and hardly pretends to be, in compliance with the Confederation Act. It arbitrarily assumes that the Dominion Parliament has power to set up in the new Provinces any kind of educational institutions it pleases. It makes the B. N. A. Act read, in substance: "In and for each Pro-"vince the Parliament of Canada "may exclusively make laws in rela-"tion to education." The position is not altered by the fact that the Dominion Parliament takes as the basis of its law regulations made by the Territorial authorities in 1901. Those regulations may have been those best suited to the needs of the people at the time. But it is not granting Provincial autonomy to seize upon a law made during a condition of tutelage, and "petrify" it so that it cannot be modified by the Provincial Legislature to suit the changing requirements of the community. This wonderful legislation (1) says that Alberta and Saskatchewan are already Provinces; (2) it professes to make them Provinces, (3) it withholds from them the powers of Provinces.

A COMPLETE SURRENDER

We agree with the Toronto News in saying that the Western members of Parliament are easily satisfied if the amendments to the Autonomy Bills, as published, are acceptable to them. Not even that most objectionable clause providing for a share of the funds derived from the sale of public lands has been eliminated. In the second paragraph of the amendment it says, "In the appropriation "by the Legislature or distribution "by the Government of the Province "of any moneys for the support of "schools organized and carried on in "accordance with said chapter 29, "or any Act passed in amendment "thereof, or in substitution therefor, "there shall be no discrimination "against schools of any class de-"scribed in the said chapter 29." The only concession made by the Hierarchy is that the schools shall be subject to Government inspection and regulation, as at present. Money distributed by the Government of the Province for the support of schools includes the proceeds from the sale of lands, as well as any additional appropriation that may be made. Compromise is hardly the word to describe this change. It is almost a complete surrender. It is a crumb to the West and the loaf to the Quebec Hierarchy. It is inconceivable that such a change will be satisfactory to anyone who is conscientiously opposed to the imposition of this obnoxious measure upon the West.

SALVATION ARMY.

A New Competitor in the Insurance Field.

The issue of the War Cry, the official organ of the Salvation Army, of March 25th, will say:—

An assurance society is probably one of the last things the average business man would desire to manage, and to find a religious organization managing one may occasion some amount of surprise, not unmixed with questionings as to whether such management is successful. In fact, such a host of queries may naturally occur as also on the subject that we have thought it advisable to write this article.

The Society is a properly-organized Assurance Company, registered under the Companies Act, and is managed by well-known International Headquarters officers, the Chairman of Directors being Mr. Bramwell Booth, the Chief of the Staff, and the Managing Director, Commissioner John A. Carleton. It commenced active assurance business under Army direction in 1894. For that year its surprising growth we have not to mention that at the present time its premium income amounts to $150,000 per annum.

Probably it will surprise some to know that the Society has over 1,500 outdoor representatives, composed for the most part of agents, assistant superintendents, and superintendents, and that every one of these is a teetotaler and non-smoker. With a few exceptions amongst the agents, all are Salvationists. Every servant of the society understands that he is also a representative of the Salvation Army. And whilst as the officials and a great majority of the agents go about their business in full Salvation Army uniform.

Commissioner Carleton is the present Managing Director of the Salvation Army Life Assurance Department, in connection with the Methodist and General Assurance Society, of which Mr. Bramwell Booth, the Chief of Staff, is the chairman.

In 1894 he took over the direction of the above society, since which time the number of policies issued has risen from 3,400 to 304,127, and the premium income from £420 to 145,000.

$500 REWARD $500

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address, F. J. CHENEY & Co., Toledo, O.

FRANCIS L. JUDD & CO., BANKERS AND BROKERS, CLEVELAND, OHIO.

W. SAILSBURY, PETERBOROUGH, ONT.

WHAT DO YOU DO WITH THE MONEY YOU SAVE?

Are you depositing it in bank? If so what interest are you receiving? NOT MORE THAN 3 TO 3 1-2 PER CENT we daresay. AND NOW COMES THE VITAL QUESTION. What is the banker doing with your money? The money you have placed with him for safe keeping. For answer read the official bank statement given below of the 1st National Bank of ———. It may be seen at our office at any time. It is as follows.

RESOURCES		LIABILITIES	
Loans and discounts	$305,790 51	CAPITAL STOCK PAIDIN	$ 75,000 00
Overdrafts, secured and unsecured	266 85	Surplus fund	60,000 00
U. S. Bonds to secure circulation	20,000 00	Undivided profit, less expenses and taxes paid	2,161 53
STOCKS, SECURITIES, ETC	300,000 00	National Bank notes outstanding	20,000 00
Banking-house furniture and fixtures	13,000 00	Due to other National Banks	6 300 55
Due from National Banks (not reserve agents)	1,900 20	Due to Trust Companies and Saving Banks	54 10
Due from approved reserve agents	13,311 45	Due to approved reserved agents	7,950 71
Checks and other cash items	1,630 1.	Dividends unpaid	4,794 00
Notes of other National Banks	3,150 00	Individual deposits subject to check	546 373 08
Fractional paper currency, nickels and cents	280 09	Cashiers checks outstanding	206 50
Lawful money reserve in bank, viz—Specie	$66,519 00		
Legal tender notes	11,000 00	57 519 00	
Due from U.S. Treasury, other than 5 per cent. redemption fund	1,500 00		
	$730,839 33		$730,839 33

Pay particular attention to the items printed in bold type. They tell you an interesting story. They show a capitalization of $75,000. They show that over four times the amount of the authorized capital of the bank or $300,000 has been and is now invested in stocks.

PONDER OVER THIS STATEMENT If you are a bank depositor doesn't it make you think? It should! Who reaps the benefit of these investments of YOUR MONEY! Do you get it? Not if the bank knows itself. You get your little 3 or 3 1-2 per cent and the bank gets the rest. Why cannot you

INVEST YOUR OWN MONEY

Your opportunities for ascertaining the value of your investments are just as good as that of your banker. Why do you not utilize these facilities for your own profit? You owe it to yourself and your family and to the world to assert your own INDEPENDENCE. If you have made bad investments in the past, DON'T BE BILLY enough to let the fact check your ambition to become your own Business Manager. Profit by your mistakes and GET WISE.

If you desire information regarding your investments write to us. If you desire to dispose of your investment write to us. If you desire a new investment that is ABSOLUTELY SAFE and which will return large PERMANENT DIVIDENDS to you instead of your banker.

Write to us at Once. Keep Your Capital in Action.

That is the only way to make MONEY GROW. We will advise you and we will not charge an exorbitant fee for so doing. WE CAN HELP YOU AND WE WILL.

FORTUNES ARE BEING MADE IN KANSAS OIL

Here's a fortune for you. Not 10% but 100% and no risk of loss. Giant of the Oil Fields.

The Midland Oil and Gas Company

has over 180 acres of oil land and has put down 10 wells, so the land is proved up. An adjoining additional 80 was secured yesterday, making over 260 acres all in the proven belt. Just read this:

The U. S report on the oil industry places the average daily production of Pennsylvania wells at only one-half a barrel each per day. The Midland wells are pumping

Sixty Barrels a Day Each.

The pumping plant has just been started and this is the surprising result. Nothing like it in the world. The officers and directors of this company are bank men and do not believe in debts, so the company is free from debt. They have nearly $20,000 in cash and bills receivable in the treasury and everything paid for—property, wells, pumping plant, oil tanks, well cleaning machine and everything connected with the company. Have two drilling rigs working night and day sinking wells. Have abundance of gas, which runs the drills and pumping plant, so it only costs about $5.00 a day to produce and market the oil.

The Company has about 33 per cent of its stock in the treasury as a reserve.

For a short time the Company will sell a little more of its stock at only

7½ CTS. A SHARE

Buy all you can raise money to pay for.

We could talk all day about it and not cover all the strong points. But as the company has this grand property paid for, there is only one side to it, and that is profit. Don't buy stock in a company that tells you what they will do, but buy in this company, that has proved its property and every dollar you put in makes it better. Send for particulars or mail check to

WE have 100 Wells As soon as the drilling rigs can put them down.

From the Kansas City Journal, Feb. 26, 1905.

There is perhaps no people in the same amount of territory in the world who have increased in wealth so rapidly. Everybody is prosperous. Many once poor and hard working families have become immensely wealthy.

Hodge Hale, an old Frisco conductor, has become a millionaire off of oil. He got in the game early. Now he has money as well as oil and gas to burn.

Fred Hetrick, a farmer living near Chanute, had a hard time for years making both ends meet. Life was a hard proposition with him. His royalties now reach $1,000 a month and he is living on easy street.

Joe Helm, of the Kansas City brewery, took a flyer in oil leases. He first put in $500 and refused $12,000 for his investment. Later he put in a lot more money in gas and oil lands and is now figuring high.

George L. Work, the Chicago clothier, took some acres of land near Chanute for a debt a customer owed him. Work's partner refused to stand for the deal. So Work kept the land himself. He has since refused $50,000 for his holdings.

These are a few samples. Hundreds of farmers have become independently rich off their oil royalties, and hundreds of other men have made big money producing oil.

This Kansas oil bearing sand is like the Pennsylvania sand; wells will produce oil for fifty years.

Can give bank references, and dozens from people who have personally examined this great property.

NERVOUS DEBILITY

OUR NEW METHOD TREATMENT will cure you, and make a man of you. Under its influence the brain becomes active, the blood purified so that all pimples, blotches and ulcers heal up, the nerves become strong as steel, so that nervousness, bashfulness and despondency disappear; the eyes become bright, the face full and clear, energy returns to the body, and the moral, physical and sexual systems are invigorated; all drains cease—no more vital waste from the system. The various organs become natural and manly. You feel yourself a man and know marriage cannot be a failure. We invite all the afflicted to consult us confidentially and free of charge. Don't let quacks and fakirs rob you of your hard-earned dollars. WE WILL CURE YOU OR NO PAY.

NO NAMES USED WITHOUT WRITTEN CONSENT.

THREATENED WITH PARALYSIS.

Peter E. Summers, of Kalamazoo, Mich., relates his experience:

"I was troubled with Nervous Debility for many years. I lay it to indiscretion and excesses in early manhood. I became very despondent, didn't care whether I lived or died, imagined everybody who looked at me guessed my secret. Imaginative dreams at night weakened me—my back ached, had pains in the back of my head, hands and feet were cold, tired in the morning, poor appetite, fingers were shaky—eyes blurred, hair loose, fingers set in and the doctor told me he feared paralysis. I took all kinds of medicines and tried many first-class physicians, wore an electric belt for three months, went to Mt. Clemens for baths, but received little benefit. While at Mt. Clemens I was induced to consult Drs. Kennedy & Kergan, though I had lost all faith in doctors. Like a drowning man I commenced the New Method Treatment and it saved my life. The improvement was like magic—I could feel the vigor going through my nerves. I was cured mentally, physically and sexually. I have since [illegible] and will continue to do so."

ATHLETIC WORLD

BY OUR SPORTING EDITOR

On Monday night the annual meeting for organization of the T.A.S. Baseball Club, was held in the societie's rooms. Mr. Jos. Maher occupied the chair. The Sec.-Treas., Mr. Godfrey Coughlin, presented his report which indicated a very successful season as victories were concerned, but showed that the entrance into the Kawartha League had not been a success financially.

The total deficit is about $75 but it must be remembered that the T.A.S. had to [illegible] the gates were very small.

Rev. Dr. O'Brien was present and gave the meeting an inspiring address on athletic sports and hoped the team would prove a credit to itself and the society.

The election of officers then took place and resulted as follows,—

Hon. President—Rev. Dr. O'Brien.
President—Mr. Joseph Maher.
Vice-President—Mr. Fred Craig.
Sec.-Treas.—Mr. E. W. Argus.
Manager—Mr. William Grady.
Executive Committee—Messrs. Maher, Argus, Grady and Craig.

• • • •

Monday night the annual meeting of the Quakers Baseball Club was held, when the officers were elected for the year as follows;

Hon. President—A. P. McDonald.
President—W. H. Denham.
1st Vice-President—T. H. G. Denne.
2nd Vice-President—M. J. Kirn.
Secretary—F. J. Heaslip.
Treasurer—W. Distin.
Manager—T. Pilling.
Captain—J. C. Gilman.
Executive—F. Heaslip, W. Distin, C. Wilson, T. Pilling, J. Gilman.
Sub-Committee — F. Heaslip, J. Gilman, T. Pilling.

The club has not decided yet whether it will enter a team in any league or play independent ball.

The matter will probably be decided by the executive, after it has been found what may be done with reference to the City League.

• • • •

CRICKET.

The Peterborough Colts Cricket Club met oMnday evening at the Y. M. C. A. for re-organization purposes. There was a large and enthusiastic attendance.

The following officers were elected:—

Hon. Patrons and Patronesses—Mr. and Mrs. J. R. Stratton, Mr. and Mrs. R. R. Hall, Mr. and Mrs. Richard Hall, Mr. and Mrs. C. B. McAllister, and Mr and Mrs. D. Hughes Charles.
Hon. President—K. Fardley-Wilmot.
President—D. H. Burritt.
Vice-President—A. A. Hollingshead
Secretary-Treasurer—Garnet Greer.
Captain—Harry Hall.
[illegible]
Executive—[illegible] and W. Sheffield.

The Colts had a most successful season last year, only meeting with one defeat throughout the season.

Little Journeys To the Homes of Great Restorers.

We have all been charmed with the sincerity of the woman who called to her neighbor, "How are yo? Not that I care a hang, but just to make a little conversation."

There is one sort of communication that does not belong to the conventional, forced type. It is the call of the wild, the prayer of the sufferer, the letter of the sick to the trusted physician.

If one is ill enough to admit it, he or she wants direct, personal, immediate help, not vague, experimental, general dosing. Coffin varnish proved to be the last remedy in the world for Mr. Peck's rheumatism, and it is only one of a thousand cases on record where they had to guess again. There is indiscriminate taking, as well as indiscriminate giving, and the weak and helpless are the victims. Two-thirds of the graft of the world is being looted from the sick.

This little journey is to the home office of a physician who has broken the world's record for the number of patients examined and treated. Is this doctor with thousands of patients, with a mail large enough to require a special mail service, giving the world a square deal? Is he giving each case individual attention? Is he able to give the sufferer who has placed his life in his hands the latest and most improved treatment that science offers? Does he hold the record for the number of cases actually cured?

This is a big scientific question and it should be approached with the true scientific spirit of faithful inquiry, free from cant.

Dr. R. V. Pierce, head of the famous World's Dispensary Medical Association at Buffalo, would tell you that he does not attempt the superhuman feat of reading the hundreds of letters that are sent to him day in and day out, year after year. Marshall Field, the great Chicago merchant, would make clumsy work of personally taking care of all his mail orders. In great concerns the work is systematized, with each detail in the hands of an expert. When Samantha Allen went to the New York stores she insisted upon buying of the proprietor, but Mr. A. T. Stewart happened to be out. Dr. Pierce has built up a great scientific bureau of medical experts, and when you send or go to him for advice you get the prompt, direct, personal help your case demands. If you have locomotor ataxia you are not set upon by an important personage who has specialized on the ear in some foreign hospital. You get an expert upon your special trouble. If you apply for help in a letter this letter is carefully studied and immediately submitted to the physician who has devoted his life to fighting your particular trouble. If you come yourself you are put in charge of a doctor who has specialized for years upon the disease that threatens you. Which is the scientific way—to go to one doctor and demand almost omnipotent knowledge, or to depend upon a carefully organized bureau of experts?

Which is likely to be of the greatest help in time of trouble, one lone doctor passing upon twenty diseases, or twenty doctors ready to give their best advice upon one case?

It is the day of the specialist, and the World's Dispensary Medical Association, with its staff of eminent physicians, with its dispensary and splendidly equipped hospital, with its world-famous medicines and its honor and care in dealing with the public, has fairly won the largest patronage that medical history records.

Thus endeth this little journey to a great life-saving station. The cures are on record. He who runs may read.

TO CANADIAN INVESTORS

Thomas Patterson & Co. Have a Fine Copper Proposition.

Fifty dollars invested in Granite Mountain Mining Company's stock paid the purchaser $34,500, besides several thousand dollars in dividends. One hundred dollars invested in Boston and Montana Mining stock paid the purchaser $44,000, besides several thousand dollars in dividends. A few dollars invested in shares of the Butte Copper Mining & Smelting Company stock, will not only insure you big returns in dividends, but a handsome profit in an increased value of the stock. Our mine is not a prospect but a copper mine which has produced $160,000 in profits in the last three years.

For the purpose of buying adjoining ground we have placed on the market 50,000 shares of our treasury stock. This stock is fully paid and non-assessable. Par value $1.00 per share. We will sell any part or all of this lot at 60 cents a share; no certificate issued for less than 100 shares. Send us your order for what stock you want and we will reserve it for you, pending your investigation of our company; and when you have received our prospectus and satisfied yourself that the investment is a good one, you can send us the money and we will issue the stock, or have the stock sent through any bank you may designate. References: Any Bank or Mercantile House in Butte, Montana. Write us for particulars. Butte Copper Mining & Smelting Co., Butte, Montana, or to Thos. Patterson & Co., Fiscal their forgathers."

ADVERTISE IN THE TIMES.

FACTS-NOT THEORIES

ABOUT THE

Marconi Wireless Telegraph Company

OF CANADA, Ltd.

This Company has now established and fully equipped nine stations on Canadian soil. Each of these stations is on a commercial basis.

It has already installed the Marconi apparatus on five of the boats of the Allan Line and the balance of the fleet is to be supplied as soon as the Company can complete the work. The system is giving complete satisfaction to the Steamship Company.

Among the stations above cited is that at Glace Bay, which has been relocated further inland to improve its position for transatlantic service. Mr. Marconi will be in direct supervision of this station within a month, and the parent Company in England has officially stated that he will positively install the perfected high-power apparatus which will guarantee uninterrupted transatlantic service for the immediate future.

The stations already installed form a complete net work covering the coast line of the Gulf of St. Lawrence and the contingent Atlantic coast and afford the British Navy and all mercantile steamers equipped with Marconi apparatus a sure means of communication with land wherever it may be necessary.

Messages are accepted at every Western Union and Postal Telegraph office in the United States and Canada for transmission to transatlantic boats at any point on their natural course to the mother country.

There have already been selected the sites, and the plans have been drawn for the building of new stations along the St. Lawrence which will give the Company a connected system well into the heart of Canada.

A year or so more will see these stations dotting Canadian soil at every point from the Atlantic coast to the Great Lakes where the volume of business will warrant their establishment.

The Canadian Government has appropriated large sums of money as a subsidy for the Marconi system and gives every evidence of continuing its appropriations until such time as the Canadian Government are afforded an absolutely complete wireless system.

These are facts and not theories and can be positively verified by anyone who takes the small amount of trouble necessary to do so.

In other words, there are tangible assets and a business on a commercial basis to represent the money already expended in the promotion of the

MARCONI WIRELESS TELEGRAPH COMPANY OF CANADA, LTD.,

and the immediate future will be a continuation of this condition.

Marconi's Wireless Telegraph Co. (Ltd.) of England is working on the same system as that of the Canadian and American Companies. It is therefore interesting to note the results already attained by the English Company. This Company has been established somewhat longer than the Canadian Company, but the later has all the advantage of the experimental period of the former and the attendant great saving in expenses which may seem to produce no tangible results. The English Company has issued its annual report, which shows a handsome return on the total capitalization of the Company. The stock is dealt in on the London Stock Exchange. This could only result from a very complete knowledge on the part of those interested in stock exchange transactions as to the actual intrinsic value of the stock.

The stock of the American Company advanced from $4 to $6 per share. The history of all great enterprises of a similar character to the Wireless Telegraph, namely the telephone, the telegraph and the cable, shows that the early investor in these enterprises has reaped a tremendous return in the form of dividends, and the original investment has now assumed the proportions of a great fortune in itself. In other words, the purchaser of stock in those companies during the early days has received his investment back again in the forms of dividends many, many times over, and still holds stock which represents from ten to forty times its original purchase price. Could any investor feel better satisfied with any investment that he could possibly have made?

The Marconi Wireless Telegraph Company of Canada should not only bring an equal return to those who invest in its stock, but it should bring this return in far shorter time than in the case of its predecessors, because of the fact that it has a broader field of income, and has the benefit of a more highly developed scientific field from which to draw any needed assistance. It is no longer necessary to do what might be termed missionary work, because the public now takes advantage of the telephone, telegraph and cable as a matter of course, and any scepticism as to their value has been dissipated, at the preliminary expense and to the subsequent profit of those pioneers.

There seems no logical argument, therefore, to disprove the claims of the Marconi Wireless Telegraph Company of Canada to the support of the investing public. We have been so closely connected with the history of this Company, that we have watched its growth not only with pleasure, but with surprise. We have repeatedly called the attention of the public to the Company, and it is reasonable to presume that we could not have continued to interest ourselves in it unless we believed in it ourselves and were confident of its future success. The stock of the Canadian Marconi Company is now selling at $5 per share, but developments in connection with the Company which may occur at any moment in the immediate future, will mean an advance above that price. We therefore do not hesitate to advise anyone to purchase the stock in any quantity from one to two hundred shares, according as he has funds for investment, and we believe that immediate advantage should be taken of the present selling price of the stock.

We are ready and willing to answer any and all questions that may be put to us by prospective investors in the stock, and have on hand reading matter which covers every detail of the the subject.

Story of the Boston & Texas Oil Property,

Continued

Chapter 2-Sam Crowther's Three Years Wandering

Let me say at the start that honest Sam, as he is familiarly called in Texas, was a man that was able to keep things to himself, and this quality helped him wonderfully in getting control of one of the most wonderful oil fields yet discovered. Preparation was made for his work, but of course he knew not the length of time that would be required to accomplish that which he was about to undertake. Everything had to be gotten ready, his tent which was destined to be their dwelling place during the search for oil, provisions of all kinds, as it would not be always convenient to go perhaps 15 miles for a few pounds of tea, or other necessities. A start is made the caravan consisting of several mules to draw the drilling machine with its many additions, tents luggage, furniture, cooking utensils etc. The party was composed as follows: Sam Crowtner and his wife and their two boys, aged respectively about 5 and 7 years. A start was made with likely many misgivings, but he had a brave heart and was strengthened by the quiet Christian counsel of his wife. They at last reached a place where it was decided to make a start, the derrick was put up, the drilling machine gotten ready, steam up and a well begun, going down to various depths to find something more precious than gold or diamonds, when found in the right quality and quantity. These were all experimental days. As soon as he finished at one well he withdrew his piping, filled the hole in, leaving practically no trace behind to raise shspicion in the minds of those who might be lurking behind looking for information. His surmise in this line was correct, as he found out afterwards, one oil ranger at least, belonging to one of the big oil companies of the world, was prowling around, and it is more than likely that Sam would have been done out of his prize if he had not maintained absolute silence as to his discovery. Well after well was sunk, with varying success, sometimes their hopes being raised other times human endurance almost seeming to come to an end. At last a well was put down and complete success seemed to be his, if his pipe had held ont; but it did not, becoming twisted in the well to such an extent that with money exhausted as well, he was forced to get some way out of his dilemma, in order to preserve the property for himself and for those who he might get interested in it, and not allow it to fall into the hands of a big trust This will be continued containing the story of the company which he formed at this time.

MY ADDRESS IS

JOHN THOMSON

BOX 243, QUEBEC.

If you are interested send for a little booklet which I have had printed with conditions as they are in the field of the Boston & Texas Field to-day. Some day, possibly soon, these ads. will cease to appear and no more stock offered. The company will stand investigation. Send your application for stock, terms of payment can be satisfactorily arranged.

Price 50 cents a Share. Par Value $1.00

Do not forget all money is to be made payable to JOHN THOMSON.

TO CANADIAN INVESTORS

Oregon-Idaho Gold Mining Co.

INCORPORATED

Capital $5,000,000. Shares $1.00 Each, Par Value, Fully Paid Up and Non-Assessable.

We have just secured the agency for the above splendid proposition, of which we have been allotted a block of Treasury stock. We can confidently recommend this as a safe and, we believe, exceedingly profitable investment. Every dollar of stock is guaranteed by twenty year, full paid, gold bond, delivered to purchaser of stock, from an Investment Company that has no interest whatever in the company, but who are disposing of the debentured bonds to the public, and, under their charter, they are compelled to deposit securities to an equal amount, to the State Treasurer under which they received their charter, there by doubly securing the payment of their gold bonds.

The Company's property, which is now past the project stage, is known to be marvellously rich in gold.

Following is the opinion of G. W. Miller, Mining Engineer, formerly with the Boston and Montana Consolidated Copper and Silver Mining Company, U. S.; Simmer and Jack Mining Co.; Limited, Elandsfontain South Africa:—

"You have here a most valuable property and one of the strongest fissure veins that can be found in any part of the world.

"With the present development of the Monument Mine, I estimate that 100 tons per day can be extracted, which will mill from $15.00 to $20.00 per ton. The total cost of mining the ore, delivering and milling, I place at about $4.00 per ton. With the present milling capacity, it is safe to say that the mine can furnish 100 tons of $15.00 ore, which would yield a clear profit of $11.00 per ton, or $1,100 00 per day (equal to $400,000.00 per annum). Estimated total value of ore in sight, $2,500,000."

During the past summer, a party of the Company Directors visited the property, taking with them, Amos P. Brown, Ph.D., Mining Engineer and Professor of Geology and Mineralogy at the University of Pennsylvania. Mr. Brown writes as follows:—

"In regards to the amount of ore available at the mines at Sinaiser, I saw on the dumps several thousand tons, probably 5000 tons would be an underestimate.

"As to the size of the ore body itself, from what I saw of the geological structure, I think that there is every indication that it will be found to extend underground as far as the out-croppings on the south side of the gulch. This would mean an ore body large enough to keep the present mill running for many years to come.

A write up of the proposition will appear in these columns in a few days. Watch for it. In the meantime we will be pleased to furnish all information to investors.

THOS. PATTERSON & CO.,
FISCAL AGENTS. PETERBOROUGH

CONSERVATIVE INVESTORS WILL FIND
The Twentieth Century Mining and Power Co., Ltd.
—OFFERS—

A HIGH GRADE INDUSTRIAL AND MINING INVESTMENT

We have thoroughly investigated it and found it to be right in every respect Did you ever have a chance to invest in a straight legitimate money making proposition? If not,

THIS IS YOUR OPPORTUNITY

We own a monopoly of the water right privileges in the Thunder Mountain mining district, State of Idaho, U.S.A.; seven water rights in all; one developed and in use. The property of the Company consists of over 1400 acres, with plenty of timber for building and mining purposes, a saw mill fully equipped and in operation, a 10-stamp mill now on its way from the R. R. Station to the property, and 40 additional stamps to be purchased at once and installed during the coming summer. This is the largest and most favorably situated property in the district. Some of the tunnels have been driven over 400 ft., cross-cutting many dikes, demonstrating that we have an inexhaustible body of ore. The ore bodies are sampled by an assayer every 10 ft., and assays run from 40z. to $800 per ton. The ore is free milling, and can be mined and milled for about $1.00 per ton.

The Company is now on a sound financial basis; have no debts, and when the present allotment of stock is sold, it will be withdrawn from the market. The work is progressing steadily on the property, and for the last 52 weeks $1000 per week has been expended in the development of the mine. If you want a winner that promises large dividends, write for full information to Messrs.

Thos. Patterson & Co. Peterboro, Ont.

We want to tell you more about it. It will pay you to investigate. You had bteter not wait too long, or the allotment of stock will be sold, as it is being taken up rapidly. Within the last 90 days 300,000 shares have been subscribed for. Only 100,000 shares remain at 60c. per share.

Powerful Healing Effective Cure

FOR COLDS, COUGHS, CATARRH BRONCHITIS AND ASTHMA

mply Inhale Catarrhozone; it Cures Because it Goes where the Disease Actually Is.

These diseases cannot be cured by stomach medicines; they must be treated locally. Catarrhozone is inhaled to the very source of the trouble, and gives the diseased membranes local treatment with the strongest, most-healing antiseptics known.

After one trial of Catarrhozone you will wonder how you ever lived without it. Nasty colds in the head it cures in an hour; coughs are stopped in two hours, and catarrh and bronchitis are relieved at once. Nothing could be simpler or more pleasant than to inhale the fragrant vapor of Catarrhozone; nothing is half so certain to cure your trouble permanently.

Nor is proof of Catarrhozone's merit lacking, for it is endorsed more strongly by the medical profession than any other remedy. Its superiority to-day is unquestioned, and its sale by far exceeds that of any other two remedies on the market. Why? Because it does what is claimed for it—cures permanently those who use it for any disease of the breathing organs.

Mr. S. E. MacAuley, the well-known attorney of Portland, endorses Catarrhozone in the following letter. "I am anxious to make known that after three years' suffering from weak throat and catarrh, I have been cured by Catarrhozone." I was treated by many doctors of wide reputation. I have used scores of different remedies. I have suffered everything catarrh entails, and I am convinced that no medicine is so sure to cure as Catarrhozone, which did me worth good and completely eradicated this awful disease from my system."

Complete outfit, guaranteed to cure costs $1, sample size 25c. At all druggists or N. C. Polson & Co. Kingston, Ont., or Hartford, Conn. U.S.A. Beware of substitutes and insist on getting Catarrhozone when you ask for it.

TOWN AND COUNTY NEWS

DASHES HERE AND THERE BY TIMES' REPORTERS

A Correction

On Tuesday last The Times was informed that the Canadian General Electric Company intended, owing to a great pressure of work, to run the works full time Saturday, instead of giving the afternoon to its employes. As this information came from employes of the works in question, we considered that it was authentic and published, in yesterday's issue, an item to the above. It appears that the item was erroneous, as no such move is contemplated at present.

Anniversary Entertainment To-night

The anniversary exercises and entertainment in Park street Sunday school to-night promises to be interesting and a treat for the little ones. The children will be given supper at six o'clock. The program of entertainment following supper is a good one, including a rainbow drill by young ladies in costumes of all the prismatic colors, made specially for the occasion. There will also be a Japanese fan drill by younger girls. This will be followed by an exhibition of dumbell exercises by young men in gymnasium dress. The foregoing attractions coupled with choruses, recitations, and readings will make the anniversary entertainment particularly pleasing. The program commences at 8 o'clock.

—Mr. J. J. Gilman, who last year ran the hotel at Jubilee Point, has secured a renewal of his lease for the coming season.

larger this year than ever

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 90 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our correspondence courses.

WM PRINGLE

BRIGADE KEPT BUSY

Two Fire Alarms Yesterday Called Out the Firemen.

The fire fiend seems to have it in for Peterborough lately. The brigade was twice called out yesterday, once at 5.20 p.m. and again at six o'clock.

The first alarm was caused by a chimney afire on King street, where no damage was done. The second run given the brigade was caused by a fire at the corner of Aylmer and Charlotte streets, in the residence of Dr. Fred Robinson. The brigade had their work cut out to prevent a serious conflagration here, and only their prompt and intelligent action saved the house. It has a mansard roof, but fortunately the brigade prevented the flames from catching hold of this generally inflamable kind of house covering. The loss from water and smoke, will be, it was just night, roughly estimated, in the neighborhood of $200. This is the second time the doctor has had a blaze within a few days, the former being a small fire at his livery barn, when no serious damage was done. The cause of this last fire has not been definitely located. The loss is, we understand, covered by insurance.

Sunfish Club at the Post Office

There has been considerable complaint of late about the crowd of men, old and young that hang round the post office corner. This locality, particularly since the cold weather has moderated, seems to be a favorite spot for a lot of young men to loaf about, and decorate the pavement with tobacco juice. Several ladies have recently been heard to remark on the unpleasantness of having to pass a battery of remarks and stares every time they went to post or get a letter. The pavement, just at the entrance to the postoffice was yesterday simply filthy from tobacco juice, and looked like a Japanese war map in yellow chrome. This is not only provocative of disease and destroyed gowns, but is directly against a by-law forbidding the same. A yellow dog would not spit tobacco round a spot frequented by so many hundreds daily. Inside this office every evening are scores of young men, who appear to have no particular business there, but just make it a loafing place, or an opportunity for ogling every lady who enters the building.

Local Incidents

BY THE TIMES MAN ON THE STREET.

—Division Court will be held tomorrow before His Honor, Judge Weller.

—The Blues are still 12 points ahead in the Y.M.C.A. membership contest.

—Rev. J. P. Reed, formerly of Hamilton, speaks at the Y.M.C.A. on Sunday next.

—The German Conversation Club will meet to-night at 7.30 at St. Luke's rectory.

—At the Lenten service at St. Luke's last night, Rev. Wm. C. Allen, M.A., of Millbrook, was the special speaker.

—The roof of the market was yesterday morning looking badly in several places and steps were taken to remove the snow which had accumulated.

—The Trades and Labour Council met last night with Mr. John A. Flett former President of the Trades and Labor Congress of Canada, as the chief speaker.

—Mr. Harry W. Gray will move into the house, corner of George and Loudon streets, recently vacated by Mr. F. W. Dean.

—Now is your chance for a fortune. The sale of the market tolls will take place in the Council Chambers this morning at 11 o'clock.

—The Communicants' class of St. Paul's church met in the vestry last night. A prayer meeting was held in the lecture room and the sacrament of baptism was administered.

—The regular meeting of the Ladies' Literary Society of St. Peter's T.A.S. will be held on Friday evening, March 24th, when an essay will be read on "Canadian Poets," by Miss O'Connell.

—The semi-annual meeting of the Canadian General Electric Company Employes' Mutual Benefit Society was held in the old Labor Hall, Water street, yesterday evening at which encouraging reports were presented.

—There will be a second euchre contest at the Young Conservative club rooms this evening when representatives from the five wards of the town and the country will enjoy a contest. It is expected that there will be a large attendance.

—The Fire, Water and Light Committee will meet to-night when steps will be taken to consider definitely the cost, plan, etc., of a new fire hall, which Ald. Johnston the chairman, remarked to-day, was "bound to come very soon now."

—The hog market still continues brisk. Mr. W. A. Stabler during the past two days has purchased 110 animals for the Matthews Company. The prices for live weight ran from $6.25 to $6.50 per cwt., and for dressed hogs $7.25 to $8.00 per cwt.

When you want a life-like Portrait in Oil, Crayon, or Water Color, don't fail to come to H. Hudson's Studio, where the work and prices are always rights. Gifts in Pictures, Frames and Fancy Work. Lessons in Painting and Pyrographic Work. Studio, 134 Brock street, Peterborough.

—F. J. Reilley of bogus ballot-box notoriety, was yesterday sentenced in Belleville to one year in jail with hard labor. Reilley tried to work the plea of mental delusions, but that would not go. The judge charged strongly against him. It might be well to employ him in the tin shop during his term, and let him get posted on making honest tin boxes.

—Who is the architect that fathered the idea of rendering Water street a canal in spring time, by raising the road bed about a foot higher than the pavement? This is a matter that property owners along this waterway should take up, and either have the pavement raised, the road bed lowered, or a system of ferries established so that pedestrians can pass in front of Central Park without danger or drowning or wet feet.

SANTAL-MIDY

Cures any Case in from 48 hours to 6 days without inconvenience. Absolutely Harmless in effect. Prevents Stricture and Spots on the Skin. Sold by all Druggists. Price $1.00

A STRONG PETITION

To Mr. R. R. Hall, Regarding Separate School Clause

The following petition signed by 80 ratepayers of West Peterborough, has been forwarded to Mr. R. R. Hall, M.P., at Ottawa. The petition will go forward in sections of from one hundred to two hundred names on each section:

To R. R. Hall, Esq., M.P., Ottawa;

Sir,—We, the undersigned electors of West Peterborough, do hereby respectfully petition you as our representative in the Dominion Parliament, to take all proper and legetimate means in your power to assist in having the educational clauses in the Autonomy Bill recently introduced in the House of Commons by the Hon. Sir Wilfrid Laurier, amended, so as to allow the proposed new provinces to decide for themselves, whether they will have Separate schools or not, instead of forcing Separate schools upon them, for all time to come, in opposition, it may be, to their own wishes. We are unalterably opposed to any interference in this matter by the Dominion Government, and firmly believe that the new provinces should have full control of their own educational legislation. The feeling in this constituency is very strong, on this point, and we look to you to carry out the wishes of your constituents.

John Mann, G. H. Howson, J. F. Thornton, W. Eyres, T. J. Warne, C. A. Alexander, Geo. Schneider, Geo. W. Powell, B. C. Yelland, Geo. H. Williamson and seventy others.

Personal and Social

Movements of the people in and out of town . . . .

—Mrs. A. L. Davis, Toronto, is down for a day or two.

—Mr. J. H. Brandon, Fenelon Falls, was in town yesterday.

—Lt.-Col. J. W. Miller was in Toronto yesterday on business.

—Mr. Henry LeBrun was doing business in Toronto yesterday.

—Mr. Lorne Kedy, Toronto, representing the Hardware and Metal Journal is in town.

—Mrs. Robert Lewers, Frazerville, is the guest of her brother, Mr. Chas. Crowe, Cedar street.

—Lindsay Post says, Mr. James Galvin, of Peterborough, was a visitor to town to-day.

—Mr. E. G. Patterson, Superintendent Canadian General Electric Company, is in Chicago on business.

—Mr. W. Henderson, superintendent of the waterworks system, has returned from a business trip to Hamilton.

—The condition of Mr. T. Dixon, Craig, ex-M.P., Port Hope is very serious and his illness is causing his friends much anxiety.

—Miss Bessie Mitchell of Murray street, left for Belleville on Monday, where she will enter the city hospital as a nurse-in-training.

—Yesterday Miss Distant, of 426 Rogers street, in the 5th Ward, was married to Mr. George Ward. The happy couple left last night by the 9.10 train for their honeymoon.

—Mrs. Margaret Nugent, 519 George street, and Mr. George H. Garlick, were united in marriage yesterday. They left by the G.T.R. train upon a honeymoon, after which they will reside in Peterborough.

—Mr. A. H. Pearson, of Messrs. W. J. Pearson & Sons, the well-known Lumbermen of Montreal, was in town yesterday on the interests of his firm. He purchased some remarkably fine driving horses, which have been shipped to the eastern markets.

—Mr. Thomas J. Kelly, of the Bank of Toronto staff, who has been transferred to one of the Toronto branches of the Bank, left for the Queen City on Tuesday. The many friends made by Mr. Kelly during his residence here, will be pleased to learn of his promotion.

—Mr. and Mrs. Fred T. Weir of Toronto, are in town, spending a few days with friends before leaving to-morrow night for Calgary, Alberta, N.W.T., where they will reside in the future. Mr. Weir has been appointed as manager of the Sovereign Seal Company, which has a large manufacturing establishment there. Many friends in Peterborough will wish Mr. and Mrs. Weir, the best of success in their new home.

Straight Through to Driving Park

Negotiations are now in hand to complete the opening of a straight line, via George street, to the Exhibition Grounds, main gate. The local proplet foresees that the Street Railway Company will, by the end of June, have a straight track to that point. The town has, for some time, held options on the property through which this extension of George street would necessarily pass, but these options are outlawed unless arrangements are completed in a short time. Options have been secured on all the properties except one, and in case a satisfactory settlement cannot be effected with that person expropriation proceedings will be taken. The Mayor and Council are determined that the street shall be opened and that without any further delay.

The Band Concert

At the Band concert to-morrow night the band will be assisted by Mr. Gilbert Markle, violin soloist. The program will be unique and varied, amongst the numbers being, (Characteristic) "A Kansas Dance" Prior, By request. This number was played at the last Band Concert and made a tremendous hit; also Descriptive Nautical Fantasia, "Voyage' in a Troop Ship to India." Played with great success by the Band of the Grenadier Guards on their Canadian tour.

Colds. Their Proper Treatment and Cure.

Commonly, the first symptom of a "cold" is a chilly feeling, accompanied by sneezing, or a tickling in the throat. The most frequent of external causes are draughts, wet or cold feet, or going from hot rooms suddenly into cold ones. More frequently there is an inner cause—namely the stagnation of the blood caused by constipation or biliousness. Almost the first symptom is the [illegible] discharge from the nose.

No one ever takes cold unless constipated, or exhausted, and having what we call mal-nutrition, which is attended with impoverished blood and exhaustion of nerve force. Tonics consisting of large portions of alcohol, iron or cod liver oil do not bring the desired changes in the blood, because they do not enter the system and are not absorbed into the blood, with the exception of the alcohol, which shrivels up the red blood corpuscles when it does come in contact with them. We recommend the botanical extract of Dr. Pierce because it contains no alcohol, and offers a reasonable and scientific method of treating the blood, by improving the nutritive functions of the patient. The "Golden Medical Discovery" accomplishes this, by first restoring the enfeebled digestive organs, so that food, the natural tissue builder, will be digested and assimilated.

Accept no substitute for Dr. Pierce's Golden Medical Discovery. There is nothing "just as good" for diseases of the stomach.

Application to Parliament

Notice is hereby given that an application will be made on behalf of the Town of Peterborough to the Legislative Assembly of the Province of Ontario at the next session thereof for an Act for the following purposes:

1. That the said Town of Peterborough may be incorporated as a City, with all the rights, powers and privileges of cities under the provisions of The Consolidated Municipal Act.

2. To authorize the Council of said Town to purchase from The Roman Catholic Episcopal Corporation for the Diocese of Peterborough certain lands in the Town of Peterborough required for the site of an Armory and Collegiate Institute and to convey such portions thereof as may be necessary to the Crown and the Board of Education for the said purposes.

3. To authorize the Town and County of Peterborough to convey Lot Number Three, south of McDonnell Street and west of George Street, in the Town of Peterborough, to the Board of Education for school purposes, and to ratify and confirm By-Law Number 263 of the County of Peterborough, passed to authorize such conveyance by the said County.

4. To authorize the Council of the said Town to change the method of paying for the construction of granolithic or concrete sidewalks from the local improvement system to a general tax.

5. To amend section 3 of chapter 4 of 3 Edward VII. so as to authorize the Water Commissioners to retain the whole of the surplus annual revenue derived from the Waterworks, to form a contingent fund for the purposes in said section mentioned until said contingent fund amounts to $50,000.

6. To ratify and confirm the following By-Laws passed by the Council of the said Town, namely:

BY-LAW No. 1077—To provide for borrowing $50,000 for the purchase of a site and pay for the erection and equipment of a Collegiate Institute;

BY-LAW No. 1079—To provide for borrowing money to pay the cost of the construction of granolithic sidewalks on certain streets in the said Town secured by local special rates;

BY-LAW No. 1080—To provide for borrowing money to pay the Town's proportion of the cost of the construction of granolithic sidewalks on certain streets in the said Town;

BY-LAW No. 1081—To provide for borrowing money to pay the Town's proportion of the cost of sewers on certain streets in the said Town;

BY-LAW No. 1082—To provide for borrowing money to pay the cost of the construction of sewers on certain streets in the said Town secured by local special rates;

BY-LAW No. 1100—To provide for borrowing the sum of $10,000 for the purchase of a site for an Armory in the said Town;

BY-LAW No. 1112—To provide for borrowing the sum of $3,000 required by the Board of Education to pay for alterations in the heating apparatus in the Central Public School;

BY-LAW No. 1117—To provide for borrowing $30,000 for the purpose of making extensions, improvements and alterations in the Waterworks system of the said Town;

BY-LAW No. 1119—To provide for borrowing the sum of $12,000 for reconstructing and repairing bridges and for purchasing land for and opening new streets in the said Town;

BY-LAW No. 1126—To aid The Peterborough Cereal Company (Limited) by a grant of land and a fixed assessment of $10,000 for ten years;

BY-LAW No. 1127—To aid The Peterborough Shovel and Tool Company (Limited) by a grant of land and a fixed assessment of $4,000 for ten years;

Dated at Peterborough this 14th Day of February, 1905.

E. H. D. HALL.
Town Solicitor.

The Canadian Northwest

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration [illegible] or the Dominion Lands Agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

[1] At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead of the cultivation.

[2] If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

[3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses [2], [3] or [4] must cultivate 30 acres of his homestead, or substitute 30 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1899.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Offices in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

RUSSIA READY TO ARRANGE FOR PEACE TERMS NOW

She is Taking Steps to Find Whether Japan Will Give Her Reasonable Terms at This Stage —British Cabinet Discusses Terms.

St. Petersburg, March 24.—The Ministers and supporters of court who advocate the submission of pacific proposals to Japan, as previously set forth in these dispatches, so as to ascertain whether an honorable basis of peace is possible, believe they have carried the day, and the Associated Press learns, on high authority, that an actual step is imminent, if not already taken.

The truth of the above dispatch may be taken for granted. The fact that peace propositions are being considered is undoubtedly the reason for the meeting of the British Cabinet to-day. The authorized denial that the meeting had anything to do with intervention by the powers does not cover the point, because no intervention in the sense mentioned is intended. Other very important questions, however, are raised, and Britain as the ally of Japan, has probably had the peace proposals submitted to her by one or both of the disputants. While negotiations are on, no cessations of hostilities will be granted, and before peace is formally concluded it is not unlikely Togo will have met the Baltic fleet, and another battles have been fought in Manchuria.

PROPOSED TERMS OF PEACE.

TERMS of peace which may meet with the acceptance or both parties, are as follows:

Korea to be placed under Japanese suzerainty.

Manchuria to be evacuated by the Russians.

Port Arthur to remain in Japanese possession.

Vladivostock to be declared an open port.

Chinese Eastern Railway, costing two hundred and fifty million dollars, to be sold, and proceeds to be turned over to Japan as an "indirect" indemnity.

Payment to be made for keep of prisoners in Japan.

Number of Russian warships in Eastern waters to be restricted.

No cession of Russian territory.

London, March 24.—The Cabinet met this afternoon at the foreign Office. According to a news agency, the Ministers assembled to consider a proposal for the intervention of the powers in the Russo-Japanese war. No confirmation of the report has thus far been obtainable.

London, March 24.—It is authoritatively stated that the Cabinet meeting to-day had no connection whatever with intervention in the far eastern war.

ARE NEARING PEACE.

St. Petersburg, March 24.—The party within the Government which is urging the Emperor to reiterate to Japan Russia's willingness to end the war if a reasonable basis can be reached, has been greatly encouraged the last few days, and an actual pacific proposal may be just ahead. The subject has occupied much of the attention of the conferences at Tsarkoe-Selo. Certain Grand Dukes, supported by General Sakharoff, the Minister of War; Admiral Vollon, the head of the Admiralty, and what is known as the war party, are still bitterly opposed to the idea of peace under present circumstances; but, with the exception of War and Marine, the Emperor's Ministers, headed by M. Witte, solidly favor this course, and the convincing arguments they offer are telling.

In view of the possibility that no basis of agreement might result, even should the Emperor now approach Japan with pacific proposals, it is regarded as entirely unlikely that hostilities would continue, again following the precedent of the Chino-Japanese war, until negotiations ended. The Chino-Japanese negotiations were begun in December, and peace was concluded in the following April. Meanwhile the Japanese made a winter campaign in Manchuria.

The conferences concerning the question whether Russia should now indicate her willingness for peace all agreed, firstly, that preparation to continue the war should not be relaxed and incidentally to reject humiliating terms. There would probably be two points on which Russia would be found implacable, namely cession of territory and indemnity, to neither of which, it is said, Emperor Nicholas would ever agree. It is pointed out, however, that after Japan seriously desires enduring peace on collateral questions, Russia might be ready to offer liberal compensatory considerations.

POSSIBLE TERMS.

For instance, in lieu of direct indemnity, she might turn over to Japan the proceeds of the sale of all the rights and the property of Port Arthur and Dalny and the Chinese Eastern railways, and liberally pay for the maintenance of Russian prisoners in Japan, and, while refusing to cede Sakhali, might grant rights to the fisheries there, or even relinquish the valuable seal fisheries on the Commander Islands. It is possible also that satisfactory arrangements might be made regarding Russian naval strength in Eastern waters for a period of years.

RUSSIANS IGNORANT.

St. Petersburg, March 24. —General Linevitch telegraphs under date of March 23, that he had no news of any encounters with the Japanese on March 21st.

EXPECT AN ATTACK.

Portland, Ore., March 24.—According to advices brought by the Portland and Asiatic steamship Arabia, from Yokohama, there are at present about 40 blockade runners of various nationalities in Japanese ports which have been captured attempting to enter Russian ports. The crews of the captured vessels are treated well by the Japanese and as rapidly as possibly sent to their home ports.

According to blockade runners captured on the return trip from Vladivostock, the harbor there is filled with vessels loaded with provisions and coal. Provisions are said to be cheap, meat being sold for 20 kopecks (10 cents) per pound. The impression exists in Vladivostock that the Japanese intend to attack the place in the immediate future.

MORE MEAT FOR TOGO

Third Division of Baltic Fleet Sails for Port Said

Canea, March 24.—The third division of the Russian Baltic fleet, commanded by Rear-Admiral Nebogatoff, sailed hence today for Port Said.

Awaiting Arrival of Fleet

London, March 24.—A despatch to the Daily Mail from Aden says that thirty steamers, with 100,000 tons of coal, are at Jibutil, French Somaliland, awaiting the arrival of the Russian fleet.

LOAN TO JAPAN

German Banks Arrange to Lend Fifty Million

Berlin, March 24.—The Tageblatt states that the Deutsche and Dresden banks have arranged for a five per cent. loan to Japan, of the amount of $50,000,000, the Japanese undertaking the purchase of war material in Germany.

GREAT NAVAL BATTLE

Russian Fleet Will Give Battle to Japanese

St. Petersburg, March 24.—At the Admiralty it is strongly intimated that Admiral Rojestvensky will effect a juncture with Admiral Nebogatoff within ten days, and then proceed to meet Admiral Togo.

The third division of the Russian second Pacific squadron, commanded by Rear-Admiral Nebogatoff, left Suda Bay, Island of Crete, yesterday, for Port Said.

A VETERAN PATRIOT

Senator Wark's Plea to British Columbians

Vancouver, B. C., March 24.—Senator Wark, who is 101 years old, has written in his own handwriting a long plea to the Maritime Province Association of British Columbia, which has two thousand members, to do all in their power for the consolidation of the empire. Among other things, he advocates that a wheat-bearing section of the North West be included in British Columbia.

CANNOT KEEP IT UP

Siberian Road Unequal to Transporting New Army

Paris, March 24.—The St. Petersburg correspondent of the Matin reports an interview with M. Lelianoff, the Mayor of St. Petersburg. The Mayor declared that the future of Russia depended upon the arrangement of peace and the suppression of internal disorders. He said it was impossible to continue the war, as the Trans-Siberian Railway was no longer in a condition to be used for the transportation of the necessary men and material. He added that Russian men of business could not trade in the present condition of the country.

A DESPERATE DEED

A Jealous Man Wounded His Sweetheart

Vancouver, B. C., March 24.—Crazed with jealousy, Thomas Flood, of Fernie, B. C., shot and wounded his sweetheart and her brother-in-law. Flood was engaged to Miss Coles. The latter was living at the house of M. H. Baird, her brother-in-law. When Miss Coles rose to go out, another young man named Milligan rose to go with her. Without warning, Baird seized Flood, and Flood fired at Baird, the ball going through his wrist. Milligan made a rush at Flood, who fired again at Miss Coles, the bullet going through her arm. Milligan sprang on Flood, and again the gun went off, this time the bullet going through Milligan's coat. Flood was overpowered at length and locked up.

GETS LOAN ON GERMANS

New York Bankers Hear That Negotiations are Nearly Complet d

New York, March 22.—Negotiations are now under way in Berlin looking [illegible] government loan by German bankers. Advices of this effect was received by New York bankers today. The negotiations, it is understood, have been under way for some days, and a definite announcement on the subject is expected shortly. If satisfactory terms are agreed upon New York bankers will participate with the German financiers.

FREIGHT TRAIN WRECK

Three Cars Went Over an Embankment on the Ice Near Port Hope

Port Hope, March 23.—A serious wreck on the Midland division was narrowly averted here this morning. As the mixed train from Lindsay was nearing the town a brake beam broke throwing three cars over the embankment on to the ice in the river. Some of the grain and flour in the cars was damaged. If it had not been for the thick ice at this place the whole train would undoubtedly have been thrown into the river. The auxiliary is at work and will have the wreck cleared in a few hours.

A NEW IDEA IN SUGAR

Canadian Beet Sugar Plant to Work o Trinidad Raw Sugar

Ottawa, March 24—Mr. D. A. Gordon, M.P., for East Kent, is about to make an important experiment in his large beet sugar plant at Wallaceburg by importing Trinidad raw sugar to be refined during the season when sugar berts are not obtainable. As these latter can be had for only a few months in the fall and early winter, the project to use the mill during the rest of the year is of the greatest importance from a business and economic standpoint. The Wallaceburg mill is the first beet sugar plant in Canada to try this work. It is likely to commence operations in a few days, and the output will be large.

DIVORCED AND MARRIED

Rapid Matrimonial Changes of Former Toronto Singer

Philadelphia, March 24.—Divorced at noon and married four hours later was the experience Monday of Agnes Thomson, formerly soprano of a cathedral choir and well known as a concert singer. She obtained a divorce in Judge McMichael's court from James Fitch Thomson, also a singer, on the ground of desertion, and as soon as the papers were signed announced her engagement to Henry Milton Need, a newspaper man. At 4 o'clock they were married by Magistrate Moore. Need gave his age as 31 and that of his prospective bride as 37. The bride's first marriage took place in June, 1884, in Toronto. Mrs. Thomson in her suit said that on October 10, 1900, her husband left home, ostensibly on a business trip, and never returned.

TO RAISE MONEY AT HOME

Internal Credit Loan of $100,000,000 for War is Decided on

St. Petersburg, March 24.—An internal credit loan of $10,000,000 on a 5 per cent. basis is being negotiated by the Ministry of Finance. The loan will be floated probably in a short time. The loan will be floated probably in a short time. The price of issuance probably will be 93 to 95. The Associated Press was informed at the Ministry that the issuance of this loan is entirely independent of the French negotiations, which have not been concluded. Domestic rentes will be issued for a long term, and, as in the case of the internal credit loan, will not be subject to the obligations of foreign loans. The payment of the interest and principal will be in gold.

FLEA BITES SPREAD DISEASE

Yale Professor Thus Explains How Haven's Spinal Meningitis

New Haven, Conn, March 20.—Prof. Addison E. Verrill, curator of the Yale Zoological collection, in a public statement today advanced the theory that spotted fever, or spinal meningitis, of which there are many cases in this city at present, is probably conveyed by the bites of fleas or other insects. Prof. Verrill, after discussing the propagation of various other diseases, says;

"It seems very probable that the spotted fever now prevalent in New Haven is caused by a minute blood parasite which may be conveyed to healthy persons by the bites of infected fleas. This method of infection would best explain the scattered and irregular distribution of the cases and the greater frequency of the disease in unsanitary localities."

WHEELS ARE CLOGGED

Dilatoriness of Scheme to Provide Parliament for Russia

St. Petersburg, March 24. — M. Boulygaine's commission, presided over by Baron Solsky, Vice-President of the Council of Ministers, will begin its sessions on March 24 at Baron Solsky's private residence. It is ensured that the commission will consider schemes presented by provincial nobility, the Zemstovs, and municipal and other assemblies, until October 1, when it will present a report to the Council of the Empire, which will take until November 1 to elaborate the final form of selecting delegations. The selections will be made on January 1, 1906.

The moderates deplore the dilatoriness, and they especially deplore the reassertion that the elections from the different states of the realm, when held, will be only for the purpose of deciding in what form the deliberative element may be introduced alongside the bureaucracy, but without defined authority under the autocracy.

KILLED AT HOCKEY

The Laney Murder Trial Will Open on Monday

Cornwall, March 24.—A great deal of interest is being taken throughout Stormont and Glengarry in the trial of Allan Looney, the Maxville hockey player, which will come up at the assizes opening here on Monday March 27, before Mr. Justice Teetzel, and it is expected that a very large number from the surrounding country will be in town to attend the trial. Looney, who is confined in the Cornwall gaol, has nothing to say on the subject except to deplore the regrettable affair. His friends are confident of his acquittal, as they claim to have very strong evidence for the defence. Provincial Detective Greer was in town this week, and it is rumored that he has been looking up evidence in connection with the case.

MAY CUT RAILWAY

Bandits Commanded by Japs Threaten Communications

Paris, March 24.—The St. Petersburg correspondent of the Petit Parisien says a despatch from Harbin states that a large body of Chunchuses, commanded by Japanese officers, are near Tsitsihar. It is feared they will cut the railway.

There is a famine at Harbin. There is no flour or wheat in the town, all having been sent to Mukden two months ago.

A St. Petersburg despatch to the Petit Parisien says that the situation of the Russian army in Manchuria is deplorable. In the rear of the retreating force follows a horde of 10,000 stragglers, half mad with starvation and fatigue, who rob all alike in their eagerness for food.

MAN YOUNG AT SEVENTY

HIS AVERAGE LIFE IS BEING YEARLY INCREASED

Science is Paving the Way for Revolution in the Longevity of the Human Race—Three Methods to Prolong Life

Washington, March 24.—"The time will soon come when a man will be young at seventy."

Dr. Harvey Wiley, Chief Chemist of the United States, says this. Science, he thinks, is paving the way for wonderful revolutions in the longevity of man.

"Scientific statistics prove conclusively," declares Dr. Wiley, "that the average life of man within the last few years has been increased from 33 to 40 years. I predict that before long the life of the average man will have been increased to 70 years. I believe that the Biblical injunction—three score and ten—was not intended to be regarded as the exceptional, but it expressed the average age which man might hope to attain—which, indeed, he would attain.

"By exposing bogus patent medicines and educating the people not to take them, and by promulgating correct laws of health, this will be take them. There are three methods to prolong life, and all must be followed. They are temperance, work and play."

ANOTHER WIRELESS ACHIEVEMENT

Clever use of the Shore to Ship by the Wonderful Marconi Service

New York, March 24.—Mr. J. Pierpont Morgan sailed on the White Star steamer "Baltic" last week, and inadvertently left some important business unfinished immediately before his departure from New York. It was only recently that the White Star Steamship Company gave an order for the installation of the Marconi system on all its boats. The work had not progressed far enough so that the instruments were in place on the "Baltic." When it was found necessary at Mr. Morgan's office that his opinion should be obtained in connection with the abovementioned matter, the Marconi Company was called into consultation and proved equal to the emergency. The necessary message was sent from the station at Cape Cod to a trans-Atlantic liner supplied with Marconi apparatus and en route from Southampton to New York. The latter boat intercepted the "Baltic" on its course, signalled the message to Mr. Morgan, received his reply and transmitted it to the Marconi station at Cape Cod, whence it was delivered to Mr. Morgan's office.

It is reasonable to presume that Mr. Morgan and the other prominent gentlemen who received this indisputable evidence of the value of wireless telegraphy will never cease to admire the brilliant genius of the inventor who made it possible. It is safe to say that Mr. Morgan will exercise his influence in connection with the White Star Steamship Company to make certain that the installation of the Marconi apparatus on every one of the White Star boats shall proceed with all possible haste.

Taking Horace Greeley's Advice

Whilst we have every good wish for the prospects and future of the new country opening up in the great North-West, it is almost distressing to contemplate the exodus that is in progress to that section from here. Several families, taking with them their household goods and farming implements have left here within the past few days. Both C.P.R. and G.T.R. are running homeseekers excursions, and it is estimated that between 1,200 and 1,400 people left Toronto for the Northwest Tuesday. Four special trains of seven cars each carried the party and they were followed by two trainloads of effects, including farm implements, live stock, etc. The party consisted of Ontario farmers, young and old, who are removing to the West, many of them taking their families with them, although the majority will wait until they are permanently settled before bringing their families out. They arrived in Toronto on the morning trains from different parts of the Province, and by noon the Union Station was crowded with settlers waiting for the departure of the afternoon trains to North Bay.

SATURDAY'S CONVENTION

Agent of the Metropolitan Life to Assemble To-morrow and be Banqueted

As noted in THE Times some two months ago, Mr. Rothwell was here by the Metropolitan Life Insurance Co. to open a district office. At that time he promised the assistants and agents all through this section of Ontario, that if they accomplish certain results, he would hold a convention at Peterborough.

Mr. Rothwell has advised us that the men have qualified for this convention therefore every man of his district will come to Peterborough on Saturday and celebrate.

On the bulletin that is issued giving the standing of all the districts in the Dominion, and there are more than 400, including the largest cities in Canada, the Peterborough district stands No. 77.

The men of this district feel so confident of their ability to beat any other district in the country, that they have challenged any other district out of the 400, for the next three months.

If all leaders of industry would take hold of their business with the same determination and hustle that these people are doing with their business, Peterborough, and this part of Ontario, would go ahead with a boom that would be unprecedented in the history of Canada.

The convention will assemble and discuss business matters of their company, after which we understand that arrangements have been made to drive round and show the visitors the sights of our town. Their visit will terminate with a banquet tendered them by Mr. Rothwell. This visit of so many enterprising men of a class who lead "the strenuous life," will insure Peterborough being advertised throughout Ontario.

SALVATION ARMY ATTRACTION

Biograph Pictures at the Barracks Greatly Admired.

That the Salvation Army are not unskilful fishers for men and incidentally for the where-with-all to carry on the good work, is proved by their latest drawing card at the Barracks. They had a very fine and varied selection of biograph pictures, which were reeled off and shown in life-like manner by their operator. They threw about 3,000 feet of moving pictures on the screen, 100 slide pictures, and a number of photographs of Army officials, including The General, the chief of staff, and various territorial leaders, were thrown on the canvas. The whole entertainment lasted about two and a half hours.

The evening's pleasure was greatly enchanced by the selections rendered by the band, as well as the martial airs played on the organ by Mrs. Green, as the view of the march past was being presented. Capt. Hurd of Midland, who came down specially for the entertainment, sang a solo which was rendered at the International Congress by the Colored Singsters from Kentucky. Bandmaster Brown also gave the "Holy City," very sweetly and with good effect.

Detailed explanations of the views were given by Staff-Captain McLean and proved most interesting.

SALE OF MARKET TOLLS

Auctioned Off Yesterday and Brought The High Price of $1230

The Council Chamber was crowded yesterday morning, to see Mr. Charles Stapleton, auctioneer, sell the market tolls for the coming year. Before beginning the sale Mr. Stapleton asked the three gentlemen supposed to be the likely competitors to take a seat in front, which was complied with, and Messrs. J. A. Wood, Jas. B. Brown, and Thomas J. Lee took their place inside the rail. Mr. E.V.H.D. Hall, Town Solicitor, was present in official capacity. In answer to a question of what protection the town would give the successful bidder, in case the Street Railway Company ran a line up Water street, and thereby spoilt the market, he explained that whilst the company certainly had a right to do this by their charter, that in a conversation with Mr. J. H. Larmouth, he had learned that there was only a slight probability of the street railway running on Water street as the company recognized that it would practically ruin the market. The probability was, according to Mr. Larmouth that if any extensions were made, the George street line would be double tracked, and this is a probability of the near future.

There was some spirited bidding amongst the three men who were after the privilege, the first bid being $1,000 by Mr. Brown. Mr. Lee, the owner of the tolls last year, only made one bid, $1,210.

The bids made by the respective biddera were;—

Brown—$1,000, $1,200, $1,230, $1,250, $1,270, $1,300, $1,320.

Wood—$1 100, $1,220, $1 240, $1,260, $1,280, $1,210.

Lee—$1,210.

Mr. Brown is a farmer residing in North Monaghan, and is a man who should fill the duties of the position to general satisfaction. He will have charge of the market from April 1st.

For the last four years the prices received have been;—

1901—$1 300.
1902—$1,270.
1903—$1,020.
1904—$1,000.

During the last year it has been noticed that the market was patronised by an increasing number of readers, and it is hoped that this will continue in the future, until Peterborough's market regains the place which it once held.

WEST CANNOT BE SAVED UNLESS THE PEOPLE HELP

Let the People Speak and Every Elector Opposed to the Bill Should Write to His Member At Ottawa At Once---Public Opinion Wanted.

Ottawa, March 23.—Mr. Borden has done the right thing—too late.

He has come out for Provincial right, in terms which, on the whole, are thoroughly satisfactory. "I am standing on the rock of the constitution," he said. He would oppose a Federal prohibition of the establishment of Separate schools in the new Provinces—he as strongly opposes a Federal prescription that Separate schools must be maintained. "that question should be left absolutely to the control of the people of the new Provinces."

But this declaration and the smashing legal argument which accompanied it, comes, not when the Liberal ranks are torn by dissension — not when Liberal members of Parliament still have their course under advisement—not when a revolting wing is debating to what length of surrender it can safely commit itself—but after the dissentients have capitulated, after the doubtful ones have made their plunge, after the party ranks have solidified. Mr. Borden's watchword of Complete Autonomy would have rung ominously in Liberal ears a week ago. As it is, inalliprobability the die is cast, and his followers can but record their votes against a Government majority which will be little diminished. Mr. Borden may be laying the train for a future explosion in the Liberal camp; he may shake yet further the Government's loosened hold upon its supporters in Ontario and the West—but it is doubtful if he can save the West And that, not party gain, is the important thing.

MR. BORDEN'S AMENDMENT

THAT all the words after the word 'that' to the end of the question, be left out, and the following be substituted therefore;

"Upon the establishment of a Province in the North-West Territories of Canada, as proposed by bill No. 69, the Legislature or such Province, subject to, and in accordance with, the provisions of the British North America Act, 1867 to 1886, is entitled to, and should enjoy, full powers of Provincial self-government, including the power to exclusively make laws in relation to education."

LET THE PEOPLE SPEAK.

Only one thing can defeat clause 16 now. That is a popular response to Mr. Borden's stand that will overbear Governmental resolution—if the men of the constituencies—more especially the Liberals who have no desire to see their fine old party become the advocates of coercion and the Conservatives allowed to constitute themselves the unquestioned bearers of the banner of Provincial rights—assert their wishes strongly enough, the Government, or enough of the English-speaking Liberals, may once again reconsider their attitude. The Government has flinched once; it may pause again. The task will be harder than if the Conservative leader had struck his declaration like a wedge into the riven ranks of the Liberals. But it is the only means of saving the West from a crippled autonomy and the East from a discreditable refusal to give the younger Canada the full liberty to which she is the heir.

Police Court

OFFICIALS

Chief of Police, G.I. Read
Magistrate, D.W. Dumble

At yesterday's Court, Thomas Henderson, an old man who blew in from the country a few years ago, and who has since shown every indication of a love for work, provided it was not to be done between meals, was given a pass to Castle Neabit, good for six months. During this time, Thomas will wrestle with corporation cordwood, and, as the skies get bluer, and the little birds warble in the bushes, will enjoy the fresh breezes as he tends the colic breeding cucumber and other vegetables back of his hotel.

Timothy Daly, who has been practising the various side-steps and concentric circles incidental to a jag was allowed to go.

Walter Guy was charged by Chief Ressel with conduct unbecoming a father, and a Son of Temperance. Walter had been complained of more than once by his neighbors, as getting drunk and neglecting his wife and offspring. Several witnesses gave evidence which concurred in proving Walter far from a good parent. His wife says she can support herself and her children, but draws the line at having a Guy sitting round the house, whilst he toils not neither does he spin. Walter compromised the matter by promising to keep away from the conjugal hearth for a period of one month, and on this understanding was allowed to go.

RUSSIAN JEWS ASK RIGHTS

Petition Demanding Equality Before the Law Sent to the Government

Berlin, March 23.—A local newspaper prints a petition, signed by 650 Jews, which has been submitted to the Russian Government. It says;

"At the present moment, when Russia resounds with burning questions, the Jewish ones should also be considered. They are unforgotten, in fact, always kept in the foreground by persecutions and uninterrupted degradations. Education is denied Jews, and the Jewish masses are herded in over-populated cities and villages. We therefore make it known that the Jewish population is not satisfied by partial concessions. We demand equality before the law. We demand such not because our brothers are spilling their blood in Manchuria, but before the law as men, as conscious citizens of the State we demand the destruction of all restrictions in the name of our rights."

The main petition came from 22 Russian cities.

—Next Sunday, the Baptist church of Belleville, will celebrate its 32nd anniversary. Rev. John D. Freeman, M.A., pastor of the Bloor street Baptist church, Toronto, will speak at both services. This is the church of which Rev. O. C. Elliott, formerly of Peterborough, is pastor.

ATHLETIC WORLD

BY OUR SPORTING EDITOR

LACROSSE.

The Strathcona Lacrosse Club met in the parlors of the C.P.R. Hotel last night, and organized for the coming season. The meeting was splendidly attended, and was very enthusiastic. After the election of officers, and other business was transacted, refreshments were served, and a very enjoyable evening spent. The Strathconas will place a team in the city league, or in the T.V.L.

Following were the officers elected;—

Hon. Pres.—Mr. G. T. Rickerby.
Hon. Vice-Pres.—Mr. C. Young.
President—Mr. P. Crowe.
Sec.-Treas.—Mr. F. McCarthy.
Manager—Mr. A. McAuliffe.

* * * *

FOOTBALL.

The annual meeting of the Midland Football League, which will be held Saturday, promises to see a large representation of teams, and the prospects are that the coming season will be most successfully initiated. Word has been received from Bowmanville, that a southern district will probably be formed consisting of Oshawa, Bowmanville, or Cobourg.

* * * *

Wanderers are in Line.

A very interesting meeting was held at the Y.M.C.A. Wednesday night when the Old Country Wanderers Football team re-organized for the coming season.

The prospects for this season are extremely bright, and the Wanderers will be re-inforced by the addition of several new players.

The following officers were elected;—

President—William Hamilton.
Vice-President—R. H. Jackson.
Secretary-Treasurer—R. Butler.
Manager—A. Henderson.
Committee of Management — A. Henderson, H. Butler, G. Dixon, T. H. Hawkins, D. Evans.

Messrs. H. Butler and J. Lyon were appointed as representatives to attend the organisation meeting of the Midland Football League on Saturday, March 25th.

The next meeting of the club will be held at the Y.M.C.A. on Wednesday evening, March 29th, at 8 o'clock, at which all old members and anyone wishing to become connected with the team are particularly requested to be present.

* * * *

HOCKEY.

All the members of the West End hockey team are requested to be in uniform at Whiten's photograph studio on Saturday afternoon at three o'clock.

* * * *

BIG SCORES IN HOCKEY.

Following are some of the large scores made this season in hockey;

Fenelon Falls 29, T.A.S. 0.
Ottawa 23, Dawson City 2.
Fenelon Falls 21, Orillia 1.
Fenelon Falls 20, Cobourg 3.
Peterborough 21, Port Perry 7.
Prescott 21, Iroquois 2.
Peterborough 27, Markham 3.
Uxbridge 17, Markham 6.
Peterborough 18, Lindsay 5.
Stratford 16, Owen Sound 2.
Niagara Falls 16, Thorold 6.
Victoria Harbor 16, Parry Sound 7.
Berlin 14, Welland 1.
Smith's Falls 14, Morrisburg 3.
Lindsay 11, Markham 0.
Peterborough 11, Lindsay 0.
Rat Portage 14, Montreal 5.
Fenelon Falls 13, Cobourg 2.

—There will be no class meeting tonight at the Y.M.C.A., owing to the basket-ball match with Port Hope.

SANTAL-MIDY

These tiny Capsules arrest in 48 hours without inconvenience, affections in which Copaiba, Cubebs and Injections fail.

ADVERTISE IN THE TIMES.

A Death From Heart Disease

Overtake Those Who Neglect Their Weak Heart and Tired Nerves.

FERROZONE

Is the One Sure Heart Tonic That Always Cures

An attack is liable to come at any time from over-exertion, excitement or emotion.

If blood rushes to your head with palpitation and shortness of breath are noticeable, there's great cause for alarm.

A. F. Beattie, of the Alton Hotel, Bay City, Mich., was cured of heart disease by Ferrozone. Say, if you're sick don't fail to use

THE SYMPTOMS:

Nervousness	Palpitation
Trembling	Dizziness
Sinking Feeling	Heart Pains
Short Breath	Weakness

Mr. Beattie says:

"I was weak and miserable.

"I was a subject to heart palpitation and dizziness.

"As I grew worse I began to have trembling and sinking sensations.

"Ferrozone strengthened my heart, gave vigor to my nerves, soon made me well. It's a great builder."

The one medicine for the people with weak heart and poor nerves is Ferrozone, 50c. a box or six for $2.50, at all dealers in medicine, or Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $2 per year, strictly in advance.

PETERBOROUGH, MARCH 24 1905

PAUPERISM IN ENGLAND

England is much disturbed by the revelations concerning pauperism in the United Kingdom, and well she may be. It is shown that every fortieth person in England and Wales is a pauper supported at the expense of the community. At the close of January 823,854 persons are shown by the records to have been in receipt of relief, the largest number on record since 1873, and only once in the intervening period has the total reached as high as eight hundred thousand—in 1881, when it was 894,849. And not only has there been this steady increase in the total number of paupers, but for the last five years the ratio to the population has increased steadily. In 1901 the total number was 707,446, or one to every thousand of population. In 1902 it was 720,445, or 22.1 per thousand; in 1903, 742,938, or 22.5 per thousand; in 1904, 769,029, or 23 per thousand, and in 1905, 823,804, or 24.4 per thousand. The total number of paupers for the current year is divided into 259,240 indoor and 564,008 outdoor cases, or, in other words, one person in every hundred and twenty-five living in England and Wales is in the workhouse.

The number of paupers in London is 138,182, or one in every thirty-six of population, the largest number since 1871, when there were 162,425, and a number which has been approached but once in the interval, in 1886, when there were 125,435. Contrary to the conditions in the country districts, the paupers in London are largely in the workhouses, the number of indoor paupers being 77,696 and outdoor 60,686. The one provincial district to show a decrease in the number of paupers in comparison with last year is the south-western, including the counties of Wilts, Dorset, Devon, Cornwall and Somerset. All other districts show an increase, the greatest being in the eastern district, which includes Essex, Suffolk and Norfolk counties, where there are 67,975 paupers this year, as against 57,962 last year, an increase of 10,113. In addition to these figures, covering England and Wales and including those immediately classed as paupers, there is a large number of what may be termed "casual" paupers, or what, perhaps, in this country would be termed tramps. In this direction it was shown that on the last Friday in January relief was furnished in England and Wales to 11,795 of these, of whom only 1,153 were guests of London institutions, the ten thousand or more of others being in the provincial districts.

OYAMA

The name bids fair to be written under against that of Napoleon. The Japanese marshal has dumbfounded all his critics. He has taught all the military commentators tricks they know not of.

The last criticism of the experts was because Oyama had failed to follow up the disaster to Kuropatkin's [illegible]. And all the time the doughty little marshal, despite the exhaustion of his forces, was organizing a fresh turning movement.

Feinting at the Fao River in order to deceive Kuropatkin, his columns were being worked around north of Tie Pass. The Russian retreat was cut off, and the Fabian policy spoiled. The wily Oyama held the attention of the bear until his trap was set.

The man is a marvelous military genius. He unites Oriental cunning with a consummate knowledge of the science of modern warfare. A born general and secretive tactician, he has profited by the latest teaching of the military art and by all the advantages of wide travel and keen observation. He has accomplished what Napoleon might have done after the battle of Borodino.

It has been observed: "Educate a rascal and you make him more dangerous." In a better sense it may be said: "Educate a forceful and cunning [illegible] and you make him a dangerous military man."

Short, like Napoleon, Oyama is unlike him in many ways. He is less self-centered. Implacable, unmerciful, with the scent of a sleuth and the hold of a bulldog—all these plus modern military attainments. He has none of the weaknesses or romance that made Napoleon interesting. And he may never write a code of laws, but his name as a military genius will always be one to conjure with.

Marengo, Lodi, Austerlitz — are they greater than Port Arthur, Liaoyang and Mukden?

HANDS OFF!

The great bulk of the Canadian people will not stand for the saddling of Separate Schools upon the new Provinces of the West, either illegally or by means of a bill which shall afterwards have the approval of the courts. It is safe to say that the constitution of Canada does not actually insist upon the forcing of Separate Schools upon the new Provinces. The courts may decide that the Dominion Parliament has power to do so; but it will not be held that the Dominion Parliament must do so. There is no shadow of doubt that Sir Wilfrid would interfere with no law if he were to drop the schools clauses entirely. Then why should he do something distasteful to the great bulk of Canadians when he is not in the least degree bound to do so by any law whatever?

A Separate School system, saddled upon the new Provinces by Sir Wilfrid Laurier and the courts, would be no better than the same system saddled upon the same Provinces by Sir Wilfrid without the courts.

Sir Wilfrid has but one aim: to fasten the Separate School incubus upon the new Provinces forever. He doesn't care a snap of the finger whether he accomplishes that object "constitutionally," and according to law, or by ignoring the provisions of the "constitution." And the people are opposed to the tyranny—to the making and perpetuation of a troublesome nuisance opposed to the nuisance itself, no matter whether it exists by permission of the constitution or in defiance of the constitution.

"Hands off the new provinces!" is the voice of the people.

SCHOOLS FOR EVERYBODY

A feature of this question which is generally overlooked is the narrow character of the proposal, says the Canadian Churchman. The nation is to be divided up into two parts—black and white, sheep and goats—whatever designation may suit—nominally Romanist and Protestant. We decline to be classified in this way. If there are to be religious Separate Schools, we, as church people, are as much entitled to them as any religious body. There are two ways of providing schools with equal justice; one a national system for all, or one where any religious body, on complying with certain requirements, shall be entitled to receive a proportionate share of the school tax. These separatists may be Jews, Doukhobors, Mormons, or any other community. As we understand it, Sir Wilfrid Laurier proposes that adherents of the Roman church shall be entitled to such privileges, and they are to be the only body authorized to have Separate Schools in the new Provinces.

OUR BIG RAILWAY

The Canadian Pacific Will Connect With Spokane

Montreal, March 23.—The C.P.R. will at the conclusion of the coming summer have its own connection with Spokane, Wash. In some quarters it has been thought that the C.P.R. was building a line of its own with this object in view, but any such intention is denied at the head office of the company in this city. Mr. D. C. Corbin, who has financed and built several lines in the North-western States, announces that the entire bond issue of $4,000,000 to build the Spokane International to a connection with the C.P.R. at the boundary has been subscribed. After the line has been built it will be operated by the C.P.R. The estimated distance from Spokane to the junction with the Crow's Nest Pass section of the Canadian Pacific Railway about 50 miles east of Kootenay Landing, is 142 miles, making the distance to St. Paul ten miles shorter than by the Great Northern, and 50 miles shorter than by the Northern Pacific. No doubt, Mr. Corbin says, a through train will be run from Spokane to St. Paul and Minneapolis.

ADVERTISE IN THE TIMES.

Pale, thin, tired, nervous, depressed?
Ask your doctor about taking Ayer's Sarsaparilla for this bad condition of your blood. If he says, "All right," then take it. If not, then don't take it. We feel perfectly safe; for we know what doctors say about this old family medicine.

WHAT DO YOU DO WITH THE MONEY YOU SAVE?
Are you depositing it in bank? If so what interest are you receiving? We daresay. AND NOW COMES THE VITAL QUESTION. What is the banker doing with your money? The money you have placed with him for safe keeping. For answer read the official bank statement given below of the 1st National Bank of ——— ———. It may be seen at our office at any time. It is as follows:
NOT MORE THAN 3 TO 3 1-2 PER CENT

RESOURCES

Loans and discounts	$305,789 81
Overdrafts, secured and unsecured	356 26
U. S. Bonds to secure circulation	50,000 00
STOCKS, SECURITIES, ETC.	300,000 00
Banking-house furniture and fixtures	12,000 00
Due from National Banks (not reserve agents)	1,200 25
Due from approved reserve agents	13,811 45
Checks and other cash items	1,630 71
Notes of other National Banks	3,150 00
Fractional paper currency, nickels and cents	200 10
Lawful money reserve in bank, viz—Specie $46,319 00	
Legal tender notes 11,000 00	57,319 00
Due from U.S. Treasury, other than 5 per cent. redemption fund	1,500 00
	$730,559 38

LIABILITIES

CAPITAL STOCK PAID IN	$ 75,000 00
Surplus fund	60,000 00
Undivided profits, less expenses and taxes paid	2,162 13
National Bank notes outstanding	50,000 00
Due to other National Banks	4,200 86
Due to Trust Companies and Saving Banks	64 10
Due to approved reserve agents	7,960 71
Dividends unpaid	4,764 00
Individual deposits subject to check	566,272 08
Cashiers checks outstanding	265 50
	$730,559 38

Pay particular attention to the items printed in bold type. They tell you an interesting story. They show a capitalization of $75,000. They show that over four times the amount of the authorized capital of the bank or $300,000 has been and is now invested in stocks.
PONDER OVER THIS STATEMENT If you are a bank depositor doesn't it make you think? It should! Who reaps the benefit of these investments of YOUR MONEY? Do you get it? Not if the bank knows itself. You get your little 3 or 3 1-2 per cent and the bank gets the rest. Why cannot you
INVEST YOUR OWN MONEY
Your opportunities for ascertaining the value of your investments are just as good as that of your banker. Where you not utilize these facilities for your own profit. You owe it to your self and your family and to the world to secure your own INDEPENDENCE. If you have made bad investments in the past, DON'T BE FILLY enough to let the fact check your ambition to become your own business manager. Profit by your mistakes and GET WISE.
If you desire information regarding your investments write to us. If you desire a new investment that is ABSOLUTELY SAFE and which will return large PERMANENT DIVIDENDS to you instead of your banker,
Write to us at Once. Keep Your Capital in Action.
That is the only way to make MONEY GROW. We will advise you and we will not charge an exorbitant fee for so doing. WE CAN HELP YOU AND WE WILL.

FORTUNES ARE BEING MADE IN KANSAS OIL
Here's a fortune for you. Not 10% but 100% and no risk of loss. Giant of the Oil Fields.

The Midland Oil and Gas Company
has over 180 acres of oil land and has put down 10 wells, so the land is proved up. An adjoining additional 80 was secured yesterday, making over 260 acres all in the proven belt. Just read this:
The U. S. report on the oil industry places the average daily production of Pennsylvania wells at only one-half a barrel each per day. The Midland wells are pumping
Sixty Barrels a Day Each.
The pumping plant has just been started and this is the surprising result. Nothing like it in the world. The officers and directors of this company are bank men and do not believe in debts, so the company is free from debt. They have nearly $20,000 in cash and bills receivable in the treasury and everything paid for—property, wells, pumping plant, oil tanks, well cleaning machine and everything connected with the company. Have two drilling rigs working night and day sinking wells. Have abundance of gas, which runs the drills and pumping plant, so it only costs about $5.00 a day to produce and market the oil.
The Company has about 33 per cent of its stock in the treasury as a reserve.
For a short time the Company will sell a little more of its stock at only
7½ CTS. A SHARE
Buy all you can raise money to pay for.
We could talk all day about it and not cover all the strong points. But as the company has this grand property paid for, there is only one side to it, and that is profit. Don't buy stock in a company that tells you what they will do, but buy in this company, that has proved its property, and every dollar you put in makes it better. Send for particulars or mail check to
IF YOU CAN'T CALL, CUT THIS OUT AND MAIL
Send me particulars further of the Midland Oil & Gas Co.
Name .....
Residence .....
JAMES HANCOCK & CO. 622-624 Gumbel Bldg. Kansas City, Mo.
Will have 180 Wells
As soon as the drilling rigs can put them down.
From the Kansas City Journal, Feb. 26, 1905.
There is perhaps no people in the same amount of territory in the world who have increased in wealth so rapidly. Everybody is prosperous. Many once poor and hard working families have become immensely wealthy.
Hudge Hale, an old Frisco conductor, has become a millionaire off of oil. He got in the game early. Now he has money as well as oil and gas to burn.
Fred Hetrick, a farmer living near Chanute, had a hard time for years making both ends meet. Life was a hard proposition with him. His royalties now reach $1,000 a month and he is living on easy street.
Joe Heim, of the Kansas City brewery, took a flyer in oil leases. He first put in $500 and refused $12,000 for his investment. Later he put in a lot more money in gas and oil lands and is now figuring high.
George Z. Work, the Chicago clothier, took some acres of land near Chanute for a debt a customer owed him. Work's partner refused to stand for the deal. So Work kept the land himself. He has since refused $50,000 for his holdings.
These are a few samples. Hundreds of farmers have become independently rich off their oil royalties, and hundreds of other men have made big money producing oil.
This Kansas oil bearing sand is like the Pennsylvania sand; wells will produce oil for fifty years.
Can give bank references, and dozens from people who have personally examined this great property.

VARICOCELE & STRICTURE

No other disease is so prevalent among men as Varicocele. As it interferes with the nutrition of the sexual organs it produces weakness, loss of semen through the urine, decay of the organs, pains in the loins, aching in the back, nervousness, despondency, bashfulness, palpitation of the heart, constipation, and a combination of these results in complete LOSS OF MANHOOD. Thousands of young and middle-aged men are troubled with STRICTURE. If you have reason to believe you are afflicted with it, don't neglect it. It will ruin you. Don't let doctors experiment on you by cutting, stretching or tearing it. Our NEW METHOD TREATMENT dissolves the stricture tissue, hence it disappears and can never return. We cure Varicocele and Stricture without operation or loss of time. The treatment may be taken at home privately. Send for our Free Illustrated Book on VARICOCELE and STRICTURE. WE GUARANTEE TO CURE OR NO PAY.

Kidneys & Bladder

All sexual complaints affect these organs, hence the Kidneys are a great source of disease. Have you aching or weakness over the small of the back, tendency to urinate frequently, deposit in urine, coldness of hands or feet, a drowsy feeling in the morning. Don't neglect your kidneys. Our NEW METHOD TREATMENT is guaranteed to cure any disease of these organs or no pay.

☞ No Names Used Without Written Consent.

C. W. Rice, of Jackson, Mich., says: I had varicocele in the secondary stage and two strictures of 6 years' standing. I was operated on twice, undergoing great suffering, but only got temporary relief. I was finally advised to try the NEW METHOD TREATMENT of Drs. K. & K. The enlarged veins disappeared in six weeks, the stricture tissue was removed in eight weeks and my sexual energy and vitality returned so I was a man in every respect. I recommend you doctors with my whole heart."

CURES GUARANTEED. NO CURE NO PAY.

Before Treatment. After Treatment.

We treat and cure Nervous Debility, Lost Manhood, Varicocele, Stricture, Blood Diseases, Kidney and Urinary Complaints. Consultation Free. Books Free. Write for Question List for Home Treatment.

BIG RUSH FOR TURBINE BOATS

Steamship Victorian Has Big List for Her Maiden Voyage

ALLAN LINER IN HEAVY SEA

Ship Behaves Well and Turbine Engines Appear to be Equal to all Demands

Montreal, March 23.—All reports from Great Britain indicate that the trial of the new Allan Line steamship Victorian was in every way satisfactory.

Great interest centers in the first trip of this steamship, which begins from Liverpool on Thursday next. The novelty of first travelling on a vessel propelled by a turbine has been such that the passenger accommodation has been booked to the full limit. Many prospective passengers, unable to secure accommodation on the Victorian, deferred their journey until the first trip of the Virginian, this vessel's maiden voyage being set down as April 6.

The cable sends over the following description of the trial trip of the Victorian:

On the passage across the Channel she met huge seas and one of those abroad, who watched her throughout the trials in Ireland, in an interview said the great vessel behaved splendidly.

"In the storm of the previous night her speed was very little affected by the roughness of the water.

"The turbines worked to the utmost satisfaction; little or no vibration being observable, and every one was delighted with the performance of the vessel.

"The Victorian was boarded at Greenock by a large company, the guests including many marine experts, designers, and well known ship owners. She proceeded at once to the measured mile at Skelmorlie, and after a few turns went for a run down the Firth. The final trip gave every satisfaction."

The bookings from Montreal by the Victorian for the June voyage are unprecedently large for so early in the season. The vessel will leave Montreal on June 9, and already the saloon accommodation taken amounts to 240 people.

The accommodation of both the Victorian and Virginian is 250 first, 350 seconds and 1,200 third-class passengers.

JUDAS SHEKEL STOLEN

COIN IS SAID TO HAVE FIGURED IN THE BETRAYAL OF CHRIST

Only Five of These Coins in Existence so far as Known

New York, March 23.—"The mysterious fifth shekel" has again disappeared. The shekel is said to be one of the thirty pieces which were paid by the high priests of the synagogue of Jerusalem to Judas Iscariot for the betrayal of Christ.

The coin came into the possession of Mara Fischer, of 220 West Thirty-sixth street many years ago, and it was his prize possession. With the disappearance last Monday of Margaret Wallner from custody on a charge of stealing ancient coins from Fischer to the value of $60,000, the oft-disappearing shekel was again lost track of.

THOUGHT SCRUB WOMAN TOOK IT.

Fischer was negotiating with Mrs. Wallner to do housework with him, and after one of her visits he missed his box of coins. He had the woman arrested, but as her trunks and personal belongings were searched and no evidence could be found, she was discharged by Magistrate Whitman of the West side court.

It was ascertained during the first crusade that there were but five shekels of the ancient Hebew currency in existence, and these were reputed to be part of the payment to Judas.

All the other shekels have presumably been melted centuries ago. Four of the existing shekels are owned by the British museum, the National museum of Paris, the Museum of Munich and the Imperial museum of Vienna.

LOST FOR CENTURIES.

The shekel which Fischer has just lost was, it is said, once owned by Godfrey of Jerusalem, and was lost for centuries. Louis XI. of France was among its alleged owners. It was many times lost or stolen.

Fischer asserts that he refused some years ago $22,000 for the shekel, offered by one of the London Rothschilds.

An ancient Greek coin called "Adam and Eve," bearing representations of Jupiter and Venus, was part of the collection which disappeared.

TO CANADIAN INVESTORS

Thomas Patterson & Co. Have a Fine Copper Proposition.

Fifty dollars invested in Granite Mountain Mining Company's stock paid the purchaser $34,500, besides several thousand dollars in dividends. One hundred dollars invested in Boston and Montana Mining stock paid the purchaser $44,000, besides several thousand dollars in dividends. A few dollars invested in shares of the Butte Copper Mining & Smelting Company stock, will not only insure you big returns in dividends, but a handsome profit in an increased value of the stock. Our mine is not a prospect but a copper mine which has produced $160,000 in profits in the last three years.

For the purpose of buying adjoining ground we have placed on the market 50,000 shares of our treasury stock. This stock is fully paid and non-assessable. Par value $1.00 per share. We will sell any part or all of this lot at 60 cents a share; no certificate issued for less than 100 shares. Send us your order for what stock you want and we will reserve it for you, pending your investigation of our company; and when you have received our prospectus and satisfied yourself that the investment is a good one, you can send us the money and we will issue the stock, or have the stock sent through any bank you may designate. References: Any Bank or Mercantile House in Butte, Montana. Write us for particulars. Butte Copper Mining & Smelting Co., Butte, Montana, or to Thos. Patterson & Co., Fiscal Agents, Peterborough.

MEN AND WOMEN.

Use Big G for unnatural discharges, inflammations, irritations or ulcerations of mucous membranes. Painless, and not astringent or poisonous. Sold by druggists, or sent in plain wrapper, by express, prepaid, for $1.00, or 3 bottles, $2.75. Circular sent on request.

AN INTERESTING BIT OF HISTORY

ABOUT THE DISCOVERY OF THE

BOSTON AND TEXAS CORPORATIONS

PROPERTY IN

Crowther, McMullen, Co. Texas.

Sam Crowther, the discoverer of this property, and the man who gave the name to the town where drilling for oil is now going on, is an Englishman by birth, having come out from the Old Country a good many years ago, finding his way to Texas and there engaging in an occupation which was, to say the least, a very hazardous one. This occupation was acting in the capacity of Deputy Sheriff, at a time when much lawlessness existed, in the nature of horse-stealing. Murders were fairly numerous at this time and the sheriff in the exercise of his duty frequently took his life in his hands. He continued at this work for some time, living it up and taking up a pursuit which was less dangerous, and which will soon make his name famous as the discoverer of one of the greatest single tract oil lands ever found and owned by one company. Artesian well drilling now became his life work, and in those days was very remunerative drillers of this kind making from $5 to over $50 per day. In the pursuit of his calling he was called by the ranchmen of Atascosa, Live Oak and McMullen Counties to try and find for them good water for their cattle, a thing which they were unsuccessful in getting up to this time and which they were to be still unsuccessful for some years longer. Sam Crowther began drilling, but each well put down showed up the same condition of affairs, and instead of pure water being found it was always the same old thing, an oily brackish substance. The patience of the ranchmen became worn out and a halt was called in operations. Sam, however, was not going to give up thus easily; but he was going to turn his attention not to drilling for water, but to drill for what he believed would be found in this neighbourhood from all indications which he had found while exploiting for water, viz: OIL, and his surmise has been more than proven true by the recent bringing in of the wells of the BOSTON & TEXAS CORPORATION. Although at this time he was to be doomed to disappointment for some years, and to work on hoping against hope that success would at last crown his efforts, and that he would at last reap the reward which was his, and which would be shared in by Mrs. Crowther, who, through these years of experiment, was his companion in toil, undergoing the many hardships, which you may be sure existed in those days, 37 miles from rail and no settlement of any kind existing within many miles. The only dwellings being those of the ranchmen and these being few and far between.

WILL BE CONTINUED TO-MORROW, and will contain the story of Sam Crowther's wanderings in the search for oil for the next three years.

Reader remember, although I may be able to have my option extended for perhaps a couple of months, the sales might be such that my whole option will be disposed of within the next few weeks, first come first served. Remember the price is

50 cents per Share. $1.00 is the Par Value

and is non-assessable.

Not less than 100 shares will be sold, price $50. Can you afford to miss this opportunity of buying stock in a sound business proposition. Make all moneys payable to my order. FACTS-NOT THEORIES

ABOUT THE

Marconi Wireless Telegraph Company

OF CANADA, Ltd.

This Company has now established and fully equipped nine stations on Canadian soil. Each of these stations is on a commercial basis.

It has already installed the Marconi apparatus on five of the boats of the Allan Line and the balance of the fleet is to be supplied as soon as the Company can complete the work. The system is giving complete satisfaction to the Steamship Company.

Among the stations above cited is that at Glace Bay, which has been relocated further inland to improve its position for transatlantic service. Mr. Marconi will be in direct supervision of this station within a month, and the parent Company in England has officially stated that he will positively install the perfected high-power apparatus which will guarantee uninterrupted transatlantic service for the immediate future.

The stations already installed form a complete net work covering the coast line of the Gulf of St. Lawrence and the contingent Atlantic coast and afford the British Navy and all mercantile steamers equipped with Marconi apparatus a sure means of communication with land whenever it may be necessary.

Messages are accepted at every Western Union and Postal Telegraph office in the United States and Canada for transmission to transatlantic boats at any point on their natural course to the mother country.

There have already been selected the sites, and the plans have been drawn for the building of new stations along the St. Lawrence which will give the Company a connected system well into the heart of Canada.

A year or so more will see these stations dotting Canadian soil at every point from the Atlantic coast to the Great Lakes where the volume of business will warrant their establishment.

The Canadian Government has appropriated large sums of money as a subsidy for the Marconi system and gives every evidence of continuing its appropriations until such time as the Canadian Government are afforded an absolutely complete wireless system.

These are facts and not theories and can be positively verified by anyone who takes the small amount of trouble necessary to do so.

In other words, there are tangible assets and a business on a commercial basis to represent the money already expended in the promotion of the

MARCONI WIRELESS TELEGRAPH COMPANY OF CANADA, LTD.,

and the immediate future will be a continuation of this condition.

Marconi's Wireless Telegraph Co. (Ltd.) of England is working on the same system as that of the Canadian and American Companies. It is therefore interesting to note the results already attained by the English Company. This Company has been established somewhat longer than the Canadian Company, but the later has all the advantage of the experimental period of the former and the attendan great saving in expenses which may seem to produce no tangible results. The English Company has issued its annual report, which shows a handsome return on the total capitalization of the Company. The stock is dealt in on the London Stock Exchange. This could only result from a very complete knowledge on the part of those interested in stock exchange transactions as to the actual intrinsic value of the stock.

The stock of the American Company advanced from $4 to $6 per share. The history of all great enterprises of a similar character to the Wireless Telegraph, namely the telephone, the telegraph and the cable, shows that the early investor in these enterprises has reaped a tremendous return in the form of dividends, and the original investment has now assumed the proportions of a great fortune in itself. In other words, the purchaser of stock in those companies during the early days has received his investment back again in the forms of dividends many, many times over, and still holds stock which represents from ten to forty times its original purchase price. Could any investor feel better satisfied with any investment that he could possibly have made?

The Marconi Wireless Telegraph Company of Canada should not only bring an equal return to those who invest in its stock, but it should bring this return in far shorter time than in the case of its predecessors, because of the fact that it has a broader field of income, and has the benefit of a more highly developed scientific field from which to draw any needed assistance. It is no longer necessary to do what might be termed missionary work, because the public now takes advantage of the telephone, telegraph and cable as a matter of course, and any scepticism as to their value has been dissipated, at the preliminary expense and to the subsequent profit of those pioneers.

There seems no logical argument, therefore, to disprove the claims of the Marconi Wireless Telegraph Company of Canada to the support of the investing public. We have been so closely connected with the history of this Company, that we have watched its growth not only with pleasure, but with surprise. We have repeatedly called the attention of the public to the Company, and it is reasonable to presume that we could not have continued to interest ourselves in it unless we believed in it ourselves and were confident of its future success. The stock of the Canadian Marconi Company is now selling at $5 per share, but developments in connection with the Company which may occur at any moment in the immediate future, will mean an advance above that price. We therefore do not hesitate to advise anyone to purchase the stock in any quantity from one to two hundred shares, according as he has funds for investment, and we believe that immediate advantage should be taken of the present selling price of the stock.

We are ready and willing to answer any and all questions that may be put to us by prospective investors in the stock, and have on hand reading matter which covers every detail of the the subject.

TO CANADIAN INVESTORS

Oregon-Idaho Gold Mining Co.

INCORPORATED

Capital $5,000,000. Shares $1.00 Each, Par Value, Fully Paid Up and Non-Assessable.

We have just secured the agency for the above splendid proposition, of which we have been allotted a block of Treasury stock. We can confidently recommend this as a safe and we believe, exceedingly profitable investment. Every dollar of stock is guaranteed by twenty year, full paid, gold bond, delivered to purchaser of stock, from an Investment Company that has no interest whatever in the company, but who are disposing of the debentured bonds to the public, and, under their charter, they are compelled to deposit securities to an equal amount, to the State Treasurer under which they received their charter, there by doubly securing the payment of their gold bonds.

The Company's property, which is now past the project stage, is known to be marvellously rich in gold.

Following is the opinion of G. W. Miller, Mining Engineer, formerly with the Boston and Montana Consolidated Copper and Silver Mining Company, U. S.; Simmer and Jack Mining Co., Limited, Rhodesia South Africa:—

"You have here a most valuable property and one of the strongest fissure veins that can be found in any part of the world.

"With the present development of the Monument Mine, I estimate that 100 tons per day can be extracted, which will mill from $15.00 to $20.00 per ton. The total cost of mining the ore, delivering and milling, I place at about $4.00 per ton. With the present milling capacity, it is safe to say that the mine can furnish 100 tons of $15.00 ore, which would yield a clear profit of $11.00 per ton, or $1,100.00 per day (equal to $400,000.00 per annum). Estimated total value of ore in sight, $2,808,000."

During the past summer, a party of the Company Directors visited the property, taking with them, Amos P. Brown, Ph.D., Mining Engineer and Professor of Geology and Mineralogy at the University of Pennsylvania. Dr. Brown writes as follows:—

"In regards to the amount of ore available at the mines at Sinaiber, I saw on the dumps several thousand tons, probably 3000 tons would be an underestimate.

"As to the size of the ore body itself, from what I saw of the geological structure, I think that there is every indication that it will be found to extend underground as far as the out-croppings on the south side of the gulch. This would mean an ore body large enough to keep the present mill running for many years to come.,

A write up of the proposition will appear in these columns in a few days. Watch for it. In the meantime we will be pleased to furnish all information to investors.

THOS. PATTERSON & CO.,
FISCAL AGENTS. PETERBOROUGH

CONSERVATIVE INVESTORS WILL FIND
The Twentieth Century Mining and Power Co., Ltd.
—OFFERS—

A HIGH GRADE INDUSTRIAL AND MINING INVESTMENT

We have thoroughly investigated it and found it to be right in every respect. Did you ever have a chance to invest in a straight legitimate money making proposition? If not,

THIS IS YOUR OPPORTUNITY

We own a monopoly of the water right privileges in the Thunder Mountain mining district, State of Idaho, U.S.A.; seven water rights in all; one developed and in use. The property of the Company consists of over 1400 acres, with plenty of timber for building and mining purposes, a saw mill fully equipped and in operation, a 10-stamp mill now on its way from the R. R. Station to the property, and 40 additional stamps to be purchased at once and installed during the coming summer. This is the largest and most favorably situated property in the district. Some of the tunnels have been driven over 400 ft., cross-cutting many dikes, demonstrating that we have an inexhaustible body of ore. The ore bodies are sampled by an assayer every 10 ft., and assays run from 40c. to $600 per ton. The ore is free milling, and can be mined and milled for about $1.50 per ton.

The Company is now on a sound financial basis; have no debts, and when the present allotment of stock is sold, it will be withdrawn from the market. The work is progressing steadily on the property, and for the last 16 weeks $1000 per week has been expended in the development of the mine. If you want a winner that promises large dividends, write for full information to Messrs.

Thos. Patterson & Co., Peterboro, Ont.

We want to tell you more about it. It will pay you to investigate. You had better not wait too long, or the allotment of stock will be sold, as it is being taken up rapidly. Within the last 30 days 200,000 shares have been subscribed for. Only 100,000 shares remain at the par value.

Deadly "La Grippe"

Or Epidemic Influenza is Caused by an Air Germ. The Most Scientific Remedy is Catarrhozone.

Two years ago, the medical journals commented widely on the marvellous success of Catarrhozone, which assisted very largely in stamping out the epidemic raging at that time. Cases that had resisted all other treatment were at once relieved and through the great healing powers of Catarrhozone further progress of the malady was arrested.

It is doubtful whether in the whole range of medicine a more lasting cure can be found. If a patient has any warning of the approach of La Grippe he has only to inhale the germ killing vapor of Catarrhozone a few times daily and escape entirely.

Even as a preventive of colds and catarrhal troubles Catarrhozone is unequalled. Every member of the family should always carry a Catarrhozone Inhaler in your pocket. At the first shiver or sneeze you can ward off an impending attack by merely inhaling a few breaths of Catarrhozone. Fatal consequences can often be avoided in this way. The Inhaler is beautifully finished and made entirely of hard rubber. It can be conveniently carried in the vest pocket ready for use in church, at work, in the theatre, street car, anywhere, at any time. This complete Catarrhozone outfit contains a large bottle of inhalant, sufficient to keep recharging the inhaler for two months. It costs $1.00 and is guaranteed to cure. Sold by all druggists or sent direct to your home by mail if the price is forwarded to N. C. Polson & Co., Kingston, Ont., or Hartford, Conn. U.S.A.

TOWN AND COUNTY NEWS

DASHES HERE AND THERE BY TIMES' REPORTERS

Drawing Room Reading

The third series of Drawing Room Bible readings was held yesterday morning at the residence of Mr. D. Hughes Charles, when Rev. E. A. Langfeldt spoke on the "Message to the Church of Pergamos." Next Thursday Rev. Dr. Crothers will give the address. The attendance at the meeting this morning was large and the interest is growing.

Has Decided to Keep the Mails

In a competition, including ten mailers after the job of carrying His Majesty's Mails between the trains and the Post Office, Mr. P. V. Delaire, has been awarded the contract. His duties, and they are not by any means light, as he has to observe both punctuality and carefulness, will date from the 1st of April. His tender was 15 cents per trip, and he gets the position in succession to Mr. George Fowler.

$9.00 EXCURSION TO NEW YORK $9.00

Tickets only $9.00 from Suspension Bridge to New York and return via Lehigh Valley Railroad, Friday, March 31st. Tickets good on Black Diamond Express and all regular express trains. Tickets good for return until April 5th. For Tickets, Pullmans, and further particulars, call on, or address, H. B. Lewis, Canadian Passenger Agent, Lehigh Valley Railroad, 10 King Street East, Toronto.

Bring Back Those Tools

Mr. Harry Calcutt reports that on Sunday last some boys instead of attending to the duties incumbent on them on that day of rest, were working on the steamer Water Lily, and they will not be paid over time for the work either. The young scamps broke into the boat and stole a quantity of tools, which belonged to men fixing the boat preparatory to the coming season. These boys are known and if wise will return the tools, and possibly escape the punishment that will otherwise be given them.

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 90 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our Correspondence course.

WM PRINGL

NO GLUE FACTORY

Objection Already Rampant Against Proposed Factory

Yesterday an influential citizen happening to meet representatives from the Peterborough papers together, expressed his disapprobation about the proposed glue factory in a letter dictated simultaneously to the three newspapers. We give his letter below.

Sir,—I am as you may observe a mule. I am old and somewhat shaky in my pins and there are people who think I have been in this world long enough. Now, sir, I would like to live on, but I see in your paper a statement which fills me with dismay, and prevents me sleeping well at night. It is said there is a glue factory coming here, and I am anxious, and not for myself only, but for my half brothers in the Fifth Ward. Now sir, if I can not prevent them coming, I can at least unite to prevent it coming. We have all smelt the pork factory, but a pork factory is perfume as compared with a glue factory. But please see that it is placed far away from the Fifth Ward, and where the odors from it will not keep us in a constant state of trepidation. I am sir,

Yours respectfully,

MULE.

SKATING OVER

The Rink Closes Its Doors After a Successful Season

Yesterday was a dies non with skaters and hockeyists; the Brock street rink had closed its doors. The past season of 124 days was most successful both in patronage, receipts and attractions enjoyed by the patrons of this exceptionally fine and admirably conducted rink. During the season very few complaints have been heard, the only real cause for complaint, viz., a temporary fit of Klepomania that seized on some of its frequenters, being in no way chargeable against either rink or management. The directors have every reason for satisfaction at the financial aspect of affairs. The mortgage of $5,000 has been reduced to $2,500, by instalments of $1,500 paid off this past season and $1,000 the preceding year. A dividend of 5 per cent. payable on the 1st of April, has been declared, in addition to the substantial reduction of the outstanding mortgage. This seems to have been a pretty sound investment for those financing this place of amusement.

Mr. John Thornbeck, the caretaker, will remain at the rink until to-morrow night, to enable people to remove their belongings or to adjust any matters which require attention at the wind-up of the season.

Millbrook Lodge I.O.O.F. to Visit

As a return in acknowledgement of the visit, Otonabee Lodge, No. 13, I.O.O.F., recently made to Millbrook Lodge, the brethren from that village propose paying a fraternal visit here. The Millbrook Reporter of last issue, says; The Odd Fellows of Otonabee Lodge, Peterborough, over fifty strong, visited Millbrook Lodge on Tuesday night by special train, and initiated candidates and conferred degrees. It was an enthusiastic fraternal gathering and the work was done in a most impressive and perfect manner. Refreshments were served at the close of the proceedings and felicitous speeches were made by the visiting and home brethren. It was an occasion long to be remembered and will, doubtless redound to the progress of both Lodges. A return visit is contemplated.

$100 REWARD $100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address, F. J. CHENEY & Co., Toledo, O.

Sold by Druggists, 75c.

Hall's Family Pills are the best.

Sunday School Anniversary

Rev. A. H. Brace, Pastor of the Park street Baptist church, is to be congratulated on the success crowning his endeavors to make his and his church's treat to the little ones a pleasure and day of remembrance. The many children of his congregation were given a supper early in the evening, which was, as it should have been, greatly appreciated. The spread was followed by an entertainment which included an excellent and unique program. The rainbow drill by ladies, dressed in as many colors as the traditional coat of Joseph, showed evidence of skilful training, and was a pretty sight. The Japanese fan drill was also much admired. Some young men gave a well planned succession of dumb-bell exercises. These features, supplemented by a series of choruses, recitations and readings, made the evening's entertainment most enjoyable.

DIED

M'CARTHY—In Peterborough, on Thursday, March 23rd, Mrs. John McCarthy. The funeral will take place from her late residence, 292 Simcoe street, on Saturday, March 25th, and proceed to St. Peter's Cathedral, thence to the Roman Catholic cemetery, where interment will take place.

Local Incidents

BY THE TIMES MAN ON THE STREET.

—The confirmation class of St. John's church will meet in the Guild room this evening at eight o'clock.

—To-night at All Saints' Church basement a lecture on Hygiene and Physical Culture will be given.

—At All Saints' church last night, the rector continued his series of sermons, "God's Call to His People."

—The Bell Telephone Company has now some 630 instruments installed in Peterborough, and the number is increasing each month.

—A recent cavalry appointment in the Canadian militia reads as follows:—"The Prince of Wales Dragoons, Capt. A. E. Shaw is seconded for service in the Royal Northwest Mounted Police."

—Norwood is in the grip of la grippe lately. In some instances whole families have been down at once. The doctors are kept very busy.

—A euchre tournament was held last evening at the Young Conservative Club rooms, in which representatives of the five wards and of the country competed.

—The regular meeting of the Ladies' Literary of St. Peter's T. A. S. will be held this evening. An essay on "Canadian Poets" will be read by Miss O'Connell.

—Hastings Star; Mr. R. A. O'Connor, the enterprising livery man of our village, has erected a new sign on his office, the work being done by J. J. Turner & Sons of Peterborough.

—A Toronto despatch says; Detective Cuddy has gone to Lindsay after Harold Pamphilon, who is wanted on a charge of passing a forged cheque on Ernest Joyce, 5 East Queen St., on June 24, 1902.

—Mr. J. S. Willison, editor of the Toronto News, will lecture before the Fortnightly Club on Friday, March 30th on "The Function of an Independent Newspaper." This will be the closing lecture before the club during the present season.

—Hogs have advanced in price. Dressed logs (not the kind who sit tobacco about Peterborough's pavements) are now quoted from $7.50 to $7.75, whilst live hogs now realize $6.25 in price. In Montreal the price for dressed hogs is $9.00. Notwithstanding this raise in prices, Peterborough is getting a good supply.

—The Hastings Star says; the shamrock was largely in evidence on Friday last, St. Patrick's Day. In Hastings the day was observed by the sons of Erin in the usual quiet manner. Services were conducted in St. Mary's church, the Rev. P. J. McGuire being assisted by the Rev. J. O'Brien, of Peterborough.

—The drygoods stores on George street, are showing every evidence of dark and sombre designs on their fellow-townsmen's locks of mind and locket. If any reader thinks this slanderous, let him bring his wife up by their show windows, and then, well, your benedicts know how it is afterwards.

—The dwellers along several residential streets in town were yesterday morning apparently seized with a sudden and unanimous mania for shovelling snow from their pavements. Possibly this concerted action might be, in part, traced to a walk taken by P.C. McGinty.

When you want a life-like Portrait in Oil, Crayon, or Water Color, don't fail to come to B. Hudson's Studio, where the work and prices are always right. Gifts in Pictures, Frames and Fancy Work. Lessons in Painting and Pyrographic Work. Studio, 134 Brock street, Peterborough.

—Miss Baba Nally, proprietress of the Commercial Hotel, Claremorris, County Mayo, Ireland, has just sent her annual token of remembrance of St. Patrick's Day, to her cousin, Mr. James Dolan, and other friends here in the shape of boxes of fresh shamrocks. Jim is wearing the smile that won't come off, and has lightened several boxes of choice smokers over the event.

Personal and Social

Movements of the people in and out of town . . . .

—Mr. George W. Hatton was in Toronto on business Wednesday.

—Mr. Charles McClelland has returned from a business trip to Toronto.

—Mrs. John Crane will not receive again until settled in her new residence.

—Mr. J. H. Burnham has returned to town after spending a week in the Queen City.

—Mrs. T. C. Elliot, 112 McDonel street, will not receive until the third week in May.

—The Lindsay Post says; Mr. T. E. Dollart, of Peterborough, was in town to-day on business.

—Mrs. E. G. Clarke, of Peterborough, is visiting her parents, Mr. and Mrs. George Clarke, Tuftsville.

—Mr. R. L. Stone, representing the Duplex Printing Press Company, of Battle Creek, Mich., who has been in town for a day or two, left last night.

WHEN YOUR JOINTS ARE STIFF and your muscles are sore from cold or rheumatism, when you sprain or bruise yourself, Perry Davis' Painkiller will take out the soreness and fix you right in a jiffy.

—Mr. Hugh Regan, the well-known representative of the Turner Lumber Company of the North Shore, is making a short visit in town renewing old acquaintance.

—L. A. Caracallen, W. J. Duckworth, John S. Fielding, A. E. Ferguson, R. G. Wright, all of Toronto, and R. Cain, Haliburton, are guests at the Snowden House.

—The Millbrook Reporter says Mr. W. H. Armstrong, of Peterborough, was a visitor in town on Tuesday, and that Miss Minnie and Miss Amy Mahaffy and Miss Finley, of Peterborough, visited friends in town over Sunday.

—The Lindsay Post says; Mr. Thos. McCamus, of New Liskeard, New Ontario, was in town last evening on his way to Whitby to spend a few days with friends. Mr. McCamus who left Bobcaygeon for New Liskeard about fifteen years ago, speedily became a factor in the business life of that community, having at the outset established a saw and shingle mill. He is now well off in this world's goods, and may yet be called on to represent New Liskeard in the Legislature.

A DUTY WOMEN OWE THEMSELVES.

"Good actions speak louder than words," so too, does the testimony of many thousands of women during a third of a century speak louder than mere claims not backed by a guarantee of some kind. That is the reason why the proprietors of Dr. Pierce's Favorite Prescription are willing to offer $500 reward for women who cannot be cured. Such a remarkable offer is founded on the long record of cures of the diseases and weaknesses peculiar to women. If there is an invalid woman, suffering from female weakness, prolapsus, or falling of womb, or from leucorrhea who has used Dr. Pierce's Favorite Prescription without complete success, the proprietors of that medicine would like to hear from such person—and it will be to her advantage to write them as they offer, in perfect good faith, to refer to thousands of cases in their own practice, for any case of the above maladies which they cannot cure. No other medicine for woman's ills is possessed of the unparalleled curative properties that would warrant its makers in making such an offer.

The Sisters of the Good Shepherd, at their convent, "Our Lady of the Woods," Carthage, Ohio, use a great deal of Dr. Pierce's medicines; they say, in a recent letter to Dr. Pierce: "We beg to assure you of the great benefit these medicines give our ailing ones. We cannot sufficiently recommend their excellence."

When the druggist says he has something that is as good as Dr. Pierce's Favorite Prescription, just tell him, "There's nothing just as good." He says so because he hopes to make a better profit but his own mixtures have not stood the test of long experience and success that Doctor Pierce's medicines have. Then, too, many patent medicines advertised as tonics, contain large quantities of alcohol. Dr. Pierce's guarantees that his "Prescription" does not contain a particle of alcohol.

Dr. Pierce's Common Sense Medical Adviser—sent on receipt of 21 one-cent stamps for a copy in paper; 50 stamps in cloth binding. Address Dr. R.V. Pierce, Buffalo, N.Y.

It is a good thing to keep Dr. Pierce's Pleasant Pellets in the house. One Pellet is a laxative, two a mild cathartic.

PETERBOROUGH'S DELEGATES

The Dominion Conference of the Y.M.C.A. at Montreal

Messrs. B. F. Ackerman, J. H. Connal, Alfred Parker, Richard Hall, J. C. Shook, G. M. Roger and A. E. Dixon, have been appointed delegates to represent Peterborough at the Dominion Conference of the Young Men's Christian Association to be held in Montreal this year, from April 5th to 7th.

These gentlemen were nominated at the meeting of the Y.M.C.A. Board of Directors held this week. The local Y.M.C.A. have placed their interests in the hands of good representatives.

The Canadian Northwest

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which homestead desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 30 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead of the cultivation.

(2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

(4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses (2), (3) or (4) must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled, and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Offices in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

PRESIDENT CASTO FLATLY REFUSES TO ARBITRATE

May Mean War with the United States---President of Venezuel Ignores Ultimatum, and Flatly Refuses to Arbitrate.

Willemstadt, Island of Curacoa, March 25.—It is announced from Caracas, Venezuela, that President Castro to-day replied to Minister Bowen's final proposal for arbitration, which was accompanied by a threat of war, denying that Venezuela has questions pending with the United States and saying the case of New York and Bermudez Asphalt Company must remain in the courts.

WON'T ARBITRATE.

Washington, March 25.—Minister Bowen cabled the State Department today from Caracas that President Castro had flatly refused to arbitrate the pending issues between Venezuela and the United States.

BOWEN WAS BEATEN.

London, March 25.—The signature of the agreement between Venezuela and the Anglo-German bondholders adjusting and consolidating the exterior debt was completed to-day. Sixty per cent. of the Customs of all the ports except La Guayra and Puerto Cabello are allocated as surety. Minister Bowen for the United States is said to have opposed the signing of this agreement by Castro.

THE SALVATION ARMY'S NEW YORK JUBILEE

Twenty- Fifth Anniversary of the Establishment in New York

WONDERFUL RECORD

Canada to Take Part in the Great Jubilee.

New York, March 25.—Today there begin in this city a great jubilee ration of the twenty-fifth anniry of the establishment of the tion Army in America. The afwill continue for four days and ime to be notable in the annals world-wide organization. A er of a century ago the numof Salvation Army members in ca was eight. In striking cou- there are now gathered here the part in the jubilee some five ed officers representing every and territory of the nation and of the Canadian provinces officers, in addition to the contingent, will conduct a al jubilee meetings during the few days in some of the largest ng places of the metropolis as as the headquarters citadel eventh street.

first country, outside of Engto be affected by the work of alvation Army was America. r back as 1872, when it was embryonic condition, and was only as "The Christian Mis- one of its converts, "Brother ," found his way to Cleveland ere, to use General Booth's sion in answering his letters, the banner of the mission." impossible at that early date reinforcements, and hence ork fell through with the deof Jermy. In 1879 a second was made by a family named . This time it was in Philaa, in an old factory. The urappeal for hell sent to Gen- Booth met with an immediate se, and in February, 1880, Commer George Scott Railton, band of seven, landed in New City. Operations, ridicule, per- and even imprisonment were those days. None of those er, served to dampen the arquench the zeal of the little workers, and ere long it was t that the Salvation Army me to America to stay. first convert of the army in

MRS. BALLYNTINE BOOTH
Former Lead of the Salvation Army in the United States.

America was "Ash Barrel Jimmy." A notable character he was; a drunkard, a general nuisance. He got his name from the circumstances of his rather strenuous conversion. "Jimmy" was accustomed to search in the refuse of the ash barrels and garbage cans for food. One cold night, when drunk, he lost his balance and fell in a barrel head first. He was too drunk to help himself, and as the hours passed his head froze fast to the side of the barrel. A passing policeman saw the feet sticking out and rescued him. "Jimmy" was frozen so fast to the barrel the policeman seized him by the feet and dragged him, barrel and all, to the station house. Then, when he was sufficiently thawed out, they sent him, by way of a joke, to the Salvation Army. From that time "Jimmy" was a changed man. He was converted in the army meetings and became a useful and earnest member of the army, rising to the rank of captain, and remaining in the ranks until he died, a few years later.

The army confined itself for years almost entirely to purely spiritual operations. But with the arrival of the late leaders, Commander and Mrs. Booth-Tucker, in 1896, the latter of whom was killed in a railway wreck at Dean Lake, Mo., on October 28, 1903, the social and philanthropic side of the movement was brought to the front, and institutional work of the most active form was begun. Farm colonies, with the object of assisting the poor but worthy and industrious men to obtain a home, were established in Ohio, Colorado and California. The difficulties met with in their establishment were overwhelming and seemingly endless, yet today these colonies, in excellent condition, exist as proof positive that the scheme is not visionary, but a practical one, and capable of almost unlimited extension and improvement.

Hotels for workingmen—and the same for women—have been opened, where clean, comfortable accommodations can be secured for a merely nominal sum. Rescue and children's homes, and many other institutions for helping the poor and needy, are also successfully conducted by the army.

At the present time the standing of the Salvation Army in America, roughly estimated, is as follows: Officers and employes, 3,706; corps and outposts, 736; institutions for poor and needy, 143; farm colonies, 3; expended annually in poor relief, $300,000.

During the last twenty-five years the mighty organization has come to be recognized by all classes alike, not only in America, but in almost every part of the globe, as among the greatest agencies in existence for the reclamation and reformation of criminals of all grades, and for the practical, permanent aiding, without pauperizing, of the poor and unfortunate.

SATISFACTORY CONDITIONS

Park Street Baptist Church Building Fund Augmented by $100

A particularly pleasing feature of the entertainment given in the Park street Baptist church on Thursday evening, was an address, signed by Miss Maggie Mann, Superintendent of the Sunday school, to the trustees of this progressive church, accompanied by the handsome sum of $100 towards the building fund.

In her address Miss Mann expressed pleasure and satisfaction in the bright prospects of a new church in the near future. She noted that there is not a dollar remaining on the new lot, and that the mortgage on the old building would soon be burnt. The presentation was made on behalf of the school. The Rev. Mr. Brace and others made suitable remarks on the occasion, and everything seems to point towards a speedy accomplishment of their plan for the new church.

OBITUARY.

Death of Mr. Solomon Hyman in Montreal, March 17

Most of our older citizens will remember a gentleman named Solomon Hyman (better known by his contemporaries as "Sol,") who for some time was in the hat and fur business in the stand now occupied by Mr. Clark, of the same line of business. Mr. Hyman was very popular among those who were acquainted with him, and was always to the fore in advancing any object that concerned Peterborough's sports or interests. Many a Peterborough visitor to Montreal has received a hearty welcome by Mr. Hyman in his St. James' St. store. He died on Wednesday at his residence, 4476 Western avenue.

Born in Montreal fifty-eight years ago, Mr. Hyman, at an early age, removed with his parents to Kingston, Ont., where his father became one of the best known business men of that city.

From the Lime Stone City he went to Peterborough. Thence he removed to Montreal, where he has resided and carried on the same business for the past twenty-five years. In 1873 Mr. Hyman married Miss Annie Lavigne, of New York, and of the union had five children, three sons and two daughters. Of these, the oldest son is married and living in this city. The rest of the family still reside at home. In addition to the wife and children, the deceased is survived by one brother, Mr. S. A. Hyman, of Belleville, Ont. The funeral took place yesterday.

EXTENDING SEPARATE SCHOOLS

Is the Ontario Government in League with the Hierarchy?

(To the Editor of The Times)

Sir,—I would like to draw the attention of our representatives in the Provincial Legislature, to the negotiation now going on between their Government and the crafty Sir Wilfrid Laurier on behalf of the Dominion Government for the extension to the northern boundary of this Province. It is said that a "Satisfactory" answer has been received by the Provincial Government from Premier Laurier. Now if this arrangement is carried out it will afford Sir Wilfrid a much needed pretext for similarly extending the northern boundary of Quebec, so as to embrace the whole of that part of the Dominion lying to the north of Quebec Province. As these are the only two provinces which have Separate schools, engrafted upon their constitutions, one can easily see how it will serve the purposes of Sir Wilfrid and the Quebec hierarchy to thus foist Separate schools upon these immense tracts of territory, which are otherwise free from the incubus. Why should these two Provinces—already too large and unwieldly for Governmental purposes, be enlarged, when Sir Wilfrid has just refused enlargelargement to the minature Province of Manitoba, where Separate schools have not got a foothold in the constitution? The answer must be obvious to any ordinary mortal. It would seem that "Le Soleil," the semi-official organ of Sir Wilfrid and the Quebec hierarchy—was speaking with authority, when it insisted that as "every ill act has its chastisement, so Manitoba is being punished by the hierarchy because she abandoned the Separate school system."

FREEDOM.

Victorian Starts out

Liverpool, March 25.—The Allan Line steamer Victorian was bidden an enthusiastic farewell, when she started on her maiden voyage to Montreal yesterday. Thousands of persons cheered her departure. The Victorian carries about 1,500 passengers, including a number of engineering experts. She will be the first turbine ocean liner to cross the ocean.

NEWFOUNDLAND HITS BACK.

St. John's Nfld., March 25.—The Newfoundland Government has ordered the Customs collectors throughout the islands to refuse American fishing vessels licenses to procure bait in colonial waters, "because the United States Senate hurked the Bond-Hay treaty."

The advocates of retaliation against Americans say they can make the crusade as effective against Gloucester as they have already made it against St. Pierre.

TO AND ROJESTVENSKY ARE GETTING CLOSE TOGETHER

Port Said, March 25.—Admiral Nebogatoff's division of the Russian Second Pacific Squadron, consisting of a battleship, four cruisers and four transports, arrived here to-day. The vessels are not coaling, and are only taking moderate supplies on board. The transports are heavily laden with stores.

The division which it said is to be bound for Jibutil and Vladivostok, will probably proceed to-day.

Despatches from Colombo, Ceylon, indicate the possibility of an early meeting between the rival fleets under Admirals Togo and Rojestvensky. Both are reported to be in Cingalese waters, and as it is Togo's game to catch the Russian Admiral before this fleet at Port Said reaches him, the world may expected to hear any day now of a great naval battle, which will decide the war, for if Rojestvensky's fleet is annihilated, Russia will have no alternative but to sue for peace on any terms.

A QUEBEC THREAT.

Montreal, March 25.—La Presse, discussing the debate in the House of Commons on the second reading of the Autonomy Bills, says: Mr. Borden has declared himself of the opinion that the insertion of a clause to provide for Separate schools in the laws of the North-West is contrary to the constitution of Canada. If that be the case, then the British North America Act is equally unconstitutional, for there was inserted therein, without consultation with the Province of Quebec, the restrictions concerning public instruction. Mr. A. T. Galt, sustained by the Secretary for the Colonies, secured the insertion of dispositions which were not foreseen at the interprovincial conferences and which the personal resistance of Sir George Cartier and Sir Hector Langevin, who were taken literally by the throat in London, was unable to prevent being legalized. If the Ottawa power, has not the right to repeat for other Provinces the principle established for Ontario and Quebec, it is necessary to commence all over again. We have no desire to remain in a condition of comparative inferiority to the other Provinces if the Act of 1867 is only a law of exception to the detriment of our autonomy."

300,000 MORE

Victoria University Endowment Fund to be Increased.

The many friends and graduates in Peterborough of Victoria University will be interested to learn that a plan is on foot to increase the already large endowment fund of that college by the sum of $300,000. The Inner Circle of the Methodist Social Union, have the matter in hand, and at the banquet to be given by the Union next Monday at Victoria College, for which 250 invitations are out, the pleasing intelligence will be made public that more than $150,000 has already been subscribed.

It is understood that Mr. Chester D. Massey has expressed his willingness to lead the list with $100,000, and Mr. E. R. Wood has subscribed $30,000, and that Hon. George A. Cox and three others will supplement the two leaders with substantial sums. The banquet will, therefore, take the form of an inaugural to the campaign for subscriptions.

Victoria College now has an endowment of $500,000, and buildings, land and equipment valued at $400,000. In addition to this income from endowment the receipts from the education fund of the Methodist church amount to about $6,000 per annum, and the fees from students to about $9,000, amounting in all in the neighborhood of $40,000 for the annual support of the institution. The addition of the desired $300,000 to the endowment would bring the yearly revenue up to the handsome sum of $58,000.

Since the federation with University College, Victoria has assumed a course very similar to that of the former University, its students attend lectures and laboratory practice of University College. In addition, Victoria has its complete divinity faculty, and the Methodist leaders are anxious that the work in theology should be strengthened.

SISTER ST. CECELIA is a well-known and respected lady of St. Joseph Orphan Home, Ottawa, and she unhesitatingly says that "The D & L" Emulsion is a splendid medicine for this delicate and growing children.

BORDEN'S POSITION OUTLINED DENIES THAT HE IS A COWARD

Mr. Borden, the leader of the Opposition, in defining his position on the school question yesterday, said:

"When I addressed the House on the first reading of the bill I said I did not desire to make this a political question. Perhaps the expression was not very happily chosen, because from whatever aspect you view it, it must in the highest sense of the term be a political question in the end. What perhaps I should have stood have said was that I did not make it a party political question, and I do not desire to make it a party political question today. I shall express my own opinion with regard to it, and I shall express that opinion at the present time. I have not felt called upon to speak before. In some parts of the country I have been referred to as a fanatic, in other parts I have been referred to as a coward, and entreated to speak out. The proper time for me to speak is today upon the second reading, and before I conclude I shall, I think, make my position absolutely clear. (Applause.) And I say that in taking the position which I shall now take I do not for one moment suggest that any hon. gentleman on this side of his good judgment, should feel himself in any sense constrained by party ties to endeavor to agree with the views which I shall express.

"If any hon. member of this House or any man in this country should propose to insert in this measure a clause forbidding the establishment of Separate Schools in the North-West, I would combat that proposal to the end, because I would consider it as absolutely in conflict with the Provincial rights which I desire to see maintained. I take the stand I do because I believe that only in the light of the constitution but in the light of the highest principles of statesmanship the question of education should be left absolutely to the control of the people of the new Provinces."

Mr. Borden called in opinions expressed by the late George Brown, Hon. David Mills, Mr. Justice Girouard, Sir Louis Davies, and Sir Wilfrid Laurier, himself, to sustain his position. He then quoted the words of Sir John Thompson, a Catholic himself, who, when a Premier he was asked by Dalton McCarthy if he held the view that if Separate Schools were continued until the Territories were given Provincial autonomy, they could then be perpetuated for all time to come, said: "I did not say that. I appealed to the House to continue the present system while the territorial system continued, and I declared that in my opinion the whole subject would be open and free to Parliament as to what constitution we would give to the Provinces when the Provinces were created."

A GIGANTIC DEPUTATION MAY GO TO OTTAWA.

A Clerical Insinuation as to the Reason Why Manitoba's Boundaries are Not to be Enlarged---Mr. Bole is Criticised.

Winnipeg, March 25.—A suggestion has been made that a deputation, say of two or three thousand men, representing those opposed to coercion of the new Provinces, should be organized and sent to Ottawa from various sections of Canada, to tell the Premier the feeling of the people on the Autonomy Bill in its present shape.

A CLERICAL INSINUATION.

The Northwest Review, the organ of the Roman Catholic Church, this week throws out a hint why Manitoba's boundaries were not extended. It says: "Should this Province be extended in any direction, will not the question immediately arise whether the Manitoba School Act should be extended to that new territory or not?"

MR. BOLE IS CRITICIZED.

Mr. D. W. Bole, Winnipeg's member, is sharply criticised to-day by the Tribune for his declaration in a letter to Rev. E.A. Smith in which he declares his intention of voting for the Autonomy Bills.

A BUMPER HOUSE

57th Band Had Grand Success with Their Concert Last Night

Before the clock struck eight last night, the opera house was full to the doors, with musical devotees. The 57th Band is one of our local features, and last night's crowd that, despite wet weather and bad walking, came out in hundreds to hear them play, shows that Peterborough admires and understands its band. Among the large audience were not a few of our well-known lovers of music, and on all sides were heard expressions of approval. The band was out in full force, and well filled the stage. Last night's program was an exceptionally good one, the Descriptive Nautical Fantasia in particular, receiving long and hearty applause. Miss Alice Roger, ably and acceptably played the accompaniments.

The program was as follows;—

1. March ..."Uncle Sammy" ..... Holtzman
2. Overture ....."Martha," .....Flotow
3. Timbuckto ...An African Idyle.....
4. Violin Solo... ... ...Deborit
   Second and last Movements of the Military Concerto
   Mr. Gilbert Markle.
5. ... Reminiscences of Ireland ..... Godfrey

INTERMISSION.

6. ...American Sketch... ... . "By the Swanee River" ..... Myddleton
7. Characteristic... "A Kansas Dance"... ... ... Prior
8. Descriptive Nautical Fantasia "Voyage in a Troop Ship to India"

GOD SAVE THE KING.

NEW FIRE HALL

Citizens to Vote on Appropriation of $25,000 to Pay for Hall and New Engine

The Fire, Water and Light Committee held a meeting Thursday night, when it was decideds to recommend to the Council the submission of a by-law to the people providing for an expenditure of $25,000 on the erection of a fire hall, the purchase of a site therefore, and also a new steam engine and chemical engine. The members of the committee present at the meeting were Ald. Johnston, chairman, and Aldermen, Hicks, Covey, Crowe, and McIntyre; Ald. Hall being the only member absent. All are in favor of the proposed work and are hopeful of the passage of the by-law, if the need of the town with regard to fire fighting equipment is properly presented. It is understood that the by-law would be submitted to the ratepayers at the earliest possible date.

The question of site has yet to be decided. Among those spoken of is the block of property on Aylmer St. immediately across from the Y.W.C.A. building. This has a depth of 192 feet, the front portion being owned by the Bradburn estate and the rear by Mr. J. White. The fire hall would front on Aylmer street, and there would be a rear entrance off Hunter street.

Another site spoken off is that on the south-east corner of Hunter and Bethune streets, a portion of which is occupied as yards by the Water Commissioners. This land is owned by Mr. R. A. Morrow, and there are two lots of considerable depth on which. it is understood, the price asked is $3,000 each. The town would need but one of these, and the interest on the outlay for the other would be covered by rental.

Y. W. C. A. NOTES

As the room in the Bank of Commerce Building, has been vacated, no Gospel meeting will be held until after the opening of the new Y.W.C.A building. Meanwhile classes will be held in the Y.M.C.A. as follows; Tuesdays at 8 p.m., Miss Weir's Literary Club; Thursdays, at the same hour, the Bible class. The Raffia class will be discontinued for the present.

The monthly Board meeting has been postponed until Monday, April 3rd.

The House Committee of the Y.W.C.A., desire to thank those who have so kindly responded to the appeal towards the furnishing of the new building. Contributions in money, bed and table linen have been received, but comparatively little has been contributed towards furnishing the dining room, and a large number of bedrooms are still to be furnished.

It is expected that the rooms will be ready for occupation early in April. Contributions may be sent to any of the following ladies; Mesdames Scott, Crossman, Waddell, James Wood, Thompson, MacPherson, Crothers, Walsh, and Miss Nicholls.

BASKETBALL.

The Peterborough Y.M.C.A. basketball teams defeated Port Hope last night.

C.G.E. BENEFIT SOCIETY

Semi-Annual Meeting of This Society Shows Satisfactory Report

A local society that deserves commendation both in its objects and its successful management is the Canadian General Electric Employes Mutual Benefit Society. The semi-annual meeting of the society was held Wednesday night in the Labor Hall, Water street.

The financial statement is most encouraging to all concerned.

During the last six months the society has operated at a profit of over $120, and when the low fees and the high benefits paid are considered, this showing is a remarkably good one, and gives evidence of the fact that the affairs of the society are being managed on a business-like basis.

Mr. W. Hill, the president of the Society, was in the chair, and after the reading of the minutes of the last meeting, by the secretary, the semi-annual financial statement was presented as follows;—

Reserve Fund.—

Balance, March 15, 1905... ...$	634.53
Current account	1,158.11
Expenditure	1,036.36
Balance, March 15	121.75
Contingent account	232.40
Expenditure	181.61
Balance, March 15	51.79

	Aug. 1, '04, Mar. 15, '05.	
Reserve Fund ...	$527.63	$634.53
Current Fund	35.52	121.75
Contingent Fund	122.90	51.79
	$686.05	$808.05
Increase		$122.00

WILLIAM HILL,
President.
R. E. LAYFIELD.
Treasurer.

A motion made by Mr. Joyce was passed by which the General Manager of the company, would be asked to instruct that all men becoming employes of the company, become members of the society automatically, with the privilege of withdrawing if they so desired, and a committee was named by the president to interview the General Superintendent and present the views of the society.

Other matters affecting the society were discussed, and it was decided to pay the family of the late Mr. Gillies, the death benefit of $90.

The Secretary of the society, Mr. Shannon, had his salary raised to $60 a year, or at the rate of 10 cents per capita.

The total membership of the society is now 606, which is a good representation of the entire pay list of the company.

A CHALLENGE

Which Hotel in Town Can Pull Rope With Clancy's Hotel

We have been requested to insert the following challenge which speaks for itself;

"The boarders of the Clancy House hereby challenge any other hotel team in town to a tug of war, six men a side on cleats. Any team, or person acting for his team, wishing to accept this challenge, will please apply to Paddy May, manager of the Clancy House Tug of War team.

IT'S FOOD

That Restores and Makes Health Possible

There are stomach specialists as well as eye and ear and other specialists.

One of these told a young lady of New Brunswick, N.J., to quit medicines and eat Grape-Nuts. She says;

"For about 12 months I suffered severely with gastritis. I was unable to retain much of anything on my stomach, and consequently was compelled to give up my occupation. I took quantities of medicine, and had an idea I was dieting, but I continued to suffer, and soon lost 15 pounds in weight. I was depressed in spirits and lost interest in everything generally. My mind was so affected that it was impossible to become interested in even the lightest reading matter.

"After suffering for months I decided to go to a stomach specialist. He put me on Grape-Nuts and my health began to improve immediately. It was the keynote of a new life. I found that I had been eating too much starchy food which I did not digest, and that the cereals which I had tried had been too heavy. I soon proved that it is not the quantity of food that one eats, but the quality.

"In a few weeks I was able to go back to my old business of doing clerical work. I have continued to eat Grape-Nuts for both morning and evening meal. I wake in the morning with a clear mind and feel rested. I regained my lost weight in a short time. I am well and happy again and owe it to Grape-Nuts." Name given by Postum Co., Battle Creek, Mich.

Look in each pkg. for the little book, "The Road to Wellville."

Royal Baking Powder

45 CENTS a pound can AT ALL GROCERS

25 cents a half pound can

Royal Baking Powder is made from pure grape cream of tartar; is absolutely pure; has received the highest praise from all authorities on food at home and abroad; is used daily in millions of homes throughout the world.

Royal Baking Powder is the most economical thing in the kitchen.

Medicines Loaded With Alcohol

Think of it! The Danger You Run — Drink Habit is Easily Acquired, But Hard to Cure.

Careful analysis shows that many so-called tonics contain little else but whiskey—the rankest, poorest kind of whiskey.

You may unconsciously be using alcoholic liquid remedy. Some member of your family may be doing so. Your duty is plain; stop it at once.

The test of a tonic is the permanency of its cure. To become strong, you must build up the blood—alcohol destroys it. You must increase your nerve force—alcohol steadily depletes it.

Give up the liquid tonic, before you become its slave. The true medicine for the run-down, depressed and nervous is Ferrozone. It is nothing but concentrated cure in tablet form. It stimulates the appetite, aids digestion, fills the blood with iron, builds up in nature's way, never known to fail.

Whether weak from worry, overwork, thin blood, or ill-nourished nerves, Ferrozone will quickly make you well. It is safe and harmless, undoubtedly the best tonic and rebuilding medicine made. We must recommend you to use Ferrozone if in poor health.

Ferrozone, known as the great food-tonic, costs 50c. per box, or six for $2.50, at all dealers, or by mail from N. C. Polson & Co., Kingston, Ont., and Hartford, Conn., U.S.A.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Western Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $4 per year, strictly in advance.

UNION LABEL

PETERBOROUGH, MARCH 25 1905

"RUSSIAN PRESTIGE."

Count Cassini, the Russian Ambassador to the United States, opens a very gloomy prospect in scouting the thought of an immediate peace. "However generous the terms which Japan might offer," observes the Ambassador, "Russian prestige is not among them. That is one thing for which the war will be fought to the end. Victory for the Russian arms will alone make for peace." In other words to obtain peace the victors must consent to be beaten, and to be beaten again and again, until Russia has them worse beaten than they now have Russia beaten, and the balance of victories is in Russia's favor. They have wiped Russia from the face of the sea. Very well. Russia must wipe them from the face of the sea even more thoroughly. They have driven Russia out of Manchuria. Now to obtain peace, they must let Russia drive them not only out of Manchuria and out of Korea, but even, according to that unlucky brag of Kuropatkin's, see Russia cross the straits and subjugate them in their own islands.

Peace would indeed be far off if we had to wait for all that. It will take three years for Russia to get new ships with which the operation of wiping Japan off the face of the seas can even be begun. But apparently it cannot be concluded until Russia has got not only new ships, which take three years to build, but a new kind of sailor and naval officer, which it will take several generations to breed, to say nothing of training. Similarly she will have to get new kinds of soldiers and generals, also a matter of generations. And yet mankind, according to the Russian Ambassador, must wait for all that before it can have peace. Dear, dear!

But the counsels of Count Cassini, luckily, are not likely to prevail. Etymologically "prestige" means juggler's trickery. Japan is showing that Russian prestige in China is of a largely etymological character. In the English language Russian prestige is a great "bluff," which Japan has called. A bluff, once called, is of no further use as "prestige." It is merely gone. Chinese churchmen in Manchuria, and even Chinese statesmen in Peking, are just being imposed upon by it. All the Czar's horses and all the Czar's men cannot set Humpty Dumpty up again. When Russian officialism perceives that truth, already manifest to all the world besides, we shall have peace. And the sooner Russian officialism perceives and acknowledges it the better it will it be, particularly for Russian officialism.

WHERE LABOR LEGISLATION LEADS

The overdeveloped labor legislation in the Australian colonies is working out its normal results in unexpected ways. The Railway Commissioners of New South Wales were lately constrained to accept the bid of the Baldwin Locomotive Works of Philadelphia for twenty engines. Immediately a great row broke out. The New South Wales Government intended and desired that this order should be filled at home as an encouragement to local industry and for the benefit of home labor. The Railway Commission seems to have felt in the same way about it, but on a comparison of tenders it was found that even with full allowance for freight and duties the bid of the Philadelphia concern was a little over six thousand dollars per engine cheaper than that of the lowest local bidder. On analysis it was found that the local bid was not disproportionate to the cost of locomotive engines built at home, and that the margin of profit included was no wider than it should be. Wages and labor conditions established by law put the local manufacturers out of the competition.

The subject now under discussion in the Sydney newspapers is whether it is not in conformity with sound considerations of public policy to place such orders at home irrespective of price, and thus build up a home market for the producers. This is a question the Australians may safely be left to decide for themselves in their own way.

LAZY OLD SORES, painful and disfiguring, will not linger long after treatment with Weaver's Cerate has been begun. If the cerate smart reduce it with sweet oil or lard, and cleanse the blood with Weaver's Syrup.

CHANDOS

Council met at Caldwell's school house on March 18, 1905. Members all present, Reeve in the chair. Minutes of last meeting read and accepted.

Bylaw No. 82, confirming the appointment of poundkeeper, fenceviewers and pathmasters, passed its first reading.

Moved by Coun. G. A. Bullied, and seconded by Coun. Geo. Campbell, that auditors' report be accepted, and that clerk be authorized to get required number printed and distributed.—Carried.

Moved by Coun. J. Bullied, and seconded by Coun. J. Trotter, that Bylaw No. 82 be read second time.—Carried.

Moved by Coun. J. Trotter, and seconded by Coun. Geo. Campbell, that Thomas Trotter and Thomas Mahoney do their statute labor on Road Division No. 3, instead of Road Division No. 42 as formerly. That Road Div. No. 42 be removed to Con. line between Cons. 10 and 11, comprising Lot 18 in 11 Con. and Lots 15, 16, 17, 18, 19 in 10 Con. with Fred Bullied as overseer, and that the seat of the corporation be fixed to this resolution.—Carried.

Moved by Coun. J. Trotter, and seconded by Coun. G. A. Bullied, that that Bylaw be read third time as amended, and signed.—Carried.

Moved by Coun. G. A. Bullied, and seconded by Coun. J. Bullied, that the municipality pay for antitoxine used by M.H.O. in cases of diphtheria. Carried.

Moved by Coun. J. Bullied, and seconded by Coun. J. Trotter, that Reeve and Couns G. A. Bullied and Campbell be a committee to enquire into Treasury Bonds.—Carried.

Moved by Coun. J. Bullied, and seconded by Coun. Geo. Campbell, that clerk be authorized to buy two road sprayers.—Carried.

Moved by Coun. Geo. Campbell, and seconded by Coun. J. Trotter, that Patrick Hogan get $8.00 on his road across the south end of lot 24, con. 15; G. Campbell to oversee the work. When worked amount to go on arrears of taxes against said lot.—Carried.

Moved by Coun. G. A. Bullied, and seconded by Coun. J. Bullied, that this council take no action for shoveling snow.—Carried.

Moved by Coun. J. Bullied, and seconded by Coun. G. A. Bullied, that reeve and clerk be a committee to meet at treasurer's office on the 1st day of May to accept collectors' roll if found correct.—Carried.

Mr. G. A. Bullied gave notice that at the next meeting he would introduce a bylaw to fix stationary places to hold council meetings.

Moved by Coun. G. A. Bullied, and seconded by Coun. J. Trotter, that the following orders be paid: Dr. A. antitoxine, $15.00; Simon Mahoney, to balance on taxes and error in assessment, $3.41; John Simpson, clearing snow from bridges, $3.00; A. Andrus, to pay for assessors' guides, $1.50; J. C. McFadden, to balance P. Hogan's taxes, to be worked out, $1.05.

Council adjourned to meet at Foster's school house, and Court of Revision.

Bannerman Regrets It

London, March 25.—Sir Campbell-Bannerman, receiving a letter from J. B. Greig, of Laurencekirk, said he had "always sympathized with your opinions, but hope you will appreciate the probable difficulty of reversing the mistaken legislation of The present Government in making the exclusion of Canadian cattle permanent."

FRANCIS L. JUDD & CO.,
BANKERS AND BROKERS,
CLEVELAND, OHIO.

W. SAILSBURY,
PETERBOROUGH, ONT.

WHAT DO YOU DO WITH THE MONEY YOU SAVE

Are you depositing it in bank? If so what interest are you receiving? NOT MORE THAN 3 TO 3 1-2 PER CENT. we daresay. AND NOW COMES THE VITAL QUESTION. What is the banker doing with your money? The money you have placed with him for safe keeping. For answer see official bank statement given below of the 1st National Bank of ———. It may be seen at our office at any time. It is as follows:

RESOURCES		LIABILITIES	
Loans and discounts	$206,583 41	CAPITAL STOCK PAIDIN	$ 75,000
Overdrafts, secured and unsecured	322 98		
U. S. Bonds to secure circulation	30,000 00	Surplus fund	60,000
STOCKS, SECURITIES, ETC	300,000 00	Undivided profit, less expenses and taxes paid	3,110
Banking-house furniture and fixtures	13,000 00	National Bank notes outstanding	29,000
Due from National Banks (not reserve agents)	1,240 25	Due to other National Banks	4,320
Due from approved reserve agents	12,311 48	Due to approved reserved agents	7,200
Checks and other cash items	1,630 71	Dividends unpaid	4,700
Notes of other National Banks	3,150 00	Individual deposits subject to check	466 20
Fractional paper currency, nickels and cents	280 10	Cashiers checks outstanding	90
Lawful money re-serve in bank, viz—Specie	$46,919 00		
Legal tender notes	11,000 00	$57,919 00	
Due from U.S. Treasury, other than 5 per cent. redemption fund	1,500 00		
		$730,839 30	$730,839

Pay particular attention to the items printed in bold type. They tell you an interesting story. They show a capitalization of $75,000. They show that over four times the amount of authorized capital of the bank or $300,000 has been and is now invested in stocks.

PONDER OVER THIS STATEMENT If you are a bank depositor did it ever make you think? It should! Who is the benefit of these investments of YOUR MONEY? Do you get it? Not if the bank itself. You get your little 3 or 3 1-2 per cent and the bank gets the rest. Why continue

INVEST YOUR OWN MONEY

Your opportunities for ascertaining the value of your investments are just as good as your banker. Why not you not utilize these facilities for your own profit? Look over it yourself and your family and to the world to assert your ambition and INDEPENDENCE. If you have had investments in the past, DON'T BE TOO TIMID enough to let the fact check your ambition become your own business manager. Profit by your mistakes and GET WISE.

If you desire information regarding your investment, write to us. If you desire to dispose your investment write to us. If you desire a new investment that is ABSOLUTELY SAFE which will return large PERMANENT DIVIDENDS to you instead of your banker.

Write to us at Once. Keep Your Capital in Action.

That is the only way to make MONEY GROW. We will advise you and we will not an exorbitant fee for so doing. WE CAN HELP YOU AND WE WILL.

Figure it out for Yourself

FORTUNES ARE BEING MADE IN KANSAS OIL

Here's a fortune for you. Not 10% but 100% and no risk of loss. Giant of the Oil Fields.

The Midland Oil and Gas Company

has over 180 acres of oil land and has put down 10 wells, so the land is proved up. An adjoining additional 80 was secured yesterday, making over 260 acres all in the proven belt. Just read this:

The U. S. report on the oil industry places the average daily production of Pennsylvania wells at only one-half a barrel each per day. The Midland wells are pumping

Sixty Barrels a Day Each.

The pumping plant has just been started and this is the surprising result. Nothing like it in the world. The officers and directors of this company are bank men and do not believe in debts, so the company is free from debt. They have nearly $20,000 in cash and bills receivable in the treasury and everything paid for—property, wells, pumping plant, oil tanks, well cleaning machine and everything connected with the company. Have two drilling rigs working night and day sinking wells. Have abundance of gas, which runs the drills and pumping plant, so it only costs about $5.00 a day to produce and market the oil.

The Company has about 33 per cent of its stock in the treasury as a reserve.

For a short time the Company will sell a little more of its stock at only

7½ CTS. A SHARE

Buy all you can raise money to pay for.

We could talk all day about it and not cover all the strong points. But as the company has this grand property paid for, there is only one side to it, and that is profit. Don't buy stock in a company that tells you what they will do, but buy in this company, that has proved its property, and every dollar you put in makes it better. Send for particulars or mail check to

YOU CAN'T CALL. CUT THIS OUT AND MAIL
Send me Midland Oil & Gas Co. Literature, Maps, Particulars and Facts

WE have 100 Wells
As soon as the drilling rigs can put them down.

From the Kansas City Journal, Feb. 26, 1905.

There is perhaps no people in the same amount of territory in the world who have increased in wealth so rapidly. Everybody is prosperous. Many once poor and hard working families have become immensely wealthy.

Hudge Hale, an old Frisco conductor, has become a millionaire off of oil. He got in the game early. Now he has money as well as oil and gas to burn.

Fred Hetrick, a farmer living near Chanute, had a hard time for years making both ends meet. Life was a hard proposition with him. His royalties now reach $1,000 a month and he is living on easy street.

Joe Heim, of the Kansas City brewery, took a flyer in oil leases. He first put in $500 and refused $15,000 for his investment. Later he put in a lot more money in gas and oil lands and is now figuring high.

George E. Work, the Chicago clothier, took some acres of land near Chanute for a debt a customer owed him. Work's partner refused to stand for the deal. So Work kept the land himself. He has since refused $50,000 for his holdings.

These are a few samples. Hundreds of farmers have become independently rich off their oil royalties, and hundreds of other men have made big money producing oil.

This Kansas oil bearing sand is like the Pennsylvania sand; wells will produce oil for fifty years.

Can give bank references, and dozens from people who have personally examined this great property.

K&K NOT A DOLLAR NEED BE PAID K&K

ESTABLISHED 25 YEARS.

UNLESS CURED

THE MASTER SPECIALISTS OF AMERICA

We know the diseases and weaknesses of men like an open book. We have been curing them for 30 years. We have given our lives to it, and thousands upon thousands of men restored to Vigorous Vitality are today living monuments to the skill, knowledge and success of Drs. Kennedy & Kergan. We never hold out false hopes, we never undertake a case we cannot cure. We have made so thorough a study of all the diseases of men—of Varicocele, Stricture, Blood Poisons, Hydrocele, Nervous Debility, Paralysis, Bladder, Urinary and Kidney Diseases, General Weakness, Loss of Vitality, and have cured so many thousands of cases that if you write us for YOUR disease, you will find it here. When we undertake a case there is no such thing as failure. We charge nothing for consultation and our knowledge, skill and experience are at your service. We will explain to you How and Why We Can Cure You; why the diseases of men require the knowledge and skill of Master Specialists. We do not require to experiment with your case as we know from experience in treating thousands of cases exactly what to prescribe for your symptoms. Don't be discouraged if you have treated without success with Quacks, Fakirs, Electric Belts, Free Trials, etc. You must get cured—and Doctors alone can cure you. Our New Method System of treatment has stood the test for 25 years—why should it fail in your case. Should your case prove incurable you need not pay us a dollar. We refer you to any Bank in this city as to our financial standing. If you cannot call write for a Question Blank for Home Treatment. Consultation Free. Booklets sent Free.

DRS. KENNEDY & KERGAN

148 SHELBY STREET, DETROIT, MICH.

TO CANADIAN INVESTORS

Oregon-Idaho Gold Mining Co.

INCORPORATED

Capital $5,000,000. Shares $1.00 Each, Par Value, Fully Paid Up and Non-Assessable.

We have just secured the agency for the above splendid proposition, of which we have been allotted a block of Treasury stock. We can confidently recommend this as a safe and, we believe, exceedingly profitable investment. Every dollar of stock is guaranteed by twenty year, full paid, gold bond, delivered to purchaser of stock, from an Investment Company that has no interest whatever in the company, but who are disposing of the debentured bonds to the public, and, under their charter, they are compelled to deposit securities to an equal amount, to the State Treasurer under which they received their charter, there by doubly securing the payment of their gold bonds.

The Company's property, which is now past the project stage, is known to be marvellously rich in gold.

Following is the opinion of G. W. Miller, Mining Engineer, formerly with the Boston and Montana Consolidated Copper and Silver Mining Company, U. S.; Simmer and Jack Mining Co., Limited, Elandsfountain South Africa:—

"You have here a most valuable property and one of the strongest fissure veins that can be found in any part of the world.

"With the present development of the Monument Mine, I estimate that 100 tons per day can be extracted, which will mill from $15.00 to $20.00 per ton. The total cost of mining the ore, delivering and milling, I place at about $4.00 per ton. With the increased milling capacity, it is safe to say that the mine can furnish 100 tons of $15.00 ore, which would yield a clear profit of $11.00 per ton, or $1,100 00 per day (equal to $400,000.00 per annum). Estimated total value of ore in sight, $2,500,000."

During the past summer, a party of the Company Directors visited the property, taking with them, Amos P. Brown, Ph.D., Mining Engineer and Professor of Geology and Mineralogy at the University of Pennsylvania. Dr. Brown writes as follows:—

"In regards to the amount of ore available at the mines at Singhier, I saw on the dumps several thousand tons, probably 5000 tons would be an underestimate.

"As to the size of the ore body itself, from what I saw of the geological structure, I think that there is every indication that it will be found to extend underground as far as the out-croppings on the south side of the gulch. This would mean an ore body large enough to keep the present mill running for many years to come.

A write up of the proposition will appear in these columns in a few days. Watch for it. In the meantime we will be pleased to furnish all information to investors.

THOS. PATTERSON & CO.,

FISCAL AGENTS. PETERBOROUGH

CONSERVATIVE INVESTORS WILL FIND

The Twentieth Century Mining and Power Co., Ltd.

—OFFERS—

A HIGH GRADE INDUSTRIAL AND MINING INVESTMENT

We have thoroughly investigated it and found it to be right in every respect. Did you ever have a chance to invest in a straight legitimate money making proposition? If not,

THIS IS YOUR OPPORTUNITY

We own a monopoly of the water right privileges in the Thunder Mountain mining district, State of Idaho, U.S.A.; seven water rights in all; one developed and in use. The property of the Company consists of over 1400 acres, with plenty of timber for building and mining purposes, a saw mill fully equipped and in operation, a 10-stamp mill now on its way from the R. R. Station to the property, and 40 additional stamps to be purchased at once and installed during the coming summer. This is the largest and most favorably situated property in the district. Some of the tunnels have been driven over 400 ft., cross-cutting many dikes, demonstrating that we have an inexhaustible body of ore. The ore bodies are sampled by an assayer every 10 ft., and assays run from 40c. to $800 per ton. The ore is free milling, and can be mined and milled for about $1.00 per ton.

The Company is now on a sound financial basis; have no debts, and when the present allotment of stock is sold, it will be withdrawn from the market. The work is progressing steadily on the property, and for the last 52 weeks $1000 per week has been expended in the development of the mine. If you want a winner that promises large dividends, write for full information to Messrs.

Thos. Patterson & Co. Peterboro, Ont.

We want to tell you more about it. It will pay you to investigate. You had better not wait too long, or the allotment of stock will be sold, as it is being taken up rapidly. Within the last 90 days 300,000 shares have been subscribed for. Only 100,000 shares remain at 50c. par share.

APPEARANCE

Is such an important feature on the table. It makes a heap of difference to the pleasure of the meal whether you have a good or a poor looking Sugar on the table.

THE BETROTHAL ANNOUNCED

Princess Margaret of Connaught and Prince Gustavus Adolphus.

The forthcoming alliance between Princess Margaret of Connaught and Prince Gustavus Adolphus, eldest son of the Crown Prince of Sweden and Norway, will tend to bring Sweden more than ever within that close royal caste which rules Europe, for, as the descendant of Bernadotte the Swedish King's family started without the royal stamp, a fact which is probably the cause of the unconventionality of the present King's family. The King himself has always been much interested in literary men and artists. His second son married in England, the woman of his choice, [illegible] taking the title of Prince Bernadotte. The King's niece, who married the Crown Prince of Denmark, has identified herself greatly with Evangelical movements in Copenhagen. Her daughter, Ingeborg, married the King's third son, Oscar Charles.

Princess Margaret Victoria Charlotte Augusta Norah of Connaught, was born on Jan 15, 1882. She is highly accomplished and very domestic, taking after her mother, a true blue Prussian, in this respect. Her fiance is younger than she, having been born on Nov. 11, 1882. The alliance is said to be a love match.

TO CANADIAN INVESTORS

Thomas Patterson & Co. Have a Fine Copper Proposition.

Fifty dollars invested in Granite Mountain Mining Company's stock paid the purchaser $34,500, besides several thousand dollars in dividends. One hundred dollars invested in Boston and Montana Mining stock paid the purchaser $44,000, besides several thousand dollars in dividends. A few dollars invested in shares of the Butte Copper Mining & Smelting Company stock, will not only insure you big returns in dividends, but a handsome profit in an increased value of the stock. Our mine is not a prospect but a copper mine which has produced $160,000 in profits in the last three years.

For the purpose of buying adjoining ground we have placed on the market 50,000 shares of our treasury stock. This stock is fully paid and non-assessable. Par value $1.00 per share. We will sell any part or all of this lot at 60 cents a share; no certificate issued for less than 100 shares. Send us your order for what stock you want and we will reserve it for you, pending your investigation of our company; and when you have received our prospectus and satisfied yourself that the investment is a good one, you can send us the money and we will issue the stock, or have the stock sent through any bank you may designate. References. Any Bank or Mercantile House in Butte, Montana. Write us for particulars. Butte Copper Mining & Smelting Co., Butte, Montana, or to Thos. Patterson & Co., Fiscal their foregathers."

MONTH AFTER MONTH a cold sticks, and seems to tear holes in your throat. Are you aware that even a stubborn and long-neglected cold is cured with Allen's Lung Balsam? Cough and worry no longer.

UNIQUE BOAT FOR ARCTIC SHIPS

Now Backed by Twelve Feet of Solid Dead wood Wedge Shape at the Side

Rockport, Mass., March 24.—Commander Robert E. Peary's Arctic exploration steamship was launched here to-day. The Peary Arctic Club of New York furnished the funds for her construction. She was designed by Naval Architect William E. Wincent of New York, and is considered the most powerful and best equipped craft for combatting the Arctic ice ever built.

She is described as a "three-masted schooner-rigged steamship with auxiliary steam power." She is 182 feet in length with a gross tonnage of 614 tons. Her model is similar to modern built steam whalers, but rather more sharp, the particular features being her long high-raking bow, overhanging stern, and general wedge shape at the sides, in order that she may be lifted free if nipped in the ice.

She is built of white oak, the frames being treble, and close together, with double planking, making the walls from 24 to 30 inches thick. The keel is 16 inches thick, but false keels and keelsons form a backbone six feet high the entire length of the vessel. The bow is backed by 12 feet of solid deadwood. Her engine and boilers will develop from 1,000 to 1,500 horse power. Her cost when ready for sea will be $100,000.

RUSSIA PAYS THE DOUKHOBORS

Confiscated their Homes When They Left for Canada

Montreal, March 24.—A Doukhobor delegation, headed by Peter Vesinjin, reached the city to-day, and had an interview with Mr. De Struce, the Imperial Russian Consul, regarding the handing over of the moneys forwarded by the Russian Government. After the big exodus of Doukhobors from Russia, the Government confiscated the homes, and are now paying the owners for them.

The Consul has decided to hand over the moneys, which now amounts to several thousand dollars, to a special committee, who will distribute it to the different people now residing about Yorkton.

WHAT WIRELESS IS — WHY IT WORKS

(This is the first of four chapters which will give a very simple description of wireless telegraphy and one which should be read by everyone so that they may be intelligently acquainted with this latest and greatest development of science.)

CHAPTER I.

Over a century ago Newton explained to the world that all unsupported bodies fall to the ground because of a certain force which he then called, and which has since been known as, "the force of gravity." He did not really discover anything new, for the force of gravity has been exercising its influence since the creation of the world. You and I could not walk and the great buildings of a city could not be erected if the force of gravity did not exist and exercise that strong and constant pull keeping everything, so to speak, drawn toward the earth and its center.

Before Professor Newton gave this peculiar force a name and gave a clear explanation of what and why it was, people thought that things fell to the earth because they were heavy, but they did not know that it was this peculiar force pulling them toward the earth which gave them that quality which we call weight.

Wireless telegraphy is just as simple as the action of gravity, for it depends upon things which Nature has provided for the world and which have also been in existence since the world was created. It is surprising that its discovery was so long delayed. As Newton gave a correct explanation of gravity, so Las Marconi harnessed Nature and made himself familiar with one of its possessions and one which is always about us. Nature has charged the air with this electricity because it is needed to keep people, and plants, and every growing thing, alive. Wireless telegraphy simply requires the harnessing of that electricity, just as a river is controlled to make a water wheel turn and supply the power for a mill. The electricity in the air is constantly in motion, but not in any regular direction. It is more like the waves of the sea, which are sometimes high and sometimes low, but always in motion. Wireless telegraphy compels that electricity to travel in a certain way and with even and regular force.

You have thrown a stone into a pond of water and seen the little circles of waves which start from the point where the stone struck and go on and on toward the shore in constantly increasing size until they disappear. If it is a small stone which you throw, the waves will be small, while if it is a large stone which you throw, the waves will be of considerable size. The instrument which sends the message, and which will be described in a later chapter, sends forth a strong or a weak current of electricity. That added electricity in the air acts as does the stone. The electricity in the air is set in motion as are the waves in the pond and it is given a definite direction. In circles of constantly increasing size, the electric waves start from the sending station and travel on indefinitely. The station which receives the messages is like the shore and it intercepts those waves as they come to it.

(Chapter 2 will appear in this paper next week and will describe the instruments which send them messages out and those which receive them, and will tell more about the way in which this unseen force of Nature can now be controlled.)

MARCONI SAILS TO-DAY

William Marconi, the great wireless inventor, sails from Liverpool this afternoon on the Cunard steamship Campania, for New York and is due to arrive at that port on Saturday next.

The annual report of Marconi's Wireless Telegraph Company, Limited, of England, says: "As a result of Mr. Marconi's experiments, the company is now in possession of all the data necessary for the equipment of stations for good commercial working between England and the continent of America, and a new station embodying the latest improvements equipped on a commercial scale is already nearly completed in Canada."

The station referred to is the one at

GLACE BAY, NOVA SCOTIA

which is one of the stations owned by the Canadian Company, and is for the purpose of installing the perfected high power apparatus in that station that Mr Marconi is making his present trip to this side of the Atlantic.

This is but one of the important developments of the immediate future which will enhance the value of the stock of

The Marconi Wireless Telegraph Company OF CANADA, Ltd.

and which make it an investment worthy of most careful investigation by people who wish to make a conservative use of their investment funds.

With the newly perfected apparatus for the fast transmission of messages, a single transatlantic station with one pair of instruments will earn

$1,120,000 PER ANNUM

It is safe to presume that the number of stations and instruments will be increased as fast as business warrants such a step. Such a tremendous return on the capital invested was never enjoyed by any previous enterprise in the history of the world's great inventions. Is it reasonable to presume that the selling price of the stock will long continue at $5.00 per share under such conditions?

Any desired particulars may be obtained by application at any one of our offices.

Take Advantage of This Golden Opportunity To Make Yourself INDEPENDENTLY WEALTHY

by simply making yourself acquainted with the facts as to what this great Company has done already, is doing now and its prospects for the future. Don't neglect the chance!

ADVERTISE IN THE TIMES.

AN INTERESTING BIT OF HISTORY

ABOUT THE DISCOVERY OF THE

BOSTON AND TEXAS CORPORATIONS

PROPERTY IN

Crowther, McMullen, Co. Texas.

Sam Crowther, the discoverer of this property, and the man who gave the name to the town where drilling for oil is now going on, is an Englishman by birth, having come out from the Old Country a good many years ago, finding his way to Texas and there engaging in an occupation which was, to say the least, a very hazardous one. This occupation was acting in the capacity of Deputy Sheriff, at a time when much lawlessness existed, in the nature of horse-stealing. Murders were fairly numerous at this time and the sheriff in the exercise of his duty frequently took his life in his hands. He continued at this work for some time, giving it up and taking up a pursuit which was less dangerous, and which will soon make his name famous as the discoverer of one of the greatest single tract oil lands ever found and owned by one company. Artesian well drilling now became his life work, and in those days was very remunerative drillers of this kind making from $5 to over $10 per day. In the pursuit of his calling he was called by the ranchmen of Atascosa, Live Oak and McMullen Counties to try and find for them good water for their cattle, a thing which they were unsuccessful in getting up to this time and which they were to be still unsuccessful for some years longer. Sam Crowther began drilling, but each well put down showed up the same condition of affairs, and instead of pure water being found it was always the same old thing, an oily brackish substance. The patience of the ranchmen became worn out and a halt was called in operations. Sam, however, was not going to give up thus easily; but he was going to turn his attention not to drilling for water, but to drill for what he believed would be found in this neighbourhood from all indications which he had found while exploiting for water, viz: OIL, and his surmise has been more than proven true by the recent bringing in of the wells of the BOSTON & TEXAS CORPORATION. Although at this time he was to be doomed to disappointment for some years, and to work on hoping against hope that success would at last crown his efforts, and that he would at last reap the reward which was his, and which would be shared in by Mrs. Crowther, who through these years of experiment, was his companion in toil, undergoing the many hardships which you may be sure existed in those days, 37 miles from rail and no settlement of any kind existing within many miles. The only dwellings being those of the ranchmen and these being few and far between.

WILL BE CONTINUED TO-MORROW, and will contain the story of Sam Crowther's wanderings in the search for oil for the next three years.

Reader remember, although I may be able to have my option extended for perhaps a couple of months, the sales might be such that my whole option will be disposed of within the next few weeks, first come first served. Remember the price is

50 cents per Share. $1.00 is the Par Value

and is non-assessable.

Not less than 100 shares will be sold, price $50. Can you afford to miss this opportunity of buying stock in a sound business proposition. Make all moneys payable to my order. Certificates are all registered by the Beacon Trust Co., of Boston, and will be forwarded to all purchasers within 10 days from receipt of money.

Best references furnished if required as to my responsibility.

JOHN THOMSON

BOX 243, QUEBEC.

You Take It Mixed With Air

A Powerful Destroyer of Disease Germs Which Cures Every Type of Catarrh Bronchitis and Throat Trouble.

Ever since Adam the air of the Pine woods has been known to possess marvellous healing properties. In fact doctors claim that people living in the balsamic atmosphere of the woods never contract consumption or catarrh.

A new remedy that embraces all the healing curative powers of the pine woods has at last been realized. It contains the balsams, the ozone and many other antiseptics that make it an absolute cure for all catarrhal diseases.

For years doctors have been looking for just such a remedy and claim the newly discovered Catarrhozone is the most effectual, the most scientific cure for catarrh, bronchitis and winter ills, they have ever met.

So powerfully healing is Catarrhozone that simple colds in the head and throat are cured in less than an hour. Chronic catarrh is eradicated from the system in the most thorough manner. It doesn't matter whether the catarrh affects the nose, throat or stomach, it can be completely driven from the system by using fragrant healing Catarrhozone.

The remotest parts of the lungs and air passages often contain germs of catarrh and consumption which cannot be reached by ordinary treatments. But the searching vapor of Catarrhozone carries its antiseptic healing power direct to those isolated spots. So thoroughly does Catarrhozone reach all diseased surfaces that it cures for all time, and no relapse need ever be feared.

"My nose was so stuffed up from catarrh that I could not breathe except through my mouth," writes John D. Perkins, a well known merchant in Hamburg. "My breath was horribly offensive and my digestion was completely knocked out. I used Catarrhozone and was cured in two weeks. I wouldn't take five thousand dollars for the benefit and good health I received from Catarrhozone which I can recommend as a certain, absolute cure for catarrh."

Two months treatment costs $1.00; sample size, 25c. At druggists or by mail from N. C. Polson & Co., Hartford Conn., U.S.A. and Kingston, Ont. Catarrhozone always cures—refuse a substitute, and insist on getting Catarrhozone when you ask for it.

Settlers Low Rates West

via the Chicago and North Western Railway every day from March 1st to May 15th, 1905, settlers one way second class tickets at very low rates from Chicago to points in Utah, Montana, Nevada, Idaho, Oregon, Washington, California, also to Victoria, Vancouver, New Westminster, Rossland, and other points in the Kootenay District. Correspondingly low rates from all points in Canada. Write for full particulars and folders to B. H. Bennett, General Agent, 2 East King street, Toronto, Ont.

Insurance Banquet To-day

The banquet tendered by Mr. Rothwell to agents of the Metropolitan Life Insurance Co. will be held to day, noon in the National Hotel. An old resident of Peterborough, who once taught in our local school, Mr. J. Kavanagh, now Superintendent of agencies for this company, for Western New York, and the Dominion of Canada, will, in addition to other visiting insurance men, make the principal address. The usual patriotic toasts have been made, be of a business nature. Owing to the terrible state of the streets, it has been decided not to drive the visitors about town. It is expected that about thirty visiting insurance agents will arrive this morning from all over this part of Ontario.

$100 REWARD $10

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address, F. J. CHENEY & Co., Toledo, O.

Sold by Druggists, 75c.

Hall's Family Pills are the best.

STREET CAR TICKETS

(To the Editor of The Times.)

Dear Sir,—I wish you would use your paper to try and get the Street Railway mangers to adopt the same system of encouraging workmen to use their cars that the street railways in other cities, both in Canada and the United States do. If during the hours that factory hands and other working men go to and from work, including the dinner hour, tickets at eight for a quarter dollar was sold, and only usable during such hours, there would be much more people use the cars. Now I buy only six tickets for a quarter and then I get 25 cents a week on the cars, as I always walk home sooner than pay more than I think is right. If I could get eight for a quarter, I would ride 12 times a week, and would thus spend about 40 cents a week. If the street car people would do this they would get more trade and make more friends among the workingmen. Even if they was to let the eight for a quarter tickets be used any time of the day, the extra travel would more than make up the few cents they now screw out of people's pockets. I remain.

Your friend,

ELECTRICIAN.

Local Incidents

BY THE TIMES MAN ON THE STREET.

Oats are scarce at 41c.

—The Committee of the Whole Council met last night.

—Walking is again down to rock bottom along the streets.

—The Bank of Nova Scotia yesterday had their teller's new cage put in.

—Rev. E. A. Langfeldt preached a Lenten sermon in St. John's church last night.

—Mr. Norman Jolliffe will be the soloist at the Y.M.C.A. on Sunday at four o'clock.

—The rumor that Dr. Willoughby, M.P.P., is about to leave Colborne, is contradicted.

—There was no senior gym. class at the Y.M.C.A. yesterday evening, because of the basketball games.

—The officers of the Children's Aid Shelter wish to acknowledge the donation of a bundle of clothing by Mrs. John Crane.

—Rev. E. A. Langfeldt will deliver a lecture on "Life in the German Army," at Saturday's Pos in the Y.M.C.A.

—The annual roll call of the members of the Murray street Baptist church, will be held on Wednesday evening, March 29th, at 8 o'clock.

—The dissolution of the firm of Macpherson and McGregor, is announced. Mr. Macpherson will continue the business in the same stand.

—The Peterborough Radial Railway Company will put in a couple of switches on the Park street line in order to give a faster service to the park this summer.

—The regular meeting of the Ladies' Literary of St. Peter's T. A. S. was held yesterday evening. An essay on "Canadian Poets" was read by Miss O'Connell.

—A large photograph of the Midland Field Battery, executed by Roy, is in the window of Mr. H. S. Macdonald's drug store and is attracting much favorable attention.

—Two car-loads of iron pipe for the extension of the water-works system, arrived yesterday, and are being unloaded at the yards of the department.

—Rocking horses, games, toys and notions at bargain prices to-day. See our special offer for to-day, advertised in another column. Times Bookstore.

—John Leonard, of Grafton, Ont., died yesterday in St. Joseph's Hospital of tuberculosis. He was 20 years old, and had been about a month in the hospital. He will be buried in Grafton.

—The Havelock Standard says: Rev. W. R. Tandy, M.A., will preach his farewell sermon at St. John's church, Havelock, on Sunday evening next, prior to his departure for Peterborough.

—Miss A. Williamson and Mr. D. W. Dumble had charge of the lesson at the meeting of the Primary and Junior Sabbath School Teachers' Union last night at the Y.M.C.A.

—Word has been received by relatives in town that Mrs. Johnston, wife of the late George Johnston, at one time chief of police here, who has been seriously ill at Riverside, California is improving.

—Mr. John A. Flett, who addressed a meeting of the Trades and Labor Council on Wednesday, will give an address before the Carpenters' Union in the Orange Hall, Simcoe street, on Monday night.

—The next meeting of the Liquor License Board will be held on April 19th, by which date all applications for licenses must be in. There are twenty-one hotel and five shop licenses in Peterborough.

When you want a life-like Portrait in Oil, Crayon, or Water Color, don't fail to come to B. Hudson's Studio, where the work and prices are always rights. Gifts in Pictures, Frames and Fancy Work, Enlarging and Pyrography Work. Studio, 134 Brock street. 1w.

—Miss Estella Foy, of the staff of the Peterborough Conservatory of Music, will give a kindergarten demonstration with her pupils in the Y.M.C.A. Hall on Monday evening, March 27th. All interested in musical kindergarten work may receive programs of admission by applying at Edmison's drug store.

FOR INTERNAL AND EXTERNAL applications we have found Dr. Davis' Painkiller of great value and we can recommend it for colds, rheumatism or wounds and bruises. —Christian Era. Avoid substitutes.

—The Orillia Packet says: "Friends here will be sorry to learn of the death, at Peterborough, after a short illness of Mr. Thomas Bridgwater. For well onto twenty years Mr. Bridgwater has conducted a boat business here during the summer, returning to his home in Peterborough for the winter. He was much respected for his straightforward character, and will be missed by many of those who frequent the lake front. Mr. Harry Bridgwater, son of the deceased, will continue his father's business as well as his own.

Personal and Social

Movements of the people in and out of town . . . .

—Mr. Albert Wells, of Toronto, is in town for a few weeks, the guest of his brother-in-law, Mr. Jas. Edgar.

—Toronto News says, Mrs. J. R. Stratton, of Peterborough, is at the King Edward.

—Mr. George W. Fitzgerald was in Toronto this week on business and was among the Peterborough spectators at the formal opening of the Legislature.

—Mr. E. B. Andrea, formerly manager of the Toronto Bank, Port Hope, and a well-known horseman, has established a big horse ranch in the North-west.

—Many people in town yesterday morning shook hands with Mr. Harry Allen, of Toronto, Harry used to live here when representative of the Port Hope Brewing and Malting Company.

—The Lindsay Post of last issue says, Y.M.C.A. Secretary, J. P. Read, will speak to the young men of the Peterborough Y.M.C.A. on Sunday next. Also, Mr. W. Thompson, of Peterborough, was in town yesterday.

—Mrs. William McMaster, 28 Park street, has returned from Detroit, Mich., where she has been spending five weeks with her daughter, Mrs. Lee Cobb (nee Georgina McMaster).

—Rev. W. J. Jolliffe leaves on Monday to visit his son in Philadelphia for a couple of weeks. He will be accompanied by Mr. R. N. Jolliffe, who will also visit Atlantic City. He expects to return by Good Friday.

—Mr. Harry Foote, representative of James Linton & Co., Montreal, who has been spending the past few weeks with his wife and family, will leave to-morrow on an extended business trip to the West.

—Mr. C. S. Wallis, who returned to the West the other day, has arrived in Edmonton where he will remain. Mr. Wallis spent the fall and winter months in Peterborough—his old home—but is now largely interested in mining in the West.

—The Norwood Register says: A very enthusiastic meeting of the Norwood Football Club was held at the King's hotel for the purpose of reorganizing for the season of 1905, and to appoint a delegate to represent the club at M.A.F.L. in Peterborough. Mr. R. Pearce being chosen.

The Mammoth and the Mosquito

What has come to pass in thousands of years seems hardly credible. Primitive man, a weakling in comparison to modern man, was able to conquer the huge monsters of thousands of years ago, such as the *Mammoth*, and to-day they are dead forever; yet the mosquito and fly have never been conquered. It is now time for the scientist to devise methods for killing the mosquito and fly, so that they will go to join the mammoth and the monster lizards. The mosquitoes and flies are dangerous enemies of man because they spread contagion. The mosquito often carries the germs of malaria with his bite. The housefly spreads germs of disease over our food. These bacterial germs, ever hunting for the weak spot, find a place in our blood, and then we suffer from grip, catarrh, consumption, or malaria.

Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., says: "There would be no grip epidemics, the germs of consumption, or malaria would find no place in the human economy, if the blood were pure, if the lungs, heart and other organs were fed on good blood. Poisons should not be allowed to accumulate in the body; to be safe it is best to take a gentle laxative at least once a week." Such a vegetable laxative as Dr. Pierce's Pleasant Pellets contains nothing which could harm the system.

For putting the blood in order, and as a tissue-builder and tonic for those weakened by coughs, colds, catarrh, grip, nothing will build one up quicker than Dr. Pierce's Golden Medical Discovery. This is a medicine made entirely of roots and herbs, without the use of alcohol.

Dr. Pierce's Medical Adviser is sent *free* on receipt of stamps to pay customs and mailing only. Send 21 one-cent stamps for paper covered, or 50 stamps for cloth binding, to Dr. R. V. Pierce, Buffalo, N. Y.

JUDGE OF THE SUPREME COURT

Was Alarmingly Afflicted With La Grippe. Cured by Pe-ru-na.

HON. W. H. PARSONS.

Pe-ru-na cures more cases of la grippe than all other remedies combined.

W. H. Parsons is Ex-State Senator and Ex-Special Judge of the Supreme Court of Texas, also Brigadier-General in Confederate Army. In a recent letter from 923 H Street, N. W., Washington, D. C., this prominent gentleman says:

"Upon the recommendation of personal friends and many strong testimonials as to the efficacy of Peruna in the treatment of the numerous symptoms of the grippe with which I have been afflicted for four months past, I have been induced to undergo a treatment with this justly celebrated formula. I feel a decided change for the better after using it only one week. It is especially good in toning up the stomach and has had a decided effect upon my appetite. I therefore feel much encouraged that I am on the road to complete restoration.

"My numerous friends in Texas, where I have had the honor to command a brigade of her Veteran Cavalry in a four years' war, may accept this voluntary testimonial to the merits of Peruna as a sense of obligation on my part for its wonderful efficacy."—W. H. Parsons.

There is no remedy in the world that meets the conditions produced by la grippe better than the remedy, Peruna. Peruna strengthens as it renovates, soothes while it stimulates, heals as it expurgates. Peruna is not a purgative, or cathartic, or sedative, or stimulant, nor a vegetable or mineral poison. It reaches the source of all diseases of the mucous membranes by its action on the vaso-motor system of nerves.

Every person who has had la grippe during the last year should take a course of Peruna. No one need expect perfect recovery unless they do so. The grippe has produced catarrhal inflammation of the whole mucous membrane, and good health is impossible until these are restored to a normal condition. This Peruna will do. A great many remedies have been suggested for this condition from time to time, but Peruna appears to be the only remedy that has any substantial value in these cases. It has never failed to give satisfaction during forty years' experience and still occupies the unique position of being the leading (if not the only) specific remedy for the after-effects of la grippe.

Henry Distin, the inventor and maker of all the band instruments for the Henry Distin Manufacturing Co., writes the following from 1441 South Ninth street, Philadelphia, Pa.:

"I had a bad attack of la grippe last December which lasted more than three months, and which left me with catarrh, and several of my friends advised me to try Peruna. I began with a bottle the first week in March and it certainly did me a great deal of good. I was so well satisfied that I purchased another bottle and followed the directions, and can say that it has cured me."—Henry Distin.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

A reward of $10,000 has been deposited in the Market Exchange Bank, Columbus, O., as a guarantee that the above testimonial is genuine; that we hold in our possession authentic letters certifying to the same. Every one of our testimonials are genuine and in the words of the one whose name is appended.

Police Court

OFFICIALS

Chief of Police, G.I. Read

Magistrate, D.W. Dumble

Too keen an interest in the contents of other fellows' pockets, combined with a certain stickyness round the tips of his fingers, brought a seemingly penitent youth before his Worship yesterday morning.

For some months past the boys at the Y.M.C.A. have been the victims of systematic and frequently recurring thefts in consequence of which a special detective was employed by the officials of the institution to make investigation. This has been quietly prosecuted for some time past, and resulted in the discovery Thursday night of the culprit, and his conviction yesterday morning. His night spent on the hard side of a police cell bench brought him to a full realisation that 10c stolen from a fellow bather, is mighty dear pay for Chief Rogell's hotel accommodation. He had been seen in the act of abstracting a dime, which had as a certain trap previously been marked, from the pocket of one of the lads who was bathing. The prisoner pleaded guilty, and was allowed to go on suspended sentence. Whilst this lad was allowed to escape the jail sentence he richly deserved, the kind-hearted Magistrate hoping for his reformation in the future, all other young men, with too large a bump of curiosity concerning the pockets of Y.M.C.A. visitors, had better remember that a repetition of such an offence will end in either Castle Nesbitt or a trip to Toronto, without a return ticket.

THE CZAR'S ATTITUDE CONCERNING PEACE TERMS

Considering the Advisability of Making a Proposal ---Peace within Six Weeks is Regarded in Very High Quarters as Certain.

St. Petersburg, March 27.—The information contained in these dispatches for over a week regarding the change in Emperor Nicholas' attitude concerning the advisability of making a pacific proposal to Japan is fully confirmed and in very high quarters peace within six weeks is regarded as certain.

The positiveness with which this is affirmed would indicate that the Government is already in possession of information as to the Japanese terms, which indicate a basis to which Russia can agree.

The exact situation is shrouded in mystery. The secret of what has been done and what is being done is zealously guarded. The Associated Press hears, however, from a source close to the throne, that four-parlears are actually in progress in Paris, but possibly only of a preliminary character, and that Copenhagen may be the scene of the first exchanges between representatives of the powers.

In this connection importance is being attached to the visit on Tuesday of M. D'Iswolsky, Russian minister at Copenhagen minister at Copenhagen, and Baron Rosen, former Russian minister to Japan, and M. Bompard. The parties to this conference refuse to admit that significance, meantime the foreign office is silent.

MOVING TOWARD PEACE.

Paris, March 27.—It is said in quarters having excellent means of information that Russia's steps towards peace have already taken a tentative form at a private conference held within recent days at one of the small capitals of Northern Europe. The purpose of this appears to have been to bring together personages representing both sides, neither having credentials to discuss formal terms of peace, but to examine informally what each side expected and what tentative bases seemed possible. The nature of the exchange does not warrant its being considered a definite peace movement, but it is understood to have given each side an opportunity to judge the view of the other, and has clearly shown Russia's disposition towards peace.

THE PAPAL CONSISTORY

ONE OR MORE CARDINALS TO BE CREATED TO-DAY

No American Prelate to be Among the Number

Washington, D.C., March 27.—Notwithstanding the report from Rome that the papal consistory today is probably only for the preconization of bishops, leading members of the Catholic church here, including some of the usually well-informed attaches of the Catholic University, are inclined to the opinion that one or more cardinals may be created. This opinion is based upon the belief that the pope cannot longer delay such action in view of the fact that the recent death of Cardinal Steinbuber increased to ten the vacancies in the college or cardinals.

There is no reason to expect, however, that any American prelate will be among those elevated to the rank of prince of the church. The death of Archbishop Corrigan put an end for the time being to any hopes in that direction. Had the New York archbishop lived it is possible, and many think quite probable, that he would have been made a cardinal, in which event the same honor would probably have been conferred at the same time upon Archbishop Ireland of St. Paul. This would have made an equal division of honors for both the liberal and conservative elements of the church in America. But the death of Archbishop Corrigan upset this plan. American bishops who visited the Vatican during the past year returned home with the opinion that no new cardinals will be given to the country for a long time to come. The pope's determination on this point is said to be due chiefly to the inability of the American church dignitaries to agree upon a recipient for such honors.

There is every reason to believe that if a cardinal, other than an Italian, is created at to-day's consistory, the honor will go to Germany. During the last few years Emperor William has taken pains to demonstrate that the Bismarckian hostility to the Roman church is no longer the policy of the German government. His overtures have been cordially received by the Vatican, and the creation of a German cardinal would be but a natural consequence. The late pope intended to take this step, and was only prevented by the objections raised by French officials, who protested against any increase in the number of German cardinals. As such an objection cannot consistently be brought now by the French government, on account of its strained relations with the church, there is little doubt among those well-informed that Pius X. will take such action at the present consistory or some time during the year.

The recent visit to Rome of Prince Max, of Saxony, who, as is generally known, embraced the priesthood some ten years ago, has led to the report that when the vatican gets ready to create a new German cardinal the honor will go to this scion of the royal house of Saxony. If it is decided to create a German cardinal de curia to reside in Rome, as has been reported on good authority, Prince Max would be especially adapted for the place, as his birth, education and training particularly fit him for the semi-diplomatic post. He speaks several languages, among them English, an accomplishment which would be of much use to him in Rome. He is rather young yet to be a prince of the church, but this objection to his nomination is offset by his royal birth and saintly life.

JAPAN THANKS BRITAIN

Without Alliance Might not Have Drawn Sword

London, March 25.—The Tokio correspondent of The Times cables: A leading Japanese journal takes the opportunity of the Mukden victory to thank Britain in the name of Japan for the advantages conferred by her alliance with Japan. It says that, while not fearing Russia single-handed, Japan has learned from experience to apprehend the danger of a European coalition, and had therefore many misgivings about drawing the sword without the alliance and assurances that Great Britain would see fair play. The assistance rendered by the alliance is now thankfully acknowledged.

THE LOAN SHARK

Two Men Suicide Rather Than Stand Persecution

Chicago, March 25.—Driven to desperation by the merciless houndings of loan sharks (brokers who loan on assignments of salary), two men committed suicide in Chicago within the past twenty-four hours. Neither could see any escape except in death. The modern Shylocks had fastened their relentless fangs, not only on the men themselves, but on the women and children of the two families, until the oppression was too great to be borne.

PENSIONER 105 YEARS OLD

Uncle Sam's Oldest Soldier Was in War of 1812

Acworth, N. H., March 25. — William Welch, a resident of this place, will be 105 years old tomorrow, having been born during the administration of John Adams, the second President of the United States. He holds the record of being the oldest pensioner of the Civil War, and is just a month younger than Hiram Cronk, who holds the same record for the War of 1812. Welch was over 50 years old when he enlisted in Company I., Fourteenth New Hampshire Volunteers. At the last session of Congress a bill was passed increasing Welch's pension from $12 to $24 a month.

A THRILLING STRUGGLE

Two Men Killed in a Battle for Life on Railway Cars

Chicago, March 25.—Evidence of a thrilling struggle on top of a moving freight train is given by the bodies of two men found on the Illinois Central tracks at Ninetieth place late last night. A lantern bearing the Michigan Central stamp was clutched in the hand of one of the dead men. In the pocket of the other was found a card indicating that it was carried by Frank Arno, a member of the International Coopers' Union of Milwaukee, Wis. The police believe Arno was stealing a ride on the freight train when the brakeman attempted to force him off the moving cars. In the struggle that ensued the theory is that both men fell between the cars and were killed.

CZARINA'S DEVOTION

Wife of Czar Prepares Food for Her Husband and Children

Vienna, March 27.—Vienna papers contain the following report about the Czarina's perpetual anxiety for her husband and children: She prepares food for the Czar, who is in constant fear of poison; she assists at every detail of his toilette, as would the German wife of some small citizen, since the Czar mistrusts every act of his servants; she superintends the tailor and the laundress, as well as the barber, and besides this she attends to every want of her infant son.

It has become almost a fixed idea with the Czar that his son's life is threatened. His Majesty fears that the loss of his son, whom he so long vainly expected, would cause the outbreak of a revolution in every corner of his empire, even among conservatives, and for this reason everyone connected in any way with the Imperial family is surrounded by hosts of spies, who in their turn are watched by a second series.

Naturally everyone knows that he is under close supervision, and that the slightest untoward act would give room for denunciation. No care is taken to prove the truth of a suspicion, but everyone in the slightest degree suspected is removed upon some vague pretence. Hence arises a general feeling of insecurity, as nobody knows what the next hour will bring forth.

PRESBYTERIAN ALLIANCE

Canada to Take Part in Conference at Nashville

Nashville, Tenn., March 27. — The executive commission of the Western section of the Pan-Presbyterian Alliance meets in Nashville this week and a number of distinguished divines and other leaders of the church are already here. The meeting will discuss a number of matters of great importance to the Presbyterian Church throughout the western world.

The churches represented will be the Presbyterian Church in Canada; Presbyterian Church in the United States of America; the Presbyterian Church in the United States; the Cumberland Presbyterian Church; the United Presbyterian Church; the Reformed Presbyterian Church; Synod and General Synod; Associate Reformed Synod of the South; the Reformed (Dutch) Church in America; the Reformed (German) Church in America; and the Presbyterian Churches of Mexico and Brazil.

NEW DEATH HOUSE

Historic Building Being Torn Down and Another Built

Ossining, N.Y., March 25. —Work was begun this week on the new $40,000 death house at Sing Sing Prison. The present death house, which accommodates only thirteen prisoners, will be torn down, and the new one will have forty cells.

The building will be the finest of its kind in the country. It will be constructed of brick and stone, and will have a glass-covered court and promenade, where condemned men may take exercise at the discretion of the warden. No changes in the methods of appliances will be made in the new chamber. Under the present system a murderer is pronounced dead seventy seconds after he is led into the room, and in the opinion of the prison officials this arrangement is as expeditious as it is possible to make it. The last man to be put to death in the present chamber will be Martin Ebelt, a young man of Mount Vernon who strangled his wife with a shoe string, and hid her body in a sewer. He will die on April 10.

SUCCESSFUL DINNER

Agents Meet from All Over This Portion of Ontario and are Dined

Saturday's banquet to agents of the Metropolitan Life Insurance Company was one to be remembered. By early trains to mid-day the agents arrived from all points and converged about noon towards the Hotel National Mr. Rothwell, Superintendent for the company, for this section of Ontario, welcomed his guests and as dinner was announced each visiting agent was presented with a bouquet; each waiter was also supplied with a beautiful boutonnay.

Among the assistant superintendents and agents, enjoying Mr. Rothwell's hospitality were noticed;

Assistants—Messrs. W. R. Seane and T. E. DeHart, Peterborough; J. D. Martin, Oshawa; W. A Chisholm, Belleville; and H. H. Gray, Orillia.

Agents—Messrs. F. Watley, A. W. Ray, C. E. Wiley, Peterborough; R. Fice, Cobourg; J. McComb, Port Hope; W. B. Hubbs and W. Howard, Oshawa; H. Burkley, Belleville; W. H. Bishop, Picton; H. Pennell, Trenton, M. E. Heron, Lindsay; A. Sharp, Belleville; Jas. Dean, Lindsay; T. B. Harker, Orillia; C. E. Lathigus, Peterboro; A. Portelance, Midland; J. Brown Campbellford.

Mine Host of the National had searched the markets for their choicest products and the visitors remarked on the excellence of the dinner provided.

Instead of a set speech list, it was decided, at the termination of the banquet to adjourn to the temporary offices of the company, in the Bank of Commerce Building. Here Mr. Rothwell spoke at some length on the prosperity of Canada; Ontario, and in particular on the prosperity of Peterborough, referring also to near-by towns; he said that an indication of the general progress of surrounding towns was marked by the class and style of the gentlemen present. He next spoke of the unprecedented tide of immigration to Ontario, and Quebec and our great North-West. The speaker went on to show his guests that every settler, who went to the North-West, and took up land, had to be supplied with almost everything he consumed, used, or wore, for a number of years. This, he said, means a tremendous increase in our industrial population in Ontario, of which Peterborough in proportion to its size, is fastest forging to the front as a base of supplies and manufactures this being now a town with manufacturing industries as the very heart of its existence. Mr. Rothwell went on to show his agents that they had excellent opportunities of doing an exceptional business from now on. Altogether the meeting was a very enthusiastic and instructive gathering. Every man present seemed to feel that coming together in this way for the first time since the creation of the Peterborough District was an advantage to each and every one. All present were unanimous in praising our town, some of them not having been here for years, and some never before. The popular sentiment of the gathering was that Peterborough has a future, and that before long it will be one of the leading manufacturing centers of Canada. The agents having enjoyed their visit to Peterborough and with a full appreciation of Mr. Rothwell's hospitality, left by evening trains towards all points of the compass, eager and intent on trying for the future to make Peterborough District the leading Insurance district of the Metropolitan Life. It is such gatherings of intelligence and hustle that helps, not only the visitors but redounds towards advantageous advertisement of the locality in which the visitors meet under such auspicious circumstances. Mr. Rothwell's Company is now negotiating for more commodious and permanent offices, as the fast increasing business, under Mr. Rothwell's superintendence, necessitates a prompt and large increase in the local staff.

—A large audience listened to Rev. J. P. Reed at the Y.M.C.A. yesterday at four o'clock. His subject was "The Great Covenant."

HONOR BLIND HYMN WRITER

Mrs. Fanny Crosby Celebrates Her 85th Birthday

A REMARKABLE WOMAN

Author of Over 8000 Popular Hymns —Blind From Infancy

Bridgeport, Conn., March 26. — Fanny Crosby, the blind author of 8,000 hymns, among them some of the world's most sacred songs, was eighty-five years old yesterday. She passed the day quietly at her home in this city, the greater part of the time being spent in listening to her sister read some of the hundreds of messages and letters of congratulation that poured in from every part of the country. One of the most welcome of the congratulatory letters received by Miss Crosby was from former President Gover Cleveland. When the hymn writer was a teacher in the New York Institute for the Blind many years ago, Grover Cleveland was secretary to the president of that institution, and he has written her a letter, in which he says:

"It is more than fifty years ago that our acquaintance and friendship began, and ever since that time I have watched your continuous and disinterested labor in uplifting humanity and pointing out the way to and appreciation of God's goodness and mercy.

"As one proud to call you an old friend, I desire to be early in joining your other friends and admirers in congratulating you on your long life of usefulness, and wishing you in the years yet to be added to you the peace and comfort born of the love of God. Please accept, besides, the inclosed contribution of a testimonial which is richly due to you at the hands of those who believe you have done much for the souls in need of help."

The eyesight of Miss Crosby was destroyed by the application of hot poultices to her eyes when she was a baby. It was while she was a young woman in the '60s that she became known as a song writer. She was spending a vacation in Reading, Pa., when she became acquainted with Professor George F. Root, who in after years became the composer of so many songs. Professor Root became impressed with Miss Crosby's talent, and they formed a combination in which she wrote the verses for the songs that he composed. During the war Miss Crosby wrote a number of patriotic songs.

She has enjoyed the friendship of a number of prominent men, including Presidents Tyler and Van Buren, Henry Clay, William H. Seward and General Winfield Scott, and she has met many of the most conspicuous figures in American history since those days.

One of the most pathetic incidents of her life is told in connection with the friendship that existed between herself and Henry Clay. The great statesman had lost a son in the Mexican battle of Monterey, and Miss Crosby wrote a few appropriate stanzas and sent them to the father. These touched him deeply. A few months later, while visiting New York, he was received at the institution where Miss Crosby was teaching. She had been delegated to give him a poetic welcome, and after it was over Mr. Clay drew the blind girl's arm in his and wept as he said: "This is not the first poem for which I am indebted to this lady. She sent me some beautiful lines on the death of my dear son."

"Mr. Clay soon recovered himself by a splendid effort," said Miss Crosby, when recalling the incident, "but I could not control my tears."

Miss Crosby also had the distinction of being the first woman whose voice was ever publicly heard in the senate chamber in Washington. This was way back in the '50s when she read a poem there.

Some of Miss Crosby's hymns that continue popular in addition to "Safe in the Arms of Jesus," "Rescue the Perishing," and "Pass Me Not, O Gentle Savior," are "Jesus is Calling," "Blessed Assurance," "All the Way My Savior Leads Me," "Saved by Grace," "There's a Cry from Macedonia," "Jesus the Water of Life Will Give," "Keep Me Near the Cross," "Let the Good Angels Come In," "Strike the Harp of Zion," "Blessed Homeland," "Twill Not Be Long, Our Journey Here," "Some Day the Silver Chord Will Break," "Thy Word is a Lamp to My Feet," "Never Say Good-By," "Holy, Holy is the Land," "Savior, More Than Life to Me."

A complete list of Miss Crosby's hymns and songs is impossible of compilation. Altogether, they are said to number more than 8,000. She is a rapid and indefatigable worker. Some of her best known and most popular hymns, it is said, were composed in less than fifteen minutes.

Miss Crosby is stone blind. For some years she has, with her sister, Mrs. C. W. Rider, been living with and old friend, Mrs. William Becker, in this city. Here in roomy apartments the aged hymn writer sits in a rocking chair far into the night, composing hymns and memorizing them, so that she can dictate to her sister next morning.

$5.00 EXCURSION TO NEW YORK $5.00

Tickets only $5.00 from Suspension Bridge to New York and return via Lehigh Valley Railroad, Friday, March 31st. Tickets good on Black Diamond Express and all regular express trains. Tickets good for return until April 5th. For Tickets, Pullmans, and further particulars, call on, or address, Robt. S. Lewis, Canadian Passenger Agent, Lehigh Valley Railroad, 10 King Street East Toronto.

ST. JOHN'S CHURCH

Pleasing Mark of Regard Presented to Prof Gliddon

After evening service in St John's church last night, a few members of the congregation on invitation of the rector, adjourned to the vestry. Here Rev. J. C. Davidson, the Rector, on behalf of the congregation, presented Prof. R. Gliddon, late choir leader of the church, with a very handsome, suitably inscribed, framed picture of the church. In a brief, but feeling address, the rector, expressed for himself and the congregation the regret they all felt at Mr. Gliddon's giving up the post of choir leader, re- which his duties had been performed. The speaker went on to thank Prof. Gliddon for the unselfish and patriotic manner in which to enable the church to pay more easily the salary of the Rev. Mr. Tandy, the new curate, he had resigned his office. Several other members of the congregation voiced similar sentiments to which Prof. Gliddon made a suitable reply. All present seemed unanimous in regretting the loss of the late choir leader's services, they having given universal satisfaction.

CAPTAIN FESSENDEN

Son of Mr. C. Fessendrn, of Town, Raised in Rank in British Army.

Peterborough has reason to feel proud of the record made by one of her sons in the Army of England. By the London Times we learn that Lieut. J. H. Fessenden, son of Mr. C. Fessenden, of this town, has been raised to a Captaincy in the Army Service Corps, which is one of the most important branches of the British Army. In this corps Capt. Fessenden will have to deal directly with matters appertaining to transportation of large bodies of soldiers. The Captain is now only 23 years old, and we congratulate both him and his learned father, on such an almost unprecedented an appointment at such an early age. The young officer graduated from Kingston Military College when 19 years old, was appointed to Aldershot and Portsmouth. He went to the Boer war shortly before its close. It is expected that Captain Fessenden will pay a visit to his old home shortly, he having left Durban, South Africa, on leave very recently. After spending a few weeks in England he will sail for Canada. Mr. Fessenden is hopeful of quite a long visit from his son.

EXPRESSIVE NAME FOR INDIGESTION.

Mi-o-na Simple Remedy That is Guaranteed to Cure the Trouble

No one word better expresses the condition of the sufferer from weak stomach or indigestion than "misery." The stomach is weak and cannot digest the food, so that there is no appetite, there are pains and gripping in the stomach and bowels, and the misery goes to every organ.

Strengthen the stomach and the digestive system by the use of Mi-o-na. This is the only stomach remedy known that gives relief by strengthening the stomach and digestive organs. It is this principle that makes it a certain cure for indigestion. Other medicines may give temporary relief by helping digest the food, but they do not strengthen the stomach, and that organ gets weaker and weaker all the time.

Wm. Medill, the reliable retail Druggist, has so much confidence in this remarkable remedy that he guarantees a cure, or the money will be refunded. Mi-o-na costs but 50 cents a box. Ask to see the strong guarantee given with every box.

Mi-o-na is in tablet form and should be taken before each meal. Other remedies for stomach troubles and indigestion are taken after the meal, and decompose the good food you eat, but Mi-o-na used before eating strengthens the stomach, soothes and heals all irritation and inflammation, enriches the blood, and puts the stomach in such a healthy condition that it will take care of the food itself and there will be no pain and suffering.

PETER'S PENCE

United States Contributes Half Million to Pope

New York, March 27.—The Catholic Church in this country contributed last year in private contributions and "Peter's Pence" a trifle more than $500,000 to the support of the Church's expenses, and at the present rate will exceed that amount by several hundred thousand for 1905. This is the answer the American bishops give to the proposal to make Mgr. Broderick of Havana, a sort of commissioner in this country to increase the Peter's pence contributions. The announcement that the Pope has withdrawn the mission intrusted to Mgr. Broderick, therefore, was no surprise. Bishop McDonnell, of Brooklyn, and other prelates who were at Rome recently, are believed to have voiced the American sentiment against the proposed mission.

$100 REWARD $100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address, F. J. CHENEY & Co., Toledo, O.

ADVERTISE IN THE TIMES.

JAPANESE TORPEDO BOATS SINK RUSSIAN WARSHIPS?

Battleships Navarin and Sissoi Veliki, Two of Admiral Rojestvensky's Fleet, Reported to Have Been Sunk by the Japs.

St. Petersburg, March 27.—A report which cannot yet be confirmed is in circulation here this afternoon that Japanese torpedo boats have sunk the Russian battleship Navarin and the battleship Sissoi Veliky. Both of these vessels are in Admiral Rojestvensky's fleet, which sailed recently from Nossi Be, Madagascar.

The Navarin and Sissoi Veliky are of an old type. The Navarin was launched in 1891. She is 9,476 tons displacement, and has a speed of sixteen knots. She carries four 12-inch guns, besides others of smaller calibre. Her complement is 500 men. The Sissoi Veliky was launched in 1894. She has a tonnage of 8,800, and a speed of sixteen knots. Her crew consists of 580 men.

London, March 26.—The Times' St. Petersburg correspondent, referring to the rumors of a naval engagement in the Indian Ocean, says that the Minister of Marine has no information on the subject. He claims to have authority for stating that when Admiral Rojestvensky left Madagascar he intended to go eastward.

Paris, March 27.—A St. Petersburg despatch to the Echo de Paris says that Admiral Nebogatoff's squadron will join Rojestvensky early in April, after which the combined Russian naval force will make for the far east.

Port Said, March 27.—Admiral Nebogatoff's division of the Russian second Pacific squadron, consisting of a battleship, four cruisers, and four transports, arrived here to-day. The vessels are not coaling, and are only taking moderate supplies on board. The transports are heavily laden with stores. The division, which is said to be bound for Jibutil and Vladivostock, will probably proceed to-day.

Chief of Police, G.I. Read.
Magistrate, D.W. Dumble

Saturday was a dead one in police circles. Not 0part, nothing doing.

As a sample that Peterborough excels in everything, even her jail boarders must be of superior quality; a farmer was in the station Saturday afternoon, enquiring when he could get a released prisoner from the jail as he wanted a helper on his farm. It might be well to add that the farmer is a well known resident of a near-by concession, and a man of the highest probity.

About ten o'clock on Saturday, a row broke out at the residence of Mr. Crowder, corner of George and Sherbrooke streets. It appears that a dispute arose between Crowder, and Gauthier, the well-known wrestler, who boards with the former and his wife, which is best, and in fewest words described by the well-known French explanation of all troubles, "Cherchez la femme;" Gauthier came to lay information at the Police Station in a condition and state that would suggest his having monkeyed with a buzz saw or taken a quick transit through a threshing machine. An officer immediately repaired to the scene of the conflict, but by time of his arrival the decks had been swabbed and all evidence, barring Gautier's battered state, done away with. Warrants will likely be served in time Monday morning to have the case sifted by his Worship in the Police Court.

ATHLETIC WORLD

BY OUR SPORTING EDITOR

There will be a meeting of the T. A. S. Baseball Club to-night.

• • • •

The annual meeting of the Midland Football League was held on Saturday afternoon in the Y.M.C.A. There were present Dr. J. A. Morgan, Peterborough, President; M. J. Hutchinson, Secretary-Treasurer; A. Noble, Vice-President; Dr. Devitt, Bowmanville; J. E. Sullivan, and C. Fitzgerald, Peterborough, Quakers; M. Joplin, of Bridgenorth, and J. Pearce, of Norwood.

Reports were presented by the President and other officers. In his report, the President thanked the league officers for the hearty support they have given him, and said that there was every prospect for a successful coming season. He referred to the handsome cup presented by Hon. J. R. Stratton, and described the manner it was won. He suggested that a junior series be introduced to encourage beginners. The officers elected for the coming season were;

Hon. President—Dr. Morgan, Peterborough.

Hon. Vice-President— Dr. George Burnham, Peterborough.

Hon. Second Vice-President—W. B. Kelley, Bridgenorth.

President—Dr. Devitt, Bowmanville.

First Vice-President—J. E. Sullivan, Peterborough.

Second Vice-President — Arthur Noble, Peterborough.

Third Vice-President—M. R. Hoover, Locust Hill.

Secretary-Treasurer—M. J. Hutchinson, Peterborough.

It was decided to hold a second meeting of the League on Friday evening, April 14th.

SANTAL-MIDY

These tiny Capsules cured in 48 hours without taste, inconvenience, or sickness in which Copaiba, Cubebs or Injections fail.

HEROIC MOTHERS

Saved Lives of Their Children at Chicago Fire

Chicago, March 27.—Two mothers proved themselves heroines in saving the lives of their children in a fire which swept the Greenwood flats at Lake avenue and Forty-third street early to-day. Many other acts of courage marked the blaze which drove six families from their homes after spreading a panic among the occupants of fifty apartments who rushed to the street in fear that the fire would get beyond the control of the firemen and destroy the whole block. The fire gained great headway before the arrival of the fire department, and for a time threatened to spread to great proportions.

RESULTS OF THE STRIKE

Big Profits Will Accrue to the Railway Company

New York, March 27.—Some one has figured it out that the Interborough Company will make money out of the recent strike. The cost of the strike on the road will be borne by the strikers themselves. Each striker that comes back to work does so a new man, and is put to work at the lowest rate on the sliding scale of wages, no matter what pay he may have been getting when the strike was declared. Motormen, for instance, who, after a year's service, were paid $3.50 a day, are taken back at $3 a day, the wage at which they started. There are about 900 motormen employed by the company, and of these about 600 have been at work long enough to get the $3.50 rate. They now go back to work at $3, and the company will therefore save $300 a day, without counting the saving on motormen who received $3.25. It will be six months before these men are advanced to the $3.25 rate, and, in that time, for the motormen alone, the company will save at least $65,000.

A DRAMATIC SCENE

Woman on Trial for Murder Freed by Judge

Chicago, March 27.—A dramatic scene occurred in Judge Kersten's court yesterday, when he freed Mrs. Jessie A. Hopkins on trial for shooting her husband on New Year's Eve. The husband of the woman had an ungovernable temper, and was insanely jealous, and had several times beat and maltreated his wife. On this occasion he made a hold rush for a revolver he had in a dressing case, but the wife secured the weapon first and in her frenzy, shot the maddened man. Judge Kersten took the case from the jury, and in freeing Mrs. Hopkins, said,—"A woman when married does not become the chattel or slave of her husband. She has the same rights that her husband has, and her husband is bound to preserve her rights to the same degree that she is bound to preserve his; and if the woman is unfortunate enough to marry a brute who considers it a recreation and a pastime to misuse her, maltreat and beat her, she has a right, if assaulted, to use force if necessary to protect herself, even to the point of killing her assailant." Before the Judge had finished his remarks a dozen women in the court room were weeping with joy.

ANDREW MISCAMPBELL PASSED AWAY SATURDAY.

Toronto, March 27.—Andrew Miscampbell passed away on Saturday at 1.30 at his late residence on Close Avenue. He was 57 years of age.

Andrew Miscampbell had been ill since the elections. He was not a candidate, but had entire control of the organization of the campaign. He worried greatly over the rush and the bulk of detail work, and it is very likely that he laid the foundation for typhoid fever, which disease ended his death.

Said "Good-Bye" to His Family

Dying of Weakness—Given Up by Doctors as an Incurable and Hopeless Wreck

FERROZONE

SAVED HIS LIFE

After reading the following letter from Mr. H. A. Thurston, of 326 Vermont street east, Indianapolis, Ind., no one will ever doubt the merit of Ferrozone:

"A year ago I took the grippe.

"I was no longer able to eat.

"My blood was thin. My cheeks were white and hollow.

"Doctor gave me all kinds of medicine, but none of them brought me strength.

"My friends said I was wasting away with some slow disease, and I bid them good-bye.

"Then I heard of the wonderful Ferrozone.

"After three days it gave me an appetite. I gained strength and became cheerful. Under Ferrozone I improved steadily. I am well today. I weigh fifteen pounds heavier than ever before, and feel like a new man.

(Signed) "H. A Thurston."

The secret of growing strong is solved by Ferrozone. It supplies actual nourishment. It braces you up quick, supplies new energy, brings back the snap and fire of youth. Try Ferrozone, 50c. per box, or six for $2.50, at all dealers in medicine, or Polson & Co., Hartford, Conn., U. S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $2 per year, strictly in advance.

UNION LABEL

PETERBOROUGH, MARCH 27 1905

TO DEAL WITH DRUNKARDS

How to deal with drunkards is a problem which is not yet solved, and no very rapid progress toward its solution seems to be made. There is pending before the Legislature of Massachusetts a measure which accords to the superintendent or chief of police or city marshal in each city the right to designate one or more officers who shall be authorized to release from custody persons arrested for drunkenness. Whoever arrests a person for drunkenness shall furnish to the officer in charge of the place of custody to which such person is committed such information in writing as may be thought necessary to determine the expediency of release. The person arrested may make a statement in writing giving his name, address, whether he has been previously arrested for drunkenness within the preceding twelve months. This statement is naturally to be made when the applicant is sober, and no release is possible until that time.

It is correctly pointed out by the committee that proposed the bill that the imprisonment of persons arrested for drunkenness is ordinarily the outcome of non-payment of fines. Such imprisonment is always for short terms, usually about ten days, but this term is quite long enough to supply the first offender with an immediate acquaintance with criminal association, to lose him his job, if he is employed, and greatly to increase his difficulty of finding other employment. It is not long enough to assert any deterrent influence upon those who are under alcoholic influence, many of whom have been imprisoned in this way fifty times or more, while as a means of collecting money it is said to combine the disadvantages of costing at least two dollars for every dollar collected, and of taking the money collected ordinarily from the wrong people, namely the wife and family of the person arrested.

A GOOD JAPANESE ARGUMENT

The Japanese know how to argue as well as fight. Baron Suyematsu, in an article in the Parisian Review, ridicules the notion that Japanese expansion can in any way be a menace to French Cochin China. He argues that Japanese interest in the Korean peninsula and Manchuria is one thing, and in Cochin China quite another. Geography, history, national security, all dictate the establishment of Japanese predominance in the former region. The case of Cochin China, Annam, and Tongking, he says, is quite different. Geographically, these countries have no strategic value for Japan; historically, there has been no community of thought or feeling between Japan and Cochin China, and commercially, the relations between the two countries have assumed serious importance only quite recently. Speaking generally, France is a good client of Japan. Japanese silk is a considerable item in French imports, and to maintain and develop this trade the two countries should be friends. Japan appreciates, furthermore, the value of French sympathy; and even if all these considerations did not suffice to induce her to wish to remain on good terms with France there is one conclusive argument, namely, the unpractical and futile character of enterprises hostile to France in Cochin China. He goes on to say that the tone of much French criticism of Japan since the war can scarcely be attributed to a sentiment of loyalty to Russia. Many Frenchmen, he says, seem to forget the interests of their own country in "insulting" Japan. To raise the spectre of the "yellow peril" is unworthy of a civilised people with whom Japan desires only peace.

LIFE IN THE SPRINGTIME

A writer in an eastern paper has taken up the subject, "Is life worth living?" Is it? What a foolish question! The birds aroused you this morning. They were twittering under your window, perhaps laying plans for the summer, and discussing the little home, that is to be, far up in the branches of some great tree.

When you had rubbed the sleep out of your eyes you left the house that had been almost a prison through dreary winter months and went into the park.

The great change is coming. Buds are swelling and the lilacs can hardly wait for the warm breezes, the soft rain and the golden sunshine that is to transform them into masses of fragrance. The air feels good. It is clean and wholesome. You fill your lungs with it and for the moment age falls from your shoulders, and you want to shout and run.

Through the dead leaves the green grass is rising. The patches that have felt the sun are already emerald carpets. The soil is full of moisture and the brook, that was ice-bound a few days ago, purls and trills and trickles and makes music as sweet as the laughter of a child.

There's a bluebird and a robin—yes, dozens of them. Where did they come from? How did they know that the door had been thrown open and that Old Mother Nature was bidding them a smiling welcome?

Who knows? Who cares? It is enough that they are here and that their chirps and twitterings are signs that the deadhand of Winter has been removed and that this beautiful world is again to blossom and make happy the soul of mankind.

TERRITORIAL POPULATION

On account of the Separate School discussion, statistics as to the religious denominations in the North-West will be interesting. The London Free Press states that the last general census furnishes no accurate clew to the general sectarian divisions, the population having nearly quadrupled since it was taken. The population of the Territories in 1901 was 160,800. It is assumed now to be 500,000. By the census of 1901 the people were thus religiously classified in round numbers:

Roman Catholics	30,000
Anglicans	25,000
Presbyterians	28,000
Methodists	22,000
Baptists	5,000
Mennonites	4,000
Doukhobors	9,000
Greek Church	7,000
Lutherans	12,000
Mormons	3,000
Pagans	5,000

Eight denominations are mentioned having less than 1,000 each, and over 4,000 were enumerated as of various sects and unspecified.

THE ENGINEERING MAGAZINE

In The Engineering Magazine for April, the leading article, by Dr. Louis Bell, deals very strikingly with the "Economic Effects of Electric-Power Distribution." By the widened range of profitable manufacturing location which it gives, and by its stimulation of semi-rural industrial communities near to small water-powers, Dr. Bell believes electric distribution of power and light is destined to check—possibly to arrest—the decadent tendency of over-centralization of manufactures and over-concentration of population in cities.

Mr. A. W. Robinson has a most instructive review of the methods used in construction of the great ship canals so far built, and their costs—the matter being presented for comparison with the work to be done at Panama. A second paper by the same author, announced to follow next month, will discuss the types of dredging and excavating machinery available for the Isthmian Canal construction. It is a topic upon which Mr. Robinson is a leading authority, Mr. F. W. Parker, of the United States Geological Survey, gives a complete and fully illustrated account of the coal-testing plant at St. Louis, and the values found for the fuels tested. Lieut. Shultz, U. S. N., has a very finely illustrated discussion of shipyard cranes, showing many interesting examples here and abroad. Mr. R. M. Neilson finishes his study of the increase of engine efficiency by the use of superheated steam, and Mr. H. Deighton describes the cost system of an engineering works—both these papers being accompanied by many diagrams; and Dr. Lucke has a most significant summary of his investigations in the gas-turbine problem. There is, as usual, the full Review and Index of the Engineering Press.

FRANCIS L. JUDD & CO., BANKERS AND BROKERS, CLEVELAND, OHIO.

W. SAILSBURY, PETERBOROUGH, ONT.

WHAT DO YOU DO WITH THE MONEY YOU SAVE?

Are you depositing it in bank? If so what interest are you receiving? NOT MORE THAN 3 TO 3 1-2 PER CENT we daresay. AND NOW COMES THE VITAL QUESTION. What is the banker doing with your money? The money you have placed with him for safe keeping. For answer read the official bank statement given below of the 1st National Bank of ——— ———. It may be seen at our office at any time. It is as follows:

RESOURCES		LIABILITIES	
Loans and discounts	$308,890 51	CAPITAL STOCK PAID IN	$ 75,000 00
Overdrafts, secured and unsecured	306 28	Surplus fund	60,000 00
U. S. Bonds to secure circulation	20,000 00	Undivided profit, less expenses and taxes paid	2,161 43
STOCKS, SECURITIES, ETC	300,000 00	National Bank notes outstanding	20,000 00
Banking-house furniture and fixtures	13,000 00	Due to other National Banks	4,260 46
Due from National Banks (not reserve agents)	1,200 25	Due to Trust Companies and Saving Banks	64 10
Due from approved reserve agents	13,811 48	Due to approved reserve agents	7 256 71
Checks and other cash items	1,630 37	Dividends unpaid	4,764 00
Notes of other National Banks	2,150 00	Individual deposits subject to check	566 278 68
Fractional paper currency, nickels and cents	280 00	Cashiers checks outstanding	285 50
Lawful money reserve in bank, viz—Specie	$46,918 00		
Legal tender notes	11,000 00	57 918 00	
Due from U.S. Treasury, other than 5 per cent. redemption fund	1,000 00		
		$730,539 38	$730,539 38

Pay particular attention to the items printed in bold type. They tell you an interesting story. They show a capitalization of $75 000. They show that over four times the amount of the authorized capital of the bank or $350,000 has been and is now invested in stocks.

PONDER OVER THIS STATEMENT If you are a bank depositor doesn't it make you think? It should! Who reaps the benefit of these investments of YOUR MONEY! Do you get it? Not if the bank knows itself. You get your little 3 or 3 1-2 per cent and the bank gets the rest. Why cannot you

INVEST YOUR OWN MONEY

Your opportunities for ascertaining the value of your investments are just as good as that of your banker. Why do you not utilize these facilities for your own profit? You owe it to yourself and your family and to the world to invest your own INDEPENDENTLY. If you have made bad investments in the past, DON'T BE SILLY enough to let the poor check your ambition to become your own business manager. Profit by your mistakes and GET WISE.

If you desire information regarding your investments write to us. If you desire to dispose of your investment write to us. If you desire a new investment that is ABSOLUTELY SAFE and which will return large PERMANENT DIVIDENDS to you instead of your banker,

Write to us at Once. Keep Your Capital in Action.

That is the only way to make MONEY GROW. We will advise you and we will not charge an exorbitant fee for so doing. WE CAN HELP YOU AND WE WILL.

FORTUNES ARE BEING MADE IN KANSAS OIL

Here's a fortune for you. Not 10% but 100% and no risk of loss. Giant of the Oil Fields.

The Midland Oil and Gas Company

has over 160 acres of oil land and has put down 10 wells, so the land is proved up. An adjoining additional 80 was secured yesterday, making over 260 acres all in the proven belt. Just read this:

The U. S. report on the oil industry places the average daily production of Pennsylvania wells at only one-half a barrel each per day. The Midland wells are pumping

Sixty Barrels a Day Each.

The pumping plant has just been started and this is the surprising result. Nothing like it in the world. The officers and directors of this company are bank men and do not believe in debts, so the company is free from debt. They have nearly $20,000 in cash and bills receivable in the treasury and everything paid for—property, wells, pumping plant, oil tanks, well cleaning machine and everything connected with the company. Have two drilling rigs working night and day sinking wells. Have abundance of gas, which runs the drills and pumping plant, so it only costs about $5 00 a day to produce and market the oil.

The Company has about 33 per cent of its stock in the treasury as a reserve.

For a short time the Company will sell a little more of its stock at only

7½ CTS. A SHARE

Buy all you can raise money to pay for.

We could talk all day about it and not cover all the strong points. But as the company has this grand property paid for, there is only one side to it, and that is profit. Don't buy stock in a company that tells you what they will do, but buy in this company, that has proved its property, and every dollar you put in makes it better. Send for particulars or mail check to

JAMES HANCOCK & CO., Fiscal Agents, Suite 622-624 Gumbel Building, Kansas City, Mo.

Will have 100 Wells As soon as the drilling rigs can put them down.

From the Kansas City Journal, Feb. 26, 1905.

There is perhaps no people in the same amount of territory in the world who have increased in wealth so rapidly. Everybody is prosperous. Many once poor and hard working families have become immensely wealthy.

Hudge Hale, an old Frisco conductor, has become a millionaire off of oil. He got in the game early. Now he has money as well as oil and gas to burn.

Fred Hetrick, a farmer living near Chanute, had a hard time for years making both ends meet. Life was a hard proposition with him. His royalties now reach $1,000 a month and he is living on easy street.

Joe Helm, of the Kansas City brewery, took a flyer in oil leases. He first put in $400 and refused $12,000 for his investment. Later he put in a lot more money in gas and oil lands and is now figuring high.

George Z. Work, the Chicago clothier, took some acres of land near Chanute for a debt a customer owed him. Work's partner refused to stand for the deal, so Work kept the land himself. He has since refused $30,000 for his holdings.

These are a few samples. Hundreds of farmers have become independently rich off their oil royalties, and hundreds of other men have made big money producing oil.

This Kansas oil bearing sand is like the Pennsylvania sand; wells will produce oil for fifty years.

Can give bank references, and dozens from people who have personally examined this great property.

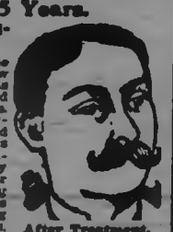
BLOOD DISEASES CURED

Drs. K. & K. Established 25 Years.

Before Treatment.



After Treatment.

NO NAMES USED WITHOUT WRITTEN CONSENT.

He was surprised at how the sores healed—"I took your New Method Treatment for a serious blood disease with which I had been afflicted for twelve years. I had consulted a score of physicians, taken all kinds of blood medicine, visited Hot Springs and other mineral water resorts, but only got temporary relief. They would help me for a time, but after discontinuing the medicines the symptoms would break out again—running sores, blotches, rheumatic pains, looseness of the hair, swellings of the glands, palms of the hands scaling, itchiness of the skin, dyspepsia, stomach [illegible] I grew despondent, when a friend advised me to consult you, as you had cured him of a similar disease 7 years ago. I had no hope, but took his advice. In three weeks' time the sores commenced to heal up and I became encouraged. I continued the New Method Treatment for four months and at the end of that time every symptom had disappeared. I was cured 7 years ago and no signs of any disease since. My boy, three years old, is sound and healthy. I certainly can recommend your treatment with all my heart. You can refer any person to me privately, but you can use this testimonial as you wish." W. H. S.

DRS. KENNEDY & KERGAN

Cor. Michigan Ave. and Shelby St., Detroit, Mich.

TO CANADIAN INVESTORS

Oregon-Idaho Gold Mining Co.

INCORPORATED

Capital $5,000,000. Shares $1.00 Each, Par Value, Fully Paid Up and Non-Assessable.

We have just secured the agency for the above splendid proposition, of which we have been allotted a block of Treasury stock. We can confidently recommend this as a safe and, we believe, exceedingly profitable investment. Every dollar of stock is guaranteed by twenty year, full paid, gold bond, delivered to purchaser of stock, from an Investment Company that has no interest whatever in the company, but who are disposing of the debentured bonds to the public, and, under their charter, they are compelled to deposit securities to an equal amount, to the State Treasurer under which they received their charter, there by doubly securing the payment of their gold bonds.

The Company's property, which is now past the project stage, is known to be marvellously rich in gold.

Following is the opinion of G. W. Miller, Mining Engineer, formerly with the Boston and Montana Consolidated Copper and Silver Mining Company, U. S.; Simmer and Jack Mining Co., Limited, Klandsfountain South Africa:—

"You have here a most valuable property and one of the strongest fissure veins that can be found in any part of the world.

"With the present development of the Monument Mine, I estimate that 100 tons per day can be extracted, which will mill from $15.00 to $30.00 per ton. The total cost of mining the ore, delivering and milling, I place at about $4.00 per ton. With increased milling capacity, it is safe to say that the mine can furnish 100 tons of $15.00 ore, which would yield a clear profit of $11.00 per ton, or $1,100.00 per day (equal to $400,000.00 per annum). Estimated total value of ore in sight, $2,500,000."

During the past summer, a party of the Company Directors visited the property, taking with them, Amos P. Brown, Ph.D., Mining Engineer and Professor of Geology and Mineralogy at the University of Pennsylvania. Dr. Brown writes as follows:—

"In regards to the amount of ore available at the mines at Standser, I saw on the dumps several thousand tons, probably 5000 tons would be an under-estimate.

"As to the size of the ore body itself, from what I saw of the geological strue ure, I think that there is every indication that it will be found to extend underground as far as the out-croppings on the south side of the gulch. This would mean an ore body large enough to keep the present mill running for many years to come.

A write up of the proposition will appear in these columns in a few days. Watch for it. In the meantime we will be pleased to furnish all information to investors.

THOS. PATTERSON & CO.,
FISCAL AGENTS. PETERBOROUGH

IT HAS PAID OTHERS TO READ THIS

IT MAY PAY YOU

A HIGH GRADE INDUSTRIAL AND MINING INVESTMENT

We have thoroughly investigated it and found it to be right in every respect. Did you ever have a chance to invest in a straight legitimate money making proposition? If not,

THIS IS YOUR OPPORTUNITY

We own a monopoly of the water right privileges in the Thunder Mountain mining district, State of Idaho, U.S.A.; seven water rights in all; one developed and in use. The property of the Company consists of over 1400 acres, with plenty of timber for building and mining purposes, a saw mill fully equipped and in operation, a 10-stamp mill now on its way from the B. R. Station to the property, and 40 additional stamps to be purchased at once and installed during the coming summer. This is the largest and most favorably situated property in the district. Some of the tunnels have been driven over 400 ft., cross-cutting many dikes, demonstrating that we have an inexhaustible body of ore. The ore bodies are sampled by an assayer every 10 ft., and assays run from 40c. to $800 per ton. The ore is free milling, and can be mined and milled for about $1.00 per ton.

This Company has had a phenomenal growth, and "The Thunder Mountain Prospector," published at Roosevelt, Idaho, where the property is located, states that this Company is three times as large as any other Company operating in the district. 30 men at work on the property. Over $60,000 worth of stock sold within the last 90 days. Only 100,000 shares more to be sold at 50c per share. You cannot afford to miss this opportunity; investigate at once.

A DANGEROUS LAW

An Amendment to the Divorce Laws in New York State

Albany, N.Y. March 25.—Much adverse comment is being made by lawyers and clergymen over an amendment to the divorce laws of the State which has been adopted by the legislature at Albany. The amendment provides that suits for divorce may be begun in the State of New York by any non-resident, if the offense complained of occurred in the State. The defendant must be a resident of the State, but this stipulation carries no weight with it, as any person who has lived here a [illegible] claim residence, [illegible]

Under the amendment, John Smith, of Saginaw, and his wife, conspiring to have the law separate them, might come to New York, live here a few weeks, and then the wife could bring a suit. She could claim residence here, and could name her husband as a resident. It would then be a matter of only a few months at the most to get a decree. It is declared that the amendment is dangerous in every respect, as it would form in this city a rival to the divorce colony in Dakota. Governor Higgins will be petitioned not to sign the amendment.

TO CANADIAN INVESTORS

Thomas Patterson & Co. Have a Fine Copper Proposition.

Fifty dollars invested in Granite Mountain Mining Company's stock paid the purchaser $34,500, besides several thousand dollars in dividends. One hundred dollars invested in Boston and Montana Mining stock paid the purchaser $44,000, besides several thousand dollars in dividends. A few dollars invested in shares of the Butte Copper Mining & Smelting Company stock, will not only insure you big returns in dividends, but a handsome profit in an increased value of the stock. Our mine is not a prospect but a copper mine which has produced $160,000 in profits in the last three years.

For the purpose of buying adjoining ground we have placed on the market 50,000 shares of our treasury stock. This stock is fully paid and non-assessable. Par value $1.00 per share. We will sell any part or all of this lot at 60 cents a share; no certificate issued for less than 100 shares. Send us your order for what stock you want and we will reserve it for you, pending your investigation of our company; and when you have received our prospectus and satisfied yourself that the investment is a good one, you can send us the money and we will issue the stock, or have the stock sent through any bank you may designate. References: Any Bank or Mercantile House in Butte, Montana. Write us for particulars. Butte Copper Mining & Smelting Co., Butte, Montana, or to Thos. Patterson & Co., Fiscal their foregathers."

IN A TRANCE FOR 15 DAYS

Mysterious Death Puzzles Philadelphia Doctor

New York, March 17.—One of the most remarkable cases in the experience of the doctors of the Presbyterian Hospital in this city ended today in the death of Miss Luella Huestis, of Mount Vernon, who, with her mother, Mrs. James H. Huestis, had been in a trance for fifteen days prior to her death.

More than two weeks ago both of the women were found unconscious in the house of Henry W. Helter, a lawyer of this city, who was acting as their counsel, and on whom they had called for legal advice. They are supposed to have been asphyxiated by gas. Neither had since recovered consciousness, and physicians and hypnotists were puzzled by their unaccountable coma.

Miss Huestis was an attractive young woman, 25 years old. Lack of nourishment was the cause of her death, as it had been impossible to give her food, except in liquid form and through a tube. When she began to show signs of losing vitality stimulants and oxygen were administered, but she died with very slight change in her appearance.

A singular fact is that the young woman's mother who lay in an adjoining room, began to show signs of the oppressive cough, soon after the death of her daughter. Like her daughter, the mother also is greatly emaciated, and the physicians at the hospital say her low vitality is due practically to starvation. Until yesterday it had been expected that both women would eventually be aroused from their coma.

Superintendent Fisher, of the Presbyterian Hospital, said today that it was the most remarkable case he had treated. "We are at a loss to account for it," he said. "The cases have attracted the attention of men of science all over the country, but no theory that has been advanced has been of any service to us."

One specialist in hypnotism and psychology, who investigated the case, had made public his conclusion that the two women had unconsciously hypnotised each other, and that gas asphyxiation had nothing to do with the case.

Mr. Oscar Dumble Goes to Tweed

His many friends, whilst pleased to hear of his promotion, will regret to hear that Mr. Oscar Dumble of the Ontario Bank local staff, has been removed to Tweed. Mr. Dumble is a son of our popular Police Magistrate, and has been for some years in the Ontario Bank here. He will combine the duties of accountant and teller in the Tweed branch. He has been connected with the local lacrosse clubs and took a leading part in boating circles at Chemong Park, Stony Lake and Peterborough. He was also a member of the C.D.A., one of Peterborough's most popular bachelor clubs, and a delegation from that club met at the station to bid him farewell. He was the recipient of a handsome umbrella from the members of the club, all of whom joined with his numerous other friends in wishing him success in his new post of duty.

WHAT WIRELESS IS — WHY IT WORKS

(This is the first of four chapters which will give a very simple description of wireless telegraphy and one which should be read by everyone so that they may be intelligently acquainted with this latest and greatest development of science.)

CHAPTER I.

Over a century ago Newton explained to the world that all unsupported bodies fall to the ground because of a certain force when he then called, and which has since been known as, "the force of gravity." He did not really discover anything new, for the force of gravity has been exercising its influence since the creation of the world. You and I could not walk and the great buildings of a city could not be erected if the force of gravity did not exist and exercise that strong and constant pull keeping everything, so to speak, drawn toward the earth and its center.

Before Professor Newton gave this peculiar force a name and gave a clear explanation of what and why it was, people thought that things fell to the earth because they were heavy, but they did not know that it was this peculiar force pulling them toward the earth which gave them that quality which we call weight.

Wireless telegraphy is just as simple as the action of gravity, for it depends upon things which Nature has provided for the world and which have also been in existence since the world was created. It is surprising that its discovery was so long delayed. As Newton gave a correct explanation of gravity, so Las Marconi harnessed Nature and made himself familiar with one of its possessions and one which is always about us. Nature has charged the air with this electricity because it is needed to keep people, and plants, and every growing thing, alive. Wireless telegraphy simply requires the harnessing of that electricity, just as a river is controlled to make a water wheel turn and supply the power for a mill. The electricity in the air is constantly in motion, but not in any regular direction. It is more like the waves of the sea, which are sometimes high and sometimes low, but always in motion. Wireless telegraphy compels that electricity to travel in a certain way and with even and regular force.

You have thrown a stone into a pond of water, and seen the little circles of waves which start from the point where the stone struck and go on and on toward the shore in constantly increasing size until they disappear. If it is a small stone which you throw, the waves will be small, while if it is a large stone which you throw, the waves will be of considerable size. The instrument which sends the message, and which will be described in a later chapter, sends forth a strong or a weak current of electricity. That added electricity in the air acts as does the stone. The electricity in the air is set in motion as are the waves in the pond and it is given a definite direction. In circles of constantly increasing size, the electric waves start from the sending station and travel on indefinitely. The station which receives the messages is like the shore and it intercepts those waves as they come to it.

Chapter 2 will appear in this paper next week and will describe the instruments which send these messages out and those which receive them, and will tell more about the way in which this unseen force of Nature can now be controlled.

MARCONI SAILS TO-DAY

William Marconi, the great wireless inventor, sails from Liverpool this afternoon on the Cunard steamship Campania, for New York and is due to arrive at that port on Saturday next.

The annual report of Marconi's Wireless Telegraph Company, Limited, of England, says: "As a result of Mr. Marconi's experiments, the company is now in possession of all the data necessary for the equipment of stations for good commercial working between England and the continent of America, and a new station embodying the latest improvements equipped on a commercial scale is already nearly completed in Canada."

The station referred to is the one at

=GLACE BAY, NOVA SCOTIA=

which is one of the stations owned by the Canadian Company, and is for the purpose of installing the perfected high power apparatus in that station that Mr. Marconi is making his present trip to this side of the Atlantic.

This is but one of the important developments of the immediate future which will enhance the value of the stock of

The Marconi Wireless Telegraph Company OF CANADA, Ltd.

and which make it an investment worthy of most careful investigation by people who wish to make a conservative use of their investment funds.

With the newly perfected apparatus for the fast transmission of messages, a single transatlantic station with one pair of instruments will earn

$1,120,000 PER ANNUM

It is safe to presume that the number of stations and instruments will be increased as fast as business warrants such a step. Such a tremendous return on the capital invested was never enjoyed by any previous enterprise in the history of the world's great inventions. Is it reasonable to presume that the selling price of the stock will long continue at $5.00 per share under such conditions?

Any desired particulars may be obtained by application at any one of our offices.

Take Advantage of This Golden Opportunity To Make Yourself INDEPENDENTLY WEALTHY

by simply making yourself acquainted with the facts as to what this great Company has done already, is doing now and its prospects for the future. Don't neglect the chance!

ADVERTISE IN THE TIMES.

STORY OF THE

BOSTON AND TEXAS OIL PROPERTY

CONTINUED

Chapter 3-How the First Company was Formed

Sam Crowther started up north in search of some one who would listen to his story, and having listened, would believe that which he had told, and having believed, would help him organize a company to take over this property and work it. One of his greatest trials was the unbelief that was shown by most, when his tale had been told. Lack of trust hurts an honest man, when a rogue is unaffected thereby. Yet it was hardly to be wondered that people doubted when the wonderful things on the property were rehearsed. These things, which only needed money and energy to bring to the surface. He at last came upon C. F. King, a newspaper man, who saw a great opportunity to make wealth and fame. The company was formed, being called after the discoverer, and the first president, viz.: The King Crowther Corporation, coming into existence the fall of 1901. They got quite a number of good men associated with them, but as is usually the case where all the directors, or nearly all, have never paid for their stock, the interest is not taken in the same way as it would have been if all had paid hard cash for their stock. This directorate held as their share some 2,000,000 shares for which they never paid more than $40,000. This is as near the amount as I have been able to learn. Mr. King was to look after the financial part, while Mr. Crowther was to look after the development in the field. Offices were opened in several large towns and an expensive advertising regime inaugurated, there being expended in this line over $125 000 in two years, to say nothing of salaries, office rents, etc. The president did the running of the company, the board being mostly busy men, were unable to give proper time. So it naturally became a one man concern. We, of the reorganized company, who form the Boston & Texas Corporation, have profited by the mistakes of our predecessors, both in the field and out of it. Their energy was expended in sinking test wells, which would have been alright if millions had been at their back in order to carry out the big programme which comprised amongst other things: A railway from San Antonio to Crowther, a distance of 63 miles; pipe line to the gulf of Mexico, over 60 miles; town site, waterworks, gas plant, potteries, etc. All these were to be gone ahead with at once—an impossibility. These things are developing and will continue to do so, one by one. But oil and oil only should have been the burden of their work, in order to show to the world that they had it The rest would have followed in due course. After a peculiar career of nearly two years, trouble was seen to be brewing. The sky, which had been clear, bore unmistakable signs of a storm, which was likely to break at any moment and possibly wreck everything. The danger which was looming up was the Texas Government, which seeks to guard those who invest money within its borders. The president, Mr. King, was warned against the advertising which was being done, which was considered to be very extravagant and bordering on deception. This thing continued all the summer of 1903, finally being dissolved by Judge Brooks in the fall of 1903 and passing into receivers hands. The story of the reorganization will appear in to-morrow's paper.

Lung, Throat and Catarrhal Troubles

Cold in the Head Cured Quickly if You Breathe Fragrant, Healing

Catarrhozone

The ordinary method of treating catarrh by the stomach is a very indirect way and, as experience has demonstrated, a very useless method to employ.

Fragrant, healing Catarrhozone, is breathed, the air, laden with minute particles of this healing balsamic liquid, spreads itself over the whole area of inflammation.

It reaches the very root of disease instantly destroying by its antiseptic properties the germ life which excites, and maintains the disease. Its soothing and healing action is at once apparent to the whole diseased surfaces. It cures quickly and it cures permanently.

We affirm that no proprietory medicine has ever brought forth from the people as many voluntary testimonials as Catarrhozone has received.

MRS. M. J. WHITNEY, Clay Street, Topica, Kan., was cured of nasal catarrh, and say, "I owe Catarrhozone an immense debt of gratitude. It cured me of the most disagreeable catarrh after many doctors had pronounced my case incurable. I do not cough any more, my breath is sweet, and my respiration regular since using Catarrhozone."

MRS. JAMES TWEEDIE, of Jay Bridge, says; "For years my daughter doctored for catarrh. She had dropping in the throat, hawking, sneezes, and could not sleep at night. The first days use of Catarrhozone benefitted and it cured so the catarrh never returned."

MR. R. SHELDON, of Leamington, Ont., says; "For two years I unsuccessfully sought a remedy to cure my case of catarrh but permanent results were not attained until Catarrhozone was used. It cured my little boy like magic and he has been quite free from catarrh ever since."

REV. D. R. SMITH, of Whitehead, N.S., says; "Catarrhozone permanently cured me of chronic catarrh of the nose and throat from which I suffered for many years, I heartily recommend Catarrhozone."

MR. R. McCALLUM, of Spring Brook, Ont., says; "A sample of Catarrhozone benefited me more than years of treatment with doctors, and by using the dollar outfit I was completely cured in a few weeks. I recommend Catarrhozone as the most satisfactory cure for catarrh on the market. Every word said for it is true."

MR. S. T. WRIGHT of Steads Mills Ont., says; "I had a bad attack of sore throat, with inflamed tonsils and sore chest. I inhaled Catarrhozone and it cured my trouble. I greatly admire its pleasant and soothing effect."

MR. JAMES FERGUSON, of Perth Ont., writes:—"I have used Catarrhozone for sore throat and cold in the head and find it a good remedy. I highly recommend it."

MISS CLARA E. COLBY, of Lobo, Ont., writes:—"I had a continuous cold in the head for years, and never used anything giving such

Peterboro' Business College

larger this year than ever

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 90 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our Correspondence courses.

W. H. PRINGLE

St. John's Church Notes

A meeting of the Building Committee of St. John's church rectory, will meet in the vestry after evening service on Wednesday is over, to consider the question of location for the proposed rectory.

Rev. A. J. Fidler, of Colborne, will deliver the next Lenten address on Wednesday night. Yesterday was the end of St. John's church year.

Saturday's Market

At Saturday's market, owing to the almost impassable roads, demand far exceeded supply in butter, and other country produce. It would have turned the hair of our forefathers in Peterborough white, had they ever been asked Saturday's prices for butter; 35 cents a pound being frequently asked and paid. Poultry was very scarce, and the few samples brought, poor in quality, and high in price. Even beef, that of late has been plentiful, was scarce, the price ranged from 5 to 6 cents, pork went as usual at 8 and 9 cents, eggs 20 to 22c per dozen, veal weight $6 to $6.25 per cwt.; lamb 8 to 9 cents per lb.; mutton 6 to 7 cents per lb. and potatoes 85 to 90 cents per lb. Eggs were plentiful at 18c. and 19c per doz.

Turf Club Grounds for Base Ball

At the meeting of the Executive of the Peterborough Baseball Club held in the Oriental, it was decided to play the games scheduled for the coming season on the Exhibition grounds, and a committee was appointed to see the Turf Club officers with a view to making final arrangements As a first way of securing funds a concert will be held the latter part of April, and a committee was selected to make arrangements for the same. The artists will be Mr. Bert Harvey, of Toronto, entertainer, and the Harmony Quartette. Arrangements were also entered into and a committee appointed, for obtaining proper uniforms. The prospects for a successful season are particularly bright, their being good material to pick from, there being choice for pitcher between three good men. Peterborough will doubtless head the Midland League. Those present at the meeting were; Messrs. T. Glover, secretary; M. J. Hutchinson, treasurer; Robt. McEwen, manager, and C. J. Ollie and M. Conlon, of the Board of Directors.

Cheatem Breaks Record on the Flat

Saturday afternoon Mr. Gross's fast steeple-chaser Cheatem, more frequently called "Pat. Clunan's Cheatem," made time that, had a stop watch been possibly called on to verify it, would have beaten any of his old records out of sight. Cheatem, attached to a buggy, in some way loosened the strap of the halter which tied him before a house in the north end of the town, and as he sauntered along, visions of old time victories must have flashed through his mind, for his speed along Water street, increased rapidly. Just as he passed Victoria Park, his pace would have thrown dust into the eyes of any one riding an electric flash; all he and the buggy passed the Post office, several ladies had to move out of the way in such time as must have made the buttons fly. The old racer cut across the market square, and down Charlotte street he flew, until the G.T.R. tracks were crossed. Here racer and buggy parted company, the latter being considerably the worse of such record speeding. The latest bulletins from the west say that Cheatem was captured on Park St.

Local Incidents

BY THE TIMES MAN ON THE STREET.

—The Charity Board will meet tonight.

—Yesterday the Feast of the Annunciation was observed in St. Peter's Cathedral.

—Special services will be held in St. Andrew's church each evening of this week.

—The annual meeting of the Midland Baseball League will be held in Port Hope, Good Friday.

—Saturday's Post at the Y.M.C.A. was a corker, the beautiful weather helping to bring out a large crowd.

—Mr. D. J. Cameron has been appointed instructor for the cheese districts of Lindsay and Peterborough.

—The annual roll call of the members of the Murray street Baptist church, will be held on Wednesday evening, March 29th, at 8 o'clock.

—The T.A.S. intend holding an "At Home" in their rooms on Easter Monday, which promises to excel all past efforts in the line entered into by the society.

—Captain Rolly Griffin will be captain, and Mr. Z. White, Jr., will be engineer, on the steamer Beaver, which will run below Peterborough this season.

—A meeting of the directors of the Lock Company, was held Saturday afternoon to discuss plans and site for the proposed new factory building.

—Eggs are more plentiful. As they go down in price, more go down people's throats, as they go up in price they go down in the number consumed.

—The Spring Assizes will open in Peterborough on Tuesday, April 25th. Hon. Mr. Justice Anglin presiding. There will be several important civil cases come up for hearing.

Yesterday was the 85th anniversary of the birth of Fanny Crosby the noted hymn writer, who now resides at Bridgeport, Conn. Several of her hymns were sung in the churches, and the usual clergy referred to her life and work.

—Mr. Richmond, whose adv. appears in another column, has put an artistic new sign in front of his Hunter street gallery. He reports that his business, recently purchased from Mr. Green, is increasing very rapidly.

—The crowds in Messrs. Richard Hall and Son's drygoods emporium, Saturday night, was something abnormal. One lady trying to get through the crowd after a bargain had the glass of her watch squeezed to pieces.

—Robert Mills, the oldest Orangeman in the country, having first joined the order in Ireland 90 years ago, died at Acton, Ont., aged 106 years. The funeral took place Friday. A large number of Orangemen attended from outside points.

—The local dry goods men are all in good humor. Last week's openings proved successful even beyond general expectations. It is rumored that several haberdashers may rest the drygoods windows like a colt passing a buzz saw.

When you want a life-like Portrait in Oil, Crayon, or Water Color, don't fail to come to B. Hudson's Studio, where the work and prices are always rights. Gifts in Pictures, Frames and Fancy Work. Lessons in Painting and Pyrographic Work. Studio, 134 Brock street.

—The Cobourg Sentinel-Star says;—Two limbers for the new 4.7 guns for the Cobourg Garrison Battery, and two store wagons were taken from a G.T.R. car on Monday to the new Armoury. The guns will follow almost immediately. These guns have a range of 10,000 yards, and are the same as were used at Ladysmith during the South African war.

Bricks will be pretty nearly gold bricks this year. While such structures as the proposed armories, Collegiate Institute, Separate School, Lock Works, Peterborough Cereal Co.'s buildings, and All Saints' church not to mention private residences of which plans are now in the different architects' hands, it is just doubtful whether the local brickyards will be able to meet the demand.

Personal and Social

Movements of the people in and out of town . . . . .

—Mr. L. F. Clarry of Hastings, was in town Saturday.

—Mr. A. E. Lech, Montreal, is in town on a few days visit.

—Mr. W. Irwin has returned from a business trip to the Coast.

—Mr. W. Garrett, of Tweed, is visiting relatives in town.

—Miss Ruth Dawson sang in St. Andrew's yesterday at both services.

—Mr. Dickeson of the Bank of Commerce, spent Sunday in Cobourg.

—Mr. C. McGill, General Manager of the Ontario Bank, spent Sunday in town.

—Mrs. J. Buckley, of Toronto, is visiting her sister, Mrs. J. Kennedy, 816 Water street.

—Mr. T. P. Lancaster, editor and proprietor of the Havelock Standard, was in town Friday.

—Miss Irene Fee, Zion Line, who has been visiting friends in Peterborough, has returned home.

—Mr. T. B. Collins, the Millbrook banker, so well known here, is very ill. Dr. Greer has been called in consultation.

—Miss M. Grierson, head trimmer in Cressman's millinery department has been called to Toronto by the death of her sister.

—Mr. W. H. Mogridge, who has been with Mr. A. W. Cressman as salesman for some time, left to take a position in Toronto.

—Mrs. Mark Wilson and son, Vincent, are visiting her father, Mr. Ed. Williams, of the Labor Department, Ottawa.

—The Lakefield News says; —Miss Dunlop, of Peterborough, is staying in the village, the guest of Miss Traill, at "Westove."

—Dr. Davitt, of Bowmanville, was in town Saturday, attending the meeting of the Midland Football League held in the Y.M.C.A.

—Mr. William Anderson, M.P.P., and Mr. T. E. Bradburn, M.P.P., returned home Friday from the opening of the Legislature.

—Mr. Black, late of the Omemee branch of the Bank of Toronto, has been transferred to Peterborough, and is occupying the position of teller in the local bank.

—Omemee Mirror says, Mr. J. J. Lang of Peterborough, was in town on business last week. Mr. Ted Cavanagh, of Peterborough, was in town on business last week.

—The Lindsay Post says, Mr. Jas. Lisle, foreman for Mr. Alfred McDonald, lumberman, of Peterborough, was in town yesterday for a few hours. He had been visiting friends up north.

—Rev. J. J. Wright, who represents Queen's University in connection with the endowment fund and has been spending a couple of days in town, left Saturday morning for Fenelon Falls, where he preached yesterday.

—Millbrook Reporter says; Mr. and Mrs. Wm. Shaw, of Peterborough, were out here calling on their many old friends this week. We are all pleased to see them enjoying health and strength, but we are sure they are not at home among strangers.

—The many friends of Mr. Norton Chambers, formerly of town, now with Gerhard Heintzman Piano Co. Toronto, will regret to learn that he is confined to the General Hospital, having undergone a critical operation on Tuesday last.

HEREDITY

Can Be Overcome in Cases

The influence of heredity cannot, of course, be successfully disputed, but it can be minimized or entirely overcome in some cases by correct food and drink. A Connecticut lady says:

"For years while I was a coffee drinker I suffered from bilious attacks of great severity, from which I used to emerge as white as a ghost and very weak. Our family physician gave me various prescriptions for improving the digestion and stimulating the liver, which I tried faithfully but without perceptible result. He was acquainted with my family history for several generations back, and once when I visited him he said: 'If you have inherited one of those torpid livers you may always suffer more or less from its inaction. We can't dodge our inheritance you know.'

"I was not so strong a believer in heredity as he was, however, and, beginning to think for myself, I concluded to stop drinking coffee, and see what effect that would have. I feared it would be a severe trial to give it up, but when I took Postum and had it well made, it completely filled my need for a hot beverage and I grew very fond of it.

"I have used the Postum Coffee for three years, using no medicine, and the change has completely cured me. During all that time I have absolutely none of the bilious attacks that I used to suffer from, and I have been entirely free from the pain and debilitating effects that used to result from them. The change is surely very great, and I am compelled to give Postum Coffee the exclusive credit for it." Name given by Postum Co., Battle Creek, Mich.

There's a reason.

Look for the little book, "The Road to Wellville," in each pkg.

Backed up by over a third of a century of remarkable and uniform cures, a record such as no other remedy for the diseases and weaknesses peculiar to women ever attained, the proprietors and makers of Doctor Pierce's Favorite Prescription now feel fully warranted in offering to pay $500 in legal money of the United States for any case of Leucorrhea, Female Weakness, Prolapsus or Falling of Womb, which they cannot cure. All they ask is a fair and reasonable trial of their means of cure. All correspondence held sacredly confidential.

If you require medical advice don't fail to write Doctor R. V. Pierce who will give you the best advice possible. Address Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets are a ladies' laxative. No other medicine equals them for gentleness and thoroughness.

—Rev. W. J. Jolliffe, B.C.L. pastor of the Charlotte street church, accompanied by his son, R. Norman Jolliffe, will go to Philadelphia and Atlantic City, N.J., to-day. The latter will spend about three weeks at the seaside.

—Mr. Robert Campbell, of Franklyn, Man., is the guest of his brother Mr. Frank Campbell, Wescott street. The brothers have not met for 13 years and not until the visitors applied to his brother for work, as a carpenter at "five dollars a day," did the latter when sizing up a man with a view to ask such figures, recognize him. Mutual reminiscences and memories of old days soon filled the air.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead of the cultivation.

(2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

(4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses (2), (3) or (4) must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Offices in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

DID THE JAPS STEAL DISPATCHES OFF WARSHIPS?

French Fear Plans of Baltic Fleet Were Learned from Missing Documents---Investigation Has Not Resulted in Finding any Trace of the Missing Bags.

Paris, March 28.—The authorities here are seriously concerned about the mysterious disappearance of two official despatch bags containing orders to the French squadron in the Indian Ocean. The bags, which were forwarded to the captains of the French warships Infernet and Kersaint, and which are said to have contained orders relative to the movements of the Russian Second Pacific Squadron, disappeared between Port Said and Jibutil, French Somaliland. The investigations made have not resulted in finding any trace of the missing bags, and some fears are entertained that they may have reached those interested in learning the plans of the Russian Second Pacific Squadron.

NOT ARRANGING TERMS.

Paris, March 28.—The French Foreign Office renews its assurances that nothing has been undertaken here relative to peace negotiations. The Venezuelan status is unaltered, officials here taking the view that no action will be taken until the Caracas Court decides the question pending in regard to the concession of the French Cable Company.

PLEADS GUILTY TO BIGAMY

J. S. McMurray, Alias E. M. Rugby, Singing Evangelist and Organist Has Four Wives

The world is small, after all, Belleville, Ont., is not far from Los Angeles, California, in this age of telegraphs. The following despatch has been received from the Pacific State:

J. S. McMurray, alias Edgar M. Rugby, musician, lecturer, singing evangelist, erstwhile organist of the First Christain Church of Pasadena, pleaded guilty to bigamy before Judge B. N. Smith yesterday, and was sentenced to three years in the State's prison at San Quentin.

Barring a fine, this is the limit of the present law. But McMurray is fortunate that his sins did not find him out later, for the legislature has recently passed an act raising the maximum penalty for bigamy in this State to 10 years' imprisonment and a fine of $7,000.

HAS HAD ADVENTURES.

McMurray is 48 years old, and has had an adventurous career. He has traveled much and has four wives that Chief Freeman of Pasadena knows of, and the chief has good reason to believe that there are at least two other wives living and perhaps more.

The denouement came last year. McMurray was in Pasadena living under the name of Edgar M. Rugby. He was close to the half century mark, but did not show his age. He was well educated, a talented musician, had a magnificent baritone voice and was a fine conversationist as well as being a man of good appearance. In Pasadena he met Miss Loretta Campbell of 356 North Pasadena street, a pretty young woman of 25, who is well known in Pasadena church circles. Miss Campbell was employed in a millinery store and was everywhere a favorite.

MARRIED IN BELLEVILLE.

Rugby married the girl July 11, 1904. The couple lived together until Oct. 3, 1904, when Rugby disappeared. Chief Freeman was notified, and began a search of Rugby's record. He found that the real name of the former church organist was J. S. Murray, and that he was married to Sarah E. McCreary at Belleville, Ont., in 1877. There were three children by this marriage, and Mrs. McMurray and her three children are living at their old home yet.

The chief next discovered that McMurray had a wife still living at Scranton, Tex. A child was born to this marriage, and then the woman and child were deserted. Both are still living.

ANOTHER IN DES MOINES.

Tracing still further, Chief Freeman found that McMurray also had a wife at Des Moines, Ia. Then he started to find McMurray. He was finally located at Scranton, Pa., where he was arrested. At the time of his arrest, McMurray was posing in Scranton as a singing evangelist.

Chief Freeman started east for McMurray, and on the way stopped at Belleville, and interviewed the true wife of McMurray, who signified her willingness to come to California to prosecute her husband if it was necessary. Then he went on to Scranton and got his prisoner.

Once back in Pasadena, McMurray found that he was fairly caught, and decided to plead guilty, which he did yesterday.

When asked whether he had anything to say, McMurray began glibly:

"I came to this coast to start life anew. I hadn't lived with my first wife for 23 years, but I hadn't her money and bought her a piano. I wanted to begin again."

Canada's Public Schools may not be all that Sir Wilfrid Laurier could desire, but they have certainly a race of freemen who should know a gold brick when they see one.

INTERCOLONIAL RAILROAD

Up-to-date Sporting Folders Just to Hand

This journal was yesterday in receipt of some handsomely illustrated and interesting folders issued by the Intercolonial Railway of Canada. These folders, whilst of course issued for advertising purposes are a beautiful specimen of the de luxe printers' art. The folders are devoted to matters of interest to those who care for "Salmon Fishing," "Moose on the Miramichi," "Hunting and Fishing," and "A Week in the Canadian Woods," there is also one containing time tables of Canada's famous train, The Maritime express, with full and exceptional instructions for those travelling by this train, with a condensed account of the beautiful country and towns the road traverses. The folders are quite worthy a place in any one's house, being artistic and useful to anyone contemplating a visit to Eastern Canada.

BOOZE AND BRIDGES

Architectural Structure That Does Not Rival the Firth Bridge

The Campbellford Herald, says; A piece of timber has been laid along the planks of the bridge at Trent Bridge the entire length, at both sides, and also a guard rail of two-inch plank to cover the opening between the iron rods, which was large enough to allow a team of horses to jump through into the river. The bridge was built by the Counties Council a number of years ago, at an enormous expense, and only lately was it noticed that a guard rail was necessary. At the time of its erection the county councillors went out in a swarm to inspect it, there was a big "booze," and the swelled heads imagined they saw one of the finest bridges in the Province. The truth is, however, the bridge is a plain structure of the lightest character, scarcely wide enough to allow two teams to pass each other, and would, not cost today much more than one-half what it did at the time of its construction.

—Among the thousands of visitors to the opening of the lift lock some months ago, was Mr. Ambrose P. Hinds of Barrie, a member of the Ottawa Citizen staff. This gentleman died in hospital in Ottawa on Saturday last of pneumonia.

Royal Baking Powder

45 CENTS a pound can AT ALL GROCERS

25 cents a half pound can

Royal Baking Powder is made from pure grape cream of tartar, and is absolutely pure.

Royal Baking Powder assures wholesome food; it makes the best biscuits, cakes and all hot-breads; it protects the family from the danger of alum and other injurious substitutes.

Royal Baking Powder saves time, saves butter, flour and eggs; saves health.

GOOD GIVERS

Charlotte Street Methodist Church Raise $2,000 for Sunday School

One thing, and it is a most desireable trait, that characterizes members of the Methodist church in Peterborough, is an open-handedness when funds are wanted for church work or extension. As noted in a former issue of this journal, it was decided some time ago to try and raise $2,000 towards a larger Sunday school, the old one being over-populated by a rapidly growing membership.

A week ago last Sunday the Sunday school scholars were given blank forms to take home to their parents who were asked to signify on them what amount they would contribute to the fund in three equal amounts for three years, to provide for the improvements needed and last Sunday these were returned filled in, and when the amounts indicated had been totalled up it was found they reached the tidy sum of $2,000, and this in the face of a small attendance, owing to weather conditions. This most encouraging start points towards a rapid consummation of the church officials' desires.

A PROMOTION.

Mr. J. C. Reading of the Union Life Assurance Company Moved to Oshawa

Though pleased to hear of his promotion to a higher grade in his company's service, the many friends of Mr. J. C. Reading, 25 Louis street, will regret to hear that he has been transferred by his company, the Union Life Assurance Company, to Oshawa. Mr. Reading has only been agent for this company here for six months, and has now been promoted to the position of District Manager, with headquarters at Oshawa, Ont. The record made by this popular young man is one that is seldom surpassed by men who have been in the assurance business for many years. The fact that the company recognized the ability of Mr. Reading in such a substantial manner, is a source of much gratification to his many friends. He has the honor of being one of the youngest District Managers in the company's employ, and practically holds the record for rapid promotion among the many representatives of this company. He entered on his new duties yesterday.

LICENSES FOR 1905

How Many Licenses Shall There Be for the Coming Year?

Now that two new commissioners have been appointed there is some talk current about town in reference to one or two hotels which have backers or friends among the councillors being desirable as applicants of a renewal of this privilege. In a conversation with several leading citizens yesterday, the subject was discussed, and it was maintained by a speaker that the town was entitled to grant so many licenses by law.

"By-law, or no by-law," said a leading citizen to the Times, "you'll find the new Commissioners doing their duty. If they find two hotels and any number of hotels undesirable for this community, no licenses will be issued to them. After all is said and done, the whole thing rests with the Licensing Board. The Council can say how many licenses shall be issued, but the Commissioners determine what sort of houses shall get them. We have an able, intelligent, conscientious License Board, so we need not fear that a Peterborough hotel which is not as it should be will be granted a renewal of license."

This interpretation of the law is correct, and it would be well for the new Commissioners to look thoroughly into the antecedents of all those hotel men applying for a renewal. In case of persistent violation of the law, and when loafing in front of their places is encouraged or permitted, a heavy foot should be put down on such places.

A POPULAR EMPLOYEE

Mr. A. H. Goodwin, of the C. G. E. Co Presented with Purse of Gold

Mr. Alf. H. Goodwin, who has been an employee of the Canadian General Electric Works for nine years, was very popular with his fellow-employees, and an evidence of that popularity is furnished by the fact that on Saturday he was presented with a purse of $50 in gold, accompanied by the following address which was read by Mr. James O'Brien, while Mr. David Peoples made the presentation.

Peterborough, March 25.

Mr. Alf. H. Goodwin,

Dear Friend,—The current rumor that has been going the rounds of the shop the last few days, that we were about to lose you, as our popular assistant foreman, has caused much regret. And now that we find the news is true, and that you are severing your connection with the C.G.E. Co., after nine years actual service, we cannot let this opportunity pass without saying a few kind words to you. Your pleasant face was always a source of encouragement to us all, and your ready wit created many a "smile that won't come off." As one of the boys you were always amongst us, and you seemed to know the prescription necessary to make a man work. And now, turning to your new sphere in life, which by all accounts, will be an arduous one, we hope you will magnetise the golden grain, and have the stand in, with the babitants of the Western plains, you had with the boys. Our parting words to you are that you have all the best and earnest wishes of your fellow workmen, and our fondest hopes will be realised when we realise that you are a multi-millionaire in the Golden West.

We ask you to accept this little gift as a token of the esteem you were held in by us, again wishing you all kinds of success.

The address was signed by Messrs. B. Watts, J. Lighthouse, Jas. O'Brien, and Ald. Geo. J. Tovey.

Mr. Goodwin, accompanied by Messrs. Henry Goodwin, and George Denson, will soon leave for High River, Alberta, to engage in ranching on land he will homestead. Mr. Goodwin was quite taken by surprise when presented with the kindly address, and substantial token of his friends regard, and after recovering control of his emotions, made a fitting response.

NO MANDATE FROM THE PEOPLE.

The Western members have no mandate from their constituents to consent to Separate School legislation, and the same is true of the people of Canada. The subject was carefully kept away from the public view. The great majority given to the Government was given to a party that had stood for Provincial rights. Apart from this, Parliament is not justified in tampering with the constitution, and laying on the West restrictions whose evil results will be felt long after this generation of politicians is forgotten. The politicians may be warranted in the belief that they can do these with impunity. They may escape the consequences of their acts, but the country will not escape them.

CZAR'S ARMY IS FACING STARVATION

Prince Ukhtomsky Declares That Peace is Imperative

SLUMP IN RUSSIAN BONDS

Newspapers Admit the War is a Failure—No General Mobilization Orders Yet

St. Petersburg, March 28.—Prince Ukhtomsky declares that peace is imperative because there is no bread for the army, all the grain accumulated at Harbin having gone to Mukden or having been transported south by Chinese.

The Russian press demands the abolition of the post of Viceroy of the Far East and of the Committee on the Far East, tacitly recognizing the loss of Manchuria and the consequent futility of the war.

The announcement that the internal loan would be issued at 99 caused a further drop in prices on the Bourse today.

YESTERDAY'S FIRE

Mr. Slingsby's Cooper Shop a Complete Wreck.

Again fire, always a dreaded enemy, seemed to take an ironical pleasure in interfering with the meal hour of the brigade. When the alarm rang out, during the dinner hour yesterday, the brigade, promptly and in good force, hustled north to try and save the cooper shop and business on Barnardo avenue, belonging to Mr. Geo. Kingdon.

The fire originated near a barrel-heater, situated near the center of the building, though the exact cause has not been ascertained, as no one was present at the time, Mr. Kingdon had just gone to dinner, and before leaving, had noticed that the heater was in proper order. Shortly after Mr. Kingdon left, Mr. Hillier, caretaker of the North Ward school, discovered the smoke and notified Mr. Kingdon. The inflammable nature of the building and its contents made the fire fierce and quick-spreading, the flames fanned by a steady breeze soon licked up everything in sight, so that notwithstanding the prompt and heroic efforts of the brigade, a prosperous and growing industry was very soon in ashes and a memory.

Mr. Kingdon has conducted the business for over 35 years, and states that it was never in a more prosperous condition than during the past season. The stock was unusually large owing to the numerous orders from outside points, which were in course of preparation. New machinery was added last fall, all of which was a complete loss, as was also a large consignment of barrels awaiting delivery yesterday afternoon.

The total loss is approximated at $4,000 with only $1,000 insurance, $500 on stock, and $500 on the building, with Messrs. Davis Thompson & Co.

FAMINE FOLLOWS WAR

Ten Millions of Russians Starving to Death

Berlin, March 28.—Professor Reussner, an authority on Russian affairs, in an interview today declared that ten million inhabitants of the Russian Empire are literally starving. Eighty per cent. of the population are unable to purchase the necessities of life, he said. Mortality from starvation is increasing by leaps and bounds. In some districts it has reached the enormous figure of 10 per cent. monthly. The peasants are living like animals, devouring hay fodder, rats and mice. The awful popular upheaval in the Empire, he declared, is not due to any political reasons, but to pure hunger.

CZAR TO TRY PEACE AND TURN ON CHINA

New Outlet to Pacific Farther South is Aim, says Walter Wellman

ROAD TO PEKING IN VIEW

May Carry out Commercial Plan Despite Losses in Korea and Manchuria

Washington, March 28. — "Russia will soon make peace with Japan and will immediately proceed to outflank the victor commercially by tapping the back door of China with a new extension of the Trans-Siberian Railway."

This prediction was made today by a man who is thoroughly familiar with the situation in the Far East, and with much that is going on behind the scenes at St. Petersburg. The suggestion which he makes is both interesting and important. The Associated Press brings from St. Petersburg confirmation of the diagnosis of the situation given a few days ago in these dispatches to the effect that the peace party is getting the upper hand there and that if the Czar had not already made overtures to Japan he is about to make them.

In the opinion of well-informed diplomats here the prospect of bringing the war to an end was never before so bright as it is at this moment. All realize that there are difficulties in the way, and that peace cannot be considered assured till the papers are signed; but there is general recognition of the important elements of the problem which have already pointed out, to wit: Japan desires peace and will make favorable terms, there is no desire to humiliate Russia; no territory now under the sovereignty of the Czar need be ceded. In lieu of indemnity the Chinese Eastern Railway may be taken over by Japan and in addition Russia is willing to pay a large sum for the maintenance of her prisoners held by Japan.

Actually the two schemes of settlement, the one outlined by Japan to the Kaiser and President Roosevelt a few weeks ago and the one which now comes from St. Petersburg as representing the opinions of the faction which favors peace and which at this moment appears to have the upper hand of the Czar, are not far apart. Once the Czar indicates a willingness to have negotiations undertaken it should not be a difficult matter to reach an accommodation as to the minor differences.

At this juncture comes the suggestion that Russia has within her grasp another method of accomplishing her purpose in the Far East. It is that instead of wrecking the Empire in a vain endeavor to hold Manchuria, Russia can turn her energies to another means of accomplishing the principal object in view. It seems written in the book of fate that Russia must lose such rights as she has hitherto possessed in Manchuria. With surrender of those rights goes the railway from Harbin to Dalny, Port Arthur and Newchwang. This railway is really the outlet stem of the great transcontinental line into which Russia poured hundreds of millions of money. It is the outlet of the railway system which reaches the sea at ports open to navigation the year round. Inasmuch as this railway must now be given up to the Japanese or at least to the control of a neutral operating commission in which the Japanese will have a large if not dominating influence, it would seem on the surface as if Russia's ambition to secure a commercial outlet in the warmer waters of the Pacific had been forever thwarted.

IT WILL REMAIN.

That time will not heal the wound made by Sir Wilfrid Laurier in the hearts of the people, is manifest. On this subject, The News says: The ill-feeling and distrust aroused by this attempt to tamper with the constitution and violate Provincial rights will remain. The confidence of the country has been shaken. The amended legislation, while not as mischievous as the old, is equally meddlesome. The Dominion Parliament is asked to legislate about details of education; to mine upon a set of regulations adopted by the local authorities four years ago, and arbitrarily fix them as the permanent laws of the new Provinces. Nothing of the kind has been attempted since confederation, and nothing of the kind was contemplated in the scheme of confederation. The Canadian Parliament framing a system of education for a Province is on a par with the British Parliament framing a tariff for Canada.

VLADIVOSTOK AND KIRN WILL BE SOON ATTACKED

A Remarkable Lull in the Operations at the Theatre of War---Both Armies are Apparently Re-organizing for Another Battle.

London, March 28.—There is a remarkable lull in the operations at the theatre of war. Both armies are apparently reorganizing, the Russians for their new stand on the Sungari River, and the Japs for their movement upon Vladivostock via Kirin. Field Marshal Oyama is reported to have notified the Chinese governor of Kirin that the Japans will enter that city on April 10. Experts expect some startling developments by Gen. Kamamura's army, which is marching north from Korea.

Tokio reports that the Japanese forces have passed the Palisades and are advancing with a wide front on both sides of the railway. The van is already 100 miles north of Mukden. The Russians have been completely driven out of all districts watered by the Liao River.

Martial law has been proclaimed at Vladivostock, where the Russians are said to have less than 30,000 men.

The Japanese army completely controls northeastern Korea, having accomplished this with practically no opposition. Japanese steamships now run regularly between Songchin and Wonsan, carrying large cargoes of general merchandise. Japanese merchants have opened offices in northern Korea under special military permits, although travel throughout the northern section is still restricted by martial law.

ROJESTVENSKY'S FLEET.

London, March 28.—A despatch to Lloyd's from Tamatave, Madagascar, says; "The Russian Squadron has sailed. Destination unknown. The correspondent of Reuter's Telegram Company at Tamatava forwarded a despatch in the same words. The only explanation seems to be that Admiral Rojestvensky's squadron did not leave the vicinity of Madagascar after it sailed from Nossi Be on March 16.

London, March 28.—In the House of Commons this afternoon, Swift MacNeill, Irish Nationalist, tried to elicit information regarding the peace negotiations. He asked Premier Balfour if he could make any statement on the subject, but as no previous notice had been given of the question, the Premier took no notice of it.

JAPANESE LOAN IS CONCLUDED

Amount is $150,000,000 Half to be Taken in This Country

New York, March 28.—A new Japanese loan of $150,000,000 at 4 1-2 per cent., half to be taken in this country, has been arranged in London, it was announced today by Kuhn, Loeb & Co. The subscription price is not made public, but Japan was given better terms than in the previous two loans. A first mortgage on the tobacco monopoly is the security. Kuhn, Loeb & Co., the National City Bank and the National Bank of Commerce will form a syndicate to handle the transaction.

THE GREATEST WIRELESS STATION ON LAND

The Italy Station Outranks That of any Other

London, March 28.—The wireless telegraph station at Pisa, Italy, already outranks any other similar telegraph station in the world. During the present summer, this plant will be so enlarged that both the transmitting and receiving departments may be equal to whatsoever demands may be placed upon them according to present anticipations. Both long and short distance Marconi apparatus will be installed, and these instruments will all be of the very latest pattern.

The Pisa station is one of the most satisfactory stations which Marconi has established in connection with his service, and it will be doubly valuable when it is completed in its enlarged form. It will be able to carry on uninterrupted communication with any vessels plying the Mediterranean, and with the land stations on the continent in Europe and in England. If, as seems probable, Sig. Marconi's new high-power apparatus equals expectations, this station will also to be able to communicate with vessels in the Indian and Atlantic Oceans, and may shortly be able to give a satisfactory service in connection with messages passing to and from the United States and Canada. The station is so admirably located that it is afforded many advantages which are not possessed by other locations, and it is because of these facts that those interested in it are so positive of its greater success in the immediate future.

It is learned that preparatory to starting on his trip to the far West, Mr. George H. Munroe, of the firm of Munro & Munroe, is having experts prepare a volume of data which will give an insight into the past history and future lines of development in connection with British Columbia, North-West Territory, Assiniboia and Manitoba. Statistics as to growth of population and land development are being searched in order that a bird's eye view of the east can be obtained and these, together with present existing conditions naturally affecting future progress, will be summarized with the object of best anticipating and planning for the future needs of the vast western sections of Canada.

With all this material in shape for ready reference, Mr. Munroe will be amply fortified for his trip. He will be able to utilize these statistics in connection with three or four vast enterprises which, in conjunction with certain Canadian capitalists, he has under consideration.

The itinerary of his present trip covers very thoroughly the entire district west of the Great Lakes, and judgment will be suspended in connection with the afore mentioned enterprise until he has returned and made his report. Not the least of his interests will be that in connection with The Marconi Wireless Telegraph Company of Canada, and he has planned to go over the Western field and keep the interests of the Western stockholders in that corporation in mind throughout his journey.

A ROYAL HOUSEHOLD.

Berlin, March 28. — The Crown Prince has taken a singular step to secure his future wife's domestic happiness in one very important particular. He has sent his chef, Herr Neumann, to Cannes, where Duchess Cecilie of Mecklenburg-Schwerin is staying, to study the cuisine prevailing in the household of her mother, the Grand Duchess of Anastasia. Herr Neumann will carefully note how the dishes are prepared, and above all he is expressly directed to study those particular dishes which are Duchess Cecilie's favorites, so that she may continue to enjoy them as Crown Princess.

Police Court

OFFICIALS

Chief of Police, G. I. Reed. Magistrate, D. W. Dumble

A crowded audience was in the court room yesterday, as Magistrate Dumble ascended the throne of justice. The first case called was that of an assault charged by Albert Crouder, as having been committed by George Gautier, the well-known wrestler. Before hearing evidence, His Worship, catching a glimpse of Gautier's face, remarked that "It looked as if the prisoner had received instead of giving the assault."

Crouder on the stand swore that there had been a "Party" at his house on Saturday night. That Gautier had come in after the festivities had started and an altercation had arisen, which resulted in Gautier striking at him. He nimbly dodged the blow, and retaliated by hitting Gautier twice with his fist. Gautier and his wife had been boarding with him, but left Saturday night. The Chief asked witness if they had not been a "comolyion" in the house. His Worship, eager for etymological information, asked the Chief how the the word was spelled; This is still buried in the archives of Irish History. Several friends of Crouder gave evidence substantiating his side of the case.

Gautier on the stand, asked his Worship to put complainant on oath to whether he, the prisoner, really had steel knuckle-dusters, as charged by Crouder in his former evidence. Gautier said he had boarded at Crouder's, but when he, Gautier, arrived at the "Party," there were a number of guests present from the shores of Sunny Italy. Mrs. Crouder wanted Gautier's wife to dance with the Italians, but Gautier sooner than allow this, demanded his boots, so that he could leave with her. A row arose, which resulted in Crouder's biting him right through the nose, and splitting his ears open. Gautier denied having any knuckle-dusters in his possession. The Magistrate dismissed the case, saying that Crouder ought to be sent up instead of Gautier.

The next case called a large number of small boys as witnesses, pro and con, when a boy named Charles Conroy answered to the charge of breaking a window in a shed back of a bank. The evidence was very conflicting in character, and after giving the boys a warning, dismissed the case.

"Blessed are the peace makers," was hardly realised in substance yesterday afternoon, when a local hotelman tried to stop a row in his bar. A dispute had arisen between some of those present, and, when a fight seemed likely, the proprietor tried to separate the parties with the usual reward in such cases. A blow, whether meant for him, or for one of the others engaged in the dispute, caught him a glancing stroke, raising some of the epidermis on his nose. Two of the disputants were arrested, and will appear before his Worship this morning.

FEARS FOR VLADIVOSTOCK

Russian Staff Believe Town in Serious Danger

London, March 28.—The St. Petersburg correspondent of The Times says he has exceptionally good authority for stating that the mobilization plans for the present are in abeyance. Generals Dragomiroff and Grodekoff within the last few days obtained corrected reports of the Russian casualties and other losses, and are able to estimate the strength of the Russian position. They believe that Gen. Linevitch is in no immediate danger, but the gravest concern is felt for Vladivostok.

The official reports received immediately after the battle of Mukden were in many respects exaggerated, especially regarding the losses of the Daghestan and Gen. Rennenkamrff's brigades, but the general staff is still unable to give the total Russian losses. The correspondent adds that the peace rumors continue to circulate, their increasing persistency being due to a belief in the likelihood of the acceptance of the good offices of France as mediator.

WEATHER NOTES

Fair and very cold.

Toiled to Hard and Broke Down

Nerves Went to Smash—Could not Sleep—Work was Impossible

FERROZONE

Gave Me New Vital Energy—Nourished Me Back to Good Health

Perhaps you are in poor health? But work must be done, and there is no chance to take a rest.

Never mind the rest—it won't be necessary if you use Ferrozone. It builds up the system, enriches the blood, strengthens the nerves, makes you feel like new at once. In positions in the world is so powerful in restoring health writes C. P. Sommerville, of Weymouth.

"I was weak and miserable.

"I toiled too hard at my business and broke down.

"My nerves went to smash, I couldn't sleep, and simply had to give up everything.

"Did Ferrozone help me?

"Well, I think it saved my life! It gave me new vital energy, nourished me back to permanent good health. No better tonic is made than Ferrozone."

All physicians recommend Ferrozone because it is absolutely certain to give strength to those that use it, 50c. per box, or six boxes for $2.50, at all dealers in medicine, or Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing materials if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $4 per year, strictly in advance.

PETERBOROUGH, MARCH 28 1905

SUGGESTED TERMS OF PEACE

Of the two bases of peace which are said to commend themselves to the Parisian financiers to whom Russia is now appealing, one is the retirement of Russia beyond the Amur River, for more than two centuries the actual boundary, and even now the geographical boundary between China and Siberia; the other is the retention by Russia of the whole of the territory traversed by the Trans-Siberian Railway. It is to be expected that the latter will commend itself to Japan. It has all along been supposed by strategists that Harbin, the junction of the Trans-Siberian with the Port Arthur, or Eastern Chinese, Road, was as far as it would be prudent or advisable for Japan to push her advance. To hold Harbin would be to remain in possession of all of Manchuria which has really been in controversy. The abrogation of the Russian lease south of that point, the internationalization or even the Japanization, of the Eastern Chinese Railroad, and an international guarantee of the open door throughout all Manchuria south of the Trans-Siberian would suffice to dispel Russian dreams, while it would leave untouched legitimate Russian interests. It is true that the dream of an ice-free port would be dispelled with the rest. But that is Russia's own fault. Not only must any Russian ice-free port be taken from its natural owners, but she has made it plain that her possession of any such port or of its "hinterland" is an exclusive and monopolizing and dangerous possession. The terminus of her continental railroad must continue to be her southernmost harbor.

It is true that such an arrangement as is here outlined would virtually hand over to Russia that part of Manchuria north of the railroad. But, by hypothesis, of that part of Manchuria it is not prudent for Japan to dispute the possession. It comprises nearly half the area of all Manchuria, but by no means half of its population or of its potential wealth and buying capacity, being for the most part rugged, mountainous, infested with brigandage which is the chief curse of the province, and offering for exploitation only forests and mines. The great and fertile valley which runs northeastward from Niu-Chwang constitutes the true market of Manchuria and but a small part of that extends north of the Trans-Siberian. To allow Russia to remain in possession of North Manchuria would indeed be to that extent a violation of the integrity of China, though the territory might remain nominally Chinese, and as nearly Chinese in reality as it has been since the construction of the Trans-Siberian began. But the alternative is the forcible dispossession of Russia from the railroad itself, a railroad built from Russia's own money, on far as possible on Russia's own land, and a just source of Russian national pride.

WASTED SYMPATHY

The daily papers tell us about a young woman in one of the large cities who attempted to commit suicide because she could not find work. She took a dose of laudanum, but the doctors pumped it out of her and saved her life.

On the face of it, it seems pitiful, but dig down deeper and no sympathy will be wasted. This young woman walked the streets of the city for two days in search of employment, and found none. She had no special aptitude for any particular line of endeavor in business life. She had no letters of recommendation. After being buffeted about for forty-eight hours she swallowed a dose of laudanum.

It was too bad, wasn't it, that this girl with little education and absolutely no training in business life could not find employment?

At the time she was vainly searching for work every employment agency in the city had a dragging out list from women who wanted do the cooking in small families for wages ranging from $10 to $20 per month. She could have had a place in a good, Christian home for the asking. A thousand doorbells were waiting for her to press the button. But she did not want this kind of work. She wanted to do something that she could not do, and tried to end her life rather than do something that she could do.

A very wise man said once that there were three things that the Lord did not know. One of them was a woman's reason for her actions.

THE DEATH PENALTY

The Brockville Times says the Ottawa Journal has raised the question of the advisability of capital punishment and invites comment upon the subject. It is a terrible topic to discuss, but the state of society of today keeps it to the front. There are crimes so wicked that nothing short of capital punishment seems to be adequate punishment. There is Biblical authority for capital punishment. But though we believe in capital punishment for certain crimes we have always considered hanging unnecessarily crude. The idea in capital punishment is not to torture the offender but to deprive him of life, so that he shall no longer be a menace to his fellow men; yet from the time the death watch is placed to guard the doomed man until he is standing on the trap with the noose about his neck all the grisly details which mark the march of time are torture. Electrocution is just as bad. It would be more humane and effective if the offender were chloroformed quietly.

It is argued that the fear of hanging is a deterrent to murderers, but we do not believe that it would be as great a deterrent as the fear of the periodical whipping by the cat-o'-nine-tails. If the cat were more freely used we are convinced that there would be less serious crime. It is worth trying, at all events.

$500 REWARD $500

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address, F. J. CHENEY & Co., Toledo, O.

Sold by Druggists, 75c.

STARVATION IN NEW YORK

Hundreds of School Children in Albany go Hungry

Albany, March 28.—Some amazing figures bearing upon the extent to which children attending the public schools of New York suffer from hunger were made public today in a report of Inspector H. M. Leckstrecker to the State Board of Charities.

Mr. Leckstrecker says he found that out of 19,707 school children only 1,855, or less than one-fifth, began the day's work with an adequate breakfast. Four hundred and thirty-nine children frequently came to school without any breakfast at all. Nearly 1,000 children, whose anaemic condition led to an investigation by their teachers, never had for their morning meal more than bread only or coffee only. Two-thirds of the whole number, that is say, 7,415, had both bread and coffee or tea. Only 1,855 partake of a breakfast of cereals, vegetables, eggs, or meat, with bread and coffee besides, before beginning their school day.

No Breakfast Table complete without

EPPS'S

An admirable food, with all its natural qualities intact, fitted to build up and maintain robust health, and to resist winter's extreme cold. It is a valuable diet for children.

WHAT DO YOU DO WITH THE MONEY YOU SAVE?

Are you depositing it in bank? If so what interest are you receiving? NOT MORE THAN 3 TO 3 1-2 PER CENT we daresay. AND NOW COMES THE VITAL QUESTION. What is the banker doing with your money? The money you have placed with him for safe keeping. For answer read the official bank statement given below of the 1st National Bank of ———. It may be seen at our office as any time. It is as follows:

RESOURCES		LIABILITIES	
Loans and discounts	$308,700 51	CAPITAL STOCK PAIDIN	$ 75,000 00
Overdrafts, secured and unsecured	324 80	Surplus fund	60,000 00
U. S. Bonds to secure circulation	20,000 00	Undivided profit, less expenses and taxes paid	2,161 53
STOCKS, SECURITIES, ETC.	200,000 00	National Bank notes outstanding	18,000 00
Banking-house furniture and fixtures	13,000 00	Due to other National Banks	4,200 45
Due from National Banks (not reserve agents)	1,000 25	Due to Trust Companies and Saving Banks	64 10
Due from approved reserve agents	13,511 48	Due to approved reserve agents	7 200 71
Checks and other cash items	1,520 75	Dividends unpaid	1,744 00
Notes of other National Banks	3 150 00	Individual deposits subject to check	500 372 00
Fractional paper currency, nickels and cents	280 00	Cashiers checks outstanding	325 30
Lawful money reserve in bank, viz—Specie $46,919 00			
Legal tender notes 11,000 00	57,919 00		
Due from U.S. Treasury, other than 5 per cent. redemption fund	1,000 00		
	$720 559 79		$720,559 79

Pay particular attention to the items printed in bold type. They tell you an interesting story. They show a contemplation of the fact that more than the amount of the authorized capital of the bank or $300,000 has been and is now invested in stocks.

PONDER OVER THIS STATEMENT If you are a bank depositor doesn't it make you think? It should! Who reaps the benefit of these investments of YOUR MONEY? Do you get it? Not if the bank knows itself. You get your little 3 or 3 1-2 per cent and the bank gets the rest. Why cannot you

INVEST YOUR OWN MONEY

Your opportunities for ascertaining the value of your investments are just as good as that of your banker. Why do you not utilize these facilities for your own profit? You owe it to yourself and your family and to the world to assert your own INDEPENDENCE. If you have made bad investments in the past, I DON'T BE FULLY enough to let the past bury your ambition to become your own business manager. Profit by your mistakes and GET WISE.

If you do ire information regarding your investments write to us. If you desire to dispose of your investment write to us. If you desire a new investment that is ABSOLUTELY SAFE and which will return large PERMANENT DIVIDENDS to you instead of your banker,

Write to us at Once. Keep Your Capital in Action.

That is the only way to make MONEY GROW. We will advise you and we will not charge an exorbitant fee for so doing. WE CAN HELP YOU AND WE WILL.

FORTUNES ARE BEING MADE IN KANSAS OIL

Here's a fortune for you. Not 10% but 100% and no risk of loss. Giant of the Oil Fields.

The Midland Oil and Gas Company

has over 180 acres of oil land and has put down 10 wells, so the land is proved up. An adjoining additional 80 was secured yesterday, making over 260 acres all in the proven belt. Just read this:

The U. S. report on the oil industry places the average daily production of Pennsylvania wells at only one-half a barrel each per day. The Midland wells are pumping

Sixty Barrels a Day Each.

The pumping plant has just been started and this is the surprising result. Nothing like it in the world. The officers and directors of this company are bank men and do not believe in debts, so the company is free from debt. They have nearly $20,000 in cash and bills receivable in the treasury and everything paid for—property, wells, pumping plant, oil tanks, well cleaning machine and everything connected with the company. Have two drilling rigs working night and day sinking wells. Have abundance of gas, which runs the drills and pumping plant, so it only costs about $5.00 a day to produce and market the oil.

The Company has about 33 per cent of its stock in the treasury as a reserve.

For a short time the Company will sell a little more of its stock at only

7½ CTS. A SHARE

Buy all you can raise money to pay for.

We could talk all day about it but not cover all the strong points. But as the company has this grand property paid for, there is only one side to it, and that is profit. Don't buy stock in a company that tells you what they will do, but buy in this company, that has proved its property, and every dollar you put in makes it better. Send for particulars or mail check to

Will have 180 Wells

As soon as the drilling rigs can put them down.

From the Kansas City Journal, Feb. 26, 1905.

There is perhaps no people in the same amount of territory in the world who have increased in wealth so rapidly. Everybody is prosperous. Many once poor and hard working families have become immensely wealthy.

Hudge Hale, an old Frisco conductor, has become a millionaire off of oil. He got in the game early. Now he has money as well as oil and gas to burn.

Fred Hetrick, a farmer living near Chanute, had a hard time for years making both ends meet. Life was a hard proposition with him. His royalties now reach $1,000 a month and he is living on easy street.

Joe Heim, of the Kansas City brewery, took a flyer in oil leases. He first put in $500 and refused $12,000 for his investment. Later he put in a lot more money in gas and oil lands and is now figuring high.

George E. Work, the Chicago clothier, took some acres of land near Chanute for a debt a customer owed him. Work's partner refused to stand for the deal. So Work kept the land himself. He has since refused $50,000 for his holdings.

These are a few samples. Hundreds of farmers have become independantly rich off their oil royalties, and hundreds of other men have made big money producing oil.

This Kansas oil bearing sand is like the Pennsylvania sand; wells will produce oil for fifty years.

Can give bank references, and dozens from people who have personally examined this great property.

STRICTURE AND KIDNEY DISEASE CURED.

G. E. WRIGHT.

"I had stricture for eleven years. It finally brought on Bright's Disease of the Kidneys. I had an uncomfortable shooting pain in the groin and feeling as though something was in the urethra. My back was weak and I could scarcely stoop over. Urine was full of sediment. Had a desire to urinate frequently. Family doctors, so-called specialists, patent medicines, electric belts, all failed. I was discouraged. I had spent hundreds of dollars in vain. Finally I consulted Drs. Kennedy & Kergan as the last resort. I had heard a great deal about them and concluded from the fact that they had been established over 25 years that they understood their business. I was delighted with the results. In one week I felt better and in a few weeks was entirely cured. Have gained sixteen pounds in weight."

G. E. WRIGHT, Lansing.

FACTS-NOT THEORIES

ABOUT THE

Marconi Wireless Telegraph Company OF CANADA, Ltd.

This Company has now established and fully equipped nine stations on Canadian soil. Each of these stations is on a commercial basis.

It has already installed the Marconi apparatus on five of the boats of the Allan Line and the balance of the fleet is to be supplied as soon as the Company can complete the work. The system is giving complete satisfaction to the Steamship Company.

Among the stations above cited is that at Glace Bay, which has been relocated further inland to improve its position for transatlantic service. Mr. Marconi will be in direct supervision of this station within a month, and the parent Company in England has officially stated that he will positively install the perfected high-power apparatus which will guarantee uninterrupted transatlantic service for the immediate future.

The stations already installed form a complete net work covering the coast line of the Gulf of St. Lawrence and the contingent Atlantic coast and afford the British Navy and all mercantile steamers equipped with Marconi apparatus a sure means of communication with land whenever it may be necessary.

Messages are accepted at every Western Union and Postal Telegraph office in the United States and Canada for transmission to transatlantic boats at any point on their natural course to the mother country.

There have already been selected the sites, and the plans have been drawn for the building of new stations along the St. Lawrence which will give the Company a connected system well into the heart of Canada.

A year or so more will see these stations dotting Canadian soil at every point from the Atlantic coast to the Great Lakes where the volume of business will warrant their establishment.

The Canadian Government has appropriated large sums of money as a subsidy for the Marconi system and gives every evidence of continuing its appropriations until such time as the Canadian Government are afforded an absolutely complete wireless system.

These are facts and not theories and can be positively verified by anyone who takes the small amount of trouble necessary to do so.

In other words, there are tangible assets and a business on a commercial basis to represent the money already expended in the promotion of the

MARCONI WIRELESS TELEGRAPH COMPANY OF CANADA, LTD.,

and the immediate future will be a continuation of this condition.

Marconi's Wireless Telegraph Co. (Ltd.) of England is working on the same system as that of the Canadian and American Companies. It is therefore interesting to note the results already attained by the English Company. This Company has been established somewhat longer than the Canadian Company, but the later has all the advantage of the experimental period of the former and the attendan great saving in expenses which may seem to produce no tangible results. The English Company has issued its annual report, which shows a handsome return on the total capitalization of the Company. The stock is dealt in on the London Stock Exchange. This could only result from a very complete knowledge on the part of those interested in stock exchange transactions as to the actual intrinsic value of the stock.

The stock of the American Company advanced from $4 to $6 per share. The history of all great enterprises of a similar character to the Wireless Telegraph, namely the telephone, the telegraph and the cable, shows that the early investor in these enterprises has reaped a tremendous return in the form of dividends, and the original investment has now assumed the proportions of a great fortune in itself, In other words, the purchaser of stock in those companies during the early days has received his investment back again in the forms of dividends many, many times over, and still ho ds stock which represents from ten to forty times its original purchase price. Could any investor feel better satisfied with any investment that he could possibly have made?

The Marconi Wireless Telegraph Company of Canada should not only bring an equal return to those who invest in its stock, but it should bring this return in far shorter time than in the case of its predecessors, because of the fact that it has a broader field of income, and has the benefit of a more highly developed scientific field from which to draw any needed assistance. It is no longer necessary to do what might be termed missionary work, because the public now takes advantage of the telephone, telegraph and cable as a matter of course, and any scepticism as to their value has been dissipated, at the preliminary expense and to the subsequent profit of those pioneers.

There seems no logical argument, therefore, to disprove the claims of the Marconi Wireless Telegraph Company of Canada to the support of the investing public. We have been so closely connected with the history of this Company, that we have watched its growth not only with pleasure, but with surprise. We have repeatedly called th attention of the public to the Company, and it is reasonable to presume that we could not have continued to interest ourselves in it unless we believed in it ourselves and were confident of its future success. The stock of the Canadian Marconi Company is now selling at $6 pe share, but developments in connection with the Company which may occur at any moment in the immediate future, will mean an advance above that price. We therefore do not hesitate to advise anyone to purchase the stock in any quantity from one to two hundred shares, according as he has funds for investment, and we believe that immediate advantage should be taken of the present selling price of the stock.

We are ready and willing to answer any and all questions that may be put to us by prospective investors in the stock, and have on hand reading matter which covers every detail of the the subject.

CZARINA'S DEVOTION

Wife of Czar Prepares Food for Her Husband and Children

Vienna, March 27.—Vienna papers contain the following report about the Czarina's perpetual anxiety for her husband and children: She prepares food for the Czar, who is in constant fear of poison; she assists at every detail of his toilette, as would the German wife of some small citizen, since the Czar mistrusts every one of his servants; she superintends the tailor and the laundress, as well as the barber, and besides this she attends to every want of her infant son.

It has become almost a fixed idea with the Czar that his son's life is threatened. His Majesty fears that the loss of his son, whom he so long vainly expected, would cause the outbreak of a revolution in every corner of his empire, even among conservatives, and for this reason everyone connected in any way with the Imperial family is surrounded by hosts of spies, who in their turn are watched by a second series.

Naturally everyone knows that he is under close supervision, and that the slightest untoward act would give room for denunciation. No care is taken to prove the truth of a suspicion, but everyone in the slightest degree suspected is removed upon some vague pretence. Hence arises a general feeling of insecurity, as nobody knows what the next hour will bring forth.

NEW DEATH HOUSE

Historic Building Being Torn Down and Another Built

Ossining, N.Y., March 25.—Work was begun this week on the new $40,000 death house at Sing Sing Prison. The present death house, which accommodates only thirteen prisoners, will be torn down, and the new one will have forty cells.

The building will be the finest of its kind in the country. It will be constructed of brick and stone, and will have a glass-covered court and promenade, where condemned men may take exercise at the discretion of the warden. No changes in the methods or appliances will be made in the new chamber. Under the present system a murderer is pronounced dead seventy seconds after he is led into the room, and in the opinion of the prison officials this arrangement is as expeditious as it is possible to make it. The last man to be put to death in the present chamber will be Martin Ebelt, a young man of Mount Vernon who strangled his wife with a shoe string, and hid her body in a sewer. He will die on April 10.

PRESBYTERIAN ALLIANCE

Nashville

Nashville, Tenn., March 27. — The executive commission of the Western section of the Pan-Presbyterian Alliance meets in Nashville this week and a number of distinguished divines and other leaders of the church are already here. The meeting will discuss a number of matters of great importance to the Presbyterian Church throughout the western world.

The churches represented will be the Presbyterian Church in Canada; Presbyterian Church in the United States of America; the Presbyterian Church in the United States; the Cumberland Presbyterian Church; the United Presbyterian Church; the Reformed Presbyterian Church; Synod and General Synod; Associate Reformed Synod of the South; the Reformed (Dutch) Church in America; the Reformed (German) Church in America; and the Presbyterian Churches of Mexico and Brasil.

PENSIONER 105 YEARS OLD

Uncle Sam's Oldest Soldier Was in War of 1812

Acworth, N. H., March 25. — William Welch, a resident of this place, will be 105 years old tomorrow, having been born during the administration of John Adams, the second President of the United States. He holds the record of being the oldest pensioner of the Civil War, and is just a month younger than Hiram Cronk, who holds the same record for the War of 1812. Welch was over 50 years old when he enlisted in Company I., Fourteenth New Hampshire Volunteers. At the last session of Congress a bill was passed increasing Welch's pension from $12 to $24 a month.

THE LOAN SHARK

Two Men Suicide Rather Than Stand Persecution

Chicago, March 25.—Driven to desperation by the merciless houndings of loan sharks (brokers who loan on assignments of salary), two men committed suicide in Chicago within the past twenty-four hours. Neither could see any escape except in death. The modern Shylocks had fastened their relentless fangs, not only on the men themselves, but on the women and children of the two families, until the oppression was too great to be borne.

TO CANADIAN INVESTORS

Thomas Patterson & Co. Have a Fine Copper Proposition.

Fifty dollars invested in Granite Mountain Mining Company's stock paid the purchaser $34,500, besides several thousand dollars in dividends. One hundred dollars invested in Boston and Montana Mining stock paid the purchaser $44,000, besides several thousand dollars in dividends. A few dollars invested in shares of the Butte Copper Mining & Smelting Company stock, will not only insure you big returns in dividends, but a handsome profit in an increased value of the stock. Our mine is not a prospect but a copper mine which has produced $180,000 in profits in the last three years.

For the purpose of buying adjoining ground we have placed on the market 50,000 shares of our treasury stock. This stock is fully paid and non-assessable. Par value $1.00 per share. We will sell any part or all of this lot at 60 cents a share; no certificate issued for less than 100 shares. Send us your order for what stock you want and we will reserve it for you, pending your investigation of our company; and when you have received our prospectus and satisfied yourself that the investment is a good one, you can send us the money and we will issue the stock, or have the stock sent through any bank you may designate. References. Any Bank or Mercantile House in Butte, Montana. Write us for particulars. Butte Copper Mining & Smelting Co., Butte, Montana, or to Thos. Patterson & Co., Fiscal their foregathers."

A Careful Bank Teller

A stranger came into a Peterborough bank the other day and presented a check, for which he wanted the equivalent in cash.

"Have to be identified," said the teller.

The stranger took a bunch of letters from his pocket, all addressed to the same name as that on the check.

The teller shook his head.

The man thought a minute, and pulled out his watch, which bore the name on its inside cover.

The teller, merely glancing at it, said, "That won't do."

The man dug into his pockets and found one of those "If-I-should-die-to-night-please-notify-my-wife" cards, and called the teller's attention to the description, which fitted to a T.

"Those things don't prove anything," he said. "We've got to have the word of a man that we know."

"But, man, I've given you an identification that would convict me or murder in any court in the land."

"That's probably very true," responded the teller, patiently, "but in matters connected with the bank we have to be more careful."

STORY OF THE

BOSTON AND TEXAS OIL PROPERTY

CONTINUED

Chapter 3-How the First Company was Formed

Sam Crowther started up north in search of some one who would listen to his story, and having listened, would believe that which he had told and having believed, would help him organize a company to take over this property and work it. One of his greatest trials was the unbelief that was shown by most, when his tale had been told Lack of trust hurts an honest man, when a rogue is unaffected thereby. Yet it was hardly to be wondered that people doubted when the wonderful things on the property were rehearsed. These things, which only needed money and energy to bring to the surface. He at last came upon C. F. King, a newspaper man, who saw a great opportunity to make wealth and fame. The company was formed, being called after the discoverer, and the first president, viz.: The King Crowther Corporation, coming into existence the fall of 1901. They got quite a number of good men associated with them, but as is usually the case where all the directors, or nearly all, have never paid for their stock, the interest is not taken in the same way as it would have been if all had paid hard cash for their stock. This directorate held as their share some 2,000,000 shares for which they never paid more than $40,000. This is as near the amount as I have been able to learn. Mr. King was to look after the financial part, while Mr. Crowther was to look after the development in the field. Offices were opened in several large towns and an expensive advertising regime inaugurated, there being expended in this line over $125 000 in two years, to say nothing of salaries, office rents, etc. The president did the running of the company, the board being mostly busy men, were unable to give proper time. So it naturally became a one man concern. We, of the reorganized company, who form the Boston & Texas Corporation, have profited by the mistakes of our predecessors, both in the field and out of it. Their energy was expended in sinking test wells, which would have been alright if millions had been at their back in order to carry out the big programme which comprised amongst other things: A railway from San Antonio to Crowther, a distance of 63 miles; pipe line to the gulf of Mexico, over 80 miles; town site, waterworks, gas plant, potteries, etc. All these were to be gone ahead with at once—an impossibility. These things are developing and will continue to do so, one by one. But oil and oil only, should have been the burden of their work, in order to show to the world that they had it The rest would have followed in due course. After a peculiar career of nearly two years, trouble was seen to be brewing. The sky, which had been clear, bore unmistakable signs of a storm, which was likely to break at any moment and possibly wreck everything. The danger which was looming up was the Texan Government, which seeks to guard those who invest money within its borders. The president, Mr. King, was warned against the advertising which was being done, which was considered to be very extravagant and bordering on deception. This thing continued all the summer of 1903, finally being dissolved by Judge Brooks in the fall of 1903 and passing into receivers hands. The story of the reorganization will appear in to-morrows paper.

ADVERTISE IN THE TIMES.

TO CANADIAN INVESTORS

Oregon-Idaho Gold Mining Co.

INCORPORATED

Capital $5,000,000. Shares $1.00 Each, Par Value, Fully Paid Up and Non-Assessable.

We have just secured the money for the above splendid proposition, of which we have been allotted a block of Treasury stock. We can confidently recommend this as a safe and. we believe, exceedingly profitable investment. Every dollar of stock is guaranteed by twenty year, full paid, gold bond, delivered to purchaser of stock, from an Investment Company that has no interest whatever in the company, but who are disposing of the debentured bonds to the public, and, under their charter they are compelled to deposit securities to an equal amount, to the State Treasurer under which they received their charter, there by doubly securing the payment of their gold bonds.

The Company's property, which is now past the project stage, a known to be marvellously rich in gold.

Following is the opinion of G. W. Miller, Mining Engineer, formerly with the Boston and Montana Consolidated Copper and Silver Mining Company, U. S.; Simmer and Jack Mining Co., Limited, Elandsfountain South Africa:—

"You have here a most valuable property and one of the strongest fissure veins that can be found in any part of the world.

"With the present development of the Monument Mine, I estimate that 100 tons per day can be extracted, which will mill from $15.00 to $20.00 per ton. The total cost of mining the ore, delivering and milling, I place at about $4.00 per ton. With the increased milling capacity, it is safe to say that the mine can furnish 100 tons of $15 00 ore, which would yield a clear profit of $11.00 per ton, or $1,100 00 per day (equal to $400,000.00 per annum). Estimated total value of ore in sight, $2,000,000."

During the past summer, a party of the Company Directors visited the property, taking with them, Amos P. Brown, Ph.D., Mining Engineer and Professor of Geology and Mineralogy at the University of Pennsylvania. Dr. Brown writes as follows:—

"In regards to the amount of ore available at the mines at Singlar, I saw on the dumps several thousand tons, probably 5000 tons would be an under-estimate.

"As to the size of the ore body itself, from what I saw of the geological structure, I think that there is every indication that it will be found to extend underground as far as the out-croppings on the south side of the gulch. This would mean an ore body large enough to keep the present mill running for many years to come.

A write up of the proposition will appear in these columns in a few days. Watch for it. In the meantime we will be pleased to furnish full information to investors.

THOS. PATTERSON & CO.,
FISCAL AGENTS. PETERBOROUGH

IT HAS PAID OTHERS TO READ THIS

IT MAY PAY YOU

A HIGH GRADE INDUSTRIAL AND MINING INVESTMENT

We have thoroughly investigated it and found it to be right in every respect. Did you ever have a chance to invest in a straight legitimate money making proposition? If not,

THIS IS YOUR OPPORTUNITY

We own a monopoly of the water right privileges in the Thunder Mountain mining district, State of Idaho, U.S.A.; seven water rights in all; one developed and in use. The property of the Company consists of over 1400 acres, with plenty of timber for building and mining purposes, a saw mill fully equipped and in operation, a 10-stamp mill now on its way from the B. R. Station to the property, and 40 additional stamps to be purchased at once and installed during the coming summer. This is the largest and most favorably situated property in the district. Some of the tunnels have been driven over 400 ft., cross-cutting many dikes, demonstrating that we have an inexhaustible body of ore. The ore bodies are sampled by an assayer every 10 ft., and assays run from 40c. to $200 per ton. The ore is free milling, and can be mined and milled for about $1.00 per ton.

This Company has had a phenomenal growth, and "The Thunder Mountain Prospector," published at Roosevelt, Idaho, where the property is located, states that this Company is three times as large as any other Company operating in the district. 30 men at work on the property. Over $60,000 worth of stock sold within the last 90 days. Only 100,000 shares more to be sold at 50c per share. You cannot afford to miss this opportunity; investigate at once.

THE TWENTIETH CENTURY MINING & POWER CO., LTD.

Tubercu osis The Lungs Cured

World's Greatest Physician Eulogizes Catarrhozone, which kills all the Germs, Heals the Membranes, Cures Thoroughly.

That consumption is due to the presence of germs in the air passages is now admitted by all physicians. Before the disease can be cured of course these germs must be killed. Liquid medicine taken into the stomach can't possibly reach the air cells of the lungs, and is therefore useless.

Catarrhozone never fails to kill the bacilli of consumption for the following reasons, which are plain to every thinking person:

First—Each breath of medicated air you draw through Catarrhozone inhaler is at once sent through every air cell and air passage in the throat, bronchial tubes and lungs; it is then sure to reach the nest of the consumption germs.

Being a powerful antiseptic Catarrhozone at once kills these germs and establishes such a healthy condition in the lungs that microbes can't live there. Once the cause of the disease is removed it is only a matter of time till you get well and strong again.

That Catarrhozone does permanently cure Tubercular Trouble can no longer be doubted. Ample evidence of its marvellous merit is witnessed every day. Thousands have been cured after all else has failed by this great germ destroyed, which is inhaled to the very source of the disease.

Mrs. G. P. McCluskly, writing from Salt Lake City, U.S., says; "My doctor ordered me to Colorado, where I first used Catarrhozone. I inhaled it probably twenty times a day. In one week it stopped my cough completely, and it was not very long in making every bit of soreness and hoarseness out of my throat. The antiseptic vapor of Catarrhozone must certainly have killed till the germs of consumption in my lungs, for I came home in seven months a cure. My doctor says Catarrhozone is a marvel. It is of the greatest assistance in lung trouble, and cured me permanently."

Not only consumption but every form of catarrh and throat trouble is easily cured by Catarrhozone. Two months' treatment costs $1.00. At druggists or by mail from N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont. For a quick and certain cure use only Catarrhozone.

PROTECT HOME INDUSTRY

Battle to Prevent Cut the Thin Edge of a Wedge to Swamp Out Peterborough Peterborough Industry.

The License Holders' Protective Association of Peterborough, held a meeting yesterday afternoon, with Mr. J. M. Brooks, President in the chair. Among other business brought before the meeting was an attempt that is being made by the Brewers' Association of Ontario, to freeze out a local industry of long standing and creditable record.

The Calcutt Brewing and Malting Company is too long and well known to need further comment on the desirability of shutting them out of business; any industry that claims Peterborough as home appeals to every loyal citizen in the town; even in the case of an ultra temperance man, whilst he may desire honestly to see beer is to be sold, would be not sooner see the wages that are paid for manufacturing the product go into Peterborough pockets than into the coffers of a large foreign corporation? The Brewers' Association of Ontario, have for a long time been after the scalp of our local brewery, because it will neither join the trust, nor gracefully retire from business in order that monopoly can have full run of this branch of Peterborough's business. The Brewers' Association have arranged so that a certain brewery, foreign to Peterborough, which sells a large proportion of the beer consumed here, can sell its product here at a price that leaves the brewery no margin of profit, in fact at a loss, and then makes up the deficit to it. At yesterday's meeting it was unanimously agreed by the local license holders to uphold and support the local industry, and to draw its beer all the time, not of necessity as a monopoly in their supply of beer, but to show that the Peterboro' industry must not be swamped out, and in the knowledge that should the local brewery join the trust or be forced by them to the wall, that prices would very soon be raised from the present cut rate of the combine to such prices that a man could not pay his license and do an honest business with living profit. It might be added to this that nearly all the beer bought by the Italian Colonies in town, and it is not beyond impossibility that this is sold without the formality of a license, is beer made by a brewery belonging to the combine that would freeze out a Peterborough industry.

Local Incidents

BY THE TIMES MAN ON THE STREET.

—Charity Board met last night.

—Many a blessing was cast on the heads of those men scraping the crossings yesterday.

—St. Paul's church Christian Endeavor Society met yesterday evening. Mr. Ferguson was the speaker.

—The Times received with pleasure yesterday, a package of San Francisco papers, sent in kindly remembrance by Mr. James Stevenson.

—Mr. J. A. Flett, of Hamilton, addressed the carpenters' and joiners' union in the Orange Hall, Simcoe St., last night.

—The meeting of the T.A.S. Baseball Club called for last night, has been unavoidably postponed until tonight.

—The Women's Art Association will hold a meeting for the election of officers this afternoon at 3.30, in the Y.M.C.A. parlors.

—A young man and lady were baptized at the Park street Baptist church, Sunday night. A large congregation witnessed the ceremony.

—The creeks in town remind one of a mountain freaket, however pikegules, patience and persistency, are keeping the water under control.

—The annual roll call of the members of Murray street Baptist church will be held on Wednesday night. Every member is expected to be present.

—A kindergarten musical demonstration was given last night in the Y.M.C.A. hall by the pupils of Miss Estelle Foy, of the staff of the Peterborough Conservatory of Music.

—The E. F. Clarke Memorial Fund now amounts to $17,200. Amongst the subscriptions received on Saturday was $250 from the Grand Orange Lodge of Ontario East.

—The Building Committee in connection with the new rectory for St. John's church will meet on Wednesday night at the close of the Lenten services to discuss certain matters in regard to the location of the building.

—Every night remember, when winding up the cat, and putting out the clock preparatory to bed, to look your shed door, loose the bull dog, and load up the family blunderbuss as there are a series of petty burglaries now seemingly the fashion in town.

—His Honor Judge Ketchum of Cobourg, junior judge of the County Court of Northumberland and Durham, is appointed Local Master of the Supreme Court of Judicature for Ontario, in place of John Henry Dumble, deceased.

—The Feast of the Annunciation was celebrated in St. Peters' cathedral on Sunday. An appropriate sermon on the gospel of the day was delivered by Rev. Father John O'Brien. The young ladies of the Sodality of the Blessed Virgin to the number of several hundred received Holy Communion at eight o'clock in the morning.

—Mr. Robert Fair had a large consignment of goods aboard the S.S. Parisian, which sank Saturday afternoon in Halifax Harbor from the effects of a collision with the Hamburg-American mail Steamer Albano. Mr. Fair immediately cabled his European agents for duplicates of the submerged goods, and reports that they will be along by first steamer possible.

Yesterday as a member of the police force, with thoughts of dinner hastening his movements, rushed to catch his car at noon, the bystanders seeing the rush suspected something to be in the wind. Quite a number of the George street Sunfish Club awoke and hustled after the flying cop. As he jumped aboard his car, disappointed faces did reflect as to "Ease-with-dignity," were the order of the day.

Personal and Social

Movements of the people in and out of town....

—Mr. W. S. Given, of Millbrook, was in town yesterday.

—Mr. A. L. Davis, of Toronto, is in town for a few days.

—Mr. A. W. Crossman was in Toronto on business yesterday.

—Mr. George J. Sherry, barrister, of Norwood, was in town yesterday on business.

—Mr. A. E. Brundrette, of Bracebridge, is spending a few days in town.

—Mr. T. B. Collins, of Millbrook, who has been seriously ill, is reported as somewhat better.

—Miss Pearl Reesor of Toronto, is the guest of Mrs. Wharton, No. 294 Rubidge street.

—Mr. T. E. Bradburn, M.L.A., went to Toronto yesterday at noon, via Port Hope.

—Mrs. W. R. McQuade, and daughter, Della, of Omemee, are visiting Mrs. McQuade's sister, Mrs. (Dr.) Gray.

—General Lake, Dominion Chief of Staff, and Senator McHugh of Lindsay, were in town on Saturday.

—Dr. W. H. Pendry, of New York, at one time on the staff of The Times, is now a member of the New York State Legislature.

—Lakefield News says; Miss Dunlop of Peterborough, is staying in the village, the guest of Miss Traill, at "Westove."

—The Millbrook Mirror says; Mr. and Mrs. Steve Hetherington, of Peterborough, were guests at the home of his mother, Mrs. T. Hetherington, last week.

—W. J. Duckworth, Toronto; A. Beiselman, Orillia; A. Clarke, Toronto; J. B. Oke, Toronto; R. Perkins Hawley, Toronto, are guests at the Snowden House.

—Mrs. Dr. Butler, formerly of Peterborough, announces the engagement of her daughter, Miss Clara M. Butler, to J. D. MacNellar, M.D., of Chicago.

—Fenelon Falls Gazette says; Mr. and Mrs. Edward Chambers, and family have returned home from a month's visit to friends in Peterborough and South Monaghan.

—Miss Grace Quigg, of Toronto, and Miss Florence Moffatt, of Fenelon Falls, are spending a few weeks vacation in Peterborough, the guests of Mrs. T. A. Slight, Simcoe street.

—Ald. Albert Sanderson, of Ottawa, spent Sunday in town on his way to Toronto to visit his father in that city. Mr. Sanderson was at one time employed on the staff of the Review.

—Norwood Register says; Mrs. Geo. Milburn and children, Beatrice and Marian, of Peterborough, were visiting for a few days last week at Maple Grove, Asphodel, the guests of Mr. and Mrs. Alex. Clarke.

—Mr. Horace Walkey has been appointed paying teller in the Bank of Ontario here, in the place of Mr. Oscar Dumble, who has been removed to Tweed, and been promoted to the position of accountant and teller in the branch bank there.

—The Lindsay Post says; The engagement is announced of Miss Jessie Kasson, of Wilcox street, to Mr. Ernest V. Neelands, B.A., Sc., of Colorado, son of Dr. J. Neelands, of Lindsay. The wedding is expected to take place very quietly on Wednesday, April 12th, at the family residence. The Mr. Neelands referred to has many friends in Peterborough, who will doubtless tender congratulations.

A PAINFUL ACCIDENT

Geo Peters Had His Hand Caught in Circular Saw

Yesterday afternoon about 2.30, George Peters, son of Mr. Jas. Peters, Parnell street, met with a very painful accident while at his work at Arnott's box factory. He was operating a circular saw, and while leaning forward to remove an objectionable splinter, his hand came into contact with the revolving blade, and as a result the last three fingers on his left hand were terribly lacerated. Dr. Gray was sent for and had the unfortunate young man removed to Nicholls' hospital, where with the assistance of Dr. Marshall, the little finger was amputated. It is thought the other two fingers can be saved. At a late hour last night the patient, was progressing favorably.

THE TRUE REASON

(To the Editor of The Times.)

Dear Sir.—In my letter in today's issue of The Times, I suggested that the true reason for Sir Wilfrid Laurier's willingness to have the northern boundary of Ontario extended was to have a pretext for a similar extension of Quebec, and, as these were the only two Provinces that sanctioned Separate Schools, that system of schools would be, thereby, greatly extended. That view is made manifest from what the Premier of Quebec is reported to have said in today's "World." In speaking of the boundary question, he stated: "If Ontario is given more territory, I suppose Quebec will also get her share. There is, in fact, territory now under Dominion jurisdiction that would fit into Quebec exceedingly well." This theory is still further borne out by the North-West Review, the organ of the Roman Catholic church, when it throws out this hint why Manitoba's boundaries were not extended: "Should this Province be extended in any direction, will not the question immediately arise whether the Manitoba School Act should be extended to that new territory or not." Yours, etc.,

FREEDOM.

March 25th, 1905.

Hard on Hockey

Bobcaygeon Independent, The hockey season is over, and it is a good riddance. The game has become so associated with Blackguardism, that it has ceased to warrant the support of any respectable person. As for the murderous assaults that are made on each other by many of the players, and the injuries they inflict upon each other, that is not of much consequence. If they were more successful in killing each other it might be better. It is the exhibition of dishonor, the contemptible meanness that is shown, the keen desire to take every unfair advantage, that has put the game beyond recognition of anyone having the least regard for the moral stamina of the community. It is in their games, and recreations, that youths and men show their true characters. That country is in a bad way, where selfishness, dishonor, and disreputable conduct predominates in its games.

A RACE FOR LIFE.

Spurring his jaded horse to renewed efforts when the animal should be refreshed with proper food and rest, is about as sensible as prescribing nerve tonics, alcoholic compounds, coca mixtures and cocktails which only spur on the already weakened nervous system. Neither does it do to put you feel worn-out, broken down, jaded, and feel the effects of brain fire as well as nerve weakness, sleeplessness and fatigue, take Dr. Pierce's Golden Medical Discovery, a tonic which will do you lasting good, build you up, increase your appetite and strength and improve the condition of the blood. When the blood is impoverished the nerves feel the effect. Nervousness in nine cases out of ten is the "cry of the starved nerves for food." Feed the nerves on rich blood and all nervous manifestations will cease.

"It has been seven months since using Dr. Pierce's Golden Medical Discovery, and I only used three bottles of the medicine when it made me feel like a new man," writes S. A. Miller, Esq. (care of Mr. Amos Hyre, R. D. 10), Dayton, Ohio. "I had doctored with two local physicians without benefit. I felt all worn out, and had an awful misery in my back for two years but noticed a change for the better when I began using your 'Golden Medical Discovery.'"

To gain knowledge of your own body—in sickness and health—send for the People's Common Sense Medical Adviser. A book of 1008 pages. Send 21 cents in stamps for paper-covered, or, 50 stamps for cloth-bound copy. Address Dr. R. V. Pierce, 663 Main Street, Buffalo, N. Y.

The Canadian Northwest

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, or the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

[1] At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead of the cultivation.

[2] If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

[3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses [2], [3] or [4] must cultivate 30 acres of his homestead, or substitute 30 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

IT PAYS TO PAY FOR THE BEST IN FURS...

ESPECIALLY so now, during our great Reduction-Alteration Sale. During this month of March the order of the day is—FURS MUST "MARCH." The season is late. Work will commence shortly at the alterations in our store and factory. We must now clear stock out.

Buying direct from trappers and foreign raw fur collectors for spot cash prices, manufacturing these furs in our factory, every article carefully put together by expert furriers, and the direct supervision of the whole by two practical furriers who own this business, means to our patrons absolute protection as to quality and price that no other firm in Canada can surpass. All our Furs are not only guaranteed, but we have reduced their cost to you by saving all go-between profits with which most furs are burdened, and now during this sale.

You can get furs at less than wholesale cost to clear stock out immediately.

THINKS WAR IS NEARING AN END

British Naval Officer Believes Russia and Japan Will Soon Come to Terms

LAST OF THE BIG WARS

Admiral Beresford Passed Through Pittsburg Last Night

Pittsburg, Pa., March 29. — Admiral Lord Charles Beresford, late commander of the Channel fleet of the British Navy, and recently appointed commander of the Mediterranean fleet, passed through Pittsburg on the Pennsylvania limited. He was accompanied by a party of English naval officers and Congressman Bourke Cockran, of New York. They were on their way to Mexico, where, as the guests of Congressman Cockran, the visiting Englishmen will spend a month or more on a hunting and fishing expedition. Admiral Beresford arrived in the United States about two weeks ago and will return home on June 1 to assume charge of the Mediterranean fleet.

"There is no doubt in my mind but that the trouble with Venezuela will come to an end very soon," said Admiral Beresford during his brief stay at the Union station last evening. "At least, they had better awaken to the fact that it will do no good to prolong the controversy."

"What do you think of the present situation in regard to the Japanese-Russian war," was asked the Admiral.

"Well the present indications point to a speedy ending of that terrible conflict. I believe that both sides are ready to listen to a peace proposal, and will gladly accept terms as soon as the proper conditions can be reached. Such a war as has been carried on between Russia and Japan can not last much longer for several reasons and principally because of the serious drains the battles have made upon the resources of both countries, both in the matter of men and money.

"The whole world is opposed to the outrageous conflicts that have been brought about in this war. It is shameful to think of the awful slaughter of human beings, and even should the hostile countries show any inclination to continue the fight, it will be but a question of time until other powers will interfere to prevent any further loss of life through such an atrocious fashion as has characterized all of the battles in this fight.

"As a matter of fact, it seems altogether probable that this would prove the last of the big wars. Nearly all of the bigger countries seem to favor the abolition of such hostilities and it will only be a matter of time until all international difficulties are adjusted in some other way than going to war."

Admiral Beresford declined to say anything about the attack of the Russian fleet upon the English fishermen some few months ago. He said the incident is closed and would not discuss it.

FOUR ITALIANS BLOWN 20 FEET

Hurled to the Surface by Escape of Compressed Air

New York, March 29.—Four men who were at work in the forward compartment of the railroad tunnel under the East River, between Brooklyn and the Battery, were saved from either death or serious injury in miraculous fashion to-day, when all four were blown out of the tunnel and up to the surface of the river by the force of compressed air, in which they were working. Bystanders who saw the men shoot to the surface, say that Richard Creedon, one of the four, was shot 20 feet into the air from the level of the water, and that the startling appearance so frightened several Italian laborers on the nearby pier that they took to flight.

The tunnel in which the men were at work is to be used eventually to connect the Manhattan subway lines with Brooklyn subway lines. Two tubes, side by side, are in process of construction. The work is being done by the New York Tunnel Company.

The Brooklyn end of one of the tubes had been extended about fifteen feet beyond the end of the pier line at the foot of Joralemon street. Twenty-two men were at work in the tunnel to-day when the accident happened. Creedon and his companions were in the forward compartment, working under a high pressure of air. In a compartment back of them the other 18 men were at work. This second compartment was not affected by the accident, as there is a bulkhead between them. Creedon was the first to ascertain that the roof of the tunnel was leaking, and that the air was rushing out into the bottom of the East River, which was about forty feet deep above them. With sand bags he attempted to plug the leak, but, as he did so, the whole roof was blown out, and the tremendous force of the compressed air drove Creedon and all his four companions out through the hole.

The upward rush of air carried them to the surface in a twinkling, and Creedon shot into the air with great force. Bystanders quickly fished them out of the water. All were considerably bruised, but not dangerously hurt.

WANT TO JOIN CANADA

Desire for Confederation With Dominion Shown in West Indies Says Visitor in Toronto

Toronto, March 28.—Mr. James C. Fillan, a member of the Island of Dominica, is in the city on a trip around the world. He has been in Ottawa, where he met Sir Wilfrid Laurier.

Mr. Fillan says the desire in the West Indies for confederation with Canada is growing, and he wouldn't be surprised to see some action soon.

CZAR'S TRAVELLING CASTLE

It Will be made of Armor Plate Originally Made for War Vessels

St. Petersburg, March 29. — The Czar will not return to St. Petersburg until his new auto is ready. This auto is to have 125-horse power, both for speed and on account of the tremendous weight of the machine. The designs call for an auto that can outrun any other in existence. At the same time the machine must be bomb proof all around. Neither the bottom, top, nor side walls, nor even the wheels must be liable to succumb to assaults by nitro-glycerin, dynamite, or any other infernal invention.

The Secretary of the Navy was ordered to furnish the auto factory with Krupp steel plates originally intended for an ironclad, and every precaution will be taken to render the vehicle bomb-proof. Anticipating that so ponderous an auto will require specially prepared roads, that leading from Zarskoje Selo to St. Petersburg will be taken in hand by engineers as soon as the frost is out of the ground. At all crossings steel plates will be put down.

END OF THE WORLD

Is Set For August, 1916, by a Band of old Israelites

New York, March 29.—A picturesque party of men, women and children, eighty-three in number, members of a religious sect who proclaim themselves descendants of the lost tribes of Israel, arrived here yesterday on the steamer Princess Irene.

They came from Australia and are bound for Benton Harbor, Mich., where they say 400 members of the sect are already established.

They call themselves Children of Israel and are vegetarians. The men wear long hair and beards. They profess to believe in the saving of the mortal body as well as the soul.

The Israelites explained that they were getting together now so as to be prepared to ascend to heaven together in August, 1916, when they believe the end of the world will occur and Satan will be overpowered and put in bondage.

They aver that only one tribe of Israel, that of Judah, is now lost and they expect to find that tribe before the end of the world.

THE WIRELESS SITUATION IN ENGLAND

Wonderful Achievement of the New System of Telegraphy

London, March 27.—The British post office, which operates the telegraph lines of Great Britain, is carrying out its contract with the Marconi Company in connection with the handling of messages for delivery to passengers on incoming and outgoing steamers in a faultless manner. The messages are received at any post office on English soil and transmitted to the nearest coast station of the Marconi Company, from whence they are sent to the passengers on ship-board.

To facilitate this service, there is posted in every post office a form of time table giving the list and time of sailing of every vessel which Marconi apparatus and the latest hour at which messages will be accepted for direct transmission to the ship after it has sailed and passed out of sight of land. The telegram is paid for by the sender and delivered on board the ship at the passenger's cabin just as it would be at the room in a hotel ashore. This service has proved so satisfactory that the volume of business along this line shows a material increase from week to week.

Woman Won't Hang

London, March 29.—The death sentence passed on Sarah Ann Pearson, who was arrested at Montreal for the murder of her mother-in-law, and who is now in Armagh jail, was commuted to penal servitude for life.

Ring to Join Queen

London, March 29.—According to arrangements, which are still liable to revision, King Edward will leave London, April 6. He will join Queen Alexandra at Cologne, and from there their Majesties will go to Copenhagen for the celebration of the birthday of King Christian, April 8.

A Pointer for Peterborough

At Bloomington, Illinois, the First Methodist church, with a membership of 1,800, could hardly muster 75 to 100 at the week-night prayer meeting and a large majority of the attendance were women. The pastor recently tried the merits of hot coffee and a tempting supper on the membership to see if their stomachs would not lead them to the altar of prayer. The sisters joined heartily in the innovation, and at the first meeting, held last Wednesday night, there was double the usual number in attendance. In Hamilton one of the Methodist churches recently tried the hot coffee scheme of salvation to draw out Sunday night congregations, and it had the desired effect. The Methodists may have to change their plan of salvation from the grace of God to the coffee-urn.

FRANCE'S LESSON.

Today, in Old France, the Government introduced a bill for the separation of church and state. One of the foremost clauses provides that no public money shall be applied to maintaining any form of religion. In Ottawa today, the Parliament is discussing bills, forced upon the legislators by the people of New France, to establish and perpetuate a union of church and state in Canada. And the bills provide for the use of public money for the propagation of a certain form of religion! France has had her lesson in the mixing of church and state, and has profited by it. Canada has had like lessons in observing the effect of a mixing up on church and state, as developed in Quebec, and has not profited by it.

RUSSIA SEEKS FOR PEACE WANTS TO END THE WAR

Delcase, the French Minister, Asked to Arrange Peace Terms With Japan--Lansdowne's Help Required.

London, March 29.—A telegram from a Northern European capital received in London this afternoon says;

"I have just learned on reliable authority that Russia has asked Delcase to act as an intermediary and open negotiations with Japan.

Delcasse Has Signified His Willingness, but Considers That Lansdowne's Co-operation is Essential to Success.

London, March 29.—It is officially learned here that Delcasse has signified his willingness, but considers that Lansdowne's co-operation is essential to success.

Japanese Captured All the Army's Boots and Uniforms Which the Russian Army Needed Badly --Japs Again Moving Forward.

Gunshu Pass, 106 miles north of Tie Pass, March 29.—The Japanese are again moving forward, and the Russian rear guard has fallen back from its position, about thirteen miles north of Tie Pass, to Chaoumisodzi, which is situated about forty miles below Gunshu Pass.

Practically complete returns show that the Russian army sacrificed general commissariat stores to the amount of $1,250,000 and stores for an army corps amounting to $500,000 held at Mukden, most of it being set on fire. The boots and uniforms among the stores, of which the whole army was in need, arrived from Europe four days before the Russian retirement from Mukden. General Kuropatkin ordered the removal of the stores, but this order was not executed. An investigation will be made in order to establish the responsibility.

BUILDING COMPLETED

The Peterborough Tool and Shovel Co. Have Nearly Completed Their Building

Another Peterborough industry is one step nearer to showing the world that Peterborough makes and supplies it with the best goods procurable. The Peterborough Tool and Shovel Company have shoved ahead work on their new building so persistently that, in this short time, the brick work is done and the roof about completed.

The manufacturer of the shovel-making machinery was here this week arranging for the installation of the plant, and he expressed himself as greatly pleased with the arrangement of the building and its substantial character. He also stated that it was arranged in such a manner that work could be carried on economically, and declared that the special machinery was second to none on the continent and that the company need have no fear of any competitor either on the score of cost or quality of the goods manufactured.

As noted in a former issue of this journal, the Shovel Company placed an order with the Wm. Hamilton Mfg. Co., for their rolling mill plant, which will be completed in about a month. Everything seems to point towards this new industry, making a success of it, they have the men, the money, and the push.

OFFICERS NOMINATED

Meeting of the Woman's Art Association of Peterborough;

Yesterday afternoon the Woman's Art Association of Peterborough met for business; Mrs. R. M. Denniston, was, by vote, placed in the chair. Miss Bertram gave a clear and concise explanation of the object and purposes of the association, referring to the success already attained by the new-born branch, as evidenced by general interest shown by the public and the crowds that attended the recent exhibition.

The minutes of last meeting were read by the Secretary, Miss Bennett, and duly confirmed.

A report was received from the special committee formed to look after the exhibition held March 13th to 17th. The report was very favorable, and showed that, although the exhibition was a trial one, and handled by ladies without much previous experience in such matters, it was successful from every point of view, both as to quality of the articles exhibited, the different branches of art illustrated by a high standard of specimens, the general awakening of the public to an interest in matters of art and the financial results which show that the exhibition practically paid expenses.

The local association has left $60 in the treasury which is made up chiefly from membership fees. Officers for the coming years were elected as follows:—

Hon. President—Mrs. Dignam, Toronto.
President—Miss Bertram.
1st Vice.-Pres.—Mrs. Hughes Charles
2nd Vice-Pres.—Mrs. J. R. Stratton.
Secretary—Miss Bennett.
Treasurer—Miss Hatton.
Honorary members of the Executive as representatives;—Mrs. Bennett, Miss Dobbs, Miss Jessie Hamilton, Mrs. Dunsford, Mrs. A. H. Stratton, Mrs. Gardiner.

The meeting was a very harmonious and encouraging one, and everything points towards a successful future for the association.

Yesterday's police court had not standing room, by ten minutes after the rush to enter started. It was literally "a full house." The first case engaging his Worship's attention was that of two young men, who yesterday forgot the wise warning so often given by our fellow citizen, "Old Toper," viz., don't drink on an empty stomach. These young men, who are by custom and reputation, sober and hard working mechanics, yesterday morning were indiscrete enough to partake of the glass that first cheers and then knocks out before taking dinner. This resulted, as the afternoon grew older in the usual way, they got under the influence, and in a local bar, started a fuss. The proprietor tried to quiet them down, but without further success than being the recipient of a blow intended for the other fellow.—Arrests followed, and this morning the young men were amused $5.75 each for the hilarity.

The real cause of the crowd present next followed, in which a charge of assault was laid by Gautier, the wrestler, against Crouder, his former landlord. The witnesses were many and varied, but all concurred in saying that, on Saturday night, there were great doings at Crouder's "Boarding House," corner of George and Sherbrooke streets. The main part of the evidence went to show that the fun at Crouder's "Party," was fast and furious. Several gentlemen from Italy were present to give a tone to the party. Crouder was defended by Mr. D. O'Connell, whose cross-examination of the many witnesses provoked much laughter, from the description of Saturday's scene of revelry. Gautier questioned the several witnesses for the defence, and in consequence, there was much laundry of soiled linen brought to light. The evidence when boiled down and sifted showed that Gautier came to Crouder's, where he boards, and found the party in progress. To better trip it on this light fantastic he removed his boots. Crouder's wife and others wanted Gautier's wife to dance with the Italians. Gautier would not stand for this. Then some of the evidence went to show that Gautier seemed to want to run affairs to suit himself. Crouder was called in and a dispute arose between him and Gautier, the latter hitting at him. Crouder then proceeded to do up his rival in running affairs, and supplemented a beating he gave Gautier by biting him through the nose. Thereupon the police were called in, and Gautier was arrested. As noted in yesterday's issue, Gautier was discharged on this first charge of assault, Worship's opinion and [illegible] dence herein given, resulted from a counter-charge laid, after his trial, by Gautier against Crouder for assault. In summing up the case, his Worship said that Crouder's house was not decently kept. That the standard of etiquette in such a house was not above par, that there was nothing to show that, before Crouder came in, there was any row. That it was not compulsory that Gautier should allow his wife to dance with the Italians. That Crouder invited a collision by standing in the doorway and preventing Gautier leaving, instead of standing aside. He decided that although Gautier might have struck the first blow, that by the time Crouder had hit him several times it was against all reason or necessity for him to follow up his punishment by biting Gautier through the nose, and try to mark him for life, that it was the act of a coward and a beast. That his assault was beyond justification and unmanly. He imposed a fine on Crouder of $10 and $6.65 costs, with the usual time to pay.

When P.C. Stewart gave evidence in this case, he said that neighbors of Crouders complained about the disorderly conduct connected with this place when Saturday's party was given.

MR. J. ROSE ELECTED

Will be Chairman of East Peterborough License Commissioners

Yesterday morning the License Commissioners of East Peterborough, met in town to organize. Those present were; Messrs. Joshua Smithson, Otonabee, J. Knox, Havelock; J. Rose, Warsaw, and Mr. J. J. Crowe, Dummer, the license inspector. The above is the new Board recently appointed by the Ontario Government, and it is needless to say that they are gentlemen in whom the community has most implicit faith, and who will perform their duty without fear or favor.

At yesterday morning's meeting, Mr. J. Rose, of Warsaw, was elected chairman, and Mr. J. Knox, of Havelock, secretary. A meeting has been called for April 20th, on which date the renewal of licenses for East Peterborough will be considered.

Treat all Canadians alike in school as in other matters, and there will be no minorities for Sir Wilfrid Laurier to worry himself about.

AN ITALIAN HERO

Two Boys Saved From Drowning by Dominico Memma

Two lads, by name, Stanley Lewis, son of Mrs. Thaddeus Lewis, 472 Park street, and Edward Murty, son of Mr. Charles Murty, 40 Elm street, each aged about ten years, were on Monday fishing firewood out of White's Creek, and fell from a log, on which they stood into the raging torrent, and were quickly washed over the dam. The swollen waters of the creek were hurrying them along twisting, twirling and benumbed by cold to almost certain death, when a brave Italian lad, Dominico Memma, of between 12 and 13 years of age, who is living with the Minicolo Bros., on Elm street, ran to the rescue, as the nearly submerged boys were hustled along to the Donegal street bridge. At great risk to his own life, Memma managed to save first Lewis, and then Murty. The two boys had a close call and owe a debt of gratitude to their rescuer that they will doubtless never forget.

Children should, particularly at this time of year, be cautioned, if not absolutely forbidden, about playing near these creeks.

A WIFE'S MEMORY

Senator Geo. A. Cox Gives $50 000 to Endow a Chair in Victoria Univ rsity

Peterborough raises men who succeed and whose deeds ring out in the hearing of all Canada. The Methodist Social Union, as announced in a previous issue, gave a banquet in Victoria Hall, Toronto, on Monday evening. The leading feature of the assembly, was an announcement by Dr. Potts, Joint Educational Treasurer with Hon. George A. Cox, of the Methodist Church of Canada, that the sum of $100,000 had been given by the trustees of the Massey estate towards the $300,000 fund for the augmentation of Victoria College endowment. He further stated that the document stated that on condition the church raised $100,000, an additional $100,000 would be gained to make up the desired sum.

Dr. Potts next made the announcement that in an interview with Chancellor Burwash and himself just before six o'clock last evening, Hon. George A. Cox had headed him $50,000 for the endowment of a chair in memory of Margaret Cox, his late wife, the lady who had laid the corner stone of Victoria College, June 15, 1891. Dr. Potts, with evident joy, said the total gifts towards the $100,000 necessary to complete the amount aimed at, were now in the neighborhood of $75,000, and it would never do in Toronto, with such names as he had in his pocket book, to stop at $300,000. He would therefore announce the sum to be aimed at as $350,000, and he believed if he asked for it then it would be forthcoming, but refrained from doing so. It is understood, though not yet announced, that E. R. Wood has subscribed $15,000, and J. W. Flavelle, $5,000.

RUSSIA RESTLESS--CRISIS BELIEVED TO BE VERY NEAR

The Whole Nation is Seething with Revolution ---Nobles are Obliged to Guard Their Country Houses for Fear the Peasants will Attack Them.

St. Petersburg, March 29.—The action of the nobility of the Government of Moscow at the meeting held yesterday in urging the necessity for some measure of popular representation while taking a distinct stand against a constitutional government of the kind enjoyed by the nations of Western Europe, introduced the first organized conservative element in the situation. Most of the nobles are landed proprietors, who have become greatly alarmed by the peasant movement which is threatening property in the country, and they will undoubtedly try to rally to their support the city property interests, all of which they claim are endangered by the growing tide of lawlessness. The nobles urge that the time has come for co-operation with Government for mutual self-protection, pointing out that the strikes in the cities, by sending thousands of workmen filled with revolutionary ideas back to their villages, besides introducing political ideas among the peasants only increases the latter's demands for land. In many districts the landlordds are organising guards to protect their property at their own expense, the troops which the Government is able to send being insufficient. Roving bands of peasants continue to pillage, burn and murder in the Chinogov Government, and in Tamboff, Casan and other governments in the south. The few troops here and there are powerless.

G.T.R. WASHOUT

Lily Lake Again Giving the Usual Spring Trouble.

Lily Lake, better known as the "Sink Hole," is a bete noir to the Grand Trunk people in this district. The land about this place is swampy, and, as the snows melt, Lily Lake overflows, and the water washes out about the track. The G.T.R. authorities have taken the matter well in hand, and a gang of men have been kept busy for several days, and it is not apprehended that there will be any further delay of trains between here and Omemee. About 23 years ago, the G.T.R., then styled the Midland, spent a great amount of labor and money at this spot putting in tons of lumber, trees and earth to make a good firm foundation. Still this spot gives more or less trouble every spring.

GOT OFF EASY

Silas Pearson Fined $5 for Assaulting His Wife

Silas Pearson was yesterday morning, at the County Police Court, found guilty of an assault on the sharer of his woes and joys. The assault was committed last Thursday, and, if Silas does not behave himself, he will next time run up against more than a V.

The kitchen rolling pin or a good large kettle of boiling water is what Silas ought to get an introduction to. On Friday afternoon the County Magistrate will try the case of a breach of the Health Act. A man owning a number of hogs has been feeding them other things than quail on toast and eggs poached with the sunny side up, and will either have to pay the penalty provided by the act, or give his hogs such food as is fit for them, winsome creatures.

A LONG FELT WANT

Improvements to the Post Office to Take Place Forwith

Mr. R. R. Hall, our energetic member of Parliament, has advised The Times that the Department of Public Works, have awarded to Mr. Daniel Belleglem, of Peterborough, the contract for the making of the changes in the Peterborough Post Office, and the extension to the building.

These changes involve the putting in of an entirely new and increased number of letter boxes, also the establishment of two wickets, at which letters will be delivered, and another wicket at which parcels will be delivered.

Two entrances to the Post Office will also be provided, the present one at the corner will be retained, and an entrance from Water street will also be opened up and provided.

The contractor has received instructions to proceed with the work at once, and have the changes made at the very earliest possible date, and at the same time to make the changes with the least possible inconvenience to the general public.

OUR CONGESTED POST OFFICE

(To the Editor of The Times.)

Dear Sir,—Through the efforts of your worthy journal and this notice, I trust that a long-felt want will be granted to the public, and it is surprising to me that a city like Peterborough, with its enterprising and progressive citizens, should have overlooked this trifling matter so long. Now, in most any city or town throughout the country you will find a post office with better facilities than we can boast of. Our post office has not got half enough letter boxes to accommodate the demand, and it is scandalous to see the way that women are subjected to insult in our present post office in trying to get their mail. The way they are crowded around by men and boys is a shame. It seems that men loose all sense of common decency in front of that window where the general delivery mail is distributed. When a gentleman meets a lady on the street he tips his hat, or on a street car he resigns his place to her if the car is crowded, but at the post office he crowds and elbows her around as though she were an animal. I wish to suggest that if a brass railing were put in front of that window, and the public compelled to enter at one side in single file and exit at the other, it would be a more satisfactory and quicker way of handling the large crowds that call there daily for mail, and the clerks could work to more advantage than they now do.

I trust that you will agitate this matter, and see that it is brought to the attention of the proper authorities for the benefit of the public. As for myself, I have not called for mail in three weeks, because I dread the ordeal, and, as for my wife, she would not go if she never got a letter. Thanking you for the space, I remain,

A SUBSCRIBER.

Peterborough, March 27, 1905.

[We may add, for the information of our correspondent and the public, that, through the efforts of Mr. R. R. Hall, M.P., the post office is shortly to be put in first-class shape. —Ed. Times.]

BALTIC FLEET IN FAIR SHAPE

Admiral Rojestvensky Has Worked Wonders

DISCIPLINE VERY SEVERE

Few of the Older Officers Expect to Meet Japanese or to put up Much of a Fight

London, March 29.—A correspondent of The Express, writing from Durban, Natal, under date of March 7, says that he had just returned from Madagascar, where he was three times on board the battleship Knias Suvaroff, the flagship of Admiral Rojestvensky. He also made a number of visits to Lafi, a dozen other battleships and cruisers of the Baltic fleet. He states that Admiral Rojestvensky has worked wonders with the fleet. He was unable to see any evidence that the ships were foul or dirty, the men untrained, undisciplined and rebellious, or that the morale was as hopeless as it was reported to be when the fleet left Europe. The ships still looked somewhat unprofessional, but were clean and trim, except their bottoms, which were more or less covered with barnacles. The discipline was excellent, but severe. The men were subjected to the heaviest punishments for the smallest delinquencies. When the fleet arrived at Nossi Be there was much drunkenness, but this was practically stamped out at the time the correspondent visited the warships. The men were too tired to do anything but sleep after their day's exercises. The officers expressed eagerness to meet the Japanese fleet but the correspondent was convinced that few of the older officers believed that they would ever engage the enemy or that they could make any sort of fight if they did. It would be absurd to compare the fleet with a British or German fleet, but the men looked reasonably workmanlike. The fiction that the French were preserving neutrality was amusing. Although the Russian ships were anchored outside the three mile limit, they sent boats ashore daily. They obtained bullocks, chickens and all sorts of supplies without difficulty. Many men in North Madagascar have become rich through their traffic with the Russians.

Mr. B. Morrow to Change His Residence.

Mr. Bernard Morrow, County Registrar, has engaged, and will soon occupy as a residence that beautifully situated house opposite Victoria Park, on Water street, at present occupied by Mr. John Crane, Manager of the Ontario Bank. Mr. Crane will soon be moving to the house, lately known as the Ullyett property, which he recently purchased from Mr. Craig.

IRRIGATION IN KANSAS

Garden City, Kan., March 29.—Irrigation experts, electrical and mechanical engineers and officials of the geological survey are in conference here today to consider plans for utilizing the underflow of the Arkansas River in irrigation work in Western Kansas. The government has appropriated $50,000 to begin this work. The meeting is held for the purpose of deciding upon the plan of operation.

THOUSANDS UPON THOUSANDS of the best known people in Canada have greatly benefited by use of Allens Lung Balsam. It cures deep-seated coughs and colds as well as all cases of Croup, Quinsy, Bronchitis, and similar affections.

—It will be known to-day whether or not the Colonial Ink Company intends to desert Peterborough, as the directors were in session in Hamilton yesterday discussing this subject. Whilst we have every wish for success for the company, we hope the result will be a continuance here.

LOTS OF VIGOR, NERVE, VITALITY

To Get Bracing Health—Feel Good—Sleep Well—Enjoy Life, Use

FERROZONE

A TRUE NERVE TONIC

When you read the following experience of Mrs. N. E. Peabody, of Trenton, you will realize what enormous benefit sick people get from Ferrozone.

Every woman will recognize in Mrs. Peabody's case sympathetic troubles which she has suffered herself.

AMONG HER TROUBLES WERE:

Headaches,	Weariness,
Nervousness,	Weakness,
Palpitation	Loss of Flesh,
Dizzy Spells,	Poor Appetite.

HER STATEMENT.

"I was stricken with nervous disease of the heart and stomach. Violent headaches made life a torture. I was so nervous and weak I could scarcely walk. Work was impossible. I couldn't eat or digest anything. When completely wrecked, Ferrozone restored me. To-day I am vigorous and strong and well."

Thousands of man and women are unable to do work requiring power of body and mind. Let them take Ferrozone. It restores the energy of youth, gives back vital stamina, creates reserve force. No medicine on earth contains such concentrated nourishment. Price 50c. per box, or six boxes for $2.50, at all dealers in medicine, or Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning DAILY published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $4 per year, strictly in advance.

UNION LABEL

PETERBOROUGH, MARCH 29 1905

WHY SHOULD NOT RUSSIA BE HUMILIATED?

We are constantly hearing from St. Petersburg that peace can be made only on terms that will not humiliate Russia. Her prestige in the East must be maintained. Her position as an Eastern power must be recognized. Her national honor must not be stained. The feelings of the Czar and the Grand Dukes, the nobility and the bureaucrats, the diplomats and the generals, must not be wounded in any way.

It may be said as a general truth that nations completely beaten in war are in no position to talk about their honor and their feelings, to stand on their dignity and resent humiliating terms of peace. This plea on the part of beaten nations is always regarded a little contemptuously as a mark of weakness.

Everybody remembers how Bismarck resented the plea that France, as the leader of civilization, ought not to be humbled and mulcted after it had proved unable to defend itself. The way to hold up national honor and to avert national humiliation is to win victories instead of endure defeats. Nations that take the sword and cannot wield it must perish by the sword. We know of no way to make the position of a defeated nation dignified and comfortable.

But there is a special reason why the plea of Russia to be saved from humiliation should be received coldly everywhere and scornfully in Japan. What has been the attitude of Russia towards defeated or weaker nations? How did she treat Turkey before the Congress of Berlin bound her hands? What consideration has she showed for subjugated Poland? When has she lost an opportunity to humiliate helpless China? How much regard has she shown for the feelings of her loyal subjects in Finland? How has she dealt with that unhappy part of the Jewish people which took it under her foot?

Come to Japan itself. What title has Russia to claim generous or considerate treatment from the victor whose sword is at her throat. Let us go back ten years. What respect did Russia show for the dignity, the prestige, the national feelings, the standing as an Eastern power of Japan in 1895? Japan had won a national war by valor and sacrifices. She had reaped its fruits in a treaty generous enough to the vanquished. Then came Russia, like a highway man, with her two allied bullies, to seize for herself everything Japan had won in the war.

It was a robbery to match the rape of Poland. It was done with all shows and conditions of humiliation for the nation robbed. Manned by Russia's fleet across the sea of Japan, daunted by the alliance with two great European powers, exhausted by her efforts in the war with China, Japan submitted to the supreme agony of humiliation that destroys weak nations and fills strong nations with an undying flame of passionate revenge.

Now her turn has come. For ten years the nation armed and trained itself like an athlete for the arena. It has taken complete and condign vengeance. The menacing fleet of 1895 is scrap iron. The army gathered to defend the plunder Russia took from Japan is a bloody and fleeing mob. Russia is humiliated as no nation has been humiliated since France. Her prestige in the East is gone. Her position as a military power there is destroyed.

Why should Japan not recognize this fact and compel Russia to recognize it? Why should she not trample under her feet the brutal and ruthless power that humiliated her ten years ago? It may be wise and prudent for Japan to be generous of her own free will; but it does not lie in the mouth of Russia to ask for it.

PUTTING IT PLAINLY

Our esteemed contemporary, The News, puts it this way: It is doubtful if a single member of the House of Commons, either to the right or left of the Speaker, is deceived by the specious argument that the Government is continually obliged to create a Separate School system for the new Western Provinces. The truth is that the Bills now before Parliament represent a bargain between certain Ministers and the Roman Catholic Hierarchy, and in consequence of this secret compact, we must accept an interpretation of the Canadian constitution, not by the Supreme Court of Canada or the Privy Council of the Empire, but by the Church of Rome. This is not said in order to excite feeling, nor as an appeal to religious bigotry, but as necessary to an exact understanding of the situation which now exists.

It must be clearly understood that the aggression comes from the Hierarchy and its political agents. The petitions of Orange Lodges, and the resolutions of Protestant religious bodies, and the protests of many public journals are all incidents in a warfare of defence and demands for a simple observance of the constitution under which the nation was erected. There can be no peace under any other conditions and no surrender to deliberate challenge and attack.

$500 REWARD $500

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address, F. J. CHENEY & Co., Toledo, O.

Sold by Druggists, 75c.

A PATHETIC DEATH

Old Man Stricken While Living in His Wife's Tomb

New York, March 28. — Jonathan Reed, 70 years old, the "hermit of Evergreen Cemetery," who since the death of his wife eight years ago lived by day in her tomb was stricken with apoplexy in the tomb this afternoon. He was unconscious and apparently dying on the stone floor of the vault when a laborer found him. At the Kings County Hospital it was said to-night that he had improved slightly. The doctors, however, believe he cannot survive.

Mr. Reed had the interior of the tomb furnished with many of the household articles his wife had used. He said his wife was as dear to him as ever and that it was his duty to be with her and keep warm the body which had become cold by death.

MIRRORS ARE A NUISANCE in the house of a man whose face is branded with eczema. His own reflection shames him. Let him anoint his inflamed blotchy skin with Weaver's Cerate and purify his blood with Weaver's Syrup.

TO WED ALFONSO

Marriage of Duke of Connaught's Daughter Being Arranged

New York, March 29. — A Madrid special to the Herald says:

In official circles the assurance is given that during the present visit of the Duke of Connaught to the Spanish court at Madrid, the marriage of the King, Alfonso, to the Princess Victoria Patricia, has been definitely arranged. The difficulties with regard to the religious question have been settled.

WHAT DO YOU DO WITH THE MONEY YOU SAVE?

Are you depositing it in bank? If so what interest are you receiving? NOT MORE THAN 3 TO 3 1-2 PER CENT we daresay. AND NOW COMES THE VITAL QUESTION. What is the banker doing with your money? The money you have placed with him for safe keeping. For answer read the official bank statement given below of the 1st National bank of ——— ———. It may be seen at our office at any time. It is as follows:

RESOURCES		LIABILITIES	
Loans and discounts	$300,799 31	CAPITAL STOCK PAID IN	$ 75,000 00
Overdrafts, secured and unsecured	364 98	Surplus fund	60,000 00
U. S. Bonds to secure circulation	20 000 00	Undivided profit, less expenses and taxes paid	2,161 53
STOCKS, SECURITIES, ETC.	300,000 00	National Bank notes outstanding	24,000 00
Banking-house furniture and fixtures	13,000 00	Due to other National Banks	4,200 46
Due from National Banks (not reserve agents)	1,000 25	Due to Trust Companies and Saving Banks	10
Due from approved reserve agents	13,841 48	Due to approved reserved agents	7 000 71
Checks and other cash items	1,630 71	Dividends unpaid	4,704 00
Notes of other National Banks	3 150 00	Individual deposits subject to check	560 372 66
Fractional paper currency, nickels and cents	200 00	Cashiers checks outstanding	705 50
Lawful money reserve in bank, viz—Specie $46 519 00			
Legal tender notes 11,000 00	57 519 00		
Due from U.S. Treasury, other than 5 per cent. redemption fund	1,000 00		
	$730,539 93		$730,539 93

Pay particular attention to the items printed in bold type. They tell you an interesting [illegible] authorized capital of the bank or $300,000 has been and is now invested in stocks.

PONDER OVER THIS STATEMENT If you are a bank depositor doesn't it make you think? It should! Who reaps the benefit of these investments of YOUR MONEY! Do you get it? Not if the bank knows itself. You get your little 3 or 3 1-2 per cent and the bank gets the rest. Why cannot you

INVEST YOUR OWN MONEY

Your opportunities for ascertaining the value of your investments are just as good as that of your banker. Why do you not utilize these facilities for your own profit? You owe it to yourself and your family and to the world to assert your own INDEPENDENCE. If you have made bad investments in the past, DON'T BE BILLY enough to let the fact check your ambition to become your own business manager. Profit by your mistakes and GET WISE.

If you desire information regarding your investments write to us. If you desire to dispose of your investment write to us. If you desire a new investment that is ABSOLUTELY SAFE and which will return large PERMANENT DIVIDENDS to you instead of your banker,

Write to us at Once. Keep Your Capital in Action.

That is the only way to make MONEY GROW. We will advise you and we will not charge an exorbitant fee for so doing. WE CAN HELP YOU AND WE WILL.

FORTUNES ARE BEING MADE IN KANSAS OIL

Here's a fortune for you. Not 10% but 100% and no risk of loss. Giant of the Oil Fields.

The Midland Oil and Gas Company

has over 180 acres of oil land and has put down 10 wells, so the land is proved up. An adjoining additional 80 was secured yesterday, making over 260 acres all in the proven belt. Just read this:

The U. S. report on the oil industry places the average daily production of Pennsylvania wells at only one-half a barrel each per day. The Midland wells are pumping

Sixty Barrels a Day Each.

The pumping plant has just been started and this is the surprising result. Nothing like it in the world. The officers and directors of this company are bank men and do not believe in debts, so the company is free from debt. They have nearly $20,000 in cash and bills receivable in the treasury and everything paid for—property, wells, pumping plant, oil tanks, well cleaning machine and everything connected with the company. Have two drilling rigs working night and day sinking wells. Have abundance of gas, which runs the drills and pumping plant, so it only costs about $5.00 a day to produce and market the oil.

The Company has about 33 per cent of its stock in the treasury as a reserve.

For a short time the Company will sell a little more of its stock at only

7½ CTS. A SHARE

Buy all you can raise money to pay for.

We could talk all day about it and not cover all the strong points. But as the company has long grand property paid for, there is only one side to it, and that is profit. Don't buy stock in a company that tells you what they will do, but buy in this company, that has proved its property, and every dollar you put in makes it better. Send for particulars or mail check to

From the Kansas City Journal, Feb. 26, 1905.

There is perhaps no people in the same amount of territory in the world who have increased in wealth so rapidly. Everybody is prosperous. Many once poor and hard working families have become immensely wealthy.

Hudge Hale, an old Frisco conductor, has become a millionaire off of oil. He got in the game early. Now he has money as well as oil and gas to burn.

Fred Hetrick, a farmer living near Chanute, had a hard time for years making both ends meet. Life was a hard proposition with him. His royalties now reach $1,000 a month and he is living on easy street.

Joe Heim, of the Kansas City brewery, took a flyer in oil leases. He first put in $100 and refused $12,000 for his investment. Later he put in a lot more money in gas and oil lands and is now figuring high.

George Z. Work, the Chicago clothier, took some acres of land near Chanute for a debt a customer owed him. Work's partner refused to stand for the deal, so Work kept the land himself. He has since refused $50,000 for his holdings.

These are a few samples. Hundreds of farmers have become independently rich off their oil royalties, and hundreds of other men have made big money producing oil.

This Kansas oil bearing sand is like the Pennsylvania sand; wells will produce oil for fifty years.

Can give bank references, and dozens from people who have personally examined this great property.

CZAR'S ARMY IS FACING STARVATION

Prince Ukhtomsky Declares That Peace is Imperative

SLUMP IN RUSSIAN BONDS

Newspapers Admit the War is a Failure—No General Mobilization Orders Yet

St. Petersburg, March 28.—Prince Ukhtomsky declares that peace is imperative because there is no bread for the army, all the grain accumulated at Harbin having gone to Mukden or having been transported south by Chinese.

The Russian press demands the abolition of the post of Viceroy of the Far East and of the Committee on the Far East, tacitly recognizing the loss of Manchuria and the consequent futility of the war.

The announcement that the internal loan would be issued at 90 caused a further drop in prices on the Bourse today.

FEARS FOR VLADIVOSTOCK

Russian Staff Believe Town in Serious Danger

London, March 28.—The St. Petersburg correspondent of The Times says he has exceptionally good authority for stating that the mobilization plans for the present are in abeyance. Generals Dragomiroff and Grodekoff within the last few days obtained corrected reports of the Russian casualties and other losses, and are able to estimate the strength of the Russian position. They believe that Gen. Linevitch is in no immediate danger, but the gravest concern is felt for Vladivostok.

The official reports received immediately after the battle of Mukden were in many respects exaggerated, especially regarding the losses of the Daghestan and Gen. Rennenkampff's brigades, but the general staff is still unable to give the total Russian losses. The correspondent adds that the peace rumors continue to circulate, their increasing persistency being due to a belief in the likelihood of the acceptance of the good offices of France as mediator.

FAMINE FOLLOWS WAR

Ten Millions of Russians Starving to Death

Berlin, March 28.—Professor Reussner, an authority on Russian affairs, in an interview today declared that ten million inhabitants of the Russian Empire are literally starving. Eighty per cent. of the population are unable to purchase the necessities of life, he said. Mortality from starvation is increasing by leaps and bounds. In some districts it has reached the enormous figure of 10 per cent. monthly. The peasants are living like animals, devouring hay fodder, rats and mice. The awful popular upheaval in the Empire, he declared, is not due to any political reasons, but to pure hunger.

WAS BADLY THROWN

Bomb Exploded Behind Instead of under the Carriage

Warsaw, March 29.—Baron Von Nolken, chief of police of Warsaw, who was injured by the explosion of a bomb yesterday, owes his life to the bad aim of his assailant, who threw the bomb behind instead of underneath the carriage. The body of Von Nolken is full of innumerable splinters of the bomb. His assailant has not yet been arrested.

The man who previously threw a bomb into the police station at Praga, a suburb of Warsaw, injuring six policemen, is believed to be dying. He was injured by a fragment of the bomb as well as by bullets fired at him by the police.

He refuses to reveal his identity, but declares himself to be a Socialist. The greatest excitement prevails throughout the city.

SITUATION WORSE.

Yalta, Crimea, March 29.—The situation here is becoming worse. Rioters have destroyed all the warehouses and vodka shops, and the police station and a number of shops have been set on fire. Troops are guarding the post office and treasury building. The arrival of reinforcements of soldiers is expected momentarily.

GORKY IS AILING.

St. Petersburg, March 29.—Maxim Gorky's lung trouble is increasing the anxiety of his friends. The doctors declare that his transfer from Riga to South Russia is absolutely essential to his recovery.

DO THE RIGHT THING when sore chest and tickling throat warn you that an all-winter cold threaten. Use the staunch old remedy, Perry Davis Painkiller, and get rid of the pest in twenty-four hours. 25 and 50 cts.

TO CANADIAN INVESTORS

Thomas Patterson & Co. Have a Fine Copper Proposition.

Fifty dollars invested in Granite Mountain Mining Company's stock paid the purchaser $34,500, besides several thousand dollars in dividends. One hundred dollars invested in Boston and Montana Mining stock paid the purchaser $44,000, besides several thousand dollars in dividends. A few dollars invested in shares of the Butte Copper Mining & Smelting Company stock, will not only insure you big returns in dividends, but a handsome profit in an increased value of the stock. Our mine is not a prospect but a copper mine which has produced $160,000 in profits in the last three years.

For the purpose of buying adjoining ground we have placed on the market 50,000 shares of our treasury stock. This stock is fully paid and non-assessable. Par value $1.00 per share. We will sell any part or all of this lot at 60 cents a share; no certificate issued for less than 100 shares. Send us your order for what stock you want and we will reserve it for you,—pending your investigation of our company; and when you have received our prospectus and satisfied yourself that the investment is a good one, you can send us the money and we will issue the stock, or have the stock sent through any bank you may designate. SAVED!

The Story of How the Property Was Rescued by the Re-organization Committee.

Darkness seemed to prevail on all sides and it looked as if this fine property was going to be lost to those who had put their hard earned money into it, when out of the darkness there came a ray of hope in the person of our present Treasurer, Mr. S. A Hopkins, an honest, energetic young business man who realizing the great value of the property and also having large interests therein got associated with him a friend of his Mr. J. T. Auerbach a Boston Attorney representing some 50000 shares; Mr. Geo. C. Boggs, our present President, a man who had invested a large sum of money in the proposition and having looked in to it well was convinced of the large returns which if properly handled would soon come. Mr. Boggs was president of the first National Bank of Finleyville, Pa., and a man largely interested in the Pennsylvania Coal, and also in its oil fields. He joined hands with the other two and made a strong triple alliance. To these men in a very large measure we owe the successful re-organization. They were ably seconded by the 1,200 stockholders who composed the company, all joining hands in the work of rescue. It was no small undertaking that these men had before them, the work of getting the property out of the receivers hands, the starting up of work again and last, but not least, the raising of funds to accomplish all this with. After a full discussion, the committee decided on the following plan, which was only open to the old stockholders, viz: any one holding 100 shares in the old company on the payment of $100 received 200 shares in the reorganized concern. The men who came into the reorganization were the men who had already put some $325,000 for which they had received about 325000 shares, being an average cost of $1 per share So that anyone having fully covered himself the shares would average about 60 cts. So that anyone coming in now at 50 cts. is doing as well, if not better than 1,200, who have borne the trying times and you will have share the harvest. By this means over $40,000 was raised with which was settled all legitimate accounts against the old concern, many claims being disallowed. After all was gotten in readiness for business with all pressing claims settled there remained in the treasury some $28,000 with pledges of $22000 All this meant an immense amount of work, the various groups of stockholders being visited and a plain statement of affairs given them. To those who did not come into the re-organization, this applied mainly to the men who held promotion stock, their stock was simply cut in two. If 100 shares were held in the old they only held 50 in the new, where in the old company only 750,000 shares remained in the treasury, under the new flag 1,600,000 remained. So you can see how much stronger our position was. A new charter was obtained coming into force 28 December, 1903, the old King Crowther to be forgotten with its failure and successes, and Union fait la force to be the watchword of the now BOSTON & TEXAS CORPORATION.

The work of the new company will be taken up tomorrow.

Are you, man or women, going to share in this offer; an offer which I do not believe will be ever yours again to refuse or accept. Be wise and send your order for stock while it is to be had.

If you have not got $1,000 to invest, perhaps you have $100 or even $50 buys 100 shares Will stand by all that has been said by me about the property.

Can furnish references. Crowther, Mc Mullen Company, Texas is where our field operations are going on. We own over 7,000 acres and control over 80,000 acres more.

My option for this block of stock that I have been offering has been extended to the 1st of June, but after that date positively no more will be offered unless in the open market.

FACTS-NOT THEORIES

ABOUT THE

Marconi Wireless Telegraph Company

OF CANADA, Ltd.

The Company has now established and fully equipped nine stations on Canadian soil.

Each of these stations is on a commercial basis.

It has already installed the Marconi apparatus on five of the boats of the Allan Line and the balance of the fleet is to be supplied as soon as the Company can complete the work. The system is giving complete satisfaction to the Steamship Company.

Among the stations above cited is that at Glace Bay, which has been relocated further inland to improve its position for transatlantic service. Mr. Marconi will be in direct supervision of this station within a month, and the parent Company in England has officially stated that he will positively install the perfected high-power apparatus which will guarantee uninterrupted transatlantic service for the immediate future.

The stations already installed form a complete net work covering the coast line of the Gulf of St. Lawrence and the contingent Atlantic coast and afford the British Navy and all mercantile steamers equipped with Marconi apparatus a sure means of communication with land whenever it may be necessary.

Messages are accepted at every Western Union and Postal Telegraph office in the United States and Canada for transmission to transatlantic boats at any point on their natural course to the mother country.

There have already been selected the sites, and the plans have been drawn for the building of new stations along the St. Lawrence which will give the Company a connected system well into the heart of Canada.

A year or so more will see these stations dotting Canadian soil at every point from the Atlantic coast to the Great Lakes where the volume of business will warrant their establishment.

The Canadian Government has appropriated large sums of money as a subsidy for the Marconi system and gives every evidence of continuing its appropriations until such time as the Canadian Government are afforded an absolutely complete wireless system.

These are facts and not theories and can be positively verified by anyone who takes the small amount of trouble necessary to do so.

In other words, there are tangible assets and a business on a commercial basis to represent the money already expended in the promotion of the

MARCONI WIRELESS TELEGRAPH COMPANY OF CANADA, LTD.,

and the immediate future will be a continuation of this condition.

Marconi's Wireless Telegraph Co. (Ltd.) of England is working on the same system as that of the Canadian and American Companies. It is therefore interesting to note the results already attained by the English Company. This Company has been established somewhat longer than the Canadian Company, but the later has all the advantage of the experimental period of the former and the attendant great saving in expenses which may seem to produce no tangible results. The English Company has issued its annual report, which shows a handsome return on the total capitalization of the Company. The stock is dealt in on the London Stock Exchange. This could only result from a very complete knowledge on the part of those interested in stock exchange transactions as to the actual intrinsic value of the stock.

The stock of the American Company advanced from $4 to $6 per share. The history of all great enterprises of a similar character to the Wireless Telegraph, namely the telephone, the telegraph and the cable, shows that the early investor in these enterprises has reaped a tremendous return in the form of dividends, and the original investment has now assumed the proportions of a great fortune in itself. In other words, the purchaser of stock in those companies during the early days has received his investment back again in the forms of dividends many, many times over, and still he holds stock which represents from ten to forty times its original purchase price. Could any investor feel better satisfied with any investment that he could possibly have made?

The Marconi Wireless Telegraph Company of Canada should not only bring an equal return to those who invest in its stock, but it should bring this return in far shorter time than in the case of its predecessors, because of the fact that it has a broader field of income, and has the benefit of a more highly developed scientific field from which to draw any needed assistance. It is no longer necessary to do what might be termed missionary work, because the public now takes advantage of the telephone, telegraph and cable as a matter of course, and any scepticism as to their value has been dissipated, at the preliminary expense and to the subsequent profit of those pioneers.

There seems no logical argument, therefore, to disprove the claims of the Marconi Wireless Telegraph Company of Canada to the support of the investing public. We have been so closely connected with the history of this Company, that we have watched its growth not only with pleasure, but with surprise. We have repeatedly called the attention of the public to the Company, and it is reasonable to presume that we could not have continued to interest ourselves in it unless we believed in it ourselves and were confident of its future success. The stock of the Canadian Marconi Company is now selling at 95 per share, but developments in connection with the Company which may occur at any moment in the immediate future, will mean an advance above that price. We therefore do not hesitate to advise anyone to purchase the stock in any quantity from one to two hundred shares, according as he has funds for investment, and we believe that immediate advantage should be taken of the present selling price of the stock.

We are ready and willing to answer any and all questions that may be put to us by prospective investors in the stock, and have on hand reading matter which covers every detail of the the subject.

TO CANADIAN INVESTORS

Oregon-Idaho Gold Mining Co.

INCORPORATED

Capital $5,000,000. Shares $1.00 Each, Par Value, Fully Paid Up and Non-Assessable.

We have just secured the agency for the above splendid proposition, of which we have been allotted a block of Treasury stock. We can confidently recommend this as a safe and, we believe, tremendously profitable investment. Every dollar of stock is guaranteed by twenty year, full paid, gold bond, delivered to purchaser of stock, from an Investment Company that has no interest whatever in the company, but who are disposing of the debentured bonds to the public, and, under their charter, they are compelled to deposit securities to an equal amount, to the State Treasurer under which they received their charter, there by doubly securing the payment of their gold bonds.

The Company's property, which is now past the project stage, is known to be marvellously rich in gold.

Following is the opinion of G. W. Miller, Mining Engineer, formerly with the Boston and Montana Consolidated Copper and Silver Mining Company, U. S.; Simmer and Jack Mining Co., Limited, Kimberley South Africa:—

"You have here a most valuable property and one of the strongest fissure veins that can be found in any part of the world.

"With the present development of the Monument Mine, I estimate that 100 tons per day can be extracted, which will mill from $15.00 to $20.00 per ton. The total cost of mining the ore, delivering and milling, I place at about $4.00 per ton. With increased milling capacity, it is safe to say that the mine can furnish 100 tons of $15.00 ore, which would yield a clear profit of $11.00 per ton, or $1,100.00 per day (equal to $400,000.00 per annum). Estimated total value of ore in sight, $3,800,000."

During the past summer, a party of the Company Directors visited the property, taking with them, Amos P. Brown, Ph.D., Mining Engineer and Professor of Geology and Mineralogy at the University of Pennsylvania. Dr. Brown writes as follows:—

"In regards to the amount of ore available at the mines at Singiser, I saw on the dumps several thousand tons, probably 5000 tons would be an under-estimate.

"As to the size of the ore body itself, from what I saw of the geological structure, I think that there is every indication that it will be found to extend underground as far as the out-croppings on the south side of the gulch. This would mean an ore body large enough to keep the present mill running for many years to come.

A write up of the proposition will appear in these columns in a few days. Watch for it. In the meantime we will be pleased to furnish full information to investors.

THOS. PATTERSON & CO.,
FISCAL AGENTS. PETERBOROUGH

IT HAS PAID OTHERS TO READ THIS

IT MAY PAY YOU

A HIGH GRADE INDUSTRIAL AND MINING INVESTMENT

We have thoroughly investigated it and found it to be right in every respect Did you ever have a chance to invest in a straight legitimate money making proposition? If not,

THIS IS YOUR OPPORTUNITY

We own a monopoly of the water right privileges in the Thunder Mountain mining district, State of Idaho, U.S.A.; seven water rights in all; one developed and in use. The property of the Company consists of over 1400 acres, with plenty of timber for building and mining purposes, a saw mill fully equipped and in operation, a 10-stamp mill now on its way from the R. R. Station to the property, and 40 additional stamps to be purchased at once and installed during the coming summer. This is the largest and most favorably situated property in the district. Some of the tunnels have been driven over 400 ft., cross-cutting many dikes, demonstrating that we have an inexhaustible body of ore. The ore bodies are sampled by an assayer every 10 ft., and assays run from 40c. to $900 per ton. The ore is free milling, and can be mined and milled for about $1.00 per ton.

This Company has had a phenomenal growth, and "The Thunder Mountain Prospector," published at Roosevelt, Idaho, where the property is located, states that this Company is three times as large as any other Company operating in the district. 30 men at work on the property. Over $60,000 worth of stock sold within the last 90 days. Only 100,000 shares more to be sold at 25c. per share. You cannot afford to miss this opportunity; investigate at once.

Not Only Relief, but Lasting Cure

Is What You Get From Catarrhozone Which Eradicates Every Trace o Catarrh From the System.

Relief is a good thing, but we soon get tired of it and look for a remedy that will drive the seeds of Catarrh right out of the system. It is only a waste of time to trifle with internal dosing. You must treat Catarrh locally because it is a local disease.

The most sensible treatment is Catarrhozone which really does reach the diseased membranes in a most thorough way. Every case of catarrh can be cured if Catarrhozone is used. It unquestionably penetrates every air cell and air passage of the breathing organs. It completely destroys the catarrh germs and heals the inflamed membranes.

Every requirement of an ideal catarrh cure is embraced in Catarrhozone. Other treatments may have failed to even bring relief, but one trial is sufficient to prove merit in Catarrhozone not found in the ordinary snuff or wash that unscrupulous people sometimes recommend for catarrh.

If you are subject to colds, catarrh or throat trouble you will find quick relief and lasting cure in fragrant, healing Catarrhozone. Mrs E. P. Fairbanks, of Durham, was cured of chronic catarrh by this remedy and endorses it in the following letter, which speaks for itself;

"I suffered continually from catarrh which affected my throat. My nostrils were usually inflammed and I was greatly bothered with droppings in the throat which made me sick at my stomach. I had a bad taste in my mouth, and felt a ringing in my ears. I read of Catarrhozone and commenced to use it. In a few days it helped me more than I ever expected. I used it four times daily and it two weeks most of the disagreeable symptoms disappeared. I continued the Catarrhozone treatment for six weeks and was perfectly cured. The catarrh has never returned."

Every complete outfit of Catarrhozone sufficient for two months' use is guaranteed to permanently cure; trial size 25c. Sold by druggists or by mail from N. C. Polson & Co. Hartford, Conn., U.S.A., or Kingston, Ont.

Death of Mrs. Jane Huffman

Yesterday morning an old and respected citizen of Peterborough, passed away in the person of Mrs. Jane Huffman, relict of the late Timothy Huffman, aged 68 years. The deceased, who lived at 114 Albert street, had lived in town nearly all her life, and was widely known and respected. She was born in Yorkshire, England, and came to Canada when about nine years of age. Her death is mourned by six sons and two daughters. They are, Christopher and Charles, of Peterborough; Washington, of Idaho, U.S.A.; Richard and Joseph, of Toronto; Bert, of Peterborough; Mrs. (Dr.) McGrath, of Montana, and Miss Elizabeth, at home. The funeral will take place on Thursday afternoon, from the family residence, 114 Albert St. to Little Lake cemetery.

Cavanville Farmers Go West

Still another batch of people from this district yesterday left for the Northwest. The party were mostly farmers, or people interested in farming, and most of them were from the neighborhood of Cavanville. Among those who went were, Messrs. Berg. Wood and wife, Harry Lang, Payson Elliott, S. Sutton and Joseph Clark. They will take up land in Melita, Man., and at Frobisher and Alameda, Assa. They took live stock and farming implements with them.

T.A.S. to Put Oysters Out of Sight

Messrs. Laing and Maher promised to give an oyster supper to the champions of the City League during last hockey season. This kindly encouragement of good, clean sport, will take tangible form this evening, when the T.A.S. Hockey team will be their guests at McCallum's Restaurant at nine o'clock. The members of the T. of the various clubs in the league, and the press representatives have been invited to attend. A pleasant time is anticipated.

Worse Than Ever

With all the kicking that has so vigorously been done lately about the roads leading to Peterborough, we have never been molested from our milk supply as have our neighbors of Lindsay. The Lindsay Post says; Hotel guests have been deprived of cream for their porridge, coffee and tea for some days. Owing to the desperate state of the roads the milk men have been unable to make their regular trips to town, and as the Creamery, which receives quantities by rail, will not retail it in small lots, the result has been a cream famine. What this means will be understood when we say that the Benson House uses five or six quarts daily in addition to about five gallons of milk.

A Physician's Trouble

A well known Peterborough physician lost his night key a few days ago, the door was locked; he was cold from a long ride; and the more he rang the night bell the more the suspicion grew in his mind that some one had chloroformed the entire household. Finally, however, one of the family was aroused by a long ring of the bell. Hastily throwing a loose gown over her nightdress, she hurried to the door. Opening the door the least bit, in order not to present her dishabille to an intruding eye, she shouted through the crack, in a tone of sleepy impatience, "The doctor's out," and was about to close the door, when the physician thrust one foot through, and at the same time exclaiming: "Yes, I know the doctor's out; but he wants to get in!"

Special Low Rates to the Pacific Coast

The Canadian Pacific Railway from now, and daily until May 15th, are offering special colonist rates to Vancouver, Victoria, Seattle, Tacoma, Portland, Oregon, and all Pacific Coast points. The rates being named are exceptionally low. The fare from Peterborough for instance, being but $43.80, with corresponding reductions from other points in the Province of Ontario. Economy and solid comfort are combined in the celebrated tourist sleepers operated by this company, leaving Toronto at 1.45 p.m. on Tuesdays and Saturdays for Vancouver without change and from North Bay, connecting with train leaving Toronto at 1.45 p.m., on Sundays and Thursdays. By paying an almost nominal berth rate, passengers holding colonist tickets can avail themselves of the excellent accommodations thus afforded. British Columbia, Canada's most westerly province, possesses vast resources, and offers new fields and extensive opportunities particularly for the miner, the farmer, the lumberer, the fruit grower and the rancher. "British Columbia," a pamphlet brim-ful of trustworthy information bearing on the province, folders descriptive of the tourist sleepers, and other interesting and valuable literature may be had for the asking on application to C. B. Foster, D.P.A., C.P.Ry., Toronto, or any Canadian Pacific Agent, who will also gladly furnish all details to persons contemplating such a trip.

Personal and Social

Movements of the people in and out of town . . . .

—Mr. Joseph Maher was in Lindsay yesterday.

—Mr. Henry A. Moore, of Dummer, was in town yesterday.

—Mr. George Cairns, of Huntingdon, West Virginia, has returned to town.

—County Councillor Moloney, of Douro, was in town yesterday.

—Mr. C. W. McCullagh, of Granby, Que., is in town on business and called upon several friends.

—Lindsay Post says; Messrs. K. E. Laurence and W. Green, of Peterborough, paid Lindsay a visit Saturday.

—Miss Rose McGinty, of Rochester, N.Y., is visiting her sister, Mrs. R. P. Dormer, 95 Patterson street.

—Mr. Charles Whitton of the P.W. Ellis Company, Toronto, was in town over Sunday and Monday, on business.

—The Belleville Intelligencer says; Conductor J. D. MacMillan, of Peterborough, formerly of this city, was in the city on Saturday.

—Mr. and Mrs. Walter Scott and Miss Scott, Charlotte street, have returned from a pleasant winter's stay at Los Angeles, California.

—Mr. Thomas W. Richardson, Superintendent of the Long Manufacturing Co., of Orillia, who was in town for a few days, returned to Orillia Monday.

—Mr. A. J. McClellan has returned from Buffalo, where he placed orders for ten thousand tons of coal for the Peterborough Fuel and Cartage Company.

—Mr. George L. Porter, representing the Black Rock Gold and Mining Company of Chicago, was in town yesterday and gave The Times a friendly call.

—Mr. William J. Geary, for the past twenty-five years employed with Mr. M. McFadden, left last week for Collingwood, where he has accepted an excellent position. Mr. Geary's many friends will wish him every success in the northern town.

ELEVEN YEARS of constant use in Blythe, Ont., is Dr. H. J. Milner's experience with "The D & L" Emulsion. Do you suppose he would have continued ordering it, unless it was the best?

Local Incidents

BY THE TIMES MAN ON THE STREET.

—La grippe is raging at Clamong.

—Court of Revision was held last night.

—The Town Council will meet tonight.

—Yesterday afternoon the W.A.A. met and nominated officers.

—St. John's Young Men's Guild met last night and organized a baseball club.

—The regular monthly meeting of the Dan Spence Council, R.T. of T., took place last night.

—About fifteen or twenty people left for the Northwest by yesterday morning C.P.R. excursions.

—The office bearers of St. Paul's church met last night at eight o'clock in the church parlor.

—Why be without a fountain pen when you can buy the "Rival" for only 95 cents at Times Bookstore?

—There will be a practice of George street church choir to-night at 8.30 o'clock. A full attendance is request ed.

—At the regular meeting of Otonabee Lodge, No. 13, I.O.O.F., held Monday night, three candidates received the initiatory degree.

—Rev. E. A. Langfeldt spoke to the boys attending the Grove school, Lakefield Monday night on "Bismarck as a Statesman."

—Special evangelistic services are going on nightly in three of the town churches—Park street Baptist, St. Andrew's and George street.

—Mr. W. MacIlroy, late C.P.R. passenger agent at Galt, has been promoted to a similar position here, in succession to Mr. T. E. Boddy.

—The saw mill of the W. B. Kelly firm, Bridgenorth, will start operations this week. A large number of logs are waiting to be run.

—Last night there was held a meeting of the Men's Guild of All Saints' church, to arrange the formation of a baseball club and other matters.

—All Saints' church held their annual meeting last night. Mrs. Edwards of Toronto, was present. The rector gave a very interesting address.

—Mr. John Dawson, of North Bay, who returned to Downer's Corners a few weeks ago, is seriously ill. His condition does not show much improvement.

—At last night's Court of Revision a number of cases of re-adjustment of measurements of frontage pavements were settled, and some held over till next meeting.

—William S. Givens of Millbrook, has been appointed Clerk of the Fourth Division Court of Northumberland and Durham in place of H. M. Wood, who has resigned.

—The special services in St. Andrew's church were continued last night. The service was preceded by singing. The great joy of the Christian Church was the subject.

—The Separate School Board held a short session Monday evening at which they discussed the plans for the new school. The building will be a modern one in every particular.

—Married man—A good steady worker—wants permanent employment or would accept day work in the meantime. Leave word at this office or apply to 281 Park street.

—Handsome glass vases for long stem flowers on bargain this week at Times Bookstore for ten cents each. Regular price 20 cents. Don't miss this chance, but come early.

—Messrs. Quartermaine and Martin, who audited the town's books, have completed their work, and their report has been handed in to the town clerk. It will be presented at the next meeting of the Council.

—The local barbers have decided to try to have a by-law passed through the Town Council by which barber shops will have to close on all week day nights, except Saturday, at 8 o'clock, and on that night at eleven o'clock.

—The Children's Aid Society has had an increase in its family of two boys removed from improper environments by Mr. Cochrane, agent of the society. The King's Daughters have been caring for them previously.

When you want a life-like Portrait in Oil, Crayon, or Water Color, don't fail to come to B. Hudson's Studio, where the work and prices are always right. Gifts in Pictures, Frames and Fancy Work. Lessons in Painting and Pyrographic Work. Studio, 134 Brock street, Peterborough.

—An interesting euchre match will take place at the Young Conservative Club rooms to-morrow evening next when the T.A.S. and the Young Conservatives will have a match. The T.A.S. will send up thirty representatives, and fifteen tables will be kept going for a couple of hours.

—The House Committee of the Y.W.C.A. desire to thank those who have so kindly responded to the appeal towards the furnishing of the new building. Contributions in money, bed and table linen, have been received, but comparatively little has been contributed towards furnishing the dining room, and a large number of bedrooms are still to be furnished.

IF YOU WANT TO KNOW
WHAT AILS YOU
the U. S. mail will bring you the best medical advice for only the cost of writing materials and stamps.

Many people owe their present good health to the fact that they consulted Dr. Pierce by letter, giving him all possible information about their condition, symptoms, etc., and received in return good medical advice *which cost them nothing*. Write to Dr. R. V. Pierce, founder of the Invalids' Hotel and Surgical Institute, Buffalo, N. Y.

Dr. Pierce by no means confines himself to prescribing his well-known medicines. He tells you in the most common-sense way what ails you, what you ought to do, what line of treatment should be followed out in your particular case, and if your case does not indicate the need for this proprietary medicine, he tells you plainly and frankly *what you do need*, and the best possible method of improving your health.

Dr. Pierce treats many chronic cases at a distance, through the mail and all you have to do is to write him your symptoms.

"During my two years of married life I have not had good health," writes Mrs. Daisy Stoddard, of 603 S. Esplanade Avenue, Leavenworth, Kans. "I was all run-down, and my husband got me to write to Dr. Pierce. I got an early reply telling me what the trouble was. I commenced taking Dr. Pierce's Favorite Prescription, and also the 'Pleasant Pellets,' and now can say that I feel like a new woman. I do all my work and do not feel tired out like I used to. I have taken eight bottles of the 'Favorite Prescription.' It makes one feel well and strong."

Dr. Pierce's Pleasant Pellets cure dizziness and sick headache.

George		
London, Murray to Lot 6 e.	117 60	35 30
Water		
Robidoux, Block to Lot 12 Charlotte	1,666 66	200 16

A Court of Revision will be held on the 10th day of April, 1905, at the hour of 7.30 o'clock p.m., at the Town Council Chamber, for the purpose of hearing complaints against the proposed assessment, or the accuracy of the frontage measurements, or any other complaint which the persons interested may desire to make and which is by law cognizable by the court.
Dated Peterborough, March 23rd, 1905.
S. R. ARMSTRONG, Town Clerk

NOTICE

NOTICE is hereby given that a By-law was passed by the Council of the Corporation of the Town of Peterborough on the 14th day of December, A.D., 1904, providing for the issue of Debentures to the amount of $3,000 for the purpose of paying for alterations in the heating apparatus of the Central Public School, and that such By-law was registered in the Registry Office of the County of Peterborough on the 14th day of March, A.D., 1905.

Any motion to quash or set aside the same, or any part thereof, must be made within three months after the first publication of this notice, and cannot be made thereafter.

Dated the 14th day of March, 1905.
S. R. ARMSTRONG, Clerk.

The Canadian Northwest

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

[1] At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead of the cultivation.

[2] If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

[3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses [2], [3] or [4] must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 3rd of June, 1905.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Offices in Winnipeg, or at any Dominion Lands Office in Manitoba or the North-west Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the Free Grant, Timber, Mineral Lands, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the North-west Territories.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

BEST ADVERTISING MEDIUM IN EASTERN ONTARIO

VOL XXXIII NO 75 PETERBOROUGH ONTARIO, THURSDAY MARCH 30 1905. PRICE TWO CENTS

$25,000 FOR A NEW FIRE HALL AND SITE.

A By-Law to Borrow This Amount will be Submitted to The Rate Payers on May 4th.

The Town Council met in special session last night, when there were present; Mayor Henry Best, and Aldermen Johnston, Begley, Hicks, Mason, Crowe, Leary, Adam Hall, Tovey, Scott, McIntyre, Adams and Batten.

The minutes of the preceding meeting were confirmed as typewritten and distributed among the aldermen.

NEW RAILWAY SIDINGS.

A by-law to consent to the C.P.R. constructing a siding across Rink street into the Shovel Company's premises passed its several readings.

By-laws to permit the C.P.R. to construct additional sidings across George and Wolfe street, passed their several readings.

NEW FIRE HOSE.

A by-law to authorise the execution of a contract with the Gutta Percha and Rubber Company, of Toronto, for 500 feet of fire hose at 90c. per foot, passed its several readings.

NEW FIRE HALL.

Ald. Johnston tabled a by-law to authorize the borrowing of $25,000 for the purchase of a site for, and the erection, and equipment of, a new fire hall. This by-law provides for the installation of a modern alarm system, a chemical engine and other up-to-date appliances.

His Worship suggested that before submitting this by-law to the ratepayers, a copy be sent to the Underwriters, with a request that they report as to what reduction in existing fire insurance rates the carrying out of this scheme would secure for the town.

Ald. Crowe remarked that two much money would be centralised in this new hall; he thought that the construction of substations, to use in connection with the present fire hall, would meet all requirements. He credited the chief of the brigade with asserting that a new engine is not needed, and that the present one is only used once in years.

Ald. Hicks replied that the town needs a good central station first; sub-stations could be added later from time to time. We also need not only a new engine, but the best the town can get.

Ald. Johnston, Hall, Leary and Tovey strongly concurred in this view of the crying and immediate need of a new and up-to-date fire hall and appliances, as embodied in the by-law, which on motion of Ald. Hicks will be submitted to the ratepayers on May 4th next.

LICENSE BY-LAW.

A by-law to license and regulate hawkers and peddlers' passed its several readings. The licence fees will be $50 where a horse and wagon is used, $40 for a push cart, and $20 for foot peddlars and hawkers. Any violation of this by-law will be punishable by a fine of not exceeding $50 and costs.

THE RATES.

A by-law to fix the rates at 18 mills, and to authorize the levying of taxes, passed its several readings. An additional half mill will be added for street watering. The Separate school rate is 19 4-10 mills.

ARBITRATOR APPOINTED.

A by-law to appoint John Carnegie an arbitrator to ascertain the amount to be paid by the town to the county for administration of justice, etc., passed its several readings.

STREET WATERING.

A by-law to provide for street watering passed its several readings.

GENERAL TAX QUESTION.

Ald. Adams submitted the following:

Gentlemen,—Your Committee of the Whole Council beg leave to report as follows;—

1. That we examined the draft of the Bill prepared by the Town Solicitor for presentation to the Legislature and approved of it, except that by order of this committee the clause asking for authority to change the method of paying for granolithic side walks from the present system to that of a general tax was struck out.

2. We authorized the Solicitor to prepare a by-law to authorise the watering of the streets in the same districts as last year, and to levy a rate of 1-2 mill on the dollar on the property in the districts.

3. We recommend that the Treasurer be authorized to issue a cheque to the Town Solicitor for $100 required to be sent with the private bill the town is asking the Legislature to pass.

4. We recommend that new fixtures for part of the space in the Town Clerk's office be purchased from the Canada Cabinet Company at a cost of $135.90 as recommended by Ald. Adams and Mason in a report to this committee which is attached to this report.

5. We recommend that the Town Solicitor be authorised to tender Miss B. McMahon $1,000 for part of her land required for widening George street south of Lake street, according to Cameron's plan. Miss McMahon to be allowed to use the house during the term of her life, and that the Treasurer be authorized to issue a cheque to the Town Solicitor for that sum for the purpose named.

6. We recommend that a by-law be passed to fix the license fee for peddlars at $30 for a foot peddlar, $40 for peddlars with push cart, and $50 when an animal is used.

7. We recommend that the Treasurer be instructed to send accounts to those for whom private concrete walks were built last year in accordance with a statement of the Town Engineer, amounting in all to $333.64.

8. We recommend that Ald. Hicks be added to the Fire, Water and Light Committee.

9. We recommend that all committee meetings be open to the reporters of the papers.

10. We authorized the Chairman of the Fire, Water and Light Committee, and the Chief of the Fire Brigade to go to Toronto to purchase supplies for the Fire Department, and the Treasurer to pay their expenses, and we recommend that this be confirmed.

11. Your committee examined the estimated receipts and expenditures for this year as submitted by the Chairman of the Finance Committee and recommended that the rate of taxation be 18 mills on the dollar in accordance with them, with the understanding that work on the bridges be paid for by issuing debentures under a by-law that has been passed for that purpose.

All of which is respectfully submitted.

Ald. Adams moved that clause 1 be amended by striking out all of the wording following "approved of it," and then adopted.

This would mean that after the Council in Committee of the Whole had decided not to seek legislature authority to change the system of paying for granolithic walks from a frontage tax to a general rate, they re-open this question once more, and seek legislation to endorse the vote of the ratepayers taken on January last.

Ald. Adams contended that the ratepayers having voted in favor of a general rate, the Council were obligated to seek the required legislation.

His Worship replied that the ratepayers did not thoroughly understand the question.

Ald. Adams took exception to the Mayor's contention.

His Worship—"You are working for cheaper sidewalks in your particular division."

Ald. Adams replied that this was not the first time that it had been hinted that he was working in the interests of No. 5 Ward. He emphatically denied the insinuation; he used his best efforts on the Council Board in the interests of the whole community, and not his own ward in particular.

Ald. Hall moved, seconded by Ald. Leary,—That the report be adopted as read, and not amended as urged by Ald. Adams.

This resulted in the following vote;

Yeas—Ald. Hall, Begley, Mason, Crowe, Leary and Tovey.

Nays—Ald. Adams, Batten, McIntyre, Scott, Johnston and Hicks.

This result being a tie, his Worship casting his vote with the yeas, and the report was then adopted as read.

This means that the Council will not seek legislation to change the existing method of paying for granolithic walks.

Ald. Leary here said he wished to make himself square on this question. He is in favor of paying for these walks by a general rate; but he does not approve of re-opening such questions time and again after they have been definitely settled in Committee of the Whole or in open Council. Such child's play is making the aldermen the laughing stock of the town, and should it continue I shall resign my seat. This is the reason I voted against Ald. Adams."

PLUMBING INSPECTOR.

Ald. Johnston here asked if the plumbing inspector question were altogether dead. Was nothing going to be done in the matter.

No move was made in this question; even Ald. Mason remained silent.

GRIEVANCES.

Ald. Johnston urged that the Board of Works make some effort to prevent a recurring of the recent flooding on Aylmer and Reid streets. This will be attended to.

Ald. Begley drew the Board of Work's attention to a deep and dangerous ditch on Downie street, which should be filled in.

REFUSE GROUND.

On suggestion of Ald. Hall the town will advertise for tenders for a refuse ground.

INCREASE OF SALARY.

Ald. Hall submitted the following;

Gentleman,—Your Supervision Committee beg leave to report and recommend that Constables Adams, Stewart and McGinty be given an increase of salary of $100 each, and Chief Rowsel of $150.

All of which is respectfully submitted.

This was referred to a Committee of the Whole Council.

Continued in To-morrow's issue.

If the Ontario contingent in the House of Commons had demanded that an anti-separate school clause be inserted in the constitution of the new provinces when Quebec insisted that a school clause must be added, there would have been room for a compromise which would leave the new provinces free

RUSSIA'S LOSS HALF A MILLION

This Vast Force Said to Have Been Sacrificed

London, March 30.—The Times special says; If we were to accept without question the estimate given out by the General Staff in St. Petersburg of its work during this war it would be necessary to believe that the Russian commanders in the field had frittered away the lives of half a million men. The General Staff says that since the war began, and up to March 1st of this year, it had forwarded to the far east 761,467 men, 146,408 horses, 1,521 guns, and 316,321 tons of munitions and supplies. Since it is agreed that the whole Russian force available, even for getting itself killed, in the far east does not now much exceed a quarter of a million, it is a necessary interference that the Russian losses have amounted to half a million.

But it is quite incredible. In the first place, the estimate of 60,000 Russian troops in the far east at the beginning of the war must be far too small. It is quite absurd to say that peaceful propensities of the Czar prevented the reinforcement of the garrison of Russia in Manchuria to a far greater extent. Ever since the Boxer uprising of 1900 gave Russia her pretext and her opportunity in Manchuria, it has been notorious that Russia was reinforcing her troops in the "division of the Amur." Mr. Weale quoting the figures of the Japanese General Staff, estimated the total number of troops under the command of Admiral Alexieff, at the beginning of 1904, at 207,500. Already at that time it was known and published that the whole available Russian Navy was in far eastern waters. The time of the negotiations on the Russian side, after they were transferred from Count Lamsdorff and the peace party in St. Petersburg to the marplot Alexieff at his headquarters, showed an unquestioning belief in the power of Russia to overwhelm Japan in Korea, to say nothing of Manchuria. And surely even Alexieff was not infatuated enough to suppose that that could be done with 60,000 men.

But we have evidence from the Russian side against the present contention of the Russian General Staff, which aims to magnify its own preparations at the expense of the Generals in the field. Just about a year ago there appeared in the Revue Militaire of Paris a survey of the military situation, of which the statements of fact were assumed to be derived from the Russian War Office, and in which the number of Russian troops in the far east was put as 280,000, with the statement that the total would shortly be raised to 300,000, with 100,000 horses. It was computed that this force would need 1,000 tons of food and forage daily, beyond what the Manchurian market would supply, and that the transport of that amount, requiring six trains a day of from thirty to thirty-five each of the freight cars in use on the line, would exhaust the capacity of the Trans-Siberian Road. And this without counting upon any additional transport of reinforcements or of munitions. Without doubt the railroad has been very efficiently managed in the interval.

RISINGS IN RUSSIA INCREASED GRAVITY

Czar Must Hurry Reforms if He Would Save Situation

NO NEW ARMY FOR FRONT

Mobilization Would be too Dangerous —Revolt in Crimea Partakes of Character of Revolution

St. Petersburg, March 30. — The general feeling of alarm over the internal situation, the impatience for reforms, and the desire for peace are reflected in the continuous decline on the stock markets. Russian 4s again fell today in spite of assiduous reports of renewed hopes of a French loan, which would be regarded as a harbinger of peace.

The Novoe Vreyma's efforts to incite the Russians to subscribe to the war loans have proved a failure. The opening of subscriptions today evoked no war enthusiasm.

There is considerable fear that the internal situation may reach a climax before the various reform commissions arrive at a decision. The bomb outrages at Warsaw are a reminder from the Social Revolutionaries that the reform commissions must make haste. It is no longer a question whether the reforms will come, but whether they will come soon enough.

Twelve thousand men are on strike in St. Petersburg, and the recrudescence of the strike here shows the close connection between the Revolutionaries of St. Petersburg and Warsaw.

Reports of agrarian outrages by starving peasants and terrible stories of distress among the Circassians fill the columns of the daily papers. Loud and authoritative voices are heard on all sides warning the Government not to delay.

Gen. Linevitch's army is now apparently prepared to hold its ground but it is doubtful if it will persist in view of the impending occupation of Kirin by Gen. Kawamura, who would thus threaten Gen. Linevitch's communication.

The General Staff is busy preparing plans for the summer campaign. There is no longer any question of the original project of sending out 400,000 men. All such ambitious plans have been definitely abandoned, and it is proposed to conduct Fabian operations in the hope of exhausting the enemy.

Gen. Linevitch has nominally six European, five Siberian, and one cavalry corps, which, with the reliefs and reinforcements now arriving, represent under 250,000 men.

The calling out of last year's reserves, ostensibly for their annual training, is really ordered with a view to the manning of the depot battalions, which are providing drafts for Gen. Linevitch's reduced regiments. The War Office further proposes to send 50,000 men, selected from various corps, to stiffen the army in the field.

These makeshift measures are all that is possible in view of the disturbed condition of the country, which renders a mobilization highly imprudent.

SEPARATE SCHOOLS IN DANGER OF BEING WIPED OUT ALTOGETHER.

Rev. J. E. Starr, Toronto, formerly pastor of the George street Methodist church in Peterborough, in speaking of the Autonomy Bills, said: "The indications now are that the Bills before the House are to become law, and what then? The people of the Territories are for National Schools, their backbone stiffened by the large number of Americans who have gone there and are still going. Very well, suppose that the people of the new Provinces, so coerced by the passing of those Bills, refuse to respect the law; suppose they resist them, as is not unlikely. The Hierarchy, in that case, will have succeeded in placing them in the position of being rebels—actual rebels—and should the Government undertake to enforce the law, the advocates of Provincial rights in the rest of the Dominion would be liable to be summoned to arms to shoot them down!

"For my part, I protest a [illegible] position.

"As it is, the Hierarchy are the attackers and Provincial rights advocates the defenders of the constitution, but once let those Bills become law and the Hierarchy will be in the position of being its defenders, while Provincial rights advocates, if they resist, will be its attackers, and possibly rebels. Then, if the Hierarchy will persist in pushing the Bills into law, so be it! But I give them fair warning. 'Nothing is settled until it is settled right,' and I misapprehend entirely the temper of the great bulk of the people of this country if the outcome of further persistence will not be in the near future the entire elimination of Separate Schools and the establishment of National Schools, even in Quebec!

"Meantime, everything possible should be done to wake up the politicians at Ottawa. I understand 'The Citizens' Association' meets tomorrow in the Y.M.C.A. at 4.30 p.m. Every representative citizen should be there and if I may suggest, they should at once (1) select a Provincial rights candidate for the election in Center Toronto and place him in the field before either party convention selects its candidate; (2) if possible, force the issue of the writ for the election; (3) initiate a petition and postcard campaign; and (4) organize a monster deputation from Ontario (ten train loads) to wait on the Government at Ottawa to say that in the event of the Bills being passed a movement will at once be started to secure National Schools over the whole Dominion."

Royal Baking Powder

45 CENTS a pound can AT ALL GROCERS

25 cents a half pound can

Royal Baking Powder is made from pure grape cream of tartar; is absolutely pure; has received the highest praise from all authorities on food at home and abroad; is used daily in millions of homes throughout the world.

Royal Baking Powder is the most economical thing in the kitchen.

A BURGLARY

Mrs. W. Walsh's House Broken Into and Silver Stolen

That a number of bad boys or young men are making things unpleasant for householders throughout the town, by petty larcenies, is too well known to need further comment. Several residences have lately shown evidence of this kind of thing. Mrs. W. Walsh, who resides on Dickson's Hill, has been spending the winter with friends nearby, and left her house shut up. Every now and then Mrs. Walsh made a call at her house to see that all was well. Two or three days ago, when looking through her house, she found to her disgust that thieves had been at work. They had entered the house and stolen her silver spoons, and other valuable silver-ware. There was candle wax all over the carpet, and the half burnt remains of a candle. The thieves must have possessed a sweet tooth, as a half box of candies had been eaten. These petty thefts have the appearance of having been done by amateurs if not by boys, and should they be captured a lesson would well be given to show that a crime like this is no fun or misdemeanor, and must be stopped.

MR. M. DORAN DEAD.

Death of a Former Reeve of Ennismore Yesterday

Yesterday one of the most popular and influential men of Ennismore passed away in the person of Mr. Matthew Doran, aged 70.

Deceased was from the years 1900 to 1903, reeve of the township, and for about eight years prior to that time was a councillor. He was also a member of St. Martin's T.A.S.

Mr. Doran's death resulted from gangrene, which set in after an amputation performed some eight months ago.

The late Mr. Doran was born in Emily, Victoria County, and lived there for a number of years before removing to Ennismore, where he has, during his residence, been a highly respected citizen. His wife, whose maiden name was Margaret Fitzpatrick, three sons and four daughters survive him. The sons are Messrs. William, Joseph and Matthew J., and the daughters, Miss Mary Ann, Mrs. Thos. Harrington, of Ennismore, and Mrs. Wm. Pierce, of Toronto.

The funeral will take place on Friday morning from his late residence, lot 7, concession 4, Ennismore, to Ennismore Cemetery for interment.

Police Court

OFFICIALS

Chief of Police, G. I. Reed.
Magistrate, D. W. Dumble.

Cecil Shannon sometimes gets a little under the influence. On Tuesday whilst feeling in proper trim to emulate the example set by cowboys in the wild and wooly west, he mounted a broncho on Simcoe street and, not finding the roadway wide enough to exhibit his horsemanship took the pavement on the north side of the street. In his fast and furious career, he succeeded in making a course of ladies move quicker to get out of his way than they had ever done to get to a counter on bargain day. In yesterday's court with many a wink he gave those present to understand that he had fixed things and that it was all right. So it was for the town's finances, as he had to pony up two fines one for riding on the pavement and another for furious riding, in each case contributing a fine of $2 and $3.40 costs, or $10.80 for the ride. Mr. Shannon's explanation that the broncho was unmanageable did not go.

In this morning's court there will be ventilated a charge against a prominent hotel keeper, made by a drygoods man. This charge is the result of the hotelman breaking up a box which the drygoods man says belonged to him. A charge of assault was laid.

Yesterday a local citizen passing along Simcoe street saw a large pocket book lying on a door step. The passerby hesitated for a moment whether to leave the purse where it was until he notified the police, in this case the pocket book with its fat appearing contents might be stolen before an officer was found. On the other hand, by taking it he might, before reaching the station be seen taking it, and his motives misunderstood. As he was waiting, undecided what action to take, he happened to see an officer standing at the corner of George street. The officer immediately was notified, and hastened to secure the purse, which was opened, and found to be full—of child's little playing checkers.

MANIAC KILLS HIS BROTHER

Alfred Quick Slowly Strangled to Death After a Long and Terrible Struggle

Strathroy, March 28.—On Saturday afternoon, Alfred Quick of Caradoc Township, a farmer 29 years old, was strangled to death by his brother Robert, who is aged 45 years. The murderer, who was undoubtedly unbalanced in his mind, succeeded in his awful deed only after a struggle lasting for hours. He was taken to London, and placed in a cell there, and was very violent on the way, frequently roaring like a mad man.

Robert Quick is a widower, living on the tenth concession, with his five children, the eldest of whom is 11 years old. His wife died five years ago, since which time the farm, which was once in a prosperous condition had gone to decay, the husband being unable to work the land and look after the household with its attendant duties. It is said that the loss of his wife affected him greatly. He had always been religiously inclined, the belief in this regard bordering on fanaticism.

RUSSIA'S PEACE OFFER, JAPAN HAS NOT REPLIED

Defeated Country Stipulates at Outset of Negotiations with Japan That There Must Be No Cession of Territory Nor Payment of an Indemnity.

St. Petersburg, March 30.—The Associated Press is in a position to announce that a step in the direction of peace has actually been made.

Russia has indirectly made known to Japan the negative conditions upon which peace may be concluded, namely, no concession of territory and no indemnity, leaving Japan to determine whether negotiations can be begun upon that basis.

No reply from Japan has yet reached the Russian Government.

THROUGH THE UNITED STATES.

The above report represents practically all the facts obtainable. Through what channel or channels Russia has indirectly communicated with Japan, the Associated Press is not in a position to state definitely, although there is reason to believe that it is through the United States. It is practically certain that France, and possibly Great Britain, as the two allies of the belligerents and the United States, as the country acting for Japan, have been apprised of Russia's position. Last night's rumors that President Roosevelt had tendered his good offices to both parties are incorrect. The President's friendly disposition, and perfect willingness to undertake to open negotiations, however, are well understood here, and without asking directly that they be communicated to Japan, Russia could make known to President Roosevelt, through Ambassador Cassini, the conditions to which she could not agree, while thus giving Japan an opportunity of knowing officially what the basis of the peace negotiations must be.

IS NOT SUING FOR PEACE.

Russia avoids the attitude of suing for peace, or actually submitting proposals, and besides, places the United States and Great Britain, and the powers generally, in a position where they could offer Japan advice as to the reasonableness of the proposed basis. Having been apprised of Russia's position, Japan has two alternatives, either to decline absolutely to open negotiations on such a basis, or indicate her own attitude. If the negotiations are opened, Russia probably will be prepared to make broad concessions on collateral issues, as stated by the Associated Press, March 29.

Terms of peace which may meet with the acceptance of both parties are as follows;

Korea to be placed under Japanese suzerainty.
Manchuria to be evacuated by the Russians.
Port Arthur to remain in Japanese possession.
Vladivostock to be declared an open port.
Chinese Eastern Railway, costing two hundred and fifty million dollars, to be sold, and proceeds to be turned over to Japan as an "indirect" indemnity.
Payment to be made for keep of prisoners in Japan.
Number of Russian warships in Easteern waters to be restricted.
No cession of Russian territory.

NEUTRAL POWER WARNS JAPAN.

Washington, March 30.—It is stated here that Japan has received an urgent warning from a neutral power to beware of all offers of mediation from any Government, and to insist upon direct negotiations with St. Petersburg.

JAPAN WANTS 800 MILLIONS.

Paris, March 30.—Although official information is lacking, it is asserted in well informed quarters that Japan has permitted Russia to learn that the peace conditions will be severely rigorous, and will not be responsive to the recent sentimental flee to Japan's magnanimity. In particular, it is said that Japan's indemnity figure is $800,000,000, and that this stupendous sum has proved to be so staggering to Russian diplomacy that it is the chief cause why the peace preliminaries do not advance to a decisive stage.

BALTIC FLEET HALF WAY.

Durban, Natal, March 30.—The British steamer Dart, which arrived here to-day from Rangoon, reports having passed March 19, thirty warships and fourteen colliers steaming eastward 250 miles north-east of the island of Madagascar.

LEFT FOR ENGLAND

Sir Thomas Shaughnessy Has Left for England

Montreal, March 28.—At the Windsor street station a number of prominent citizens, as well as several C. P. R. officials, assembled to bid farewell to Sir Thomas Shaughnessy, who is leaving on a six weeks' trip to England, during which he will look into the Company's European business. Sir Thomas was accompanied by Miss Alice Shaughnessy, and the private car Cornwall was attached to the regular N. Y. C. train for their accommodation. Among those present on the platform were: Mr. Robert Kerr, passenger traffic manager; Mr. W. C. Spencer, superintendent of transportation; Mr. George McL. Brown, superintendent of sleeping and dining car service; Mr. Robert Meighan, Mr. Donald Mannaster, K.C., Mr. R. B. Angus, Mr. F. L. Wanklyn, and Mr. F. B. McNamee.

MUST NOT PREACH PEACE

St. Petersburg Editors Warned to be Cautious

St. Petersburg, March 29. — The chief of the Press Department, M. Belgrede, today summoned the St. Petersburg editors to his office and informed them that the greatest offence a newspaper could commit would be to preach peace at any price. Such a propaganda, he declared, would defeat its own object. The editors must avoid utterances which might prompt the Japanese to increase their demands.

The Novoe Vreyma says that such depression has invaded Russian society that there is talk of peace, even in responsible circles.

Germany Holds Aloof

Berlin, March 29.—The Associated Press correspondent is authorized to state that Germany has made no peace proposals at St. Petersburg. The German Government is carefully avoiding interference, either in the form of advice or otherwise.

"Now I Know the Joy of Health."

I am Brimming Over with Vitality —Appetite is Good—I Sleep Well—I Feel Happy.

FERROZONE

Made Me Feel Like New

One of the earliest settlers in the town of Turnbull, Man., is Mr. John W. McNichol. Everybody knows him; knows how poor his health was for [illegible]

Thanks to Ferrozone, Mr. McNichol is a hearty, strong man today. Here is his statement:

"Last spring I was terribly run down.

"I was so completely fagged out I couldn't do any hard work.

"In the morning I was tired—my limbs ached all over.

"Appetite!—I simply didn't have any.

"Sleepless!—Yes, nervous and unhappy too.

"I turned up at once after taking Ferrozone. It put new life and vitality into my body. My nerves are strong, I eat heartily, I sleep well. Now I know the joy of health.

JOHN W. McNICHOL."

Won't you take Ferrozone too? It's really a marvellous tonic, some people say there is almost witchery in the way it builds you up. It's concentrated nourishment — that's what Ferrozone is—just one chocolate coated tablet to take three times a day. No other medicine in the world restores so quickly. Price 50c. per box, or six for $2.50, at all dealers, or by mail, from N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $4 per year, strictly in advance.

PROGRESS OF THE TWENTIETH CENTURY

Splendid Prospects for the Fortunate Stockholders

PROPERTY IS RICH IN GOLD

General Conditions of this Great Mine —An Expert's Description of The Rock Formations

Messrs. Thomas Patterson & Co., the well known brokers, have secured the local agency of the Twentieth Century Mining and Power Company, Limited, which is undoubtedly one of the most promising propositions ever put on the market. That the public may know something of this proposition, we publish below the report of Mr. Samuel F. Hunt, one of the best mining experts in the country. Mr. Hunt visited the property and made a critical and exhaustive examination of the mine. His report is as follows:

The general public has but an imperfect conception of the many remarkable discoveries of gold and mining history of Idaho Co. Whether to Jean Lassier or Capt. E. D. Pierce should be accorded the honor and notoriety of the first find, is a point in the early history of the county and state that has not been settled; but that Idaho county is the place where gold was first discovered in the state, and its first production began in 1861, there is no chance for disagreement or doubt. While the total production of placer gold in the state exceeds the fabulous sum of $250,000,000, Idaho county alone is credited with one-half of the amount, and today, fully one-half of the placer mines in active operation are within its boundaries.

In the early pioneer days no thought or attention was bestowed on the rank formations from whence those millions of yellow metal must have been derived, and not until many of the Eldorados of old were well night exhausted did the search, in earnest, for quartz veins begin. But, that primitive mining is passing away to give place for a more permanent and profitable modern search for gold in the veins and deposits which enriched the adriferous gravels, that lured the fearless adventurers of a generation ago into those mountain solitudes, is evident on every hand; and one of the outcroppings of this nature, that demands more than a passing notice, here in our own district, is the 20th Century Mining & Power Company.

This company has been operating in Thunder Mountain district for the past three years. Its property covers an area of more than two square miles, or about 1500 acres, and is about three times as large as the territory controlled by any other company in the district.

Its holdings begin 1500 feet south of Roosevelt town-site and extends two miles south up Monumental creek. The State wagon road, completed to Roosevelt last autumn, passes through the middle of the property, by the mill-site, main buildings, numerous cabins and sawmill — constituting a small town of themselves.

The property is composed of 19 quartz claims, 6 placer claims, and 4 tunnel sites. The Central and Empire tunnel sites are situated on the east side of Monumental creek, the Alaska and Toltec directly opposite on the west side, while the placer and quartz claims lie between and surrounding the tunnel-sites on all sides.

I venture to say, that few of the residents of Thunder Mountain district not accustomed to moving about much, are aware of the rapid progress and extensive amount of underground work that has been accomplished on the 20th Century within the last year. Practically all of these interesting developments have been made since general manager James R. Ross was placed at the helm. The 20th Century Co. can flatter itself in the selection and acquisition of a man of Mr. Ross' wide mining experience and conservative ability; for, long before he came to Thunder Mountain, years of his life were spent in the various gold mining ventures that carried him from the careless winters and perpetual ice of the Arctic Circle to the arid deserts of the south where the torrid rays of the sun causes the heat of the desert to shimmer in the air, and the deceptive mirage of limpid water to ripple against its elusive banks of green, ever ahead of the thirsty traveler.

As I am a sort of mining man myself, burdened with a curiosity to know what is being done, and going on, in a district that has kept me busy digging and on the feather edge of financial panic for the past three years, I paid the 20th Century a visit not long ago, to have the satisfaction of rejoicing in the good fortune of others, if not my own. This kind of rejoicing is indirect or second-hand, but is said to be better than not rejoice at all. In company with Manager Ross the entire day was consumed in visiting a number of mine workings now under development with a force of about 30 men, which is the largest crew employed in the district at present; the Dewey mine alone having a larger force. The first workings revealed was the Toltec tunnel No. 2, which is about 900 feet west and above the mill-site, where the foundation for a 50 stamp mill is nearly completed. The tunnel is one of the best pieces of mining work in the district; is five feet wide and seven feet high, with a deep water drain cut beneath the track, and as straight as an arrow. It is being driven under contract by Lon Englebright and Ole Hagberg, two of the most efficient and experienced hard-rock miners in camp. The tunnel is a cross-cut going nearly due west; started to cut, at great depth the Fairview vein, a northward ledge, which is traceable for a distance of three or four miles, and has furnished some of the richest gold specimens found in the district. The work in nearing the 400 foot mark, all of them distances being driven in a coarse, granular diorite, which is, locally, the primary eruptive rock, and footwall of the Fairview ledge. Along the sides of the tunnel, in many places, the porphyry is heavily impregnated with pyrites or iron that presents a dazzling spectacle of beauty to mineral specimen collectors. From the portal of the tunnel, a swath 25 feet wide has been moved through the thick timber, straight for the mill, for a cable tramway which will deliver the ore by gravity.

The next workings examined was the Toltec tunnel No. 1, a few hundred feet to the south. This was a piece of work begun before Mr. Ross took the management of the mine. It was started at a point where a great depth of heavy material was encountered and considerable expense and difficulty have followed, caused by the caving in from surface of the front part of the tunnel. The ground has been caught up and secured of late, and the formation exposed at the breast is similar to that of tunnel No. 2, but farther away from the contact.

It would take too long to describe in detail the various points of interesting geological conditions met with in the Toltec tunnel No. 2, the Central tunnel and several other openings including the Empire tunnel, on the east side of Monumental creek which deserves mention. The breast of the Empire tunnel is in a vermicular, ferruginous rhyolite that extends eastward through the Cleveland mine. The tunnel is pointed east with a view of cutting the Cleveland vein, which is believed to be the south extension of the Dewey.

After lunch and an hour's rest had allayed the famished feeling and fatigue of an arduous morning's work, we set out to visit the Blue Point tunnel, situated about three-fourths of a mile south of the mill, and 1200 feet west of Monumental creek well up on the slope of Blue Cap mountain. This work is being done on the Blue Point group of 3 claims which the company bought of Ed. Seward less than a year ago, and is believed to be the most important development work under way on the entire property. The direction of the tunnel is due west, and, like the Toltec No. 2, is being driven as a cross-cut to intersect at depth a parallel system of ledges, whose surface out-crops are exposed and opened up, on the side of the hill above. The tunnel has gassed beyond the 300 foot mark in depth. With some of its length through rock hard enough to give Procrustes a backache. It is a creditable piece of work throughout, and one that will stand about as the mountain does.

Blue Cap mountain is an abrupt acclivity rising nearly 2000 feet in elevation above the bed of Monumental creek which washes its east base. The melting snows of spring and the summer rains have quarried on the eastern slope, and exposed in cross-section all of the several ledges and formations involved in the make up of the mountain, from summit to bottom. At a time before snow fell, when the geological relations of ledges and dike could be studied with ease, Manager Ross, has with care and painstaking, measured the width and ascertained the character and course of every ledge and dike on the mountain, and has made a geological profile representing the same. The best that can be done is to submit this to record. Beginning at the portal of the tunnel and passing westward the formations in order from No. 1 to No. 14 are as follows: No. 1, burnt sand stone 125 feet; No. 2, pebbly and mottled lime stone 20 feet; No. 3, grey porphyry and iron sulphides 60 feet; No. 4, dolerite 10 feet; No. 5, adesite 40 feet; No. 6, granitic porphyry 50 feet; No. 7, protogine 8 feet; No. 8, felsite 20 feet; No. 9, a ledge of quartz porphyry 60 feet in width with extensively oxidised and decomposed on the surface, and from the many assays Mr. Ross has had made on this ore, the value in gold is in the neighborhood of $5 per ton. No. 10, felsite or andesite 20 feet; No. 11, massive quartz-porphyry 500 feet; No. 12, felsite 30 feet; No. 13, protogine 14 feet; and last, a great development of gabbro, a fourth of a mile wide capping all, and extending to the top of the mountain. The tunnel will cut all these ledges in the order and succession described, and at a depth that will establish their continuity and permanence.

Returning to camp we looked over a 40 acres flat of level land at the juncture of Botha and Monumental creeks that will some day be the site of a thriving mining town; and finished the day with an inspection of the canal, over 2000 feet in length, and large enough to conduct the whole flow of water of Monumental creek. The power generated is used to drive a saw-mill at present, but will later be applied to the reduction of ores.

Just as the gold-seekers of a generation ago were compelled to build trails, bridge rivers, haw their way, and fight Indians to reach the rich placer fields of Idaho, so must we of this day, employ our cash and energy and years of time, in beating our way, with pick and drill, into the rocks of the hills to discover the rich ledges of golden ore that supplied the nuggets to the placers of old; and the sensible way to do it is to work, and work on, as the 20th Century Mining & Power Company's example before us suggests.

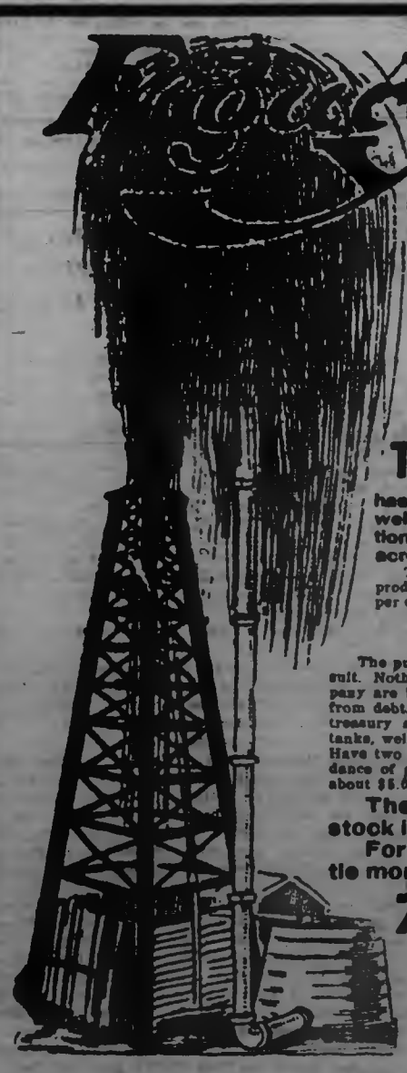
ADVERTISE IN THE TIMES

Put it out for Yourself



FORTUNES ARE BEING MADE IN KANSAS OIL

Here's a fortune for you. Not 10% but 100% and no risk of lose. Giant of the Oil Fields.

The Midland Oil and Gas Company

has over 180 acres of oil land and has put down 10 wells, so the land is proved up. An adjoining additional 80 was secured yesterday, making over 260 acres all in the proven belt. Just read this:

The U. S. report on the oil industry places the average daily production of Pennsylvania wells at only one-half a barrel each per day. The Midland wells are pumping

Sixty Barrels a Day Each.

The pumping plant has just been started and this is the surprising result. Nothing like it in the world. The officers and directors of this company are bank men and do not believe in debts, so the company is free from debt. They have nearly $20,000 in cash and bills receivable in the treasury and everything paid for—property, wells, pumping plant, oil tanks, well cleaning machine and everything connected with the company. Have two drilling rigs working night and day sinking wells. Have abundance of gas, which runs the drills and pumping plant, so it only costs about $5.00 a day to produce and market the oil.

The Company has about 33 per cent of its stock in the treasury as a reserve.

For a short time the Company will sell a little more of its stock at only

7½ CTS. A SHARE

Buy all you can raise money to pay for.

We could talk all day about it and not cover all the strong points. But as the company has this grand property paid for, there is only one side to it, and that is profit. Don't buy stock in a company that tells you what they will do, but buy in this company, that has proved its property, and every dollar you put in makes it better. Send for particulars or mail check to

From the Kansas City Journal, Feb. 26, 1905.

There is perhaps no people in the same amount of territory in the world who have increased in wealth so rapidly. Everybody is prosperous. Many once poor and hard working families have become immensely wealthy.

Hudge Hale, an old Frisco conductor, has become a millionaire off of oil. He got in the game early. Now he has money as well as oil and gas to burn.

Fred Hetrick, a farmer living near Chanute, had a hard time for years making both ends meet. Life was a hard proposition with him. His royalties now reach $1,000 a month and he is living on easy street.

Joe Helm, of the Kansas City brewery, took a flyer in oil leases. He first put in $100 and refused $12,000 for his investment. Later he put in a lot more money in gas and oil lands and is now figuring high.

George H. Work, the Chicago clothier, took some acres of land near Chanute for a debt a customer owed him. Work's partner refused to stand for the deal. So Work kept the land himself. He has since refused $50,000 for his holdings.

These are a few samples. Hundreds of farmers have become independently rich off their oil royalties, and hundreds of other men have made big money producing oil.

This Kansas oil boarding sand is like the Pennsylvania sand; wells will produce oil for fifty years.

Can give bank references, and dozens from people who have personally examined this great property.

BLOOD DISEASES

If you inherited or contracted any Blood Disease you are never safe unless the virus or poison has been eradicated from the system. At times you are alarmed at symptoms, but live in hopes no serious results will follow. Have you any of the following symptoms? Sore throat, sores on the tongue or in the mouth, hair falling out, aching pains, itchiness of the skin, sores or blotches on the body, eyes red and smart, dyspeptic stomach, mental troubles, enlarged glands. Don't trust to luck. Don't ruin your system with the old fogy treatment—mercury, potash and patent medicines, which suppress the symptoms for a time only to break out again when nature is deprived of them. Don't let quacks experiment on you. Our NEW METHOD TREATMENT is guaranteed to cure you. OUR GUARANTEE ARE BACKED BY BANK BONDS that the Blood or Skin disease will never return. Thousands of patients have been already cured by our NEW METHOD TREATMENT for over 30 years, and no return of the disease. No experiment, no risk—not a "patch up," but a positive cure. The worst cases solicited.

W. H. PATTERSON NO NAMES USED WITHOUT WRITTEN CONSENT. W. H. PATTERSON

Before Treatment

MAD BLOOD POISON 12 YEARS

The New Method Treatment Cured Him after Drugs, Mercury, Hot Springs, &c. all failed.

After Treatment

Wm. H. Patterson, of Saginaw, Mich., writes his brother: "I do not like notoriety and especially of this kind, but I feel I owe this much to Drs. K. & K. for the great good they have done me. I had a serious blood disease when 21 years of age. The skin and blood symptoms gradually developed. Pimples and ulcers formed, running sores broke out, hair became loose, pains in the bones and joints, dyspeptic stomach, foul breath, baby skin, etc. R is needless for me to say I tried doctors. I grew to hate the looks of one. I visited Hot Springs twice for four months each time. It helped me temporarily, but in six months after returning home I was as bad as ever. Finally a former friend of mine advised me to see Drs. Kennedy & Kergan. He said he had known of them for over 25 years, and as they made a specialty of these diseases and treated the worst cases by the hundred they ought to be expert in curing them. I was afraid of advertising doctors, but I took his advice. They agreed to treat me under a guarantee or no pay. I investigated their financial standing and found they were perfectly responsible, so I commenced the new method Treatment. The eruptions disappeared in two weeks, the bone pains in four weeks and in four months I was entirely cured. Yes, sir, I can recommend the New Method Treatment for Blood and Skin Diseases."

CURES GUARANTEED OR NO PAY.

Consultation Free. Books Free. If unable to call, write for a Question Blank for Home Treatment.

DRS. KENNEDY & KERGAN

140 SHELBY STREET, DETROIT, MICH.

TO CANADIAN INVESTORS

Oregon-Idaho Gold Mining Co.

INCORPORATED

Capital $5,000,000. Shares $1.00 Each, Par Value, Fully Paid Up and Non-Assessable.

We have just secured the agency for the above splendid proposition, of which we have been allotted a block of Treasury stock. We can confidently recommend this as a safe and, we believe, exceedingly profitable investment. Every dollar of stock is guaranteed by twenty year; full paid, good bond, delivered to purchaser of stock, from an investment Company that has no interest whatever in the company, but who are disposing of the debentured bonds to the public, and, under their charter, they are compelled to deposit securities to an equal amount, to the Bonds Treasurer under which they received their charter, there by doubly assuring the payment of their gold bonds.

The Company's property, which is now past the project stage, is known to be marvellously rich in gold.

Following is the opinion of G. W. Miller, Mining Engineer, formerly with the Boston and Montana Consolidated Copper and Silver Mining Company, U. S.; Bimmer and Jack Mining Co., Limited, Elsenbestain South Africa:—

"You have here a most valuable property and one of the strongest fissure veins that can be found in any part of the world.

"With the present development of the Monumount Mine, I estimate that 100 tons per day can be extracted, which will mill from $15.00 to $20.00 per ton. The total cost of mining the ore, delivering and milling, I place at about $4.00 per ton. With the present milling capacity, it is safe to say that the mine can furnish 100 tons of $15.00 ore, which would yield a clear profit of $11.00 per ton, or $1,100 00 per day (equal to $400,000.00 per annum). Estimated total value of ore in sight, $2,500,000."

During the past summer, a party of the Company Directors visited the property, taking with them, Amos P. Brown, Ph.D., Mining Engineer and Professor of Geology and Mineralogy at the University of Pennsylvania. Dr. Brown writes as follows:—

"In regards to the amount of ore available at the mines at Stagbar, I saw on the dumps several thousand tons, probably 8000 tons would be an under-estimate.

"As to the size of the ore body itself, from what I saw of the geological structure, I think that there is every indication that it will be found to extend underground as far as the out-croppings on the south side of the gulch. This would mean an ore body large enough to keep the present mill running for many years to come.

A write up of the proposition will appear in these columns in a few days. Watch for it. In the meantime we will be pleased to furnish full information to investors.

IT MAY PAY YOU

A HIGH GRADE INDUSTRIAL AND MINING INVESTMENT

We have thoroughly investigated it and found it to be right in every respect Did you ever have a chance to invest in a straight legitimate money making proposition? If not,

THIS IS YOUR OPPORTUNITY

We own a monopoly of the water right privileges in the Thunder Mountain mining district, State of Idaho, U.S.A.; seven water rights in all; one developed and in use. The property of the Company consists of over 1400 acres, with plenty of timber for building and mining purposes, a saw mill fully equipped and in operation, a 10-stamp mill now on its way from the B. R. Station to the property, and 40 additional stamps to be purchased at once and installed during the coming summer. This is the largest and most favorably situated property in the district. Some of the tunnels have been driven over 400 ft., cross-cutting many dikes, demonstrating that we have an inexhaustible body of ore. The ore bodies are sampled by an assayer every 10 ft., and assays run from 40c. to $200 per ton. The ore is free milling, and can be mined and milled for about $1.50 per ton.

This Company has had a phenomenal growth, and "The Thunder Mountain Prospector," published at Roosevelt, Idaho, where the property is located, states that this Company in three times as large as any other Company operating in the district. 30 men at work on the property. Over $60,000 worth of stock sold within the last 90 days. Only 100,000 shares more to be sold at 50c. per share. You cannot afford to miss this opportunity; investigate at once.

DID JAPANESE HOLD MESSAGE?

Russia Asserts Japan Was Determined on War and Held Back Her Final Answer, now Published

Paris, March 30.—The Associated Press is in a position to complete the diplomatic history of the Russo-Japanese relations, resulting in the war, by giving the world, the exact text of Russia's final reply to Japan, dated February 3, 1904, which has never before been published. Baron Rosen, former Russian Minister to Japan, did not have an opportunity of presenting the note to Baron Komura, Japanese Foreign Minister, as it was not delivered to him until February 7, the day after he had been informed of the rupture. Russia has always claimed that the Japanese Government, having decided to break off negotiations and begin hostilities, deliberately held up the message at Tokio until M. Kurino, former Japanese Minister at St. Petersburg, could deliver the instructions sent him February 5, to sever diplomatic relations. Japan, on the contrary, contended that the contents of the reply having been substantially communicated by Foreign Minister Lamsdorff to M. Kurino, and being unacceptable on the main issue, it was useless for Japan to wait any longer. The text of the propositions follows:

"1. A mutual engagement to respect the independence and territorial integrity of Korea.

"2. An engagement on the part of Russia not to impede the commercial or industrial undertakings of Japan or industrial undertakings of Japan in Korea, nor oppose her measures for safeguarding such interests.

"3. Recognition by Russia of Japan's preponderating interests in Korea and her right to offer advice and assistance tending to the improvement of the administration of Korea.

"4. A mutual obligation not to use any part of Korean territory for strategic purposes, nor undertake on the coast of Korea any military works which menace free navigation of the Korean Straits.

"5. Recognition by Russia of Japan's right to send troops to Korea in accordance with the preceding articles, for the suppression of insurrections and disorders calculated to create international complications.

BEYOND HER SPHERE.

"6. An engagement by Russia to respect the rights and privileges acquired by Japan, as well as other powers, in Manchuria, through treaties with China. Japan to recognize Manchuria and the littoral as beyond her sphere of interest.

"7. A mutual agreement not to impede the junction of the Korean and Eastern China Railroads when they reached the Yalu River.

"8. That the agreement supplant all previous agreements between Russia and Japan respecting Korea.

"9. The desirability if possible of creating a neutral zone in Korea."

—Monday evening the water at Lily Lake, near the site of the old "sinkhole," about three miles west of town, overflowed the track, and traffic was delayed. Trains had to be sent around by way of Millbrook. Trains are, however, running via the short line to-day. Several trainloads of cinders have been placed at the site of the flooded track.

AN ANGLO-JAP ALLIANCE NOW

The Formation of These Two Would be Potent Against all Comers

London, March 29.—Another empire dream which Englishmen are beginning to take up seriously comes from Japan. Leading Japanese writers and thinkers are convinced now of the potency of the Anglo-Japanese alliance and are warmly advocating a firm fighting alliance with England against all comers, especially against continental Europe.

The Times correspondent at Tokyo, who is the most authoritative English exponent of Japanese, says:

"The Japanese foresee that it will be necessary to provide means of safeguarding the larger empire which will be the reward of their victory.

"With acquisition of Baghalien their interests demanding protection will not be limited to China and Corea, but will be considerably extended.

"To keep this extension secure Japan is prepared to pay a great price. England has brought against herself a new grievance and a new danger in Tibet. Japan is willing to see her through whatever difficulty that may arise there, England still has to make herself safe in Persia, and Afghanistan. Her defensive armor is vulnerable in both regions. Japan is ready to be part of that armor.

"Suppose that England could command the services of the Japanese army of 900,000 men and supplement it by her own fleet, plus the squadron of Japan, would not England and Japan together be able to impose peace wherever aggression dare lift its head?"

So we read in authoritative journals and it is quite evident that these are no mere Tennies of the moment, but the deliberate expression of Japanese wishes, about which must be said when the present Anglo-Japanese alliance terminates. Upon the conclusion of the war Tokyo is to be the first of a new Anglo-Japanese world policy.

WHAT WIRELESS IS — WHY IT WORKS

(This is the first of four chapters which will give a very plain description of wireless telegraphy and one which should be read by everyone so that they may be intelligently acquainted with this latest and greatest development of science.)

CHAPTER I.

Over a century ago Newton explained to the world that all unsupported bodies fall to the ground because of a certain force which he then called, and which has since been known as, "the force of gravity." He did not [illegible] for the force of gravity has been exercising its influence since the creation of the world. You and I could not walk and the great buildings of a city could not be erected if the force of gravity did not exist and exercise that strong and constant pull keeping everything, so to speak, drawn toward the earth and its center.

Before Professor Newton gave this peculiar force a name and gave a clear explanation of what and why it was, people thought that things fell to the earth because they were heavy, but they did not know that it was this peculiar force pulling them toward the earth which gave them that quality which we call weight.

Wireless telegraphy is just as simple as the action of gravity, for it depends upon things which Nature has provided for the world and which have also been in existence since the world was created. It is surprising that its discovery was so long delayed. As Newton gave a correct explanation of gravity, so has Marconi harnessed Nature and made himself familiar with one of its possessions and one which is always about us. Nature has charged the air with this electricity because it is needed to keep people, and plants, and every growing thing, alive. Wireless telegraphy simply requires the harnessing of that electricity, just as a river is controlled to make a water wheel turn and supply the power for a mill. The electricity in the air is constantly in motion, but not in any regular direction. It is more like the waves of the sea, which are sometimes high and sometimes low, but always in motion. Wireless telegraphy compels that electricity to travel in a certain way and with even and regular force.

You have thrown a stone into a pond of water and seen the little circles of waves which start from the point where the stone struck and go on and on toward the shore in constantly increasing size until they disappear. If it is a small stone which you throw, the waves will be small, while if it is a large stone which you throw, the waves will be of considerable size. The instrument which sends the message, and which will be described in a later chapter, sends forth a strong or a weak current of electricity. That added electricity in the air acts as does the stone. The electricity in the air is not in motion as are the waves in the pond and it is given a definite direction. In circles of constantly increasing size, the electric waves start from the sending station and travel on indefinitely. The station which receives the messages is like the shore and it intercepts those waves as they come to it.

Chapter 2 will appear in this paper next week and will describe the instruments which send those messages and the way in which receive them, and will tell more about the way in which this unseen force Nature can now be controlled.

MARCONI SAILS TO-DAY

William Marconi, the great wireless inventor, sails from Liverpool this afternoon on the Cunard steamship Campania, for New York and is due to arrive at that port on Saturday next.

The annual report of Marconi's Wireless Telegraph Company, Limited, of England, says: "As a result of Mr. Marconi's experiments, the company is now in possession of all the data necessary for the equipment of stations for good commercial working between England and the continent of America, and a new station embodying the latest improvements equipped on a commercial scale is already nearly completed in Canada."

The station referred to is the one at

=GLACE BAY, NOVA SCOTIA=

which is one of the stations owned by the Canadian Company, and is for the purpose of installing the perfected high power apparatus in that station that Mr. Marconi is making his present trip to this side of the Atlantic.

This is but one of the important developments of the immediate future which will enhance the value of the stock of

The Marconi Wireless Telegraph Company OF CANADA, Ltd.

and which make it an investment worthy of most careful investigation by people who wish to make a conservative use of their investment funds.

With the newly perfected apparatus for the fast transmission of messages, a single transatlantic station with one pair of instruments will earn

$1,120,000 PER ANNUM

It is safe to presume that the number of stations and instruments will be increased as fast as business warrants such a step. Such a tremendous return on the capital invested was never enjoyed by any previous enterprise in the history of the world's great inventions. Is it reasonable to presume that the selling price of the stock will long continue at $5.00 per share under such conditions?

Any desired particulars may be obtained by application at any one of our offices.

Take Advantage of This Golden Opportunity To Make Yourself INDEPENDENTLY WEALTHY

by simply making yourself acquainted with the facts as to what this great Company has done already, is doing now and its prospects for the future. Don't neglect the chance!

SAVED!

The Story of How the Property Was Rescued by the Re-organization Committee.

Darkness seemed to prevail on all sides and it looked as if this fine property was going to be lost to those who had put their hard earned money into it, when out of the darkness there came a ray of hope in the person of our present Treasurer, Mr. S. A. Hopkins, an honest, energetic young business man who realizing the great value of the property and also having large interests therein got associated with him a friend of his Mr. J. T. Averbach a Boston Attorney representing some 50000 shares; Mr. Geo. C. Bogge, our present President, a man who had invested a large sum of money in the proposition and having looked in to it well was convinced of the large returns which if properly handled would soon come. Mr. Bogge was president of the first National Bank of Finleyville, Pa., and a man largely interested in the Pennsylvania Coal, and also in its oil fields. He joined hands with the other two and made a strong triple alliance. To these men in a very large measure we owe the successful re-organization. They were ably seconded by the 1,200 stockholders who composed the company, all joining hands in the work of rescue. It was no small undertaking that these men had before them, the work of getting the property out of the receivers hands, the starting up of work again and last, but not least, the raising of funds to accomplish all this with. After a full discussion, the committee decided on the following plan, which was only open to the old stockholders, viz: any one holding 100 shares in the old company on the payment of $100 received 200 shares in the reorganized concern. The men who came into the reorganization were the men who had already put some $325,000 for which they had received about 325000 shares, being an average cost of $1 per share So that anyone having fully covered himself the shares would average about 60 cts. So that anyone coming in now at 50 cts. is doing as well, if not better than 1,200, who have borne the trying times and you will have share the harvest. By this means over $40 000 was raised with which was settled all legitimate accounts against the old concern, many claims being disallowed. After all was gotten in readiness for business with all pressing claims settled there remained in the treasury some $28,000 with pledges of $20000 All this meant an immense amount of work, the various groups of stockholders being visited and a plain statement of affairs given them. To those who did not come into the re-organization, this applied mainly to the men who held promotion stock, their stock was simply cut in two. If 100 shares were held in the old they only held 50 in the new, where in the old company only 750,000 shares remained in the treasury, under the new flag 1,600,000 remained. So you can see how much stronger our position was. A new charter was obtained coming into force 28 December, 1903, the old King Crowther to be forgotten with its failure and successes, and Union fait is force to be the watchword of the new BOSTON & TEXAS CORPORATION.

The work of the new company will be taken up tomorrow.

Are you, man or women, going to share in this offer; an offer which I do not believe will be ever yours again to refuse or accept. Be wise and send your order for stock while it is to be had.

If you have not got $1,000 to invest, perhaps you have $100 or even $50 buys 100 shares Will stand by all that has been said by me about the property.

Can furnish references. Crowther, Mc Mullen Company, Texas is where our field operations are going on. We own over 7,000 acres and control over 80,000 acres more.

JOHN THOMSON

BOX 243, QUEBEC.

My option for this block of stock that I have been offering has been extended to the 1st of June, but after that date positively no more will be offered unless in the open market.

Air Carries Healing Medicine

THAT CURES COLDS, CATARRH AND DISEASES OF THE THROAT LUNGS AND BRONCHIAL TUBES

About the healing power of the air of the pine woods everybody knows, but to supply it in the form of medicine seemed almost beyond realization. After many years of careful study a scientific remedy now known as Catarrhozone has been produced which enables the sufferer to breathe into his lungs all the healing properties of the balsamic pine woods air. This marvellous remedy has conquered catarrh. It unquestionably does cure it permanently.

You cannot fail to be cured by Catarrhozone, because it reaches and destroys the cause of the disease. You simply inhale the antiseptic vapor. It instantly spreads to every part of the breathing organs. The microorganisms infecting the diseased tissues of your nose, throat and lungs die instantly. There is nothing left to cause inflammation. Any spots that are raw and sore are quickly healed by Catarrhozone and you are soon completely cured.

It is impossible to breathe through a Catarrhozone inhaler without at once feeling better. Your head is cleared of mucous discharge, your nostrils are cleansed of all putrid matter, the phlegm is removed from your throat. Every trace of catarrh is searched out of the system by Catarrhozone, which thoroughly disinfects and purifies every organ of the body.

Catarrhozone is the only natural remedy for catarrh. It cures by cleansing and purifying all diseased tissues, not by deadening the stomach by drugs. It is a clean, simple and satisfactory remedy that is endorsed by the clergy, and universally prescribed by the medical profession because it is scientific and absolutely certain to effect lasting cures.

Don't be misled into accepting a substitute for Catarrhozone, which alone can cure thoroughly. It is so powerfully healing that colds disappear in an hour, coughs in two hours and even chronic catarrh in a comparatively short time. Two months' treatment $1, sample size 25c. At druggists or by mail from N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

A cook and young man waiter at the White Kitchen, Simcoe street. Good wages.

New Books

The following new books have been placed upon the shelves of the Public Library;—

What is Art?—Tolstoy.

The Right Life, and How to Live It.—Stimson.

The White Terror, and the Red—Calvan.

The Rose of Old St. Louis—Dillon.

The Marriage of William Ashe (2nd copy)—Warde.

The Vicissitudes of Evangeline—Glynn.

A Self-made Man's Wife—Merriman.

A Little One's Appeal

The following was handed The Times for publication: A certain well known George street merchant, who takes a profound interest in children, remarked the other day:

"It is pleasant to be appealed to for help by shy youngsters. I came across a little thing of seven or eight years the other day standing in front of a closed gate. She looked up at me with innocent blue eyes and said:

"'Will you please open the gate for me?'

"I did so. Then said kindly:

"'Why, my child, couldn't you open the gate for yourself?'

"'Because, said the little girl, the paint's not dry yet. Look at your hands.'"

—Brigadier Turner of Montreal, and Ensign Owen, of Toronto, will be here on Sunday next, and conduct special services in the Salvation Army Hall.

—Rev. A. J. Fidler, M.A., of Cobourne, delivered the special Lenten address in St. John's church last night. There was a fair-sized audience present.

—The two brick houses on Brock street, next to the hockey rink, have been sold by the Burnham estate to Mr. Charles Westlake and Mr. Harry Gibbs.

—The hockey murder case is being tried in Cornwall. Loney who is said to have struck the fatal blow, claims that Laurin, the man killed, struck at him first.

—The different streets in town under charge of the street scraper and gangs of men armed with the necessary scraping hoes are assuming a more city-like appearance.

—What is the matter with our market square? Has it descended to the purposes of a junk yard, or is the junk present only supposed to be stored in a badly-kept barn yard?

—The regular monthly meeting of the Ladies' Auxiliary of the Y.M.C.A., will meet this afternoon at 3.30 o'clock. As there is business of importance, all members are requested to be present.

—Several carloads of oats from the other side of the line are arriving here each day by the C.P.R. for the American Cereal Company. The company is now very busy filling export orders.

—Court Clemong, No. 630, I.O.F., will meet in the hall, George street, to-day at 7.15 p.m., for business, and in the S.O.E. hall at 8 p.m. for their concert and entertainment, which will be open to the members and their friends.

When you want a life-like Portrait in Oil, Crayon, or Water Color, don't fail to come to B. Hudson's Studio, where the work and prices are always right. Gifts in Pictures, Frames and Fancy Work. Lessons in Painting and Pyrography. Work. Studio, 134 Brock street, Peterborough.

—The Port Hope Times says: The managers of two large iron works have been in town consulting Mr. H. T. Bush, of the Standard Ideal Sanitary Company, as to the advantages of Port Hope for starting branch factories. They did not look for any suitable location but will return soon to look further into the question. One of the works employes between eight and nine thousand hands and the Inter-State foundry is the largest gray iron casting factory in the United States.

GALT HONORS DEPARTURE

Banquet to Our New C. P. R. Ticket Agent, Mr. William McIlroy

Mr. William McIlroy, who succeeds Mr. Thos. E. Boddy, as C.P.R. uptown ticket agent, arrived last night from his old position in Galt. Mr. McIlroy will at once assume control of his duties. Referring to his departure the Toronto World, says;

Galt, March 28.—(Special.) — Fifty citizens dined William McIlroy, C.P.R. agent here to-night, at the Imperial. He was presented with a handsome suit case. He leaves for Peterborough to-morrow.

—Miss Lena Welsh, of Douro, is visiting her sister, Mrs. Greer, Toronto.

EXPRESSIVE NAME FOR INDIGESTION.

Wm. Medill Has a Simple Remedy That is Guaranteed to Cure the Trouble

No one word better expresses the condition of the sufferer from weak stomach or indigestion than "misery." The stomach is weak and cannot digest the food, so that there is no appetite, there are pains and gripping in the stomach and bowels, and the misery goes to every organ.

Strengthen the stomach and the digestive system by the use of Mi-o-na. This is the only stomach remedy known that gives relief by strengthening the stomach and digestive organs. It is this principle that makes it a certain cure for indigestion. Other medicines may give temporary relief by helping digest the food, but they do not strengthen the stomach, and that organ gets weaker and weaker all the time.

Wm. Medill, the reliable retail Druggist, has so much confidence in this remarkable remedy that he guarantees a cure, or the money will be refunded. Mi-o-na costs but 50 cents a box. Ask to see the strong guarantee given with every box.

Mi-o-na is in tablet form and should be taken before each meal. Other remedies for stomach troubles and indigestion are taken after the meal, and decompose the good food you eat, but Mi-o-na used before eating strengthens the stomach, soothes and heals all irritation and inflammation, enriches the blood, and puts the stomach in such a healthy condition that it will take care of the food itself and there will be no pain and suffering.

WELL SUITED

Mr. Jas. Dunslow Presented with a Suit Case on the Eve of His Departure for England.

On Saturday, Mr. James Dunslow, late of the C.G.E. Company's plant shop, will sail by the S.S. Corinthian for England. Mr. Dunslow had purchased his return steamship tickets from Mr. W. Buntin's ticket office for sailing by the S.S. Parisian, which sunk a few days ago in Halifax Harbor, so will have to exchange to the Corinthian. Before leaving, Mr. Dunslow has received a token of his popularity among his fellow employes, by being the recipient of a handsome dress suit case from them. His friends met at his boarding house, and spent a very pleasant evening.

In making the presentation on behalf of the friends present, Mr. Harding referred to the regret which the [illegible] at Mr. Dunslow's departure parting with him. He had been a popular young man and had made himself greatly liked by the members of the department.

They all joined in wishing him "bon voyage," and hoped it would not be long before he would be back in their midst again.

Mr. Dunslow made a suitable reply, and said that he will probably return to Canada again after he has spent some time at his home visiting his friends. He is a brother of Mr. H. Dunslow, of the Frament.

THE THIRST FOR GOLD

A Peterborough Man Forms a Company to Get Gold in Frontenac County

Enterprise and push are the leading characteristics of Peterborough's citizens. The latest industry emanating from this town is the "Big Dipper Mining and Milling Company of Ontario," which has recently been inaugurated in this town, with a capital of $2,500,000, which claims to have something substantial to show investors. This company proposes to carry on development work in Barrie township, Frontenac County. The company owns 1,934 acres of mineral lands through which a valuable gold vein has been traced.

The president of the company is S. Sager, Peterborough. The secretary, J. S. Wakefield, of Jackson, Pa., vice president, J. M. Fletcher, of Buffalo, and the superintendent, J. A. Jamieson, of Myres Cave, formerly of Colorado.

Some attention will also be given to iron mining. A charter is being applied for.

Of course with Mr. S. Sager as president, in view of his successful operation of the Star of the East Mining Company, there will naturally be more credit given to the ultimate chances of the company than otherwise would be.

WEDDED IN SMITH

Nuptials of Miss Lillie L. Armstrong and Mr. Robt. A. Garbutt

Yesterday at 12.30 o'clock a very happy event took place at "Brookside," the home of Mr. and Mrs. J. G. Armstrong, Smith, when their daughter, Lillie L., was united in the holy bonds of matrimony to Mr. Robt. A. Garbutt, also of Smith. The ceremony was performed by Rev. J. W. Bunner in the presence of only the immediate friends.

The bride wore a handsome costume of champagne silk colienne trimmed with silk medallions and velvet ribbon. She was attended by Miss Carrie Trunbeth, of Port Hope, who was gowned in a brown silk shirt waist suit. The bride's bouquet was composed of white roses and the bridesmaid's of pink. The groom was supported by Mr. H. C. Mason.

The house was lavishly decorated with pink and white carnations and presented a charming appearance. After the ceremony a dainty wedding dejeuner was served by Mr. Harry Long, caterer.

Mr. and Mrs. Garbutt left on the 5.10 C.P.R. train for Toronto, and will visit a number of American cities before their return. The Times wishes this happy young couple many years of happiness and prosperity.

Mr. and Mrs. Garbutt will reside in Smith.

Personal and Social
Movements of the people in and out of town . . . .

—Dr. Amyot was in Bobcaygeon on Tuesday on business.

—Mr. Duncan Johnston, of Harwood, is in town for a few days.

—Mr. A. Reid, of Toronto, was in town yesterday on business.

—Mr. Wm. Salisbury, of Toronto, is in town for a day or two.

—Mr. B. B. Rogers left yesterday on a business trip to Toronto and Ottawa.

—Mrs. J. R. Stratton, of "Strathormond," will receive this afternoon, and not again until announced.

—Mr. Wm. Johnston, of Belleville, district inspector of weights and measures, was in town yesterday.

—Mrs. James Stevens of Camborne, returned home Tuesday after a pleasant visit with her neice, Mrs. W. D. Hulf, Murray street.

—Mrs. T. H. Mather, Syracuse, New York, arrived in town yesterday morning, on account of the illness of her father, Mr. E. Layfield, 268 Reid street.

—Mrs. H. G. Webber, who has been an inmate of the Nicholl's hospital for the past three weeks, and who underwent an operation on Monday, is improving rapidly.

—Rev. W. R. Tandy, the new curate of St. John's church, arrived yesterday afternoon from Havelock, and will for the present reside with Mr. George Russell, 17 Queen street.

—Mr. and Mrs. J. W. Green have returned from a month's visit to Mount Clemente, Detroit, London and Stratford. They have taken the house formerly occupied by Mr. T. E. Boddy.

—Mrs. R. J. Munro, who has been in Toronto for some weeks undergoing treatment in a private sanitarium, has so far recovered in health that it is expected she will be able to return home next week.

—The Messrs. Bayly of Berkhamsted, England, who have been staying at the Munro House, left yesterday for Hiawatha, where they will take a year's course in practical agriculture on Captain Thompson's farm.

—The many friends in Peterborough of Mr. T. B. Collins, of Millbrook, will regret to learn of his serious illness. Mr. Collins' condition has been very critical for the past two or three days.

BLOOD CELLS.
IN HEALTH. IN DISEASE.

Man is a millionaire many times over in the possession of blood cells. Woman is not quite so rich, for scientists have proved that the normal number of red blood cells in adult men is five million; in women four and a half million, to the square millimeter.

The normal cell is not absolutely round in health, but, in disease, becomes extremely irregular in shape. Every one can be in perfect health and possess the millions of rich red blood corpuscles if they only know how to go about it. Dr. R. V. Pierce, consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., advises every man and woman to prepare for a long life by observing nature's laws. In the first place, if your digestive [illegible] that food you eat is not taken up by the blood and assimilated properly, you need a tonic and digestive corrector, something that will increase the red blood corpuscles, he believes in going about this in nature's own way. Years ago, in his active practice, he found that an alterative extract of certain herbs and roots, put up without the use of alcohol, would put the liver, lungs and heart into fuller and more complete action. This medicine he called Dr. Pierce's Golden Medical Discovery. By assimilating the food eaten, it nourishes the blood, and, instead of the ill-shaped corpuscles, the person's blood takes on a rich red color and the corpuscles are more nearly round. Nervousness is only the cry of the starved nerves for food, and when the nerves are fed on rich red blood the person loses those irritable feelings, sleeps well at night and feels refreshed in the morning.

KNOWLEDGE IS POWER.

If you want to know about your body, read Dr. Pierce's Common Sense Medical Adviser, which can be had for the cost of mailing, 50 cents in one-cent stamps for the cloth-bound book, or 21 stamps for the paper-covered volume. 1008 pages. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets cleanse the bowels and stimulate the sluggish liver.

CHAMPIONS BANQUETTED

Last night at McCallum's restaurant, [illegible] to the City league, the Executive of the League, and captains of the competing clubs were entertained and treated to an oyster supper by Lang & Maher, the George street clothiers and furnishers. This enterprising firm at the beginning of the hockey season, promised an oyster supper to the club winning the championship, and last night carried it out in every detail. A most pleasant evening was spent by those present in social chat, and putting away the oysters.

$500 REWARD $500

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one quarter section of 160 acres more or less.

ENTRY

Entry must be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead of the cultivation.

(2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

(4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses (2), (3) or (4) must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 30 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1892.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the North-west Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the North-west Territories.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

BEST ADVERTISING MEDIUM IN EASTERN ONTARIO

VOL XXXIII NO 76 PETERBOROUGH ONTARIO, FRIDAY MARCH 31 1905. PRICE TWO CENTS

PEASANTS MAY BEGIN A WAR OF EXTERMINATION

Against the Entire Educated Class Due to the Statements of the Metropolitan of St. Petersburg---May Put Russia Back Into the Middle Ages.

St. Petersburg, March 31.—In view of the peasant agitation throughout the country some of the newspapers are seriously alarmed at the effect of the recent pastoral address of the Metropolitan of St. Petersburg, M. Antonius, as being a direct incitement to the ignorant peasants to begin a war of extermination against the entire educated class, and the papers are demanding that the Metropolitan and the Holy Synod, whose mouthpiece it is assumed Antonius was, take immediate measures to counteract the effect of his statements. Prince Meatcherasky, editor of the Graidanin, denounces the sermon the most dangerous utterance of the century, and pictures the inevitable impression produced on the ignorant religious minded peasants of a damnation from the altar of the "intellectuals" as being "the fons of Russia, bloody wolves and followers of the anti-Christ of the West, who would destroy holy temples, place sacred bones in anatomical museums and wean the people from their chance of entering the kingdom of heaven."

M. Onureal Kovski, the famous Russian author, declares that to call on the faithful to fight with the cross to the last drop of their blood for the salvation of Russia as the home of Christ, and to cut off the rotten branch is nothing short of a tocsin for a religious uprising—an appeal to the most fanatical and the most uncontrollable of human passions."

The fire once started," he adds, "would produce a world of historic conflagrations, which neither the Government nor the intellectuals can stop." In effect he affirms that Antonius' address was an appeal to the peasants to tear out from Russia all European culture, and put the country back to the state in which it was in the Middle Ages, and from that standpoint it was more radical than the doctrines of the most radical revolutionaries.

CANADIANS IN THIS

Syndicate to Build Railway From Mexico to Yucatan

Austin, Tex., March 31.—A syndicate of Canadian and United States capitalists has been formed for the purpose of building a railroad from the City of Mexico to Merida, State of Yucatan, with a branch line to Belize, the capital of British Honduras. James McNaught, vice-president of the Great Northern Railroad of Canada, is at the head of the enterprise. Mr. McNaught is now in Mexico arranging the details of the project. W. G. Seaver, of New York, a member of the syndicate, is also in Mexico, and has just made application to the Mexican Government for the concession. Mr. Seaver says that it will cost about thirty-seven million dollars in gold to build the road, and that all this money has been subscribed and paid in. The road will be more than one thousand miles long, and will traverse a part of South-eastern Mexico which is how without railroad transportation facilities.

A WONDERFUL BOOM

Greatest Building Boom Ever Known in New York

New York, March 31.—New York has never witnessed such a building boom as is now in progress. There are not so many office buildings going up as there was a few months ago, but the building of homes, especially in Brooklyn and outlying sections that can or will be reached easily when the numerous transportation facilities now planned are provided, is tremendous. Last year, up to this time, buildings of an aggregate value of $10,000,000 had been planned in Manhattan and the Bronx. During the corresponding period of this year, the total is $23,500,000. In building operations last year was the biggest Brooklyn had ever known, the estimated cost of new buildings for the first two weeks being $3,500,000. The corresponding figures of this year show the tremendous total of $7,000,000.

In addition to private building, municipal improvements are being carried out on a large scale, and with the tunnels being built by the Pennsylvania Railroad, the Blackwell's Island and the Manhattan bridges, the vast schemes of the Rapid Transit Commission and other corporate undertakings it seems that no active man out of a job will have an excuse for not working.

C. P. R. TO BEAUTIFY THEIR STATIONS WITH FLOWERS

The floral department of the C.P.R. is issuing attractive folders, containing with the general information given, the following sentence: "We have conducted the flower scheme for seven years. This spring there will be at least a million tulips, crocuses and narcissus at the stations across Canada, to brighten, beautify and make home-like your environments."

Perhaps there is no other department of the C. P. R. which has enlarged so rapidly as the floral, which is under the direction of Mr. N. Stewart Dunlop, tax and insurance commissioner of the company. Last autumn it sent bulbs to station agents, sectionmen and other employees, from one end of the system to the other. Some were for outdoor planting, and are expected to bloom this spring; others were for pots and boxes indoors, that they might bloom during the past winter. As a result of this generous distribution, there will be one million tulips, etc., flowering along the system this spring. Before the department was established, the only flowers and plants along the company's various lines were those planted and cultivated at the expense of those agents who wished them for their own enjoyment. Now the company bears all expense in connection with the purchase of thousands of the best bulbs procurable, and not only sends them to every employee who wishes them, but also issues folders giving information. In addition to this, seeds are sent every spring to employees along the system, who have exhibited an interest in flower culture. For this year the money appropriation made the company to its floral department is almost double that of last year, so that the coming summer should see the stations on the C. P. R. more attractive than ever. The seeds—numbering over 25,000 packages—are being sent out now, and include as fine a collection as any gardener of the most refined taste could wish. Mr. Dunlop, to whose energies and foodness for flowers the success of the department is due, tells those to whom his circulars are sent to surround their station, section house or office building with pretty flowers, so that not only the employees may enjoy the fragrance and brilliancy of the blooms, but that passengers on entering stations from Vancouver to St. John may be welcomed by the beauty of flowers.

One of the features of railways in England is the attractiveness of the grounds and stations along railway system. Money is lavishly spent in even short mileage, so that the public will enjoy travelling. The C. P. R. is similarly disposed to make its system one of the most enjoyable for travel in America.

THE GRAND TRUNK PACIFIC

No Statement Regarding the G. T. P. Terminals

Montreal, March 31.—General Manager Morse, of the Grand Trunk Pacific, left for Fort William last night. Before leaving he said, "So far as Winnipeg terminals are concerned, nothing definite has been decided upon. As to Fort William and the Lakes, the position is similar. No decision has been arrived at; our plans regarding terminals there have yet to be definitely passed upon. Of course, I went over a lot of plans and survey business with engineers here, but anything that has been done is superficial."

RESENT ILL-TREATMENT

Manitobans Protest Against Ignoring of Boundary Claim

Winnipeg, March 31.—The Junior and Senior Conservative Club of this city tonight passed resolutions on the extension of the boundaries. After reciting the previous efforts for extension, the resolution says; "Whereas, Sir Wilfrid Laurier has given the Provincial Government no satisfactory answer, has totally disregarded Manitoba's claim, has laid down the intolerable principle that three other provinces have equal rights with Manitoba and must be called in to decide what shall be done, and has contrived unnecessary and injurious delay for purposes that have no justification;

"Therefore, be it resolved, we indignantly protest against the treatment accorded Manitoba, and place on record our hearty endorsation of the steps taken by hte Roblin Government, and pledge enthusiastic support to the continuance of its efforts for the rights of the province."

STILL A CHANCE

It is Still Possible That We May Have a Sugar Factory

As foretold in a former issue, Tuesday, the moribund sugar company held a meeting in Judge's chambers at the Court House, to see what the creditors wanted to do, and appoint a permanent liquidator. His Honor Judge C. A. Weller was in the chair, and Mr. R. E. Wood appeared in behalf of the liquidator. There was so large a gathering of the creditors that it was found necessary to adjourn to the Court Room.

Mr. R. E. Wood, representing the provisional liquidator, Mr. Frank Adams, asked that he be appointed permanent liquidator.

Mr. F. D. Kerr, who was representing several creditors, was asked to set for the majority of those present. He assented, on behalf of the creditors, whom he represented, to the appointment of Mr. Adams. The proposal was also approved of by Mr. J. W. Bennet, who represented other creditors, and the appointment was then made. Mr. Adams was directed by the judge to furnish satisfactory security to the sum of $10,000.

After the appointment of Mr. Adams to act as liquidator had been made, Mr. Garvin, addressed the gathering, and made a plea to save the property. He said that for a year now the company had been fighting the Messrs. Howden in the courts, and if on May 1st the $9,000 was not raised, the whole property, which he said, was actually worth $40,000 would revert to the Messrs. Howden on the terms of their mortgage, and the order of Chief Justice Meredith.

Mr. Garvin went on to remind those present how an attempt had been made to get the town to guarantee the company's bonds to the amount of $100,000, and how the popular vote of the householders had beaten the effort. He had held a long conversation with a prominent capitalist, interested in sugar and beet industry, the gentleman who would have taken a hand in the local company, had this $100,000 guarantee passed. Mr. Garvin then read a letter from this gentleman in which he said that if the property of the company could be held onto until 1st November, he and other Michigan capitalists would form a sugar company in Peterborough. Mr. Garvin stated that last year the Wallaceburg and Berlin factories paid 20 per cent. profits, and the price of sugar has increased two cents per pound.

57TH REGIMENT

Boys Brush Up Your Uniforms and Get in Line.

The following militia orders were issued yesterday by the Commanding Officer of the 57th Regiment;

Headquarters, Peterborough, March 30, 1905.

Orders by Lieut.-Col. J. W. Miller, Commanding the 57th Regt., Peterborough, Rangers,

The regiment will parade at the armouries at 8 p.m., on Tuesday, April 4th, 1905, and until further orders on each Tuesday thereafter, at the same time and place.

By order.

D. Walker,

Capt. and Adjt.

VERDICT $6,000 COSTS $12,000

And Still the Appeals go on in This Action at Law

Toronto, March 29.—An illustration of the persistency with which a railway corporation will appeal from court to court against an unfavorable judgment wherein damages are involved, is afforded in the case of the executors of the late Jacob W. Speers, cattle buyer, against the Grand Trunk Railway Company. The company now carries the case from the Court of Appeal to the Supreme Court of Canada.

Speers was injured in a rear-end collision on the G. T. R. between Elmira and Berlin, and his health was never good thereafter. He sued the railway company for damages, and the case was sent over to the next Assizes at Owen Sound. In the meanwhile his evidence was taken. He died before the trial was held, but the executors carried it on. The Divisional Court gave judgment of $5,000 for his widow and $1,000 for the other heirs. The company appealed, but the Court of Appeal confirmed this judgment. Now they go to the Supreme Court. It is stated that the costs in the suit and the appeals have piled up already to the amount of about $12,000.

DISTRESS AT ST. PIERRE

New Governor Takes Steps to Relieve the Situation

Sydney, N.S., March 31.—Advices received here from St. Pierre by the last mail state that the French Government has voted a sum of $5,000 to relieve destitution among the people of the island, which is widespread as a result of the failure in the fisheries last summer. The new Governor has dismissed the municipal council and ordered an election to be held on Tuesday, April 4. The object of this Governor's action was to secure the election of a council that will deal more generously with the people than the old one, which had imposed burdens on them which they found unbearable. As an instance of the oppressive taxation it may be stated that all kinds of domestic animals are heavily taxed, while the owner of a piano or organ is obliged to contribute four dollars annually to the treasury for the same. Water and other rates are also excessively high. The new Governor has taken a deep interest in the condition of the people under his charge and has done much to relieve the prevailing distress among them. When his action in dismissing the municipal council became known throughout the island, he was loudly cheered by the residents.

THE WESTMINSTER'S OPINION

Strong Stand Against School Clauses by Presbyterian Organ

Toronto, March 31.—The church has not had an opportunity of expressing her voice as a unit on the question which during the past month overshadowed every other in public interest. But so far as the popular sentiment has been expressed through the presbyteries, the Presbyterian church may be regarded as in solid opposition to the coercion of the new Provinces of Saskatchewan and Alberta. There has been marked unanimity in the opinion that the provinces should be left entirely free to mold their own education policy, and the expression of opinion has been all the more pronounced and justified that there was no opportunity afforded of testing public sentiment at the last general election. In its present attitude the Presbyterian church is quite consistent with her past record. In the assembly which met in Toronto in 1896 a strong and practically unanimous deliverance was given against the coercion of Manitoba in her educational policy, and the late Principal Caven was perhaps never heard to better advantage than in his powerful plea on that occasion that the young western province should be left free. At the time of writing there are indications that while the educational clauses of the autonomy bill will be considerably modified in deference to public opinion, the present system will be maintained without the people having had the opportunity to pronounce upon the question themselves. It is a strange lapse of memory that forgets the fact that the people are the ultimate source of authority and power.

A Clean Sweep of Separate Schools

The Bobcaygeon Independent thinks that Sir Wilfrid Laurier, in forcing Separate Schools on the North-West, cannot be thoroughly aware of what he is doing. The moment that bill passes a movement will be inaugurated for the annexation of the North-West to the States. A break-up of Confederation, and annexation means an end of French domination, and a clean sweep of Separate Schools.

REV. MR. KETCHEN REMAINS

St Paul's Church Successful in Their Endeavor to Keep Rev H B A Ketchen

The many friends of the Rev. H. B. A. Ketchen, will rejoice to hear that a telegram was received from Lim on Wednesday, from London, Ont., where he has been for the last few days, stating that he had decided to remain in Peterborough, as assistant pastor of St. Paul's Church.

The committee in charge of the matters of procuring an assistant pastor has been waiting for some days for Mr. Ketchen's final answer, which he promised them within a few days. After an interchange of telegrams Rev. Dr. Torrance has received a wire which settles the matter definitely.

A COOPER PHOENIX

Mr. George Kingdon will Rebuild His Shop Recently Destroyed by Fire.

With that sturdy pluck which characterizes Canadians, Mr. George Kingdon will rebuild the shop on Barnardo avenue, that was recently burnt down. He has succeeded in making a satisfactory settlement with the insurance companies, and has already begun clearing away the wreck of his old business preparatory to rebuilding.

Mr. Kingdon feels keenly the interest and encouragement shown him by his old friends and customers. He has every hope of only temporarily delaying the orders on hand for his goods, as he has stock now at the station, and will get his machinery and hands at work forthwith.

LUNCHEON AT LONG'S

The Y. M. C. A. Business Men's Gymn Class Banqueted Last Night

A large gathering of well-known town people, principally business men connected with the Y.M.C.A. gymnasium class, met last night at Harry Long's Palm Gardens to dine. The raison d'etre of the banquet was that yesterday closed their season's work, in this connection. Impromptu speeches, personal reminiscences and stories, added to a most elaborately gotten up spread, made a most enjoyable evening, and not a moment hung on leaden wings. Mr. K. Eardley-Wilmot occupied the chair, and made some felicitous remarks. This was a very fitting close to the season's successful work, and it will also act as a stimulus for re-organization again next year.

DICKENS DESCRIBED

Rev. H. B. A. Ketchen and Sheriff Hall Give An Interesting Address

Last night a large and literary audience listened attentively to an unusually complete dual dissertation on the life and works of Charles Dickens, the great English author. The Rev. Mr. Ketchen took as his share the life of Dickens, and gave his life's history from the cradle to the grave. To hear the rev. gentleman's description of his apparently favorite author, was practically a personal introduction to this emminent author, philanthropist and public benefactor. Mr. Hall took the works and writings of Dickens. The speaker touched on his subject's wit and humor, comparing it with that of such well-known humorists as Swift and Sterne, explaining the connection between humor and pathos, showing how one minute the author incites laughter and the next forces tears from his reader. He touched briefly on the different writings of Dickens.

Mr. Hall specially referred to Oliver Twist, speaking of the writer as an author and reformer, and dwelt somewhat on his constructive ability as indicated by the school-laws, poor laws and jail system. The speaker also described the influences of Dickens and Thackery, on literary publication in their time, quoting Justin McCarthy reminiscences. The dual lecture was given in St. Paul's Mission under the auspices of the Home Mission Band. A more lucid and interesting account of the life and labors of a universally favorite author has seldom been heard. The evening's entertainment was enlivened by vocal music supplied by Mrs. K. Eardly-Wilmot and Mr. Jos. Legg.

PETERBOROUGH CORDAGE CO.

Mr. T. Jack Has Assumed Control of the Sales Department

Mr. T. Jack, who has accepted the position of sales agent of the Peterborough Cordage Company is now in town, and has taken charge of the sales department of the company. Everything points towards a bright and prosperous future for this company, as orders are not only coming in from all parts of the country, but the goods turned out by them are meeting everywhere with universal approbation. With its most modern type of machinery and appliances added to intelligent management, the company is turning out samples of work, in hemp, cord and binder-twine that compares a little more than favorably with similar lines made anywhere in the world. With the assurance given and to be given them by tariff regulations, the company stands in an enviable position, and cannot but prove a good investment to its promoters, but an industry that will work towards the credit of this town throughout every portion of the world that buys cordage and twine.

Police Court

OFFICIALS

Chief of Police, G.I. Read.
Magistrate, D.W. Dumble

At yesterday morning's court some of the audience present had the temerity to forget the dignity of the place of justice, and smoke their two-fers in the court room. His Worship ordered the court cleared of all witnesses, and those directly interested in the case on hand.

An old-time and popular hotelman was charged with assaulting a gentleman who about a month ago occupied a drygoods store adjacent to the Hotel. The complaintant swore that when he left his old premises about a month ago, he left several packing cases, a piano box and several doors behind him. When he sent a carter after the cases on Wednesday, the cases had undergone a grand transformation scene and were in the yard of the hotelman next door in the form and likeness of kindling wood. That a dispute arose between him and mine host about the goods, that one case remained intact, which the hotelman thereupon threw back over the fence, and that he next, himself, flew over the fence as the hotelman looked real fierce at him. Before the altercation subsided, he swore that mine host had dealt him one over the head with a stick, but no marks were visible. In rebuttal the hotelkeeper said that his old neighbor was far from being all he might have been whilst living next to him, that the complaintant had called him a thief, and that he had not either directly or through orders to his employees been responsible for the transformation of the cases in his neighbor's yard to wood in his own. His Worship ruled that the hotelman should not have taken a stick to his neighbor, and imposed a fine of $2, with costs of $4.15.

GENERAL SPORTING GOSSIP

HOCKEY—THE TURF—BASEBALL—LACROSSE

LACROSSE.

Mr. George Rickaby, the promoter of the senior C.L.A. team for Peterborough, will leave to-night upon a trip to Montreal, Cornwall and Ottawa to look up some lacrosse stars of those cities, and expects to return with a likely looking bunch of signatures.

• • • •

Yes, Fergus will again try to land the intermediate championship, and it is a safe bet that if they do not, they will make another team or teams go fast to corral the La Fortuna Cup. All honor to the Fergus Thistles.—Home brews, amateurs, and among the best exponents of lacrosse as it should be played in this Dominion.—Guelph Mercury.

• • • •

BASEBALL.

Manager MacEwan has received letters from three Toronto senior clubs, the Crescents, Park Nines and St. Mary's, asking for a game on May 24th, so a good contest is assured for that day.

• • • •

Lindsay wants nothing but a good nine this year—one which will be a pennant winner, so turn out strong to the organization meeting. Peterborough and Port Hope have fallen into line, and baseball will boom in those towns, and should in Lindsay too. Turn out, sports.—Lindsay Post.

• • • •

Peterborough Barbers' Union will put a team in the field this season. The players will carry their clippers and when not otherwise engaged will keep their hand in by giving the grass a close cut, so the diamond is expected to be in ideal condition. Every maker of a home run will receive wet towels, and the unlucky one who fans the air for three strikes will have to preserve silence for the space of three shaves for each and every offence. The penalty is terrific, and is expected to lead to a great batting average.—Lindsay Post.

• • • •

There will be teams of out-of-door basket-ball, baseball, field hockey, and tracks, organized this season at the Y.M.C.A. Lists for players will be found on the office counter. Look for date of meetings next week. P. K. Holmes, physical director, Y.M.C.A.

• • • •

RACES FOR 24TH

The Turf Club Arranging for Good Sport on Our National Holiday

The Turf Club are making great efforts to have good clean races for this year, of a superior nature, and are sparing no trouble to attain this commendable object.

They have on the tapis a trotting race for the 24th of May, to be run by bona fide livery horses. The principal attraction, if the pending arrangements can be successfully completed, will be a race between some well known swift ones, viz., Miss Paisley, owned by Mr. G. Lissett, who has a mark for ice work of .24. Blutcher owned by Mr. Martin Connors, with a march of .23 1-4, Donna Bell owned by Doc. Johnston, Lady Gothard owned by Mr. Martin Connors, with a matinee record of .16 1-4, and an unnamed chestnut horse owned by Mr. Duncan. Now if such a combination as this could be got together for business, and in a business-like way, good sport would be assured, and good attendance would inevitably see the race. There is no use, however, proposing such an attraction unless something more than fresh or hot air is at the back of it. The Turf Club has the ambition and the men to get up good races, and if business is really meant, they will not find either horse owners or the public backward in encouragement.

STRIKING EXAMPLE OF THE JAPANESE MOBILITY

A Jap Column, Which is Probably Carrying Out a Flanking Movement, Has Been Seen Northeast of Sipinghai.

St. Petersburg, March 31.—telegram from Sitjan, Manchuria, under today's date, says: "The Chinese report that a Japanese column, which is probably carrying out a flanking movement, has been seen twenty-seven miles northeast of Sipinghai, 74 miles north of Tie Pass. Snow has fallen heavily here."

THE YELLOW PERIL.

Mogtalev, Russia, March 31.—Proclamations have been scattered broad cast here calling upon the people to support the war in order to escape a second Mongolian yoke, the Japanese being described as worse than the locusts of Egypt. It is added that once they establish themselves in Asia they will not only possess Manchuria and Korea, but will swarm over and drive out the Russians from Siberia.

GORKY GOES SOUTH.

St. Petersburg, March 31.—The report that Maxim Gorky, who is awaiting trial at Riga, on the charge of sedition and treason, will be allowed to the Crimea to recuperate is correct. Owing to the condition of his health Gorky has been granted the necessary permission to go to the South of Russia. He has had several hemorrhages. Gorky has just completed a drama entitled "The Children of the Sun." His trial has been fixed for June 7.

ROJESTVENSKY'S OPINIONS.

Paris, March 31.—Admiral Rojestvensky, in the course of an authorized interview with a Matin correspondent at the Island of Nossibe, near Madagascar, March 4, said the future movement of the squadron depended on the arrival of coal and military developments, adding; "The slow arrival of colliers becomes a serious question when a fleet consists of 60 warships. If coal is abundant, I may go to meet the third division."

Admiral Rojestvensky received a telegraphic summary of the decision of the International Commission of Inquiry into the North Sea incident, and says: "I am glad the admiralty approved of my conduct, but owing to points concerning the incident, I shall always keep a certain measure of moral responsibility. However, torpedo boats were certainly there, my ships were endangered, I was obliged to save the flagship, and I succeeded."

Within a short time, no doubt, the Japanese will have invested Vladivostok, Russia's remaining stronghold in the Orient, and the defence of which will be not a whit less desperate than that of Port Arthur. Vladivostok is situated on the gulf of Peter the Great, an arm of the Japan Sea. The town is built on the slopes of a high ridge forming a tapering peninsula into an irregular landlocked bay. There are two narrow entrances to the harbor, both flanked by highlands which bristle with batteries and fortifications. The entrances are further guarded by forts erected on an island at their mouths and innumerable islets just outside, on which are many defensive works of various kinds. Surmounting the crest of the headlands, which stretch for miles to the eastward, and are known as the Golden Horn, are continuous chains of earthworks and other defences. The lofty hills on the northwest protect the port from the land side, and in the deep water of the Golden Horn, which is at least four miles in length and a mile in width, the largest ships may ride safely at anchor, free from the menace of attack, and beyond the reach of the weather.

Like Port Arthur, Vladivostok consists of three portions. That nearest the water is the military town, extending along the harbor, and given up almost exclusively to storehouses, military quarters and officers' residences. On the extreme north of the harbor are the official buildings and the private dwellings of the Government employes and private citizens. Beyond and higher still is the arsenal, strongly fortified. The population is about 15,000, excluding the military.

It is announced that Admiral Uriu will make use of the same naval tactics which were so successful at Port Arthur. He will keep his ships well out of range of the fort guns and will at the same time maintain a blockade that sooner or later must be effective. It is not likely that the town could be entered by an invading force from landward without a repetition of the hard fighting that took place at Port Arthur. The natural disposition of the hills at the rear of Vladivostok has made it possible to interpose many powerful

Will Not Play Professional Hockey.

Mr. D. J. Devine, received a letter yesterday from Fred Whitcroft, in which Whitty denies the report that he has signed with Houghton for next season. He states emphatically that he will not play professional hockey. Fred is at present in Chicago, but will return to Houghton shortly.

ADVERTISE IN THE TIMES.

ANNUAL STATEMENT

Of the 57th Regt. Shows a Balance of on Hand.

The financial statement of the 57th Regiment, which has just been issued, shows that the receipts for the year amounted to $3,709.66, the expenditures $3,648.50, leaving a balance of $61.66 on hand.

The trip to Barrie cost $1,128.30; the entertainment of the Guards, $123.50, and the ranges and shooting $374.15.

The brass band account shows receipts amounting to $1,307.15. The bandmaster's salary was $550.

The receipts of the regiment are made up as follows:—Twenty-three officers at $12, $276; fifty-four noncoms at $6 $324; 227 privates, including bandsmen, at $6, $1,362. There was paid to the band the sum of $445.15. The auditors are R. F. McWilliams, Capt., and R. P. Watt, Lieut.

Farm Hands in Plenty at Halifax

Now that our local farmers are so hard up for help, we might offer a suggestion that would possibly help some of them out. As noted in this journal a few days ago, a well-to-do farmer living near the town, was so driven for numerous need of help that he applied to the chief, asking when a man would be liberated from jail so that he, the farmer, might secure his services. We might say that about two hundred and fifty English immigrants arrived from Halifax yesterday morning, the majority of whom were men under 21. All day they crowded around the Immigration Office at the Union Depot, waiting for their allotment to one of the hundreds of farmers whose applications for help are piled on the desk. The majority of them, contrary to the past experiences at the Immigration Office, wanted to go on the farm. Mr. R. M. Perase, the immigration agent at the depot, by way of explanation of the circumstances, said;—"At the English offices the men are now being told candidly that they can be given no assurance of employment in Canada other than as farm laborers. Care is taken that this impression is carried in the mind of every man leaving for Canada. The result is that the men are readily accepting work in the country, and are being sent out as quickly as we can supply the transportation certificates and forward their luggage checks to their prospective employers." Any farmer having immediate need for help might correspond with Mr. Perase, and have a long felt want filled.

$500 REWARD $500

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address, F. J. CHENEY & Co., Toledo, O.

Sold by Druggists, 75c.

Hall's Family Pills are the best.

Frost-bite, in Winter, and cracked lips or skin can quickly be cured by using

CALVERT'S Carbolic Ointment.

It is a well-proved remedy for skin ailments, possessing in addition to the properties of an ordinary Ointment, the healing and antiseptic virtues of Carbolic Acid.

As sent to the soldiers, or by mail from F. C. CALVERT & Co., 627 Dorchester Street, Montreal.

Send 2 cent stamp for sample of New Dressing.

Baby's Birth a Trying Time

Made Easy if the Mother Prepares Her System With a Bracing Treatment of

FERROZONE

A Womanly Tonic that Uplifts, Vitalizes, and Strengthens.

You immediately experience a real gain in power and strength by using Ferrozone, which is a true nerve and blood tonic. It effects permanent cures unparalleled in the history of medicine.

Ferrozone supplies the essentials of life that are exhausted by over-work worry, indigestion or high living. It contains just what every run-down system lacks.

By instilling new strength into the blood, Ferrozone benefits the whole body. Digestion improves, the eyes sparkle, the cheeks glow with girlish beauty. Normal powers are restored to the reparative organs, the nerves are recharged with energy, making the sufferer conscious that direct benefit is resulting from Ferrozone.

There is no greater boon to suffering women than Ferrozone. It charges the system with the snap and fire of youth, builds up firm tissue, rounds out the form until perfect womanhood is attained.

Ferrozone is the one safe tonic for ladies to use, because it contains no alcohol or dangerous drugs. Growing girls, young women, expectant mothers—every female will derive unquestionable benefit from this grand restorative. Prepared only in tablet form, 50c. for a box of fifty tablets or six boxes for $2.50, at all dealers, or N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $2 per year, strictly in advance.

MORE STREET LIGHTS

REPORT OF THE COUNCIL'S FINANCE BOARD

The Council Will Take No Action in the Matter of Damages Claimed by Mrs. Jennie Armour for Injuries Sustained Through Falling on the Sidewalk

At Monday night's session of the Town Council the following business was transacted;

LEGAL REPORT.

Ald. Scott submitted the following;—

Gentlemen.—Your Legal Committee beg leave to report that they considered the claim made by Messrs. Denistoun, Peck, Kerr and Stevenson, on behalf of Mrs. Jennie Armour, for damages for injuries received by falling at the north-east corner of Hunter and Water streets on February 16th, and recommend that no action be taken in the matter.

Since your committee considered the matter a writ has been issued by the plaintiff in this case which has been handed to the Town Solicitor to protect the town's interest.

All of which is respectfully submitted.

This was adopted as read.

FINANCE REPORT.

Ald. Mason submitted the following;

Gentlemen.—Your Finance Committee beg leave to report and recommend as follows;—

1. That the following accounts be paid;

A. E. Micks	$ 2.80
F. L. Robinson	1.50
Municipal World	2.43
T. J. Parker	6.75
C. N. Brown	5.00
Wm. Logan	6.10
Peterboro' Hardware Co.	1.75
Davis-Thompson Co.	10.00
Wm. Gard & Co.	12.90
Times Printing Co.	34.50
C.P.R. Co's Telegraph	0.30
W. J. McCallum	4.50
J. & W. Metherel	19.10
County Registrar	2.00
Review Ptg. & Pub. Co.	36.00
Globe Printing Co.	3.75
White & Gillespie	2.45
Peterboro' Fuel & Cartage Co.	10.25
Chas. Stapleton	10.00
G. E. Whiten	1.00
W. H. Hamilton	71.25
Watson & Hawley	16.10

2. That the Chairman of the Property Committee and the Mayor be authorized to confer with the Chairman of the Town Trust Commissioners in regard to the leasing of the premises of the tenants in the Town Office Block, and the rest of the offices of the Town Engineer and Tax Collector.

All of which is respectfully submitted.

The report was adopted as read.

ADDITIONAL LIGHTS.

Ald. Johnston submitted the following;

Gentlemen.—Your Fire, Water and Light Committee beg leave to report and recommend as follows;—

1. That a by-law be submitted to the qualified electors to authorize the issue of debentures for $25,000 to pay for the purchase of a site for and the erection of a fire hall, and to pay for the improvement of the Fire Department by adding a fire alarm telegraph, a chemical engine, new fire steamer, extension ladders and other appliances.

2. That three incandescent lamps of 32 candle power each, be ordered to be placed on Euclid avenue, to be paid for at the rate of $12 a year each on the same terms as the arc lights, and also an arc light at the corner of Dalhousie and Stewart streets, and that the arc light at the corner of Rubidge and Dalhousie streets, be moved to the corner of Rubidge and Wolfe streets, and that the order be given for these to the Peterborough Light and Power Company, the lamps to be placed as directed by the Town Engineer.

3. That the Peterborough Light & Power Company be directed to place an arc street light in the vicinity of the corner of Reid and Smith streets at a point to be decided upon by the chairman of the committee and the Town Engineer.

4. That the engagement of John Montgomery as driver in the fire hall be terminated on April 1st next, and that he be paid to that date, and that the chairman of this committee be given authority to fill his place temporarily until an appointment is made.

All of which is respectfully submitted.

The report was adopted as read.

COMMUNICATIONS.

From E. Micks & Co., calling attention to the fact that on March 25th their lumber yard was flooded with water from the public streets, causing considerable damage; and that the covering of the drain on Bethune street is unsafe.—Board of Works.

From W. H. Moore, notifying the corporation that Charles H. Amys, M.D., expects to be reimbursed to the extent of $200 for damages sustained by him through the flooding of his premises, No. 270 Charlotte street, on March 23rd and 24th, by an overflow of water from the public streets.—Legal committee.

From Henry Trollope, asking that a crossing be placed on Water street, south of Victoria avenue.—Board of Works.

From J. J. McCabe, asking that a portion of the annual street scrapings be dumped on his lot, 235 Burnham street, at the customary charge.—Board of Works.

From auditors George K. Martin and T. Q. Quartermaine, submitting that the town's financial books, as audited by them, were as a general rule found to be entirely satisfactory.—Received.

From property owners, praying that a granolithic sidewalk be constructed inside the tree line on the north side of Weller street, from Park street to the Monaghan road, the same to be charged for as a local improvement.—Board of Works.

From the Central Mining Co., complaining that their property is assessed much too high in comparison with other similar industries in Peterborough, and asking that the necessary steps be taken to have the same adjusted.—Manufacturers' committee.

From the Auburn Power Co., applying for a franchise and right to use the streets for the transmission of electric power and light.—Franchise committee.

From the Town Solicitor, saying that Mr. Cameron wishes to be paid for his survey of the river front, from Wolfe to Hunter streets, on completion of the work. He objects to waiting for a confirmation of the survey before being paid.—Received.

From John Cormey, Secretary Separate School Board, notifying the Town that $6,045 will be required to be levied for Separate School purposes.—Finance committee.

From A. Stevenson, Secretary of the Town Trust Commissioners, drawing attention to the fact that some arrangements should be made the deficiency in the Town's sinking fund under bylaw 173 passed in 1899.—Finance committee.

From property owners on Edinburgh and Union streets.—Fire, Water and Light committee.

From W. A. Littlejohn, City Clerk, Toronto, asking the Council's assistance in securing legislation in conformity with the following resolution passed by the City Council of Toronto: "That application be made for legislation providing that the names of married women on the Assessment Roll be placed on the Municipal Voters' Lists, and Lists used in voting on money bylaws, on the same terms and condition as are the names of single women, and that such married women shall be entitled to vote on the same terms as single women; and that the Councils of other municipalities be communicated with and asked to co-operate in applying for such legislation."—Received.

From the Forest City Paving Co., London, saying that they are well equipped for laying cement sidewalks this year at exceptionally reasonable rates.—Board of Works.

From Geo. K. Martin and T. Q. Quartermaine, asking that they be paid more than the sum agreed upon—$110 each—for auditing the Town's books. The auditors claim that the accounts for the past year had dealt with much larger transactions in amount than in the year 1903, for which Messrs. Blatch and Jackson were paid $450, and asked the Council to give this matter their earnest consideration. They suggested that $400 would be commensurate with the work done.—Finance committee.

From D. W. Dumble, making the following proposition: "I will give the Town free the land required to continue Cambridge street south to Elm street, provided they take it on the following terms: The new street to be graded, macadamized and rolled up on or before June 1st, 1905. All rough stone raised in grading to be left on the side of the street for him, and to be removed by him before July 1st.—Board of Works.

From Leonardo Minitelo, asking a rebate on his peddler's license of $30, should a general rebate to ratepayer peddlars be decided on by the Council.—Finance committee.

From the National Sanitarium Association, asking financial aid for the Muskoka Free Hospital for Consumptives.—Finance committee.

Re the opening of George street south. Messrs. Denistoun, Peck, Kerr and Stevenson wrote to say that under no circumstances will their client, Mrs. McMahon consent to convey a lane on the highway or any part of it. The house in question must be moved on to the lot and turned round to face George street. Should the Town increase their offer by $600 to enable her to remove her house, and make the necessary repairs and improvements, she will accept their offer.—Received.

From Town Engineer T. A. S. Hay, saying that the telephone in his new offices will require extension. This will mean an addition of $2 to the present rent of premises.—Finance committee.

From property owners, praying for the construction of a granolithic walk on the north side of Sherbrooke street, from the junction of Park and Reid streets west to the Monaghan road.—Board of Works.

From ratepayers, praying for the construction of a pipe sewer on Harvey and Water streets, from Smith to Antrim streets.—Board of Works.

Ruinous to Prestige

Paris, March 29.—A St. Petersburg despatch to the Echo de Paris says that persons in the Czar's immediate circle declare that peace is impossible, and that it would be disastrous for the Government and the prestige of the army to conclude terms now. It is feared, says the despatch, that the Czar has submitted to the influence of the court in favor of continuing the war.

A Tolstoi Retreat

London, March 29.—A despatch from Harbin says that the retreat of Gen. Linevitch's army northward is most toilsome and dangerous. Men who become ill or exhausted have to be abandoned, owing to the breaking down of the transport facilities.

ADVERTISE IN THE TIMES.

Figure it out for Yourself

FORTUNES ARE BEING MADE IN KANSAS OIL

Here's a fortune for you. Not 10% but 100% and no risk of loss. Giant of the Oil Fields.

The Midland Oil and Gas Company

has over 160 acres of oil land and has put down 10 wells, so the land is proved up. An adjoining additional 80 was secured yesterday, making over 260 acres all in the proven belt. Just read this:

The U. S. report on the oil industry places the average daily production of Pennsylvania wells at only one-half a barrel each per day. **The Midland wells are pumping**

Sixty Barrels a Day Each.

The pumping plant has just been started and this is the surprising result. Nothing like it in the world. The officers and directors of this company are bank men and do not believe in debts, so the company is free from debt. They have nearly $20,000 in cash and bills receivable in the treasury and everything paid for—property, wells, pumping plant, oil tanks, well cleaning machine and everything connected with the company. Have two drilling rigs working night and day sinking wells. Have abundance of gas, which runs the drills and pumping plant, so it only costs about $5.00 a day to produce and market the oil.

The Company has about 33 per cent of its stock in the treasury as a reserve.

For a short time the Company will sell a little more of its stock at only

7½ CTS. A SHARE

Buy all you can raise money to pay for.

We could talk all day about it and not cover all the strong points. But as the company has this grand property paid for, there is only one side to it, and that is profit. Don't buy stock in a company that tells you what they will do, but buy in this company, that has proved its property, and every dollar you put in makes it better. Send for particulars or mail check to

From the Kansas City Journal, Feb. 26, 1905.

There is perhaps no people in the same amount of territory in the world who have increased in wealth so rapidly. Everybody is prosperous. Many once poor and hard working families have become immensely wealthy.

Hudge Hale, an old Frisco conductor, has become a millionaire off of oil. He got in the game early. Now he has money as well as oil and gas to burn.

Fred Hetrick, a farmer living near Chanute, had a hard time for years making both ends meet. Life was a hard proposition with him. His royalties now reach $1,000 a month and he is living on easy street.

Joe Helm, of the Kansas City Brewery, took a flyer in oil leases. He first put in $500 and refused $12,000 for his investment. Later he put in a lot more money in gas and oil lands and is now figuring high.

George Z. Work, the Chicago clothier, took some acres of land near Chanute for a debt a customer owed him. Work's partner refused to stand for the deal. So Work kept the land himself. He has since refused $50,000 for his holdings.

These are a few samples. Hundreds of farmers have become independently rich off their oil royalties, and hundreds of other men have made big money producing oil.

This Kansas oil bearing sand is like the Pennsylvania sand; wells will produce oil for fifty years.

Can give bank references, and discuss from people who have personally examined this great property.

VARICOCELE CURED

NO NAMES USED WITHOUT WRITTEN CONSENT.

Confined to His Home for Weeks.

"Heavy work, severe straining and evil habits in youth brought on a double varicocele. When I worked hard the aching would become severe and I was often laid up for a week at a time. My family physician told me an operation was my only hope—but I dreaded it. I tried several specialists, but soon found out all they wanted was my money. I commenced to look upon all doctors as little better than rogues. One day my boss asked me why I was off work so much and I told him my condition. He advised me to consult Drs. Kennedy and Kergan, as he had taken treatment from them himself and knew they were square and skillful. He wrote them and got the New Method Treatment for me. My progress was somewhat slow and during the first month's treatment I was somewhat discouraged. However, I continued treatment for three months before treatment, now I am earning $3 and never lose a day. I wish all sufferers knew of your valuable treatment.

HENRY C. LOCUST.

HAS YOUR BLOOD BEEN DISEASED?

BLOOD POISONS are the most prevalent and most serious diseases. They sap the very life blood of the victim and unless entirely eradicated from the system will cause serious complications. Beware of Mercury. It only suppresses the symptoms—our NEW METHOD positively cures all blood diseases forever.

YOUNG OR MIDDLE AGED MEN.—Imprudent acts or later excesses have broken down your system. You feel the symptoms stealing over you. Mentally, physically and vitally you are not the man you used to be or should be. Will you heed the signals?

READER Are you a victim? Have you lost hope? Are you intending to marry? Has your blood been diseased? Have you any weakness? Our New Method Treatment will cure you. What it has done for others it will do for you. CONSULTATION FREE. No matter who has treated you, write for an honest opinion Free of Charge. BOOKS FREE—"The Golden Monitor" (Illustrated), on Diseases of Men.

TO CANADIAN INVESTORS

Oregon-Idaho Gold Mining Co.

INCORPORATED

Capital $5,000,000. Shares $1.00 Each, Par Value, Fully Paid Up and Non-Assessable.

We have just secured the agency for the above splendid proposition, of which we have been allotted a block of Treasury stock. We can confidently recommend this as a safe and, we believe, exceedingly profitable investment. Every dollar of stock is guaranteed by twenty year, full paid, gold bond, delivered to purchaser of stock, from an Investment Company that has no interest whatever in the company, but who are disposing of the debentured bonds to the public, and, under their charter, they are compelled to deposit securities to an equal amount, to the State Treasurer under which they received their charter, there by doubly securing the payment of their gold bonds.

The Company's property, which is now past the project stage, is known to be marvellously rich in gold.

Following is the opinion of G. W. Miller, Mining Engineer, formerly with the Boston and Montana Consolidated Copper and Silver Mining Company, U. S.; Summer and Jack Mining Co., Limited, Elandsfontein South Africa:—

"You have here a most valuable property and one of the strongest fissure veins that can be found in any part of the world.

"With the present development of the Retracement Mine, I estimate that 100 tons per day can be extracted, which will mill from $15.00 to $20.00 per ton. The total cost of mining the ore, delivering and milling, I place at about $4.00 per ton. With the present milling capacity, it is safe to say that the mine can furnish 100 tons of $15.00 ore, which would yield a clear profit of $11.00 per ton, or $1,100 00 per day (equal to $400,000.00 per annum). Estimated total value of ore in sight, $3,500,000."

During the past summer, a party of the Company Directors visited the property, taking with them, Amos P. Brown, Ph.D., Mining Engineer and Professor of Geology and Mineralogy at the University of Pennsylvania. Dr. Brown writes as follows:—

"In regards to the amount of ore available at the mines at Sinaloa, I saw on the dumps several thousand tons, probably 5000 tons would be an underestimate.

"As to the size of the ore body itself, from what I saw of the geological structure, I think that there is every indication that it will be found to extend underground as far as the out-croppings on the south side of the gulch. This would mean an ore body large enough to keep the present mill running for many years to come.

A write up of the proposition will appear in these columns in a few days. Watch for it. In the meantime we will be pleased to furnish full information to investors.

IT MAY PAY YOU

A HIGH GRADE INDUSTRIAL AND MINING INVESTMENT

We have thoroughly investigated it and found it to be right in every respect Did you ever have a chance to invest in a straight legitimate money making proposition? If not,

THIS IS YOUR OPPORTUNITY

We own a monopoly of the water right privileges in the Thunder Mountain mining district, State of Idaho, U.S.A.; seven water rights in all; one developed and in use. The property of the Company consists of over 1400 acres, with plenty of timber for building and mining purposes, a saw mill fully equipped and in operation, a 10-stamp mill now on its way from the R. R. Station to the property, and 40 additional stamps to be purchased at once and installed during the coming summer. This is the largest and most favorably situated property in the district. Some of the tunnels have been driven over 400 ft., cross-cutting many dikes, demonstrating that we have an inexhaustible body of ore. The ore bodies are sampled by an assayer every 10 ft., and assays run from 40c. to $800 per ton. The ore is free milling, and can be mined and milled for about $1.00 per ton.

This Company has had a phenomenal growth, and "The Thunder Mountain Prospector," published at Roosevelt, Idaho, where the property is located, states that this Company is three times as large as any other Company operating in the district. 30 men at work on the property. Over $60,000 worth of stock sold within the last 90 days. Only 100,000 shares more to be sold at 50c. per share. You cannot afford to miss this opportunity; investigate at once.

RUSSIA'S LOSS HALF A MILLION

This Vast Force Said to Have Been Sacrificed

London March 30.—The Times special says: If we were to accept without question the estimate given out by the General Staff in St. Petersburg of its work during this war it would be necessary to believe that [illegible] had frittered away the lives of half a million men. The General Staff says that since the war began, and up to March 12 of this year, it had forwarded to the far east 761,467 men, 146,408 horses, 1,521 guns, and 316,321 tons of munitions and supplies. Since it is agreed that the whole Russian force available, even for getting itself killed, in the far east does not now much exceed a quarter of a million, it is a necessary interference that the Russian losses have amounted to half a million.

But it is quite incredible. In the first place, the estimate of 60,000 Russian troops in the far east at the beginning of the war must be far too small. It is quite absurd to say that peaceful propensities of the Czar prevented the reinforcement of the garrison of Russia in Manchuria to a far greater extent. Ever since the Boxer uprising of 1900 gave Russia her pretext and her opportunity in Manchuria, it has been notorious that Russia was reinforcing her troops in the "division of the Amur." Mr. Weale quoting the figures of the Japanese General Staff, estimated the total number of troops under the command of Admiral Alexieff, at the beginning of 1904, at 207,500. Already at that time it was known and published that the whole available Russian Navy was in far eastern waters. The tone of the negotiations on the Russian side, after they were transferred from Count Lamsdorff and the peace party in St. Petersburg to the martial Alexjeff at his headquarters, showed an unquestioning belief in the power of Russia to overwhelm Japan in Korea, to say nothing of Manchuria. And surely even Alexieff was not infatuated enough to suppose that that would be done with 60,000 men.

But we have evidence from the Russian side against the present contention of the Russian General Staff, which aims to magnify its own preparations at the expense of the Generals in the field. Just about a year ago there appeared in the Revue Militaire of Paris a survey of the military situation, of which the statements of fact were assumed to be derived from the Russian War Office, and in which the number of Russian troops in the far east was put as 280,000, with the statement that the total would shortly be raised to 300,000, with 100,000 horses. It was computed that this force would need 1,600 tons of food and forage daily, beyond what the Manchurian market would supply, and that the transport of that amount, requiring six trains a day of from thirty to thirty-five each of the freight cars in use on the line, would exhaust the capacity of the Trans-Siberian Road. And this without counting upon any additional transport of reinforcements or of munitions. Without doubt the railroad has been very efficiently managed in the interval.

MANIAC KILLS HIS BROTHER

Alfred Quick Slowly Strangled to Death After a Long and Terrible Struggle

Strathroy, March 28.—On Saturday afternoon, Alfred Quick of Caradoc Township, a farmer 28 years old, was strangled to death by his brother Robert, who is aged 45 years. The murderer, who was undoubtedly unbalanced in his mind, succeeded in his awful deed only after a struggle lasting for hours. He was taken to London, and placed in a cell there, and was very violent on the way, frequently roaring like a mad man.

Robert Quick is a Widower, living in the tenth concession, with his five children, the eldest of whom is 11 years old. His wife died five years ago, since which time the farm, which was once in a prosperous condition had gone to decay, the husbandd being unable to work the land and look after the household with its attendant duties. It is said that the loss of his wife affected him greatly. He had always been religiously inclined, his belief in this regard bordering on fanaticism.

LEFT FOR ENGLAND

Sir Thomas Shaughnessy Has Left for England

Montreal, March 28.—At the Windsor street station a number of prominent citizens, as well as several C. P. R. officials, assembled to bid farewell to Sir Thomas Shaughnessy, who is leaving on a six weeks' trip to England, during which he will look into the Company's European business. Sir Thomas was accompanied by Miss Alice Shaughnessy, and the private car Cornwall was attached to the regular N. Y. C. train for their accommodation. Among those present on the platform were: Mr. Robert Kerr, passenger traffic manager; Mr. W. C. Spencer, superintendent of transportation; Mr. George McL. Brown, superintendent of sleeping and dining car service; Mr. Robert Meighen, Mr. Donald Mannaster, K.C., Mr. R. B. Angus, Mr. F. L. Wanklyn, and Mr. F. A. McMaster.

WHAT WIRELESS IS — WHY IT WORKS

(This is the first of four chapters which will give a very simple description of wireless telegraphy and one which should be read by everyone so that they may be intelligently acquainted with this latest and greatest development of science.)

CHAPTER I.

Over a century ago Newton explained to the world that all unsupported bodies fall to the ground because of a certain force which he then called, and which has since been known as, "the force of gravity." He did not really discover anything new, for the force of gravity has been exercising its influence since the creation of the world. You and I could not walk and the [illegible] be erected if the force of gravity did not exist and exercise that strong and constant pull keeping everything, so to speak, drawn toward the earth and its center.

Before Professor Newton gave this peculiar force a name and gave a clear explanation of what and why it was, people thought that things fell to the earth because they were heavy, but they did not know that it was this peculiar force pulling them toward the earth which gave them that quality which we call weight.

Wireless telegraphy is just as simple as the action of gravity, for it depends upon things which Nature has provided for the world and which have also been in existence since the world was created. It is surprising that its discovery was so long delayed. As Newton gave a correct explanation of gravity, so has Marconi harnessed Nature and made himself familiar with one of its possessions and one which is always about us. Nature has charged the air with this electricity because it is needed to keep people, and plants, and every growing thing, alive. Wireless telegraphy simply requires the harnessing of that electricity, just as a river is controlled to make a water wheel turn and supply the power for a mill. The electricity in the air is constantly in motion, but not in any regular direction. It is more like the waves of the sea, which are sometimes high and sometimes low, but always in motion. Wireless telegraphy compels that electricity to travel in a certain way and with even and regular force.

You have thrown a stone into a pond of water and seen the little circles of waves which start from the point where the stone struck and go on and on toward the shore in constantly increasing size until they disappear. If it is a small stone which you throw, the waves will be small, while if it is a large stone which you throw, the waves will be of considerable size. The instrument which sends the message, and which will be described in a later chapter, sends forth a strong or a weak current of electricity. That added electricity in the air acts as does the stone. The electricity in the air is set in motion as are the waves in the pond and it is given a definite direction. In circles of constantly increasing size, the electric waves start from the sending station and travel on indefinitely. The station which receives the messages is like the shore and it intercepts those waves as they come to it.

Chapter 2 will appear in this paper next week and will describe the instruments which send these messages out and the one which receive them, and will tell more about the way in which this unseen force of Nature can now be controlled.

TO CANADIAN INVESTORS

Thomas Patterson & Co. Have a Fine Copper Proposition.

Fifty dollars invested in Granite Mountain Mining Company's stock paid the purchaser $34,500, besides several thousand dollars in dividends. One hundred dollars invested in Boston and Montana Mining stock paid the purchaser $44,000, besides several thousand dollars in dividends. A few dollars invested in shares of the Butte Copper Mining & Smelting Company stock, will not only insure you big returns in dividends, but a handsome profit in an increased value of the stock. Our mine is not a prospect but a copper mine which has produced $160,000 in profits in the last three years.

For the purpose of buying adjoining ground we have placed on the market 50,000 shares of our treasury stock. This stock is fully paid and non-assessable. Par value $1.00 per share. We will sell any part or all of this lot at 60 cents a share; no certificate issued for less than 100 shares. Send us your order for what stock you want and we will reserve it for you, pending your investigation of our company; and when you have received our prospectus and satisfied yourself that the investment is a good one, you can send us the money and we will issue the stock, or have the stock sent through any bank you may designate. MARCONI SAILS TO-DAY

William Marconi, the great wireless inventor, sails from Liverpool this afternoon on the Cunard steamship Campania, for New York and is due to arrive at that port on Saturday next.

The annual report of Marconi's Wireless Telegraph Company, Limited, of England, says: "As a result of Mr. Marconi's experiments, the company is now in possession of all the data necessary for the equipment of stations for good commercial working between England and the continent of America, and a new station embodying the latest improvements equipped on a commercial scale is already nearly completed in Canada."

The station referred to is the one at

=GLACE BAY, NOVA SCOTIA=

which is one of the stations owned by the Canadian Company, and is for the purpose of installing the perfected high power apparatus in that station that Mr. Marconi is making his present trip to this side of the Atlantic.

This is but one of the important developments of the immediate future which will enhance the value of the stock of

The Marconi Wireless Telegraph Company OF CANADA, Ltd.

and which make it an investment worthy of most careful investigation by people who wish to make a conservative use of their investment funds.

With the newly perfected apparatus for the fast transmission of messages, a single transatlantic station with one pair of instruments will earn

$1,120,000 PER ANNUM

It is safe to presume that the number of stations and instruments will be increased as fast as business warrants such a step. Such a tremendous return on the capital invested was never enjoyed by any previous enterprise in the history of the world's great inventions. Is it reasonable to presume that the selling price of the stock will long continue at $5.00 per share under such conditions?

Any desired particulars may be obtained by application at any one of our offices.

Take Advantage of This Golden Opportunity To Make Yourself INDEPENDENTLY WEALTHY

by simply making yourself acquainted with the facts as to what this great Company has done already, is doing now and its prospects for the future. Don't neglect the chance!

CHAPTER FIVE

PROGRESS

The first annual meeting of the BOSTON & TEXAS CORPORATION was held a Crowther, and the following officers and directors elected for the ensuing year

President—GEO. C. BOGGS, of Finleyville, Pa
Vice-President—J. T. AUERBACH, Boston, Mass.
Treasurer—S. A. HOPKINS, Boston, Mass.
Secretary—F. T. PARKS, New York.
ROBT. SHERWOOD, Brooklyn, N. Y.
H. U. EWING, East Walpole, Mass.
JOHN THOMSON, Quebec, Canada.

The first meeting of this board being held in New York City, February 4th, 1904, a full discussion of all things pertaining to the work of the property was entered into, and an economical line of development mapped out. The work at first was almost like starting a new company entirely as operations had entirely ceased for nearly eight months; the machinery had to be repaired and gotten into working shape once more. Order had to come from disorder, All this meant a lot of work and over five months going by before the conditions were such that active work sinking wells could be again entered into. Sheds had to be built for the tools, houses for the employees, and many things too numerous to mention. Active drilling on No. 9 well being the first begun by the new company in June, and being successfully finished in August, being considered very successful, producing as a flowing well some 5 barrels per day. This well has since increased to 7 to 12 barrels per day flowing, and has been tested by a three days trial, which showed the well to be better than expected, averaging 53⅓ barrels per day, with a possibility of its increasing under regular pumping. This let it be remembered is NATURAL LUBRICATING OIL. No. 13 well has also been finished, showing up early in January of this year. This well is the equal, if not the superior, of No. 9. No. 12 well produces both oil and gas, with an extraordinary gas pressure of 75 pounds to the square inch. No 10 well in the illuminating belt was unsatisfactory. No. 11 well has been finished up at the 380 foot stratum as a gas well. This well has a pressure of 35 pounds to the square inch, and will furnish fuel for drilling, also light and heat for the present needs of Crowther, Texas. We think a good deal has been accomplished in our first years labors. Transportation has taken definite shape, L. J. Polk, promoter of the new road running from San Antonio to Rio Grande City, connecting with the Mexican National, has already secured $136,000 and 25,000 acres of land as a bonus on construction, and expects to have the road in operation by the early part of 1906. The St. Louis, Brownsville & Mexico Railway, which has already built a portion of its road, is now building north to San Antonio from Brownsville, and should not pass more than 5 or 6 miles east of the Boston & Texas property. This road should be in active operation by the first of the year, if not before.

To-morrow will give you the probabilities and some of the possibilities of this corporations future.

CATARRH

RUINS HEALTH AND BEAUTY CAUSES THE WEAK TO DIE YOUNG INVARIABLY LEADS TO CONSUMPTION.

Thousands Annualy Cured by Catarrhosone

MR. ARCHIBALD BABB, of New Harbor, writes; "Catarrhosone proved itself a remarkable remedy in my case. I suffered terribly from catarrh in the throat and my nose was so stuffed up every morning I could hardly draw my breath. The mucous dropped back into my stomach, spoilt my digestion and kept me sick all the time. Catarrhosone relieved in a short time and cured perfectly."

MRS. W. F. BREACH, of Chapman, writes; "I have used a great many remedies for catarrh, but none of them ever helped like Catarrhosone. It cleared out my nose and throat and stopped a ringing noise in my ears. Catarrhosone is very pleasant and simple to use and many times better than any other catarrh remedy."

MR. LAWRENCE KENNEDY, of New West Annan, says; "For three years I tried doctors but my catarrh grew worse and worse. I got no relief till I used Catarrhosone. It was not very long in curing me so perfectly that the disease has never returned."

MR. JOSEPH De ROCHE, one of the most prominent and highly respected citizens of Loggieville, N.B., says; "I used Catarrhosone for a sore throat, cold in the head and head ache. I always felt relief immediately. It cured the discharge from my nose and restored my sense of smell lost through the effects of catarrh."

Catarrhosone is simple, convenient and pleasant. It is warranted to instantly relieve and permanently cure.

Complete outfit consists of a beautiful polished hard rubber inhaler and sufficient liquid for recharging to last two months. Costs $1.00 or sample size 25c. Sold by all druggists, or sent by mail to any address if price is forwarded to N. C. Polson & Co., Kingston, Ont., or Hartford Conn., U.S.

DASHES HERE AND THERE BY TIMES' REPORTERS

Steamer Lakefield

R. W. Urrott, Measuring Surveyor of Shipping, was in Lakefield yesterday, measuring what used to be the old steamer Alert, which is being rebuilt, now called the Lakefield. As her upper works have been removed her registrar tonnage is now reduced from 60 to about 43 tons.

Meeting Adjourned

On Wednesday night after the midweek Lenten service at St. John's a special vestry meeting was held in the school house. The meeting, which was large, heard the report of the special committee appointed to consider the question of a site for the proposed new rectory. Two sites were discussed, but as the meeting did not seem to have a clear understanding of the topical nature of the matter, it was decided to adjourn the meeting until next Wednesday evening in the same place and time—after the Wednesday evening service.

larger this year than ever

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 90 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our correspondence courses.

WM PRINGLE

Temporary Shut Down at the Gas Works

The gas works had a temporary shut down yesterday morning, owing to the top of the generator leaking. When the operator would try to get a run on, the gas would roar out of the machine, and ignite, causing the nearby brick wall and iron platform surrounding the generator to become white hot. By good management sufficient gas was reserved to ensure consumers their usual quantity. After a few hours the difficulty was overcome, and gas flowed like eloquence at a camp meeting.

How About Insurance Rates?

Whilst in all probability the proposed new fire hall will be built, would it not be well, previous to committing the town to an expenditure of nearly $25,000, to have as suggested by the Mayor at the last Council meeting, a definite understanding with the insurance companies, as to whether any, and how much, reduction will be made in the rates of premium charged in Peterborough with such an addition to our protection against fires, and which will place us on a par as to fire risks with almost any city, pro rata, a correspondingly large reduction should be guaranteed us by the underwriters.

Annual Dinner of Company Eight

The annual dinner of Company K, of the 57th Regiment held Wednesday night in Long's Palm Gardens was a great success. About thirty-five young men sat down, as well as Col. Miller, Adjt. Walker, and Sergt.-Major Brittain. After partaking of dinner, a pleasant toast list was carried out, with Lieut. Hamilton, officer in command of the company, in the chair. Adjt. Walker proposed the health of the 57th Regiment, which was responded to by Lt.-Col. Miller. Col. Miller said he had been in the regiment since entering as a private in 1864, and had yearly grown more proud of it. He said that conspicuous among other eminent appreciative critics of the regiment was Lord Dundonald, who praised it. The Col. next referred to the new drill hall, saying it would before long be completed, and would have all recent improvements, such as shooting gallery and gymnasium. With other toasts, including the noncoms, the ladies, the officers of No. 8 Company and others a very pleasant evening interspersed with songs and recitations, was spent, and wound up with the usual and ever popular national anthem.

A GRACEFUL RECOGNITION

St. John's Church Choir Present their Late Choirmaster, Mr. Rupert Gliddon, with Silver Candelabra.

A very pleasing and graceful recognition of past services and friendly remembrance was made last night in the Conservatory of Music, when Miss Sawyers, on behalf of St. John's church choir presented Mr. Rupert Gliddon, late choir-master with a handsome silver candelabra, accompanied by a suitable address. In his address Mr. Morphett testified to the able manner in which Mr. Gliddon had performed the onerous duties of his position, and spoke feelingly of the friendly spirit that existed between the members of the choir and their instructor, adding to these sentiments the universal regret felt by all present at losing the services of their late leader.

A very pleasant evening was spent by all present. In his reply to the address of presentation, Mr. Gliddon spoke briefly, and thanked those present for their kind remembrance, and of the warm memory he would always cherish towards St. John's church choir.

Local Incidents

BY THE TIMES MAN ON THE STREET.

—To-night at 7.30 the choir of All Saints church will meet.

—The Chief has a pair of glasses and a mat in stock, and would like an owner to apply.

—Choir practice was held last night in St. John's, George street and Charlotte street churches.

—A special musical service was held at the Salvation Army Hall yesterday evening, conducted by the children of the Sunday school.

—Last night at All Saints' church, divine service was held at 7.30. The pastor continued his series of sermons on "God's Call to His People."

—Don't smoke in the Court House or you will be disliked by non-smokers, who like yourself, will receive the third degree of g.b.

—The Y.M.C.A. directors have decided to introduce the dormitory system, and a contract for proposed changes has been let to Mr. W. J. Johnston.

—George street church special services are attracting very large attendance. They will be continued until to-morrow night, inclusive, at eight o'clock. All are invited.

—As a small token of esteem, Rev. Mr. Tandy was presented by his old parishioners in Havelock with a well filled purse. Mrs. Tandy, his mother was also presented with several articles of silverware.

—Among the applications received by the Clerk of the Ontario Legislature on Saturday was the following: 'To separate the United Counties of Durham and Northumberland for municipal, judicial and all purposes."

—Mr. George T. Barrett and Mr. T. Freeman, C.P.R., auditors, were in town yesterday on business in connection with the local office and the transfer of the books, papers, etc., to the new town agent, Mr. Wm. McIlroy.

—Another of the series of special Bible readings, which are being held during Lent, was conducted yesterday morning at the residence of Mr. D. Hughes Charles. The Bible reading was given by Rev. Dr. Orothers, of George street church.

It may be

Coffee.

Prove by change to

POSTUM

10 days and note the improvement

Get the little book, "The Road to Wellville," in each pkg.

—The Y.M.C.A. membership contest closes on Monday evening at eight o'clock. The banquet will take place at seven o'clock. Only those who have brought in new members will receive invitations. A special bill of fare for the losers.

—The Y.M.C.A. Debating Society on Wednesday, after a spirited debate, pro and con, decided that billiards is a desireable game. In this debate there were Messrs. W. C. Downie and Chas. Coleman for the affirmative and Messrs. Maurice Rosenburg and Chas. H. Reid for the negative.

—What about that plumbing inspector? As our Yankee neighbors would say, "its plumb-wrong," this delay in appointing such a palpable necessity, if typhoid, diphtheria and kindred diseases are to be kept out of Peterborough's houses.

—Miss Minnie Wilkins, daughter of Mr. John J. Wilkins, 617 Bethune street, who had her hair caught in a loom in the Colonial Weaving Company's plant last Tuesday, and who suffered considerable pain from her narrow escape from death in the machinery.

—All horse lovers in town know the famous Hackney stallion Saxon. On Tuesday the Beith collection of 58 horses were sold in Bowmanville for $30,000, among them being Saxon, which brought $5,500. He was purchased by a Mr. Dodfrey, who acted as agent for New York millionaires.

That threatened man 'Five' long should keep Mr. D. W. Dumble, from all fear of loss of sleep. Yesterday he received from the Dead Letter Office a threatening letter signed by his own name, but evidently for some one else; the signature being evidently forged. There is a crank born every minute.

Personal and Social

Movements of the people in and out of town . . . .

—Mr. J. Cadigan, of Hamilton, is visiting friends in town.

—Mr. J. H. Brandon, Fenelon Falls, was in town yesterday.

—Dr. Charles Neil, of Grandhurst formerly of Peterborough, is in town.

—Lindsay Post says; Mr. D. J. McDonald, of Peterborough, was in town yesterday on business.

—Campbellford Herald says; Miss Arnott, of Peterborough, was in town last week visiting friends.

—Mr. James Hartney, Toronto, Manitoba Emigration agent, was in town yesterday, and gave The Times a call.

—Mr. E. B. Stone a well-known barrister of London, Ont., and formerly of Peterborough, was in town yesterday; he leaves for home to-day.

—Yesterday we had a pleasant call from Mr. John J Rose, the genial and popular travelling passenger agent of the C.P.R., who spent the day in town.

—Miss Alice Rogers, Peterborough's piano virtuoso, will give a recital in the banquet room of the King Edward Hotel, Toronto, on Friday, April 14th.

—Married man — A good steady worker—wants permanent employment or would accept day work in the meantime. Leave word at this office or apply to 281 Park street.

—Mr. Fred T. Moser, of Montreal, who was with the Canadian General Electric Company here about three years ago, is in town renewing old acquaintances for a day or two.

—Mr. Matt Jamieson, time-keeper for the Turner Lumber Company, North Bay, who has been renewing acquaintance with old friends in town for the past few days, leaves to-day to return to his post.

—Rev. Mr. McKnight who has been preaching in Regina, has returned. He will leave to-day for Kingston, having accepted a call to the Limestone City. Mrs. McKnight and family, will remain in Peterborough for a few weeks.

—Mr. J. S. Williams, editor of the Toronto News, who addressed the Fortnightly Club last night in the Y.M.C.A., taking as his subject, "Independent Journalism," was the guest of Mr. J. H. Burnham. A large audience listened with pleasure to his interesting and instructive lecture.

—The Lindsay Post says; Mrs. W. C. McGregor, and sister, Miss Liggett, of Peterborough, are in town to-day, guests of Mr. and Mrs. W. H. Simpson. Mr. E. F. Clarry, broker, of Peterborough, formerly of the Examiner staff, was in town yesterday, a guest at the Benson House.

When you want a life-like Portrait in Oil, Crayon, or Water Color, don't fail to come to B. Hudson's Studio, where the work and prices are always right. Gifts in Pictures, Frames and Fancy Work. Lessons in Painting and Pyrographic Work. Studio, 134 Brock street, Peterborough.

SPRINTING.

Peter Johnston the well-known ex-Cobourgite athlete, wishes to challenge Archie Dryland, the popular messenger boy of the transformer department of the C.G.E., to a race at any distance from 100 yards to 20 miles, event to take place after the Devlin-Dryland race. Mr. Johnston will be at the Oriental on Saturday to sign articles.

—The Lindsay Post says; Father Wm. P. Curtin, of Peterborough, recently ordained to the priesthood, was in town yesterday, visiting his uncle, Mr. Dan Curtin, of the G.T.R. Father Curtin was accompanied by Mr. J. Maher, clothing merchant, who received a hearty greeting from his many old friends.

THE MARRIAGE QUESTION.

The professor who announced that "love and romance die out with the sound of the wedding bells," was the first to start the ball rolling. It would seem a brave woman who marries with this echo in her ears, yet we have not heard that there were fewer marriages during the year. There are unhappy married lives, but a large percentage of these unhappy homes are due to the ill-health of the wife, mother or daughter.

During a long period of practice, Doctor Pierce found that a prescription made up entirely of roots and herbs, without the use of alcohol, cured ninety-eight per cent. of such cases. After using this remedy for many years in his private practice he put it up in a form that can be had at any store where medicines are handled.

Backed up by over a third of a century of remarkable and uniform cures, a record such as no other remedy for the diseases and weaknesses peculiar to women ever attained, the proprietors and makers of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay $500 in legal money of the United States, for any case of Leucorrhea, Female Weakness, Prolapsus, or Falling of Womb which they cannot cure. All they ask is a fair and reasonable trial of their means of cure.

Dr. Pierce's Favorite Prescription cures headache, backache, nervousness, sleeplessness and other consequences of womanly disease. "Favorite Prescription" makes weak women strong and sick women well. Accept no substitute for the medicine which works wonders for weak women.

must win upon their merits. The International Dictionary has won a greater distinction upon its merits and is in more general use than any other work of its kind in the English language.

A. H. Sayce, LL.D., D.D., of Oxford University, England, has recently said of it: It is indeed a marvelous work; it is difficult to conceive of a dictionary more exhaustive and complete. Everything is in it—not only what we might expect to find in such a work, but also what few of us would ever have thought of looking for.

A supplement to the new edition has brought it fully up to date. I have been looking through the latter with a feeling of astonishment at its completeness, and the amount of labor that has been put into it.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

[1] At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead of the cultivation.

[2] If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

[3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses [2], [3] or [4] must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 30 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Offices in Winnipeg, or at any Dominion Lands Office in Manitoba, or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

W. W. CORY, Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

CABINET DISCUSSING QUESTION OF RESIGNATION.

The Winnipeg Tribune Says All the West Should Join Hands to Protect Provincial Rights--Hon. Mr. Rogers' Statement

DESPATCHES from Winnipeg dated March 31, says;—A full meeting of the Cabinet is taking place to-day, and the question under consideration is said to be that of resignation if the Governor continues his refusal to grant dissolution. The political sensation of yesterday was the talk of the public last night and to-day, and much speculation is being indulged in as to what the outcome will be. Premier Roblin refuses to talk but he will not deny that the Governor has so far declined to accede to his request for a dissolution.

A Strained Situation.

It is quite clear from last night's interview with Hon. Mr. Rogers what the situation is. It is strained, and a crisis is impending. Whether or not Mr. Roblin will hurl the scalls at the feet of Sir Daniel is a question for the future. If he were to do so, Sir Daniel might call in Horace Clavrier to form a Government, and so, when the appeal is made, it would be under the auspices of a Liberal, instead of a Conservative Government, which might make quite a difference in the constituencies.

Is Ottawa to Blame?

The question naturally arises wheter or not the party at Ottawa has any thing whatever to do with the crisis here. It is known that, with some exceptions, the party is most anxious to defeat the Autonomy Bills, largely on account of the school clauses, and it is hinted that one of the ways in which such a defeat can be brought about is for Premier Haultain and Premier Roblin to get the entire people of the West thoroughly aroused. It is difficult to do this by pamphlets and letters to the newspapers. The only way to do it is to have elections, and get all the people aroused, and it now looks as if this was going to be done.

It may be taken for granted that good old party men like Sir Daniel McMillan and Mr. Forget, Lieutenant-Governor in the Territories, will do their best to help Sir Wilfrid out by trying to prevent the heather being set on fire.

Tribune's Fiery Editorial

THE Tribune of March 31, says editorially, on the general situation; "Constitution, principle, sacred pledges, past records, public opinion, all have been thrown to one side, and it seems, so far as we are able to judge, that nothing but a tremendous united demonstration of public opinion will serve to thwart the designs of the politicians. Premier Haultain is looked on by many as the man to lead the great majority of Canadians in the fight for freedom. Just what his next step will be is not known to the public, but it is not wholly improbable that as a last resort he may take the advice of the Calgary meeting, and appeal to the Territories as at present constituted. Many sincere advocates of the liberty of the Provinces have not entirely abandoned hope. The Opposition at Ottawa are, in the present instance, the friends of the West. If they unite with Haultain, and decide that the coercive legislation shall not be gagged until the electorate has been heard from through the ballot box it lies within their power to block the Laurier-Sifton designs. It is just as well to settle the question of Provincial rights now as at any other time.

"In this Province we are, or should be greatly interested. The Board of Trade held a meeting yesterday, and further discussed the boundary question. We have been told by the powers controlling Sir Wilfrid, that our boundaries will not be extended until this Province bows the knee and relinquishes her rights."

"Now is the time to settle the question as to who should rule Canada, the people or the gruckling politicians."

There was one significant statement in Mr. Roger's interview to which attention is certain to be directed. It is that there are some reasons for the refusal to extend the boundaries which have not been made public.

The interview in full here follows;

What Rogers Said

"I only hope we may be able to persuade Mr. Roblin that we should have dissolution. He is boss, and the matter is entirely in his hands. As for myself, I am already persuaded that we should dissolve. Having followed as closely as I have the treatment which this Province has received at the hands of the Dominion Government, I think that it is high time some definite and united action should be taken. If we are to maintain our position as a Province and our standing as free citizens of the Dominion we must do one of two things, accept and bow gracefully to the unfair policy of Sir Wilfrid and his Government, or show by some distinct action that we are loyal to our Province, and that we are sensible to the injustices being perpetrated upon Manitoba by the attitude of the Dominion Government in respect to the extension of our boundaries as well as other matters.

Dissolution is the Best

"I certainly think the best means of indicating our sentiments would be in dissolving the House and allowing every citizen of the Province to have a voice and say in respect to the present conditions. As Manitobians, we have equal rights with the citizens of other Provinces in this Dominion. This I claim beyond a question of doubt, we are not receiving to-day. For example, who can give a single reason why our boundaries should not be extended in common with the new Provinces being formed? The position of Manitoba entitles it to first consideration. Manitoba being the experiment through and by which the value, the resources and the greatness of all that territory purchased from the Hudson Bay Company, has been proven. Manitobian residents endured all the hardships of the early pioneer life to demonstrate this result, and now that the greatness of all the territory as purchased by the Dominion, is acknowledged the world over, it is indeed more than manifestly unfair and unjust that our Province should not obtain at the hands of the Government of Canada just treatment. The childish statement of Sir Wilfrid Laurier that Quebec and Ontario should be consulted cannot be accepted otherwise than as a direct insult to every vitizen of the Province. The northern boundaries of Quebec and Ontario already have connection with the Hudson Bay and the only Province entitled to Keawatin Territory is Manitoba.

A Red Herring Dodge

"I think that the suggestion made by the Board of Trade respecting our chance of securing territory east of Manitoba, and now forming part of Ontario, is all nonsense. During our recent interview with Sir Wilfrid he suggested the same ideas, but this is only endeavoring to draw the proverbial red herring across the trail. If we can get any territory it is entirely a matter between the two Provinces and with which the Dominion has nothing to do whatever. But the Dominion has the absolute power, if they are pleased to do so, to give us all the territory now asked for. What I want the people to know is the reason why we don't get it, and for this reason I am persuaded we should have a dissolution, when we could make all the facts in the possession of the Government known."

When asked if there were some reasons which had not been made known, Mr. Rogers said; — "Yes, there are some reasons not yet disclosed which have in my opinion up to the present prevented us from receiving justice at the hands of Sir Wilfrid and his Government. I wish I could take the people into my confidence, but I am not at liberty to do so at present."

Is the Heirarchy to Blame?

It is announced that what Mr. Rogers is driving at in his hint of hidden reasons is something on the line of the statement in Sir Wilfrid's personal Quebec organ, that Manitoba could not have her boundaries extended because she refused Separate schools to Catholics. If it should turn out that Sir Wilfrid has used such a threat, or made use of such an argument, it would do him irreparable injury in the West.

Liberals Still Hopeful

SEVERAL Liberals interviewed this morning expressed their views as follows;

H. M Howell, K.C.—"I certainly do not think that the Government should ask the Lieutenant-Governor to dissolve the House. Both sides want the boundaries extended, so why dissolve the House? If one side wanted the extension, and one did not, they might ask for the will of the people. I do not see why the Government should ask the Lieutenant-Governor to grant a dissolution."

Dr. J. A. MacArthur—"I think the Lieutenant-Governor would be right in refusing a dissolution of the House. There have been two sessions already. Manitoba will get her rights, the boundaries will be extended according to the statement of Sir Wilfrid, and I think it will come within the year. There is no need of going to the country on that score. It looks very much to me as if the Government was trying to get a catch vote on that question."

Boundary Small Matter

A. H. Pulford—"I think it is a mistake to dissolve the House at this time. Premier Roblin stated only a short while ago that nothing of the kind need be expected. I think the question of the boundary extension is a small matter for such a move."

Ald. J. W. Corkburn—"From private reports brought back by the deputation of the city to Ottawa things are favorable for an extension of the Province northward. I understand that the Government at Ottawa is inclined to extend the boundaries as far as lies within its powers, though, of course, there are portions in Ontario which it cannot touch. I do not see why we should go to the expense of an election when we can get the extension without it."

Rogers Urged to Speak

THE Tribune further commenting on this, this afternoon says;

"Hon. Mr. Rogers is credited with possessing considerable shrewdness, and if he does he must know that, having gone as far as he has gone, he must go further. The public have a right to know what is being held back. The more important it is the more imperative it is that it should come out and at once. Neither Mr. Rogers nor the Premier has any right to hold back information to which the public is entitled, and it is surprising that the Minister of Public Works should refer to the subject without giving particulars."

Sir Wilfrid Threatening

The more the matter is considered, the more evident does it appear that the Tribune is right and that Sir Wilfrid has long held a threat over the Local Government, that if it did not abandon its National School policy and adopt Separate schools, it would never get its boundaries extended. If this should turn out to be correct, as seems evident, then there will be a popular tide of indignation sweep over the country. Rogers may try to dodge responsibility, but it is certainly "up to him" to tell the story that he hints at in his interview.

Winnipeg, March 31.—When the Cabinet rose this afternoon the Ministers had nothing particular to say. Hon. Mr. McFadden announced that the Government was preparing a statement which would shortly be given to the public. No further developments are looked for to-day.

MICHIGAN MURDERER A SUICIDE

Body of Donald J. Tellier Found in Brush Near Wauseedah

Norway, Mich., April 1.—The mutilated corpse of Donald J. Tellier, the alleged murderer of Albert Nowatzki, was found yesterday in a clump of brush wood near the village of Wauseedah, and within 100 yards of the cabin where the murder was committed last November. Firmly wedged in the crotch of a dead tree was a double-barrelled gun. It is believed Tellier killed Nowatzki with one barrel and himself with the other, exploding the gun by means of a twig.

TO QUIT SAGHALIEN

Russians Only Waiting for Ice to Clear Harbors

Tokio, April 1.—Nothing has occurred here to indicate the possibility of peace. The Ministry of War and the Ministry of Marine continue their activities as if preparing for war for years. New levies are being constantly sent to the front. It is officially stated that fighting columns are following the Russians northward. Interest here in the campaign is being partly transferred to the eastward. It is reported that the Russians are preparing to abandon the Island of Saghalien when its waters are free of ice.

The Russians are strengthening points north of Tumen River, Korea, in the vicinity of Hunchun, northwest of Possiet Bay, and at points on the railroad in the vicinity of Ningak, 160 miles east by north of Kirin. A good highway extends from Possiet Bay northward to Ningak, which adjoins the Kirin Road.

Equality Before the Law.

The proposed amendments in the Separate school clauses leave the measure as open as ever to objection on the ground of principle, constitutional, and general. The principles for which we contend, and which we hope the people are determined to maintain, are the separation of the Church from the State and the equality of all religions before the law; and these are not less plainly violated in the second version of the measure than they were in the first. The Papal Delegate, with the Jesuit at his back, is resolved if he can to have his own way. Sir Wilfrid Laurier is bent on redeeming his pledge to the Papal Delegate and the Jesuit. The powerful meeting in the Massey Hall at Toronto shows both of them that there are serious obstacles in their path.

FAMINE IN SPAIN INDUCES RIOTS

People Raiding Stores and Stealing Food

THOUSANDS ARE STARVING

Relief Measures a Failure—Mayor of Cordova was Ordered to Divide up His Money

Madrid, April 1.—The newspapers state that the distress in Andalusia continually increase. Thousands of persons are in a famishing condition and are unable to help themselves. The authorities at Antequera, 28 miles north-west of Malaga, began the distribution of bread to the starving residents, whereupon the populace raided the wagons and forcibly seized the bread they were carrying. Much of the food was wasted by the action and hundreds were unable to obtain any at all. There were serious disturbances at Coin, a town 21 miles west of Malaga, leading to riots. Starving people of Campillos, 35 miles north-west of Malaga, raided stores and stole every kind of victuals. The inhabitants of Trebujena, a village with a population of about 3,000, 26 miles north-east of Cadiz, are starving, and their misery cannot be relieved.

The failure of the relief measures at Jerez de la Frontera has caused serious conflicts, the conditions resembling a revolt against the authorities. Four hundred residents of Cordova marched to the Mayor's house and asked for work. On being told that there was no work to give, the spokesman of the crowd demanded that the Mayor divide his money and belongings with them, as they were tired of starvation. A company of the civil guard was hurried out to protect the Mayor, but the situation in the town is threatening. Religious processions are being held in many towns imploring for rain, but none has fallen since the winter frosts began. Large areas are without crops.

The Government at Madrid is establishing municipal bakeries to reduce the high price of bread, and will facilitate the distribution of relief in the famine affected districts.

$9.00 EXTENSION TO NEW YORK $9.00

Tickets only $9.00 from Suspension Bridge to New York and return via Lehigh Valley Railroad. Friday, March 31st. Tickets good on Black Diamond Express and all regular express trains. Tickets good for return until April 5th. For Tickets, Pullmans, and further particulars, call on, or address, Robt. S. Lewis, Canadian Passenger Agent, Lehigh Valley Railroad, 10 King Street East Toronto.

A NEW BUSINESS

Mr. T. C. Westlake to Open a Meat Market in Mr. Tuck's Former Grocery Store

Mr. T. C. Westlake, well known by many of our townspeople, has secured the premises lately occupied by W. H. Tuck as a grocery store, corner of George and Brock streets. Mr. Westlake will, in this advantageously located store, open in the course of a week, a first-class meat market, where only the choicest meats, fresh and cured, and poultry will be offered to his customers. This is a very handy locality for surrounding residents to patronize, and will doubtless [illegible] market. Mr. Westlake has had the good luck to secure as manager a gentleman of long experience in this business, and a man well and favorably known by the marketing community.

PUBLIC LIBRARY GRANT

Board of Trade to Discuss the Carnegie Library Question

On Tuesday next the Board of Trade have been asked, by Mr. Hughes Charles, President, to meet in the Council Chamber for the purpose of discussing the advisability of asking Mr. Carnegie for a Public Library grant.

At this meeting it is expected there will be a large attendance and all will be asked to express their views, as upon the decision reached will it likely be agreed whether or not Peterborough shall ask the multi-millionaire for a donation. The secretary, Mr. Quartermaine, has received letters from several places which have Carnegie libraries, giving information as to cost, maintenance, etc. These facts will be made public on Tuesday night.

I. O. F. ENTERTAINMENT

Presentation to Organizer and Mrs. Brown A Mock Trial

The S.O.E. Hall, Thursday night was filled to overflowing with the members of Courts Queen and Chemong, I.O.F., and their many friends and an enjoyable program was rendered as follows;—Miss Bessie Powell, recitation; Miss Jennie Buyers, piano instrumental; Mr. Wm. Williams, song; Miss Mabel Rorkey, song; The Messrs. Coleman, the popular comic singers, gave several songs, which were heartily applauded and encored. Messrs. Peters and Richard, played a duet; Miss Christie gave a song, Miss Roadhouse, accompanist. Miss Bessie Powell gave another recitation which was well received. Miss Mary Koster rendered a piano instrumental.

A very amusing part of the program was a mock trial. Mr. George N. Brown, of Belleville, High Court Organizer, was the prisoner, and the charge against him was "that he was a member and agent of a secret society." Bro. A. Allison made a dignified judge and his rulings were much admired. Bro. J. W. Buyers conducted the prosecution, while Bro. G. W. Powell looked after the prisoner's interests. The case provoked much amusement. The defence did not deny that the prisoner belonged to a secret society, but attempted to prove that the society was a beneficial one. The judge, however, said that it was the prisoner they were trying, not the society.

The jury, without retiring, found the prisoner guilty, with a strong recommendation to mercy. The judge, then sentenced the prisoner to wear an emblem of the Order all his life, so that people might know him for a member of a secret society. The emblem was then presented to Mr. Brown by Bro. Allison, on behalf of Court Chemong. It consisted of a very handsome gold locket, suitably inscribed with the emblems of the Order. Mrs. Brown, who was declared to be an accomplice of her husband, and was also found guilty, was presented with a beautiful ereseent pin by Mrs. McNelly on behalf of Court Queen.

Mr. Brown, on behalf of his wife, and himself, thanked the Order for the kindness they showed to them and for the beautiful gifts which they had just received.

At the conclusion of the program refreshments were served by the ladies and a half hour socially spent.

Miss May Bullen and Miss Roadhouse acted as accompanists during the evening.

In the mock trial the witnesses for the crown were Bros. Miles and Robertson, and for the defence, Bros. Madill and Dale, Bro. Hounsell acted as clerk; Bro. Baker, constable, and Bro. Derrom, gaoler.

A BIG BATTLE IMMINENT, PEACE RUMORS INDEFINITE

The Japanese Commander, Oyama, Engaged in Manoeuvering to Ascertain the Russian Position--Linevitch Has Issued His Address to His Troops.

St. Petersburg, April 1.—The news from the front to-day indicates that Field Marshal Oyama has begun a genuine advance of his main army with wings far extended. Heavy reconnaissances are being made against the Russian center, with the object of developing the Russian position.

PEACE RUMORS INDEFINITE.

There is still nothing definite concerning peace proposals although some correspondents are inclined to believe that President Roosevelt has been appointed mediator. Tokio and St. Petersburg are still preparing for the continuance of the war, and a despatch from the Russian capital credits the Czar with saying; "If I have to sign a peace treaty, I cannot remain Czar."

Police Court OFFICIALS

Chief of Police, O.I. Rorke
Magistrate, D.W. Dumble

Yesterday's Court had the peculiarity of a case under trial, without plaintiff or defendant being present. William McGee, who was tried on March 10th, for non-support of his family, and who was then remanded until March 31st, for judgment, has in the meantime gone to the abanties. His Worship, yesterday morning, found him guilty in his absence, and remanded him for sentence.

The Chief was yesterday in receipt of a letter which shows that a certain man who was tried for non-support, a few days ago, and found guilty, but allowed to go on his promise to deny himself the pleasures of conjugal felicity for the period of one month, his wife being willing to work for and support her family, but not a drinking loafer who would not work. This party is either short on his dates or long on desire for punishment. The letter, from which we withhold the party's name, out of consideration for his family, not for him, reads;

Chief—

Dear Sir—That man ——— is laying round the house again, eating up his children's food. I wish you would attend to it at once.

From Your Friend.

Now get to work and turn in some money to the children, instead of drinking it up, and everything will soon be all right.

COMMITS MURDER AND SUICIDE

Illinois Man Kills His Brother-in-law and Then Himself

Marshall, Ill., April 1.—William J. Cruse killed Frank Livix, his brother-in-law, at the latter's home, five miles south of here, to-day, and then committed suicide. Mrs. Cruse a few weeks ago obtained a divorce, charging cruelty, and came here with her family to live. Cruse, claiming that the Livix family had influenced his wife to leave him, swore to kill those whom he claimed had interfered with his domestic affairs.

NEW BARRIER AGAINST RUSSIA

Indian Mission Concludes Agreement With the Ameer of Afghanistan

London, April 1.—The Indian office in London announces that the Louis Dane mission to Afghanistan has completed its business, concluded an agreement with the Ameer, and now is returning to India.

The purpose of this mission, headed by the Foreign Secretary of the Indian Government, was to improve the understanding between the Indian Government and that of Afghanistan, which is the buffer state between India and Russia on the north-west.

COMMUNICATIONS OPEN

No Serious Collision Has Occurred Since March 26

London, April 1.—A despatch to The Times from St. Petersburg says that several telegrams were received from Guntsuling Wednesday showing that if the Russian communications were interrupted, they have now been re-established. There apparently has been no serious collision since March 26, when there was a skirmish at Sipingai. The whereabouts of the Japanese flanking columns are not reported. Fifty more depot battalions have been formed in Russia. The seniors in all the military schools will be granted commissions in April, instead of September.

—Mr. F. D. MacKay, of Toronto, was in town yesterday.

—Miss Pearly McIntosh, of Warsaw, has come to Peterborough to reside.

TERRORISTS BUSY IN ST. PETERSBURG.

Another Tragedy Possible at Any Time--Police Theory is That Central Organizations of the Invincible Hand Are at Geneva or Paris--Those Arrested Are Silent.

St. Petersburg, April 1,—The authorities continue to find evidence of terrorist activity in St. Petersburg, and in spite of the provations of the police, another tragedy may occur at any moment. The fighting organization is known to have on its condemned list thirty persons, headed by Grand Duke Alexis and Governor-General Trepoff, but the police, although they have arrested several persons with bombs in their possession and have taken many suspects into custody, have been completely baffled in their efforts to discover the invisible hand which is directing the campaign of the terrorists. The police theory continues to be that the central organization of those engaged in the conspiracies are at Geneva and in Paris, and that the men arrested in Russia are agents selected to execute the sentences. When arrested these agents invariably are true to their oaths, and refuse to divulge anything no matter to what ordeal they are subjected.

GENERAL SPORTING GOSSIP

HOCKEY—THE TURF—BASEBALL—LACROSSE

PETERBOROUGH POOL PLAYER.

A Nephew of Mr. James Dolan Stands well in Milwaukee Pool Tournament

As noted in this journal a month ago, a young man raised, and well known, in Peterborough, Mr. Ed. (Khar) Dolan, was a prominent player in the pool tournament in Milwaukee, Wis., in which were entered some of the best known wielders of the cue in the United States. The tournament consisted in a series of matches extending over a month. The final games were played off three days ago, in the presence of an enormous crowd of billiard and pool lovers. We give a clipping taken from a Milwaukee paper which reads;

DOLAN WINS FROM MILLER.

"Ed. Dolan (150) defeated John Miller (150) in the final game of the handicap pool tournament at Callahan's last night by a score of 150 to 118. Otto Halman (100) won the tournament with a clean score, Ed. Dolan (150) took second. Benson (100) took third, and Miller (150) fourth.

Miller made the two highest runs of 13 and 11, but Dolan played the more consistent game, and had the game well in hand long before the finish.

* * * *

BASEBALL.

The members of the Quakers Baseball team are asked to hand in their suits to Mr. E. Pilling, the manager, as they are to be sold. New suits have been ordered, and will be issued as soon as they arrive.

WOLVES IN THE WEST

Ferocious Indians Gave Indians Great Trouble

Winnipeg, April 1.—Mail advices which have just reached Edmonton from Fort Resolution, which is a Hudson's Bay post situated on the southern shore of the Great Slave Lake, in the vast unexplored district of Mackenzie, states that the winter was marked by a very steady temperature, remaining about 30 degrees below throughout.

Wolves have become exceedingly plentiful, and of alarming boldness, making it necessary for the Indians to consolidate their camps for the purpose of protection. This is in the heart of a wild country, where magnificent specimens of wood buffalo are still at large. Wolves have attacked herds of these animals with unprecedented ferocity, and hundreds of them have been slaughtered. At Fort Smith this has been particularly the case, full grown bulls having been killed and devoured. The settlers and trappers of the district propose to memorialize the Dominion Government to take steps to preserve the wood buffalo, which, under the present arrangement, are going the way of the species which roamed over the whole northern continent in days gone by.

CANADIAN DRY DOCK

The Sydney Dry Dock Scheme Likely to go Through

North Sydney, N.S., April 1.—The North Sydney town council met Captain Farquhar to ascertain the details of his railway dry dock scheme. It involves the expenditure of $250,000, and the town is asked to grant a bonus of $2,500 a year for fifteen years or twenty years, with free water and exemption from taxation. The captain also proposes to establish a wrecking plant, to cost about $125,000, at North Sydney. The Dominion Government will give a bonus of 3 per cent. for the dry dock, and will, it is hoped, liberally subsidize the proposed wrecking plant, which would be of great advantage, as North Sydney occupies an exceptionally good position with relation to the St. Lawrence route.

—Mr. C. B. Foster, of Toronto, district passenger agent for the C.P.R. was in town yesterday.

—Adjutant Jennings left yesterday for Campbellford, where he will assist Brigadier Turner in the special meeting and return home to-night.

—Mr. Preuse, late of London, Eng., who has recently arrived in town, has joined the 57th Regiment band. He is an experienced musician, having been in the British army service for a number of years.

PETERBOROUGH, APRIL 1 1905

"THE FACTS"

Our esteemed and versatile contemporary, the Hamilton Spectator, in discussing the Separate school question, says that the rabid Separate school journal, the Toronto Star, claims that the readers of certain Toronto papers are not in possession of the facts concerning the Separate schools of Alberta and Saskatchewan, and the settlement arrived at in the amended clauses. The Star points out the information in seven clauses, which we reproduce here sandwiched between some remarks of a more or less appropriate nature:

1—That no person shall teach in the so-called Separate schools of the new provinces except those who hold provincial certificates.

We have that regulation in Ontario, but it is not observed. And the Christian Brothers recently made a strong endeavor in the courts to upset the law.

2—That the Public school inspectors shall have in every respect the same authority over the so-called Separate schools that they have over the Public schools.

We had that law in Ontario; but it was not satisfactory to the controllers of the Separate school, and the Mowat Government amended it and appointed Separate school inspectors.

3—That in the so-called Separate schools there shall be no religious emblems and no religious teaching during school hours.

This is only a quibble. The law permits of the shortening of the "school hours," that the religious teaching may be taken up in time which, in Public schools, is devoted to the teaching of secular subjects.

4—That in these so-called Separate schools there shall be no tuition except from the same books as are in use in the Public schools.

That is the regulation in Ontario; but it is ignored.

5—That where any so-called Separate school does not conform with the laws of the province concerning Public schools and meet the demands of the Public school inspectors as to efficiency, they shall be deprived of their Public school grant, and the provincial authorities are to judge of the matter.

That was the law here, before the appointment of Separate school inspectors, and, with a change in the title of the inspectors, is now; but it might as well never have been written.

6—That the only privilege Roman Catholics have in the new provinces is, that in any Public school section where they are in a majority or in any district where they are numerous enough and so inclined, they can elect Roman Catholic trustees, who may, if they choose, engage a Roman Catholic teacher—properly certificated, of course—and conforming with all the rules and regulations of the educational department of the province, conduct a Secular school open to all comers until 2.30 o'clock each day, after which there follows a half hour of religious instruction, which no pupil need attend except at the desire of the parents.

That is to say, the only privilege Roman Catholics have is the privilege of establishing and running Separate schools,—which are supposed to be governed by certain regulations that are not heeded. It may be mentioned incidentally that the very thing—the only thing—to which the British people of Canada object is "the only privilege" described by The Star: the privilege of Separate schools for a religious denomination.

7—That the giving of this half hour of religious instruction is as much the privilege of any Methodist, Presbyterian, Baptist, Anglican or any other denomination, as it is of the much-talked-of Hierarchy.

We do not think that the giving to other sects of a "privilege" they do not want, and will not have, is any excuse for giving to one sect a privilege which it does want.

The principal thing which The Spectator desires to point out is that it makes no difference what regulations parliament may now make for the governing of Separate schools in the new provinces, the schools once established there will be the cause of endless agitation, discord, strife and conspiracy, until the regulations give the church complete control. Give any sort of Separate school, and the rest will be taken by hook or by crook.

The experience of Ontario teaches that.

WINKELRIEDS AT PORT ARTHUR

A British correspondent with the Japanese army at Port Arthur describes an assault upon one of the Russian trenches. The assailants had "come to grips" with the defenders, and the stubborn firmness of the latter, with bayonets fixed, made them a solid wall. The correspondent concludes:

But it had to end. The old Colonel had fought his way through his own men to the very point of the struggle. He stood on the parapet, and his rich voice for a second curbed the fury of the wild creatures struggling beside him. "Throw yourselves on their bayonets, honorable comrades!" he shouted; "those who remain behind will do the rest." His men heard him, his officers heard him. Eight stalwarts dropped their rifles, held their hands above their heads, and flung themselves against the traverse. Before the Russian defenders could extricate the bayonets from their bodies the whole pack of the war dogs had surged over them. The trench was won.

This may be a rather highly colored picture, but the situation is easily imaginable, and the demand made on the devotion of the Japanese infantrymen was no greater than they are known to have met unhesitatingly at less decisive moments.

BIG GREY BULL RAN WILD

Scattered the Pedestrians on New York Streets

New York, April 1.—A big grey bull running wild to-day made a streak of excitement and panic clear across the city from west to east on the line of 42nd street. He sprang into public notice at 42nd street and Eighth avenue by knocking a bicycle rider down, and he ended his performance by jumping into the East River and swimming out to a reef south of Blackwell's Island, where he was lassoed and dragged away by some men in a rowboat.

It is supposed that the animal escaped from one of the west side stockyards. He appeared at 42nd street and Eighth avenue just as the matinee crowds were gathering, and there was a rush for shelter. After overturning a man on a bicycle he dashed through Times Square, scattering pedestrians right and left. Cab drivers got their vehicles tangled up in efforts to take to side streets, and the entrances of theatres, hotels and restaurants facing on the square were closed in a hurry.

After holding undisputed possession of the square for nearly fifteen minutes he continued the journey first to Bryant Park and then to Grand Central Station, where he knocked down a woman and a baby carriage. Then away he sped down to 36th street, where his attention was attracted by a woman attired in brilliant red. She ran for a doorway, but the animal was rapidly overtaking her when a man ran to her assistance and tricked the animal into turning toward him.

The rescuer then had a few busy minutes dodging around the elevated railroad pillars while a crowd of several hundred persons looked on from points of safety. When the man finally escaped the animal made a dash toward a crowd of people and children near the stairs of an elevated railroad station and then scattered another crowd waiting for a boat near a ferry house. He then crashed through the ferry gates and plunged into the river. In the river he swam out to a ledge of rocks south of Blackwell's Island and perched there until lassoed and hauled ashore.

"Let the GOLD DUST TWINS do your work"

Gold Dust Saves Time

"If time is money" GOLD DUST is surely a money-saver. What is the use of trying to wash dishes 1095 times a year without

Gold Dust Washing Powder

when it will cut your labors right in two?

The GOLD DUST way is the right way and should have the right-of-way over all other cleaners.

OTHER GENERAL USES FOR GOLD DUST: Scrubbing floors, washing clothes and dishes, cleaning woodwork, oil cloth, silverware and tinware, polishing brass work, cleansing bath room, pipes, etc., and making the finest soft soap.

Made by THE N. K. FAIRBANK COMPANY Montreal, P. Q.—Makers of FAIRY SOAP.

GOLD DUST makes hard water soft

FORTUNES ARE BEING MADE IN KANSAS OIL

Here's a fortune for you. Not 10% but 100% and no risk of loss. Giant of the Oil Fields.

The Midland Oil and Gas Company

has over 180 acres of oil land and has put down 10 wells, so the land is proved up. An adjoining additional 80 was secured yesterday, making over 260 acres all in the proven belt. Just read this:

The U. S. report on the oil industry places the average daily production of Pennsylvania wells at only one-half a barrel each per day. The Midland wells are pumping

Sixty Barrels a Day Each.

The pumping plant has just been started and this is the surprising result. Nothing like it in the world. The officers and directors of this company are bank men and do not believe in debts, so the company is free from debt. They have nearly $20,000 in cash and bills receivable in the treasury and everything paid for—property, wells, pumping plant, oil tanks, well cleaning machine and everything connected with the company. Have two drilling rigs working night and day sinking wells. Have abundance of gas, which runs the drills and pumping plant, so it only costs about $5.00 a day to produce and market the oil.

The Company has about 33 per cent of its stock in the treasury as a reserve.

For a short time the Company will sell a little more of its stock at only

7½ CTS. A SHARE

Buy all you can raise money to pay for.

We could talk all day about it and not cover all the strong points. But as the company has this grand property paid for, there is only one side to it, and that is profit. Don't buy stock in a company that tells you what they will do, but buy in this company, that has proved its property, and every dollar you put in makes it better. Send for particulars or mail check to

WM have 100 Wells
As soon as the drilling rigs can put them down.

From the Kansas City Journal, Feb. 26, 1905.

There is perhaps no people in the same amount of territory in the world who have increased in wealth so rapidly. Everybody is prosperous. Many once poor and hard working families have become immensely wealthy.

Hudge Hale, an old Frisco conductor, has become a millionaire off of oil. He got in the game early. Now he has money as well as oil and gas to burn.

Fred Hetrick, a farmer living near Chanute, had a hard time for years making both ends meet. Life was a hard proposition with him. His royalties now reach $1,000 a month and he is living on easy street.

Joe Helm, of the Kansas City brewery, took a flyer in oil leases. He first put in $500 and refused $12,000 for his investment. Later he put in a lot more money in gas and oil lands and is now figuring high.

George E. Work, the Chicago clothier, took some acres of land near Chanute for a debt a customer owed him. Work's partner refused to stand for the deal. So Work kept the land himself. He has since refused $50,000 for his holdings.

These are a few samples. Hundreds of farmers have become independently rich off their oil royalties, and hundreds of other men have made big money producing oil.

This Kansas oil bearing sand is like the Pennsylvania sand; wells will produce oil for fifty years.

Can give bank references, and dozens from people who have personally examined this great property.

NERVOUS DEBILITY

OUR NEW METHOD TREATMENT will cure you, and make a man of you. Under its influence the brain becomes active, the blood purified so that all pimples, blotches and ulcers heal up, the nerves become strong as Steel, so that nervousness, bashfulness and despondency disappear; the eyes become bright, the face full and clear, energy returns to the body, and the moral, physical and sexual systems are invigorated; all drains cease—no more vital waste from the system. The various organs become natural and manly. You feel yourself a man and know marriage cannot be a failure. We invite all the afflicted to consult us confidentially and free of charge. Don't let quacks and fakirs rob you of your hard-earned dollars. WE WILL CURE YOU OR NO PAY.

☞NO NAMES USED WITHOUT WRITTEN CONSENT.

THREATENED WITH PARALYSIS.

Peter E. Summers, of Kalamazoo, Mich., relates his experience:

"I was troubled with Nervous Debility for many years. I lay it to indiscretion and excesses in early youth. I became very despondent and didn't care whether I worked or not. I imagined everybody who looked at me, [illegible] my secret. Imaginative dreams at night weakened me—my back ached, had pains in the back of my [illegible] in the morning, poor [illegible] were shaky, eyes blurred, hair loose, memory poor, etc. Numbness in the fingers set in and the doctor told me he feared paralysis. I took all kinds of medicines and tried many first-class physicians, wore an electric belt for three months, went to Mt. Clemens for baths, but received little benefit. While at Mt. Clemens I was induced to consult Drs. Kennedy & Kergan, though I had lost all faith in doctors. Like a drowning man I commenced the New Method Treatment and it saved my life. The improvement was like magic—I could feel the vigor going through my nerves. I was cured mentally, physically and sexually. I have sent [illegible] and will continue to do so."

BEFORE TREATMENT AFTER TREATMENT

CURE GUARANTEED OR NO PAY.

We treat and cure VARICOCELE, STRICTURE, NERVOUS DEBILITY, BLOOD DISEASES, URINARY COMPLAINTS, KIDNEY AND BLADDER DISEASES.

CONSULTATION FREE. BOOKS FREE. If unable to call write for a Question Blank for Home Treatment.

C. P. R. TO BEAUTIFY THEIR STATIONS WITH FLOWERS

The floral department of the C.P.R. is issuing attractive folders, containing with the general information given, the following sentence: "We have conducted the flower scheme for seven years. This spring there will be at least a million tulips, crocuses and narcissus at the stations across Canada, to brighten, beautify and make home-like your environments."
